ABSTRACT

A summary of the major program activities designed for American Indian students in Wisconsin who attended public schools eligible for Johnson-O'Malley funding during the 1971-72 school year is presented in this report. Included are an Indian education fund financial statement; school tax, enrollment attendance, and student transportation information; Johnson-O'Malley contracts for 1971-72; Wisconsin summary reports for both elementary and high schools; and local district financial reports. Special Indian education programs are described and additional information is presented in the narrative section. (PS) FILMED FROM BEST AVAILABLE COPY

William C. Kahl, State Superintendent

Madison, Wisconsin

December 1972

FORWARD

This annual report, the twenty-fifth, presents a summary of the major program activities designed for Indian students in Wisconsin who attended public schools eligible for Johnson-O'Malley (JOM) funding during the 1971-72 school year. While the Department of Public Instruction assumed primary administrative and stewardship responsibility for the JOM program, as it has done in previous years, all local program planning and implementation required cooperative agreements between local public school districts representatives and local Indian Education Committees. Statewide activities were cooperatively developed and approved by the Great Lakes Inter-Tribal Council's Education Committee and the State Department of Public Instruction.

Consistent with State Superintendent Kahl's decision to place greater emphasis on improved program development for Indian students and his insistence that the federal policy of Indian self-determination in affairs affecting Indian people be dealt with in a positive manner, this report reflects a greater involvement of Indian people in program activities.

The Department of Public Instruction will continue to promote and aid those efforts which involve Indian people and Indian organizations who are seeking more meaningful educational experiences for their children in the public schools of Wisconsin. These efforts will certainly include personnel from local school districts. In addition, it is expected that other public institutions and private agencies will need to assume a greater responsibility than has been demonstrated in the past if Indian students are to receive the kind of educational experiences which they deserve. Other students, too, need to be made more fully aware of the many contributions made by Indian people and the significance of Indian culture and heritage to all.

The real concern and opportunity through Johnson-O'Malley funding is whether or not people, all people, both Indian and non-Indian can cooperatively develop programs which will enhance the Indian's quest for dignity and particularly those Indians who live in Wisconsin. The Department of Public Instruction believes it can be done.

> Arnold M. Chandler Edwin N. Embertson Roger R. Philbrick

NARRATIVE

In cooperation with the federal policy of Indian self-determination in affairs affecting Indian people, the State Superintendent of Public Instruction has respected and encouraged the participation and involvement of the Indian community in educational decision making. Issues affecting Indian education in Wisconsin are dealt with jointly by the Department of Public Instruction, Indian organizations and the public school.

The Great Lakes Inter-Tribal Council, Inc. Education Committee is the advisory committee to the State Superintendent on Indian education and has statewide representation.

The following objectives, responsibilities and organizational structure have been developed by the committee.

I. MISSION STATEMENT (OBJECTIVES)

To plan and carry out strategies which will achieve betterment in educational programs; content, curriculum, school and home environment and learning opportunities beyond high school and other programs.

Among its strategies are:

- . To promote maximum participation of the Indians in the area in developing and cond ting all phases of the program.
- 2. To develop and conduct educational programs with both public and local support.
- 3. To serve as an advocate of Wisconsin Indian people and to serve the people in all matters of education.
- 4. To promote a more intense and organized focusing of federal, state, and local private resources in the goal of better educational programs.

II. EDUCATIONAL COMMITTEE RESPONSIBILITIES

- A. The committee is the organizational team.
 - 1. They are responsible for the educational program.

