Descriptors-Educational Coordination, *Interinstitutional Cooperation, *Land Grant Universities, *Private Colleges, Questionnaires, Role Conflict, *State Universities, Statistical Data, *University Extension

The Committee on Relationships with Other Educational Institutions of the National Association of State Universities and Land-Grant Colleges (NASU-LGC) Council on Extension, undertook to assign 49 states to one of six categories which reflected the degree of coordination present among the institutions. The categories were delineated as follows: (1) a formal organization for coordination of extension work exists and is functioning; (2) some formal coordination exists among institutions in the state which offer extension course work; (3) one institution in the state offers the great majority of extension course work and no coordination among institutions is necessary; (4) several institutions within the state are engaged in extension course work, but these institutions feel no need for interinstitutional cooperation; (5) several institutions within the state offer extension courses and believe there is a need for coordination, but there is no formal or informal organization in existence; (6) reports were received from more than one institution in the state and the information is conflicting or contradictory. Data which were collected through mailed questionnaires revealed the following: 13 states fall in category 1, 7 in 2, 2 in 5, and 2 in 6. (The questionnaire is included). (nl)

Study Design and Report
--by Betty Giuliani

AC003959

On June 27, 1967, a three-page questionnaire was mailed to Deans and Directors of Extension whose institutions are members of the National Association of State Universities and Land-Grant Colleges' Council on Extension. (See Appendix A for questionnaire and Appendix B for the mailing list.)

Seventy-three Deans and Directors representing institutions in 49 states were contacted. Forty-one returns were received from 34 different states. Of the 21 states having two or more members in NASU-LGC, six returned two or more questionnaires. (Table I)

Table I

Return of Questionnaire

	<u>N</u>	<u>%</u>
Questionnaires sent	73	100
Questionnaires returned	41	56
Number of states represented on mailing list	49	100
Number of states represented in sample	34	69
Number of states sent two or more questionnaires	21	100
Number of states returning two or more questionnaires	6	29

Respondents were first asked to indicate the number of public and private institutions of higher education in their states which offered credit and/or non-credit extension course work and second, whether or not there existed some organization within the state for coordinating extension offerings. For the purposes of this report, organizations were designated Formal, Informal, or Nonexistent (F, I, or N in Table III, Column 5). After reviewing the data, states were assigned to one of six categories which further specified the status of coordination activities

within a state (1 through 6 in Table III, Column 6). The six categories are defined as follows.

Categories for Extension Coordination

- Category 1** A formal organization for coordination of extension work exists and is functioning.
- Category 2** Some informal coordination exists among institutions of the state which offer extension course work.
- Category 3** One institution in the state offers the great majority of extension course work and no coordination among institutions is necessary.
- Category 4** Several institutions within the state are engaged in extension course work, but these institutions feel no need for inter-institutional cooperation.
- Category 5** Several institutions within the state offer extension course work, believe there is a need for coordination, but there is no formal or informal organization in existence.
- Category 6** Reports were received from more than one institution in the state and the information is conflicting or contradictory.

Two reports were received from each of three states (Indiana, North Carolina, and Virginia) which, although agreeing that a formal organization does exist, disagree on other particulars. These three states were categorized 1-6 in Table III, Column 6. A summary of the distribution of states by category is presented in Table II.

a = More than one report received and each is listed separately.

respectively, the number of state-supported institutions, privately supported institutions, and other publicly supported (i.e., municipal, county) institutions making up the total. Columns 5 and 6 contain information on the status of coordinating organizations within the state as described above.

Category 1: The Formal Organizations

Thirteen states report the existence of formal organizations for the coordination of extension course work. A summary of data for this group is presented in Table IV. The membership of a majority of the organizations

Table IV

Make-Up of Organization Membership - By State - Category 1

N = 13

State	Total Memb.	<u>Type of Institution & Type of Support</u>				Frequency of Meetings
		Two Year	Four Year	Public	Private

Washington	5	0	5	5(26)	0(3)	On call

a = Number of institutions of each type offering extension work in the state.

(8 of 13) is composed of four-year, state-supported institutions. Idaho, North Dakota, Oklahoma, and Utah, however, appear to have fairly comprehensive representation from those institutions within the state which offer extension work.

What do the organizations do? Of the seven coordination activities listed in the questionnaire, six were carried on by at least 8 of the 13 organizations. (Table V) Six states listed additional organization services or projects in operation at the present time and seven states mentioned new activities which are now in the planning stage. (See Tables VI and VII) Seven of the organizations appear to be quite active as coordinating bodies; Florida, Illinois, Indiana, Iowa, Michigan, North Dakota, and Virginia indicated that their organizations were currently responsible for at least seven separate kinds of cooperative coordinating services.

