ABSTRACT

GRADE OR AGES: Junior and senior high school. SUBJECT
MATTER: Special education. ORGANIZATION AND PHYSICAL APPEARANCE:
Curriculum for junior high special education is presented in the
first half of this guide. Topics cover mathematics, communication
skills, social adjustment, personal grooming, the world of work,
occupational information, occupational skills, and homemaking. The
second portion of the guide is prepared for senior high school
curriculum. The topics covered the same areas as the junior high
curriculum with the exception of homemaking. Each topic is divided
into general objectives, content, activities, and resources. The
appendix includes job application forms. This guide is lithographed
and spiral-bound with a soft cover. OBJECTIVES AND ACTIVITIES: The
objectives of each section are listed under general objectives.
Detailed activities are listed under activities. INSTRUCTIONAL
MATERIALS: Books, records, films and filmstrips are listed under
resources. STUDENT ASSESSMENT: No provision is made for evaluation.

INTRODUCTION

This combined junior and senior high school guide which includes the areas of mathematics, communication, social adjustment, personal grooming, world of work, occupational information and occupational skills was developed in order that a synthesis of materials, information and skills could be introduced to the students in preparation for the working world.

The guide is not to be thought of as a representative of the entire curriculum but only as one integrated segment of the total curriculum.

It will be the responsibility of the individual teacher at the beginning of each year as the individual areas are introduced to determine what needs to be retaught and in some cases what needs to be taught for the first time. It is only through prescriptive teaching that effective and meaningful learning can occur.

The development of this curriculum guide was made possible through the cooperation of the junior and senior high school teachers.

The staff members include:

Mr. Howard Dunning
Mrs. Christine Gehring
Mr. Hugh Crinnin
Mr. George Loveless
Miss Linda Morse
Mrs. Waltina Iacovino
Mr. Leo Plochocki
Mrs. Ida Gitelson
Mrs. Darlene A. Haire
Mrs. Kathryn Conley
Mr. Herbert Okun

Mrs. Jane Petta
Mr. Edward McNulty
Mr. Albert Nofri
Mr. Frank Barker
Mrs. Emly Neddall
Mr. George Menarick
Mr. Louis Rousselle
Mrs. Helena Ozer
Mr. Harold Terry
Mrs. Irene Carlton
Mr. Vernon Hink

The Special Education Department extends its appreciation to the staff for their contributions as well as to Mrs. Patricia Schwartzlander, a parent and Mrs. Jean Tracy, librarian for their interest and assistance.

MATHEMATICS

i. BASIC PROCESSES

- A. General Objectives: The pupils will be able to compute the basic processes of addition, subtraction, multiplication, and division to the extent of their abilities.
- B. Content:
1. Stress meaning of signs: plus +, minus -, times x, and division \div .
 2. Drill on basic processes: Aim toward carrying in addition, borrowing in subtraction, multiplying with two digits, and dividing with a remainder or two steps or more.
- C. Activities and Resources:
1. Drill exercises to provide repetition of processes.
 2. Games at board or at seats with teams and computation on basic processes.
 3. Use flash cards.
 4. Multiplication Bingo (You must make up your set)

ii. WORLD PROBLEMS

- A. General Objectives: The pupils will gain the information necessary and the ability to compute word problems involving the basic processes.
- B. Content:
1. Stress key vocabulary words.
 - a. Less, more, more than, difference, minus, take away -- indicate subtraction
 - b. Total, altogether, in all -- indicate addition
 - c. Two smaller numbers given and a larger number asked for usually indicates multiplication. (Also in all, total, etc.)
 - d. How many in each -- indicates division
 2. Teach the reading necessary to obtain the information needed to compute answers.
- C. Activities and Resources:
1. Present several examples of word problems for the pupil to compute.
 2. Teach solution of problems by a step method.
To solve:
 - a. Read problem carefully
 - b. Get a picture in your mind of what is presented
 - c. Look for the question
 - d. Find the key words
 - e. Decide on the process
 - f. Compute and label
 3. Present film: Arithmetic: 4 Understanding the Problem

III. MEASUREMENT

- A. General Objectives: The pupils will be exposed to a variety of measurements and how they are used in daily living. The pupils will apply their learning in particular situations involving measurements. The pupils will learn various sources to check to find out measurements and their equals. (eg. cookbooks will tell them how many teaspoons equal a tablespoon, etc.)

