ABSTRACT

This paper outlines an approach designed to provide an accurate and efficient cost accounting system for use in schools and other social service organizations. In his discussion, the author presents a detailed step-by-step description of how to establish, plan, and operate the system. The basic element of the system is the Daily Event Record (DEH), on which each staff member records how much time he devoted to different activities during the day. Appendix A contains a list of code numbers used on the DER to record different activities; Appendix B defines each of the activities represented by the code numbers; and Appendixes C. D. E. and P present samples of the DER and other forms designed to consolidate and summarize data from a number of individual DERs. (JG)

Documents acquired by ERIC include many informal unpublished materials not available from other sources. ERIC makes every effort to obtain the best copy available. Nevertheless, items of marginal \* reproducibility are often encountered and this affects the quality of the microfiche and hardcopy reproductions ERIC makes available via the ERIC Document Peproduction Service (PDFS). EDRS is not

\* responsible for the quality of the original document. Reproductions

supplied by EDRS are the best that can be made from the original.

### Preface

The field test efforts for the specific information contained in this paper should be credited to the staffs of the Fargo and West Fargo; N.D. Headstart. Their names are listed as follows for partial recognition. Without this staff, this paper would not be in existence.

Joan Whaley, Director Marcia Anderson, Teacher Julie Burt, Teacher Esther Larson, Teacher Sharon Rezac, Teacher Larcara Kasprick, Aide Diana Marks, Aide Dorotny Montplaisir, Aide Cheryl Stanley, Aide Fran Schindler, Teacher Aide Pennie Hatlestad, Language Specialist & Handicapped Resource Coordinator Kathleen Rudd, Language Specialist Julianne H. Littlefield, Paraprofessional (Handicapped) Lois Sorgen, Paraprofessional (Handicapped) Sharon Rlep, Tutor Donna Roserkranz, Parent Coordinator & Social Sérvice Aide Jean Hust, Van Driver Joan Marek, Cook Kathy Rasmussen, Cook Katherine L. Helgeland, Custodian Phoebe Tomlinson, Health Coordinator and Paraprofessional (Handicapped)

This paper outlines one approach which can provide accurate and efficient cost accounting. This in turn can provide true fiscal and program accountability. Many of the ideas in this paper should be credited to the work of Loung View Throggs MHC Bronx, New York, Westside MHC, San Francisco, Francie View MHC, Newton Kansas, Eastern Pennsylvania Psychiatric Institute and particularly the Southeast Mental Health and Retardation Center in Fargo, ND, and the staff of the SECAA - Headstart, Fargo and West Fargo, ND.

Accountability in this paper is viewed as the capacity to achieve effective and efficient results with a given expenditure of resources. It is an attempt to relate cost and benefit. In the development and implementation of this one approach to accountability the following elements were considered:

- 1. What service costs reflect the amount of service effort and resources expanded in behalf of specific individuals and groups under specific conditions.
- 2. How and where are resources utilized.
- 3. What tasks/activity/functions occur that constitute specific program components.
- 4. What information; data and relative costs are needed for administrative and programmatic decision making.
- 5. What information can rapidly recorded and tabulated.
- 6. How do we determine the number of people served.
- 7. How do we determine the number of people helped.
- 8. What data needs to be acquired to set standards and to measure performance against.
- 9. What data'is needed to determine resource requirements.
- 10. What will provide continuous flexible feedback system to staff .

  on time and resource utilizations.

### 11. What will provide a supervisory monitoring system.

The following steps outline the procedures on how to establish, plan and interpret one accountability system:

### CTLP 1 &

Identify "all" tasks, activities and events that consume staff or personnel time. Make this listing as extensive and detailed as possible. Once a listing is made classify individual tasks, activities and functions under "broad system categories" as found in the <a href="Code List and Coding">Code List and Coding</a> (Appendix A). The broad "bystem" categories may be divided into: 1) Systems Entry,

2) Direct Services, 3) Screening Assessment/Evaluation, 4) Intra-Organizational Services, 5) Community Services, 6) Nutrition Program and, 7) others deemed appropriate to a particular situation. The category codes, definitions and broad "systems" discussed in this paper were designed for and utilized by Headstart Centers but with minor modifications can be used in the public school, children's treatment centers, day care centers, etc...

