ABSTRACT

The catalog contains titles of curriculum, instruction, guidance, and management materials for career education available in microfiche format. The compilers state that the materials vary in quality and format, Some are professional documents, while others are early unpolished drafts. The catalog has three major sections. A subject index, covering 58 subject areas, is organized by age span (elementary, secondary, community college, and adult). An institutional index identifies where the materials were developed (25 institutions in California). A one-page section lists position papers and management documents. The listing of materials gives a code for use (teacher, student, counselor, administrator, or a combination of uses). An asterick is used to signify that the unit can be utilized in an interdisciplinary approach. The number of pages in each item is indicated. Information on using the catalog and on ordering documents is also included. The CE numbers cited are document control numbers used by the Educational Resources Information Center, not ERIC Career Education Clearinghouse numbers. (Author/MS)

* Documents acquired by ERIC include many informal unpublished

* materials not available from other sources. ERIC makes every effort

* to obtain the best-copy available. Nevertheless, it ms of marginal

* reproducibility are often encountered and this affects the quality

* of the microfiche and hardcopy reproductions ERIC makes available

* via the ERIC Document Reproduction Service (EDRS). EDRS is not

* responsible for the quality of the original document. Reproductions

* supplied by EDRS are the best that can be made from the original.

PREFACE

This catalog contains titles of curriculum, instruction, guidance, and management materials for career education available in microfiche format. The titles listed represent 58 subject areas, 25 educational locations, and the effort of many educators dedicated to the infusion of career education into school programs.

The materials included in the catalog vary in quality and format. Some are professional documents, while others are early unpolished drafts. However, the curriculum units, planning aids, and position papers are being made available so that interested educators may have immediate access to these materials.

The infusion strategy employed in the California Career Education Implementation Model implies including career education concepts in all disciplines at all age spans rather than creating specialized courses with career education as the content. It is recommended, therefore, that the reader consider the materials listed here as potential adjuncts or organizing themes for existing courses rather than as a new course of study or a separate subject.

To meet the needs of all individuals in a more effective manner, the focus of instruction in public education is changing. Career education is an important part of that change. This catalog was prepared by the Career Education Task Force, California State Department of Education, to provide assistance to educators who need references and ideas as they design approaches and strategies to implement or improve career education in their schools.

WILLIAM E. WEBSTER Deputy Superintendent for Programs REX C. FORTUNE, JR.
Associate Superintendent
Secondary Education

PAUL N. PETERS
Manager
Career Education Task Force

HOW TO USE THE CATALOG

The materials in this collection are arranged by subject area for ease in finding the curricular areas, occupational clusters, or career education goals desired. Each subject area is divided by age span; however, many of the ideas may be adapted to other ages or grade levels by changing the type of activities or resources to suit student need. Therefore, when selecting materials for a particular grade level, you are encouraged to select a range of materials to accommodate individual learners.

The catalog has three major sections: A <u>Subject Index</u> organized by age span (elementary, secondary, community college, and adult pages 1-34); an <u>Institutional Index</u> identifying where the materials were developed (pages 36-48); and, a section of position papers and management documents (page 48).

Each entry contains the document control member assigned by the San Mateo Educational Resources Center (SMERC) to retrieve materials. This number must be used when ordering microfiche. The following is an explanation of an entry in detail:

Subject Area	Transportation
Age Span .	Elementary
Title	Commercial Transportation-Trucking
Use Code	<u>(T)*</u>
Pages /	11
Document Control Number	Œ 000 402

The listing of materials gives a code (T = teacher use, S = student use, C = counselor use, A = administrator use), and/or a combination of uses (T/S), (T/C), (A/T/C). The asterisk (*) following the use coding signifies that the unit can be utilized in an interdisciplinary approach.

Materials listed in this catalog may be ordered from:

San Mateo Educational Resources Center 333 Main Street Redwood City, CA 94063

HOW TO ORDER DOCUMENTS

Career Education documents (CE numbers) cited in this list are available from the Education Resources Center to educators in all subscribing counties. All CE documents are available in microfiche/format and may be kept for personal use. Ten microfiche cards will be furnished free of charge to any educator within San Mateo County and participating counties. Any additional microfiche cards can be provided at a charge of 35 cents each or 3/\$1. The number of pages is shown following the document title. Each microfiche card contains up to sixty (60) pages.

Educators in the following participating counties should initiate requests through the listed coordinating personnel.

ALAMEDADulcie Blume (415) 783-5800 x,372	RIVERSIDE Adrian N. Gentry (714) 787-6500