TIME

B. Content:

1. Vocabulary to be stressed: (abbreviations also) hour (hr.), half hour, quarter hour, and minutes (min.)
Before the hour
After the hour
A.M. P.M.
Minute hand hour hand
2. Telling of time to the hour, half-hour, quarter hour, and hopefully, at this level, the majority will learn to read time by the minutes.
3. Reading and writing of time.

C. Activities and Resources:

1. Use flannel clock to allow pupils to move hands to proper places. (Also will develop familiarity with terms)
2. Draw face of clock on board -- pupils fill in certain times with chalk.
3. Make paper clocks out of paper plates (tell pupils that they could use these to help younger brothers and sisters learn time - actually, helping themselves)
4. Present filmstrips for reinforcement:
How to Tell Time: Hour & Half-Hour
How to Tell Time: Minutes
5. Present word problems for pupils to read and compute.
6. Read bus, train, and airplane schedules.
7. Stress importance of appointments (dr., dentist, work, interviews)
8. Go over time allowances on the job -- lunch hour, coffee hour, etc.
9. Make a time schedule of daily and weekly activities, budgeting time allowed for school, work, sleeping, eating, play.

CALENDAR

D. Content:

1. Trace the development of time and how early man to modern man kept records.
2. Vocabulary to be stressed: calendar, year (yr.), month (mon.), week (wk.), and day.
3. Develop understanding of year, month, week and day and their length.

E. Activities and Resources:

1. Use reading story in Reading Attainment System on how early man told time.
2. "Moon Calendar" -- Read and discuss early methods of computing "one month."
3. Make moon calendar. Have pupils keep track of the development and gradually disappearance of the full moon. Mark each day on the calendar.
4. Discuss switch to sun calendar.
5. Compute school weeks in a year.
6. Compute days until birthday or other holidays.
7. Compute ages in years and months.
8. Word problems involving the calendar.
9. Present film: The Story of Measuring Time

WEIGHT

F. Content:

1. Vocabulary and abbreviations to be stressed: pound (lb.), ounce (oz.), and ton (t.)
2. Introduce weight measuring instruments -- scales, balance scales, baby scales, grocery scales.
3. Teach how to measure various items to determine how many pounds or ounces or tons.
4. Teach net weight.

G. Activities and Resources:

1. Bring in baby scales or others. Also bring a variety of canned, bottled, or packaged food. Have pupils estimate weight first - then weigh it.

WEIGHT

G. Activities and Resources (Continued)

2. Net weight -- weigh only the contents of a dry package to check net weight. Show how boxes and bottles have weight themselves. New weight is inside.
3. Bring in loose items and have pupils measure out five pounds of oranges, etc.
4. Use balance scales and butter in quarter pounds. Put part of the pound on one side -- balance the scale with items from pupil's desk.
5. Use scales from the nurse's office and let children weigh each other.
6. Present films: Ounces, Pounds, and Tons and The Story of Weights and Measures
7. World problems

LINEAR

H. Content:

1. Vocabulary and abbreviations: inch (in.), foot (ft.), yard (yd.)
2. Teach how and where inches, feet, and yards used and their size.
3. Teach how to read ruler and yard stick.

I. Activities and Resources

1. Make ruler out of construction paper, marking inches in red, half inches in blue, and quarter inches red.
2. Measure various objects in the room.
3. Give scraps of material to pupils with individual directions for cutting a piece $3\frac{1}{2}$ " by $4\frac{1}{4}$ ".
4. Measuring Scavenger Hunt -- Write down the measurements of various articles in the room. Pupils given a certain length of time to measure to find objects to fit the measures. (Also can be done as a homework assignment -- pupils find objects in the home to fit certain measurements.)
5. Show films: Let's Measure: Inches, Feet, and Yards and filmstrips: Measuring How Long
6. Present word problems involving linear measures.
7. Make duster for cleaning out of a bent coat hanger and pieces of yarn that the children must cut 8".

