DIRECTORY NO. 3

1967-1968

This publication has been funded through Federal Grant OEG 1-7-673040-
2874, Title III Elementary-Secondary Education Act of 1965, PL 89-10.

PREFACE

Project ARISE (Adult Referral and Information Service in Education) of the Providence School Department compiled this directory of adult and continuing education programs, training opportunities, recreational pursuits, and cultural opportunities. The directory is intended to serve as a guide to adults who may wish to continue their education or training from any point, whatever the level at which they broke off, whatever their abilities and rates of learning, and whatever their goals. The book will also direct persons to programs in recreation, sports, cultural events and leisure activities.

Whether an individual wishes to take a course simply for his own intellectual stimulation, or to embark on a full scale academic or training program, this directory provides information about degree and non-degree opportunities that exist in Rhode Island colleges and universities; formal and informal education programs (for credit or non-credit) at the elementary and secondary levels; vocational training; and self-improvement and leisure pursuits. The college and university programs listed here are offered in separate adult divisions of the respective institutions; but courses which may be attended by adults, through special arrangement, within the regular under graduate programs are also noted.

For those who are uncertain about their educational qualifications or vocational plans, this directory lists institutions and other resources which make counseling and testing available to help individuals to find their goals, and/or direct them to appropriate educational and training programs. ARISE serves as a vital resource for counseling for these purposes, and for referral to various appropriate guidance agencies.

This book is a third edition. The first edition was published September, 1966, and was funded through a Federal Grant OEG-1-661374-0992, Title III, Elementary-Secondary Education Act of 1965 (PL 89-10). The second edition was funded partly under the same Federal Grant; and publication costs were provided by the Rhode Island Foundation. This third edition has been funded partly through a Federal Grant OEG-1-7-673040-2874, Title III, Elementary-Secondary Education Act of 1965 (PL 89-10); and duplication of the compilation was done by Progress for Providence and others.

We wish to express our appreciation, therefore, to the United State Office of Education, the Rhode Island Foundation, and Progress for Providence. We are also indebted to other organizations for various kinds of assistance: Educational Exchange of Boston; Providence Public Library; Rhode Island Council of Community Services, Inc.; Providence Planning Committee for Adult Education; Adult Education Division of the State Department of Education; Providence Neighborhood Youth Corps; and staff of Project ARISE of Providence School Department. We wish also to express our gratitude to Dr. Charles A. O'Connor, Jr., Superintendent of Providence Public Schools, and the Providence School Committee for their support and encouragement in this Project. Assistance of these individuals and of all who contributed in any way to the development of this reference book, is much appreciated and hereby acknowledged.
