Report No-OEO-4115

Pub Date Aug 68

Note-75p.

EDRS Price MF-\$0.50 HC-\$3.75

Descriptors-Bilingualism, \*Bilingual Students, Culturally Disadvantaged, Elementary School Students, Interpersonal Relationship, \*Manuals, \*Measurement Instruments, Preschool Children, \*Psychometrics, Rating Scales, Social Development, \*Socialization, Sociocultural Patterns, Sociometric Techniques, Spanish Americans

This battery of test instruments is one of a set of three developed for use in the study of bilingual (English-Spanish) instruction programs and other compensatory programs in Texas. The socialization inventory has been based on a sociological view of personality as a developing and changing entity. Four submeasures of socialization are included in this manual: (1) a measure of self-concept individually administered for preschoolers or group-administered for school-age children, (2) a behavior rating scale of a child's interpersonal behavior in an interview with the test administrator, (3) a behavior rating scale of a child's general social behavior in the classroom, and (4) a questionnaire given to parents of children in the bilingual programs. Directions for administering and rating each measure are given. Samples of the socialization measures and their rating sheets form the bulk of this report. (MS)

## NOTE

This battery of instruments, the Inventory of Socialization for Bilingual Children Ages Three to Ten, is one of a set of three batteries of experimental instruments developed at the Child Development Evaluation and Research Center by Edward J. Cervenka. The other two batteries are The Tests of Basic Language Competence in English and Spanish, Level I (Preschool) and Level II (Primary Grades). These batteries of instruments have been developed for use in the study of bilingual (English-Spanish) instruction programs and for other compensatory education programs in Texas. Normative and interpretative data on all three batteries, as well as suggestions for scoring and further revision, are presented in a separate Technical Report. Additional data relating to the performance of socially advantaged, monolingual English-speaking children on the English version of the Tests of Basic Language Competence in English and Spanish, Level II (Primary Grades), together with matters of a more theoretical psychometric and psycholinguistic nature, have been presented in Psychometric Aspects of Child Language by Edward J. Cervenka, Doctoral Dissertation, The University of Texas at Austin, January, 1969.

## INTRODUCTION

### Purpose and Uses of Battery

The Inventory of Socialization for Bilingual Children Ages Three to Ten has been produced as a tool for those concerned with the development of bilingual (English-Spanish) instruction programs at the preschool and primary grade levels. However, this battery can perhaps serve some of the need for appropriate instrumentation in a variety of compensatory education programs for the Mexican-American child in Texas.

This battery focuses on the broad area of the child's social and emotional development. It provides a means of taking account of some of the important variables which are involved in the education of Mexican-American children as a socially disadvantaged group. This battery of instruments has been developed primarily as a research tool. However, if used cautiously and wisely, it can provide descriptive information that would be useful to those concerned with program design and curriculum development and that would give teachers, counselors, and school administrators a basis for better understanding of individual children, their strengths as well as their needs and problems.

### Theoretical Rationale

The basic conception of personality which has guided the development of this battery is essentially sociological. Perhaps the most useful sociological definition which can be given to the term "personality" is, as Edward Sapir said, a symbolic one; namely, "the totality of those aspects of behavior which give meaning to an individual in society

and differentiate him from other members in the community, each of whom embodies countless cultural patterns in a unique configuration."<sup>1</sup> The sociological conception, moreover, takes personality to be a "gradually cumulative entity."<sup>2</sup> The choice of this conception of personality as a guide to the development of the present battery of instruments can be defended on various grounds. First, a view of personality as a "gradually cumulative entity" suggests a changeable and potentially quantitative sequence of development. Thus a sociological view of personality lends itself well to testing and measurement. The orthodox psychiatric conception of personality, i.e., as an essentially invariant reactive system, is rejected as less appropriate in the context of preschool and primary education. The sociological conception of personality, because it focuses on change, development, and growth, is the more optimistic one and therefore one which is more suitable for an educational context. It is one which it is thought teachers can use and appreciate.

### Description of Sub-Measures in Battery

Sub-Measure I in this battery, ME, MYSELF, and I: A Self Concept Test, is an adaptation to a bilingual context of the Brown-IDS Self Concept Referents Test.<sup>3</sup> This Sub-Measure, like Brown's instrument, derives its rationale from a sociological conception of the self, particularly from G. H. Mead and C. R. Rogers. According to Mead, "The self is not initially present at birth but arises in the process of social experience. It develops, in a given individual, as a result of his relations to the social system as a whole and to other individuals within that social system."<sup>4</sup> And according to Rogers, "...the self concept or self structure may be thought of as an organized configuration of the perceptions of the self which are admissible to an awareness. It is composed of such elements as the perceptions of one's characteristics and abilities, the percepts and concepts of the self in relation to others and to the environment."<sup>5</sup>

For this Sub-Measure, the child is asked to rate himself on sixteen items in terms of how he would be seen by the most significant

<sup>5</sup>C. R. Rogers. Client-Centered Therapy, Boston: Houghton-Mifflin, 1954, pp. 136-137.

individuals around him, namely, 1) the child himself, 2) his teacher, 3) his peers or classmates, 4) his mother and 5) his father.

Sub-Measure II, the Rating of Child's Interpersonal Behavior in an Interview, and III, Rating of Children's General Social Behavior in the Classroom, are behavior rating scales. They differ from one another primarily with respect to situation variable. Sub-Measure II is an inventory of the behavior of a child which can be observed in a brief interview or "interpersonal encounter." It is concerned with fine, specific, simple and ephemeral patterns of behavior. It also serves as an inventory of the factors affecting a child's performance on the language tests. Sub-Measure III is an inventory of the behavior of a child within his peer-group or class. It attempts to systematize the observations made of a child over a much longer period of time. It is concerned with gross, complex and persistent patterns of behavior over a period of one to four months time. This Sub-Measure must be completed by a person who has had extended contact with a child in the classroom, e.g., his teacher or a teacher aide. The behavioral items on this sub-measure have been grouped intuitively into nine scales:

- Orderliness
- Sexual Activities
- Nonconformity
- Symptoms of Paranoia
- Physical-Verbal Aggression
- Withdrawal Behavior
- Resistance, Negativism
- Nervous Lack of Control
- Exaggerated "Goodness"

Sub-Measure IV, Questionnaire for an Interview of Parents with Children in Bilingual Programs, provides for a sociological and linguistic survey of parents. This questionnaire can best be administered by a team of two interviewers. One interviewer (preferably a local resident) primarily takes the responsibility for relating to the interviewee as a person and establishing a friendly, open and mutual exchange; the second interviewer, primarily responsible for recording the information elicited, remains on the periphery of the interview situation. This latter individual should have some training in linguistic and sociologic fieldwork.

The parent questionnaire is broken down into six parts.

Part I is concerned with information about the child, e.g., aspects of his developmental history, his contact and experience with language, and his behavior in the home. It is likely that the information collected for Part I will lack reliability. However, much of this information provides an indirect indication of parents' attitudes toward child development, rearing and behavior.

Part II is concerned with the people living with the child, e.g., their number, sex, ages, kinship relations, occupation, education, and linguistic and ethnic group.

Part III is concerned with the educational aspirations which parents have for their child.

Part IV is a survey of parents' attitudes toward education.

PS001500

Part V involves a rating of the socioeconomic characteristic of the child's family and the type of home or dwelling area in which he lives.