- 2. They serve as the principle policy-making body.
- B. In making policy, the committee acts as a group and no one individual committee member shall have any direct authority over the educational program except that which is delegated in writing by the committee through its official minutes.
- C. In keeping with their obligation to represent the interests of the people of their respective Indian Committees, individual committee members shall provide advisory assistance regarding operational aspects of the educational programs in their respective Indian communities and to the Department of Public Instruction.
- D. In making policy, the committee is responsible for:
 - 1. Identifying the needs,
 - 2. Establishing long and short range goals,
 - 3. Approving plans and priorities,
 - 4. Determining major personnel, financial and program policies,
 - 5. Approving financial assistance,
 - 6. Programs can be brought from the floor to the attention of the committee, leaving it to the committee for action of such proposals and assuring compliance with the conditions thereof.
 - 7. Committee members to include:
 - a. Term of committee members.
 - b. Selection of committee members.
 - c. Rumber of committee members.
 - d. Voting privileges of committee members.

8. Communities are:

Oneida	Red Cliff	Superior
Stockbridge-Munsee	Forest County	Gresham
Lac du Flambeau	Mole Lake	Students:
Winnebago	St. Croix	University
Lac Courte Oreilles	Mi lwaukee	Vocational-Tech.

*

IV. SELECTION

This shall be made at the community or area level by:

- A. Community selects from community meeting.
- B. Candidates by nomination.
- C. Tribal Council selects.
- D. Area representatives selected by community.
- E. Any individual willing to serve can volunteer.

TERM OF OFFICE

One to two year terms.

Selection by draw of No. 1 or No. 2

They are then eligible to serve another term if the community or area he or she represents proves their eligibility to continue.

ALTERNATES

Alternates may be chosen by their respective Educational Committees at the community or area level.

Individual Committee members duties and responsibilities:

- 1. Attend all Educational Committee meetings.
- 2. Property, i.e., minutes, data, belongs to the active committee member.
- 3. Shall have a written monthly report of GLITC Educational Committee meeting for the area they represent.
- 4. Shall have purposeful community Educational meetings.

V. QUORUM

It consists of 51% of the voting members, or 16 out of 31.

Subcommittees have been appointed and are active in the following special areas:

Legislation Adult Education Johnson-O'Malley

THE ELECTION OF OFFICERS: Chairman, Vice Chairman and Secretary-Treasurer will be for a period of one year held in the month of December and assumption of duties will be effective at the regular January meeting. Nomination of such officers will take place at a regular committee meeting scheduled for the month of November, (held in December in 1972). Nominations will be accepted from the floor with the provision that a minimum of at least two nominees be placed on the ballot for each office. Voting will be conducted by secret ballot with present officers presiding as the election committee. An election committee of three will be selected from the election meeting to conduct the election process.

LOCAL INDIAN EDUCATION COMMITTEES

Each of the local committees is organized for direct involvement in ell educational matters that have a bearing on the educational programs and services available to the youth of the Indian community. Local Indian Education Committees are involved in such activities as:

- 1. Planning education programs with local school personnel,
- 2. Recommending and approving of special educational programs at the local level,
- 3. Recommending educational materials for use in school programs, which include library books, magazines, reference material, films, film strips, records and tapes, Indian arts and crafts material and Indian resource personnel,
- 4. Strive to promote the support and involvement of the total Indian community in all educational concerns affecting their children.
- 5. Provide assistance and guidance to the Home-School Coordinators in assessing educational needs of the Indian community,
- 6. Provide information to school personnel and other concerned agencies regarding health, economic and social problems affecting Indian youth,
- 7. Attend Great Lakes Inter-Tribal Council, Ind. Education Committee meetings to keep informed on statewide issues and considerations and to recommend committee action on state and national levels,

•-.-

- 8. Participate in the evaluation of local special programs,
- 9. Participate in the audit of Johnson-O'Malley expenditures on the local level,
- 10. Support and participate in the local in-service training programs for local teaching staff,
- 11. Encourage and promote the employment of competent Indian personnel as para-professionals in the classrooms and in related activities,
- 12. Encourage and support higher education training programs for para-professionals that will lead toward a college degree,
- 13. Cooperate with local school personnel in research and development of curriculum materials relevant to Indian history and Indian culture.