LIQUID

J. Content:

1. Vocabulary and abbreviations to be stressed: cup, glass, pint (pt.), quart (qt.), half-gallon, and gallon (gal.), teaspoon and tablespoon.
2. Introduce various instruments which measure liquid materials.
3. Discuss and list items usually measured by liquid measure.
4. Teach basic measure - eg. 4 qt. equals 1 gal.

K. Activities and Resources:

1. Use glass, cup, pint, quart, half-gallon and gallon bottles. Have pupils measure with water to show which measures equal another and how many are required.
2. Measure different amounts of food -- a teaspoon of vanilla - a tablespoon of butter.
3. Follow simple recipes and allow class to cook a few things involving measurement.
4. Present word problems to show use in daily situations.
5. Show films: Let's Measure: Pt., Qt., and Gal. and Measurement.
6. Make a table display of bottles and other packages which are measured in liquid measure.

DRY

L. Content:

1. Vocabulary and abbreviations: bushel (bu.), peck (pk.), and qt. Dozen may also be included here.
2. Stress these measures and how and where they are used.
3. Introduce the bushel, peck, and quart basket.
4. Teach their size and their relationship to one another.

M. Activities and Resources:

1. Take a trip to the Farmer's Market to see how these measures are used.
2. Present word problems to show their use in daily situations.

HEAT AND TEMPERATURE

N. Content:

1. Vocabulary: Degree^o, centigrade and fahrenheit
2. Introduce instruments used to measure heat.
3. Teach why it is necessary to be able to regulate heat and where these regulators are. (eg. airplanes, cars, stoves, swimming pools, etc.)
4. Teach how to read and record degrees.
5. Teach freezing point, boiling point, and body temperature.

O. Activities and Resources

1. Bring a thermometer -- allow pupils to take one another's temperature. Practice in reading a thermometer.
2. Boil water and test boiling point with thermometer.
3. Freeze water and then check the freezing point.
4. Keep a daily record of the temperature. Note seasonal changes.
5. Present word problems in this area.
6. Show films: Thermometers: How They Help Us.

Miscellaneous Measurements which can be taught:

1. Distance
 - a. Miles -- distance from one point to another,
distance to certain places in the country and state
 - (1) How is it measured? Odometer measures miles
Speedometer measures speed
(Discover speed limits for various streets
and highways)
 - (2) Acre -- What is it? Where is it used?

IV. MONEY

- A. General Objectives: Pupils will obtain an understanding of dollars and cents and be able to apply this in everyday life situations. They will apply this learning in a positive way toward buying, budgeting, earning, savings, and paying of bills.

CHANGE AND BILLS

B. Content:

1. Discuss early formation of payment which eventually grew into our present money system.

CHANGE AND BILLS

B. Content: (Continued)

2. Vocabulary: penny, cent, nickel, dime, quarter, half-dollar dollar bill
3. Teach recognition of the above
4. Teach understanding of the value of the above and their comparison.
5. Teach signs \$. ¢
(Try to get away from use of ¢ sign)
6. Teach how to read and write money.
7. Teach how to make change from nickel, dime, quarter, half-dollar, and dollar.

C. Activities and Resources:

1. Story from Reading Attainment System on Money! Money! Money!
2. Make a chart with actual picture size drawings of 100 pennies to equal a dollar, 20 nickels, 10 dimes, 4 quarters, 2 halves.
3. Use Avidesk (if you have one). This machine has excellent filmstrips and tapes on counting change from a nickel, dime, quarter, half, and dollar.
4. Get play money and pose situations for the pupils to count back change.
5. Use drill work in adding and subtracting money.
6. Translate money written in words to \$ and . .
7. Have bake sale in room to earn money for the class.
8. Show films: The Story of Our Money System and Making Change

BUDGETING -- BILL PAYING -- BUYING

D. Content:

1. Discuss budget -- What is it? Why is it necessary?
2. Discuss allowances and other earnings and how to budget.
3. Vocabulary: regular price, sale price, cost, "off", discount, installment, charge, lay-a-way.
4. Discuss various methods of buying and which ones are wise installments -- charge -- credit -- lay-a-way.

