Descriptors-Agricultural Education, *Annotated Bibliographies, Business Education, Clearinghouses, Distributive Education, Health Occupations Education, Home Economics Education, Indexes (Locators), Industrial Arts, *Instructional Materials, *Technical Education, Trade and Industrial Education, *Vocational Education

This quarterly publication announces the availability of instructional materials acquired and processed by the Educational Resources Information Center (ERIC) Clearinghouse on Vocational and Technical Education. It should be of particular interest to teachers, curriculum specialists, supervisors, and administrators involved in curriculum development or the use of instructional materials in the teaching-learning setting. Each abstract, a condensation of the report in about 200 words, usually includes the means used to develop the material, the setting for use of the material, and source of available copies. Abstracts are included under the following sections: Agricultural, Business and Office, Distributive, Health Occupations, Home Economics, Industrial Arts, Technical, Trade and Industrial, General Vocational and Technical Education, and Other Resources. An author index, document number index, and subject indexes are provided. Most of the documents which have not been announced in "Research in Education," are available as a separate microfiche set from the ERIC Documents Reproduction Service (VT 008 450). Others are available from the source identified in the abstract. (EL)

ERIC CLEARINGHOUSE
THE CENTER FOR VOCATIONAL
AND TECHNICAL EDUCATION
THE OHIO STATE UNIVERSITY
COLUMBUS, OHIO

VT008242

The Center for Vocational and Technical Education has been established as an independent unit on The Ohio State University campus with a grant from the Division of Adult and Vocational Research, U. S. Office of Education. It serves a catalytic role in establishing a consortium to focus on relevant problems in vocational and technical education. The Center is comprehensive in its commitment and responsibility, multidisciplinary in its approach, and interinstitutional in its program.

The major objectives of The Center follow:

1. To provide continuing reappraisal of the role and function of vocational and technical education in our democratic society;
2. To stimulate and strengthen state, regional, and national programs of applied research and development directed toward the solution of pressing problems in vocational and technical education;
3. To encourage the development of research to improve vocational and technical education in institutions of higher education and other appropriate settings;
4. To conduct research studies directed toward the development of new knowledge and new applications of existing knowledge in vocational and technical education;
5. To upgrade vocational education leadership (state supervisors, teacher educators, research specialists, and others) through an advanced study and in-service education program;
6. TO PROVIDE A NATIONAL INFORMATION RETRIEVAL, STORAGE, AND DISSEMINATION SYSTEM FOR VOCATIONAL AND TECHNICAL EDUCATION LINKED WITH THE EDUCATIONAL RESEARCH INFORMATION CENTER LOCATED IN THE U. S. OFFICE OF EDUCATION.

Abstracts of Instructional Materials in Vocational and Technical Education is a quarterly publication (Fall, Winter, Spring, Summer) published by the ERIC Clearinghouse on Vocational and Technical Education. Subscription is \$9.00 per year. Send order to Publications Clerk, The Center for Vocational and Technical Education, The Ohio State University, 1900 Kenny Road, Columbus, Ohio 43210. Contents of this publication may be reprinted freely without requesting permission, providing appropriate credit is given to the Clearinghouse.

PREFACE

Abstracts of Instructional Materials in Vocational and Technical Education (AIM) and the companion publication Abstracts of Research and Related Materials in Vocational and Technical Education (ARM) announce the availability of documents acquired and processed by the ERIC Clearinghouse on Vocational and Technical Education. AIM includes abstracts of materials typically designed for teacher use or student use in the classroom, and annotations of bibliographies or lists of instructional materials. It will be of particular interest to teachers, curriculum specialists, supervisors and administrators involved in the use of instructional materials in the teaching-learning setting, or in curriculum development. ARM incorporates abstracts of research and other materials which are useful to a wide audience of users such as researchers, supervisors, teacher educators, education specialists, administrators, teachers and others who have an interest in vocational and technical education. These publications prepared by the ERIC Clearinghouse on Vocational and Technical Education are published quarterly beginning with the Fall 1967 issue.

The ERIC Clearinghouse on Vocational and Technical Education is a division of the Center for Research and Leadership Development in Vocational and Technical Education located at The Ohio State University and is one of the clearinghouses of the Educational Resources Information Center (ERIC-USOE). With the growth of vocational education programs, there is an increasing need for accessible information that can be used in developing logical chains of reasoning for research activities, for improving school practices and shortening the theory-practice gap. This Clearinghouse is striving to provide a useful and vital function in dissemination of information on vocational and technical education through these publications.

Since this Clearinghouse is a component of a larger information system, ERIC, it is logical that certain similarities among publications exist. In this regard the format of AIM and ARM is similar to that of Research in Education (RIE)¹, the primary publication of the Educational Resources Information Center (ERIC). RIE includes abstracts from all ERIC Clearinghouses. The abstracts of materials reported in AIM relate specifically to the educational field of vocational and technical education and constitute a segment of ERIC, the national information system for American education.

In addition to the quarterly publications, Abstracts of Instructional Materials in Vocational and Technical Education (AIM) and Abstracts of Research and Related Materials in Vocational and Technical Education (ARM), other publications will be issued from time to time. These will typically concern themselves with reviewing and synthesizing information in specific areas of vocational and technical education, e.g., Review and Synthesis of Research in Technical Education; Agricultural Education; Home Economics, etc. Other reviews may focus on specific problems.

We are indebted to our colleagues within the profession for their cooperation in forwarding materials to the clearinghouse and for their suggestions and comments which have materially assisted in the development of this program. We anticipate further refinement and improved procedures with the continued assistance of our advisory committee.

Robert E. Taylor
Director

¹Research in Education is published 12 times a year. The first issue was no. 1, November 1966. Subscription: Domestic, \$21.00 a year; foreign, \$5.25 additional. Single copy: Domestic, \$1.75. Send check or money order (no stamps) to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

INTRODUCTION

Organization of ABSTRACTS OF INSTRUCTIONAL MATERIALS IN VOCATIONAL AND TECHNICAL EDUCATION

Abstracts of Instructional Materials in Vocational and Technical Education relies upon two basic formats -- resumes and indexes -- to serve the browser and those seeking specific information. The resumes are organized according to vocational service groupings in the first section of the document. Under each grouping, the resumes are arranged by Vocational Technical (VT) number which is an identification number assigned to reports as they are processed. Resumes contain an abstract which indicates the contents of a document in two hundred words or less. Additional components of a resume are explained in a diagram on page ix immediately preceding the resume section.

Several indexes are located after the resume section to provide specific approaches to documents reported in the resume section. These indexes are:

Personal and Institutional Author Index

Document Number Index

Conversion of Document Number (VT to ED or MP, ED or MP to VT)

Subject and Identifier Index

All of the indexes refer to page numbers in this publication to enable the reader to quickly locate any resume of interest.

Availability of AIM

AIM is published quarterly (Fall, Winter, Spring, Summer). The first issue began Fall 1967. At this time the four issues for the period Fall 1967 - Summer 1968 are available only on microfiche or facsimile copy. Microfiche or facsimile copy for all previous issues may be ordered from ERIC Document Reproduction Service, The National Cash Register Company, 4936 Fairmont Avenue, Bethesda, Maryland 20014, using the following information.

ED 013 337	Fall 1967 AIM	MF - \$.75	or	HC - \$7.48
ED 015 336	Winter 1967 AIM	MF - \$.75	or	HC - \$7.88
ED 017 745	Spring 1968 AIM	MF - \$.75	or	HC - \$7.96
ED 020 441	Summer 1968 AIM	MF - \$.75	or	HC - \$7.04
ED 023 936	Fall 1968 AIM	MF - \$.75	or	HC - \$7.48

Please add a special handling charge of 50 cents to any order which totals less than \$3. Payment must accompany orders totaling less than \$5. Orders from states with sales tax laws must include payment of appropriate tax or include exemption certificates. A 25-percent service charge, calculated to the nearest cent, must accompany orders from outside the United States, its territories, and possessions.

Subscriptions for hard copy may be initiated with the Fall 1968 issue, or subsequent issues. Send order indicating quarter and year that subscription is to begin to:

Availability of Materials Reported in AIM

A basic concept of the ERIC system is to make known the availability of the full text of materials abstracted. Most of the materials processed into the ERIC system with an ERIC Document (ED) number will be available from the ERIC Document Reproduction Service (EDRS) in the form of microfiche or facsimile copy. There is an EDRS availability line with each abstract which indicates if a document may be obtained from EDRS. If a document is not available from EDRS, the source of availability is in the resume. Microfiche or facsimile copy must be ordered by ED (ERIC Document) number since EDRS is not set up to respond to requests for materials by subject. AIM and ARM indexes can be used to determine ED numbers which relate to problem areas.

Documents which are a part of the VT-ERIC collection and are not announced in Research in Education are included in ARM and AIM. A VT number only is supplied on the resume. Documents which can be microfiched are grouped in VT number sequence as a microfiche set for each issue of AIM and ARM. Each set is announced in RIE under a single ED number. The Fall 1967 - Summer 1968 Microfiche Collections contain local clearinghouse VT documents and ED documents. Beginning with Fall 1968, the microfiche set will contain only clearinghouse documents. These sets may be ordered from EDRS. Information to be used in ordering the sets for AIM follows:

AIM Microfiche Collections

<u>AIM</u>	<u>ED Number</u>	<u>Microfiche</u>
Fall 1967	ED 013 339	\$22.25
Winter 1967	ED 015 349	\$40.25
Spring 1968	ED 017 746	\$54.00
Summer 1968	ED 020 442	\$53.00
Fall 1968	ED 022 971	\$38.50

It should be noted that organizations which have standing orders with EDRS for all VT-ERIC microfiche in RIE, or for the total microfiche collections in RIE will automatically receive the AIM and ARM microfiche collection.

Availability Key for Materials Reported in AIM

<u>Accession Number</u>	<u>Availability on Microfiche</u>
ED number supplied	ERIC Document Reproduction Service (EDRS) provided the information is shown on EDRS price line.
ED appears without a number	If a price is given for microfiche, the fiche is unavailable from EDRS (at time of printing) until an ED number is assigned and published in RIE. The issue of RIE in which the abstract is scheduled to appear follows the ED prefix. After assignment of numbers has been made by Central ERIC, the Conversion of Document Number Index in each succeeding issue of AIM will include numbers for documents listed with an ED and RIE date in the previous issue.
VT number only supplied	Available on microfiche in VT-ERIC set from EDRS as indicated.
Items not available through EDRS or in a VT-ERIC set will usually have a source of availability cited on the availability line in the abstract.	

ERIC Document Reproduction Service (EDRS)

The ERIC Document Reproduction Service (EDRS) is operated by The National Cash Register Company. To save time, request order forms from:

EDRS
The National Cash Register Company
4936 Fairmont Avenue
Bethesda, Maryland 20014

The Prices for microfiche changed January 1, 1968. The price for Standing Orders (all ERIC Documents) was reduced to 8.4¢ per fiche and was increased to 25¢ per fiche for individual titles. To compute the cost of individual microfiche announced prior to January 1, 1968 use the following table:

IF PREVIOUSLY PUBLISHED (MF) PRICE WAS	USE THIS NEW PRICE	IF PREVIOUSLY PUBLISHED (MF) PRICE WAS	USE THIS NEW PRICE
\$.09-----	\$.25	\$.54-----	\$1.50
.18-----	.50	.63-----	1.75
.27-----	.75	.72-----	2.00
.36-----	1.00	.81-----	2.25
.45-----	1.25	.90-----	2.50

Microfiche cost of documents announced in this issue are based on the new price schedule.

"HC" stands for hard copy--reproduction on paper in easy-to-read form. To order hard copy reproductions from this and earlier issues, increase the price shown in the document resume entry by 25 percent, effective immediately. When documents are marked "not available from EDRS", other sources are shown.

Payment must accompany orders totaling less than \$5. Add a special handling charge of 50 cents to all orders which total less than \$3. The ERIC Document Reproduction Service is registered to collect sales taxes. Orders from States which have sales tax laws should include payment of the appropriate tax or tax exemption certificate.

Foreign orders: A 25-percent service charge, calculated to the nearest cent, must accompany orders from outside the United States, its territories, and possessions. This service charge is applicable to orders for microfiche (MF) and hard copy (HC).

Scope of the Clearinghouse

The Clearinghouse on Vocational and Technical Education is responsible for acquiring, processing, and disseminating research reports, instructional materials, information analysis products and other resource materials related to vocational and technical education. Coverage includes the specific occupational fields of agricultural education, business and office occupations education, distributive education, health occupations education, home economics education, technical education, trade and industrial education, and new sub-professional fields. The clearinghouse scope also encompasses the related fields of industrial arts education, manpower economics, occupational psychology, and occupational sociology. The following subject categories when specifically oriented to vocational-technical education and its related fields are included in the scope of the clearinghouse: administration and supervision, curriculum, employment and occupations, evaluation and measurements, facilities and equipment, historical studies, individuals with special needs, instructional materials and devices, philosophy and objectives, research design and development, occupational guidance and other student personnel services, students, teachers, teacher education, teaching and learning.

Acquisitions

The adequacy of information in this publication, as well as other services of this clearinghouse, is directly related to the extensiveness of the information acquired and processed into the system. This Clearinghouse has assumed the initiative in obtaining as much of the available information as possible. However, it is impossible for any organization to achieve complete and comprehensive coverage of a field as vast as vocational education without the cooperation and assistance of the profession. The growth and ultimate effectiveness of the system require supplemental efforts of its users. Any person in the vocational or technical field is invited to forward to the Clearinghouse two copies of items relating to vocational-technical education for possible inclusion in the system. Questions relating to this endeavor should be directed to the Acquisitions Specialist at the Center.

SAMPLE RESUME

Accession Number-- an identification number sequentially assigned to reports as they are processed.

Author(s)--the individual(s) who prepared the report.

EDRS Price--price of the document through the ERIC Document Reproduction Service. "MF" means microfiche; "HC" means hardcopy.

Report Number would appear here.

If item cited appeared originally in a journal, a journal citation would appear here.

Publication Date.

Total number of printed pages in the report, including cover and appendices.

Identifiers would appear here. These are acronyms, geographical areas, conferences, organizations, tests (e.g. Binet), etc. Only the major identifiers preceded by an asterisk are printed in the index.

Abstract--a condensation of the report in about 200 words. When applicable, it includes the purpose, means of development, subject-matter content, teacher competency, student requirements, and description of supplementary materials if available.

VT 002 079 ED 017 657

Karnes, James B.

Medical Record Technology, A Course of Study Designed for Cooperative Part-Time Students Employed in Medical Record Libraries.

Missouri State Dept. of Education, Jefferson City. Industrial Education Section
Missouri Univ., Columbia. Dept. of Industrial Education

EDRS PRICE MF-\$0.75 HC NOT AVAILABLE FROM EDRS.

Industrial Education, 103 Industrial Education Building, University of Missouri, Columbia, Missouri 65201 (\$1.50).

Pub Date - Aug64 136p.

*STUDY GUIDES; *HEALTH OCCUPATIONS EDUCATION, GRADE 11, POST SECONDARY EDUCATION; ASSIGNMENTS; *COOPERATIVE EDUCATION; STUDENT RECORDS; *MEDICAL RECORD TECHNICIANS

Designed for use by eleventh grade cooperative part-time students employed in medical record libraries, this guide may also be used in area vocational or post-high school settings. It was developed by a consultant committee, teacher educators, and research assistants at the state level and revised after use in the field...
.....An analysis of medical record technology and progress records to be completed by the employer, teacher, and student are included. The material should be used with related instruction for individual students by a qualified coordinator or competent health occupations teacher. (JK)

If ED is followed by numbers, item has been announced in Research in Education. If ED is not followed by numbers, the issue of RIE in which the abstract is scheduled to appear follows the ED prefix.

Title of report.

Institutional Source--the organization responsible for the report.

Sponsoring Agency--would appear here if different than Institutional Source.

Grant Number and Program Area Number would appear on this line.

Commercial, institutional, and other sources of availability if known at time of printing. Cost is included.

Descriptors--the subject terms assigned by an indexer to characterize the contents of a report. Only the major terms, those preceded by an asterisk, are printed in the index.

Abstractor's Initials

Jacks, L.P.

Basic Principles of Plant Science; A Reference Unit for Teaching Basic Principles of Plant Science in Vocational Agriculture Courses in Mississippi.

Mississippi State Board for Vocational Education, Jackson. Vocational Agriculture Div.

Mississippi State Univ., State College. Subject Matter Service

MF AVAILABLE IN VT-ERIC SET.

Pub Date - Oct64 88p.

*PLANT SCIENCE; *REFERENCE BOOKS; *VOCATIONAL AGRICULTURE; HIGH SCHOOLS; YOUNG FARMER EDUCATION; ADULT FARMER EDUCATION

Developed by a committee of teacher educators, this teacher and student reference is for high school and adult students studying agricultural knowledges and skills. Major units are: (1) Classification of Agricultural Plants, (2) Parts of Plants--Functions of Each, (3) Reproductive Systems and Reproduction, (4) Plant Growth--How It Takes Place, (5) Plant Nutrition, (6) Plant Diseases, (7) Plant Insects (Common to Farm Crops), and (8) Weed Science. Agricultural Education graduates may use this reference in the southeast United States in teaching an agricultural occupations cluster. Supplementary materials include three tables and 11 illustrations. (MS)

VT 000 520

Agricultural Machinery and Equipment; A Guide for Providing Instruction for 11th and 12th Grade Vocational Education in Agriculture.

North Carolina State Board of Education, Raleigh. Curriculum Laboratory

North Carolina State Dept. of Public Instruction, Raleigh. Div. of Vocational Education

North Carolina State Univ., Raleigh. Dept. of Agricultural Education

MF AVAILABLE IN VT-ERIC SET.

Pub Date - Jun64 47p.

*CURRICULUM GUIDES; *VOCATIONAL AGRICULTURE; *AGRICULTURAL MACHINERY OCCUPATIONS; *AGRICULTURAL MACHINERY; *TEACHING GUIDES; EQUIPMENT; GRADE 11; GRADE 12

This curriculum guide is for teacher use in planning a 36-week high school course in agricultural machinery and equipment. It was developed cooperatively by teacher educators, state supervisors, and community college personnel. The units are (1) introduction, orientation, and guidance, (2) welding, (3) internal combustion engines, (4) systems of power transmission, (5) farm implements and equipment, and (6) economic management of machinery and equipment. Each unit contains objectives, subunits, and problem areas, suggested resources keyed to a list in the appendix, and suggested teaching-learning activities. A course calendar, a list of basic facilities and equipment, suggestions for supervised practice programs, and a list of texts, supplementary references, and audiovisual aids are included. The document is mimeographed. (DM)

VT 000 801

Love, Gene M., And Others

Quality Milk Production. Teacher Education Series, Volume 5, Number 2.