Table V

Activities Conducted by Formal Organizations

N = 13 states

<u>Activities</u>	<u>N</u>
a. Collect and disseminate information relative to extension offerings	10
b. Operate joint extension centers	8
c. Coordinate course offerings to avoid duplication	11
d. Cooperate to provide comprehensive course offerings throughout state	9
e. Accept for equivalent credit, courses taught by faculty from member institutions	8
f. Maintain a file on qualified extension lecturers from which member institutions can draw	3
g. Work with other educational institutions and agencies to develop, coordinate, and strengthen extension programs	11

Table VI

Additional Activities Now in Operation

Florida	None
Idaho	None
Illinois	1) Cooperative research on extension students 2) Joint annual report to Council of Presidents 3) Publish joint brochure describing extension activities in state-supported institutions
Indiana	1) Cooperative program for teacher education
Iowa	1) State agency for Title I programs and state technical services programs 2) Exchange of radio programs 3) Jointly list correspondence courses
Kansas	None
Michigan	1) Resource organization for State Department of Education in development of state-wide programs 2) Administers Title I 3) Share enrollment data
North Carolina	None
North Dakota	1) Advisory organization to Higher Education Act Agency (Title I)
Oklahoma	None
Utah	None
Virginia	1) Jointly publish data on extension offerings each year
Washington	None

Table VII

Activities Planned for Future Initiation

Florida	1) Invite private universities to be represented on Council
Idaho	None
Illinois	1) Add non-credit programs 2) Improve coordination with community colleges and private institutions 3) Re-evaluate organization objectives and study needs for new competencies
Indiana	1) Consider master plans study
Iowa	None
Kansas	None
Michigan	1) Establishment of the "Michigan Institute of Continuing Higher Education"--a proposed organization with representation from public and private, 2-year and 4-year institutions headed by a permanent Director and supporting staff 2) Cooperative effort to investigate a common degree to be earned in extension
North Carolina	1) Cooperative planning with State Board of Higher Education
North Dakota	None
Oklahoma	None
Utah	None
Virginia	1) Coordination of public service activities of state-controlled institutions
Washington	1) Studying need for coordination of correspondence study offerings

Organization structures differ somewhat from state to state. The Florida and Idaho operations are permanently staffed with directors and supporting services and personnel. The Florida Office for Continuing Education is under the Florida Board of Regents and the Idaho Continuing Education agency is under the Idaho State Board of Education. In Michigan and Illinois, the organization is a subcommittee of the Council of Presidents of the state-supported universities. The Indiana Regional Campus Coordinating Committee was created out of an agreement among the boards of trustees of the four member institutions and is responsible to the Trustees Joint Policy Council for Regional Campuses. Iowa's State Extension Council is a cooperating committee made up of representatives from the Regents' institutions which reports to a committee of the three institutions' vice presidents. The state-supported institutions in Kansas cooperate through an Extension Commission composed of the chief administrative officers, which is responsible to the Board of Regents. Reporting to the Commission are state-wide directors of Academic, Industrial, and Agricultural Extension. The only contact between public and private institutions, however, is through the Kansas Association of Colleges and Universities. This year, the State of Virginia, through the State Council of Higher Education, established policies for the coordination of extension offerings of state-controlled institutions. No mention is made of guidelines for cooperation between public and private institutions of higher education and the organization membership is made up of state-supported colleges and universities. Washington has as its cooperating group the Inter-Institutional Committee on Continuing Education and Extension Activities with a membership of five state-supported institutions. A state-by-state summary of data for this group is provided in Appendix C.

There appears to be a trend toward expanding the scope of the organizations to include two-year and private colleges, as well as to include a greater variety of extension programs. Federal funds are also having an impact on organization activities. Title I of the Higher Education Act is a responsibility of three state organizations in Category 1 and, perhaps, of others which neglected to mention it.

There may also be some motivation to create permanently-staffed operations similar to those in Florida and Idaho and the one proposed for Michigan. It is not surprising to find that the more active these organizations become within the states, the greater the felt need to formalize and structure the operations.

Category 2: The Informal Organizations

Seven states coordinate extension offerings through loosely organized, informal associations. A summary of data for this group is presented in Table VIII. Mississippi and New Jersey include all or almost all of the institutions engaged in extension course work in their respective states within their cooperating organizations. The remaining five states have a

Table VIII

Make-Up of Organization Membership - By State - Category 2

N = 7

State	Total Memb.	Type of Institution		Type of Support		Frequency of Meetings
		Two Year	Four Year	Public	Private	
Louisiana	3	0	3	3(3)	0(0)	As needed
Mississippi	9	2	7	7(7)	2(2)	On call-approx. twice a year
Nebraska	Not given	-	-	(4)	(2)	Not given
New Jersey	21	4	17	11(13)	10(10)	Infrequently
Pennsylvania	5	0	5	2(8)	3(12)	3-6 times a yr.
South Carolina	3	0	3	3(3)	0(0)	Not given
Tennessee	Not given	-	-	(7)	(3)	Not given

comparatively small number of institutions involved. With the appointment of a State Coordinating Board, however, Tennessee may soon move into formal organization. All seven states indicate that meetings are infrequent and irregular.