Part VI of the questionnaire which is to be used during the course of the parent interview, is concerned with certain aspects of parental speech. The observations to be made on the language or languages of the parents relate directly to the language tests which are given the child, in particular Sub-tests Nos. 8 and 9 of Level I and Sub-tests Nos. 4 and 5 of Level II of the Tests of Basic Language Competence in English and Spanish. Basically, this part of the questionnaire provides for a quantification of the amount of grammatical interference in both the English and Spanish of the child's parents. By utilizing this information, it is possible to determine not only the amount of interference from a second language but also the amount of interference which is due to knowing a second or socially nonstandard dialect. It also provides a basis for discriminating between the effects of purely psycholinguistic, developmental factors and sociolinguistic factors in the child's linguistic performance on the language tests. For example, a child who says "catched" instead of "caught" or indicates by his response on a test that "catched" is acceptable, might be doing so for two different reasons: 1) developmental reasons, i.e., he has not yet mastered this anomaly in the grammatical system of standard English; 2) sociolinguistic reasons, i.e., he says "catched" and regards it as acceptable because this is what his parents say. This Sub-Measure provides a way of determining the influence of these two factors in a child's linguistic performance.

INVENTORY OF SOCIALIZATION  
ME, MYSELF AND I: A Self Concept Test\*  
(Sub-Measure of Socialization No. 1)

DIRECTIONS FOR GROUP ADMINISTRATION  
(School Children Ages 6-10)

The test administrator should first have the children fill out the top part of the first page of their answer sheets, giving assistance to individual children when necessary.

The test administrator is to read each incomplete statement which appears on the children's answer sheets and instruct them to complete the statement about themselves by putting an "X" in one of the five blocks. The test administrator should tell the children to mark a box only after they have read all five alternative ways of completing a statement. The children are to be assured that there are no right or wrong answers on this test. The answer in each case will depend completely on what they themselves think. The test administrator is to tell the children to mark the middle block (the "neither ...nor...") if they do not know how to complete a particular statement about themselves or if they do not have an opinion.

At the beginning of each part of the test, the test administrator should always read each of the five alternative ways of completing a

---

\*This test derives its theoretical rationale from G. H. Mead and C. R. Rogers and more immediately and specifically from B. R. Brown. Many of the items on this instrument have been borrowed and adapted from Brown's Brown-IDS Self Concept Referents Test, Institute for Developmental Studies, School of Education, New York University, New York, New York, 1967.

statement before the children attempt to mark. Once a group of children grasp what the general form of the scales is for the items, there will probably be no need for the test administrator to read each set of five alternatives to them. However, for the younger children taking the test, the test administrator will probably need to read each set of alternatives throughout the test.

The test administrator should give the preliminary directions in English or Spanish or in both languages and feel at liberty during the test to translate any statement or the alternative ways of completing a statement.

N. B. When the test administrator gives PART A: WHAT I THINK ABOUT MYSELF, he should substitute "YOU" for the "I" which appears on the children's answer sheets.

INVENTORY OF SOCIALIZATION  
ME, MYSELF AND I: A Self Concept Test  
(Sub-Measure of Socialization No. 1)

DIRECTIONS FOR INDIVIDUAL ADMINISTRATION  
(Preschool Children Ages 3-6)

In order to administer this Sub-Measure to young children, it is necessary to present each item in two stages. Using the first item of Part A as an illustration, the interviewer would first inquire of the child, "Do you think you are happy or sad?" or "Are you happy or sad?". Then, depending on the child's response, the interviewer can elicit a further breakdown of the scale in terms of "very" or "only a little." For instance, if the child responded to the first inquiry with "sad," the interviewer would say, "Do you think you are very sad or only a little sad?".

For some of the very young children, however, it might be better to utilize a slightly different method of elicitation, since children around the age of three have a tendency to respond with the last choice of a two choice question. As an alternative method of elicitation, the interview can begin by asking either, "Do you think you are happy?" or "Do you think you are sad?", or both, and elicit yes-no answers. Then, for the second stage breakdown of the scale, the interviewer can elicit yes-no answers in terms of "very" or "only a little." For example, if a child first answers, "Yes, I'm happy.", then the interviewer can ask either, "Do you think you are very happy?" or "Do you think you are only a little happy?".

In using either of these techniques, the interviewer can rate the child's response on the five-slot scale after the second stage of elicitation. If a child says he does not know, or does not wish to respond, or responds ambiguously, the interviewer can mark the midpoint in the scale. The interviewer can use the same answer sheet for recording the child's responses as is used for group administration.

## PART A: WHAT I THINK ABOUT MYSELF

INSTRUCTIONS: AFTER THE TEACHER READS EACH INCOMPLETE STATEMENT, YOU COMPLETE IT BY PUTTING AN "X" IN THE ONE BLOCK WHICH SHOWS WHAT YOU THINK ABOUT YOURSELF. BE SURE TO READ OR LISTEN TO ALL FIVE THINGS BEFORE YOU MARK.

- 
1. I THINK I AM.....
- VERY HAPPY.  
 ONLY A LITTLE HAPPY.  
 NEITHER HAPPY NOR SAD.  
 ONLY A LITTLE SAD.  
 VERY SAD.
- 

2. I THINK I AM.....
- VERY CLEAN.  
 ONLY A LITTLE CLEAN.  
 NEITHER CLEAN NOR DIRTY.  
 ONLY A LITTLE DIRTY.  
 VERY DIRTY.
- 

3. I THINK I AM.....
- VERY GOOD LOOKING.  
 ONLY A LITTLE GOOD LOOKING.  
 NEITHER GOOD LOOKING NOR UGLY.  
 ONLY A LITTLE UGLY.  
 VERY UGLY.
- 

4. I.....
- LIKE VERY MUCH.....  
 LIKE ONLY A LITTLE.....  
 NEITHER LIKE NOR DISLIKE.....TO PLAY WITH OTHER KIDS.  
 DISLIKE ONLY A LITTLE.....  
 DISLIKE VERY MUCH.....
-

- 
5. I LIKE TO HAVE.....
- MY OWN THINGS VERY MUCH.
  - MY OWN THINGS ONLY A LITTLE.
  - NEITHER MY OWN THINGS NOR OTHER KIDS' THINGS.
  - OTHER KIDS' THINGS ONLY A LITTLE.
  - OTHER KIDS' THINGS VERY MUCH.
- 

6. I THINK I AM.....
- VERY GOOD.
  - ONLY A LITTLE GOOD.
  - NEITHER GOOD NOR BAD.
  - ONLY A LITTLE BAD.
  - VERY BAD.
- 

7. I.....
- LIKE TO TALK VERY MUCH.
  - LIKE TO TALK ONLY A LITTLE.
  - NEITHER LIKE NOR DISLIKE TO TALK.
  - DISLIKE TO TALK ONLY A LITTLE.
  - DISLIKE TO TALK VERY MUCH.
- 

8. I THINK I AM.....
- VERY SMART.
  - ONLY A LITTLE SMART.
  - NEITHER SMART NOR STUPID.
  - ONLY A LITTLE STUPID.
  - VERY STUPID.
- 

9. I AM.....
- NOT AT ALL SCARED OF ANYTHING.
  - NOT SCARED OF SOME THINGS.
  - NEITHER SCARED NOR NOT SCARED OF SOME THINGS.
  - ONLY A LITTLE SCARED OF SOME THINGS.
  - VERY MUCH SCARED OF SOME THINGS.
- 