### STEP 2:

Once activities, tasks and events are clearly delineated and grouped under a broad "system," they should be coded. The code numbering is arbitrary.

### STEP 3:

Once code numbers are assigned it is imperative that staff by concensus define each of the code categories (Appendix B for Definition of Activity/Tasks/
Functions Codes). This will allow all staff to utilize the same frame of reference for interpretation and consequently coding their Daily Event Record sheets (Appendix C).

### STEP 4

In order to collect the appropriate information and data, it's necessary that a Saily Lvent Record be used (Appendix C). In setting up the form, it should be made as simple as possible. It is suggested that the DER form found in Appendix C be used initially. It should be modified as deemed appropriate to meet specific needs.

### STEP 5:

When the DER is in an acceptable form it should be utilized as follows:

- 1. Consumer Name/Memorandum column: List the name of the person you had contact with (i.e., Jack Samuels) or the activity/task/function that you carried out (i.e., cleaned room, etc...). Notations should be as brief as possible.
- 2. Consumer No./other column: Indicate how many were involved in activity/task/function, i.e., 40 (talked to a Kiwanis group and 40 persons attended.)
  If a specific individual is mentioned, i.e., Jack Samuels, and he is in your program and he has a number assigned to him, list that number.
  If neither of these two broad functions are applicable, leave column blank.
- 3. Activity Code column: List the code number from the Code List most appropriate for the activity/task/function (i.e., write down I55 in this column if the activity was a parent meeting).
- 4. Duration column: Write down the closest "guess-timate" to within fifteen (15) minutes for the time invested in a given activity. You may "cluster" time into blocks to reduce the amount of recording and writing necessary (i.e., if you travelled, Code #360, 15 minutes in the morning and you travelled, tode #360, 15 minutes in the afternoon, cluster it and write down 30 minutes for Code #360.)

- A code number should be placed here reflecting specific location. Apy predetermined arbitrary number coding could be used (i.e., 1 for City X, ? for County Z, etc...).
- of retrieving detailed information about projects or types of services which cross the usual event category, organizational unit, etc....

  Suppose that someday you want to monitor everything you do in relation to identified handicapped children in your program. Such being the case you assign a special project number and make all staff aware of it. Now anytime anyone does anything with an identified handicapped child they use that number in addition to the other routine information.
  - 7. The upper portion of the DER should be completed as appropriate.

### STEP 6:

It is required that the DER be submitted on a daily basis and be as complete as possible. The DER; s should be given to an identified staff member of the organization who will then have the responsibility for collection, recording, tabulation and feedback activities. The assigned DER manager should at all times be responsible to upper management (i.e., principal in a school, director of Headstart program, etc.)

### STEP 7:

The following procedures should be considered for collection, recording, tabulating and feedback:

1. When DER's are received by the DER manager they should be sorted in akphabetical order, by department (if applicable) and by date.

- 2. If organization desires a detailed breakout report of all codes for each staff, DER data should be recorded on the Detailed Code-Individual Staff

  Analysis sheet (Appendix D.). Once complete, various tabulations can be made (1.e., totals for month by each code, totals, for each day of month, overall total, etc...).
- 3. If detailed analysis is done (#2 above), a composite across all staff \ should be made for purpose of feedback and composite analysis. This can be summarized on the Composite DER form (Appendix E).
- 4. The other option available is to use the Daily Report by Staff for tabulation if #2 is not desired (Appendix F.)
- 5. If analysis of Special Project codes are required, separate analysis need to be made.
- 6. It is suggested that all data be accurately transferred and tabulation be made using an adding machine or calculator.

### STEP 3:

Once above data is collated and tabulated, it should be duplicated in order to provide feedback to staff.

### STEP 9: ~

It is recommended that the first six month activity of such a system be utilized as a pilot. This will allow ample time in which to achieve sufficient baseline data on which to base future decisions regarding the efficacy of this accountability approach.

### STEP 10:

If programs have been collecting progress data on service recipients, one can, but with great caution, attempt to determine cost-benefit ratios. Details will be found in a future paper on Cost/Benefit Analysis.