Pennsylvania State Univ., University Park. Dept. of Agricultural Education

MF AVAILABLE IN VT-ERIC SET.

Department of Agricultural Education, 101 Agricultural Education Building, Pennsylvania State University, University Park, Pennsylvania 16802 (\$1.00).

Pub Date - 64 86p.

*TEXTBOOKS; REFERENCE MATERIALS; *VOCATIONAL AGRICULTURE; *DAIRYMEN; *MILK; *AGRICULTURAL PRODUCTION; HIGH SCHOOLS; ADULT VOCATIONAL EDUCATION

Technical information needed in the production of quality milk is presented in this student handbook for use by upper high school and adult students as text or reference material. It was developed by teacher educators, subject-matter specialists, and vocational agriculture teachers. Major sections are (1) Milk Secretion, (2) Tests for Milk Quality, (3) Sanitation of Milk Equipment, (4) Managed Milking, (5) Herd Health, and (6) Barn and Milk House Management. Agriculture teachers may use this material with students who have an occupational interest in production agriculture. A list of references and milk data are included in pictorial and tabular form. Necessary for teacher use, "Quality Milk Production--A Teacher's Unit Plan" is available as VT 000 800. (MB)

VT 000 954

Galloway, H.O.

Erecting and Managing the Greenhouse in the Vocational Agriculture Program.

Texas A and M Univ., College Station. Agricultural Education Teaching Materials Center

MF AVAILABLE IN VT-ERIC SET.

Agricultural Education Teaching Materials Center, Texas Agricultural and Mechanical University, College Station, Texas 77843 (\$.50).

Pub Date - 33p.

*REFERENCE MATERIALS; *VOCATIONAL AGRICULTURE; *ORNAMENTAL HORTICULTURE; *ORNAMENTAL HORTICULTURE OCCUPATION; *GREENHOUSES; HIGH SCHOOLS

Developed by a committee of teachers for a 20-hour course, this student and teacher reference is for use in high schools in the southern United States. Content includes: (1) Planning, Budgeting, and Erecting a Greenhouse, (2) Locating the Work Room and Potting Benches, (3) Heating and Cooling, (4) Modern Watering Techniques, (5) Lighting, and (6) Pest Control. Supplementary information includes: (1) data for construction, heating, and cooling, (2) a plant list for beginners, (3) information for working greenhouse problems, (4) a list of miscellaneous supplies and equipment, (5) a glossary of terms, and (6) a chart for plastic pots. (DM)

VT 000 954

Giles, Floyd A.

Teaching Ornamental Horticulture in Vocational Agriculture.

Missouri Univ., Columbia. Dept. of Agricultural Education

MF AVAILABLE IN VT-ERIC SET.

Pub Date - Jul64 42p.

*TEACHING GUIDES; AGRICULTURAL EDUCATION; *VOCATIONAL AGRICULTURE; *ORNAMENTAL HORTICULTURE OCCUPATION; *ORNAMENTAL HORTICULTURE; HIGH SCHOOLS

This guide developed by a vocational agriculture instructor, is recommended for a 25-hour course designed to highlight occupational opportunities in ornamental horticulture. Units are (1) Plant Materials, (2) Landscape Structures, (3) Landscape Drawing and Design, (4) Designing Problems, (5) Nurseries and Their Importance, (6) Nursery Practices, (7) Propagation of Nursery Stock, and (8) Marketing Nursery Products. Teaching objectives, suggestions for motivation, student references and teaching aids, problems and study questions, and instructor and student activities are given for each unit. The document is mimeographed and contains line drawing illustrations. Supplementary materials include solutions to student problems, bibliography, and addresses where additional references may be obtained. (DM)

VT 001 012

Harmful Parasites of Domestic Animals, Service Bulletin No. 1.

Arizona Univ., Tucson, Dept. of Agricultural Education
MF AVAILABLE IN VT-ERIC SET.
Pub Date - Jun63 67p.

*REFERENCE MATERIALS; *VOCATIONAL AGRICULTURE; *LIVESTOCK; *PARASITOLOGY; HIGH SCHOOLS

Principles, life cycles, and terminology of animal parasites are outlined to assist teachers in increasing student understanding of animal parasites that affect the major animal enterprises of the community. Subject matter specialists developed this material for use in high school vocational agriculture classes in the southwest United States. Content includes an overview of parasitology and parasites affecting cattle, sheep, swine, horses, poultry, dogs, and cats. Economic importance, life cycle, damage, symptoms, treatments, prevention, and references are included for each of 31 parasites. Supplementary materials include 20 illustrations to illustrate the life cycle of the various parasites, a glossary of 54 terms, and a list of references. (DM)

VT 001 013

Introduction to Animal Diseases, Service Bulletin Number 2.

Arizona Univ., Tucson, Dept. of Agricultural Education
Arizona State Dept. of Vocational Education, Phoenix
MF AVAILABLE IN VT-ERIC SET.
Pub Date - Apr65 36p.

*REFERENCE MATERIALS; *VOCATIONAL AGRICULTURE; *LIVESTOCK; *DISEASES; VETERINARY MEDICINE; DISEASE CONTROL; HIGH SCHOOLS

Designed by subject matter specialists for use by teachers, this reference is recommended for introductory instruction in animal diseases. Information is discussed concerning: (1) the importance, definition, and history of animal diseases, (2) indications of animal health, (3) classification of animal diseases, (4) the speed of communicable diseases, (5) how communicable diseases cause ill health, (6) how animals are protected from disease, and (7) methods of administering medication. The material was written for high school vocational agriculture classes in the southwest United States as part of a unit in production agriculture. Supplementary materials include a 7-item reference list and an 80-word glossary. (DM)

VT 001 014

Dawson, C.G.

Cotton Picker Operation and Maintenance, A Short Course for Operators of Cotton Pickers. Adult Education in Agriculture, Agricultural Technology. Course Content Guide (Tentative).

North Carolina State Board of Education, Raleigh, Curriculum Laboratory
MF AVAILABLE IN VT-ERIC SET.
Pub Date - Jun64 15p.

*COTTON (FIELD CROP); *AGRICULTURAL MACHINERY; ADULT VOCATIONAL EDUCATION; *CURRICULUM GUIDES; *HARVESTING

Designed to assist operators and owners of cotton pickers in operating and maintaining their machines, this course aims to improve the effectiveness and efficiency of mechanical cotton harvesting. The course outline was developed by an agricultural and biological education consultant and evaluated by instructors for teacher use in adult education in community colleges or technical institutes. Subjects covered are (1) cultural practices affecting harvesting and quality of lint, (2) effect of harvest conditions, (3) harvester principles, (4) picker efficiency, (5) machine operation principles, (6) field operation, (7) maintenance and repair, (8) precautions, (9) cotton handling principles, and (10) year-end activities. The teacher should be a cotton picker mechanic. Supplementary materials include a cotton picker operators' check list, a performance report form, and a list of timely tips for mechanical picking. (DM)

VT 001 027

Hemp, Paul E.,; Krebs, Alfred H.

A Study Guide for Placement-Employment Programs in Agricultural Business and Industry.

DOCUMENT NOT AVAILABLE FROM EDRS.

Interstate Printers and Publishers, Inc., 19-27 North Jackson Street, Danville, Illinois 61832 (\$2.50).
Pub Date - 64 182p.

*WORKBOOKS; *STUDY GUIDES; *VOCATIONAL AGRICULTURE; *OFF FARM AGRICULTURAL OCCUPATIONS; *COOPERATIVE EDUCATION; EMPLOYMENT EXPERIENCE; HIGH SCHOOLS; POST SECONDARY EDUCATION

Developed by teacher educators for use in high schools, area vocational schools, and community colleges, this guide is for a study of agricultural businesses by students interested in off-farm agricultural jobs. Content includes: (1) employment training, (2) opportunities in agriculture, (3) employment experience opportunities, (4) the school-business team, (5) acquiring self-knowledge, (6) knowing work laws, (7) getting a job, (8) planning an experience program, (9) studying the agricultural business, (10) recognizing employer and employee responsibilities, (11) knowing and selling products and services, (12) developing customer relations, (13) purchasing, pricing, and promoting products and services, (14) transporting and storing products, (15) keeping business records and inventories, (16) promoting safety, and (17) improving business. Designed as a work book for students involved in occupational placement, the guide contains forms for making plans, conducting surveys, and practicing competencies. References are listed. (DM)

*CURRICULUM GUIDES; *TEACHING GUIDES; *VOCATIONAL AGRICULTURE; *AGRICULTURAL OCCUPATIONS; *ANIMAL SCIENCE; *AGRICULTURAL ENGINEERING; *LEADERSHIP; *SUPERVISED FARM PRACTICE; *AGRICULTURAL PRODUCTION; *INSTRUCTIONAL AIDS; *GRADE 9; *TRANSPARENCIES

Developed and reviewed by a committee of 16 teachers, the state supervisory staff, and the teacher education staff, this curriculum guide is for vocational agriculture teacher use with ninth grade students interested in agricultural occupations. Some objectives for this 1-year course in animal science are: (1) to develop competencies in agricultural occupations, (2) to develop appreciation for the significance of the animal industry, (3) to understand livestock production and marketing, (4) to develop fundamental knowledge and skills in agricultural mechanics, (5) to discover career opportunities in agriculture, (6) to develop leadership, (7) to apply classroom learning. Included are sections on careers, leadership, supervised occupational experience, animal science, production agriculture, and agricultural mechanics. Each unit contains objectives, references, suggestions for student motivation, a subject outline, the recommended teaching procedure, and a summary. Supplementary materials include 50 student handouts and 112 pages for transparencies. (DM)

Ayers, Lewis C.
Small Gasoline Engines; Student Handbook. Teacher Education Series, Volume 7, Number 1.

Pennsylvania State Univ., University Park. Dept. of Agricultural Education
MF AVAILABLE IN VT-ERIC SET.
Department of Agricultural Education, 101 Agricultural Education Building, Pennsylvania State University, University Park, Pennsylvania 16802 (\$1.00).
Pub Date - 66 73p.

*LABORATORY MANUALS; *TEXTBOOKS; *VOCATIONAL AGRICULTURE; *ENGINES; HIGH SCHOOLS

Technical information, classroom and laboratory exercises, and definitions of terms needed in the study and operation of small gasoline engines are presented for use by high school students as text and reference material. They were developed under individual authorship by a vocational agriculture teacher with assistance from teacher-educators, tested, and revised. Areas covered are compression, carburetion, ignition, maintenance, and trouble shooting. The time allotment is variable. Teachers with preparation in agricultural mechanics or ornamental horticulture may use this material with students who are majoring in mechanics or horticulture. Pictorial diagrams are included. Techniques of Welding, A Short Course in Welding Practices. Course Content Guide.

North Carolina State Board of Education, Raleigh. Curriculum Laboratory
MF AVAILABLE IN VT-ERIC SET.
Pub Date - Jan65 21p.

ADULT VOCATIONAL EDUCATION; *WELDING; *CURRICULUM GUIDES; *AGRICULTURAL EDUCATION; *COMMUNITY COLLEGES

This guide is for teacher use in planning a community college or technical institute course for adults in welding. It was developed by a curriculum specialist and evaluated by instructors in community colleges. The course objective is to teach the various processes used for joining materials by welding. Skill areas include oxyacetylene welding, arc welding, filler metals, gases, currents, and weldability of metals. The document contains material concerning history and definition, metal identification, handling metals, oxyacetylene

welding and cutting, and electric arc welding. The teacher for this 6D-hour course should be a qualified welding instructor. A student survey form and reference and visual aid lists are included as supplementary material. (DM)

Burgett, Donald

Suggested Teaching Demonstrations in Agricultural Mechanics.

State Univ. of N.Y., Ithaca. Agricultural Education Div. at Cornell Univ.

MF AVAILABLE IN VT-ERIC SET.

Pub Date - Jan63 23p.

*TEACHING GUIDES; *VOCATIONAL AGRICULTURE; FARM MECHANICS (OCCUPATION); FARMERS; *AGRICULTURAL ENGINEERING; HIGH SCHOOLS; POST SECONDARY EDUCATION; YOUNG FARMER EDUCATION; *DEMONSTRATIONS (EDUCATIONAL)

Developed by a committee of teachers, these teaching demonstrations in agricultural mechanics are for use in lesson planning by vocational agriculture teachers trained in agricultural mechanics. Adjusting valves, calibrating grain drills, caring for weed sprayers, framing common rafters, operating a carbon arc torch, preparing grain drills for storage, replacing ignition points, and winterizing cooling systems are the eight demonstrations included. Each demonstration contains objectives, materials needed, teacher preparation, introduction, references, demonstration steps, and suggestions for follow-up. Approximately 1½ hours per demonstration is recommended for students of at least 9th grade level with a basic knowledge of mathematics, mechanics, and farming. Operator's manuals should be used as an additional reference source. (DM)

Pub Date - 67 55p.

*CURRICULUM GUIDES; *VOCATIONAL AGRICULTURE; *OFF FARM AGRICULTURAL OCCUPATIONS; GRADE 11; GRADE 12; COOPERATIVE EDUCATION; DISTRIBUTIVE EDUCATION; *CURRICULUM DEVELOPMENT

Designed by business and agricultural specialists and field tested in six high schools during 1965-1966, this curriculum guide is for use by teachers, supervisors, area directors, and school administrators in program planning. Section I contains guidelines on course description, units of credit and sequences, relationships to other courses, and supervised occupational experience. Section II, a suggested course of study for Agricultural Business 3, includes: (1) Orientation and Guidance, (2) Servicing and Maintaining a Place of Business and Developing Communication Skills, (3) The Organization of Agricultural Businesses, (4) Merchandising, (5) Agricultural Salesmanship, (6) Internal Agricultural Business Record Keeping, (7) Agricultural Products, Services, and Marketing Information, (8) Employer-Employee Relationships, (9) Personal Financial Planning, and (10) Computations in Agricultural Business. The suggested course of study for Agricultural Business 4 in Section III contains units on: (1) Orientation and Guidance, (2) Using Communication Skills and Operating an Agricultural Business, (3) Providing Insurance for Agricultural Businesses, (4) Understanding and Paying Taxes, (5) Finance and Credit in Agricultural Businesses, (6) Personnel Management in Agricultural Businesses, (7) Record Keeping Management, (8) Legal and Ethical Aspects of Agricultural Businesses, (9) Merchandising Management, and (10) Owning and/or Operating an Agricultural Business. Agricultural Business 3 should be elected by pupils interested in preparing for entry occupations and Agricultural Business 4 by those seeking managerial responsibility. (DM)

Clark, Raymond M.; Meaders, O. Donald

Function Approach to Identifying Curricular Content Appropriate to Vocational-Technical Education Programs.

Michigan State Univ., East Lansing. Dept. of Secondary Education and Curriculum

MF AVAILABLE IN VT-ERIC SET.

RR-21

Pub Date - Mar68 24p.

*CURRICULUM RESEARCH; *OFF FARM AGRICULTURAL OCCUPATIONS; *CURRICULUM DEVELOPMENT; *VOCATIONAL AGRICULTURE; RESEARCH REVIEWS (PUBLICATIONS); EDUCATIONAL NEEDS

A process for determining content to develop training programs for agricultural business and industry is described. The function approach is geared to the identification of the functions of industry which must be performed in order for it to be successful or to continue in operation: processing, transporting, purchasing, selling, and accounting. The activities necessary for accomplishing the functions are then determined. These, in turn, are used as a basis for identifying the competencies needed by the individuals who are expected to perform the activities. The functions and activities of an industry become the focal point from which curricular inputs are identified in planning vocational-technical education programs to meet the needs of students for successful employment in the industry. Several studies performed at Michigan State University from 1958 to 1967 developed the functions approach for (1) non-farm agricultural business, (2) dairy equipment industry, (3) feed industry, (4) farm equipment, (5) greenhouse industries, and (6) agricultural chemical industry. These studies are reviewed. (MM)

Pesticides; A Short Course in Pesticide Technology for Dealers, Handlers, and Salesmen. Course Content Guide.

North Carolina State Board of Education, Raleigh. Curriculum Laboratory
MF AVAILABLE IN VT-ERIC SET.
Pub Date - May64 25p.

*TEACHING GUIDES; CURRICULUM GUIDES; COMMUNITY COLLEGES; *AGRICULTURAL SUPPLY OCCUPATIONS; *AGRICULTURAL CHEMICAL OCCUPATIONS; *PESTICIDES; *AGRICULTURAL EDUCATION; ADULT VOCATIONAL EDUCATION

This guide is for teacher use in planning a community college or technical institute course for adults in pesticide technology. Its objective is to improve the effectiveness of retail sales personnel and others who advise farmers on the use of pesticide chemicals. The course outline covers (1) the importance of a thorough knowledge of pesticides, (2) kinds of pesticides, (3) terms used in pesticide work, (4) proper application and safety measures, (5) sources of pest control information, and (6) specific recommendations for field crops, ornamental vegetables, fruit crops, livestock, pets, and household pests. The teacher for this 30-hour course should be an agricultural college graduate with course work in pesticides. Suggestions for course arrangement, recommended references and a student survey form are included. (DM)

Courses of Study in Agricultural Occupations (Agricultural-Supply Businesses--Sales and Service) for Reidland High School, Department of Vocational Agriculture.

Kentucky Univ., Lexington. Dept. of Agricultural Education

EDRS PRICE MF-\$1.00 HC-\$10.24

Pub Date - Jan67 254p.

TEACHING GUIDES; *CURRICULUM GUIDES; *VOCATIONAL AGRICULTURE; *AGRICULTURAL SUPPLY OCCUPATIONS; HIGH SCHOOLS; *AGRICULTURAL SUPPLIES

This high school agricultural occupations teacher's guide was developed as part of a pilot program and tested at Reidland High School. The course objective is to develop skills and understandings needed in agricultural supply sales and service. Units are (1) Opportunities in Agricultural Occupations, (2) Orientation to the Training Program, (3) Organization of Distributive Businesses, (4) Agricultural Mathematics, (5) Human Relations and Personality Traits, (6) Store Skills, (7) Salesmanship and Selling, (8) Feeds, (9) Seeds, (10) Fertilizers, and (11) Agricultural Chemicals. The outline for each unit contains (1) learnings needed to reach the objective, (2) suggestions for introducing the unit, (3) student goals, (4) information for providing the class instruction, (5) teaching suggestions, (6) suggested student participation, (7) decision making ideas, and (8) references. The one-year course should be used by teachers competent in agricultural sales and service. Pre tests and post tests for each unit, illustrations when needed for clarity, and evaluative questionnaires for completion by the teacher, student, and the employer or supervisor are included. (DM)

MSBE Bull-2151

Pub Date - 66 23p.