10. I.....
- LIKE VERY MUCH.....
  - LIKE ONLY A LITTLE.....
  - NEITHER LIKE NOR DISLIKE...THE WAY MY CLOTHES LOOK.
  - DISLIKE A LITTLE.....
  - DISLIKE VERY MUCH.....
-

- 
11. I.....
- LIKE VERY MUCH.....
  - LIKE ONLY A LITTLE.....
  - NEITHER LIKE NOR DISLIKE....THE WAY MY VOICE SOUNDS.
  - DISLIKE ONLY A LITTLE.....
  - DISLIKE VERY MUCH.....
- 

12. I AM.....
- NOT AT ALL SCARED OF ANYBODY.
  - NOT SCARED OF SOME PEOPLE.
  - NEITHER SCARED NOR NOT SCARED OF SOME PEOPLE.
  - ONLY A LITTLE SCARED OF SOME PEOPLE.
  - VERY MUCH SCARED OF SOME PEOPLE.
- 

13. I THINK MY BODY IS...
- VERY STRONG.
  - ONLY A LITTLE STRONG.
  - NEITHER STRONG NOR WEAK.
  - ONLY A LITTLE WEAK.
  - VERY WEAK.
- 

14. I.....
- LIKE VERY MUCH.....
  - LIKE ONLY A LITTLE.....
  - NEITHER LIKE NOR DISLIKE....THE SOUND OF MY NAME.
  - DISLIKE ONLY A LITTLE.....
  - DISLIKE VERY MUCH.....
- 

15. I THINK MY BODY IS...
- VERY HEALTHY.
  - ONLY A LITTLE HEALTHY.
  - NEITHER HEALTHY NOR SICKLY.
  - ONLY A LITTLE SICKLY.
  - VERY SICKLY.
- 

16. I.....
- LIKE VERY MUCH.....
  - LIKE ONLY A LITTLE.....
  - NEITHER LIKE NOR DISLIKE....THE WAY MY FACE LOOKS.
  - DISLIKE ONLY A LITTLE.....
  - DISLIKE VERY MUCH.....
-

## PART B: WHAT MY TEACHER THINKS ABOUT ME

- 
1. MY TEACHER THINKS I AM...  VERY HAPPY.  
 ONLY A LITTLE HAPPY.  
 NEITHER HAPPY NOR SAD.  
 ONLY A LITTLE SAD.  
 VERY SAD.
- 

2. MY TEACHER THINKS I AM...  VERY CLEAN.  
 ONLY A LITTLE CLEAN.  
 NEITHER CLEAN NOR DIRTY.  
 ONLY A LITTLE DIRTY.  
 VERY DIRTY.
- 

3. MY TEACHER THINKS I AM...  VERY GOOD LOOKING.  
 ONLY A LITTLE GOOD LOOKING.  
 NEITHER GOOD LOOKING NOR UGLY.  
 ONLY A LITTLE UGLY.  
 VERY UGLY.
- 

4. MY TEACHER THINKS I...  LIKE VERY MUCH.....  
 LIKE ONLY A LITTLE.....  
 NEITHER LIKE NOR DISLIKE...TO PLAY WITH OTHER KIDS  
 DISLIKE ONLY A LITTLE.....  
 DISLIKE VERY MUCH.....
- 

5. MY TEACHER THINKS I LIKE TO HAVE.....  MY OWN THINGS VERY MUCH.  
 MY OWN THINGS ONLY A LITTLE.  
 NEITHER MY OWN NOR OTHER KIDS' THINGS.  
 OTHER KIDS' THINGS ONLY A LITTLE.  
 OTHER KIDS' THINGS VERY MUCH.
- 

6. MY TEACHER THINKS I AM...  VERY GOOD.  
 ONLY A LITTLE GOOD.  
 NEITHER GOOD NOR BAD.  
 ONLY A LITTLE BAD.  
 VERY BAD.
-

- 
7. MY TEACHER THINKS I...  LIKE TO TALK VERY MUCH.  
 LIKE TO TALK ONLY A LITTLE.  
 NEITHER LIKE NOR DISLIKE TO TALK.  
 DISLIKE TO TALK ONLY A LITTLE.  
 DISLIKE TO TALK VERY MUCH.
- 
8. MY TEACHER THINKS I AM.  VERY SMART.  
 ONLY A LITTLE SMART.  
 NEITHER SMART NOR STUPID.  
 ONLY A LITTLE STUPID.  
 VERY STUPID.
- 
9. MY TEACHER THINKS I AM.  NOT AT ALL SCARED OF ANYTHING.  
 NOT SCARED OF SOME THINGS.  
 NEITHER SCARED NOR NOT SCARED OF SOME THINGS.  
 ONLY A LITTLE SCARED OF SOME THINGS.  
 VERY MUCH SCARED OF SOME THINGS.
-

## PART C: WHAT MY CLASSMATES THINK ABOUT ME

1. MY CLASSMATES THINK I AM....

- VERY HAPPY.  
 ONLY A LITTLE HAPPY.  
 NEITHER HAPPY NOR SAD.  
 ONLY A LITTLE SAD.  
 VERY SAD.

2. MY CLASSMATES THINK I AM....

- VERY CLEAN.  
 ONLY A LITTLE CLEAN.  
 NEITHER CLEAN NOR DIRTY.  
 ONLY A LITTLE DIRTY.  
 VERY DIRTY.

3. MY CLASSMATES THINK I AM....

- VERY GOOD LOOKING.  
 ONLY A LITTLE GOOD LOOKING.  
 NEITHER GOOD LOOKING NOR UGLY.  
 ONLY A LITTLE UGLY.  
 VERY UGLY.

4. MY CLASSMATES THINK I.....

- LIKE VERY MUCH.....  
 LIKE ONLY A LITTLE.....  
 NEITHER LIKE NOR DISLIKE...TO PLAY WITH OTHER KIDS  
 DISLIKE ONLY A LITTLE.....  
 DISLIKE VERY MUCH.....

5. MY CLASSMATES THINK I LIKE TO HAVE.....

- MY OWN THINGS VERY MUCH.  
 MY OWN THINGS ONLY A LITTLE.  
 NEITHER MY OWN THINGS NOR OTHER KIDS' THINGS.  
 OTHER KIDS' THINGS ONLY A LITTLE.  
 OTHER KIDS' THINGS VERY MUCH.

6. MY CLASSMATES THINK I AM....

- VERY GOOD.  
 ONLY A LITTLE GOOD.  
 NEITHER GOOD NOR BAD.  
 ONLY A LITTLE BAD.  
 VERY BAD.

7. MY CLASSMATES THINK I.....

- LIKE TO TALK VERY MUCH.  
 LIKE TO TALK ONLY A LITTLE.  
 NEITHER LIKE NOR DISLIKE TO TALK.  
 DISLIKE TO TALK ONLY A LITTLE.  
 DISLIKE TO TALK VERY MUCH.

8. MY CLASSMATES THINK I AM....

- VERY SMART.  
 ONLY A LITTLE SMART.  
 NEITHER SMART NOR STUPID.  
 ONLY A LITTLE STUPID.  
 VERY STUPID.

9. MY CLASSMATES THINK I AM....

- NOT AT ALL SCARED OF ANYTHING.  
 NOT SCARED OF SOME THINGS.  
 NEITHER SCARED NOR NOT SCARED OF SOME THINGS.  
 ONLY A LITTLE SCARED OF SOME THINGS.  
 VERY MUCH SCARED OF SOME THINGS.