SCHOOL DISTRICTS AND TRIBAL GROUPS

TEACHER IN-SERVICE TRAINING

Another "Workshop for Teachers of Indian Children" was conducted at the University of Wisconsin - Superior during the summer of 1972 from June 19 through June 30.

The conference was designed specifically for teachers in the public schools where Indian pupils were enrolled. For purposes of the workshop, a teacher was anyone who works with children in the school setting.

Staffing of the workshop placed emphasis upon the use of Wisconsin Indians as resource personnel.

The planning committee, which met on January 25, 1972, recommended the following:

- 1. That there be "a great deal of involvement from the Indian community,
- 2. That Home-School Coordinators, teacher aides, parents and students be involved as resource people and that the Great Lakes Inter-Tribal Council, Inc. Education Committee assist in the selection of resource personnel,
- 3. That emphasis on Indian history and culture be developed through reading and other secondary sources so that a major portion of the workshop could be directed toward school curriculum and contemporary Indians,
- 4. That curriculum guides and other materials that are developed by the teachers participating in the workshop be reproduced and distributed to all workshop participants and to local Indian education groups,
- 5. That there be more small group activities scheduled for the workshop.

The recommendations were accepted and included in the workshop. Twentyeight curriculum units, representing less than one third of the units prepared in the 1972 and previous workshop, were selected, assembled and distributed to teachers, administrators, Indian education committees, Bureau of Indian Affairs and Department of Public Instruction personnel.

Some of the highlights of the workshop included presentations and discussions in the following areas: Current Issues in Indian Education A Brief Historical Perspective of Wisconsin Indians Federal Programs for Indian Education Selected Life Style Characteristics of Wisconsin Indians Panel discussion on Indian Education from Another Perspective Panel discussion by Indian Education Coordinators for Wisconsin Public Schools Federal Legislation Affecting Indian Education Panel of Parents discussing "The Needs of Our Children" Panel discussion on "The Schools, What Can They Do?" The Role of the Great Lakes Inter-Tribal Council Inc. Education Committee _ The Menominees, No Longer Silent

Indian Control, Myth or Reality

Counseling the Indian Student

The Future Role of Schools Providing Education Programs for Indian Children

Happiness is Having Indian Children in Your School

Individual evaluations submitted by the teachers were generally highly favorable of the workshop. A view shared by many indicated a need for school administrators.

PROCLAMATION

Indian Education Week

Through the efforts of the Great Lakes Inter-Tribal Council and its Education Committee, together with encouragement and support from the Department of Public Instruction, the Governor of the State of Wisconsin proclaimed the week of April 23 - 29, 1972 as American Indian Week.

The text of the proclamation is on the following page.

A PROCLAMATION

WHEREAS, it is just and proper that time be set aside for American citizens to recognize and honor the original inhabitants of this land; and

WHEREAS, we need to take this time to recognize the American Indian and their contributions for the betterment of our future generations; and

WHEREAS, Indian achievements and traditions form a distinctive and important part of the history of this state; and

WIILREAS, we plead for mutual understanding with the American Indian population of the State of Wiscensin; and

WIHEREAS, we need to provide equality through Brotherly Love for all mankind.

NOW, THEREFORE, I, PATRICK J. LUCEY, Governor of the State of Wisconsin, do hereby proclaim April 23 \times 29, 1972 as

AMERICAN INDIAN WEEK

and I urge all Wisconsinites to appropriately observe the historic and significant period reserved to commemorate the contributions these first Americans have made, are making and will continue to make for the enrichment of the quality of life for all mankind.

By the overnor:

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Wisconsin to be affixed. Done at the Capitol in the City of Madison, this twentieth day of April in the year of our Lord one thousand nine hundred and seventy-two.

GO

Many schools in Wisconsin observed the week with appropriate programs and activities to portray the rich heritage and contributions of the American Indians to our total culture. Plans are in progress to again observe American Indian Week in 1972-73.