*VOCATIONAL AGRICULTURE; COURSE CONTENT; OCCUPATIONAL CLUSTERS; HIGH SCHOOLS; *EDUCATIONAL OBJECTIVES; *CURRICULUM DEVELOPMENT; AGRICULTURAL SKILLS

The major objectives of this document are to assist vocational agriculture teachers in developing courses of instruction designed to meet the needs of persons preparing for gainful employment in agriculture and to help those currently employed in agriculture who wish to improve and advance in their occupation. A chart showing a flexible 4-year high school program for vocational agriculture offering basic agricultural instruction in grades nine and ten and more specialized occupational training during grades 11 and 12 is presented and eight administrative and 17 operational guiding principles for curriculum change are listed. Major objectives of vocational agriculture education concern developing (1) agricultural competencies needed to engage in production agriculture and other agricultural occupations, (2) an understanding and appreciation of career opportunities and preparation needed, (3) the ability to secure satisfactory placement, and (4) human relations skills and attitudes, leadership abilities, and civic responsibilities. Job and service, supplies and equipment, landscape horticulture, manufacturing and processing, livestock marketing and processing, other livestock industry, poultry industry, crops marketing and processing, wildlife and recreation, and farm service. A three-page bibliography is included. (WB)

*AGRICULTURAL EDUCATION; *VOCATIONAL AGRICULTURE; *AGRICULTURAL TECHNICIANS; *TECHNICAL EDUCATION; HIGH SCHOOLS; *CURRICULUM; ADULT VOCATIONAL EDUCATION; *OFF FARM AGRICULTURAL OCCUPATIONS; OCCUPATIONAL INFORMATION; OCCUPATIONAL GUIDANCE; PROGRAM DESCRIPTIONS; EDUCATIONAL OPPORTUNITIES; ARTICULATION (PROGRAM); COURSE DESCRIPTIONS; POST SECONDARY EDUCATION
NORTH CAROLINA

Agricultural education programs available through North Carolina's newly created system of industrial education center, technical institutes, and community colleges are described. The information is for use by administrators and teachers of adult agricultural courses offered by these institutions and by vocational agriculture teachers and others responsible for counseling high school dropouts and graduates. It describes the need for and organization of career programs, short courses, and upgrading courses, and the relationship of high school vocational agriculture to post-secondary agricultural technology institutions. Major topics are (1) The Importance of Training for Agricultural Occupations, (2) Agricultural Technology Education which briefly describes curriculums offered in the 2-year full-time programs in business, chemicals, equipment, farm business management, and poultry and livestock, (3) Specific Occupational Short Courses for Training Technical Specialists which describes courses in custom spraying, nursery practices, and tobacco

grading and marketing, (4) Upgrading Courses for Workers in Non-Farming Agricultural Occupations, which discusses courses in pesticides (30 hours), poultry feeding and management (60 hours), swine feeding and management (30 hours), advanced dairy technology (30 hours), fertilizers and lime (30 hours), liquid fertilizer application (30 hours), grain marketing practices (30 hours), farm engine electrical systems (20 hours), farm tractor hydraulic systems (20 hours), oil burner maintenance (30 hours), and feed mill management, operation, and maintenance (30 hours), and (5) The Interrelationship of Vocational Agriculture and Agricultural Technology Education. Pub Date - Sep66 51p.

*FORESTRY; *AGRICULTURAL TECHNICIANS; TECHNICAL EDUCATION; LIBRARY FACILITIES; *AGRICULTURAL EDUCATION; *CURRICULUM GUIDES; EMPLOYMENT QUALIFICATIONS; OCCUPATIONAL INFORMATION; OCCUPATIONAL GUIDANCE; PHYSICAL FACILITIES; ADVISORY COMMITTEES; BIBLIOGRAPHIES; PROGRAM DEVELOPMENT; CURRICULUM; PROGRAM GUIDES; EQUIPMENT; POST SECONDARY EDUCATION

Administrators, supervisors, teachers, and advisory committees may use this guide in planning and developing full-time, 2-year, post-high school educational programs to prepare forest technicians. It was developed by educators, professional foresters, employers, and U.S. Office of Education personnel. Program considerations discussed include (1) occupational information regarding technicians, abilities required, and activities performed, (2) faculty, (3) student services, (4) resources, (5) facilities, (6) advisory committees, and (7) continuing education. A general discussion of the curriculum covers a description of the courses, their content, and their relationship to occupational and organizational requirements. The hours required, course descriptions, course outlines, and bibliographies are provided for (1) 13 technical courses such as Elementary Forestry Surveying, Dendrology, Forest Orientation Seminar, and Elementary Forest Measurements, (2) one mathematics and science course, (3) six auxiliary or supporting technical courses such as Botany and Technical Reporting, and (4) four general courses such as Communications Skills and Elementary Business Management. Detailed information is given on library facilities and content, laboratory and physical facilities, and equipping laboratories and their costs. The appendix includes a list of societies pertinent to forest technician education and a procedure for laboratory report writing. An extensive bibliography is included. (JM)

Brown, T.T.

Hatching Egg Production Technology, Tentative Course Plan. Adult Farmer Education, Poultry Production Technology Series.

North Carolina State Dept. of Public Instruction, Raleigh. Div. of Vocational Education

MF AVAILABLE IN VT-ERIC SET.

Pub Date - 24p,

*CURRICULUM GUIDES; *AGRICULTURAL EDUCATION; *AGRICULTURAL PRODUCTION; ADULT FARMER EDUCATION; *POULTRY

Developed by subject matter specialists for teacher use in planning an adult farmer education program in poultry production, this course is designed to aid hatching egg producers in the economical production of eggs which will give a high-percent hatchability of strong chicks. The course includes: (1) Opportunities for Hatching Egg Production, (2) Selection of Preferred Breeds and Strains, (3) Trends in Housing Breeders, Feeding Principles and Practices, (4) Brooding and Housing Equipment, (5) Breeding Flock Management, (6) Care of Hatching Eggs, and (7) Prevention and Control of Poultry Diseases and Parasites. This 20-hour course should be taught by teachers of at least technician level to adult farmers or others in industry needing this type training in the southeastern United States. Supplementary materials include a reference list and a student survey form designed to point out adjustments which should be made in material and methods. (DM)

VT 005 582

General Poultry Production Technology Short Course, Tentative Course Outline.

North Carolina State Dept. of Public Instruction, Raleigh

MF AVAILABLE IN VT-ERIC SET.

Pub Date - 17p.

*CURRICULUM GUIDES; *AGRICULTURAL EDUCATION; *AGRICULTURAL PRODUCTION; *POULTRY; ADULT FARMER EDUCATION

Designed by subject matter specialists and staff members, this outline is for use in developing a course to retrain and upgrade poultry producers thereby improving producer efficiency in production of market eggs, matching eggs, and broilers. Content includes: (1) Suggestions for Course Arrangements, (2) Commercial Poultry Production Opportunities, (3) Selecting a Breed, Strain, or Cross, (4) Poultry Housing and Ventilation Problems, (5) Poultry Production Equipment, (6) Incubation, Brooding, and Rearing, (7) Feeding Principles and Practices, (8) Laying and Breeding Flock Management, (9) Preparation for and Marketing Poultry Products, (10) Disease and Parasite Prevention and Control, and (11) a Review, Summary and Evaluation. Teachers should be of technician level or above. Students should be adult poultry farmers or others in a related industry in the southeastern United States. The instructor may determine what adjustments should be made in the material and the best level and methods to use in teaching by use of the student survey contained in the guide. Cited are 26 reference sources, (DM)

VT 005 583

Broiler Production Technology Short Course, Tentative Course Outline.

North Carolina State Dept. of Public Instruction, Raleigh

MF AVAILABLE IN VT-ERIC SET.

Pub Date - 13p,

*CURRICULUM GUIDES; *AGRICULTURAL EDUCATION; ADULT FARMER EDUCATION; *POULTRY; *AGRICULTURAL PRODUCTION

Supervisors and specialists in the poultry field developed this outline of a course designed to improve producer efficiency and product quality in commercial broiler production. Content includes: (1) Suggestions for Course Arrangements, (2) When, Where, and How the Broiler Industry Started, (3) Who Should Produce Broilers, (4) Selecting a Breed, Strain, or Cross, (5) Housing and Ventilation Problems, (6) Brooding Equipment, (7) Feeding Principles and Practices, (8) Finishing and Marketing Broilers, Broiler Reports, (9) Broiler Production Management, and (10) Prevention and Control of Diseases and Parasites. This material is recommended for teachers of at least technician level for a 20-hour course in retraining and upgrading adult farmers in the southeastern United States. Supplementary materials include a reference list and a student survey form designed to point out adjustments which should be made in the material and methods. (DM)

VT 005 586

Careers in Agriculture (A Guide for Teachers of Vocational Agriculture), Grade 9.

Connecticut State Dept. of Education, Hartford

MF AVAILABLE IN VT-ERIC SET.

Pub Date - 11p,

*VOCATIONAL AGRICULTURE; *TEACHING GUIDES; REFERENCE MATERIALS; *AGRICULTURAL OCCUPATIONS; GRADE 9; GRADE 10; UNITS OF STUDY (SUBJECT FIELDS); *CAREER OPPORTUNITIES; *ORIENTATION MATERIALS; BIBLIOGRAPHIES

Information is provided on agricultural careers for use by administrators, guidance counselors, teachers, parents, and pupils. Career opportunities are listed in agricultural production, services, and business and industry. Content includes objectives, a teaching plan, a partial list of common agricultural careers, and selected references and visual aids. The material is adapted for 9th and 10th grade students in the northeastern United States, (DM)

Plant Science, Including Instruction in Agricultural Mechanics, Careers, Leadership and Supervised Occupational Experience.

Missouri State Dept. of Education, Jefferson City. Agricultural Education Section

Missouri Univ. Columbia. Dept. of Agricultural Education

MF AVAILABLE IN VT-ERIC SET.

Pub Date - 55p,

*CURRICULUM GUIDES; *TEACHING GUIDES; *VOCATIONAL AGRICULTURE; *AGRICULTURAL OCCUPATIONS; *PLANT SCIENCE; AGRICULTURAL ENGINEERING; LEADERSHIP; SUPERVISED FARM PRACTICE; GRADE 10; TRANSPARENCIES

Developed and reviewed by a committee of 16 teachers and the state supervisory staff, this curriculum guide is for vocational agriculture teacher use with 10th grade students interested in agricultural occupations. Some objectives for this 1-year course in plant science are: (1) to develop skills needed in agricultural occupations, (2) to develop an appreciation for the scope and importance of the plant science industry, (3) to understand basic principles of soil science, crop production, and marketing, (4) to develop fundamental knowledge and skills in agricultural mechanics, (5) to discover career opportunities in agriculture, (6) to develop some of the human relations and related skills necessary for job success, (7) to develop leadership, and (8) to apply classroom learning. Content includes sections on careers, leadership, supervised occupational experience, plant science, and agricultural mechanics. Each unit has teaching objectives, a reference list, motivation suggestions, an outline, the recommended procedure, and a summary. Supplementary materials include 10 pages of student handouts, six shop plans, and 82 pages for transparencies. (0M)

VT 005 847Tractor Transmissions.

American Association for Agricultural Engineering and Vocational Agriculture, Athens, Ga.
Farm and Industrial Equipment Inst., Chicago, Ill.
MF AVAILABLE IN VT-ERIC SET.
Coordinator's Office, American Assn. for Agricultural Engineering and Vocational Agriculture, Agricultural Engineering Building, Athens, Georgia 30601 (\$1.10).
Pub Date - 30p.

*REFERENCE MATERIALS; AGRICULTURAL EDUCATION; *FARM MECHANICS (OCCUPATION); *TRACTORS; *TRANSMISSIONS; TEXTBOOKS; HIGH SCHOOLS; ADULT VOCATIONAL EDUCATION; UNITS OF STUDY (SUBJECT FIELDS); AGRICULTURAL MACHINERY; AGRICULTURAL ENGINEERING

Developed by the farm machinery industry for training of their service personnel, this document is recommended for teacher and student use as part of an occupational cluster in agricultural machinery occupations. The content covers Transmission History, Gears and Bearings in Transmissions, Sliding-Gear Transmissions, and Planetary Gearing. The teacher should be a 4-year college graduate with a major in education. The document contains 24 colorful illustrations and a glossary of 29 terms. (0M)

VT 005 848Ball and Roller Bearings.

American Association for Agricultural Engineering and Vocational Agriculture, Athens, Ga.
Farm and Industrial Equipment Inst., Chicago, Ill.
MF AVAILABLE IN VT-ERIC SET.
Coordinator's Office, American Assn. for Agricultural Engineering and Vocational Agriculture, Agricultural Engineering Building, Athens, Georgia 30601 (\$.50).
Pub Date - 30p.

TEXTBOOKS; *REFERENCE MATERIALS; *AGRICULTURAL EDUCATION; *FARM MECHANICS (OCCUPATION); *AGRICULTURAL MACHINERY; *BEARINGS; HIGH SCHOOLS; ADULT VOCATIONAL EDUCATION; UNITS OF STUDY (SUBJECT FIELDS); AGRICULTURAL ENGINEERING

Teachers and students may use this reference as part of an agricultural machinery operations and maintenance course. It was developed by tractor industry specialists to train their service personnel. The document contains units on (1) Bearing Nomenclature, (2) Bearing Uses, (3) Bearing Capacities, (4) Shop Area Working Conditions, (5) Removal, (6) Cleaning and Inspection, (7) Replacement, (8) Lubrication, (9) Installation, (10) Failures Due to Improper Servicing, (11) Installation Running Inspection, and (12) Bearing Adjustment Theory. The teacher should be a college graduate in education. Supplementary materials include a glossary and 82 line drawings and photographs. (0M)

VT 005 849Tractor Hydraulics.

American Association for Agricultural Engineering and Vocational Agriculture, Athens, Ga.
Farm and Industrial Equipment Inst., Chicago, Ill.
MF AVAILABLE IN VT-ERIC SET.
Coordinator's Office, American Association for Agricultural Engineering and Vocational Agriculture, Agricultural Engineering Building, Athens, Georgia 30601 (\$1.85).
Pub Date - 65 49p.

TEXTBOOKS; *REFERENCE BOOKS; AGRICULTURAL ENGINEERING; *VOCATIONAL AGRICULTURE; *FARM MECHANICS (OCCUPATION); HIGH SCHOOLS; POST SECONDARY EDUCATION; *HYDRAULICS; *TRACTORS

Teachers and students may use this reference as part of an agricultural machinery operation and maintenance course. It was developed by tractor industry specialists to train their service personnel. The document provides an understanding of how and why hydraulic principles improve agricultural machinery efficiency. Content includes (1) definition and theory, (2) system design and component parts, (3) accessories, (4) phenomena causing breakdowns, (5) types of systems, (6) motors, (7) transmissions, (8) fluids, and (9) system maintenance and trouble shooting. The teacher should be a college graduate in education. Fifty-seven illustrations supplement the printed text. (0M)

VT 005 850The Tractor Electrical System.

American Association for Agricultural Engineering and Vocational Agriculture, Athens, Ga.
Farm and Industrial Equipment Inst., Chicago, Ill.
MF AVAILABLE IN VT-ERIC SET.
Coordinator's Office, American Assn. for Agricultural Engineering and Vocational Agriculture, Agricultural Engineering Bldg., Athens, Ga. 30601 (\$1.85).
Pub Date - 62p.

*REFERENCE MATERIALS; *AGRICULTURAL EDUCATION; *TRACTORS; AGRICULTURAL MACHINERY; *ELECTRICITY; TEXTBOOKS; *FARM MECHANICS (OCCUPATION); AGRICULTURAL ENGINEERING; *ELECTRICAL SYSTEMS; HIGH SCHOOLS; ADULT VOCATIONAL EDUCATION; UNITS OF STUDY (SUBJECT FIELDS)

Teachers and students may use this reference as part of an agricultural machinery operation and maintenance course. It was developed by tractor industry specialists to train their service personnel and adapted by the American Association for Agricultural Engineering and Vocational Agriculture for use in schools. Content includes (1) Fundamentals of Electricity, (2) Storage Batteries, (3) Cranking Motor Circuits, (4) Ignition Circuits, (5) Charging Circuits, and (6) Combination Motors and Generators. This module should be taught by a college graduate in education with an understanding of fundamental principles relative to application of electricity to tractors and farm equipment. The text is supplemented with 105 illustrations in color. (0M)

Clark, Raymond H., And Others

Source Units in Animal Science. Agricultural Education Source Units, No. 6: Animal Science.

Michigan State Univ., East Lansing. Bureau of Educational Services

MF AVAILABLE IN VT-ERIC SET.

Pub Date - May68 72p.

*TEACHERS GUIDES; *VOCATIONAL AGRICULTURE; *ANIMAL SCIENCE; UNITS OF STUDY (SUBJECT FIELDS); GRADE 9; GRADE 10

Developed by teacher educators and state supervisors and reviewed by a committee of vocational agriculture teachers, this teacher's guide is for use with high school students as part of an agricultural occupations cluster. Units are: (1) The Importance of Animals in the Economy, (2) Animals for Milk, Eggs, and Meat Production, (3) Marketing Livestock and Meats, Milk and Milk Products, and Eggs, (4) Animal Nutrition, (5) Animal Housing and Production Equipment, (6) Animal Breeding: Production Records, (7) Animal Sanitation and Disease Control, (8) Animal Parasites and Their Control, (9) Animal Care and Management, and (10) Careers in Animal Industries. Each unit contains a subject matter outline, objectives, principles, problems and questions, and suggested activities for students. Qualified teachers of vocational agriculture may use this material with 9th and 10th grade vocational agriculture boys and girls. The reference list includes 38 books, 128 bulletins, 17 mimeos, 10 visuals, and 19 sources for visuals. (DM)

*PROGRAM GUIDES; *PROGRAM PLANNING; *COOPERATIVE EDUCATION; *OFF FARM AGRICULTURAL OCCUPATIONS; *VOCATIONAL AGRICULTURE; CURRICULUM GUIDES; HIGH SCHOOLS; PROGRAM DESIGN; PROGRAM DEVELOPMENT

Orientation of vocational teachers to the fundamental concepts of planning and conducting cooperative occupational experience programs in off-farm agriculture is the major objective of this guide. The guide suggests that teachers attend special classes or workshops and consult additional references when planning an occupational experience program. Contents include: (1) formulating local policies, (2) using an advisory committee, (3) conducting a community survey, (4) public relations activities, (5) selecting training stations, (6) student selection, (7) legal requirements, (8) placement of students, (9) cooperating with others, (10) developing training plans, (11) developing agreements, (12) teaching related instruction, (13) program coordination, (14) student evaluation, (15) records, (16) student follow-up, and (17) program evaluation. The appendix contains a policy statement, occupational survey form, cooperator interview form, student application form, self-interest test, student learner certificate information, training agreement, employer evaluation form, employer student rating form, occupations survey, student information form, training form, method for determining community vocational needs, and a check sheet of factors to be considered in evaluation of students. Supplementary materials include a reference list. (DM)

VT 006 264

A Guide for Planning and Organizing Occupational Programs in Ornamental Horticulture .