10. MY CLASSMATES.....

- LIKE VERY MUCH.....  
 LIKE ONLY A LITTLE.....  
 NEITHER LIKE NOR DISLIKE...THE WAY MY CLOTHES LOOK  
 DISLIKE ONLY A LITTLE.....  
 DISLIKE VERY MUCH.....

11. MY CLASSMATES.....

- LIKE VERY MUCH.....  
 LIKE ONLY A LITTLE.....  
 NEITHER LIKE NOR DISLIKE...THE WAY MY VOICE SOUNDS  
 DISLIKE ONLY A LITTLE.....  
 DISLIKE VERY MUCH.....

12. MY CLASSMATES THINK I AM.....

- NOT AT ALL SCARED OF ANYBODY.  
 NOT SCARED OF SOME PEOPLE.  
 NEITHER SCARED NOR NOT SCARED OF SOME PEOPLE.  
 ONLY A LITTLE SCARED OF SOME PEOPLE.  
 VERY MUCH SCARED OF SOME PEOPLE.

---

13. MY CLASSMATES THINK I AM...  VERY STRONG.  
 ONLY A LITTLE STRONG.  
 NEITHER STRONG NOR WEAK.  
 ONLY A LITTLE WEAK.  
 VERY WEAK.

---

14. MY CLASSMATES...  LIKE VERY MUCH.....  
 LIKE ONLY A LITTLE.....  
 NEITHER LIKE NOR DISLIKE...THE SOUND OF MY NAME.  
 DISLIKE ONLY A LITTLE.....  
 DISLIKE VERY MUCH.....

---

15. MY CLASSMATES THINK I AM...  VERY HEALTHY.  
 ONLY A LITTLE HEALTHY.  
 NEITHER HEALTHY NOR SICKLY.  
 ONLY A LITTLE SICKLY.  
 VERY SICKLY.

---

16. MY CLASSMATES...  LIKE VERY MUCH.....

## PART D: WHAT MY MOTHER THINKS ABOUT ME

- 
1. MY MOTHER THINKS I AM.....
- VERY HAPPY.
  - ONLY A LITTLE HAPPY.
  - NEITHER HAPPY NOR SAD.
  - ONLY A LITTLE SAD.
  - VERY SAD.
- 

2. MY MOTHER THINKS I AM.....
- VERY CLEAN.
  - ONLY A LITTLE CLEAN.
  - NEITHER CLEAN NOR DIRTY.
  - ONLY A LITTLE DIRTY.
  - VERY DIRTY.
- 

3. MY MOTHER THINKS I AM.....
- VERY GOOD LOOKING.
  - ONLY A LITTLE GOOD LOOKING.
  - NEITHER GOOD LOOKING NOR UGLY.
  - ONLY A LITTLE UGLY.
  - VERY UGLY.
- 

4. MY MOTHER THINKS I.....
- LIKE VERY MUCH.....
  - LIKE ONLY A LITTLE.....
  - NEITHER LIKE NOR DISLIKE...TO PLAY WITH OTHER KIDS
  - DISLIKE ONLY A LITTLE.....
  - DISLIKE VERY MUCH.....
- 

5. MY MOTHER THINKS I LIKE TO HAVE.....
- MY OWN THINGS VERY MUCH.
  - MY OWN THINGS ONLY A LITTLE.
  - NEITHER MY OWN THINGS NOR OTHER KIDS' THINGS.
  - OTHER KIDS' THINGS ONLY A LITTLE.
  - OTHER KIDS' THINGS VERY MUCH.
- 

6. MY MOTHER THINKS I AM.....

INVENTORY OF SOCIALIZATION  
RATING OF CHILD'S INTERPERSONAL BEHAVIOR  
IN AN INTERVIEW  
(Sub-Measure of Socialization No. 2)

26

GENERAL DIRECTIONS FOR THE RATER

This rating form provides for an inventory of the observed interpersonal behavior of a child in an interview. The content of the interview is provided by two sub-tests from the Tests of Basic Language Competence in English and Spanish, Level I\*, Comprehension of Commands and Directions (Sub-test No. 2) and Recognition of Interrogative Patterns (Sub-test No. 3). This rating form is to be completed immediately after each interview (i.e., immediately after the administration of Sub-tests Nos. 2 and 3).

This instrument, in contrast to the Rating of Children's General Social Behavior in the Classroom, is concerned with fine, specific, simple and ephemeral patterns of behavior which can be observed in a 10 to 15 minute interview. Among other things, this instrument serves as an inventory of the factors affecting a child's test performance.

The interviewer-observer-rater who completes this form is to rate the child's behavior in the interview which has just been given, in terms of the frequency, amount or intensity of each of the specific

---

\*This Sub-Measure can be used at Level II, with children ages 6 to 10 if a similar and appropriate interview content is supplied. It can also be used, though probably with less reliability, to rate any distant (i.e., not immediate in time) casual interview or conversation with a child.

behavioral patterns described on the LIST OF BEHAVIORAL PATTERNS. In the spaces provided for each behavioral pattern on the separate individual rating sheet, he is to write the number which indicates the extent to which each behavioral pattern accurately described the actual behavior of a child in the interview in terms of the following scale:

- 7 = Always behaved this way in the interview
- 6 = Almost always behaved this way in the interview
- 5 = Very often behaved this way in the interview
- 4 = Usually behaved this way in the interview
- 3 = Infrequently behaved this way in the interview
- 2 = Rarely behaved this way in the interview
- 1 = Never behaved this way in the interview

In rating each behavioral pattern of the child in the interview, the interviewer-observer-rater should be very careful to base his judgment on his own immediately preceding observations and subjective experience with the child in the interview and not on his opinions about how the child would or should behave in the interview or elsewhere. It is advisable that the rater read over the LIST OF BEHAVIORAL PATTERNS before the interview is given in order to have specific guidelines for his observations and subjective impressions.

## LIST OF BEHAVIORAL PATTERNS (Sub-Measure of Socialization No. 2)

1. The child responded quickly, without hesitation.
2. The child's attention wandered, e.g., he looked out the window or under the table, he looked for the source of extraneous noise.
3. The child responded impulsively, without adequate delay.
4. The child enjoyed doing the things asked of him, e.g., he said so, he smiled, he expressed delight, etc.
5. The child reiterated a stylized gesture or pattern of body motion.
6. The child's responses were a phrase or sentence.
7. The child seemed threatened or cowed by the interviewer or situation, e.g., he was overly polite.
8. The child seemed tense, over-anxious during the interview, his voice sounded tense or it quavered.
9. The child responded to the interviewer's smile in a like manner.
10. The child moved about, wiggled or changed positions in his chair.
11. The child understood all of the questions and directions of the interviewer.
12. The child's eyelids were partially closed, e.g., appearing tired, sleepy or dreamy.
13. The child appeared excessively or unduly afraid, e.g., he turned pale.