BUDGETING -- BILL PAYING -- BUYING

E. Activities and Resources:

1. Allow pupils to figure their school budget or weekly budget to determine spendings. (Evaluate with them to see where overspending is taking place.)
2. Compute cost of riding bus to and from school.
3. Figure grocery bill.
4. Shopping spree -- give pupils section from Wednesday or Thursday food ads. Tell them to purchase \$50.00 worth of groceries for a family of five for a week. (Make a contest out of it -- must have good balanced meals.)
5. Compute dry cleaning bills.
6. Compute laundry bills.
7. Cost of mailing packages and letters
8. Cost of eating in a restaurant -- figuring the check
9. Cost of date
10. Cost of doing own repairs vs. having them done
11. Cost of cars and their upkeep
12. Cost of buying gifts
13. Payment of bills on time -- stress this
14. Present word problems on all of these areas.
15. Films: Money Talks
You and Your Money
16. Present story from Reading Attainment System - Credit or Cash?

WORK -- WAGES -- TAXES

F. Content:

1. Teach value and importance of earning money.
2. Discuss wages per hour and minimum wage.
3. Teach gross pay or salary and take home or net pay earned.
4. Taxes -- Federal, State, Social Security, and other withholdings. Discuss why necessary and where the money goes.
5. Discuss tax return students receive and how to apply for this return.

WORK -- WAGES -- TAXES

G. Activities and Resources:

1. Work several word problems to learn how to compute salaries.
2. Check into wages for various jobs.
3. Useful Arithmetic has some very good exercises to provide practice material.
4. Compute and figure how to budget your pay check to determine essential and non-essential expenditures.

SAVINGS -- BANKING

H. Content:

1. Vocabulary: Savings account, checking account, pass book, check, withdrawal, and deposit
2. Discuss which type of account would best serve your needs.
3. Teach understanding of checks -- how to read and write them. This is an excellent opportunity to teach place value of numbers, how to read them, and how to write them.
4. Discuss interest earned on savings -- purpose of. (Can introduce % here.)

I. Activities and Resources:

1. Story from Reading Attainment System: Checking Account of Savings Account
2. Films: Fred Meets A Bank
Money in the Bank and Out
3. Ditto copies of checks for pupils to practice writing
4. Show example of pass book and what it means to deposit withdraw money.
5. Compute interest on the money saved.
6. Present word problems on this area.

V. FRACTIONS

A. General Objectives: The students will be able to recognize and understand common fractions and use them in life situations.

B. Content:

1. Vocabulary. Fraction, parts of, equal parts of, denominators, numerator.
2. Teach meaning of numbers above and below the bar line.
3. Teach meaning of bar line.
4. Stress equal parts
5. Discuss and list ways of using fractions.
6. Teach relationship of various fractions. (eg. $\frac{1}{2}$ equals $\frac{2}{4}$)
7. Teach how to read and write fractions.
8. Introduce mixed numbers and improper fractions.

(The extent to which fractions are studied will depend largely on the background of students in Math and their general ability.)

C. Activities and Resources:

1. Have pupils cut or fold paper to understand how fractions are divided into parts of a whole thing.
2. Label parts to learn to recognize $\frac{1}{4}$, $\frac{1}{2}$, $\frac{1}{3}$, etc.
3. Use drill work to teach addition and subtraction of fractions.
4. Filmstrips: Meaning of Fractions
Understanding Fractions
5. Measure out recipes using fractional parts.
6. Boys -- use in shop work to show how they are used in building plans.
Girls -- use with pattern to measure proper size.
7. Work on unlike denominators and converting fractions to higher or lower terms.
8. Work on drill exercises to change improper fractions to mixed numbers.
9. Present word problems using fraction.

VI. DECIMALS

A. General Objectives: The pupils will learn to read decimals to the thousandths. They will understand their uses and how they represent parts of things.

B. Content:

1. Understanding of decimal point and tenths, hundredths, and thousandths.
2. Realize that decimals are just another way to represent certain fractions.
3. Understanding uses -- used especially in giving price of gasoline or keeping records of various things.
4. Accurate and easier to write

C. Activities and Resources:

1. Present activities to enable pupils to learn to read and write simple decimals.
2. Convert fractions to decimals and decimals to fractions.
3. Exercises in adding and subtracting of decimals.
4. Filmstrip: The Meaning of Decimals

(The extent to which fractions are studied will depend on the ability and background of your students.)