WISCONSIN STATE PLAN

The Johnson-O'Malley State Plan outlines and projects the combined judgement and philosophy of the Department of Public Instruction, Great Lakes Inter-Tribal Council, the Council's Education Committee and the Bureau of Indian Affairs.

The intent of the State Plan is to (1) provide maximum educational opportunities for Indian pupils enrolled in the public schools, (2) involve the Indian community and its representatives as partners in the administration of Indian education programs, and (3) administer the Johnson-O'Malley program in compliance with the regulations and policies of the Bureau of Indian Affairs.

The State Plan has been approved and endorsed by the Great Lakes Inter-Tribal Council, Inc., Bureau of Indian Affairs and the State Superintendent of Public Instruction.

NATIONAL INDIAN EDUCATION ASSOCIATION CONFERENCE Albuquerque, New Mexico November 3-6, 1971

A large delegation of concerned Indian people attended the National Conference at Albuquerque. Among those present were Home-School Coordinators employed in the public schools and two staff members (Indian education section) from the Department of Public Instruction.

A prime reason for attendance was to keep abreast of broad issues affecting Indian education.

ASHLAND

The Ashland School System, in cooperation with the Johnson-O'Malley program, employed two Home-School Coordinators during the 1971-72 school year. One is a fully qualified public school counselor holding a master's degree, while the other person is working toward a bachelor's degree. These two young men both are of Indian extraction and work exclusively with the Indian youngsters and their parents.

Two Indian mothers work as aides in grades two and three at the Ellis school. These two women, who are employed by Johnson-O'Malley, along two other Indian mother aides, who are employed by Title I, have been most helpful to both the teachers and students at Ellis school.

The Indian culture class in its second year of operation had a total of 23 students enrolled, 21 of which were Indian students. A new course was added this past year which was named Indian Literature. This course provided students with an opportunity to study many of the old myths and legends of the Indian people as well as the chance to examine some more contemporary writings concerning Indians. The Johnson-O'Malley programs provided funds for resource people, field trips, books, material and an Indian language instructor for the above classes. The Indian language instruction was given in each class one hour per week.

In an attempt to revive interest and lost skill in Indian crafts and dancing, a program providing instruction in these areas was initiated. The program was held two nights a week for three hours per night. One paid aide, with the help of community volunteers, conducted the program. Johnson-O'Malley money also provided transportation and the necessary materials for the participants.

A summer program was held this past summer which continued the instruction in arts and crafts and expanded the instruction in Indian dancing. The program was conducted for a period of ten weeks. Such things as costs of material, transportation, instructors and field trips were provided by the Johnson-O'Malley program.

A parental cost program was initiated during the past year. The program was mainly used for musical instrument rental, shop fees and some for senior graduation expenses.

The graduating class of 1972 had a total of 234 members, nineteen of whom were Indian students. Each year the percentage of Indian students that graduates increases. Each year we also find a greater number of Indian students participating in the various school activities. The top scholastic average in this graduating class was obtained by an Indian girl. Another Indian student set a new school record in the mile run.

There are presently a total of twelve of the nineteen graduating Indian students that are enrolled in some kind of post high school education or training course.

BAYFIELD

Bayfield continued the services of the full time Home-School Coordinator and employed a second coordinator för the second semester on a half time basis to provide additional assistance for the elementary pupils and their parents.

One teacher aide was employed from February 13 through June 2 and assigned to the fourth and fifth grades.

A Study Center was in operation on the Reservation two nights each week. The average attendance each night was 30 pupils. Eleven teachers from the public school staff provided instructional assistance to the participating students.

Bayfield also provided a special program under Title I ESEA, "Educational Improvement for the Educationally Deprived Child with Emphasis on Developmental Reading." The project involved 31 pupils, 23 of which were American Indians. The program centered around English-reading activities.

The Bayfield School District is participating, along with 26 other sites in the nation, in a unique educational program with goals aimed at staff development on-site; and community participation in educational decision making. A school/community council formed in July, 1971 is basically charged with formulating proposals aimed at overall improvement in the school district.