New York State Univ., Albany. Bureau of Secondary Curriculum Development

MF AVAILABLE IN VT-ERIC SET.

Pub Date - 68 65p.

*CURRICULUM GUIDES; *PROGRAM GUIDES; *AGRICULTURAL EDUCATION; *ORNAMENTAL HORTICULTURE OCCUPATIONS; PROGRAM PLANNING; *ORNAMENTAL HORTICULTURE

Developed by individual authorship and reviewed by teacher-educators, supervisors, and industry representatives, this guide was developed to aid school administrators, occupational education directors, instructors, and others in establishing and conducting ornamental horticulture programs. Content includes: (1) identifying and selecting pupils, (2) occupations for which the programs will provide preparation, (3) course organization options, and approval, (4) developing the course of study, (5) a suggested course of study, (6) planning the facilities, and (7) developing lists of needed equipment and supplies. Areas for which suggested course content is included are: horticultural business management and marketing, horticultural mechanics, horticultural science, applied pest control science, landscape planning, landscape construction and maintenance, greenhouse crop production and management, floral design and flower arrangement, nursery production and management, and turf growing and maintenance. Supplementary materials include a list of texts and reference books, periodicals, publications, and audio-visual aids. (DM)

FFA at Work for Safety; A Handbook for Teachers and Students of Vocational Agriculture.

Future Farmers of America, Washington, D.C.

MF AVAILABLE IN VT-ERIC SET.

Pub Date - 67 24p.

*TEACHING GUIDES; *VOCATIONAL AGRICULTURE; *AGRICULTURAL SAFETY; *SAFETY EDUCATION; GROUP ACTIVITIES; HIGH SCHOOLS; COMMUNITY PROGRAMS; YOUTH CLUBS; RESOURCE MATERIALS; *ACCIDENT PREVENTION
FUTURE FARMERS OF AMERICA; FFA

Organizations planning and conducting chapter safety programs may use this handbook as resource material. Farm safety is taught so students may understand (1) that good workmanship requires observation of safety rules, (2) the value of practicing safety at all times, (3) how to practice safety in all areas of life, (4) how to recognize hazards and to avoid those which cannot be eliminated, and (5) liability responsibilities in case of injury, loss of property, or death. Content includes: (1) the need for action, (2) objectives, (3) teaching techniques, (4) teaching duties and responsibilities, (5) steps for an action program, (6) program promotion, (7) safety practices and activities, (8) effect on the farm family and community, (9) the FFA Foundation Farm Safety Award Program, (10) an evaluation check list, (11) safety helps, and (12) films. Suggested practices for safety activities in areas of farm tractors and machinery, farm shop, farm home and buildings, farm fire prevention, rural traffic and transportation, agricultural chemicals, electricity, livestock, and recreation are included. (DM)

Developed by the authors and reviewed by industry representatives, educators, and specialists, this student and teacher reference is for use with high school and adult students in agricultural mechanics. Content includes spark plug heat range comparisons, a freezing protection table, using calcium chloride for liquid weighting, farm tractor tire pressures, explanation of terms, and tractor power-take-off horsepower tables. Tuneup and service specifications and recommendations listed in table form for tractors manufactured by 10 farm machinery companies include: (1) tuneup specifications, (2) engine and power-take-off speeds, (3) periodic adjustments, (4) cooling system capacity, (5) crankcase oil recommendations, (6) hydraulic system capacity and fluid specifications, and (7) gear oils. Graduates in teacher education may use these materials with male students of average mechanical aptitude. (DM)

Matthews, Ralph
Landscape Installation and Maintenance, A Junior College Curriculum Guide.

California State Dept. of Education, Sacramento

MF AVAILABLE IN VT-ERIC SET.

Pub Date - 68 43p.

*PROGRAM GUIDES; *AGRICULTURAL EDUCATION; *LANDSCAPING; *ORNAMENTAL HORTICULTURE OCCUPATION; COMMUNITY COLLEGES; POST SECONDARY EDUCATION; PROGRAM PLANNING; PROGRAM ADMINISTRATION CALIFORNIA

This curriculum guide is for use by junior colleges in planning and developing realistic landscape curriculums. Suggestions are included for initiating a program, developing the curriculum, selecting

instructors and facilities, enrolling the student, and placing the graduate. Courses recommended as part of a curriculum were: applied botany, soils and fertilizers, irrigation, operation and maintenance of power equipment, landscape design and interpretation, turf management, plant and tree identification, installation, and maintenance, insects, weeds, diseases, and rodent control, landscape construction and cost estimation, and basic mathematics, report writing, recordkeeping, and personnel supervision. Appendixes contain: (1) a reference list, (2) a memorandum from the California Division of Highways, (3) a memorandum from the City of Los Angeles, (4) gardener caretaker job specifications, (5) greenkeeper job specifications, (6) highway landscape foreman job specifications, (7) highway tree maintenance foreman job specifications, and (8) senior gardener job specifications. The document is illustrated with photographs. (DM)

Loren, C.O.

Introduction to Agricultural Science; A Curriculum Guide, Ag I. Section A, Agricultural Science.

Washington State Univ., Pullman. Agricultural Education
Washington Research Coordinating Unit for Vocational Education, Olympia
MF AVAILABLE IN VT-ERIC SET.

Department of Agricultural Education, Washington State University, Pullman, Washington 99163 (no charge).
Pub Date - Sep67 89p.

*CURRICULUM GUIDES; *VOCATIONAL AGRICULTURE; *ANIMAL SCIENCE; *AGRONOMY; ORIENTATION MATERIALS; *AGRICULTURAL OCCUPATIONS; GRADE 9

Developed by teacher educators, vocational agriculture teachers and state supervisors, this curriculum guide is for teacher use in vocational agriculture course planning. Content includes areas on individual student development, the agricultural industry, animal science, soil science, plant science, and pests that affect agriculture. Each unit lists objectives, topics for study and discussion, activities, and student and teacher references. Sections A and B may be used as a full year course for students in ninth grade interested in agricultural occupations. Included is a glossary of 22 biological terms basic to agriculture. Section B on agricultural mechanics is available as VT 006 748. (DM)

*CURRICULUM GUIDES; *VOCATIONAL AGRICULTURE; *AGRICULTURAL OCCUPATIONS; *AGRICULTURAL ENGINEERING; GRADE 9

Developed by teacher educators, vocational agriculture teachers, and state supervisors, this curriculum guide is for teacher use in vocational agriculture course planning. Areas included are orientation to agricultural mechanics, tool conditioning, rope work, drawing, agricultural carpentry, sheet metal work, forging, oxyacetylene welding, and arc welding. Each unit contains references, objectives, a procedure outline, and a list of necessary materials. The appendix contains a suggested time allotment, recommendations for student shop management, guiding concepts in teaching agricultural mechanics, cooperative maintenance of the shop and equipment, and a performance evaluation chart. Sections A and B of this series may be used as a full year course with students in ninth grade interested in agricultural occupations. Section A on animal science is available as VT 006 747. (DM)

The High School Vocational Stenographic Program: Tentative Report, (Report on the Curriculum Workshop, June 12-July 2, 1965).

EDRS PRICE MF-\$0.75 HC-\$7.24
Pub Date - 65 179p.

*OFFICE OCCUPATIONS EDUCATION; *SECRETARIES; *STENOGRAPHERS; *TIME BLOCKS; *CURRICULUM GUIDES; STATE PROGRAMS; EDUCATIONAL OBJECTIVES; GRADE 11; GRADE 12

The purpose of the study was to develop a set of guidelines for the implementation of the Vocational Education Act of 1963 as applicable to the stenographic area in business and office education at the secondary school level in the state of Ohio. Part One presents the history and present status of government-supported vocational business education and the forces affecting the demand for this program. Part Two gives the nature, philosophy, and functions of the high school vocational stenographic program. Part Three gives the content of the high school vocational stenographic program which includes three plans: (1) 15 hours of instruction per week for 2 years in the 11th and 12th grades, (2) 18 hours and 45 minutes per week for 2 years, and (3) 22 hours and 30 minutes per week for 2 years. Each unit of instruction includes an introduction, time allotment, objectives, and suggested content (course outlines). Some units covered are: (1) typewriting skill, (2) transcription skill, (3) filing, (4) mathematical skills, (5) business machines, (6) duplicating processes, (7) the American business and economic system, (8) bookkeeping, (9) legal terminology, (10) human relations, (11) proper grooming, (12) self-improvement, and (13) upgrading stenographic knowledges. Suggestions for Teaching Business Pupils of Different Ability Levels--With Special Emphasis on Pupils Experiencing Difficulty.

New York State Education Dept., Albany. Bureau of Business and Distributive Education

EDRS PRICE MF-\$0.25 HC-\$2.12
Pub Date - 64 51p.

*BUSINESS EDUCATION; *DISTRIBUTIVE EDUCATION; EDUCATIONALLY DISADVANTAGED; LEARNING DIFFICULTIES; *TEACHING PROCEDURES; HIGH SCHOOL STUDENTS; STUDENT CHARACTERISTICS; TEACHER CHARACTERISTICS; *CLASSROOM TECHNIQUES; *TEACHING GUIDES

Characteristics of pupils experiencing difficulty and the teacher's responsibilities for these young people are discussed. Suggested classroom procedures include: (1) Require business-like behavior of every pupil, (2) Select pupils to assist with routine class duties, (3) Organize seating charts and necessary clerical records, (4) Divide class into groups according to ability, (5) Plan lessons carefully with considerable allowance for flexibility and change in pace, and (6) Plan homework carefully with every pupil so that he knows what is expected. General considerations and suggested procedures for classroom instruction, developing new units of work, standards, texts, and school marks are presented. A general bibliography and special bibliographies for bookkeeping, introduction to business, office practice, shorthand, and typewriting are included. (PS)

A Uniform Educational Program for Machine Transcription for Use in Grades 11 and 12.

New York State Education Dept., Albany. Bureau of Secondary Curriculum Development

MF AVAILABLE IN VT-ERIC SET.

Publications Distribution Unit, State Education Department, Room 169, Education Building, Albany, New York 12224 (\$1.00).

Pub Date - 65 228p.

*INSTRUCTIONAL MATERIALS; *BUSINESS EDUCATION; *LETTERS (CORRESPONDENCE); *MACHINE TRANSCRIPTION; GRADE 11; GRADE 12

This educational program for machine transcription consists of 180 letters designed for a 1-year vocational course for secondary students of average ability who have had only 1 year of typewriting. The letters are to be recorded on the regular commercial belts, discs, or tapes used on the school's transcribing machines. The material was developed by a committee of teachers and state staff, tested in the high schools of the State, and revised. The letters introduce knowledge and familiar terminology relating to sales and advertising, credit and collections, complaints and replies, inquiries and replies, employment, and personnel. Insofar as possible, they are graded as to difficulty and vary from 40 to 400 words in length. Part One consists of 72 letters for dictation and machine transcription emphasizing punctuation. Part Two consists of 108 letters emphasizing mechanics of English. The material is to be used for five periods a week for 36 weeks. The letters are keyed to five reference books. (PS)

Conover, Robert H.

Experimental Outlines for Instruction in Key Punch Machine Operation and Automatic Business Data Processing (A One-Year Course of Study).

New York State Education Dept., Albany. Bureau of Secondary Curriculum Development

MF AVAILABLE IN VT-ERIC SET.

Publications Distribution Unit, State Education Department, Room 169, Education Building, Albany, New York 12224 (\$1.00).

Pub Date - 65 130p.

*CURRICULUM GUIDES; *TEACHING GUIDES; *BUSINESS EDUCATION; *DATA PROCESSING OCCUPATIONS; *ELECTRONIC DATA PROCESSING; HIGH SCHOOLS

This guide is for teacher use in planning an instructional unit in key punch operation and a 1-year course in automatic business data processing. The materials were developed by a committee of high school and college teachers of data processing at the state level. Instruction in key punch operation is provided as part of Office Practice 1 or 2 in the 11th and 12th year. It stresses technical knowledge of the machine, the ability to operate the key punch, and the function of the machine in automated data processing. A course outline, teaching suggestions, teaching aids, and audio-visual aids are included. The one- or two-semester course in Automated Business Data Processing, offered in the 12th year, aims to develop a basic knowledge of the functions and features of data processing equipment and skill in operating basic unit record equipment to prepare pupils for employment as electro-mechanical machine operators. Unit record equipment suggested as minimal are two alpha-numeric key punches, one sorter, and one tabulator. When "hands-on" experience in computer operation is provided, the following units are suggested as minimal--card reader-punch, central

processing unit, and printer. Where this equipment is not available, arrangement should be made with a local business organization for some actual experience with this hardware. Unit outlines, teaching suggestions, projects, and audio-visual aids are provided for the course. (PS)

Today's Preparation for Tomorrow's Jobs. Curriculum Guide and Handbook.

West Virginia Dept. of Vocational Education, Charleston
Kanawha County Board of Education, Charleston, W. Va.
EDRS PRICE MF-\$0.75 HC-\$6.20
Pub Date - 65 153p.

*CURRICULUM; *CURRICULUM GUIDES; EDUCATIONAL FACILITIES; HIGH SCHOOLS; *BUSINESS EDUCATION
WEST VIRGINIA

The business education curriculums are divided into four sequences: general clerical, stenographic-secretarial, accounting-bookkeeping, and data processing. Objectives, grade placement, length of course, brief unit outlines, and suggested teaching aids and activities are provided for: (1) Bookkeeping 1 and 2, (2) Business Economics, (3) Business English, (4) Business Law, (5) Business Mathematics, (6) Business Organization and Management, (7) Data Processing, (8) General Business, (9) Machine Accounting, (10) Merchandising, (11) Record Keeping, (12) Salesmanship, (13) Shorthand 1 and 2, (14) Transcription, (15) Clerical Office Practice, (16) Office Machines, (17) Secretarial Office Practice, and (18) Vocational Typewriting 1 and 2. Essentials in setting up a cooperative work experience program are discussed and include sample forms for an employment-opportunity survey, employer's student-rating sheet, graduate followup questionnaire, student application for cooperative work-experience program, and teacher's student-rating record. Procedures for a community occupational survey are listed. Physical facilities, equipment, teaching materials, and layout are suggested for each business education classroom. (PS)

Block-Time Business Education. A Preliminary Report.

Missouri State Dept. of Education, Jefferson City. Business and Office Education Section
MF AVAILABLE IN VT-ERIC SET.
Pub Date - 65 15p.

*BUSINESS EDUCATION; *CURRICULUM; *TIME BLOCKS; HIGH SCHOOLS

Increased record keeping, data processing, and paper work of all types in the business world have placed demands on business education which have taxed the educators' time, budget, and personnel. After a total evaluation of business education in Missouri, the decision was reached to have as much training as near to the employment as possible. The 2-hour block of instruction, which allows the senior student to receive training immediately prior to employment, has offered an immediate solution to the time problem. Values of the 2 hours of instruction time per day include time to offer more areas of concentration, to make the class more realistic, to emphasize production, and to survey more closely the individual accomplishments. Courses outlined in this report include bookkeeping, office machines, clerical and secretarial practice, and a special needs course for the handicapped. (PS)

*BUSINESS EDUCATION; *CURRICULUM; JUNIOR HIGH SCHOOLS; SENIOR HIGH SCHOOLS; ADULT PROGRAMS; BUSINESS SUBJECTS; COURSE CONTENT; CURRICULUM PLANNING; *NATIONAL SURVEYS; *EDUCATIONAL OBJECTIVES

The most recent business education programs from all sections of the United States are presented in this monograph, a revision of a 1960 edition, designed for use by high school classroom teachers, school principals, and curriculum specialists in preparing new business curriculums or revising old ones. Information was derived from (1) current literature, (2) the published curriculum guides of comprehensive high schools, vocational-technical high schools, and area vocational schools, and (3) a 1965-66 analysis of the business curriculum of 20 senior and 4-year high schools in small cities, 50 high schools in medium-sized cities, and 50 large city high schools in 44 states and Puerto Rico. Sections include: (1) General Purpose of Curriculum Development for Secondary Schools, (2) Curriculum Planning in Business Education, (3) Objectives of Business Education, (4) Business Education in the Junior High Schools (small, medium, and large high schools), (6) Business Subjects Taught in Senior and 4-Year High Schools, (7) Programs in Business Education in Adult Day and Evening High Schools, and (8) Employment Outlook and Curriculum Implications. VOCATIONAL EDUCATION; *PREVOCATIONAL EDUCATION; HIGH SCHOOLS; *INTERDISCIPLINARY APPROACH; *TEAM TEACHING; TIME BLOCKS; HEALTH EDUCATION; BUSINESS EDUCATION; INDUSTRIAL EDUCATION; *INTEGRATED CURRICULUM; *EXPERIMENTAL PROGRAMS; STUDENT MOTIVATION

The basic goal of the program is to initiate a new course of study which will upgrade the education of the general student and give him a sense of direction and commitment. The program was organized in five schools during the 1966 school year, and four additional high schools will be included in 1967. The Educational Testing Service of Princeton is serving as consultant in formulating plans for project evaluation. The main features of the program are: (1) exploratory courses for grades 9 and 10 in the areas of business, health, and industry, (2) specialization in one broad area in grades 11 and 12, (3) preparation of those who wish to continue their education to the 13th and 14th years in a community college or urban center, (4) special counseling and placement through the services of a full-time guidance counselor assigned to each pilot school, (5) new curriculum materials in each course and "correlation" in other classrooms of projects carried out in one classroom, (6) emphasis on improving basic skills, (7) provision for a daily team teachers meeting to plan work, and (8) training workshops for teachers. Through individualized guidance, a team teaching, interdisciplinary approach to subject matter, and emphasis on the world of work, it is hoped to remotivate the student. (MM)

*CURRICULUM GUIDES; *STENOGRAPHY; *BOOKKEEPING; TIME BLOCKS; GRADE 12; *OFFICE OCCUPATIONS EDUCATION;
CURRICULUM; PROGRAM GUIDES; *TEACHING GUIDES

The Senior Intensive Business and Office Education (BOE) Core Program is designed for 12th grade students who, during their junior year of secondary school education, find themselves interested in but unprepared for a career in the business world. Only highly motivated, 8-or-better, office-oriented students should be admitted to this intensive program. Basic plans for a shorthand and a bookkeeping-clerical sequence are presented. Plan I for the shorthand or bookkeeping-clerical sequence provides for four periods of "block" time per day for business education courses during the first semester and two periods of business education plus two periods for cooperative office experience in a paid office job during the second semester. Plan II provides for five periods of "block" time per day for business education courses during the first semester and two periods of business education plus cooperative office experience during the second semester. Curriculums are planned for two 18-week semesters, with 55-minute periods, 6 periods per day. Course outlines are provided for Bookkeeping I and II, Business Mathematics, Business Organization and Management, Job Preparation and Job Placement, Office Procedures I and II, Record Keeping, Shorthand, and Typewriting. Each contains (1) suggested time allotments, (2) objectives, (3) a content outline, and (4) suggested teaching procedures, materials, standards, and evaluation techniques, and (5) a list of resource materials. Criteria for selecting teachers and students, recommended facilities, suggested texts and supplementary materials, sample forms, and criteria for determining vocational units are included. (PS)

Management Aids for Small Business. Annual No. 1.

