TAXATION - PENALTIES FOR DELINQUENT
TAXES - TAX CREDIT

Section 1. In any county, city, or district in which the tax assessor-collector fails to issue notices of the amount of the tax due before the first day of February of the year following the tax year, penalties for delinquent taxes shall be assessed as prescribed by Chapter 221, Acts of the 62nd Legislature, Regular Session, 1971, as amended (Article 7100, Revised Civil Statutes of Texas, 1925), and Article 7336, Revised Civil Statutes of Texas, 1925, as amended.

Section 2. When determining the amount of the tax due for a tax year within two years immediately following the tax year for which the assessor-collector failed to issue timely notice, the assessor-collector shall allow a tax credit equal to the amount of the penalty assessed, provided that:

(1) the full amount of taxes owing and due was paid within 60 days after issuance of the tax notice by the assessor-collector and

(2) the property for which the credit is given is legally identical to the property on which the taxes and penalties were paid. "Legally identical" refers to property having the same legal description in terms of metes and bounds, lot and block number, or other description appearing on the tax notice, but does not refer to any change in the record owner of the property.

Section 3. This Act does not apply to any penalties accruing on taxes which became delinquent after January 31, 1973, or prior to January 31, 1970.

Section 4. The importance of this legislation and the crowded condition of the calendars in both houses create an emergency and an imperative public necessity that the constitutional rule requiring bills to be read on three several days in each house be suspended, and this rule is hereby suspended, and that this Act take effect and be in force from and after its passage, and it is so enacted.

Effective: March 22, 1973

BILINGUAL EDUCATION PROGRAMS

Section 1. Chapter 21, Texas Education Code, is amended by adding Subchapter L to read as follows:

"SUBCHAPTER L. BILINGUAL EDUCATION

"Section 21.451. STATE POLICY. The legislature finds that there are large numbers of children in the state who come from environments where the primary language is other than English. Experience has shown that public school classes in which instruction is given only in English are often inadequate for the education of children whose native tongue is another language. The legislature believes that a compensatory program of bilingual education can meet the needs of these children and facilitate their integration into the regular school curriculum. Therefore, pursuant to the policy of the state to insure equal educational opportunity to every child, and in recognition of the educational needs of children of limited English-speaking ability, it is the purpose of this subchapter to provide for the establishment of bilingual education programs in the public schools and to provide supplemental financial assistance to help local school districts meet the extra costs of the programs.

"Section 21.452. DEFINITIONS. In this subchapter the following words have the indicated meanings:

"(1) 'Agency' means the Central Education Agency.

"(2) 'Board' means the governing board of a school district.

"(3) 'Children of limited English-speaking ability' means children whose native tongue is a language other than English and who have difficulty performing ordinary classwork in English.

"Section 21.453. ESTABLISHMENT OF BILINGUAL PROGRAMS.

"(a) The governing board of each school district shall determine not later than the first day of March, under regulations prescribed by the State Board of Education, the number of school-age children of limited English-speaking ability within the district and shall classify them according to the language in which they possess a primary speaking ability.

"(b) Beginning with the 1974-75 scholastic year, each school district which has an enrollment of 20 or more children of limited English-speaking ability in any language classification in the same grade level during the preceding scholastic year, and which does not have a program of bilingual instruction which accomplishes the state policy set out in Section 21.451 of this Act, shall institute a program of bilingual instruction for the children in each language classification commencing in the first grade, and shall increase the program by one grade each year until bilingual instruction is offered in each grade up to the sixth. The board may establish a program with respect to a language classification with less than 20 children.

"Section 21.454. PROGRAM CONTENT; METHOD OF INSTRUCTION.

"(a) The bilingual education program established by a school district shall be a full-time program of instruction (1) in all subjects required by law or by the school district, which shall be given in the native language of the children of limited English-speaking ability who are enrolled in the program, and in the English language; (2) in the comprehension, speaking, reading, and writing of the native language of the children of limited English-speaking ability who are enrolled in the program, and in the comprehension, speaking, reading, and writing of the English language; and (3) in the history and culture associated with the native language of the children of limited English-speaking ability who are enrolled in the program, and in the history and culture of the United States.

"(b) In predominantly nonverbal subjects, such as art, music, and physical education, children of limited English-speaking ability shall participate fully with their English-speaking contemporaries in regular classes provided in the subjects.

"(c) Elective courses included in the curriculum may be taught in a language other than English.

"(d) Each school district shall insure to children enrolled in the program a meaningful opportunity to participate fully with other children in all extracurricular activities.

"Section 21.455. ENROLLMENT OF CHILDREN IN PROGRAM.

"(a) Every school-age child of limited English-speaking ability residing within a school district required to provide a bilingual program for his classification shall be enrolled in the program for a period of three years or until he achieves a level of English language proficiency which will enable him to perform successfully in classes in which instruction is given only in English, whichever first occurs.

"(b) A child of limited English-speaking ability enrolled in a program of bilingual education may continue in that program for a period longer than three years with the approval of the school district and the child's parents or legal guardian.

"(c) No school district may transfer a child of limited English-speaking ability out of a program in bilingual education prior to his third year of enrollment in the program unless the parents of the child approve the transfer in writing, and unless the child has received a score on an examination which, in the determination of the agency, reflects a level of English language skills appropriate to his or her grade level. If later evidence suggests that a child who has been transferred is still handicapped by an inadequate command of English, he may be re-enrolled in the program for a length of time equal to that which remained at the time he was transferred.

"(d) No later than 10 days after the enrollment of a child in a program in bilingual education the school district shall notify the parents or legal guardian of the child that the child has been enrolled in the program. The notice shall be in writing in English, and in language of which the child of the parents possesses a primary speaking ability.

"Section 21.456. FACILITIES; CLASSES. (a) Programs in bilingual education, whenever possible, shall be located in the regular public schools of the district rather than in separate facilities.

"(b) Children enrolled in the program, whenever possible, shall be placed in classes with other children of approximately the same age and level of educational attainment. If children of different age groups or educational levels are combined, the school district shall insure that the instruction given each child is appropriate to his or her level of educational attainment, and the district shall keep adequate records of the educational level and progress of each child enrolled in the program.

"(c) The maximum student-teacher ratio shall be set by the agency and shall reflect the special educational needs of children enrolled in programs of bilingual education.

"Section 21.457. COOPERATION AMONG DISTRICTS. (a) A school district may join with any other district or districts to provide the programs in bilingual education required or permitted by this subchapter. The availability of the programs shall be publicized throughout the affected districts.

"(b) A school district may allow a nonresident child of limited English-speaking ability to enroll in or attend its program in bilingual education, and the tuition for the child shall be paid by the district in which the child resides.

"Section 21.458. PRESCHOOL AND SUMMER SCHOOL PROGRAMS. A school district may establish on a full- or part-time basis preschool or summer school programs in bilingual education for children of limited English-speaking ability, and may join with other districts in establishing the programs. The preschool or summer programs shall not be a substitute for programs required to be provided during the regular school year.

"Section 21.459. BILINGUAL EDUCATION TEACHERS. (a) The State Board of Education shall promulgate rules and regulations governing the issuance of teaching certificates with bilingual education endorsements to teachers who possess a speaking and reading ability in a language other than English in which bilingual education programs are offered and who meet the general requirements set out in Chapter 13 of this code.