Bi-cultural approach to education, while only a portion of the total Urban/ Rural concept, has assumed a place of exceeding importance in the total plan of operation. Several selected sites were visited to gain perspective of conditions, innovations, and problems of other areas with respect to Indian education. Among these were Rough Rock Demonstration School, Chinle, Arizona; Pine Point Experimental School, Ponsford, Minnesota; Rocky Boy, Montana.

Conferences and training sessions were attended by staff, School-Community Council members and others to gain additional insight. These include the Third Annual National Indian Education Association Conference in Albuquerque, New Mexico; session on school boards at the National Indian Training Center, Brigham City, Utah; Indian Legislation Conference, Washington, D. C.; Indian Educat on Association Conference, San Diego, California.

Joint conferences have been held at all three Urban/Rural sites with populations of Indian students. Attempts have been made to deal with the special problems of Indian students. It is felt, although each site is unique, that there are certain characteristics that bind the three together in jointly seeking to solve educational problems. The first conference was held in Neah Bay, Washington in November, 1971; the second at Hays/Lodge Pole, Montana in July, 1972; and the third at Bayfield in October, 1972.

Several school staff programs of in-service have been held, primarily during the summer of 1972. These include a special learning disabilities workshop; human development program workshop; a climate for individual growth workshop; and a workshop for teachers of Chippewa Indian children, conducted by Will Antell. It is noted that all of these were on-site and tended to deal with local solutions to problems.

BAYFIELD (cont'd.)

A two day Indian Awareness Retreat was held at Red Cliff on September 16 & 17, 1972. The retreat exposed the school staff to traditional Indian foods, singing and dancing. The experience afforded the staff the opportunity to learn more about Indian culture and facilitated human relationships between Indian parents and school personnel.

The Urban/Rural program is continuing during the 1972-73 school year. The area of bi-cultural education is again being incorporated into the proposal.

BLACK RIVER FALLS

Black River Falls provided the services of a Home-School Coordinator through September 1971. In October, the Coordinator resigned to accept an appointment as a Consultant in Indian Education with the State Department of Public Instruction.

The school district and local Indian Education Committee were unable to find a replacement for the balance of the year.

One teacher aide was employed on April 10 and two additional aides were employed May 3 to complete the school year.

The Title I project at Black River Falls served 235 pupils, of which 115 were American Indians. The project activities included reading through individualization, Youth Tutoring Youth, health screening, elementary guidance and cultural enrichment.

BOWLER

Bowler supplemented Indian education programs including the employment of a Home-School Coordinator and three teacher aides assigned to the intermediate level grades. A minimum of expenditures was also made to cover items of parental cost.

Title I funds provided the employment of two additional teacher aides involved in educational activities in the primary grades and two special help teachers working with learning disability students in the areas of reading, math and motor skills. In addition, the district participates in the Wisconsin Indian Teacher Corp program providing four intern teachers from the University of Wisconsin - Madison under direction of staff teachers to emphasize more individualized learning and offer community tutoring service. This Indian awareness lead to the planning and participation in an American Indian Week. The purpose and goals were to provide positive moral support and understanding by recognizing the history and culture of the American Indian and his contribution to our society through school and community sponsored projects and activities geared around the American Indian for the week. The week long activities were culminated by the establishing of an Indian Day at Bowler schools. A Stockbridge-Munsee teach-in was held on this day with members of the tribe in many classrooms as guest teachers presenting materials about our history, community, tribal council, land, housing development, arts and crafts, youth and health programs, and various other subjects of interest to Indian people and ending with a school assembly program. There were five Indian graduates in the 1972 senior class and all five are furthering their educations by going on either to a two or four year college or to a technical school.

BOWLER (cont'd.)

