**ABSTRACT**

This course outlined in this pamphlet serves as a review clinic for basic typing skills to increase students' employability and provide further skill development. Content includes occupational relationships, enrollment guidelines, performance objectives (perform standard maintenance on a typewriter, type from dictation, compose at a typewriter), course content (timed writing, business letters, centering and tabulating review), learning activities, evaluative instruments, and student and teacher resource materials. Appendixes contain English usage drills, sample evaluative instruments, and their answer keys. (NH)

**I. COURSE TITLE--TYPEWRITING BRUSH UP**

**II. COURSE NUMBER--7704.42**

**III. COURSE DESCRIPTION**

**A. Synopsis**

A review clinic of basic typing employability skills as a basis for further skill development. This course will be beneficial for students who have been trained in typewriting but have not used this skill recently. (Or for students who need further reinforcement in the skill before beginning further skill development.)

**B. Teaching Strategies**

Content and techniques will depend on the skill status of each student in the class.

**C. Textbooks**

Any of the state adopted texts for senior high typing, or one of the department's choosing.

**D. Occupational Relationships**

Typist	Office clerk
Receptionist	Card-punch operator
Secretary	Stenographer

**IV. COURSE ENROLLMENT GUIDELINES**

**A. Prior Experiences Needed**

Students should have attained the minimum objectives of Typing Business Reports, Outlines and Manuscripts, 7704.31.

**B. Purposes**

Students enrolled in this course will fall into two general categories.

1. Students who lack sufficient skills in certain areas to continue with more advanced typing.

2. Students who have had previous typing experience but have not used this skill recently.

**C. Pretest--none**

**V. COURSE OF STUDY PERFORMANCE OBJECTIVES**

The minimum requirements for this course are a little higher than those for Typing Business Reports, Outlines and Manuscripts. Upon completion of the course, the student will be able to--

## V. COURSE OF STUDY PERFORMANCE OBJECTIVES, Continued

- A. type straight copy material at the minimum rate of 20 words per minute for five (5) minutes with a maximum of one (1) error per minute;
- B. type an acceptable copy from given rough draft material with a maximum of two (2) errors per minute;
- C. perform an operator's care for the maintenance of the typewriter;
- D. type business letters (any style), envelopes (small and large), carbon copies, announcements, memorandums, business reports, outlines, and manuscripts, following oral or written directions;
- E. divide words correctly at the ends of lines;
- F. proofread and make acceptable corrections;
- G. punctuate and capitalize according to accepted typewriting rules (of English usage);
- H. type from dictation;
- I. compose at the typewriter;
- J. complete selected problems with 95% accuracy within a given period of time following given oral or written instructions.

## VI. COURSE CONTENT

- A. Keyboard
  - 1. Review
  - 2. Technique improvement
- B. The Typewriter
  - 1. Proper use of manipulative parts of the typewriter
  - 2. Proper care and maintenance
    - a. Cleaning

## VII. COURSE PROCEDURES, STRATEGIES, SUGGESTED LEARNING ACTIVITIES

Methodology to be utilized will depend upon objectives and needs of individual students. The teacher may evaluate the present status of the students' skills through the use of a pretest prepared on the basis of the course objectives. Discovered weaknesses may be remedied through technique improvement drills, demonstrations, audio-visual presentations, practice sessions, timed writings, performance and/or written tests, and problem solving. Teacher-prepared instruction sheets for each student would be most helpful. Individual student folders should be kept. A record of each student's goals should be part of his folder. Timed writings should be recorded. Each student should determine his goal and be aware of his weaknesses and strengths so that he can progress toward that goal.

### A. Daily Activities

1. Warm up drills  
Conditioning practice, keyboard review drills, and warm-up drills in most textbooks generally are reviews of previous keyboard instruction. If they are used as a warm-up at the beginning of the period, the assignment should be on the chalkboard. The students should be instructed to begin

VII. COURSE PROCEDURES, STRATEGIES, SUGGESTED LEARNING ACTIVITIES,  
Continued

typing as soon as they enter. The teacher may use this time to take attendance or handle any other clerical details. These practice drills should not be graded for speed or accuracy. A check mark may be used in the grade book to indicate satisfactory or unsatisfactory effort for a drill.