"(b) The minimum monthly base pay and increments for teaching experience for a bilingual education teacher are the same as for a classroom teacher with an equivalent degree under the Texas State Public Education Compensation Plan. The minimum annual salary for a bilingual education teacher is the monthly base salary, plus increments, multiplied by 10, 11, or 12, as applicable.

"Section 21.460. ALLOTMENTS FOR OPERATIONAL EXPENSES AND TRANSPORTATION: (a) To each school district operating an approved bilingual education program there shall be allotted a special allowance in an amount to be determined by the agency for pupil evaluation, books, instructional media, and other supplies required for quality instruction.

"(b) The cost of transporting bilingual education students from one campus to another within a district or from a sending district to an area vocational school or to an approved post-secondary institution under a contract for instruction approved by the Central Education Agency shall be reimbursed based on the number or actual miles traveled times the district's official extracurricular travel per mile rate as set by their local board of trustees and approved by the Central Education Agency.

"(c) The Foundation School Fund Budget Committee shall consider all amounts required for the operation of bilingual education programs in estimating the funds needed for purposes of the Foundation School Program.

WORKMEN'S COMPENSATION - BENEFITS - PRIVATE
AND GOVERNMENTAL EMPLOYEES

Section 1. Section 2. Article 8306, Revised Civil Statutes of Texas, 1925, as amended, is amended to read as follows:

"Section 2. The provisions of this law shall not apply to actions to recover damages for personal injuries nor for death resulting from personal injuries sustained by domestic servants or casual employees engaged in employment incidental to a personal residence, farm laborers, ranch laborers, nor to the employees of any person, firm or corporation operating any steam, electric, street, or interurban railway as a common carrier."

Section 2. Section 7. Article 8306, Revised Civil Statutes of Texas, 1925, as amended, is amended to read as follows:

"Section 7. The employee shall have the sole right to select or choose the persons or facilities to furnish medical aid, chiropractic services, hospital services, and nursing and the association shall be obligated for same or, alternatively, at the employee's option, the association shall furnish such medical aid, hospital services, nursing, chiropractic services, and medicines as may reasonably be required at the time of the injury and at any time thereafter to cure and relieve from the effects naturally resulting from the injury. Such treatment shall include treatments necessary to physical rehabilitation, including proper fitting and training in the use of prosthetic appliances, for such period as the nature of the injury may require or as necessary to reasonably restore the employee to his normal level of physical capacity or as necessary to give reasonable relief from pain, but shall not include any other phase of vocational rehabilitation. The obligation of the association to be responsible for hospital services as herein provided shall not be held to include any obligation on the part of the association to pay for medical, nursing or surgical services not ordinarily provided by hospitals as a part of their services.

"Upon receipt thereof, the Board shall promptly analyze each notice of injury incurred by an injured employee covered under this law. If the Board concludes that vocational rehabilitation is indicated in any such case, it immediately shall take the necessary steps to inform the injured employee of the services and facilities available to him under the Texas Rehabilitation Commission and the Board immediately shall notify said Commission of such case. In each such case recommendation of services and facilities shall be made after consultation by the Board with the physician or chiropractor furnishing medical aid or chiropractic services as required by this Section, who shall retain

general supervision of treatment of the injured employee and, should the employee request it, the Board shall consult with a physician or chiropractor specially trained in such treatment. The Board shall co-operate with said Texas Rehabilitation Commission with reference to the work of said Commission in providing said services and facilities to injured employees covered under the provisions of this law.

"Provided that any physician or chiropractor rendering medical or chiropractic care to any injured workman shall render an initial report as soon as practical identifying the injured workman and stating the nature and extent of the injury and thereafter shall render subsequent reports reasonably necessary to keep the status of the claimant's condition known. The reports are to be made to the Industrial Accident Board, the association, and the injured workman. The failure of the physician or chiropractor to make such reports shall relieve the association and the injured workman from any obligation to pay for the services rendered by the physician or chiropractor."

Section 3. Section 7a, Article 8306, Revised Civil Statutes of Texas, 1925, as amended, is amended to read as follows:

"Section 7a. If it be shown that the employee is receiving medical aid, hospital services, chiropractic services, and medicines provided for by Section 7 hereof in such manner that there is reasonable ground for believing that the life, health or recovery of the employee is being endangered or impaired thereby, the Board may order a change in the physician, chiropractor or other requirements of said section after holding a hearing on the change. If the employee fails promptly to comply with such order after receiving it, the Board may relieve the association from its responsibility to pay for or alternatively furnish medical aid, hospital services, chiropractic services, and medicines until such time as the employee complies with the order of the Board."

Section 4. Section 8, Article 8306, Revised Civil Statutes of Texas, 1925, as amended, is amended to read as follows:

"Section 8. (a) If death results from the injury, the association shall pay the legal beneficiaries of the deceased employee a weekly payment equal to sixty-six and two-thirds per cent (66-2/3%) of the employee's average weekly wage, but not less than the minimum weekly benefit nor more than the maximum weekly benefit set forth in Section 29 of this article.

"(b) The weekly benefits payable to the widow or widower of a deceased employee shall be continued until the death or remarriage of the beneficiary. In the event of remarriage a lump sum payment equal in amount to the benefits due for a period of two (2) years shall be paid to the widow or widower. The weekly benefits payable to a child shall be continued until the child reaches eighteen (18) years of age, or beyond such age if actually dependent, or until twenty-five (25) years of age if enrolled as a full-time student in any accredited educational institution. All other legal beneficiaries are entitled to weekly benefits for a period of three hundred and sixty (360) weeks.

"(c) Upon the termination of the eligibility of any child to receive benefits, the portion of compensation paid to such child shall thereafter be

paid to any remaining child or children entitled to benefits under the provisions of this Act. If there is no other eligible child then such benefits shall be added to those being paid to the surviving spouse entitled to receive benefits under the provisions of this Act.

"(d) The benefits payable to a widow, widower, or children under this section shall not be paid in a lump sum except in events of remarriage or in case of bona fide disputes as to the liability of the association for the death. Any settlement of a disputed case shall be approved by the board or court only upon an express finding that a bona fide dispute exists as to such liability.

"Upon settlement of all cases where the carrier admits liability for the death but a dispute exists as to the proper beneficiary or beneficiaries, the settlement shall be paid in periodic payments as provided by the law, with a reasonable attorney's fee not to exceed twenty-five per cent (25%) of the settlement. The attorney's fee shall be paid periodically and not in a lump sum."

Section 5. Section 10, Article 8306, Revised Civil Statutes of Texas, 1925, as amended, is amended to read as follows:

"Section 10. While the incapacity for work resulting from the injury is total, the association shall pay the injured employee a weekly compensation equal to sixty-six and two-thirds per cent (66-2/3%) of his average weekly wages, but not more than the maximum weekly benefit nor less than the minimum weekly benefit set forth in Section 29 of this article, and in no case shall the period covered by such compensation be greater than four hundred and one (401) weeks from the date of injury."