### APPENDIX A

### Code List and Coding

## SYSTEM ENTRY (10 - 99) 10 Contact 20 Interview 30 Inquiry/Screening/Referral 40 Program Explanation to Potential Clients DIRECT SERVICES (100 - 199)100 Parent Conference 105 Parent/Pamily Counseling 110 Information and Referral '115 Home Visit 120 Collateral Interview 125 Instruction (Individual Child) 126 Instruction (small group of children 130 Instruction (Group of children) [13] 135 Instruction (Group of parents) ≥?; 136 Instruction (Individual Parent) 140 Observation (Child) 145 Observation (parent) 150 Meal time with children 155 Parent Meeting SCREENING/ASSESSMENT/EVALUATION (200 - .299)200 Pre-entry Screening (Individual) 210 Pre-entry Screening (Group) 215 Screening (Ińdivįdual) 220 Screening (Group) 225 Diagnostic Evaluation 230 Educational Achievement Evaluation 235 Speech/Language Evaluation 240 Hearing/Vision Evaluation .245 Physical Evaluation '250 Dențal Evaluation 255 Medical Followup 260 Dental Followup 265 Nutritional Evaluation 270 Teacher-made/criterion reference testing INTRA-ORGANIZATIONAL SERVICES . 330 Materials preparation (instructional) 300 Administrative meeting 331 Materials review (instructional) 305 Clinical meeting 332 Materials review/preparation (instructional) 310 Staff training/Education meeting 333 Curriculum Development 312 Discussion participation 335 Client related administration 315 Policy Council Meeting 340 Program related administration 320 Case conference 325 Program Planning 345 Supervision. 326 Program Evaluation 346 Meeting with supervisor

### DEFINITION FOR ACTIVITY/TASK/FUNCTIONS CODES

Entry eyetem (10-98)

to centaet: A face to face communication concerning whether programming on other types of advises are needed, available, appropriate,

\*\*O Interview: I face to face interaction cliciting detailed information necessary for system entrance. Usually of longer duration than inquiry/screening/referral. Basic demographic information is to be collected from these individuals. Individuals reaching this stage have a high probability of becoming eligible for program services.

30 Inquiry/Fareening/Referral: This may be by telephone, by site visit, by France ling to Information correspondence, and any other communication mode.

10. Project Explanation for Potential Clients:

Detailed program explanation to individuals who have completed Code 10 and 20. This precludes , immediate entrance into the program.

Direct Services (100-199)

130 Parent Conference: Face to face communication between parent and staff regarding any and all program components.

105 Parent/Family Counseling: Counseling applied to one or more members of the family. This may specifically include mother, spouse, children and other family members. The target of the counseling is the family constellation itself, and not simply the relationship of family members to a specific individual in the program.

ild Injermation and Referral: Provide appropriate information on direct services and if appropriate, provide the referral to other agencies and individuals which would provide appropriate services to a client and/or his family.

115 Home visit: Provide direct services through home visits. This may take the form of communication, education, counseling, etc.

120 Collateral interview: Contact with persons, relatives or collaborants who are significant members of the individual's constellation of relationships. The focus of the interview is on how the family member or collaborant can relate more helpfully to the specific individual.

126 Instruction (small group of Any type of instruction and/or treatment that children, 5 or less): • reflects small and mode to insignificant.

130 Instruction (group of children): Any group of instruction to six or more individuals.

138 Instruction (group of parents):

"Provide specific educational and/or treatment: services to two or more parents at one time:

ist instruction (individual parent): Provide education and/or treatment to one individual parent of child who is in program.

interpretation whildly the observation of a child for a period of time. This

• observation is to be recorded. Format appropriateness

determined by locales

14. Assertation (parent): Observation of the parent irregardless of the situational setting to be recorded and appropriately noted.

Situation designation significant.

lis Mestine with children: Time devoted to children during the primary function of mealtime whose objective is eating.

105 Pirent reeting: Organize meeting called to discuss and/or educate parents on specific issues.

Servenin 1/Assessment/Evaluation (200-299)

200 Pre-entry screening (individual): Individual screening prior to child's entrance into the program.

210 Pre-cettre screening (group): Screening of groups of children prior to entrance into the program.

"is Isreening (individual); Screening of individual children while they are in the program.