Title I funded "Project Aid" which served 70 pupils in grades K-8 and pre-school. Twenty of the pupils were American Indians. Project activities included development of reading skill, reasoning abilities, building of positive attitudes, development of the ability to understand concepts and to apply learning to practical situations. Supportive counseling and psychological services were included.

CRANDON

There are two distinct tribal bands in the Crandon district. Each is represented by its own local Indian Education Committee in determining local needs and services. Each group was served by a half time Home-School Coordinator during the second semester.

A Study Center was implemented at both Indian communities, Stone Lake ______ and Mole Lake and tutors were employed to provide instructional assistance. The tutoring programs at the Study Centers were in operation from February 2 through May 18.

Transportation services were also provided for after school and evening school activities.

Parental Cost services were also provided for the pupils. Expenditures generally were for school supplies.

CUMBERLAND

Cumberland operated one special program during the school year. A halftime Home-School Coordinator was employed from December 13 through June 14. The Coordinator provided pupil services and conferences with parents and school personnel.

LAC DU FLAMBEAU

This is an elementary school district operating grades K-8. Pupils completing the 8th grade enroll in Lakeland Union High School. Special education programs provided were one Home-School Coordinator, four teacher aides, two tutors and a Special Education class. Pupils in this class were assigned on the basis of psychological testing results. Funding for the services was a cooperative effort shared by Johnson-O'Malley, 30%, and the State, 70%.

The Lac du Flambeau Home-School Coordinator, a Chippewa Indian, has commented as follows on Indian education activities in the district: "The Johnson-O'Malley programs have added greatly to our school. Attendance is up, behavior is better, attitudes have changed and communication is improved."

In the Special Education class there is an enrollment of eleven pupils of varying ages and grade levels. The Special Education teacher and the teacher aide work on a one to one basis with the students. The attitude of the boys and girls has changed from "what is the use" to one of cooperation. This individual attention gives them a more secure feeling in the classroom.

-48

LAC DU FLAMBEAU (cont'd.)

The tutors, working on a one to one or one to two basis with students, have helped them to complete their daily assignments and to "catch up" on back work. Approximately 70 pupils are assisted by the tutors resulting in improved grades and achievement.

During "American Indian Week", each room and class discussed or studied different phases of Indian life such as Indian history, Indian heritage and Indian contributions to America. The hallway contained an exhibit of Indian books, pictures, beadwork, finger weaving, baskets and other Indian handicrafts. Elder Indian citizens toured the school, visited classrooms, told stories, answered questions and joined the pupils for lunch. All visitors, students and staff participated in a Pow Wow at the Indian Bowl with the singers, drummers and dancers, who performed during the summer ceremonials.

Eleven of the 23 pupils in the school band are Indian. The beginning band of 39 pupils has 17 Indian members.

The local Indian Education Committee cooperated in the implementation of adult evening classes. Twenty enrolled in ceramics, 15 in typing, 16 in Arts and Crafts and 54 in Indian language and culture classes.

Lac du Flambeau also continued its "Follow Through Project". This project has as its objective, (1) the development of nonprofessionals as parent educators, and as effective participants in the classroom teaching process, (2) the development of appropriate instructional tasks which can be carried from the school into the home to establish a more effective learning environment, and (3) the development of parents as partners in the educational program for their children. Of the 165 children being served, 125 are American Indians.

Another program is "Project Share" serving 89 pupils including 62 American Indians. Activities included cultural enrichment, English-reading, Englishother language arts, mathematics and physical education recreation.

HAYWARD

Special programs at Hayward included a half-time Home-School Coordinator, a remedial education teacher for the elementary grades, a study center on the reservation, together with transportation services, Parental Cost program, and a summer vocational program (1971) conducted at the reservation.

Special transportation for after school activities is provided for all pupils in the district and is not included in Johnson-O'Malley expenditures.

An issue arose during the school year which prompted the Lac Courte Oreilles Tribal Council to decide that future contracting for Johnson-O'Malley program funds will be made directly with the Tribal Council. The Tribal Council and Lac Courte Oreilles Education Committee will determine the kinds of programs and expenditures to be made.