Small Business Administration, Washington, D.C.
MF AVAILABLE IN VT-ERIC SET.
Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 (SBA*.10/2:1, \$.75).
Pub Date - 58 193p.

*REFERENCE MATERIALS; *BUSINESS EDUCATION; *MANUFACTURING INDUSTRY; *MANAGEMENT; *MANAGERIAL OCCUPATIONS;
MANAGEMENT EDUCATION; ADULT VOCATIONAL EDUCATION; INDIVIDUAL INSTRUCTION

This annual is a compilation of a series of publications for small business owners and operators. The choice of subjects stemmed directly from needs and desires mentioned to the Small Business Administration staff by small business operators. The 31 chapters are brief and written in clear, practical terms to be applied by the business men to help themselves. The subject matter falls into three classes: business-government relations, internal general management, and external sources of advice. Some of the chapter titles included are: (1) How Small Plants Can Sell to the Federal Government, (2) Packaging Pointers for Government Contractors, (3) Budgeting in the Small Plant, (4) Reducing Accident Costs in Small Industrial Plants, (5) Methods Engineering for the Small Plant, (6) Is Your Labor Turnover Cost Too High? (7) Minimizing the Cost of Breaking in New Personnel, (8) Incentive Techniques for Use in Small Businesses, (9) Developing Foremen in Small Plants, (10) How Management Consultants Help Small Businesses. *DISTRIBUTIVE EDUCATION; ADULT VOCATIONAL EDUCATION; *TEACHING GUIDES; ADVERTISING; *MERCHANDISING; UNITS OF STUDY (SUBJECT FIELDS); *MANAGERIAL OCCUPATIONS; MANAGEMENT EDUCATION

The Administrative Management Course Program was developed by the Small Business Administration (SBA) in cooperation with educational institutions in 1954 to bring modern management knowledge and techniques to owners and managers of small businesses. A committee on management education was formed consisting of representatives of the Distributive Education division of the American Vocational Association, and the SBA to study ways of meeting the small-business management needs of small communities. The committee recommended that a series of subject presentations be developed. This document is one of the recommended series and includes lesson plans, lectures, visual aids, case studies, handout materials, assignments, and a bibliography for teaching about sales promotion for small businesses. The course is designed to be taught by an advertising manager or one trained in sales promotion. Related documents are available as VT 001 700, VT 002 029, VT 002 830, VT 005 516, VT 006 637-VT 006 641, and VT 006 643-VT 006 648. (MM)

Pub Date - 65 53p.

*TEACHER GUIDES; *DISTRIBUTIVE EDUCATION; *RETAILING; *MERCHANDISING; *ELECTRONIC DATA PROCESSING; HIGH SCHOOLS

This teaching guide is for teacher use in lesson planning for distributive education juniors and seniors in data processing of merchandising control. It was developed by a committee of teachers, teacher-educators, and college department heads. The content objectives are to develop an acquaintanceship level of interpretation of punched card technology and, briefly, of the computer processes. Units are: (1) Punch Card Format, (2) Sorting Punched Cards, (3) Recording Alphabetic Information, (4) Taking Physical Inventory, (5) Prepunched Price Tickets, (6) Price Tickets, (7) Introduction to the Computer, (8) The Flow or Systems Chart, and (9) A Computer System for Retail Stores. The case method is used to motivate student participation. Simulated or actual punched cards are illustrated for use with the lessons. A supplementary resource materials list and films and filmstrips list are also included. The teacher could be a regular teacher of distribution with some knowledge of automatic business data processing. Students should be enrolled in distribution classes with an occupational goal in the field of retailing. (MM)

The Administrative Management Course Program was developed by the Small Business Administration (SBA) in cooperation with educational institutions in 1954 to bring modern management knowledge and techniques to owners and managers of small businesses. A committee on management education was formed consisting of representatives of the Distributive Education division of the American Vocational Association, and the SBA to study ways of meeting the small-business management needs of small communities. The committee recommended that a series of subject presentations be developed. This document is one of the recommended series and includes lesson plans, lectures, visual aids, case studies, handout materials, assignments, and a bibliography for teaching about the success and failure factors in small businesses. The course is designed to be taught by a management specialist. Related documents are available as VT 000 238, VT 001 700, VT 002 029, VT 002 830, VT 005 516, VT 006 638-VT 006 641, and VT 006 643-VT 006 648. (MM)

The Economic Facts of Life for the Small Engine Service Dealer, Volume 1, Financial.

Automotive Electric Association, Detroit, Mich. Engine Service Institute

DOCUMENT NOT AVAILABLE FROM EDRS.

Automotive Electric Association, 16223 Meyers Road, Detroit, Michigan 48235 (\$2.00).

Pub Date - 64 60p.

*REFERENCE MATERIALS; ECONOMIC FACTORS; *ENGINES; *MANAGERIAL OCCUPATIONS; *DISTRIBUTION EDUCATION; MANAGEMENT EDUCATION; MANAGEMENT; *BUSINESS; POST SECONDARY EDUCATION; HIGH SCHOOLS; ECONOMIC OPPORTUNITIES

Developed by a committee of subject matter specialists from the technical staffs of six Automotive Electric Association small engine manufacturers, this reference was developed for use by small air-cooled engine specialists and as an occupational aid to small engine dealers. The content includes chapters on: (1) industry scope including opportunity, stability, and challenge, (2) management of capital, and (3) labor rate calculations to provide for overhead and livelihood. The teacher should have knowledge and experience in the small engine field, and students should be interested in establishing themselves in the small engine business. An appropriate setting for this course of approximately 20 hours would be a trade, vocational, high, or college school. Volume II of this series is available as VT D06 738. (DM)

*STUDY GUIDES; *HEALTH OCCUPATIONS EDUCATION; *PRACTICAL NURSES; *PRACTICAL NURSING; ADULT VOCATIONAL EDUCATION

Developed by a committee of instructors with local and state supervisors, this manual contains 81 nursing procedures and 68 assignment sheets designed to assist the student in learning nursing procedures. The exact method for use of this material can vary according to the instructional situation. Typical assignment sheet subjects are interpretation of medical abbreviations, admission of patient, asepsis, measurement of intake and output, and collection of specimens. These assignment sheets list objectives, assigned readings, and questions. Typical procedures presented are back rub, body positions, draping, enema, hypodermic injection, and postoperative care. These are organized to include introductory information, purpose, equipment, safety factors, steps, and keypoints. A separate answer booklet, "Nursing Procedures for the Practical Nurse Answer Book" is available as VT000 784. (JK)

*PROGRAM GUIDES; *CURRICULUM GUIDES; *TEACHING GUIDES; *HEALTH OCCUPATIONS EDUCATION; GRADE 11; GRADE 12; *PRETECHNOLOGY PROGRAMS; EXPERIMENTAL CURRICULUM; UNDERACHIEVERS; TEACHING METHODS

Medical technology is one of three offerings of the pretechnical project designed to remotivate underachieving high school students who, upon successful completion of the program, may be admitted to the career programs of the community college. Developed by a committee of teachers at the local level, the manual is intended to assist teachers, supervisors, and administrators in operating the project. Students, selected for the program at the end of the 10th year, are blocked-programmed for English, science, mathematics, and a technical laboratory for 16.5 hours per week, but mix with other students for the remaining classes. Team teaching, interdisciplinary correlation, and a laboratory-type curriculum are used. Program aims, student selection, organization and administration, student evaluation, recordkeeping, guidance procedures, and teacher role are discussed in detail. Outlines of correlated units in English, mathematics, and science constitute the major portion of the manual. Examples of science units, the focus of the correlation, for the year are (1) Energy and the Structure of Matter, (2) Water, (3) Solutions, Suspensions, and Colloids, (4) The Chemical Equation and Mathematical Applications, (5) Organic Chemistry, and (6) Nuclear Chemistry. Examples of twelfth year units are (1) Physical and Chemical Properties of Protoplasm, (2) Chemical Reactions of Protoplasm, (3) The Chemistry of Energy Supplies, (4) The Origin of Life and Levels of Organization, (5) Infections and Functional Disorders, and (6) The Science of Immunology and Modern Chemotherapy. Sample forms to be used in the guidance program are included. For other project offerings, see VT 005 279 - VT 005 281 in AIM Fall '68. (JK)

*CURRICULUM GUIDES; *HEALTH OCCUPATIONS EDUCATION; *MEDICAL ASSISTANTS; POST SECONDARY EDUCATION

This guide is for administrator and teacher use in developing a post-secondary vocational school program to prepare students for employment as medical assistants. It was developed by a supervisor, a teacher-coordinator, and teachers at the local level, tested in a local school, and adopted by five other vocational-technical schools in the state. The objective of the program is to enable the students to acquire the knowledge, skills, and understanding of ethics and human relations necessary to assist the physician efficiently in his office. The major areas of the program are (1) Medical and Related Information, 348 hours, (2) Medical Office Secretarial Information, 525 hours, (3) Nursing Information, 286 hours, (4) Laboratory Techniques, 64 hours, and (5) Clinical Practice, 80 hours. Each of 14 units within the areas include introductory information, objectives, and a list of content and topics. Teachers should be occupationally competent practitioners and teachers in the medical field. Requirements for students are high school graduation or equivalency, one unit of science, one unit of typing, and a twelfth grade reading level. (JK)

This guide for the training of home health aides is a compilation of lecture outlines supplemented by a suggested class schedule for the use of the program director in planning the overall program and preparing for the classes he is to teach. Developed by the Training Branch of the Division of Indian Health in cooperation with the Office of Indian Health in cooperation with the Office of Economic Opportunity, the Oglala Sioux Tribe, and other interested individuals, the purpose of the program was to equip aides drawn from the reservation population to augment the Division's community health activities on the Pine Ridge Reservation in South Dakota. Units include: (1) Introduction, (2) Anatomy and Physiology, (3) Epidemiology, (4) Basic Home Nursing and Home Health Practice, (5) Environmental Health, (6) Home Management, (7) Community Resources, (8) Accident Prevention, (9) Education Techniques, and (10) Human Relations. Quizzes and lists of suggested references and teacher aids follow each unit. The classroom phase of the training was conducted in two sessions of twelve weeks each with twelve aides attending each session followed by four months of on-the-job training. Personnel qualified to handle each subject area are suggested. (JK)

*PROGRAMED UNITS; *HEALTH OCCUPATIONS EDUCATION; *NUPSES; *NURSING; HOSPITALS; *PEPPER COURSES

This programmed course, intended primarily for registered nurses and particularly for those returning to practice after a period of retirement, may also have value for other nursing personnel. The general objective is to assist the nurse in the hospital to improve the quality of the nursing care given to the patient placed on a closed chest drainage system. Units are Anatomy and Physiology, Rationale of Therapy, and The Apparatus. The material is to be used by the individual student, and two separate sessions totaling three to four hours are recommended for the completion of the course. An optional review is included following the section on anatomy and physiology for the use of students who, on the basis of their knowledge, desire to omit this section. Numerous diagrams are presented and a reference list is included. (JK)

*TEACHING GUIDES; *HOMEMAKING EDUCATION; GRADE 11; GRADE 12; TALENTED STUDENTS

Resource units are provided for teacher use in selecting materials to meet the needs of above-average 11th and 12th grade students who have had little home economics background. The materials were developed by local home economics teachers and consultants, taught experimentally for 1 year, edited and revised. Home and family living units and subject matter areas presented are: (1) child study (preparing for parenthood, and providing for the basic needs of children), (2) clothing and textiles (becoming a better consumer, caring for your clothes and clothing for travel), (3) employment possibilities (looking at present and future employment), (4) food and nutrition (selecting, storing, and using foods), (5) housing (selecting for your needs, planning house and grounds, financing your home, and realizing responsibilities in housing), (6) home furnishings (using color and design in home furnishings, selecting and arranging furniture, choosing accessories and buying of home furnishings), (7) management of resources (managing money, time, and energy), and (8) relationships (understanding yourself and others, and understanding marriage in our society). Resource materials, content, generalizations, and suggested learning experiences for each unit are outlined in tabular form. A bibliography of books, periodicals, booklets and pamphlets is organized by home economics subject matter. (FP)

*HOMEMAKING EDUCATION; *BEHAVIORAL OBJECTIVES; COGNITIVE PROCESSES; KNOWLEDGE LEVEL; PSYCHOMOTOR SKILLS; *RESOURCE UNITS; CURRICULUM DEVELOPMENT; LEARNING EXPERIENCE; STUDENT EVALUATION; JUNIOR HIGH SCHOOLS; SENIOR HIGH SCHOOLS

Guidelines for teacher use in developing local vocational homemaking programs for boys and girls in grades 7 through 12 were developed by regional groups of home economics teachers and teacher educators. Local programs should reflect the social, economic, and cultural profile of the community and the current trends in education and society. Part I contains (1) an explanation of the organization and use of the materials, (2) a chart showing the relationship of the parts to the overall philosophy of home economics, (3) a discussion of two basic concepts which pervade and influence all home economics teaching: "human growth and relationships" and "management," and (4) generalizations related to these concepts for each of the seven areas of home economics. Behavioral objectives are suggested for the cognitive, affective, and psychomotor domains. Part II lists behavioral objectives, according to domains and for each objective provides learning experiences and evaluation techniques in the seven subject matter areas. The materials are not classified into grade levels to facilitate adaptation to both individual student and community needs. Part III is a bibliography of books and bulletins for students and teachers. (FP)

Curriculum Outline for Grades 7 thru 12, Homemaking.

Nebraska State Dept. of Education, Lincoln. Div. of Vocational Education
MF AVAILABLE IN VT-ERIC SET.
Pub Date - Aug66 9p.

*HOMEMAKING EDUCATION; *COURSE CONTENT; CURRICULUM PLANNING; HIGH SCHOOLS; *CURRICULUM

Guidelines to help teachers plan home economics programs for grades 7 through 12 were developed by the State supervisory staff. Home economics students of the University of Nebraska evaluated and revised the plans, and classroom teachers tested them. Objectives of the course are to help people identify and develop certain fundamental competencies that will be effective in personal and family living regardless of the particular circumstances of the individual or family. The suggested curriculum provides a structure for the comprehensive program. A scope and sequence outline, in chart form, lists basic learnings and time allotments at each grade level for units in: (1) foods and nutrition, (2) family finance and home management, (3) personal, social, family relationships, (4) child development and guidance, (5) clothing and textiles, (6) housing, home furnishings, and equipment, and (7) planning, home practice, evaluation, and school activities such as Future Homemakers of America. The outlined one- or two-semester unit for senior boys and girls Preparing for Adult Living suggests learning experiences in: (1) responsibilities and roles of adults in society, (2) parenthood and needs of infants and adolescents, (3) consumer education, (4) family life cycle, (5) physical, psychological, and social aspects of family housing, and (6) clothing and nutrition for the family. A certified homemaking teacher is required for these courses. (FP)

*CURRICULUM GUIDES; *TEACHING GUIDES; *HOMEMAKING EDUCATION; *FAMILY LIFE EDUCATION; GRADE 12

This guide is for teacher use in planning family living classes for senior boys and girls who have not previously elected home economics in their programs. It was developed by a workshop of graduate students in home economics education under the guidance of a university teacher-educator. Incorporated into each unit are suggested problems, teaching objectives, possible generalizations, learning experiences, teaching aids, and terms to know. A list of characteristics of later adolescence with implications for the curriculum is included. Units include: (1) Clues for Clothing, (2) Housing, Today and Tomorrow, (3) Dollars and Cents, (4) You and Your Family, (5) Living with Children, and (6) Partnership in Family Meals. Questionnaires, evaluation devices, and check lists are part of each unit. Selected resource materials for co-educational classes are listed. (FP)

*CURRICULUM GUIDES; *HOMEMAKING EDUCATION; SENIOR HIGH SCHOOLS; JUNIOR HIGH SCHOOLS; EDUCATIONAL PHILOSOPHY

This handbook is for teacher use in developing home economics curriculums for junior high and senior high school students. It was developed by teacher education workshops and area group work, added to, and edited. The objectives are to provide opportunities for personal development, improved family relationships, and community responsibility. The emphasis is on problem solving and critical thinking and is designed to help students identify, clarify, and establish values which will enable them to make decisions which will be satisfying to themselves and their families. In each of the six areas of homemaking--relationships, management, child care and development, clothing and related arts, food and nutrition, and housing and home furnishing--an initial challenge, steps in developing a unit, a basis for planning the number of lessons, goals, basic understandings, and learning experiences are outlined for each grade--7 through 12. Steps in planning the year and developing a unit, sample teaching aids, and evaluation instruments are included. The appendix contains key words and terms used in stating goals, home experience suggestions, references, and an index of selected resources. The document is reproduced on multi-colored paper, each color designating an area of home economics. (FP)

*HOMEMAKING EDUCATION; *FIELD EXPERIENCE PROGRAMS; HOME VISITS; PARENT SCHOOL RELATIONSHIP; *TEACHING GUIDES; *PROGRAM GUIDES; STUDENT EVALUATION

The purpose of this guide is to help the homemaking teacher plan for learning experiences which extend beyond the classroom. Extended learning experiences enrich the student's education by giving her opportunities to apply knowledge, skills, and values to real problems in actual situations. She is encouraged to learn more about an area of interest or need and to make practical applications at home of principles learned in class. These learnings and experiences, combined with Future Homemaker of America experiences, work together to achieve the goals of home and family life education. Suggestions, illustrations, charts, and forms are provided for introducing, interpreting, setting standards, planning, supervising, and evaluating all phases of the program. Each section of the document is on different colored paper, has its title on the margin, and is recessed for easy identification. (MS)

 NORTH CAROLINA; OCCUPATIONAL COURSE 714.3 FOOD SERVICE

This guide is for teacher use in planning occupational food service courses which will prepare senior boys and girls for employment requiring less than technical knowledge working under the supervision of experienced personnel. The guide was cooperatively developed by the State home economics education supervisory staff, staff members of the school lunch section, nutritionists, and representatives of hospital food service programs and commercial eating establishments. Prerequisite for the course is general home economics, where the student has been introduced to nutrition and food preparation. The course may be offered in any high school, by a qualified home economics teacher where quantity food service facilities and employment possibilities exist. The course prescribes one hour classroom instruction daily and fifty hours of observation during the school year. Outlines are provided for the subject matter areas of: (1) grooming and personal hygiene, (2) food preparation, (3) menu planning for quantity food service, (4) work stations, (5) safety, sanitation and food storage, (6) food service personnel, (7) care and use of equipment, (8) business relations, and (9) the legal aspects of employment. The appendix contains additional learning experience suggestions, on-the-job observation checklists, inspection criteria used by the health department, and a bibliography. (FP)

 MF AVAILABLE IN VT-ERIC SET.
 Idaho-Vo-Ed-60
 Pub Date - 67 192p.