In comparison with Category I organizations, the informal groups engage in fewer coordinating activities and plan for very little expansion of services and projects in the future. (Tables IX and X) Four states operate joint extension centers and accept each other's courses for equivalent credit. Of the remaining five activities listed in the questionnaire, none were engaged in by the majority of states reporting. (Table IX)

Table IX

Activities Conducted by Informal Organizations

N = 7 states

<u>Activities</u>	<u>N</u>
a. Collect and disseminate information relative to extension offerings	2
b. Operate joint extension centers	4
c. Coordinate course offerings to avoid duplication	3
d. Cooperate to provide comprehensive course offerings throughout state	1
e. Accept for equivalent credit, courses taught by faculty from member (cooperating) institutions	4
f. Maintain a file on qualified extension lecturers from which member institutions can draw	0
g. Work with other educational institutions and agencies to develop, coordinate, and strengthen extension programs	1

Table X

Activities Planned for Future Initiation

Louisiana	None
Mississippi	None
Nebraska	None
New Jersey	None
Pennsylvania	1) Attempting to provide an evening degree program
South Carolina	None
Tennessee	1) A State Coordinating Board for all public higher education institutions has just recently been appointed but has not met yet.

Programs connected with Title I appear to have encouraged inter-institutional cooperation in three of the seven states. (Table XI)

Table XI

Additional Activities Now in Operation

Louisiana	None
Mississippi	1) Cooperate on correspondence examination centers 2) Cooperate on Title I programs
Nebraska	1) Cooperate on Title I programs
New Jersey	None
Pennsylvania	1) A Curriculum Committee composed of representatives from the five institutions plans annual (extension) program and all revised offerings 2) Formation of the University Center of Harrisburg, Incorporated
South Carolina	None
Tennessee	1) Coordination of some Title I programs

A unique educational service growing out of the cooperative effort of five Pennsylvania institutions of higher education is the Harrisburg Area Center for Higher Education. Courses are selected from the catalogs of the five cooperating institutions and the teaching staff is provided from their regular faculty members. The Center provides graduate, undergraduate and informal courses and credits earned are transferable to any of the cooperating institutions. The Board of Directors and Executive Committee for the Center include community representatives as well as institutional representatives.

Category 5: No Organization--But a Need for Coordination

Two states were classified in this category, Maryland and Minnesota. It may be most effective to allow the respondents to speak for themselves.

From Maryland--"Until a few years ago, almost the entire burden of providing continuing education or extension programs fell upon the University of Maryland. More recently, three of the state colleges (formerly teacher's colleges) have inaugurated evening programs and extension programs which are primarily for teachers. Some of the community colleges, and there are now twelve in the State of Maryland, have evening programs on their campuses. I do not believe that they offer any work off campus, and I assume that such programs would not fall under the title of extension for purposes of your study.

"The State of Maryland now has an Advisory Council for Higher Education, but it is only advisory in nature. The Council is undertaking various studies, and the question of extension or continuing education will be reviewed. Very recently, they have asked for information relative to Title I programs that are being conducted throughout the State of Maryland.

"Actually, Title I in Maryland has helped to bring together many of the different institutions. We have held three State-wide conferences and have had rather good support from the private and public institutions. Several programs have been funded under Title I that involve two or more institutions.

"In our area, we have still another complicating situation, and this is related to the extension programs conducted by the George Washington and American University. Both are located in Washington, D.C., approximately ten miles from our campus. In order to have some dialogue with the Washington, D.C., institutions, governmental agencies and other adult educational establishments, we have an informal area Round Table luncheon, generally once a month.

"We think it would be highly desirable to have greater cooperation and liaison not only within the State of Maryland, but also within the Washington, D.C., metropolitan area. I am sure this will come about within the next few years, and we hope to play an active role in this development."

From Minnesota--"There are fourteen junior colleges in the state, ten of which offered evening classes during 1966-67. The number of courses ranged from two to a maximum of eleven. There are five state colleges all of which offered some on-campus and area off-campus courses in the evening. These programs were more substantial than those in the junior colleges, but the total number of registrations and courses in the five state colleges is approximately one-fourth as large as the University program.... No organization for or history of coordination exists among the institutions."

What, if any, role can the NASU-LGC Council on Extension play in assisting the states which are at this point in their growth to initiate coordination activities?

Category 6: Conflicting and Contradictory Information

As indicated in Table III, Arizona and Ohio each had more than one institution reporting and the data presented a confusing picture of the coordinating activities and the state organizations.