Section 6. Section 11, Article 8306, Revised Civil Statutes of Texas, 1925, as amended, is amended to read as follows:

"Section 11. While the incapacity for work resulting from the injury is partial, the association shall pay the injured employee a weekly compensation equal to sixty-six and two-thirds per cent of the difference between his average weekly wages before the injury and his average weekly wage earning capacity during the existence of such partial incapacity, but in no case more than the maximum weekly benefit set forth in Section 29 of this article. The period covered by such compensation shall be in no case greater than three hundred (300) weeks; provided that in no case shall the period of compensation for total and partial incapacity exceed four hundred and one (401) weeks from the date of injury. Compensation for all partial incapacity resulting from a general injury shall be computed in the manner provided in this Section, and shall not be computed on a basis of a percentage of disability."

"The loss of the third or distal phalange of any finger shall be considered to be equal to the loss of one-third ($1/3$) of such finger.

"The loss of more than the middle and distal phalange of any finger shall be considered to be equal to the loss of the whole finger, provided that in no case shall the amount received for the loss of a thumb and more than one (1) finger on the same hand exceed the amount provided in this schedule for the loss of a hand.

"For the loss of the metacarpal bone (bone or palm) for the corresponding thumb, finger or fingers above, add ten (10) weeks to the number of weeks as above subject to the limitation that in no case shall the amount received for the loss or injury to any one (1) hand be more than for the loss of the hand.

"For ankylosis (total stiffness of) or contracture (due to scars or injuries) which make the fingers useless, the same number of weeks shall apply to such finger or fingers or parts of fingers (not thumb) as given above.

"For the loss of a hand, sixty-six and two-thirds per cent ($66\frac{2}{3}\%$) of the average weekly wage during one hundred and fifty (150) weeks.

"For the loss of the great toe, sixty-six and two-thirds per cent (66-2/3%) of the average weekly wages during thirty (30) weeks.

"The loss of more than two-thirds of any toe shall be considered to be equal to the loss of the whole toe.

"The loss of less than two-thirds of any toe shall be considered to be equal to the loss of one-half (1/2) of the toe.

"For the loss of a foot, sixty-six and two-thirds per cent (66-2/3%) of the average weekly wages during one hundred and twenty-five (125) weeks.

"For the loss of a leg, at or above the knee, sixty-six and two-thirds per cent (66-2/3%) of the average weekly wages during two hundred (200) weeks.

"For the total and permanent loss of the sight of one (1) eye, sixty-six and two-thirds per cent (66-2/3%) of the average weekly wages during one hundred (100) weeks.

"Where the employee sustains concurrent injuries resulting in concurrent incapacities, he shall receive compensation only for the injury which produces the longest period of incapacity; but this Section shall not affect liability for the concurrent loss or the loss of the use thereof of more than one (1) member, for which member compensation is provided in this schedule, compensation for specific injuries under this law shall be cumulative as to time and not concurrent.

"In all cases of permanent partial incapacity it shall be considered that the permanent loss of the use of the member is equivalent to, and shall draw

the same compensation as the loss of that member; but the compensation in and by said schedule provided shall be in lieu of all other compensation in such cases.

"In all other cases of partial incapacity, including any disfigurement which will impair the future usefulness or occupational opportunities of the injured employee, compensation shall be determined according to the percentage of incapacity, taking into account among other things any previous incapacity, the nature of the physical injury or disfigurement, the occupation of the injured employee, and the age at the time of the injury. The compensation paid therefor shall be calculated by first determining a basic figure amounting to sixty-six and two-thirds per cent (66-2/3%) of the average weekly wages of the employee, but which basic figure shall not exceed the maximum weekly benefit set forth in Section 29 of this article; such basic figure shall then be multiplied by the percentage of incapacity caused by the injury, and the result shall be the weekly compensation which shall be paid for such period not exceeding three hundred (300) weeks as the Board may determine. Whenever the weekly payments under this paragraph would be less than Three Dollars (\$3) per week, the period may be shortened, and the payments correspondingly increased by the Board."

Section 9. The Insurance Code, as amended, is amended by adding Article 5.76-1 to read as follows:

"Article 5.76-1. ACCIDENT PREVENTION SERVICES

for a license to write such insurance. Such facilities shall be adequate to furnish accident prevention services required by the nature of its policyholder's operations and shall include surveys, recommendations, training programs, consultations, analyses of accident causes, industrial hygiene and industrial health services, to implement the program of accident prevention services. Each field safety representative shall be either a college graduate who shall have a bachelor's degree in science or engineering, a registered professional engineer, a certified safety professional, a certified industrial hygienist, an individual with ten (10) years experience in occupational safety and health, or an individual who shall have completed a course of training in accident prevention services approved by the State Board of Insurance.

"(b) The insurer shall render accident prevention services to its policyholders reasonably commensurate with the risks and exposures and experience of the subscriber's business. To provide such facilities, the insurer may employ qualified personnel, retain qualified independent contractors, contract with the policyholder to provide qualified accident prevention personnel and services, or use a combination of the methods enumerated in this subsection. Such personnel shall have the qualification required for field safety representatives as provided in Subsection (a).

"(c) If the Commissioner of Insurance shall determine that reasonable accident prevention services are not being maintained or provided by the insurer or are not being used by the insurer in a reasonable manner to prevent injury to employees of its policyholders, the fact shall be reported to the State Board of Insurance, and the Board shall order a hearing to determine if the insurer is not in compliance with this Article. If it is determined that the insurer is not in compliance, its license to write workmen's compensation insurance in Texas shall be revoked.

"(d) The State Board of Insurance may promulgate reasonable rules and regulations for the enforcement of this Article after holding a public hearing on the proposed rules and regulations."

Section 10. Section 6a, Article 8307, Revised Civil Statutes of Texas, 1925, as amended, is amended to read as follows:

"Section 6a. Where the injury for which compensation is payable under this law was caused under circumstances creating a legal liability in some person other than the subscriber to pay damages in respect thereof, the employee may proceed either at law against that person to recover damages, or against the association for compensation under this law, and if he proceeds at law against the person other than the subscriber, then he shall not be held to have waived his rights to compensation under this law. If the claimant is a beneficiary under the death benefits provisions of Section 8a, Article 8306, Revised Civil Statutes of Texas, 1925, as amended, a judgment shall not constitute an election but the amount of such recovery shall first pay costs and attorney's fees and then reimburse the association, and if there be any excess it shall be paid to the beneficiaries in the same ratio as they received death benefits and the association shall suspend further payments of benefits until the suspended benefits shall equal the amount of such excess at which time benefits shall be resumed. If compensation be

claimed under this law by the injured employee or his legal beneficiaries, then the association shall be subrogated to the rights of the injured employee, and may enforce in the name of the injured employee or of his legal beneficiaries the liability of said other person, and in case the recovery is for a sum greater than that paid or assumed by the association to the employee or his legal beneficiaries, then out of the sum so recovered the association shall reimburse itself and pay said costs and the excess so recovered shall be paid to the injured employee or his beneficiaries. However, when the claimant is represented by an attorney, and the association's interest is not actively represented by an attorney, the association shall pay such fee to the claimant's attorney not to exceed one-third (1/3) of said subrogation recovery or as may have been agreed upon between the claimant's attorney and the association or in the absence of such agreement the court shall allow a reasonable attorney's fee to the claimant's attorney for recovery of the association's interest which in no case shall exceed thirty-three and one-third per cent (33-1/3%) payable out of the association's part of the recovery. In any case where the claimant's attorney is also representing the subrogated association, a full written disclosure must be made to the claimant, prior to actual employment by the association as an attorney, and acknowledged by the claimant, and a signed copy of the same furnished to all concerned parties and made a part of the file in the Industrial Accident Board. A copy of the disclosure with authorization and consent, shall also be filed with the claimant's pleadings prior to any judgment entered and approved by the court. Unless the claimant's attorney complies with all of the requirements as prescribed in this section, the attorney shall not be entitled to receive any of the fees prescribed in this section to which he would be entitled pursuant to an agreement with the association.