VII. TABLES AND GRAPHS

A. General Objectives: The pupils will learn to recognize tables and graphs as aids to learning. They will be able to use tables and graphs to increase their own learning.

B. Content:

1. Vocabulary to be stressed: table, graph, line graph, circle graph, bar graph, and picture graph
2. Present various types of graphs. Discuss why they are called et. line or circle.
3. Discuss uses and easy way they aid our learning.
4. Teach how to read graphs and tables.

C. Activities and Resources:

1. Choose several examples from various textbooks and let the pupils work them. (It has been found that once the pupil catches on, he is very eager to work them to discover various facts.)
2. Use almanacs or encyclopedias to find examples of graphs and tables. Use records of facts children might enjoy learning.
3. Use filmstrip: Tables, Graphs, Scales

COMMUNICATION SKILLS

GENERAL OBJECTIVES:

1. Provide the students opportunities using various situations and experiences which they have or will have necessitating oral language.
2. Through activities presented in this unit students should become more verbal and mature in their ability to converse orally.
3. Clarify problems and discuss possible solutions to normal or natural situations the students have or will have with:
 - a. parents and family
 - b. peers
 - c. community

CONTENT:

- I. Social Living Skills
 - A. With parents and family, duties and responsibilities of family members, be truthful and accurate.
 - B. Use of oral communication in:
 1. Carrying on conversations
 2. Discussing problems
 3. Airing views
 4. Answering questions
 5. Relaying information
 6. Sharing experiences
 - C. With peers to:
 1. Develop friendships
 - a. Inviting friends to your home
 - b. Inviting friends to a movie or for a soda
 2. Present views
 3. Discuss problems and differences
 4. Answering questions in and out of class
 5. Relay information accurately
 - D. With members of the community:
 1. How to converse with:
 - a. teachers, principals, substitute teachers and guest
 - b. doctors and dentists
 - c. members of the clergy
 - d. law enforcement officers
 - e. store clerks
 - f. bus drivers
 - g. employers
 2. How to give directions: clearly, concisely, accurately
 3. How to answer and place phone calls
 4. How to express opinions, sensibly in proper, courteous acceptable language

CONTENT: (Continued)

E. School Communications (Oral)

1. Present opinions on lessons
2. Discuss problems or other things with teacher, principal, teacher aide, or other school personnel
3. Pronounce terms or discuss e.g. sports, homemaking, reading
4. Read aloud
5. Carry on conversation with friends
6. Relay messages
7. Give directions

F. Social Adaptation

1. Expresses self at proper time -- demonstrates manners
2. Proper volume, doesn't speak too loud or too soft
3. Uses acceptable language
4. Uses words understood by speaker and listener
5. Speak to people, faces them
6. Is conscious that personal appearance can affect attitude of listeners, look neat and clean
7. Aware of people's feelings -- develops tactfulness

G. Related Health Areas

1. Proper care of teeth
2. Controls breath problem - gargle
3. Talks without expectorating on people

H. Purposes for Acceptable Communication

1. Employment -- communicate with employer and fellow workers
2. Able to express self and views
3. Expand knowledge of environment and world situations, local developments, and interests
4. Seeks out, explores, and expands relationships
5. Improve capability of individual -- expands his potential
6. Assist others -- learning, problem solving

I. Speech Disorders (can be assisted through):

1. Speech pathologist
2. Social workers
3. Psychologists
4. Speech teacher
5. Classroom teacher
6. Medical doctor
7. Peers
8. Tutor

J. Vocabulary: All vocabulary specific to situations which will help the child to converse within his own environment and community e.g. Job Corps, Salina Street, Court House, Employment Office, Social Security application, experience.

CONTENT: (Continued)

- K. Use of telephone - speak clearly, not too loud or soft, be polite. Proper greeting when calling - e.g. "Hello, this is Joseph Brown." Is the manager in? May I speak to him?" When the person with whom you wanted to speak answers, greet him - ("Hello, Mr. Lang, this is Joseph Brown.") Then state your reason for calling.