14. The child pronounced words with distinctive articulation.
15. The child pouted, wore a prolonged frown during the interview.
16. The child seemed to accept the situation and the interview in a "matter of fact" manner.
17. The child asked questions to clarify what was expected of him.
18. The child tried to talk to the interviewer or initiate conversation about matters other than the interview.
19. The child showed interest in the interviewer by asking questions of a personal, curious or friendly nature.
20. The child looked at the interviewer after each of his responses for an indication of its appropriateness or for approval or disapproval.
21. The child tended to return the interviewer's looks and glances, e.g., there was frequent eye contact between the child and interviewer.
22. The child tried to maintain considerable physical distance between himself and the interviewer, i.e., more than two to three feet.
23. The child approached the interviewer very closely or tried to touch him.
24. The child fidgeted, played with himself, his clothes, or his chair.
25. The child seemed embarrassed during the interview, e.g., he blushed, looked down.

26. The child touched his face or head with his hands during the interview.
27. The child bit his lip or his nails during the interview.
28. The child stuttered, i.e., spoke with spasmodic repetitions of syllables.
29. The child avoided the glance of the interviewer for prolonged periods of time.
30. The child tended to crouch or slump down in his chair during the interview.
31. The child responded in a barely audible voice.
32. The child responded in the language with which he was addressed.
33. The child signaled to the interviewer by means of word, interjection or gesture to repeat questions and directions.
34. The child blinked his eyes excessively during the interview.
35. The child appeared unsure of his responses, e.g., by putting a rising intonation on statements.
36. The child answered in a loud voice.
37. The child corrected his own errors in his verbal responses.
38. The child was cooperative in following the directions of the interviewer.

39. The child appeared to be amused by the interview, e.g., he laughed or giggled.
40. The child expressed some form of irritation or anger toward the interviewer, e.g., he threatened or chided verbally, his face became "flushed with anger," his brow was pulled downward and his eyes "narrowed in anger."

COMMENTS:

INVENTORY OF SOCIALIZATION  
RATING OF CHILDREN'S GENERAL SOCIAL BEHAVIOR IN THE CLASSROOM\*  
(Sub-Measure of Socialization No. 3)

33

GENERAL DIRECTIONS FOR THE RATER

This rating form provides for an inventory of the observed social behavior of children in the classroom. It is to be completed by an individual who has had extended contact with a child in a classroom. In most cases the individual completing it will be the child's teacher or a teacher aide.

This instrument, in contrast to the Rating of Child's Interpersonal Behavior in an Interview (Sub-Measure No. 2), is concerned with gross, complex and persistent patterns of behavior which are general and which extend over a period of one to four months time.

The observer who completes this form is to rate the child's behavior in the classroom in terms of the frequency, amount or intensity of each behavioral pattern specified on the LIST OF BEHAVIORAL PATTERNS. In the spaces provided for each behavioral pattern on the separate rating sheet, the observer is to write the number which indicates the extent to which each behavioral pattern accurately described

---

\*Many of the items on the LIST OF BEHAVIORAL PATTERNS have been borrowed and adapted with permission from the IRCOPPS (Interprofessional Research Commission on Pupil Personnel Services) report Child Behavior Consultation in Elementary Schools: A Demonstration and Research Program, by John Pierce-Jones, Ira Iscoe and Grover Cunningham, Jr., Part of a Final Report by the Personnel Services Research Center, The University of Texas at Austin, April, 1968.

the actual behavior of a child in his classroom in terms of the following scale:

- 7 = Always behaves this way
- 6 = Almost always behaves this way
- 5 = Very often behaves this way
- 4 = Usually behaves this way
- 3 = Infrequently behaves this way
- 2 = Rarely behaves this way
- 1 = Never behaves this way

In rating each behavioral pattern of the child, the observer should be careful to base his judgment on his own personal observation of an experience with a child in the classroom and not on his opinions about how the child would or should behave in the classroom or elsewhere. If an observer has noted that significant changes have occurred in the behavior of a child during the period of contact or observation, he is to rate the child's most recent characteristic behavior patterns.

## LIST OF BEHAVIORAL PATTERNS (Sub-Measure of Socialization No. 3)

1. Puts up argument when told he (she) can't do something.
2. Is quick to notice and react negatively to kindness or attention shown to other children.
3. Refuses to conform to ceremonials--flag salute, devotional, etc.
4. Says "You like Billy more", "You gave him (her) more than you did me," etc.
5. Insults other children whose social and ethnic background is different from his (her) own.
6. Complains about grades, questions teacher's grading system.
7. Rises in class and opens or closes windows without permission.
8. Withdraws, remains quiet, does not talk back when others shove, hit, accuse, or criticize him.
9. Works seriously and earnestly at classwork.
10. Hits smaller children, "picks on" weaker or smaller children.
11. Is upset when he (she) makes a mistake or does not perform well.
12. Hurts other children (pinches, hits, kicks or engaged in other aggressive acts).
13. Expresses desire to "get ahead," to accomplish, to become great or famous.
14. Makes vulgar signs with hands and fingers.
15. Acts promptly without grumbling, sometimes does more than asked, says "All right," etc.
16. Looks out of window and just shuts out rest of class and teacher.
17. Is very neat, careful and methodical in performing tasks.
18. Expresses worry or concern about bad grades, health, etc.
19. Erases board when it says "save" or "do not erase."
20. Performs below demonstrated ability.

21. Marks in school books or library books.
22. Doesn't take advantage of opportunity when teacher comes before school or stays late to give individual help.
23. Expresses appreciation of others' acts.
24. Starts to do things before he (she) understands the directions.
25. Asks to do assignment differently than given.
26. Jumps from one activity to next; does not finish tasks.
27. Finishes task last, asks for help, makes mistakes.
28. Dresses up "older" than his (her) own age group.
29. Refuses to wait his (her) turn.
30. Gets school books dirty and torn.
31. Handles own private bodily parts.
32. Walks out during class when ordered to do something.
33. Shakes head, looks blank or puzzled, states "I don't know" when words he (she) previously understood are spoken to him (her).
34. "Gets into everything," "swarms all over."
35. Chatters, keeps talking or interrupting conversation.
36. Leaves seat to sharpen pencil--walk around room.
37. Writes on desk.
38. Threatens teacher verbally.
39. Sticks gum on desks.
40. Is left alone by other children.
41. Pulls other children's hair, punches them, steps on toes.
42. Bites nails.

43. Fails to carry out tasks (school assignments).
44. Says "Others are to blame" for own actions.
45. Throws things in class.
46. Plays kissing games.
47. His (her) actions are often imitated by other children.
48. Stuffs waste paper into desk instead of waste basket.
49. Shows affection, appreciation or courtesy toward teacher.
50. Does not prepare for tests.
51. Carves on desk.
52. Doesn't participate.
53. Tickles another child of the opposite sex.
54. Teases other children.
55. Yells in class.
56. Tells smutty jokes.
57. Quits or shows anger when loses.
58. Complains "Nobody loves me."
59. Refuses to go along with class decisions.'
60. Doesn't do homework.
61. Leaves tasks unfinished.
62. Is helpful, sympathetic, considerate and thoughtful toward other children.
63. Takes away objects other children are using.
64. Makes derogatory statements about his (her) own cultural and ethnic background.
65. States "I'll get even!" "You won't get away with that!" "I'll show him."
66. Does not take orders when other children are in charge.