"If the association obtains an attorney to actively represent its interest and if the attorney actively participates in obtaining a recovery, the court shall award and apportion an attorney's fee allowable out of the association's subrogation recovery between such attorneys taking into account the benefit accruing to the association as a result of each attorney's service, the aggregate of such fees not to exceed thirty-three and one-third per cent (33-1/3%) of the subrogated interest.

"If at the conclusion of a third party action a workmen's compensation beneficiary is entitled to compensation, the net amount recovered by such beneficiary from the third party action shall be applied to reimburse the association for past benefits and medical expenses paid and any amount in excess of past benefits and medical expenses shall be treated as an advance against future benefit payments of compensation to which the beneficiary is entitled to receive under the Act. When the advance is adequate to cover all future compensation and medical benefit payments as provided by this law, no further payments shall be made by the association but if insufficient, the association shall resume such payments when the advance is exhausted. The reasonable and necessary medical expenses incurred by the claimant on account of the injury shall be deducted from the advance in the same manner as benefit payments."

Section 11. Section 1a, Article 8309, Revised Civil Statutes of Texas, 1925, as amended, is amended to read as follows:

Notwithstanding any other provision of this law, a subscriber may cover in its insurance contract a partner, a sole proprietor, or a corporate executive officer, except an officer of a state educational institution. The insurance contract shall specifically include the partner, sole proprietor, or corporate executive officer; and the elected coverage shall continue while the policy is in effect and while the named individual is employed by a subscriber."

Art. 6701b

COMPARATIVE NEGLIGENCE - CONTRIBUTION
AMONG JOINT TORT-FEASORS

Section 1. MODIFIED COMPARATIVE NEGLIGENCE. Contributory negligence shall not bar recovery in an action by any person or party or the legal representative of any person or party to recover damages for negligence resulting in death or injury to persons or property if such negligence is not greater than the negligence of the person or party or persons or parties against whom recovery is sought, but any damages allowed shall be diminished in proportion to the amount of negligence attributed to the person or party recovering.

Section 2. CONTRIBUTION AMONG JOINT TORT-FEASORS. (a) In this section:

(1) "Claimant" means any party seeking relief, whether he is a plaintiff, counterclaimant, or cross-claimant.

(2) "Defendant" includes any party from whom a claimant seeks relief.

(b) In a case in which there is more than one defendant, and the claimant's negligence does not exceed the total negligence of all defendants, contribution to the damages awarded to the claimant shall be in proportion to the percentage of negligence attributable to each defendant.

(c) Each defendant is jointly and severally liable for the entire amount of the judgment awarded the claimant, except that a defendant whose negligence is less than that of the claimant is liable to the claimant only for that portion of the judgment which represents the percentage of negligence attributable to him.

(d) If an alleged joint tort-feasor pays an amount to a claimant in settlement, but is never joined as a party defendant, or having been joined, is dismissed or nonsuited after settlement with the claimant (for which reason

the existence and amount of his negligence are not submitted to the jury), each defendant is entitled to deduct from the amount for which he is liable to the claimant a percentage of the amount of the settlement based on the relationship the defendant's own negligence bears to the total negligence of all defendants.

(e) If an alleged joint tort-feasor makes a settlement with a claimant but nevertheless is joined as a party defendant at the time of the submission of the case to the jury (so that the existence and amount of his negligence are submitted to the jury) and his percentage of negligence is found by the jury, the settlement is a complete release of the portion of the judgment attributable to the percentage of negligence found on the part of that joint tort-feasor.

(f) If the application of the rules contained in Subsections (a) through (e) of this section results in two claimants being liable to each other in damages, the claimant who is liable for the greater amount of damages, the claimant who is liable for the greater amount is entitled to a credit toward his liability in the amount of damages owed him by the other claimant.

(g) All claims for contribution between named defendants in the primary suite shall be determined in the primary suit, except that a named defendant may proceed against a person not a party to the primary suit who has not effected a settlement with the claimant.

(h) This section prevails over Article 2212, Revised Civil Statutes of Texas, 1925, and all other laws to the extend of any conflict.

Section 3. Section 1, Chapter 225, Acts of the 42nd Legislature, Regular Session, 1931 (Article 6701b, Vernon's Texas Civil Statutes), is amended to read as follows:

"Section 1. (a) No person who is related within the second degree of consanguinity or affinity to the owner or operator of a motor vehicle and who is being transported over the public highways of this State by the owner or operator of the (a) motor vehicle as his guest without payment for such transportation, shall have a cause of action for damages against such owner or operator for injuries, death or loss, in case of accident, unless such accident shall have been intentional on the part of said owner or operator, or caused by his heedlessness or his reckless disregard of the rights of others. There shall be no such immunity for an owner or operator who is not so related to the guest.

"(b) Nothing in this Act affects any judicially-developed and developing rules under which a person is or is not totally or partially immune from tort liability to another by virtue of a family relationship.

"(c) When any liability claim is made by a guest against the owner or operator or his liability insurance carrier, the owner or operator or his liability insurance carrier shall be entitled to an offset, credit, or deduction against any award made to such guest in an amount of money equal to the amounts paid by the owner, operator or his automobile liability insurance ~~carrier for medical expenses of such guest; provided, however, that nothing~~

herein shall be construed to authorize a direct action against a liability insurance company if such right does not presently exist at law."

Section 4. SAVING CLAUSE. This Act does not apply to any cause of action arising before its effective date.

Section 5. SEVERABILITY CLAUSE. If any provision of this Act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the Act which can be given effect without the invalid provision or application, and to this end the provisions of this Act are declared to be severable.

Section 6. EFFECTIVE DATE. This Act takes effect on September 1, 1973.

Section 7. EMERGENCY. The importance of this legislation and the crowded condition of the calendars in both houses create an emergency and an imperative public necessity that the constitutional rule requiring bills to be read on three several days in each house be suspended, and this rule is hereby suspended.

House Bill No. 206
Art. 2783d

INDEPENDENT SCHOOL DISTRICTS SEPARATED FROM MUNICIPAL
CONTROL - CITIES OF 290,000 OR MORE - BOARD OF TRUSTEES

Section 1. Subject to the provisions of Section 3 of this Act, Section 6, Chapter 171, Acts of the 50th Legislature, Regular Session, 1947, as amended (Article 2783d, Vernon's Texas Civil Statutes), is amended to read as follows:

"Section 6. (a) Each such independent school district, after separation from municipal control, shall be divided into nine (9) single member trustee districts ('Trustee Districts'), each such Trustee District to be composed of a contiguous and compact territory and all Trustee Districts to contain as nearly as may be practicable an equal number of inhabitants. Each Trustee

District shall be entitled to elect one member to the Board of Education or Board of Trustees (the 'Board') of each such independent school district.