< POSSIBLE USES OF A TAPE RECORDER

READING:

1. Voice discussion and analysis
2. Reading Readiness
3. Reading Development
4. Parent Conference
5. Helping Slow Readers
6. Preparing assembly programs

LANGUAGE ARTS:

1. Developing creative expression
2. Oral grammar exercises
3. Group memorizing
4. Dictation

CREATIVE DRAMATICS:

1. Reading skits and playlets
2. Puppet plays
3. Establishing dramatic workshop
4. Class play try-outs
5. Pantomime
6. Preparing
7. Correcting speech defects

SOCIAL STUDIES:

1. Improving committee communications
2. Social studies quizzes
3. Local history and lore
4. Committee trips and interviews
5. Dramatize historical events
6. Tape exchange programs
7. News reporting
8. On the spot recording

From The Tape Recorder in the Classroom
-- 3M Company

SUGGESTED ACTIVITIES:

A. Retelling of stories -- read, experienced, or heard. Stories chosen for retelling by individuals should be brief. The child should be guided if necessary. The important point is to be interested and listen to him.

B. Use of pantomime -- At the start, the imitations should be simple commonplace activities or easily identified movements such as sewing, hanging up clothes, hoeing, raking leaves, driving an automobile, etc. One could make a list on the board of ideas for pantomiming. The others try to choose and repeat aloud the phrase from the board being acted.

Possible list:

- a housewife washing and drying clothes
- a fisherman bating a hook and catching a fish
- a cowboy on a bucking bronco
- a leader of a band
- a person boarding a bus
- a ticket seller at a theater

C. Dramatization:

1. Use of the telephone

- a. properly addressing persons called, properly responding when called
- b. getting the desired information
- c. calling the doctor, the police, or the fire department
- d. use of pamphlets and teletrainer equipment furnished by the telephone company

(1) calling out of town dial operator for the area code or have her get the number for you if it is a "person to person" call

(2) for "station to station" dial 1 - area code - and the number you are calling

(3) for information in the city your calling (out of town) dial 1 - area code - 555121 j or ask the operator to please find the number for you

- e. make situations for buying by phone; arranging for interviews; calling to cancel or make appointments - doctors, hairdresser, insurance or taxes; ordering groceries; getting information from the library, etc.

2. Having guests for a meal

3. Ordering a meal in a restaurant

4. Asking for a book at the library

5. Buying a ticket for a journey

6. Renting a house

7. Applying for a job

8. Interviews -- use tape recorder (discuss weak and strong points of interview)

D. Language Games

1. Preposition game: the teacher places on the chalkboard a list of prepositions as, on, in, under, beside, near, by, into. Some small article is hidden within a prescribed area. The guesser tries to locate it by questioning, "Is it in the vase?" "Is it under the book?" etc. each time using one of the prepositions listed.

D. Language Games (Continued)

2. Descriptive word game -- from a group of objects, one, known to all but the guesser is chosen. On the board is written a list of descriptive words or phrases, only one of which adequately describes the object selected. The guesser questions one pupil after another incorporating in his questions one of the descriptive terms such as: "Is it useful?"
"Is it made of metal?" "Is it fragile?"

E. Better Speech Bulletin Board

F. Short Plays

G. Prepare and give a speech:

1. Make a list of topics suggested by the class. Ex: "What I want to be," "My Favorite Hobby," "Babysitting," "A Good Vacation," etc.
2. Students should include:
 - a. main idea
 - b. facts related to this idea
 - c. a good topic or starting sentence
3. Let the students evaluate their classmates on the basis of:
 - a. clarity
 - b. interest
 - c. way the topic was handled, continuity, stick to the subject, etc.
 - d. good starting sentence
 - e. good conclusion or ending

RESOURCES:

1. Equipment: tape recorder, movie projector, film strip projector, records, cards, slides, books, blackboards, bulletin boards, teletrainer and pamphlets related to this, telephone directory.

SOCIAL ADJUSTMENT

GENERAL OBJECTIVES:

1. To make the child aware that each person in a family has duties and responsibilities toward each other -- they cannot function alone.
2. To make the child aware that each person has responsibilities toward making the school a place of learning as well as a place of friendship and fun.