*HOMEMAKING EDUCATION; *FAMILY RELATIONSHIP; *FAMILY LIFE EDUCATION; *CHILD DEVELOPMENT; DEVELOPMENTAL TASKS; SECONDARY LEVEL; INSTRUCTIONAL MATERIALS

Materials for teacher use in planning a semester homemaking education course for secondary level and adult students were developed by 14 experienced homemaking teachers, teacher-educators, and state supervisors. The major objective is to prepare students to identify and develop certain fundamental competencies that will be effective in personal and family living regardless of the particular circumstances of the individual or the family. Developmental factors are outlined for early and later childhood and adolescence according to the topics: developing as an active, growing, male and female, secure, individual, creative, affectionate, communicating, thinking, self-controlled, socially acceptable, adequate, self-directing, responsible, conscientious, spiritual person. Characteristics and needs are listed for pre-, early, middle, and later adolescence. Differences are charted according to sex and grade level. Overall goals, grades 7, 8, 9, and instructional experiences are outlined for the 7th and 8th grade unit, "You and Your Friends." Goals, experiences, teaching aids, and basic learnings are suggested for Family Relations classes grades 9 through 12. (FP)

Ohio Home Economics Association
MF AVAILABL. IN VT-ERIC SET.
Pub Date - 66 2p.

*FAMILY RESOURCES; *WORKING WOMEN; FAMILY INCOME; *RESOURCE UNITS; *HOME MANAGEMENT; *HOMEMAKING EDUCATION

Research in Ohio showed that employed wives utilized more child care, housework, laundry, and sewing services than unemployed. There were no radical differences between the two groups in eating away from home (except lunch) nor in baking frequency. Working homemakers performed tasks at odd times. Nonemployed wives were more likely to own home freezers, automatic washers, electric sewing machines, and vacuum cleaners. Ownership and use of small electrical appliances was comparable for both groups. Working wives used most of their income for current living expenses. Families with employed homemakers used consumer credit more freely than those with just one income. The wives' income after job related and extra expenses amounted to 3/5 of her gross earnings in adult families and 1/2 when there were preschool children. Child care was found to be a real concern of working mothers. Estimates in 1961 valued the unpaid-for services of homemakers within the home at a minimum of \$3,000. In teaching time and money management, resources need to be recognized for what they are--means to ends. Materials on making use of resources and teaching suggestions for budgeting time and money are presented. (FP)

TEACHING GUIDES; REFERENCE MATERIALS; LEARNING EXPERIENCE; SCIENTIFIC PRINCIPLES; CULTURAL DIFFERENCES; SOCIAL INFLUENCES; HEALTH NEEDS; BEHAVIORAL OBJECTIVES; *FOODS; *NUTRITION; HIGH SCHOOLS; ELEMENTARY SCHOOLS; HOMEMAKING EDUCATION; STUDENT EVALUATION; CONCEPTUAL SCHEMES; *CURRICULUM GUIDES

Units for teacher use in foods and nutrition classes were developed by elementary and secondary teachers, teacher educators, and state supervisors, tested by classroom teachers, refined, and edited. The units, each printed on different colored paper, are (1) Food and Nutrition-Beginning Levels, (2) Science and Food-Intermediate Level, (3) Food for Families-Advanced Level. Each unit contains (1) a general approach and suggested time distribution, (2) an index consisting of a topical outline, and a list of materials such as references, filmstrips, and transparencies, (3) the unit proper, and (4) an appendix. The unit proper contains objectives classified according to Bloom's taxonomy, conceptual statements, and illustrative series of learning and evaluative experiences correlated in four parallel columns. The amount of time to be spent on the different segments and the grade level of the content of each unit will vary according to the cultural backgrounds, the learning abilities, the learning needs of students, and the total scope and sequence of home economics within the local school. Also included are (1) a bibliography of books, periodicals, bulletins, and pamphlets, charts, films, filmstrips, and slides, and (2) the rationale for the teaching-learning models. (FP)

*CHILD DEVELOPMENT; *HOME ECONOMICS EDUCATION; FAMILY RELATIONSHIPS; *CURRICULUM GUIDES; LEARNING EXPERIENCE; CHILD CARE; ELEMENTARY SCHOOLS; HIGH SCHOOLS; *TEACHING GUIDES

This guide is for teacher use in planning instructional materials for elementary and secondary level child development classes. It was developed by elementary and secondary teachers, teacher educators, and state supervisors and was tested by classroom teachers, refined and edited. The suggested time allotment is a minimum of 6 weeks per unit. The age of the children whose development is being studied is the basis for content organization. The units, each on different colored paper, are (1) Conception-to-Two Years which is for advanced level students who will be more immediately concerned with this area, (2) Two-through-Five Years, and (3) Six-through-Twelve Years. Both of the latter were planned for use at either the beginning or intermediate level, depending upon the responsibility typically assumed by home economics students working with children and the availability of children for observation and participation experiences. Each unit contains a topical outline of content. Each section of the topical outline includes major objectives stated in levels of learning, conceptual statements, an illustrative series of experiences, teaching materials, and references for students and teachers. Each unit is self-contained and not dependent upon previous study in child development. A bibliography of books, bulletins and pamphlets, magazines, newsletters, films, filmstrips, and records is included in the appendix. (FP)

*CLOTHING INSTRUCTION; *TEXTILES INSTRUCTION; *HOME ECONOMICS EDUCATION; *CURRICULUM GUIDES; LEARNING EXPERIENCES; HIGH SCHOOLS; *TEACHING GUIDES; ELEMENTARY SCHOOLS

Guidelines for teachers who are planning lessons for elementary and secondary students in clothing and textile classes were developed by teachers, teacher educators, and state supervisors. Materials were tested by classroom teachers, refined, and edited. Models of teaching-learning units, each on different colored paper, are presented for three levels. The beginning level covers the significance, planning, and fashioning of clothing and construction procedures. The intermediate level covers the source and theoretical basis of fashion and textiles, consumer behavior and construction. The advanced level is based on the life cycle concept, provides scientific experimentation in buying and construction, and explores available careers. Each unit includes a topical content outline correlated with teaching materials and teacher references and a suggested time distribution chart. Each major section of each unit includes (1) objectives, (2) major ideas which are stated as concepts, (3) an illustrative series of learning experiences, (4) an illustrative series

of evaluative experiences, (5) a bibliography of books, periodicals, bulletins, pamphlets, and filmstrips, and (6) instructional materials. Procedures used in developing the guide and suggestions for its use are discussed. (FP)

*MONEY MANAGEMENT; *HOME MANAGEMENT; *HOME ECONOMICS EDUCATION; *CURRICULUM GUIDES; *FAMILY RESOURCES; HIGH SCHOOLS; CONSUMER EDUCATION

This curriculum guide is for teacher use in planning and directing learning experiences which will enable home economics students to gain a better understanding of financial management and to utilize their resources to achieve personal and family objectives. It was developed from resource units prepared and reviewed by 18 home economics teachers participating in family finance workshops held in cooperation with the National Committee for Education in Family Finance and the Arkansas State Department of Education. Suggested scope and sequence of key concepts for eighth grade or Home Economics I are attitudes about money and its use, values and goals, managing personal income, contributions to family income, teenage credit, and consumer buying. Home Economics II key concepts include budgeting, banking services, use of credit, family security, estate planning, and community responsibility. The scope and sequence for teaching concepts in Home Economics III include standards and levels of living, guides for consumer buying, consumer protection, consumer and the national economy, and financing housing. Any or all of the concepts from the 3 levels might be included in a family living course, while concepts for adult home economics courses must be selected to meet the needs of the group being served. Curriculum materials on each of the family finance concepts provide generalizations, objectives, and related learning experiences to develop the stated concepts. Student references listed for use in family finance education at each level includes books, bulletins and pamphlets, and periodicals. Suggested teacher references, evaluation forms, and a list of home experiences are also included. (FP)

*CURRICULUM GUIDES; *HOME ECONOMICS EDUCATION; *CHILD DEVELOPMENT; CHILD CARE; HIGH SCHOOLS; *BEHAVIORAL OBJECTIVES; VALUES; *FAMILY RELATIONSHIP; BIBLIOGRAPHIES; INSTRUCTIONAL MATERIALS

Curriculum materials developed through the cooperative efforts of the state supervisors, teacher-educators, homemaking teachers, and college child development specialists, are organized in terms of behavioral outcomes for the beginning, intermediate, and advanced levels, and contain generalizations with supporting content, suggested teaching plans, and reference lists. Subject matter areas are: (1) A Case for Teaching Child Development, (2) Values, (3) Development of Self, (4) Interpersonal Relationships, and (5) Family-Community Interaction. A color coded arrangement designates instructional level, behavioral outcomes and generalizations for the unit, teacher plan or references, information and the appendix. The appendix contains: (1) Guidelines for Organizing and Conducting a Play School, (2) Guidelines for Observations, (3) Suggestions for Developing a Unit on Babysitting, (4) Using Minute Dramas, Case Studies, and Case Situations, (5) Creative Expression Materials, (6) Books, Pamphlets, and Bulletins, Periodicals, and (7) Films, Filmstrips, and Transparencies. *CURRICULUM GUIDES; *OCCUPATIONAL HOME ECONOMICS; *FOOD SERVICE OCCUPATIONS; FOODS INSTRUCTION; NUTRITION INSTRUCTION; GRADE 9; GRADE 10

These materials, developed by a committee of local teachers and supervisors, and tested in the classroom, are designed to help grade 9 and 10 pupils develop the elementary skills, appreciations and understanding necessary for employment in food serving establishments. The one semester program, which meets 2 hours daily, has been organized into the following instructional units: (1) Orientation, (2) Fruits and Vegetables, (3) Salads and Salad Dressings, (4) Soup and Accompaniments, (5) Breads and Sandwiches, (6) Milk, Cheese and Eggs, (7) Pastries, Cakes and Cookies, (8) Meat, Fish and Poultry, (9) Beverages and Appetizers, and (10) Cereals and Cereal Products. Each unit contains objectives, content, vocabulary, activities, evaluation, audio-visual aids and a bibliography. An appendix contains evaluation devices, charts, diagrams, visual aids, restaurant organization and positions available. (FP)

*TEACHING GUIDES; *INDUSTRIAL ARTS; *ENGINES; JUNIOR HIGH SCHOOLS

This curriculum guide was developed by the State Industrial Arts Curriculum Committee of industrial arts teachers and professors for use by teachers in planning a one-semester course on power or energy conversion at the junior high school level. General course objectives are to (1) familiarize the student with power in producing useful work, (2) promote an interest in the mechanics of power equipment, (3) provide knowledge of operating principles of power producing engines and their industrial application, and (4) develop consumer knowledge, an appreciation of industry and its products, good work habits, and an appreciation for the safe and effective use of power. Major units are (1) Introduction and History of Power, (2) Measurements of Power, (3) Water Power, (4) Wind Power, (5) Pneumatics, (6) Hydraulics, (7) Electricity-Electronics, (8) Steam, (9) Internal Combustion, (10) Solar Energy, (11) Atomic Power, and (12) Rocket. Each unit gives objectives, class and teacher activities, and a bibliography of references and teaching aids. (EM)

A Guide for Industrial Arts in Ohio Schools, Second Edition.

Ohio Industrial Arts Assn., Columbus

Ohio State Dept. of Education, Columbus

MF AVAILABLE IN VT-ERIC SET.

State Department of Education, State Office Building, Columbus, Ohio 43215.

Pub Date - Apr63 42p.

*ADMINISTRATOR GUIDES; *INDUSTRIAL ARTS; *ELEMENTARY GRADES; HIGH SCHOOLS; *CURRICULUM; ADULT EDUCATION OHIO

The purpose of this guide is to redefine industrial arts in light of the present day environment to outline a program which is broadly conceived to teach industry as a part of the education of all youth. The contents include a history of industrial arts in Ohio, some recognized purposes of education, a study of industry in the school program, a definition of industrial arts, and the unique contributions of industrial arts. The purposes and subject areas are given for elementary school, junior high school, and senior high school. Implications for special education and adult education are discussed. Factors affecting the program and facilities such as scheduling, grouping, class size, teacher competency, architectural considerations, service requirements, and spare requirements are also covered. *CURRICULUM GUIDES; *INDUSTRIAL ARTS; *TRADE AND INDUSTRIAL EDUCATION; JUNIOR HIGH SCHOOLS; CURRICULUM; SENIOR HIGH SCHOOLS; *INDUSTRIAL EDUCATION; *PROGRAM GUIDES

The purpose of this guide is to help teachers coordinate the industrial arts curriculum. It was compiled and written by teachers under the direction of the vocational and industrial arts supervisor. Junior high school course outlines included are Industrial Arts I, II, III, IV, and supplementary areas Plastics, Power Mechanics, Leather, Ceramics, and Basic Electricity and Electronics. Senior high school course outlines included are Drafting, Architectural Drafting, Woodwork, Metals, Graphic Arts, Electronics, Masonry, and Metal Cluster. Each course outline gives: (1) time required, (2) topic, (3) topic objective, and (4) resource materials and aids. The industrial arts courses offered by the different schools in the system and a list of teachers are given. (EM)

Ceramics, Project Ideas for Industrial Arts.

New York State Education Dept., Albany. Bureau of Secondary Curriculum Development

EDRS PRICE MF-\$0.75 HC-\$7.48

Pub Date - 66 185p.

*RESOURCE UNITS; *INDUSTRIAL ARTS; *CERAMICS; JUNIOR HIGH SCHOOLS; SENIOR HIGH SCHOOLS; *STUDENT PROJECTS

This book of ceramic project ideas is for teacher or student use in secondary industrial arts courses. It was developed in a workshop by teachers. The content objectives are to provide useful projects and units of instruction and to give direction to ceramics instruction which is in keeping with a changing technology. Forty-one project plans are presented under these units: (1) Hand Forming, (2) Slab Constructing, (3) Free Forming, (4) Press Molding, (5) Solid Casting, (6) Slip Casting, (7) Extruding, (8) Throwing and Turning, and (9) Jiggering. Each unit gives project plans, student activities, project procedures, related technical information, teacher demonstrations, related cultural information, and references. Similarly organized units cover 13 tools or pieces of equipment such as a jigger arm, stilts, an extrusion press, and a turning box. Information concerning the making of glazes is also included. Supplementary materials include a glossary of ceramic terms, a bibliography of books and periodicals, and indexes to related technical and cultural topics. (EM)

Industrial Arts Humanities Media Guide: CUE.

New York State Education Dept., Albany

Office of Education (DHEW), Washington, D.C.

EDRS PRICE MF-\$0.50 HC-\$4.76

Pub Date - 65 117p.

*CURRICULUM GUIDES; *TEACHING GUIDES; *INDUSTRIAL ARTS; GRADE 9; *HUMANITIES; INSTRUCTIONAL MATERIALS, CULTURAL ENRICHMENT *PROJECT CUE

This curriculum guide is for teacher use in course and lesson planning for ninth grade industrial arts. It was developed by Project CUE (Culture, Understanding, Enrichment), a project funded by the U.S. Office of Education, as part of a group of materials designed to integrate and encourage humanities instruction in various subject areas. The original materials were tried in 13 project schools and revised before publication. Thirty lessons were organized under the following headings: (1) Architecture and Construction, (2) Ceramics, (3) Graphic Arts, (4) Industrial Design, (5) Leather, (6) Metalworking, (7) Photography, (8) Textiles, and (9) Woodworking. Each of the lessons provides (1) the titles of instructional materials such as films, pamphlets, or photographs, (2) lesson objectives, (3) a lesson synopsis based on the instructional material, (4) suggested teacher preparation, (5) key terminology, (6) suggested student activities during and following the lesson, and (7) suggested optional intellectual and creative student activities. The designated instructional materials serve as the focus for each lesson and each was selected for a particular cultural purpose which is expressed in the objectives. Also included is a list of sources for the instructional materials. (EM)

Industrial Arts in General Education. Research Report I, 1966.

Alberta Univ., Edmonton. Dept. of Industrial and Vocational Education
MF AVAILABLE IN VT-ERIC SET.
Pub Date - 66 21p.

*INDUSTRIAL ARTS; *JUNIOR HIGH SCHOOLS; *EXPERIMENTAL PROGRAMS; *PROGRAM DESCRIPTIONS; EXPERIMENTAL GROUPS; CONTROL GROUPS; *CURRICULUM EVALUATION; JUNIOR HIGH SCHOOL STUDENTS; MULTIMEDIA INSTRUCTION
EDMONTON; CANADA

The objectives of this experimental program were to provide (1) an environment where students can reinforce and apply academic disciplines, (2) exploratory experiences in various productive aspects of society, (3) a synthesizing educational environment, and (4) an introduction to the multiplicity of career opportunities during grades seven through 12. Four program phases were (1) a multiple activity environment involving ceramics, graphic arts, plastics, woods, metals, and electricity, (2) introduction to selected technologies, (3) the role and function of man in an industrially oriented society, and (4) the study of clusters of technologies within a research and development context. Research carried out during the first year's operation was to determine the feasibility of further developmental research. A stratified sample consisted of five experimental and five matched control groups selected on the basis of achievement from grades eight and nine. The experimental treatment was phase one of the program, for one year. Findings included: (1) grade nine low-achieving boys improved in reading, language, and social studies, (2) grade eight average-achieving boys improved in language, (3) grade eight mixed-ability girls improved in mathematics and science, (4) grade nine lowest-achieving boys improved in arithmetic concepts and word and paragraph comprehension, and (5) grade nine high-achieving boys improved in all academic achievement. Industrial Arts Curriculum Planning Guide, Grades 7-12.