67. Is easily upset by changes in things around him (her).
68. Complains "nobody likes me."
69. Says, "I can't do it." "I'm not any good at that." Leaves task when he (she) fails.
70. Reads library books when assignment is not done.
71. Has to get a drink of water while in class.
72. Is quiet and tries to escape notice of teacher.
73. Accepts correction from the teacher pleasantly.
74. Has to go to bathroom while in class.
75. Does not participate in group activities, stays in background.
76. Fails to sit up straight or pay attention to class discussion.
77. Demands "his (her) shares," "his (her) rights," and complains of unfairness even when equal shares or privileges have been distributed.
78. Says "Everyone picks on me."
79. Jumps up from seat unnecessarily.
80. Never shows enthusiasm for school work.
81. Writes "dirty things."
82. Does not like to exert self physically.
83. Chews on pencil.
84. Copies the written work of other children.
85. Daydreams.
86. Draws "dirty" pictures.
87. Leaves waste paper on floor.
88. Use dirty language.
89. Taps foot or drums fingers in class.
90. Passes dirty pictures.

INVENTORY OF SOCIALIZATION  
QUESTIONNAIRE FOR AN INTERVIEW OF PARENTS WITH CHILDREN  
IN BILINGUAL PROGRAMS  
(Sub-Measure of Socialization No. 4)

PRELIMINARY REMARKS TO PARENT OR GUARDIAN\*

This questionnaire is being given to parents or guardians whose children are attending experimental bilingual programs in pre-school and primary grades. Since these programs are new in Texas, more information and knowledge is needed to help determine the best ways to carry out such programs and to determine the positive and negative effects, if any, of such a program on children of various ages and backgrounds. The information obtained by means of this survey will be used to study, evaluate and improve the school program in your local community; therefore, your help in collecting this information will be appreciated very much. We ask that you provide this information by filling in or checking the appropriate blanks or spaces.

The information you provide on this questionnaire will, of course, be confidential and you can be assured that no individual will be identified by name or otherwise in any written or oral report.

The information provided by you on this questionnaire will be used in connection with other information about the language learning and development of the children in your local community which has been obtained this year by means of a comprehensive, experimental testing program.

---

\*The interviewer should permit the interviewee to select the language of the interview, i.e., whether it be conducted in English or Spanish.

INVENTORY OF SOCIALIZATION  
 QUESTIONNAIRE FOR AN INTERVIEW OF PARENTS WITH CHILDREN  
 IN BILINGUAL PROGRAMS  
 (Sub-Measure of Socialization No. 4)

INTERVIEWER'S QUESTIONNAIRE\*

I. Information about the child

1. Child's name \_\_\_\_\_  
 (First, middle and last names)
2. Child's birthdate \_\_\_\_\_  
 (Day) (Month) (Year)
3. Child's grade in school or program
  - Preschool (for example, Kindergarten, Nursery School, Head Start, etc.)
  - First grade
  - Second grade
  - Third grade
  - Fourth grade
  - Fifth grade
4. Name of child's school \_\_\_\_\_  
 (School's location)
5. Name of child's teacher in school \_\_\_\_\_
6. Child's sex  Male  
 Female
7. Where child was born \_\_\_\_\_  
 (Name of town or city) (Name of state of U. S. or foreign country)
8. This child is the \_\_\_\_\_ (1st, 2nd, 3rd, 4th, 5th and so on)  
 of \_\_\_\_\_ (how many) children in family.

---

\*Many of the items on this questionnaire have been adapted from OED Form Cap-HS, Washington, D.C., 1966, Parent Interviews (University of Chicago, Graduate School of Education, Chicago, 1967) and the Addendum to the Parent Interview, CDERC (Southwest), (Austin, 1967).

9. About at what age did child begin to talk (that is, begin to name things around him)?

Check one  Before age 8 months

Between age 9 and 11 months

Between age 12 and 14 months

Between age 15 and 17 months

Between age 18 and 20 months

Between age 21 and 24 months

Between age 2 and 2½ years

Between age 2½ and 3 years

After age 3 years

10. Child's hand preference (that is, the hand child usually uses)

Right hand

Left hand

11. Did child have any difficulties with handedness or hand preference (choosing which hand to use) at age 3 to 5 years?

No

Yes

12. Did parents (or guardian) discourage child to use his (her) left hand?

No

Yes

13. Has child ever been retained (held back) in grade at school?

No

Yes

14. How much does child like to talk at home at the present time?

- None at all
- Very little
- A little
- Some
- An average amount
- A lot
- Very much

15. About at what age did child begin to walk by himself (herself)?

- Before age 8 months
- Between age 9 and 11 months
- Between age 12 and 14 months
- Between age 15 and 17 months
- Between age 18 and 20 months
- Between age 21 and 24 months
- Between age 2 and 2½ years
- After age 2½ years

16. Did parents or guardian use any particular guide in raising their child? (For example, the books of Spock, Gesell, etc.)

- No
- Yes

17. The first language child learned at home was

- English
- Spanish
- English and Spanish at same time
- Other \_\_\_\_\_  
(Please specify)

18. Did child have any preschool training?

- No
- Nursery School
- Day Care Center
- Kindergarten
- Head Start
- Other \_\_\_\_\_  
(Please specify)

19. Indicate the following facts about child's birth: (Check as many as appropriate)

- Normal birth
- Child was born early (premature) \_\_\_\_\_  
(Please specify number of weeks premature)
- Child was born late
- Complications at birth (for example, a long period of labor)
- Child was delivered at home
- Child was delivered in hospital
- Mother of child received prenatal (before birth) care
- Other important facts \_\_\_\_\_  
(Please specify)

20. Has child had (or presently does have) any physical handicap or major health problem which might affect his (her) school work?

- None
- Heart
- Hearing
- Vision
- Speech
- Muscular coordination
- Serious falls or illnesses (besides childhood diseases)
- Other \_\_\_\_\_ (Please specify)

21. Indicate which language or if both languages is/are usually used to speak to child by the following people in his (her) family:

	<u>English</u>	<u>Spanish</u>	<u>Both English and Spanish</u>
Mother	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Father	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Sister(s)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Brother(s)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other Children who are relatives	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other Adults who are relatives	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

22. Indicate which language or languages child is exposed to by means of each of the following:

	<u>English</u>	<u>Spanish</u>	<u>Both English and Spanish</u>
Television	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Radio	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Movies	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Books	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Newspapers	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Magazines	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Telephone	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Record Player	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other _____ (Specify)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

26. Did child speak Spanish before he (she) entered school for the first time?

Not at all

A little

Some

Yes

27. We all know that our children make us mad (angry) at times. When this happens what language or languages do you (the parents or guardians) use to scold or reprimand child:

	<u>English</u>	<u>Spanish</u>	<u>Both English and Spanish</u>
Mother	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Father	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

28. When child does something very well or makes you very happy about something which language or languages do you praise or encourage him (her) in:

	<u>English</u>	<u>Spanish</u>	<u>Both English and Spanish</u>
Mother	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Father	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

29. Children are often afraid of different things. This question is about unusual or exaggerated fears a child has. Is this child very much or overly afraid of:

Darkness?

Very often

Occasionally

Never

Don't know

No information

Thunder and Lightning?

Very often

Occasionally

Never

Don't know

No information

Doctors?

Very often

Occasionally

Never

Don't know

No information

29. (Continued) Is child very much or overly afraid of:

Hurting Himself (Herself)  
by falling?

- Very often  
 Occasionally  
 Never  
 Don't know  
 No information

School people, teachers,  
Principals?

(Please specify)

- Very often  
 Occasionally  
 Never  
 Don't know  
 No information

30. Do you notice any differences in child since he (she) started attending a bilingual school?

Yes

No

If yes, what kinds of differences?