"(b) No later than ninety (90) days before the first election after this Section becomes effective, and no later than ninety (90) days before each next succeeding election after the publication of each United States decennial census, the Board shall apportion and district or redistrict such independent school district to conform to the requirements of subsection (a), next above.

"(c) The Board of each such independent school district shall consist of nine (9) members, and the members thereof shall be chosen, respectively, by the duly qualified electors residing in the respective Trustee Districts required by this Section 6. Except as provided below, members shall be elected for staggered terms of four (4) years. All members of the Board shall serve until their successors have been elected and qualified. All elections under this section shall be held in odd-numbered years except the first, which shall be held in 1974. In 1974, all members of the Board shall be elected from Trustee Districts drawn on the 1970 federal census, and all members so elected shall serve for terms expiring in 1977. The nine (9) members elected in 1977 shall draw lots numbered from one (1) to nine (9). Those members drawing odd-numbered lots shall serve for terms expiring in 1979 and those members drawing even-numbered lots shall serve for terms expiring in 1981. At the first election following the redistricting required after the 1980 federal census and each succeeding federal census, a new Board shall be elected and the members shall draw lots in the manner specified above. Members drawing odd-numbered lots shall serve for terms of two (2) years and members drawing even-numbered lots shall serve for terms of four (4) years. Thereafter four (4) or five (5) members shall be chosen biennially for terms of four (4) years.

"(d) For the first election held under this Section, it shall not be necessary that a person be a resident within the Trustee District from which he seeks to be elected. However, it is hereby required that all persons elected shall reside and have their permanent place of residence within the Trustee District from which elected within not more than ninety (90) days after the date of the canvass of the returns of said election, or within sixty (60) days after the termination of judicial proceedings in the event of any contest for the office of trustee. For all subsequent elections, residence within the Trustee District from which a person seeks to be a candidate at the time of filing for office shall be a prerequisite to filing. Removal from the Trustee District from which elected during the term for which elected, or failure to move therein after the first election as herein required, shall constitute a vacation of office by the removing or failing trustee. In case of a vacancy caused by death or resignation or removal from or failure to move into the Trustee District from which such member is elected, the remaining members of the Board shall select a suitable person residing in the applicable Trustee District to fill the unexpired term of the vacating, resigning or deceased member, who shall serve until the next biennial election, and if the term has not expired a person shall be elected for the remaining unexpired term of the vacating, resigning or deceased member; otherwise, for a full term of four (4) years.

"(e) All elections held under this Section shall be held on the first Tuesday in April of the year in which the same is required to be held hereunder, beginning with the first election under this Section. Except for the first election, this election date shall coincide with the election date of city officers of the largest city within which the school district is wholly or partly located, and the elections shall be conducted jointly in these city precincts located within the district. The boards or bodies charged with the duty of appointing the election officers, providing the supplies, canvassing the returns, and paying the expenses of such elections shall agree upon the method for allocating the expenses for the joint election. Resolutions reciting the terms of the agreement shall be adopted by each of the participating boards or bodies. The agreement may provide for use of a single ballot form at each polling place, to contain all the offices to be voted on at that polling place, or for separate ballot forms, provided, that no voter shall be given a ballot containing the name of any candidate for whom the voters is ineligible to vote. One set of election officers may be appointed to conduct the joint election, and any person otherwise qualified who is a resident of either the city or school district concerned shall be eligible to serve as an election officer. Poll lists, tally sheets, and return forms for the various elections may be combined in any manner convenient and adequate to record and report the results of each election, and one set of ballot boxes and one stub box may be used for receiving all ballots and ballot stubs for the joint election. Returns on joint or separate forms may be made to, and the canvass made by, each officer, board or body designated by law to receive and canvass the returns of each election, or one of such officers, boards or bodies may be designated to receive and canvass the returns for the joint election and to report the results of each election to the proper authority. Where the counted ballots for two or more of the elections are deposited in a single ballot box, the box containing the counted ballots shall be returned to the officer or board designated in the agreement, which shall be an officer or board designated by law to receive and preserve the counted ballots for one of the elections constituting a part of the joint election under this Section. To be eligible to hold office under the Constitution and laws of this State, all candidates must comply with the residency requirements herein provided. Applications of candidates for a place on the ballot shall be filed not less than thirty (30) days prior to the day of the election with the secretary of the Board. On the filing application, the candidate shall specify the number of the Trustee District for which he is filing as a candidate. Candidates for election from each respective Trustee District shall be elected by a majority of the votes cast therein. In the event no candidate receives a majority of the votes cast therein, the Board, after canvassing the results thereof, shall cause the names of the two (2) candidates receiving the highest number of votes to be placed on the ballot and issue a call for special election to be held within the applicable Trustee District not later than three (3) weeks following the first election. It is the intent of this Section that said special runoff election shall be held on the same day as any special runoff election for positions on the City Council of the largest city falling within the District. Said election shall be held and conducted in the manner prescribed by law for regular trustee elections, except the Board, if it deems advisable, may provide that the absentee votes in any regular or special election shall be cast at the administration building of the District.

"(f) Except where in conflict with the provisions of this Section, said elections shall be ordered; notice shall be given and the same shall be given, held, and conducted at the times and in the manner specified in the Texas Education Code and the Texas Election Code for election of trustees in other independent school districts."

Section 2. Subject to the provisions of Section 3 of this Act, Section 6a, Chapter 171, Acts of the 50th Legislature, Regular Session, 1947, as amended (Article 2783d, Vernon's Texas Civil Statutes), is repealed.

Section 3. If this Act shall be adopted by the legislature, then the provisions of Section 1 and Section 2 hereof shall be effective on the effective date of this Act, but the first election thereunder shall be held at the proper and specified time in the year 1974. All subsequent elections shall be held at the proper and specified time in odd-numbered years.

Section 4. The importance of this legislation and the necessity to conform to the times for elections herein required create an emergency and an imperative public necessity requiring that the constitutional rule requiring bills to be read on three several days in each house be suspended, and this rule is hereby suspended, and that this Act take effect and be in force from and after its passage, and it is so enacted.

"(c) The board may require any person, association of persons, firm, or corporation that enters into an agreement with the board pursuant to this section to construct or cause to be constructed any portion of the combined occupancy structure, including that portion which is to be occupied by the independent school district. The portion constructed or caused to be constructed by the person, association of persons, firm, or corporation, shall be constructed in compliance with all terms, conditions, and restrictions imposed by the board. For the purposes of this section, only the board may determine whether the portion of the combined occupancy structure not intended for the occupancy of the independent school district is being constructed or has been constructed in compliance with the terms, conditions, and restrictions imposed.

"(d) If the agreement calls for the board to construct the combined occupancy structure, Section 21.901 of this code and all other applicable laws shall apply to the construction.

"(e) Any portion of the combined occupancy structure which is owned or leased by any person, association of persons, firm, or corporation shall be subject to all applicable state and local taxes, and shall not for any purpose be considered the property of the independent school district.

"(f) Notwithstanding any other provision of this section, the portion of the combined occupancy structure which is occupied and used by the independent school district shall for all purposes be considered the property of the district.