Idaho State Dept. of Education, Boise. Div. of Instruction
MF AVAILABLE IN VT-ERIC SET.
Pub Date - 64 136p.

*CURRICULUM GUIDES; *INDUSTRIAL ARTS; JUNIOR HIGH SCHOOLS; SENIOR HIGH SCHOOLS; COURSE DESCRIPTIONS
IDAHO

This guide was developed by a state level committee for use in coordinating and enriching the state's industrial arts programs. Sections I and II provide a philosophy of industrial arts, and present the curriculum from grades 7 through 12. Section III presents descriptions, objectives, and instructional activities for (1) Industrial Arts I covering 1 year of sketching and project planning, plastics, and industrial crafts, (2) Industrial Arts II covering 1 year of drawing, bench metal, electricity, and bench woodwork, (3) Industrial Arts III covering one semester in each of four areas--general drafting, machine woodwork, general metals, and electricity and basic electronics, and (4) Advanced Industrial Arts covering 1-year courses in each of four areas--drafting, woodwork, metals, and electricity and electronics. An outline of the course units, student skills and operations, and related information for each of the 22 courses are provided. Section IV discusses implementation of the curriculum. (EM)

Saito, Thomas, And Others
Revised Approved Book List, Industrial Arts, Grades K-12.

Hawaii State Dept. of Education, Honolulu. Vocational, Post-High and Adult Education Branch
MF AVAILABLE IN VT-ERIC SET.
Pub Date - Nov67 62p.

*BIBLIOGRAPHIES; *INDUSTRIAL ARTS; ELEMENTARY GRADES; HIGH SCHOOLS; *TEXTBOOKS; *REFERENCE MATERIALS; *PERIODICALS

This booklist, developed to complement the "Revised Industrial Arts Guide, K-12" and compiled on the basis of a review and evaluation by members of the Approved Book List Committee, includes periodicals, basal or standard textbooks, supplementary textbooks, enrichment books, and professional or technical books classified on three levels according to grades. Items in Level III, grades 9-12, are classified under drafting and design, electricity and electronics, general industrial arts, graphic arts, metals, plastics, power and transportation, research, and development and woods. Professional books recommended for all industrial arts departments and periodicals recommended for all industrial arts teachers and students are listed separately. Of 451 citations, some of which contain multiple items, most were published after 1950. The author, title, publisher, date, general reading level, and price are indicated for the books, and the publisher's address for periodicals. The appendix contains forms for use in nominating and evaluating additional materials for this book list. (EM)

Introduction to the Technical Cores I and II.

Santana Vocational Technical Center, Calif.
MF AVAILABLE IN VT-ERIC SET.
Pub Date - 67 23p.

*INDUSTRIAL EDUCATION; HIGH SCHOOLS; COURSE OBJECTIVES; OCCUPATIONAL GUIDANCE; *COURSE DESCRIPTIONS; PROGRAM DESCRIPTIONS; CURRICULUM; LABORATORIES; *DISCOVERY LEARNING; *EDUCATIONAL FACILITIES; RESOURCE CENTERS

Technical Core I, a 9th grade course, involves a problem-solving approach in an industrial laboratory setting where only the problems, resources, and guidance are provided. No direct answers are given by the teacher. The problems cover and reinforce basic scientific principles and involve several materials and processes. Technical Core II, a 10th grade course, involves 24 weeks of basic experiences with scientific principles and technical processes, 4 weeks of work on a specific industrial problem, and 8 weeks of work on a second more individualized problem. Courses for grades 11 and 12 are of a vocational or technical nature and upon completion of the facilities will include: (1) electro-mechanical technology, (2) plastics and synthetic technology, (3) industrial drawing and design, (4) instrumentation, (5) power mechanics, (6) electronic assembly technology, (7) electronic technology, (8) auto body reconditioning, (9) building construction technology, and (10) vocational auto shop. During the 4-year program students have access to an individualized occupational guidance program involving testing and educational activities. Student competencies are listed for all courses which are described. (EM)

*STUDY GUIDES; *TRADE AND INDUSTRIAL EDUCATION; *ELECTRICIANS; *PRACTICAL MATHEMATICS; ADULT VOCATIONAL EDUCATION; *INDIVIDUAL INSTRUCTION; APPRENTICESHIPS

This study guide is for individual student use in the study of mathematics relating to electrical conduit bending. It was developed by an instructional material specialist and advisers to acquaint the electrician with the mathematics necessary for conduit measurement and bending. Assignment sheets are used to guide the student's study of (1) the terminology of measurement for conduit bending, (2) triangle measurements used for conduit bending, (3) methods of bending conduit and tools used, (4) bending conduit elbows, (5) bending conduit kicks, and (6) bending conduit offsets and saddles. The assignment sheets give introductory information, references, directions, work examinations from the primary textbook, and study questions and problems. The material is to be used by the individual students under teacher direction for 20 hours. The teacher should be a journeyman electrician and the students will usually be journeymen or apprentices employed in the electrical trade. "Conduit Bending for Wiremen, Instructor's Book" (VT 000 324) provides answers to the work examinations and step-by-step solutions to study questions and problems. A study guide (VT 000 325) and an instructor's book (VT 000 326) are also available to direct the electrician's study of electrical meters. (HC)

*TEACHING GUIDES; ANSWER KEYS; *TRADE AND INDUSTRIAL EDUCATION; *ELECTRICIANS; *PRACTICAL MATHEMATICS; ADULT VOCATIONAL EDUCATION; APPRENTICESHIPS

This instructor's guide and answer key is for teacher use in directing individual student study of mathematics relating to electrical conduit bending. It was developed by an instructional materials specialist and advisers to acquaint the electrician with the mathematics necessary for conduit measurement and bending. The instruction and answer sheets are keyed to the student assignment sheets and give suggestions for directing student study and step-by-step solutions to work examinations and study questions and problems. It is suggested that problems which provide the greatest difficulty be noted and used as an overall test to determine if the students have gained an understanding of the course content. The material is to be used by the teacher in directing the 20 hours of individual student study. The teacher should be a journeyman electrician and the students will usually be journeymen or apprentices employed in the electrical trade. The student assignment book is VT 000 323. A study guide (VT 000 325) and an instructor's book (VT 000 326) are also available to direct the electrician's study of electrical meters. (HC)

*STUDY GUIDES; *TRADE AND INDUSTRIAL EDUCATION; *TRADE AND INDUSTRIAL TEACHERS; TEACHER DEVELOPED MATERIALS; *INSTRUCTIONAL MATERIALS; MATERIAL DEVELOPMENT; *TEACHER EDUCATION; INSERVICE TEACHER EDUCATION

This study guide is for use by trade and industrial teachers during their inservice education. It was developed by teacher educators to present correct techniques of writing instruction sheets. Seven types of instruction sheets are discussed: Job Sheets, Job Plan Sheets, Operation Sheets, Report Sheets, Trade Technology Sheets, Assignment Sheets, and Standard Answer Sheets. For each sheet the parts are outlined and an example is provided; a final assignment is made. (EM)

TEACHER EDUCATION; DISCIPLINE; *TEACHER EDUCATION

This study guide is for use by trade and industrial teachers during their inservice education. It was developed by teacher educators. The content objective is to provide an understanding of problems involved in dealing with classes and student groups. Major units are entitled, Definitions of "Organizing" and "Controlling," Factors Essential for Organization, Factors Essential for Control, and Analysis of Areas of Organization and Management Problems in Controlling Groups. A list of three references is included. (EM)

VT DDD 775

Manual of Standard Formats for Written Instructional Aids.

Ohio State Dept. of Education, Columbus. Trade and Industrial Education Service

MF AVAILABLE IN VT-ERIC SET.

Pub Date - Apr65 66p.

MANUALS; *TRADE AND INDUSTRIAL EDUCATION; *TRADE AND INDUSTRIAL TEACHERS; *INSTRUCTIONAL MATERIALS; *MATERIAL
DEVELOPMENT; TEACHER DEVELOPED MATERIALS; *TEACHER EDUCATION

Standard formats for instructional materials in trade and industrial education are presented for teacher use in organizing and planning instruction and for student use in mastering related technology and manipulative skills. They were developed by teacher educators and tested through use. Forms to be used by teachers are a trade analysis, course of study, lesson plan, frequency chart, and progress chart. Forms to be used by students are an operation sheet, job sheet, job plan sheet, assignment sheet, and information sheet. Material for each form includes descriptive paragraphs explaining the how, what, and why of the particular instruction sheet, a sample format of the sheet containing instructions for developing its content, and a blank format sheet. Definitions of terms are included to eliminate the confusion which frequently results when instructors and other vocational educators are unfamiliar with the nomenclature associated with trade and industrial education. (HC)

VT DDI 531

Custodian Training.

Modesto Junior College, Calif. Adult Div.

MF AVAILABLE IN VT-ERIC SET.

Adult Division, Modesto Junior College, Modesto, California 95350.

Pub Date - May66 16p.

*CURRICULUM GUIDES; *TRADE AND INDUSTRIAL EDUCATION; *CUSTODIAN TRAINING; *JANITORS; ADULT VOCATIONAL
EDUCATION; VOCATIONAL RETRAINING
MDTA PROGRAMS; *MANPOWER DEVELOPMENT AND TRAINING ACT PROGRAMS

This guide is for teacher and administrator use in planning a program in custodian training to prepare unemployed persons to meet the performance standards and personal requirements necessary to enter employment as custodians and to perform successfully on a continuing basis in such a position. It was developed by the Modesto Multi-Occupational Project, Adult Education Division, Modesto Junior College and was tested both through use and analysis of resulting data. Project operational procedure information which would be applicable to other programs includes source and selection of trainees, teacher background, time allocations, space and equipment, curriculum development, course offerings, teaching methods, and job placement. Representative subjects studied were (1) responsibilities, security measures, and personal liabilities, (2) flag code, public address systems, reports, (3) classroom cleaning procedure, (4) safety, (5) cafeteria and kitchen care, and (6) summer renovation. A total of 360 training hours are required for the course. The teacher should have custodial experience, and the students should be unemployed men who cannot find appropriate work because of their lack of education and training, or men working less than full time or at a skill below their ability level. The document is mimeographed and is supplemented with comments from Manpower Development and Training Act post-training followup reports. (HC)

Pub Date - Dec64 153p.

*TEXTBOOKS; *TRADE AND INDUSTRIAL EDUCATION; *RADIATION MONITORS (OCCUPATIONS); RADIATION; SAFETY; ON THE JOB
TRAINING; *TECHNICAL EDUCATION; BIBLIOGRAPHIES

Related technical information is presented in this textbook for student use in studying radiation safety. It was developed from written notes prepared for presentation in a training course for industrial hygiene and safety division radiation safety technicians. The sections are (1) Basic Information, (2) Natural Radioactivity, (3) Properties of Alpha, Beta, Gamma, X Rays, and Neutrons, (4) Concepts of Radiation Units and Dose Determinations, (5) Shielding, (6) Biological Effects of Radiation, (7) Background Radiation, (8) Radiation Protection Standards, and (9) Internal Dose Calculations. Each section contains a bibliography. Teachers on the graduate school level with a health physics background may use this material for an indefinite period with technicians training while on the job. The students should have 2 years of college preferably with some science background. (HC)

VT 003 957

Industrial Engineering Technology; Educational Needs of the Technical Worker.

California State Dept. of Education, Sacramento

MF AVAILABLE IN VT-ERIC SET.

Pub Date - 63 19p.

*TECHNICAL EDUCATION; *ENGINEERING TECHNICIANS; *EDUCATIONAL NEEDS; *CURRICULUM PLANNING; JOB ANALYSIS; EMPLOYMENT OPPORTUNITIES; OCCUPATIONAL INFORMATION INDUSTRIAL ENGINEERING TECHNOLOGY

Industrial engineering technical workers are employed in most large and some small companies performing manufacturing, fabrication, or research and development. A curriculum for these technical workers consists of instruction in technical, scientific, and manipulative areas. However, an analysis of the occupation is necessary to determine the specific curriculum content. Job operational analysis reveals that industrial engineering technical workers spend 45 percent of their work time in performing the unique activities of the industrial engineering field. The proportion of work time spent on other operations includes: (1) supervising, training, and appraising other employees, 12 percent, (2) planning research or production, 14 percent, (3) coordinating production and research functions, 18 percent, and (4) inspecting industrial engineering technical work of others, 11 percent. Subject matter recommendations of industrial spokesmen, given in semester units, are (1) industrial engineering, 10, (2) mathematics, 9, (3) drafting, 6, (4) communications, 16, (5) physical science, 10, and (6) supervision, 6. Surveys indicate that industry expects to recruit a substantial portion of the needed industrial engineering technical workers from those who have completed courses that successfully develop competencies needed for entry level placement. *PROGRAM GUIDES; TECHNICAL EDUCATION; CURRICULUM GUIDES; POST SECONDARY EDUCATION; *PRETECHNOLOGY PROGRAMS; *REMEDIAL PROGRAMS; EDUCATIONAL FACILITIES; PROGRAM PLANNING

The program guide is for school administrator, advisory committee, supervisor, and teacher use in planning developing remedial post-high school pretechnical programs. The basic materials were prepared by the State University of New York Agricultural and Technical College, and the guide was developed by technical education specialists in the Occupations Section of The State Vocational Services Branch, Division of Vocational and Technical Education, U.S. Office of Education. The purpose of the program is to offer an opportunity to post-high school students to overcome their scholastic deficiencies and to meet the requirements for entering a technical program. Program plans are given for students who require all requisite subjects to enter either a physical science and related engineering technology or a biological science based technology, for students who lack only mathematics or science preparation, and for students who lack only physics or chemistry. These programs are designed for two semesters of full-time study. An example of an accelerated one-semester pretechnical program is included. Course outlines are given for (1) Study Skills, (2) Preparatory Communications Skills I and II, (3) Preparatory Mathematics I and II, (4) Preparatory Physics I and II, (5) Preparatory Chemistry I and II, (6) Preparatory Biological Science. Each outline gives the required class and laboratory hours, a course description, major course divisions, a subject matter outline, and a list of texts and references. In addition, the manual provides information on prerequisites for technical curriculums, the need for pretechnical programs, special administrative considerations, and physical facilities and their cost. The appendix includes examples of laboratory exercises in preparatory chemistry and preparatory biological science, and a list of audiovisual materials and references. (HC)

Suggested Course Outline for Vocational Printing.

New Mexico State Dept. of Vocational Education, Santa Fe. Trade and Industrial Div.

MF AVAILABLE IN VT-ERIC SET.

Pub Date - 225p.

*TEACHING GUIDES; *CURRICULUM GUIDES; *TRADE AND INDUSTRIAL EDUCATION; *PRINTING; HIGH SCHOOLS

This curriculum guide is for teacher use in planning a course in vocational printing at the high school level. Its contents include: (1) course objectives, (2) course outlines, (3) 49 assignment sheets, (4) 37 operation sheets, (5) 16 lesson plans, (6) seven information sheets, (7) five job sheets, and (8) three tests. It was designed for a one or two year course involving 360 to 540 hours. The teacher should have trade experience. Students should have had elementary typing, English, mathematics, and graphic arts. Supplementary materials include a progress chart, a text and reference bibliography, a source list of audio visual aids, and an equipment and supply list. (EM)

Pub Date - Oct61 102p.

*STUDY GUIDES; *TRADE AND INDUSTRIAL EDUCATION; *ELECTRICIANS; *ELECTRICITY; ADULT VOCATIONAL EDUCATION; *INDIVIDUAL INSTRUCTION

This guide is for individual student use in the study of the National Electric Code (NEC). It was developed by an instructional materials specialist and advisers. The course objective is to develop an understanding of the National Electric Code by applying it in actual electrical work. The 28 lessons covering various requirements of the NEC and the use of these requirements in the everyday work of the electricians include (1) Conduit Wiring, (2) Overcurrent Protection, (3) Code on Garages, (4) Hazardous Locations, and (5) Job Estimate and Work Sheet Layout. Each lesson assignment sheet gives the lesson subject, purpose,

Introductory information, references, directions, and questions. Questions and problems which present the most difficulty in each lesson are to be used to form a comprehensive course examination. There are four required books and one recommended reference book for the course. The suggested time allotment is 40 classroom hours. The teacher should be a journeyman electrician, and the students will usually be apprentice and journeyman electricians employed in the trade. The instructor's guide (VT 005 505) gives the answers to the study guide questions. (HC)

*STUDY GUIDES; *TRADE AND INDUSTRIAL EDUCATION; *CARPENTERS; ADULT VOCATIONAL EDUCATION; *APPRENTICESHIPS

This study guide was developed for use by classes or individual carpentry apprentices. It contains 47 lessons under these topics: (1) The Apprentice Carpenter and His Trade, (2) Carpentry Mathematics, (3) Pre-Job Planning and Blueprint Reading, (4) The Plot Plan, and (5) Foundations and Floors. Each related instruction lesson provides introductory information, an assignment, and study questions. The assignments are made from 12 texts, 6 of which the individual apprentice should have. The others are necessary classroom references. The guide was designed for 144 hours of instruction conducted by a qualified journeyman. Supplementary materials include 38 architectural schematics or detail drawings, a blueprint reading guide, and a glossary of abbreviations used on architectural drawings. (EM)

*TEXTBOOKS; *TRADE AND INDUSTRIAL EDUCATION; *COSMETOLOGISTS; *HYGIENE; HIGH SCHOOLS

Students in a 2-year vocational high school course providing training for an occupation in the beauty culture industry may use this text which was developed by cosmetology instructors and tested in a cosmetology shop for 2 years. The introductory unit covers rules and regulations, professional ethics, personality and hygiene, safety and terms. The second unit on bacteriology and sterilization describes bacterial types, their growth, infections, and methods of sterilization. Unit three contains information on the nature of hair, its analysis and disorders. Nails, their composition and structure are discussed in unit four. The skin, its functions, composition and disorders, are the consideration of unit five. The twenty unit course also considers human anatomy and physiology, and the skills used in shop work. The document contains a glossary, bibliography, and achievement tests for all units. The contents are illustrated with photographs and drawings. (FP)

VT 005 559

Seafood Processing; Crab Picking. Course Outline.

North Carolina State Board of Education, Raleigh. Vocational Technical Div.
MF AVAILABLE IN VT-ERIC SET.

Pub Date - 68 17p.