Causes more trouble at home

Causes less trouble at home

Talks more

Talks less

Speaks English better

Speaks Spanish better

More self-confident

Less self-confident

Gets along better with other children

Better able to do things on his own

Interested in new things

Likes school better

Other \_\_\_\_\_  
(Please specify)

II. Information about people living with the child

31. Is there a father, step-father, or foster father living with child?

- Father  Foster father  
 Step-father  No

If an affirmative answer is checked, how old is he?

- Less than 21 years old  
 21 to 30 years old  
 31 to 40 years old  
 41 to 54 years old  
 55 to 64 years old  
 65 or older

32. Is there a mother, step-mother, or foster mother living with child?

- Mother  Foster mother  
 Step-mother  No

If an affirmative answer is checked, how old is she?

- Less than 21 years old  
 21 to 30 years old  
 31 to 40 years old  
 41 to 54 years old  
 55 to 64 years old  
 65 or older

33. If there is no father or mother at home, who is child's guardian (the person chiefly responsible for the child's care)?

- A brother, uncle, grandfather, or other male relative  
 A sister, aunt, grandmother, or other female relative  
 A man--not related  
 A woman--not related

33. (Continued) If an affirmative answer is checked, how old is guardian?

Less than 21 years old

21 to 30 years old

31 to 40 years old

41 to 54 years old

55 to 64 years old

65 or older

34. Are there any brothers or sisters living at home?

Yes

No

If yes is checked, how many?

	Number
Under 6 years old?	<input type="text"/>

6 to 10 years old?	<input type="text"/>
--------------------	----------------------

11 to 15 years old?	<input type="text"/>
---------------------	----------------------

16 to 21 years old?	<input type="text"/>
---------------------	----------------------

22 years or older?	<input type="text"/>
--------------------	----------------------

35. How many children did parents have that died at birth, infancy or early childhood?

None

1 child

2 children

3 children

4 children

5 or more children

39. Where were parents (or guardian) of child born?

Father (or male guardian) \_\_\_\_\_  
 (Town or city) (State of U.S. or Foreign Country)

Mother (or female guardian) \_\_\_\_\_  
 (Town or city) (State of U.S. or Foreign Country)

40. What is the usual occupation of child's parent or guardian?  
 (For example, farmer, clerk, carpenter, laborer, housewife, etc.)

Father or male guardian \_\_\_\_\_

Mother or female guardian \_\_\_\_\_

41. The home where child lives is

on a farm

in the country, but not on a farm

in the suburb or on the outskirts of a city or town

in a small town (under 1,000 population)

in a small city (1,000 - 25,000 population)

in a city (25,000 to 100,000 population)

in a large city (over 100,000 population)

42. Has the bilingual school made any changes in your life -- apart from changes in child?

Yes

No

If yes is checked, please indicate what kinds of change or changes?

Made new friends

Changed opinions about the Anglo or the Mexican-American

Attended more PTA meetings and conferences

Learned more about raising children

Learned more from children

Started reading more

Became more interested in child's schooling

Other \_\_\_\_\_  
 (Please specify)

43. First or native language of parents or guardian (that is, first language parent or guardian learned as a child)?

Father or male guardian English Spanish French German Indian Other \_\_\_\_\_  
(Please specify)Mother or female guardian English Spanish French German Indian Other \_\_\_\_\_  
(Please specify)

44. What national or ethnic origin do you (the parents or guardian of the child) usually claim other than "American". (Check more than one if appropriate)

Father or male guardian English Mexican Spanish Negro Irish Scotch German French Italian Indian Swedish Polish Czech Other \_\_\_\_\_  
(Please specify)Mother or female guardian English Mexican Spanish Negro Irish Scotch German French Italian Indian Swedish Polish Czech Other \_\_\_\_\_  
(Please specify)

## III. Parents' educational aspirations for the child.

45. If you could have your wish, and your child had the opportunity, how far in the school would you like for your child to go? (Check highest answer that applies)

- Finish Grade School
- Attend Junior High School
- Take Vocational Work in High School
- Finish High School
- Take Vocational Work After High School
- Go to College
- Finish College
- Go to Graduate or Professional School (to become a professor, doctor, lawyer, etc.)
- Will leave decision to child

46. Since things don't always turn out the way we want them to, how far do you think your child will probably or actually go in school? (Check highest answer that applies)

- Finish Grade School
- Attend Junior High School
- Take Vocational Work in High School
- Finish High School
- Take Vocational Work After High School
- Go to College
- Finish College
- Go to Graduate or Professional School (to become a professor, doctor, lawyer, etc.)
- Will leave decision to child

## IV. Parents' Attitudes About Education and Bilingual Schooling

This part of the questionnaire gives you the opportunity to express your recommendations, opinions, concerns, feelings, etc. about the education and bilingual schooling of your child/children. Please indicate your agreement or disagreement with the following statements by placing a "✓" in the appropriate space. Frank expression of your own opinion will be appreciated.

	<u>Strongly</u> <u>Agree</u>	<u>Agree</u>	<u>Don't</u> <u>Know</u>	<u>Disagree</u>	<u>Strongly</u> <u>Disagree</u>
47. The only way that people can raise or improve the way they live is to get a good education.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
48. Most teachers probably like quiet children better than ones who are active and talk a lot.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
49. Children can learn a foreign or second language much easier than adults can.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
50. Children should be encouraged to talk a lot when they are very young.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
51. Most teachers do not want to be bothered by parent's coming to see them.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
52. Sports and games take up too much time in school.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
53. A parent should not help his child learn a second or foreign language at home.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	<u>Strongly Agree</u>	<u>Agree</u>	<u>Don't Know</u>	<u>Disagree</u>	<u>Strongly Disagree</u>
54. A bilingual school, that is, where instruction is given in both English and Spanish, is probably a good thing for our local community.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
55. Kids cut up so much that teachers can't teach properly.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
56. Not enough time is spent learning the basic subjects: reading, writing and arithmetic.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
57. Bilingual schooling is harmful to the child's language development.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
58. There are some children in the school I would not want my child to play with.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
59. In school there are more important things than getting good grades.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
60. The best way to improve schools is to train teachers better.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
61. People today need to learn a second or foreign language.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
62. Once in a while it should be OK for parents to keep their children out of school to help out at home.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
63. Teachers who are very friendly are not able to control their pupils.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	<u>Strongly</u> <u>Agree</u>	<u>Agree</u>	<u>Don't</u> <u>Know</u>	<u>Disagree</u>	<u>Strongly</u> <u>Disagree</u>
64. Most teachers would be good examples for my children.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
65. Only the school should try to teach children a second or foreign language, not their parents.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
66. When children do not work hard in school, their parents are to blame.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
67. The children in our school deserve the right to receive part of their education in their own native language.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
68. The most important quality of a real man is driving purpose to get ahead.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
69. The Spanish spoken in school is of an inferior quality.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
70. A child who is bilingual in English and Spanish will have an economic advantage when he grows up.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
71. Most kids who can do the work are able to get to college if they really want to.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
72. The English spoken in school is of an inferior quality.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
73. A man can often learn more on a job than he can in school.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	<u>Strongly Agree</u>	<u>Agree</u>	<u>Don't Know</u>	<u>Disagree</u>	<u>Strongly Disagree</u>
74. Most children have to be made to learn.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
75. Most of the teachers are not trained as well as they should be.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
76. Bilingual schools should be tried out on an experimental basis.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
77. A course on child development (growing up) would be helpful to parents.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