220 Screening (group): Screening of groups of children who are presently in the program.

SSS Diagnostic evaluation: An extensive evaluation to determine the strengths and weaknesses of child's functioning on which future programming can be implemented.

250 Educational achievement evaluation: Extensive assessment of child's educational achievement of child before, during and after program implementation.

335 Speech-language evaluation: Evaluating the speech and language abilities and deficits of children to assist in programming.

240 Hearing/vision evaluation: Evaluation of hearing and vision modalities to determine appropriate instructional modes.

345 Physical evaluation: Evaluate the physical functioning of child by a physician and/or other medically delegated individual

- 330 Haterials preparation (instructional): The preparation by staff of instructional materials to assist in the implementation of appropriate programs.
- 33! Materials review, instructional: Peview of potential instructional materials which may be considered as a learning activity and/or an employatory activity for adoption accomidenation.
- not the action of the ministration (increased in 1); Heview materials which have been propared to consider for instructional intlementation.
- The planning solution development: The planning, soundination and implementation of counties with sequences and/or scopes that are not presently in operation. This may also include the review of existing curricula for revision considerations.
- 33: Client related wirmistration: Peview of case raterials, preparation of appropriate records and other administration directly related to individuals being served by program.
- 3:1 Program related administration: The review of materials and preparation of appropriate records and other administration related directly, so program scope and sequence.
- Est Superdision: This category is to be used by supervisor to keep track of his/her time opent in conversation with staff members under his/her approximation and supervision. Content may involve review of performance and continuing negotiation of mutually acceptable tack definitions.
- The Westire with supervisor: Review of performance and continuing negotiation with one's supervisor of mutually acceptable tasks (the supervisee).
- 355 Writing: Distinguished from dictation in that writing involves activities associated with spreparation of speeches, papers for conference, projessional meeting, journal articles, grant proposals, etc.
- 355 Record keeping: Ongoing data maintenance for existing forms and/or records!
- 3.6 Brakkeping: The record keeping of fiscal accounts related to budget management,
- is Purchasing materials: The act of reviewing purchasing options and carry out the act of purchase.
- 380 Local travel: Program-related travel locally.
- (Fl Guz of area travel. All travel outside of geographically defined area to which trooprom is providing services.

LES tental evaluation: Evaluate child's teeth and gums and recommend appropriate follow up action.

The Malical follow-up: Follow-up check on recommendations as a result of observations and physical evoluations.

10 1 + 12 1 1 1 1-11: I flow-up that have don recommendations of dental evaluation

11. True is not a relation: Acres food intake, its quality, contents, and body's recover.

271 Teacher made sriterion reference testing: Ongoing assessment designed and implemented by teacher for specific goals and objectives of day to day programming.

Intra-organizational services (300-399)

330 Administrative reeting: A meeting primarily for communication which pertains to departmental and/or institutional maintenance.

315 Ilinical meeting: Meeting primarily for communication pertaining to mical maintenance of individuals and/or groups and/on the faces.

In-service training/education meeting: In-service training experience specifically established for teaching purposes aimed at improving staff skills and competence.

May involve orientation of new staff members to various program activities and functions.

311 Discussion participation: Staff participation with other organizational staff in a situation established for sharing information and ideas around non-administratively related subjects.

315 Policy eduncil meeting: Time devoted to all the interaction's occurring at recognized policy council meetings.

320 Jace conference: A discussion involving two or more program staff persons during which the case of a particular individual or elient is of concern.

322 Frogram planning: Preparation and establishment of program objectives, preparing materials and presentations.

\*320 Program evaluation: Process of reviewing and evaluating program goals and accomplishments through quantitative and qualitative methods.

327 Research planning: Coordination and implementation of activities designated as research which are based on a predetermined systematic research design.

362 Sick leave: Absence from work because of illness.

363 Annual leave/vocation: Absence from work on pre-arranged vacation.

36: Professional leave: Absence from work to engage in some pre-arranged jobrelated activity such as professional meetings, professional
growth experiences, professional conventions, and other
proviously approved activities.

305 Stier Source times. To be specified

386 Ither intra-organizational services: To be specified in memorandum column.

368 Foom elean up: All activities related to cleaning up the instructional/, treatment space.

Cormunity Services (400-499)

400 Client-sentered consultation: Discussion with another professional and/or person regarding the disposition of a program member's status.

ice mediant-related consultation: This activity covers a wide range of non-client related consultation and education as is conducted by the program staff for the growth and development of people from outside the program. This activity is usually sponsored by another agency.