2. General review (review on areas of course content)

a. English usage drills

Students who evidence weakness in the area of word-division, punctuation, and capitalization should be given more concentrated drill as a form of specific review. If no book dealing with this problem is available, refer to the Appendix for examples.

b. Technique improvement drills

Periodic evaluations of the students' work will indicate areas of weakness in techniques at the typewriter. Specific review drills may be assigned.

(1) Reinforcement - a drill which emphasizes a particular letter, number, or symbol.

(2) Stroking - Each student should watch the teacher as she strokes the keys, listen to the rhythm as she types, and type from copy using the same techniques. The use of the Datype Analyzer would help the student recognize his irregular typing.

(3) Shift key practice - Groups of letters in both upper and lower case, sentences containing proper nouns, and words using capital letters can be used in this type of drill.

EXAMPLE: jJj fFf kKk dDd jJ Jf dK Kd

Boy Girl Ten Mary Tom

Mary Jane embarked on Flight A.

(4) Space bar - Drills involving long and short words and different types of punctuation will enable the student to develop skill in the use of the space bar.

(5) Carriage return - Drills in which the teacher calls for the return of the carriage at varying times will be beneficial for the student who hesitates on the return of the carriage. A quick flick of the little finger (electric) or a quick return of the carriage return lever can be demonstrated by the teacher. Students should practice these motions and then apply the technique to the typing drills.

VII. COURSE PROCEDURES, STRATEGIES, SUGGESTED LEARNING ACTIVITIES,  
Continued

- (6) Tabulator key - Tabs should be set in positions designated by the teacher or the drill book. The student may type columns of words dictated by the teacher or copy material indicated in the text. Emphasis should be on quick, reaching motions to the tabulator with eyes on the copy and no break in typing rhythm.
- (7) Margin release - Students will be instructed to set margins for a line that is shorter than the material to be typed requiring the use of the margin release key. The teacher should demonstrate the proper technique for the reach and have the students practice it.
- (8) Backspace key - Demonstration of the proper technique for backspacing should be given by the teacher. The student can type sentences which require him to backspace to underscore. Words or groups of letters may be typed leaving blank spaces as indicated by the teacher. The student will then be instructed to backspace and insert the missing letters.

EXAMPLES: T e b e r a s b o n .  
The bear was brown.

d d c c f f s s  
ddd ccc fff sss

- (9) Eyes on copy - Difficult copy drills should be used to force the student to keep eyes on the copy. New material will be of some aid in this area. Another method is to have the student type from easy copy forcing him to keep eyes on the copy for a line at a time, then two lines, then two lines and a return, etc. Perhaps the best technique for breaking this bad habit is the use of a tachistoscopic device (the Skillbuilder).

c. Speed and accuracy drills

- (1) Guided writings - The student should be told if the drill is for speed or for accuracy. The material is typed to establish a starting point. A projected goal is set by the teacher (an increase of two words or a decrease of one error) which the student uses to determine his new goal; then the material is typed again.
- (2) Rhythm drills - The students will type to music from records which have a beat of 20 to 60 words per minute. Typing in rhythm tends to help the student to relax and stop looking at his fingers. The beat

**VII. COURSE PROCEDURES, STRATEGIES, SUGGESTED LEARNING ACTIVITIES,  
Continued**

per minute may be increased gradually and the typing speed will increase. Students may bring their own records of popular music.

(3) Accuracy drills - Student work can be evaluated and drills provided in the areas of student weakness. Drills for specific letters, reaches, first row keys, second or home row keys, and third row keys, left- and right-hand drills, and balanced-hand drills can be utilized. Most textbooks offer progressively difficult drills for accuracy.

(4) Timed writing - One-, three-, and five-minute paragraph timings should be provided as drill. The student should have adequate practice in taking these drills before a timed writing is offered for a grade.

**d. Direct dictation drills**

These drills are used to prepare the student to think and listen as he types. The teacher dictates words, phrases, and sentences while the students type them. Most typing texts have direct dictation drills.

**e. Concentration drills**

Many typographical errors are caused by lack of concentration during typing lessons. Students are given copy with missing letters in words, missing words in sentences, duplicated words, and words which have been spelled incorrectly. They are required to make the necessary corrections.

**f. Composition at the typewriter**

The teacher will write a number of sentences on the chalkboard. The student will use one of these sentences as the first part of his paragraph and continue with this thought until the paragraph is completed. A questionnaire type of drill may be presented to the student in which the student completes sentences on the typewriter.