*TEACHING GUIDES; *TRADE AND INDUSTRIAL EDUCATION; *SEAFOOD; *FOOD PROCESSING OCCUPATIONS; ADULT VOCATIONAL EDUCATION; INDIVIDUAL INSTRUCTION; ILLUSTRATIONS; SKILL DEVELOPMENT

This pictorial course outline is for student use in learning work habits that will train or retrain him for occupational entry in the crab picking process of the seafood industry. The material was developed by William Pugh, a commercial artist, and was tested on class participants. Suggested time allotment is forty hours in the vocational training class in coastal fishing areas. The teacher should give group instruction and supervision to encourage proficiency to the point where each step will be automatic. Objectives of the course are to develop work habits necessary for removal of quality meat from the whole crab, and to understand the requirements of the health department. The content stresses sanitation and the picking procedure via line drawings and brief written directions. (FP)

One of a 30-module course designed to upgrade the job skills and technical knowledge of diesel engine maintenance mechanics, this material was developed by industrial training and subject-matter specialists and tested in industrial training situations. The purpose of this first unit is to provide an introduction to diesel engines by developing an understanding of the differences between diesel and gasoline engines, diesel engine components, and diesel operation. The module consists of an instructor's guide, transparencies and a list of suggested supplementary materials for 2 hours of group instruction, trainee text material, and self-instructional branch programed training film "Diesel Automotive Maintenance--General Introduction" for self-paced individual instruction using an electronic tutor. A reproduction of the training film with program branching information is included so that it may be developed as printed material for use without the electronic tutor. Modules in this series are available as VT 005 655-VT 005 684. Modules for "Automotive Diesel Maintenance 2" are available as VT 005 685-VT 005 709. The 2-year program outline for "Automotive Diesel Maintenance 1 and 2" is available as VT 006 006. The text material, transparencies, programed training film, and the electronic tutor may be rented or purchased. (HC)

This module of a 3D-module course is designed to develop an understanding of the construction, function, and maintenance of diesel engine crankshafts, camshafts, and associated bearings. Topics are Shafts and Bearings, Camshafts, Bearings and Their Maintenance, and Detecting Failure. The module consists of a self-instructional branch programed training film "Engine Components--Part II" and other materials. See VT 005 655 for further information. Modules in this series are available as VT 005 655-VT 005 684. Modules for "Automotive Diesel Maintenance 2" are available as VT 005 685-VT 005 709. The 2-year program outline for "Automotive Diesel Maintenance 1 and 2" is available as VT 006 006. The text material, transparencies, program training film, and the electronic tutor may be rented or purchased. (HC)

This module of a 30-module course is designed to develop an understanding of the functions of diesel engine lubrication systems and components and the principles of operation of brake systems used on diesel powered vehicles. Topics are (1) The Need for Oil, (2) Service Classification of Oils, (3) Caterpillar Lubrication System Components, (4) Principle of Operation (Brakes), (5) Brake Friction Principle, (6) Brake Control System, and (7) Inspection of Brakes. The module consists of a self-instructional branch programed training film "Caterpillar Lubrication Systems and Components" and other materials. See VT 005 655 for further information. Modules in this series are available as VT 005 655-VT 005 684. Modules for "Automotive Diesel Maintenance 2" are available as VT 005 685-VT 005 709. The 2-year program outline for "Automotive Diesel Maintenance 1 and 2" is available as VT 006 006. The text material, transparencies, programed training film, and the electronic tutor may be rented or purchased. (HC)

One of a 25-module course designed to upgrade the job skills and technical knowledge of diesel maintenance mechanics, this material was developed by industrial training and subject-matter specialists and tested in industrial training situations. The purpose of this first unit is to develop an understanding of components, operation, and adjustments of the different types of mechanical clutches used on diesel powered vehicles. The module consists of an instructor's guide, transparencies, and a list of suggested supplementary materials for 2 hours of group instruction, trainee text material, and a self-instructional branch programmed training film "Learning About Mechanical Clutches" for self-paced individual instruction using an electronic tutor. A reproduction of the training film with program branching information is included so that it may be developed as printed material for use without the electronic tutor. Modules in this series are available as VT 005 685-VT 005 709. Modules for "Automotive Diesel Maintenance 1" are available as VT 005 655-VT 005 684. The 2-year program outline for "Automotive Diesel Maintenance 1 and 2" is available as VT 006 006. The text material, transparencies, program training film, and the electronic tutor may be rented or purchased. (HC)

This module of a 25-module course is designed to develop an understanding of the operating principles of direct current generators used on diesel powered equipment. Topics are (1) What Is a Generator and Its Use, (2) Shunt Generator Principles, (3) Power and Ratings of a Generator, (4) Armature Reaction, (5) What Is Polarity, (6) Two Generator Circuits, and (7) Application of Generators on the Job. The module consists of a self-instructional programed training film "DC Generators I--Introduction to DC Generator Principles" and other materials. See VT 005 685 for further information. Modules in this series are available as VT 005 685-VT 005 709. Modules for "Automotive Diesel Maintenance 1" are available as VT 005 685-VT 005 684. The 2-year program outline for "Automotive Diesel Maintenance 1 and 2" is available as VT 006 006. The text material, programed training film, and the electronic tutor may be rented or purchased. *STUDY GUIDES; *TRADE AND INDUSTRIAL EDUCATION; *REFRIGERATION MECHANICS; APPLIANCE REPAIRING; *AIR CONDITIONING; REFRIGERATION; *ELECTRICITY; GRADE 11

This study guide is for student use in trade and industrial courses for refrigeration and air conditioning maintenance and repair. It was developed by vocational teachers and used in local schools for two years before publication. Included are 145 lessons, 30 job sheets, and 13 essay tests under these major topics: (1) Shop Adjustment, (2) Safety, (3) Compressors, (4) Motors, (5) Electric Power, (6) Fuses, (7) Motor Compressor Components, (8) Capacitors, and (9) Relays. Each lesson gives an educational objective, instructional information, illustrations, and study questions. Each job sheet gives an objective, a tool list, a material list, and task procedures. The material is to be used by 11th grade male students under teacher supervision for one term. The teacher should have appropriate trade experience and certification. The document is profusely illustrated with schematics, line drawings, and photographs. (EM)

*CURRICULUM GUIDES; *TEACHING GUIDES; *TRADE AND INDUSTRIAL EDUCATION; ELECTRICIANS; *ELECTRICAL SYSTEMS; GRADE 11; GRADE 12

This curriculum guide is for teacher use in planning courses for juniors and seniors in a vocational electricity program. It was developed by vocational teachers within a larger curriculum development project to improve student competency relative to installation and maintenance of residential, commercial, industrial, and distribution electrical systems. The contents include (1) a topical outline, (2) assignment sheets, (3) lesson plans, (4) information sheets, (5) student progress charts, (6) a text, reference, and film bibliography, and (7) a list of materials and shop equipment. The teacher should be a high school graduate with trade experience. Students should be high school juniors and seniors with a drafting and mathematics background who also have an interest in an electrical occupations goal. The document is printed and illustrated with line drawings. (EM)

*CURRICULUM GUIDES; *AGRICULTURAL EDUCATION; *TRADE AND INDUSTRIAL EDUCATION; *ENGINEERING TECHNICIANS;
*AGRICULTURAL TECHNICIANS; TECHNICAL EDUCATION; JUNIOR COLLEGES; CURRICULUM

This collection of course outlines was developed by a committee of local department heads for use in a technical institute. The occupational focus is on two-year associate degree programs for engineering and agricultural technicians. Brief outlines included cover: (1) 20 courses in Agricultural Technology, (2) 10 courses in Electrical and Electronics Engineering Technology, (3) three courses in Engineering Graphics, (4) four courses in General Education, (5) 14 courses in Highway Engineering Technology, (6) 11 courses in Instrumentation Technology, (7) three courses in Mathematics, (8) 15 courses in Mechanical Engineering Technology, and (9) three courses in Physics. Each outline gives (1) course number and title, (2) hours per week for recitation, laboratory, and study, (3) prerequisites, (4) course objectives, (5) student texts, (6) references, and (7) outline of course content. The teachers should be engineering graduates. This document is dittoed. (EM)

Industrial Cooperative Training Programs, A Handbook for Coordinators.

Minnesota State Dept. of Education, St. Paul. Trade and Industrial Unit
MF AVAILABLE IN VT-ERIC SET.
Pub Date - 64 95p.

*PROGRAM GUIDES; *TRADE AND INDUSTRIAL EDUCATION; GRADE 11; GRADE 12; *COOPERATIVE EDUCATION;
*INSTRUCTOR COORDINATORS; ADMINISTRATOR RESPONSIBILITY; TEACHER RESPONSIBILITY; *PROGRAM ADMINISTRATION

In industrial cooperative training programs, students in the last 2 years of high school who have reached their 16th birthday are placed on jobs in business and industrial establishments and in the trades represented in the community for a minimum of 15 hours per week. High school credit is given for work experience obtained on real jobs on the same basis as if it had been obtained in a school shop. The school, in turn, provides related instruction based specifically on the occupation in which the student is working. Other high school courses are taken by the student to complete the high school requirements. This manual has been developed as a handbook for program coordinators and provides information on responsibilities, regulations, and procedures for program operation. The chapter titles are (1) The Industrial Cooperative Training Programs, (2) The Coordinator and His Responsibilities, (3) The High School Administrator's Responsibility, (4) Federal and State Regulations, (5) Selecting Student-Learners for the Industrial Co-op Programs, (6) Selecting Training Agencies, (7) Placement of Student-Learners, (8) Student's School and Job Schedule, (9) Advisory Committee, (10) The Classroom, (11) Teaching Related Material, (12) Supervising Students on the Job, (13) Grading and Promoting Student Learners, and (14) Evaluation of the Program. Supplementary materials include sample forms and a coded list of occupational titles for which training may be offered in the trade and industrial education cooperative training program. (HC)

VT 005 410 ED 023 824

Sybouts, Ward

Instructors Guide for Using Simulated Materials to Instruct School Administrators in the Area of Occupational Education.

Nebraska Univ., Lincoln. Dept. of Educational Administration

Office of Education (DHEW), Washington, D.C.

EDRS PRICE MF-\$0.25 HC-\$1.12

Pub Date - 67 26p.

*SIMULATION; *TEACHING GUIDES; *VOCATIONAL EDUCATION; PROGRAM EVALUATION; MATERIAL DEVELOPMENT; ADMINISTRATOR RESPONSIBILITY; *ADMINISTRATIVE PERSONNEL; *SCHOOL ADMINISTRATION

To prepare school administrators to exert more effective leadership in conceptualizing, analyzing, organizing, and administering public school vocational and technical programs, simulated materials were developed in the form of three "in-baskets" which consecutively communicate an awareness of the need of a more comprehensive program, provide knowledge about occupational preparation, and require application of the awareness and knowledge gained. The materials were designed to utilize the setting of the simulated community and school district described in VT 005 411. The simulated materials were tested by 48 students in an 8-week block program in a graduate course for administrators and in a 5-day workshop. The use of simulated materials was effective in increasing knowledge and producing favorable attitudes. Guidelines for using simulation suggest clearly that the instructor (1) identify objectives, (2) become thoroughly familiar with the materials, (3) use small groups to facilitate student interaction, (4) encourage active participation of all students, (5) permit the student freedom to explore alternatives, (6) phrase questions to stimulate discussion, (7) use role playing, (8) provide immediate and meaningful followup activities which require the student to face the problem and confront the consequences of a decision, (9) allow adequate time to consider materials, and (10) be aware that simulation is not a panacea. (JK)

*ES 70; *ORGANIC CURRICULUM

Educational System for the Seventies (ES '70) is a program for developing a new comprehensive secondary school curriculum and organization which will: (1) provide an individualized education for each student, (2) be relevant to the adult roles which he will play, (3) be economically practical within available public resources, (4) be based on behavioral and related sciences, (5) employ suitable systems of school organization, (6) utilize appropriate educationally oriented technology, (7) be locally planned and directed, (8) be nationally coordinated, (9) be financed by federal, state, and local funds, and (10) be designed for ultimate availability to all school systems. The ES '70 program will have direct funding by the U.S. Office of Education (USOE) with additional funds from cooperating public and private agencies. The program resulted from initial planning by the USOE and a meeting of 15 school district superintendents May 1967 which established an Executive Committee of four superintendents to guide the planning, organization, and conduct of the program. Local program coordinators, one nominated by each participating district superintendent, were to be paid by USOE starting in the fall of 1967. Responsibilities of the Bureau of Research organizational structure of the participating schools network, and executive committee functions are discussed. Progress reports will be continued throughout the 5-year project. The Executive Committee Meeting, July 1967, is reported in VT 005 712, and Coordinator's Workshop, August 1967, and the Network Conference, September 1967, are reported in VT 005 713. (MM)

*INTEGRATED CURRICULUM; *EXPERIMENTAL CURRICULUM; *HIGH SCHOOL CURRICULUM; CURRICULUM DEVELOPMENT; *PROGRAM DEVELOPMENT; BEHAVIORAL OBJECTIVES; *INDIVIDUALIZED PROGRAMS; INDIVIDUALIZED CURRICULUM; NETWORKS; SUMMER WORKSHOPS; COORDINATORS
*ES 70; *ORGANIC CURRICULUM

In a July 1967 meeting, the Educational System for the Seventies (ES '70) Executive Committee (1) reviewed the plans for the Summer Workshop for Local ES '70 Program Coordinators to be held in August 1967, (2) reviewed the list of 15 participating school systems, Bloomfield Hills, Michigan, Milpitas, New York, San Mateo, California, Monroe, Michigan, Quincy, Massachusetts, Portland, Oregon, Duluth, Minnesota, Mamaroneck, New York, Boulder, Colorado, Houston, Texas, Willingboro, New Jersey, Atlanta, Georgia, Ft. Lauderdale, Florida, Philadelphia, Pennsylvania, and Baltimore, Maryland, (3) reported meetings with state educational authorities and encouraged local schools to establish working relationships with universities in their areas, (4) discussed contracts and financing, and (5) considered the initial draft of a Program Evaluation and Review Technique (PERT) schedule for the 5-year ES '70 Program. The appendixes include the proposed plans for the coordinator workshop, a list of the participating school systems, and their superintendents and coordinators, and a report of the Curriculum Advisory Committee Meeting in June 1967. The Committee discussed the problem of developing

a catalog of specific behavioral objectives for ES '70, establishment of regional service centers to responsibilities, Project PLAN in which individualized instruction is contemplated, and the use of Air Force training materials in ES '70. "ES '70 Report Number 3" (VT 005 713) reports the Coordinators Workshop, August 1967, and the Network Conference, in September 1967. (MM)

North Carolina State Univ., Raleigh. School of Education
MF AVAILABLE IN VT-ERIC SET.
Pub Date - Jul68 246p.

*TEACHING GUIDES; *CURRICULUM GUIDES; *VOCATIONAL EDUCATION; *OCCUPATIONAL GUIDANCE; CAREER PLANNING; JUNIOR HIGH SCHOOLS; *ORIENTATION MATERIALS; OCCUPATIONAL INFORMATION; BIBLIOGRAPHIES

To assist students in developing plans regarding their occupational and educational futures, this teacher's guide was developed and tested in 240 high schools. Purposes are to help students: (1) develop a realistic self-concept and self-appraisal, (2) understand and appreciate changing employment patterns and opportunities, (3) understand the basic processes of production, processing, and distribution, and the importance of human relations and ingenuity, (4) become acquainted with the major occupational fields, and (5) develop desirable attitudes toward work. The course outline includes: (1) Relating One's Physical Characteristics, Educational Experiences, Aspirations, Interests, Aptitudes, Personality and Abilities to Occupations, (2) Relating Our Economic System to Occupations and to Us, (3) Exploring Manual and Mechanical Occupations, (4) Exploring Clerical, Sales, and Service Occupations, (5) Exploring Professional, Technical, and Managerial Occupations, and (6) Evaluating and Planning Ahead. Each unit contains a brief introductory statement, major learning outcomes, content and concepts to be learned, instructional goals, minimum acceptable level of student performance, a topical outline, suggestions for teaching-learning activities, discussion questions and activities, and references and materials. *INSTRUCTIONAL MATERIALS; *SIMULATION; ADMINISTRATOR RESPONSIBILITY; *VOCATIONAL EDUCATION; *ADMINISTRATIVE PERSONNEL; *SCHOOL ADMINISTRATION

The simulated instructional materials are miscellaneous communications which might appear in a high school principal's "in-basket." The student is instructed to carry out whatever activity he perceives as indicated. The purpose of the materials is explained in "Instructor's Guide for Using Simulated Materials to Instruct School Administrators in the Area of Occupational Education" (VT 005 410). Another related document is "The Madison School-Community--Abbreviated Background Materials" (VT 005 411). (JK)

*ANNOTATED BIBLIOGRAPHIES; *INSTRUCTIONAL MATERIALS; *VOCATIONAL EDUCATION; *TECHNICAL EDUCATION; BUSINESS EDUCATION; AGRICULTURAL EDUCATION; DISTRIBUTIVE EDUCATION; HEALTH OCCUPATIONS EDUCATION; HOME ECONOMICS EDUCATION; INDUSTRIAL ARTS; TRADE AND INDUSTRIAL EDUCATION; INDEXES (LOCATERS); CLEARINGHOUSES

This quarterly publication announces the availability of instructional materials acquired and processed by the Educational Resources Information Center (ERIC) Clearinghouse on Vocational and Technical Education. It should be of particular interest to teachers, curriculum specialists, supervisors, and administrators involved in curriculum development or the use of instructional materials in the teaching-learning setting. Each abstract, a condensation of the report in about 200 words, usually includes the means used to develop the material, the setting for use of the material, and source of available copies. Abstracts are included under the following sections: agricultural, business and office, distributive, health occupations, home economics, industrial arts, technical, trade and industrial, general vocational and technical education, and other resources. An author index, document number index, and subject indexes are provided. Of the 196 documents listed, 187 are available as a separate microfiche set from the ERIC Document Reproduction Service VT 005 760). Others are available from the source identified in the abstract. KEY

- x Limited number of complimentary copies available. Address orders to: The Publications Clerk, The Center for Vocational and Technical Education, The Ohio State University, 1900 Kenny Road, Columbus, Ohio 43210.
- o Out-of-print, available only through the ERIC system (see *).
- * Documents which show an ED number and issue of Research in Education (RIE)¹ are available on microfiche or facsimile copy through ERIC Document Reproduction Service (EDRS). Ordering information is obtained from the appropriate issue of RIE.

Documents shown with a VT number are being processed for introduction into the ERIC system and will be available on microfiche and facsimile copy when announced in the issue of Research in Education (RIE) shown with the VT number. Ordering information can be obtained from that issue of RIE. In cases where the "Center" is indicated as well as the ED number in the "ERIC System," those particular documents are also available from The Center.

¹ Research in Education is published 12 times a year. The first issue was no. 1, November 1966. Subscription: Domestic \$21.00 a year; foreign, \$5.25 additional. Single copy: Domestic, \$1.75. Send check or money order (no stamps) to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.