41) Fublic information dissemination: A one way educational process of importing .

knowledge to and changing attitudes of the general public. It includes speeches and lectures, both planned, educational campaigns, and routine responses to requests of information.

420 Collaboration with other professionals: Interaction and/or collaboration with other professionals on specific tasks that are non-client related.

425 Meeting with visitors: To be used to indicate participation in hosting or relating to a consultant or guest who is a visitor to the program.

430 Same as 425 but applies only to consultants.

43: Technical assistance/training: Provide specific training and technical assistance that is determined by prearranged contractual arrangement outlining all objectives, procedures and evaluation activities.

440 Student supervision: Supervise students who are providing volunteer service or are meeting practicum and/or internship experiences.

445 Materials preparation: Preparation of materials for activities related to community service that is not specifically programed/education/treatment oriented.

ERIC Full Text Provided by ERIC

- 400 Inginizational meetings: Participation in organizational meetings occurring in the community which directly afffect program.
- 45% Sther community service: FAIL other services not covered by the above codes.

Nutrition Program (506-500)

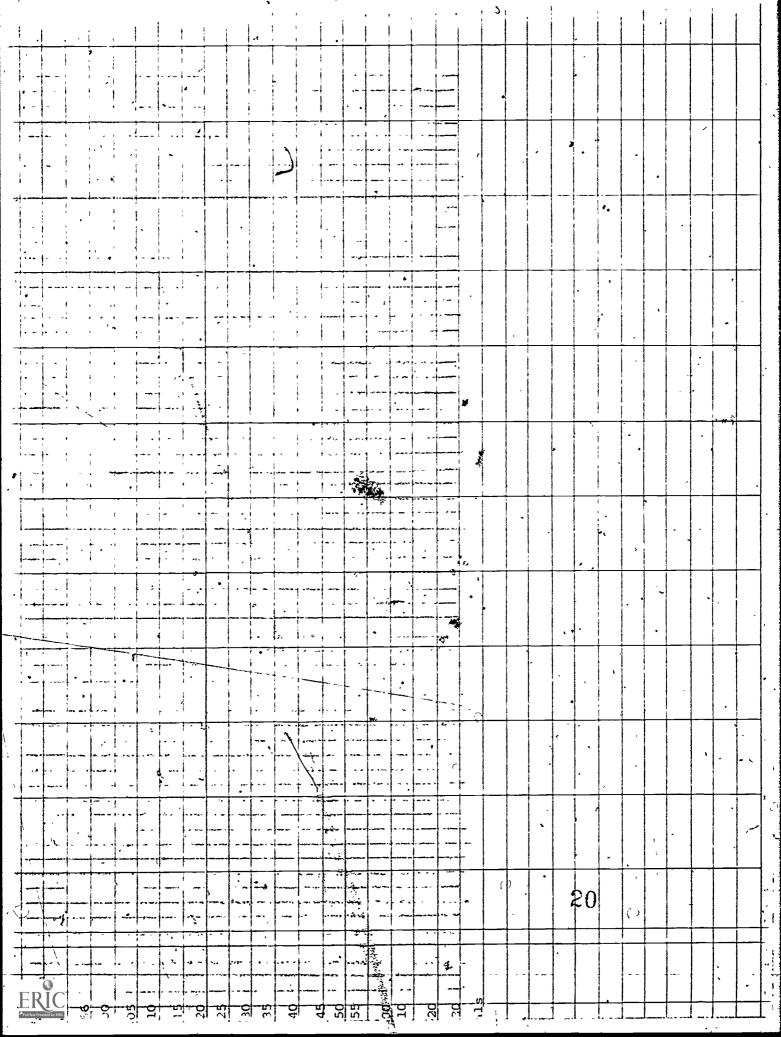

- 100 Sute Wine flancing waluation (or 15-emplanatory).
- 510 Foci jurchasing (celf-explanatory).
- ESS Food preparation (self-explanatory).
- .530 Clean up: All tasks and clean up activities pertaining to the nutrition program.