Apparently, in Arizona, there are at least three and possibly five state-supported institutions offering extension course work, no private institutions so engaged, and as many as six junior colleges doing something in extension. There does not appear to be any organization, formal or informal, which attempts to coordinate the extension work of the four-year institutions, but three of the junior colleges are cooperating in some kind of a formal arrangement.

Three Ohio institutions returned questionnaires. Between 8 and 11 state-supported and 8 and 41 private institutions offer extension course work in Ohio, depending on the report. There is disagreement about the existence of a formal coordinating organization; one respondent said there is such an organization and two said there is not. It is probably safe to conclude that little is done in the State of Ohio with regard to coordination of extension courses. Whether or not there is a need for coordination is not clear.

APPENDIX A

Committee on Relationships with Other Educational Institutions

NASU-LGC - COUNCIL ON EXTENSION

Please return Questionnaire to Committee Chairman: A. L. Hunter
Kellogg Center
Michigan State University
East Lansing, Michigan 48823

Name of Institution _____ Name of Respondent _____

SECTION I

- 1. How many institutions of higher education in the state (two-year and four-year, public and private) offer college or university extension course work (either credit or non-credit)?
a. number of state supported institutions
b. number of privately supported institutions
c. number of other publicly supported institutions

- 2. Do some or all of these institutions belong to a formal organization which is concerned with coordinating extension offerings?

Yes
No

IF YOU CHECKED "NO" ABOVE, DO NOT ANSWER ANY MORE QUESTIONS IN THIS SECTION; SKIP TO SECTION II BELOW.

- 3. If your answer to "2" above was YES, is your institution a member of this organization?

Yes
No

IF YOU CHECKED "NO" ABOVE, SKIP TO SECTION III.

- 4. If your answer to "3" above was YES, who is your institution's representative?

NAME _____ TITLE _____

- 5. Please list member institutions and indicate type of support.

Table with 6 columns: NAME OF INSTITUTION, TWO YEAR, FOUR YEAR, TYPE OF SUPPORT (STATE, PRIVATE, OTHER PUBLIC). The table contains 10 empty rows for data entry.

6. How often does the organization meet? _____

7. How are organization activities financed? _____

8. Which of the following activities do member institutions engage in?

- _____ a. collect and disseminate information relative to extension offerings of member institutions
- _____ b. operate joint extension centers
- _____ c. coordinate course offerings to avoid duplication
- _____ d. cooperate to provide comprehensive course offerings throughout the state
- _____ e. accept for equivalent credit, courses taught by faculty from other member institutions
- _____ f. maintain a file on qualified extension lecturers from which member institutions can draw for extension courses
- _____ g. work with other educational institutions and agencies to develop, coordinate, and strengthen extension programs

IF THERE ARE OTHER ORGANIZATION ACTIVITIES CONCERNED WITH EXTENSION PROGRAMS NOT LISTED ABOVE, PLEASE LIST THEM HERE.

9. What, if any, plans does the organization have for expanding its activities in the future? _____

IF THERE ARE ANY ADDITIONAL COMMENTS THAT YOU WOULD LIKE TO MAKE ABOUT THE OPERATION, RESPONSIBILITIES, EFFECTIVENESS, AND/OR WEAKNESSES OF THE ORGANIZATION, PLEASE DO SO ON THE REMAINDER OF THIS PAGE...AND...IF YOU HAVE AN INFORMATION SHEET DESCRIBING THE ORGANIZATION, PLEASE ATTACH IT TO THE SURVEY FORM.

SECTION II (Do not complete Sections II or III if you completed Section I)

3. Do the institutions of higher education in the state which offer college or university extension course work do anything to coordinate extension offerings?

Yes
 No

If "NO", why not? _____

If "YES", would you briefly explain how coordination is accomplished? _____

4. Does your institution participate in the informal program you have just described?

Yes
 No

If "NO", why not? _____

If "YES", PLEASE GO TO SECTION I AND COMPLETE QUESTIONS 5, 6, 7, 8, and 9.

SECTION III (Do not complete Section III if you completed Sections I or II)

3. Do you receive any services from the organization even though you are not a member?

Yes
 No

If "YES", what are they? _____

4. Are you planning to become a member of the organization?

Yes
 No

If "NO", why not? _____

3. State College of Iowa		x	x											

Meetings: Monthly

Financing: Each institution pays share

KANSAS

Reporting: John E. Kitchens, Director, Division of Continuing Education,
Kansas State University.

Member Institutions

Note: Coordination of activities for Kansas State University, the University of Kansas, and Kansas State Teachers College is accomplished through an Extension Commission composed of the chief executive officers of the three institutions. Coordination of activities for the three above-named institutions and Kansas State College of Pittsburg, Ft. Hays Kansas State College (both state supported) and Washburn University (a private institution) appears to be through the Kansas Association of Colleges and Universities, which has a membership of more than 50 institutions. No membership list was provided.
