ABSTRACT

The purpose of this 233-item bibliography on education in the Eastern European countries is to provide researchers, teachers, and advanced students with English language reference materials published since the late 1950's. Brief informative annotations are provided for most of the articles and monographs cited. Among the comprehensive range of subjects represented are: Arts, Communist Education, Education Goals, Graduate Studies, Ministries of Education, etc. American and foreign authors, whose articles are written in English or have been translated into English, are included. "Education in Czechoslovakia" (SO 000 488) is related. (JLE)

## Foreword

**T**HE PURPOSE of this bibliography on education in the Eastern European countries is to provide interested researchers, analysts, teachers, and advanced students with English-language reference materials covering the fairly large number of relevant articles and monographs published since the late 1950's. The bibliography and the supplement are arranged alphabetically by authors and countries, within subject categories. Where necessary, cross-reference is used.

American and foreign authors, whose articles are written in English or have been translated into English, are included. A wide range of views is expressed in the annotated items, and their inclusion does not constitute endorsement by the Office of Education of any one point of view.