"(g) The board may call an election to authorize the issuance of bonds for the purpose of providing funds to finance the construction of the portion of the combined occupancy structure which the independent school district is obligated by agreement to construct. The bond election and the issuance and sale of the bonds shall be governed by all laws applicable thereto.

"(h) The board shall publish notice of a public hearing concerning the construction of a proposed combined occupancy structure before entering into any agreement for the construction of the structure. Notice of the

hearing shall be published not less than 10 days nor more than 20 days before the hearing in two newspapers having general circulation in the independent school district. The notice of the hearing shall contain a summary of the proposed action of the board." (62nd Legislature, Regular Session, Chapter 945.)

Section 4. Subchapter C, Chapter 20, Texas Education Code, is amended by adding Section 20.51 to read as follows:

"Section 20.51. CERTIFICATES OF INDEBTEDNESS; ISSUANCE BY CERTAIN SCHOOL AND JUNIOR COLLEGE DISTRICTS. (a) Any school district, including a junior college district, situated in a county containing a population of 200,000 or more, according to the last preceding federal census, may issue interest-bearing certificates of indebtedness for the purpose of providing funds for the erection and equipment of school buildings within the boundaries of the district or refinancing outstanding certificates as herein provided. The term 'certificates,' as used in this section, includes all obligations authorized to be issued hereunder, and the term shall include interest thereon, unless clearly indicated by the context that another meaning is intended.

"(b) The governing body of the district shall make provision for the payment of the certificates issued under the authority of this section by the appropriation and pledge of local school funds derived and to be derived from maintenance taxes levied and assessed or to be levied and assessed under authority of Sections 20.02 and 130.122 of this code, Chapter 273, Acts of the 53rd Legislature, 1953, as amended (Article 2784g, Vernon's Texas Civil Statutes), or other similar law now in existence, or hereinafter enacted which limits the amount of tax which may be levied for maintenance purposes, as distinguished from bond requirements. The appropriation and pledge may be in the nature of a continuing irrevocable pledge to apply the first moneys collected or to be collected annually from the tax levy to the payment of the obligations or by the irrevocable present levy and appropriation of the amount of the maintenance tax as is required to meet the annual debt service requirements of the obligations, in which event the governing body shall covenant to annually set aside the amount in the annual tax levy, showing the same is a portion of the maintenance tax. The governing body shall annually budget the amount required to pay the debt service requirements, principal and interest, of the obligations which may be scheduled to become due in any fiscal year. Nothing herein shall be construed as permitting the levy of a maintenance tax in excess of the amount approved by the resident qualified property taxpaying voters of the district.

"(c) No district at any one time shall have certificates outstanding and unpaid in principal amount in excess of \$250,000 unless the excessive amount becomes the obligation of the district by assumption as contemplated by Subsection (k) of this section, or the new certificates are being issued to refund or refinance outstanding obligations as contemplated by Subsection (i) of this section.

"(d) The principal amount of certificates which may be authorized at any one time and the scheduling of their principal maturity shall be further restricted as follows:

"(1) where the assessed valuation is more than \$1 million and less than \$15 million the limiting factor is 25 cents.

"(2) where the assessed valuation is \$15 million or more but less than \$35 million the limiting factor is 15 cents.

"(3) where the assessed valuation is \$35 million or more the limiting factor is 5 cents.

"(e) Assessed valuation means the valuation for school district purposes on the tax rolls of the district last approved prior to the authorization of the certificates. The limiting factor for a particular district, as set forth in the foregoing schedule, shall be multiplied by the assessed valuation of the district and the product shall be the maximum amount of debt service requirements on the certificates which may be scheduled to become due in any fiscal year on a cumulative basis. No district which has an assessed valuation less than \$1 million may issue certificates under this section.

"(f) Certificates authorized to be issued hereunder shall be payable at such times, be in such form and denomination or denominations either in coupon form or registered as to principal and interest, either or both, and may contain such options for redemption prior to the scheduled maturity, and be payable at such place or places and contain such other provisions as the governing body of the district may determine, but in no event shall any certificate mature over a period in excess of 25 years from the date thereof, or bear interest at a rate in excess of seven percent per annum.

"(g) Except where issued in exchange for certificates outstanding as provided in Subsection (i), the certificates shall be sold for cash at not less than the face or par value plus accrued interest and the proceeds applied for the purpose for which the same were issued, provided, however, that all accrued interest and premium received, if any, shall be deposited in the interest and sinking fund established for the payment of the obligations. The cost of issuing the obligations, including attorneys', printing, and fiscal fees, may be paid from the proceeds received from the sale thereof, except where such certificates are sold under the provisions of Subsection (i).

"(h) The certificates, including interest thereon whether issued in coupon or registered form, shall be deemed and construed to be a security within the meaning of Chapter 8, dealing with 'Investment Securities,' of the Uniform Commercial Code, and the provisions shall be applicable thereto from and after their approval by the Attorney General of Texas and registration by the comptroller of public accounts.

"(i) Each governing body may refund or refinance outstanding certificates by the issuance of new interest-bearing certificates within the limitations and conditions provided herein. The new certificates shall be issued and delivered in lieu of and upon surrender to the Comptroller of Public Accounts of Texas and the cancellation of the obligations being refunded thereby, and the comptroller shall register the new certificates and deliver them in accordance with the order authorizing their issuance. The new certificates may be issued and delivered in accordance with the provisions of Chapter 503, Acts of the 54th Legislature, 1955, as amended (Article 717k, Vernon's Texas Civil Statutes).

"(j) A certified copy of all proceedings relating to the authorization of the certificates shall be submitted to the Attorney General of Texas and if he finds the certificates to have been authorized in accordance with the provisions of this section, he shall execute a certificate or opinion to that effect which shall be filed in the office of the comptroller of public accounts, who shall register the certificates which shall thereafter be incontestable for any cause.

"(k) Certificates issued under the provisions of this section shall be an indebtedness of the school district issuing them, but the holder thereof shall not have the right to demand payment thereof out of any fund or funds other than those pledged to its payment. In the event the boundary lines of any issuing district are changed while the certificates remain outstanding, the indebtedness shall be adjusted or assumed as provided under general law for the adjustment of bond indebtedness payable from taxation.

"(l) All certificates issued under this section shall be and are hereby declared to be legal and authorized investments for banks, savings banks, trust companies, building and loan associations, insurance companies, fiduciaries, trustees and guardians, and for any sinking funds of cities, towns, villages, counties, school districts, and other political corporations or subdivisions of the State of Texas. The certificates shall be eligible to secure the deposit of any and all public funds of the State of Texas and any and all public funds of cities, towns, villages, counties, school districts, and other political corporations or subdivisions of the State of Texas, and shall be lawful and sufficient security for deposits at their face value when accompanied by all unmatured coupons, if any, appurtenant thereto.

"(m) For the purpose of this section, the governing body of a common school district shall be the commissioners court of the county having administrative jurisdiction. The governing body of an independent school district, a rural high school district, or a junior college district shall be its duly elected board of trustees, and the governing body of a municipality controlled school district shall be the city or town council or commission. Certificates shall be authorized by order of the governing body of the district.