78. Any other comments you wish to make about your child or his school will be appreciated:

---

---

---

V. Rating of Socioeconomic Status of Family

60

79. Occupation:

- Professional and proprietors of large businesses
- Semi-professionals and smaller officials of large businesses
- Clerks and kindred workers
- Skilled workers
- Proprietors of small businesses
- Semi-skilled workers
- Unskilled

80. Source of Income:

- Inherited wealth
- Earned wealth
- Profits and Fees
- Salary
- Wages
- Private relief
- Public relief and non-respectable income

81. House Type:

- Large houses in good condition
- Large houses in medium condition; medium houses in good condition
- Large houses in bad condition
- Medium sized houses in medium condition; apartment in regular apartment buildings
- Small houses in good condition; small houses in medium condition; dwellings over stores
- Medium sized houses in bad condition; small houses in bad condition
- Houses in very bad condition; dwellings in structures not intended for homes

82. Dwelling Areas:

- Very high (exclusive)
- High; the better suburbs and apartment house areas; houses with spacious yards
- Above average; areas all residential; larger than average; space around the houses; apartment areas in good condition, etc.
- Average; residential neighborhoods, no deterioration in the area
- Below average; area not quite holding its own, beginning to deteriorate; business entering
- Low; considerably deteriorated, run-down and semi-slum
- Very low; slum

## 83. Education of Breadwinner:

- Graduate or professional schooling (M.A., LL.D., M.D., Ph.D., etc.)
- Completed college (B.A., B.S., etc.)
- Some college
- Vocational training after high school
- Completed high school
- Vocational training in high school (or some high school)
- Grade school or less

## VI. Language of Parent

### A. Instructions to Interviewer:

In the course of interviewing parent or guardian of child and recording information for Parts I-V of the INTERVIEW QUESTIONNAIRE, the interviewer is to observe and record the occurrence of the morphological and syntactic features of the interviewee's speech which are listed below. The interviewer should permit the interviewee to select the language of the interview, i.e., whether it be given in English or Spanish. If, during the interview, an interviewee switches languages the features should be recorded for both languages. The interviewer should feel free to adjust the wording of Parts I-V of the questionnaire so as to elicit the anticipated features, but he should not probe for a feature directly, persistently, or too obviously. The interviewer should strive to record the language data inconspicuously. The interviewer is to try to observe and note the occurrence of each item or feature up to three (3) times in the appropriate blanks.

It is to be emphasized that the interviewer is to observe and note general types of syntactic and morphological features in the speech of the interviewee and not necessarily the specific illustrative examples given on the questionnaire. The interviewer should note and write down on the questionnaire the specific anomalous features which occur and, in particular,

record a specific anomalous feature if there is any doubt that it does not fit in a general type of anomaly. The interviewer should locate and study carefully each syntactic and morphological feature on Part V of the questionnaire before giving an interview.

Name of interviewer \_\_\_\_\_

Name of interviewee(s) providing language data \_\_\_\_\_

Relationship of interviewee(s) to child in bilingual school or program \_\_\_\_\_

Date \_\_\_\_\_

Specific location of interview \_\_\_\_\_

Time \_\_\_\_\_

Other people present at interview

- Mother or female guardian
- Father or male guardian
- the child himself (herself)
- other \_\_\_\_\_  
(Please specify)

1. Estar vs. ser to indicate predication of permanent or temporary condition.
  - a. estar aquí, cansado, etc. (temporary condition)
  - b. ser aquí, cansado, etc. (temporary condition)
  - c. ser blanco, bueno, etc. (permanent condition)
  - d. estar blanco, necesario, etc. (permanent condition)
  
2. Substitution of regular 2nd person verb form for regular 3rd person verb form
  - a. el/ella lavó
  - b. el/ella lavaste
  
3. Use of subjunctive construction
  - a. querer que venga
  - b. querer que vienes
  
4. Noun-descriptive adjective word order
  - a. Noun + adjective
  - b. Adjective + noun
  
5. Gender agreement
  - a. Cuanto dinero
  - b. Cuanta dinero
  
6. Past participle forms of irregular verbs
  - a. escrito
  - b. escribido
  - c. roto
  - d. rotpido
  
7. Past form of -ir regular verbs
  - a. abrió
  - b. abró

8. Possessive construction
- a. zapatos de mi papá
- b. mis papá's zapatos
9. Word order in question-word question
- a. ¿Cuándo viene el carro?
- b. ¿Cuándo el carro viene?
10. Use of simple present vs. present progressive in certain verb forms  
(ir, venir, etc.)
- a. está viniendo
- b. vienes
11. Phrase vs. relative clause modifier of noun
- a. la cosa que esta en la caja
- b. la cosa en la caja

13. Past participle form with -en

- a. have broken
- b. have broke

14. Do in wh-questions

- a. do filler used (e.g., "What does he..?")
- b. do filler omitted (e.g., "What he..?")

15. Determination with the
- a. the omitted with proper name
- b. the used with proper name
16. Subjunctive verb form after statement of willing, probability, etc.
- a. I wish I had
- b. I wish I have
17. Third person singular verb inflection
- a. He walks
- b. He walk
18. Possessive adjective form
- a. her or his
- b. She's or he's for her or his

Cooperativeness of Interviewee(s) in English

- Very cooperative
- Cooperative
- Only slightly cooperative
- Apparently neutral
- Only slightly uncooperative
- Uncooperative
- Very uncooperative

## V . Language of Parent

B. Instructions to Interviewer:

If parent or guardian claims or seems to be bilingual in English and Spanish ask him (her) to translate the following set of sentences from Spanish to English as well as the set from English to Spanish. Interviewer is to note the particular syntactic or morphological construction which occurs in each translation.

1. Spanish to English

- |  |   |
|--|---|
| a. Ellos no están aquí.                        | <input type="checkbox"/> are not (no) here    |
|  | <input type="checkbox"/> not (no) are here    |
| b. Tenemos un perrito chiquito.                | <input type="checkbox"/> small dog            |
|  | <input type="checkbox"/> dog small            |
| c. El cogió un pescado ayer.                   | <input type="checkbox"/> caught               |
|  | <input type="checkbox"/> catched              |
| d. ¿Es alto el árbol?                          | <input type="checkbox"/> Is the tree tall?    |
|  | <input type="checkbox"/> Is tall the tree?    |
| e. Una mosca es más chiquita que una mariposa. | <input type="checkbox"/> smaller              |
|  | <input type="checkbox"/> more small           |
| f. Se dejó caer la piedra en el pie.           | <input type="checkbox"/> on foot              |
|  | <input type="checkbox"/> in foot              |
| g. La muñequita de ella es bonita.             | <input type="checkbox"/> her doll             |
|  | <input type="checkbox"/> doll of her          |
| h. Ella se perdió su lapiz                     | <input type="checkbox"/> his or her pencil    |
|  | <input type="checkbox"/> he's or she's pencil |
|  | <input type="checkbox"/> the pencil           |
| i. Ellos cantaron muy bien                     | <input type="checkbox"/> sang                 |
|  | <input type="checkbox"/> singed               |
|  | <input type="checkbox"/> sung                 |

- j. Ella tiene siete años.  is seven  
 has seven
- 
- k. Ellos buscan la llave.  look for the key  
 look the key
- 
- l. Los gatos prenden ratoncitos.  mice  
 mouses