CONTENT:

- I. Social Adjustment in the Home
 - A. Relationship with father and mother
 - B. Relationship with brothers, sisters and relatives
 - C. Relationship with pets
 - D. Chores
 - E. Leisure activities and hobbies

III. ACTIVITIES:

A. Handwriting

1. Get a sample of each handwriting, see what letters may be improved.
2. It may be necessary to review the alphabet.
3. Do exercises using capital letters. Use some of the class to help those who are behind.
4. Make posterboard form of "friendly" and "formal" letters. Label the basic parts of each. (Address, date, inside address, greeting, body of letter, closing and signature)
5. Pair the class off. Have each person write a friendly letter to the other. Read before the class and make corrections.
6. If you are having a party, have the class write an invitation inviting another teacher or class.
7. Address birthday cards, Christmas cards and envelopes.
8. In free time encourage writing to friends.
9. Have each student write an excuse for one time they have missed school.
10. Discuss thank you notes. How and why they are used.
11. Keep a daily assignment book. Students can make their own using construction paper. Put an assignment on the board every day then check to see it has been copied correctly.

III. ACTIVITIES: (Continued)

A. Handwriting

12. Make address books. Have each student bring in names and addresses of friends.
13. Write letters of application answering ads acquiring these from the newspaper want ads.
14. Address envelopes and fill out return forms from federal and state income taxes.
15. Write excuses for absence, illness or tardiness for your children.

B. Mailing

1. Address envelopes for all above letters.
2. Make posterboard sample of envelope.
3. Bring in a zip code book and show how to use it.
4. Use opaque projector -- find a page and ask class to find the zip code of a town on that page.
5. Arrange a field trip to post office.
6. Use maps to discuss how to get to the post office.
7. Have a mailman discuss his job.
8. Set up a post office in the classroom. Give each student a job and go through the steps from writing a letter to receiving it.

C. Stamps

1. Make posters of common stamps used most in mailing.
2. Gather materials on the price range of postage stamps.
3. Trace a special delivery package from wrapping -- post office -- stamps -- delivering it -- cost of it.
4. Have class bring in stamps and discuss price and use.
5. Demonstrate proper package wrapping, address, materials used to wrap.
6. Get change of address forms. Have each child fill one out.
7. Discuss the importance of doing this when moving.

BUILDING READING SKILLS

"The Work Experience Program"

One of the teacher's most difficult tasks is motivating the older retarded pupil to read. Once the motivation is aroused, the companion problem of where to find suitable materials appears.

The most logical solution to both of these problems is to have the teacher prepare his own reading materials. The following list of words is offered as an aid in this task. This list is designed to be used in a work experience program or as part of a general series of units whose focus is on general vocational areas. The list has been prepared after careful study of the area in question. This is one of a group of lists prepared by Dr. Milton Young. Other word lists will be found in The American Journal of Mental Deficiency, 62:792-802, 1958. Ideas for vocational word lists may be found also in the New Rochester Occupational Reading Series, Teacher's Guide, 1963.

SEQUENTIAL ACTIVITIES IN CURRICULUM DEVELOPMENT
TO PROMOTE REHABILITATION READINESS

In a sense, almost every activity planned by a teacher has some relationship to the child's eventual vocational success or lack of it. This is true irrespective of the child's grade level or specific handicap. Consequently, it is important for the teacher to have a sequential view of what he attempts to teach. He should be aware of the skills or attitudes the child will or should be expected to bring to the activity and must have a concrete idea of the experiences which the child will or should be expected to be exposed to following the culmination of the activity.

If the sequential approach is applied directly to all activities it leads logically to the formulation of a complete curriculum. If the concept of the sequential approach is applied only to selected activities from existing curricula or to situations where curriculum formulation is in its early stages, it still allows the teacher to measure individual progress more easily and indicates the vocational direction toward which the activity is proceeding.

The following sequential activity is given as an example of the concept's application in a specific situation. Note that no levels are given and that there are several activities that have equal weight in each step of the sequence.