"(n) The provisions of this section shall be cumulative of existing laws relating to the financing of the cost of erecting and equipping school buildings by school districts, it being the legislative intent that this section shall be complete authority for the issuance, sale, and delivery of certificates by school districts.

"(o) Nothing in this section shall be construed to violate any provision of the federal or state constitutions and all acts done hereunder shall be done in such manner as may conform thereto whether herein expressly provided or not. Where any procedure hereunder may be held by any court to be violative of either of such constitutions, the district shall have the power by resolution to provide an alternative procedure conformable to the constitutions." (62nd Legislature, Regular Session, Chapter 842.)

Section 5. Section 13.042, Texas Education Code, is amended to read as follows:

"Section 13.042. ISSUANCE OF CERTIFICATES TO APPLICANTS WITH CREDENTIALS FROM OTHER STATES. (a) The commissioner shall issue an appropriate Texas teacher certificate to and upon request of a person holding a valid teaching certificate from another state who desires to teach in Texas, provided the college or university in which the teacher completed the requirements for his certificate is accredited by a recognized accrediting agency as an approved teacher training institution.

"(b) An out-of-state applicant shall take all required courses in Texas history that a Texas teacher certificate requires and shall complete the courses within 12 months of the issuance of the certificate; otherwise, the certificate will be revoked." "Section 20.51. (a) Athletic stadium authorities without taxing power may be created as hereinafter provided.

"(b) As used in this section:

"(1) 'District' means any independent school district in this state.

"(2) 'Stadium' means the structural and associated facilities designed for staging and holding athletic contests and other events.

"(3) 'Authority' means an athletic stadium authority created under this Act.

"(4) 'Board' or 'board of directors' means the board of directors of the authority.

"(5) 'Bond resolution' means the resolution authorizing the issuance of revenue bonds.

"(6) 'Trust indenture' means the mortgage, deed of trust, or other instrument pledging revenues of or creating a mortgage lien on properties, or both, to secure the revenue bonds issued by the authority.

The authority shall be a body politic and corporate. It shall have a seal, may sue and be sued, and may make, amend, and repeal its bylaws.

"(d) The authority shall be governed by a board of directors consisting of seven members. The members of the board shall serve terms ending May 1, providing the terms do not exceed two years, or until their successors are appointed and qualified. The board of trustees of each district shall each appoint three of the directors, and the appointees shall by majority vote appoint a seventh director.

"(e) The board of directors shall elect from among the directors a president and vice-president, and shall elect a secretary and a treasurer who may or may not be directors, and may elect such other officers as may be authorized by the authority's bylaws. The offices of secretary and treasurer may be combined. The president has the same right to vote on all matters as other members of the board. A majority of the members of the board constitutes a quorum, and when a quorum is present, action may be taken by a majority vote of directors present. The board may employ a manager and such other employees, experts, and agents as it may see fit, but it may delegate to the manager the power to employ and discharge employees. The board may employ legal counsel.

"(f) The authority shall have the power to construct, enlarge, furnish, and equip stadia, purchase existing stadia, furnishings, and equipment for its stadia, and to operate and maintain stadia. A stadium need not be located inside the district or districts.

"(g) The authority may issue revenue bonds to provide funds for any of its purposes. The bonds shall be payable from and secured by a pledge of all or any part of the revenue to be derived from the operation of the stadium or stadia and any other revenues resulting from the ownership of stadium properties. The bonds may be additionally secured by a mortgage or deed of trust on property of the authority.

"(h) The bonds shall be authorized by resolution adopted by a majority vote of quorum of the board of directors, and shall be signed by the president or vice-president and countersigned by the secretary, or either or both of their facsimile signatures may be printed thereon. The seal of the authority

shall be impressed or printed thereon. The bonds shall mature serially or otherwise in not to exceed 40 years. The bonds may be registrable as to principal, or as to both principal and interest. Appropriate provisions may be inserted in the resolution authorizing the execution and delivery of bonds for the conversion of registered bonds into bearer bonds and vice versa. Provisions may be made in the bond resolution or trust indenture for the substitution of new bonds for those lost or mutilated. When bonds shall have once been approved by the attorney general and registered by the comptroller as prescribed in Subsection (1) of this section, it shall not be necessary to obtain the approval of the attorney general or registration by the comptroller as to such converted or substituted bonds.

"(i) All bonds issued pursuant to this Act shall be and are hereby declared to be legal and authorized investments for banks, savings banks, trust companies, building and loan associations, savings and loan associations, insurance companies, fiduciaries, trustees, guardians, and for the sinking fund of cities, towns, villages, counties, school districts, or other political corporations or subdivisions of the State of Texas. Such bonds shall be eligible to secure the deposit of any and all public funds of the State of Texas, and any and all public funds of cities, towns, villages, counties, school districts, or other political corporations or subdivisions of the State of Texas; and such bonds shall be lawful and sufficient security for said deposits to the extent of their face value, when accompanied by all unmatured coupons appurtenant thereto.

"(j) Bonds constituting a junior lien on the revenue or properties may be issued unless prohibited by the bond resolution or trust indenture. Parity bonds may be issued under conditions specified in the bond resolution or trust indenture.

"(k) (1) Any district, acting by and through its board of trustees, is authorized to enter into a contract with any athletic stadium authority organized under this section for the use of any stadium or stadia owned by any that entity. Such contract may be for any period, not exceeding 75 years, and may contain such terms and conditions as may be agreed on between the parties.

"(2) The district may enter into a contract for the use of the stadium or stadia for any purpose related to sports activities and other physical education programs for the students at the public free schools operated and maintained by the district.

"(3) The consideration payable by the district under a contract may be paid from any source available to the district; and if voted, the district is authorized to pledge to the payment of the contract an annual maintenance tax in an amount sufficient, without limitation, to provide all or part of the consideration. If so voted and pledged, the maintenance tax shall be assessed, levied, and collected annually in the same manner as provided by general law applicable to independent school districts for other maintenance taxes. No maintenance tax shall be pledged to the payment of any contract or assessed, levied, or collected unless an election is held by and in the district, and the maintenance tax for that purpose is duly and favorably voted by a majority of the resident, qualified electors of the district who own taxable property therein and who have duly rendered the property for taxation, voting

at the election. Each election shall be called by order of the board of trustees of the district. The election order shall set forth the date of the election, the proposition to be submitted and voted on, the polling place or places, and any other matters deemed advisable by the board of trustees. Notice of election shall be given by publishing a substantial copy of the order calling the election one time, at least 10 days prior to the election, in a newspaper of general circulation in the district. Except as herein otherwise specifically provided, the election shall be held in accordance with the Texas Election Code.

"(d) Bonds issued under this section and the record relating to their issuance shall be submitted to the attorney general, and if he finds that they have been issued in accordance with this section and constitute valid and binding obligations of the authority and are secured as recited therein he shall approve them, and they shall be registered by the Comptroller of Public Accounts of the State of Texas, who shall certify such registration thereon. Thereafter they shall be incontestable.

"(m) It is the duty of the board of directors to charge sufficient rates for services rendered by the stadium or stadia and to utilize other sources of its revenues so that revenues will be produced sufficient to pay all expenses in connection with the ownership, operation, and upkeep of the stadium or stadia, to pay the interest on the bonds as it becomes due, to create a sinking fund to pay the bonds as they become due, and to create and maintain a bond reserve fund and other funds as provided in the bond resolution or trust indenture. The bond resolution or trust indenture may prescribe systems, methods, routines, and procedures under or in accordance with which the stadium or stadia shall be operated.

