ABSTRACT

One hundred and fifteen listings comprise this general bibliography on housing, urban planning, and housing deficiencies. The listings provide current information on housing. Most are dated 1974-75. The bulk of the documents are commercially published books, reports, bulletins, and papers. The citations are alphabetized by author or title and include the date, number of pages, price, and availability. An author and title index and a list of some publishers' addresses conclude the document. (JR)

* Documents acquired by ERIC include many informal unpublished *
* materials not available from other sources. ERIC makes every effort *
* to obtain the best copy available. Nevertheless, items of marginal *
* reproducibility are often encountered and this affects the quality *
* of the microfiche and hardcopy reproductions ERIC makes available *
* via the ERIC Document Reproduction Service (EDRS). EDRS is not *
* responsible for the quality of the original document. Reproductions *
* supplied by EDRS are the best that can be made from the original. *