Developing Information Finding Skills

1. The Alphabet is the Key

| Develop through: Alphabet books: | The Platt & Munk Company
200 Fifth Avenue
New York City, New York 10010
(Send for catalogue) |
| Alphabet cards: | Zaner-Bloser Company
612 North Park Street
Columbus 15, Ohio
(Alphabets in cursive and printed style. Write on green for visibility). |
| Alphabet games: | Quizmo and similar games available from: Milton Bradley, Hammett, and similar school supply houses.
(Send for catalogues) |

Remember to develop independent sequence not rote.
Use drill in many ways so that any one material is not memorized.
Test for comprehension, not for memory.

Developing Information Finding Skills (Continued)

2. From Alphabet to Words

Arranging the names of class helpers in order.
Making lists of scrambled words using a limited range of letters.
Making alphabet books for younger readers.
Using unit materials to reinforce alphabetizing

Food Unit: names of food on sample orders
receipts in file
names of stores we shop at

Using the index in our reading books
Using the simple dictionaries

A few suggestions:

My Picture Dictionary
Reid & Crane
Boston: Ginn & Company
47 pp. - \$1.32

The Rainbow Dictionary
Wright
Cleveland: World Publishing, 1947
433 pp. - \$4.95
(Extensive picture dictionary)

Giant Picture Dictionary
Scott
Garden City, N.Y.: Garden
City Publishing, 1949.
316 pp. - \$3.95
(Meanings are given in short
sentences and pictures)

My First Golden Dictionary
Gr. 2-3, Golden Press, 1962
850 Third Avenue
New York, New York 10022 (\$1.89)

Remember the child's reading ability when building isolated work skills. Use words he knows. This is not the time to build new word skills.

Make word finding an integrated activity whenever possible.

Avoid experiences that kill initiative such as writing each word that is found ten times.

3. Finding Words We Need

Using the telephone directory. Most local companies will provide copies for use.
Use the mail order catalogue - collecting these is a good project for a local service group.

Using the want ads - use a paper common to the background of the children.

Using the building directories - an excellent activity on field trips.
Using the library card file - assign books or have class select them.
Using the classroom unit materials file - a good way to increase group involvement in units.
Using a map to find streets or town - teach the use of the map index and grid.
Filing information in a simple file. Filing is a complex task which must be introduced gradually.

Developing Information Finding Skills (Continued)

Remember that each of the above activities involves more than simple word finding through use of the alphabet. Each activity must be taught as a complete unit. Use of many activities will reinforce the common element of alphabetization.

The dictionary is still an important tool and should be fully utilized. Several useful dictionaries are:

Thorndike - Barnhart Beginning Dictionary
Scott Foresman
Chicago, Illinois
1962 - 720 pp., \$3.48 (3rd & 4th grade
reading level)

Thorndike - Barnhart Junior Dictionary
Scott Foresman
Chicago, Illinois
1952 - 784 pp., \$3.64 (4th, 5th & 6th grade
reading level)

The Thorndike Dictionaries are the only ones available that are designed specifically for use with children rather than being condensed revisions of more extensive dictionaries. The words used in these dictionaries are taken from word studies conducted by Thorndike in the 20's and updated by Barnhart in recent years.

Websters Elementary Dictionary (Gold) ---
An intermediate dictionary for grade 4 to 5 level
Websters Elementary Dictionary (Blue) ---
More advanced with word quiz available

American Book Company

A popular dictionary series with some groups, as it does not identify itself as being easy. Probably best suited for junior high groups who have developed good dictionary skills but who have reached a peak in reading.

Absentee Control Program of Continental Can Company --

This procedure has been designed to offer a workable, fair and thoroughly understandable procedure to cope with the problem of absenteeism:

Unreported Absence	-	3 Demerits
Reported Absence	-	2 Demerits
Unreported Tardiness	-	1 Demerit
Reported Tardiness	-	1/2 Demerit
Early Lunch	-	1/2 Demerit

A reported absence or tardiness is one in which the employee notifies the company of the condition one hour prior to start of shift.

Disciplinary action will be taken on the following basis:

0-3 Demerits	-	No action
4-6 "	-	Verbal Warning
7-9 "	-	Written Warning
10-12 "	-	1 - 3 Day Suspension
13-15 "	-	5 - 10 Day Suspension
16 or more Demerits	-	Discharge

For each three month period during which an employee works without any chargeable demerits, three demerits will be deducted from accumulated demerits until the total reaches 0. The above merit procedure may not be proportioned in periods of one month.