Hayward also implemented a Title I project, "4 Phase Program for Disadvantaged Students". Activities included in the project were cultural enrichment, English-reading, mathematics, physical education, natural science, social science and guidance counseling. Of the 255 pupils served, 111 were American Indians.

LAKELAND UNION HIGH SCHOOL (Minocqua)

Special programs conducted by Lakeland included a Home-Schoe' Coordinator, one tutor, special transportation services, a Parental Cost program and an educational field trip for the Indian pupils in the 11th and 12th grades. The field trip is sponsored jointly by the Lac du Flambeau Tribal Council, Lakeland High School and Johnson-O'Malley. Pupils visit institutions of higher learning, vocational technical schools, business corporations, etc.

Lakeland achieved a new high in school retention during 1971-72. Of a total Indian enrollment of 62, all students completed the year and 17 grad-uated.

A grant was issued to the Guidance and Counseling department which resulted in the development of a slide presentation depicting settings and programs at two of the four post-high school Indian schools in the United States. The slide-tape program is used in counseling Indian students and parents regarding opportunities for training at these schools.

"Project Share" was also implemented. It included Youth Tutoring Youth and academic and supporting services. Of the 35 students served, 25 were American Indians.

PULASKI

Pulaski contracted for Home-School Coordinators to serve the Indian students in both the Pulaski school district and the Freedom school district. Services were provided from September 20 through June 2, 1972.

The project, "Operation Advance and Better Health", was provided for 131 students, which included 20 American Indians. Instructional activities focused on language arts and mathematics. Home contact kits were used. Health was offered as a supportive service.

SEYMOUR

Special programs included a Home-School Coordinator, special transportation, Parental Costs, and a research project to develop materials pertaining to Oneida history. Objectives of the research we to:

Help the Oneida people learn about their heritage," Make slides and acquire artifacts of the Oneidas for use and display in the Seymour schools,

Develop Oneida history and culture units which can be included in the K-12 curriculum. The first year of the program will be directed at pupils and teachers in grades 5 and 8.

A "Special Services" project was in operation. Activities associated with the project included mathematics attendance, food, health, reading and library services. Of the 265 pupils served, 100 were American Indians.

WEBSTER

Webster continued its Home-School Coordinator for a fourth year. The Coordinator serves both the Webster and Siren school districts devoting full time to Indian education activities and services involving Indian pupils and parents together with other community agencies.

Title I funds were also used to carry off a project in Reading and Arithmetic Enhancement. Reading and math centers were established to serve 92 children which included 34 American Indians.

WEST DE PERE

West De Pere expanded its special programs over the previous year. The Home-School Coordinator program was continued, Parental Cost services were provided, special transportation services were offered to facilitate Indian participation in school activities and an elective course in Indian history and Indian culture was continued at the high school level for all students.

West De Pere also provided a project under Title I, "Project Link." This program included activities in cultural enrichment, English-reading, English speech and ego development. 75 of the 135 pupils served were Indian.

WINTER

.....

The Title I program provided funds for the project, "Reading and Arithmetic Improvement." Activities included instruction in these two areas. 19 of the 68 pupils served were American Indians.

WISCONSIN DELLS

Wisconsin Dells continued the services of a full time Home-School Coordinator, employed two teacher aides (Indian), provided special transportation for participation in school cocurricular activities, provided Parental Costs and conducted a Remedial Education program during the summer of 1971.

The summer program was a joint effort supported by the Wisconsin Dells school district, Youth Development Program, NYC program and Vista workers. A portion of the program included educational recreation activities in the form of field trips, swimming classes, visits to industrial plants, museums, zoos, the State Capitol and other cultural enrichment sites.

A Titl. I program, "Reach and Teach" was also provided. English-reading, English-speech, English-other language arts, mathematics and library services were included in this project. Of the 125 pupils served, 47 were American Indians.