EXAMPLE: I live in (name of state).

The capital of my state is \_\_\_\_\_.

It is located in the \_\_\_\_\_ part of the state.

**g. Corrective drills**

(1) Proofreading drills—Students should be graded on proofreading skills. A bonus for accurate proofreading should be given occasionally. A knowledge of proofreading marks should be made a part of the lesson and students should be encouraged to use these when correcting their typing.

VII. COURSE PROCEDURES, STRATEGIES, SUGGESTED LEARNING ACTIVITIES,  
Continued

(7) Correction drills—After being instructed in the proper use of the eraser and the procedures used when making corrections, the student should be given an opportunity to develop this skill. Short timed writings can be given and the student should be permitted to make the necessary corrections. He should be given other timed writings in which words are deducted for errors. He should practice making corrections with a correction device (eraser, correction fluid, correction paper, etc.) until he can correct and type copy at a speed (NWAM) that is comparable to his speed with a penalty for errors.

h. Problem solving

Students will type various styles of business letters, centering and tabulation problems, manuscripts, and miscellaneous business forms. They will also prepare carbon packs and chain feed cards or envelopes concentrating on inserting them quickly and properly into the machine. The unarranged copy may be printed or written in longhand, and may contain proofreaders' marks.

3. Specific review

Instruction should be given on an individual basis depending on weaknesses and/or strengths of the student.

4. Problem solving for reinforcement

The student will work at solving problems in his area(s) of weakness. Problems offered to the student should begin with the simple and basic and progress to the more complex.

B. Special Activities

Special activities will help increase student interest and should be utilized when practicable for student motivation.

1. Art typing

Specially prepared materials are available for typing pictures. Students must concentrate and follow instructions in order to succeed at this activity.

2. Progress charts

Bulletin boards should be used to show student achievement. EXAMPLE: Trim a Tree (Christmas). Paper ornaments in colors symbolizing areas of typing speed can be used to trim the tree. Each student's name should appear on an ornament.

Typewriting speed charts indicating the typist's success on timed writings may also be used.

VII. COURSE PROCEDURES, STRATEGIES, SUGGESTED LEARNING ACTIVITIES,  
Continued

For the benefit of the slow typist, a chart recording additional words per minute can be used. Each student will have a beginning speed. Each time he progresses an additional word, this should be recorded.

Speed charts may be posted in the room or kept in each student's notebook or folder.

3. Student display

When a student has turned in a perfect piece of work it should be placed on display. The student enjoys seeing his own success.

4. Free typing day

The students should be rewarded with a day in which they can do outside typing and receive credit for it if they have turned in all required work that has been assigned.

5. Student folders

The student should be made responsible for keeping his permanent folder in order. When papers are returned, he should be given scheduled time to do his own filing. To insure that the filing is done, periodic inspection of the files by the teacher should be made. The student may be given a penalty for missing items.

Each student should also have an instructional folder. It should contain timed writing and achievement charts. This folder will also contain an outline of the student's specific assignment in his area of weakness. If instructional packages are used, the current one should be noted in the folder, together with the day-by-day work of the student until he completes that unit. After evaluation, the work can be transferred to the permanent folder.

6. Games at the typewriter

Football or any other team sport can be used in the following fashion. Divide the class into two teams. Appoint a judge or score keeper and a captain from each side. The judge of one team will keep score with the captain of the other team to maintain accuracy. The students will type a one-minute (or 1/2-minute) speed dash. Each student will determine how many words he has typed, less 2 points off for each error. A grand total for each side will be determined. The difference between the two scores is the amount of yardage gained on the football field. (A football field can be drawn on the chalkboard.) A time limit should be set. Determine the winner by the total points earned. If no points are earned, the winner can be determined by the best position on the field.

## VIII. EVALUATIVE INSTRUMENTS

### A. Diagnostic Test

It is suggested that a diagnostic test be administered during the first day or so. Results will identify each student's strengths and weaknesses, and may be used to prepare lesson plans for each student so that he may work toward the achievement of his goal.

The test should encompass all of the performance objectives for the course and may be made up of the following parts (see Appendix for samples) some of which may be in rough draft or longhand form:

timed writings	word-division test
business letter test	parts-of-the-typewriter test
capitalization and punctuation test	keyboard usage test
dictation at the typewriter	tabulation and centering test
	composition at the typewriter
	production test

### B. Interim Tests

#### 1. Timed writings

Timed writings should be offered on a weekly basis. Each student's starting speed should be determined during the diagnostic period. A starting speed can be determined by averaging three (3) timed writings. Each student will be on a different beginning level and his individual needs will differ. Students who need additional work on timed writings should be given an opportunity to work in this area.

Grade points will depend upon the increase in words per minute. A minimum increase of five (5) words per minute from the starting speed should be required for a passing grade at the end of the course.

#### 2. Evaluation in general review area

Evaluation of the topic area covered in the general review of the current week.

#### 3. Evaluation in area of concentration

The student's progress should be evaluated. When he has attained sufficient competency in his individual area of weakness, he should proceed to another area. This competency level should be based on the individual's needs and goals.

#### 4. Typing techniques may be evaluated by using the suggested check sheet in the Appendix.

### C. Final Test

This test should parallel the diagnostic test. Each student should reach the minimum standards of the objectives; hopefully, the students will reach their personal goals which should be higher than course objectives.

## EXAMPLES OF ENGLISH USAGE DRILLS

### 1. Word division

- a. **INSTRUCTIONS:** Set your left margin at 20. Assume that the bell rings as you type the first letter of each word in Column I. In Column II, use the hyphen to indicate the point at which you would divide the word or group of words at the end of a line. If a word cannot be divided, type it as it appears in Column I.

#### COLUMN I

#### COLUMN II

- b. **INSTRUCTIONS:** Type the words in Column I (above) as they appear. With your tab set at 50, tab and type each word again, indicating by the use of a hyphen all places at which a word may be divided. If a word cannot be divided, type it as it appears.
- c. **INSTRUCTIONS:** Use the sheet entitled RULES FOR WORD DIVISION\* which your teacher has given you and a dictionary or word book. Type the word in Column I; indicate syllables in each word in Column II; all possible points at which the word may be divided in Column III; indicate in Column IV the number of the rule which applies each time you use the hyphen (in the order of its appearance in the word).

\*Note - The teacher can prepare a list of rules for the student to be used as a reference. The student also can be asked to indicate at which point he feels word division would be most desirable in a word.

accurate	ac-cu-rate	ac-cu-rate	3, 5
introduce	in-tro-duce	in-tro-duce	3, 7, 2

2. Punctuation and capitalization drills

a. INSTRUCTIONS: Type the following sentences supplying the correct punctuation.

- (1) After he leaves Miami he will stop at Atlanta Dallas and Los Angeles
- (2) He was born on December 5 1950 in Boston Massachusetts

b. INSTRUCTIONS: Type the following sentences expressing numbers and capitals correctly.

- (1) the school was named in honor of john f kennedy.
- (2) on june 14 we celebrate flag day.
- (3) \$25 is not too much money to pay for tickets to the ice follies.
- (4) 50 passengers had first and second class reservations on the queen mary.

3. English usage drills

INSTRUCTIONS: Type the following sentences choosing the correct word in each from those indicated in parentheses.

- a. Neither (has/have) signed the contract yet.
- b. Everyone (is/are) urged to do his best work.
- c. Both books (presents/present) the facts on the case.
- d. Several (agrees/agree); others (doesn't/don't).

## SAMPLE EVALUATIVE INSTRUMENTS

### I. BUSINESS LETTER TEST

**INSTRUCTIONS:** Use the modified block style and mixed punctuation. Type the letter on a full sheet of paper and address an envelope.

ence for anyone. Don't you agree? We had a similar experience  
ourselves this week. (P2) The Zenith Electric Typewriter we  
purchased from you slightly more than three months ago broke down  
right in the middle of a very important project. Where were we  
to turn? Our masters were being produced with this unique type,  
and we were too far along either to start over or to stop. Our  
three-month guarantee had just expired. Finding ourselves in mid-  
stream, we had to have the typewriter repaired--at a cost of \$55.  
(P3) Even though the time is slightly over the guarantee period,  
we feel that you will want to stand behind your product and make  
an allowance for us on the repairs. May we expect one of your  
representatives to call on us next week? Sincerely yours Frank  
Brown, Manager (your reference initials)