"(n) The authority may select a depository or depositories according to the procedures provided by law for the selection of independent school district depositories.

"(o) Recognizing the fact that the property owned by authority will be held for public purposes only and will be devoted exclusively to the use and benefit of the public, it shall be exempt from taxation of every character.

"(p) For the purpose of carrying out any power conferred by this section, the authority shall have the right to acquire the fee simple title to land and other property and easements by condemnation in the manner provided by Title 52, Revised Civil Statutes, as amended, relating to eminent domain. The authority is declared to be a municipal corporation within the meaning of Article 3268 of Title 52. The amount of and character or interest in land, other property, and easements thus to be acquired shall be determined by the board of directors.

"(q) In addition to other powers, the authority has the right to invest the proceeds of its bonds, until such money is needed, in the direct obligations of or obligations unconditionally guaranteed by the United States government, to the extent authorized in the bond resolution or trust indenture or in both.

"(r) The board of directors is authorized to accept donations, gifts, and endowments to be held and administered as may be required by the respec-

tive donors, to the extent that such requirements would not contravene law."

Section 2. The provisions of this Act are severable. If any word, phrase, clause, paragraph, sentence, section, part, or provision of this Act or the application thereof to any person or circumstance shall be held to be invalid or unconstitutional, the remainder of this Act shall nevertheless be valid; and the legislature hereby declares that the Act would have been enacted without such invalid or unconstitutional word, phrase, clause, paragraph, sentence, section, part, or provision.

Section 3. The urgent need for jointly used and operated stadia for athletic contests and other events creates an emergency and an imperative public necessity that the constitutional rule requiring bills to be read on three several days in each house be suspended, and this rule is hereby suspended, and that this Act take effect and be in force from and after its passage, and it is so enacted.

"(d) Provided, however, for the school years beginning 1973-74, and through 1976-77 inclusive, a public school kindergarten program shall be offered on a one-half day basis for all other eligible children who become five (5) years of age on or before September 1 of the scholastic year. Such kindergarten program(s) shall be operated on a one-half day basis for Foundation School Program unit eligibility allotment purposes beginning the school year 1973-74, Provided further that any school district may choose to operate a full day program for the first half of the school year for one-half, approximately, of its kindergarten children and operate a full day program the latter half of such year for the remainder of its kindergarten children.

Provided further that any school district may choose to operate a full day program for all its kindergarten children for one semester only.

"(f) A scholastic is a student in average daily attendance within the age limits prescribed in this section."

Education Code, Sec. 11.10,
Subsecs. (n-u)

DAY SCHOOLS FOR DEAF - REGIONAL PROGRAMS

Section 1. Section 11.10, Texas Education Code, as amended, is amended by adding Subsections (n) through (u) to read as follows:

"(n) The legislature by the addition of this and the following subsections to this Section 11.10, Texas Education Code, intends to continue a process of providing better education available to deaf children on a statewide basis in Texas, and to afford all deaf children an opportunity for achievement more equal to their peers with normal hearing.

"(o) To carry out legislative intent and the objectives of subsections (n) and the following subsections of this Section 11.10, the Central Education Agency shall employ a Director of Deaf Education (at a salary not exceeding \$30,000) with the responsibility to develop and administer a comprehensive statewide plan for deaf education services including continuing diagnosis and evaluation, counseling and teaching, and designed to accomplish the following objectives:

"(1) Assisting and counseling parents of children of any age whose hearing is determined by professionally acceptable evaluation to be nonfunctional for education purposes, such assistance and counseling to be provided in each of the regional day school programs for the deaf hereinbelow authorized, and admitting all children between the ages of three and 21 whose hearing is determined by professionally acceptable evaluation to be nonfunctional for educational purposes to the regional day school programs for the deaf; and

"(2) Enabling a majority or as many as may be practicable of deaf children to reside with their parents or guardians and be afforded compensatory education in their home school districts or in facilities of regional day school programs for the deaf; and

"(3) Enabling deaf children who are unable to attend schools at their place of residence and whose parents or guardians live too far from facilities of regional day school programs for the deaf for daily commuting or to be accommodated five nights a week in foster homes or other residential school facilities provided for by the Central Education Agency in order that such children may attend a regional day school program for the deaf; and

"(4) Enrolling children in the Texas School for the Deaf at Austin or any other educational facility for the deaf upon the joint recommendations of the Director of Deaf Education, the superintendent of the child's regional day school program for the deaf, and the Superintendent of the Texas School for the Deaf at Austin, admitting to the Texas School for the Deaf only those children whose needs can best be met in that institution, designating the Texas School for the Deaf as the principal regional school for the central region of the state and Superintendent of the Texas School for the Deaf as the superintendent of the central region; and

"(5) Encouraging children enrolled in regional day school programs for the deaf who have demonstrated ability to do so to return to regular school classes on a part-time, full-time or trial basis. Supplemental aid from the regional day school program for the deaf shall be made available to such children; and

"(6) Recognizing the need for development of oral communications abilities in deaf children and the ability of many to achieve high educational excellence through that method, but also recognizing the inability of some to gain their education successfully by this means, the comprehensive plan developed by the Central Education Agency will call for the use of methods of communication which will best meet the needs of each individual deaf child in this state, with each child to be examined thoroughly so as to ascertain his potential for communications through oral means. The state director and regional superintendents may establish separate programs to accommodate diverse communication methodologies.

"(p) The Central Education Agency shall apportion the state into not more than eight nor less than five areas each furnishing a regional day school program for the deaf. Geographic areas of each regional day school program for the deaf may be revised by the Central Education Agency for betterment of education for the deaf. Activities of a regional day school program for the deaf may be conducted on more than one site.

"(q) The Central Education Agency shall employ a superintendent for each regional day school program for the deaf. These superintendents shall be responsible to the Director of Deaf Education of the Central Education Agency.

"It is the intent of the legislature that local resources be utilized to the fullest practicable extent in the establishment and operation of the regional day school programs for the deaf. Regional superintendents are authorized and expected to contract with any qualified public or private organization or qualified individuals for diagnostic evaluation and instructional services or any other services incidental to the education of deaf children, including transportation and/or maintenance.

"Upon the recommendation of regional superintendents of the regional day school programs for the deaf the Central Education Agency shall employ educational and other personnel, may purchase or lease real or personal property, may accept gifts or grants of real or personal property or services from any source, public or private, including independent school districts and any institution of higher learning in this state, for the purpose of establishing and operating regional day school programs for the deaf.

"The Central Education Agency may provide by rule or regulation that upon establishment of each regional school the countywide school(s) in that region shall become a part of the regional school operation and that all equipment, classroom supplies, and other personal property owned by the countywide schools shall become the property of the regional day school. When any such programs are combined, the directors and employees of the former countywide schools shall be employed in appropriate, substantially similar capacities within the regional day school program for that region.

"(r) Costs of operation of the regional day school programs for the deaf shall be borne by the state and paid from the Foundation School Program Fund. Such costs shall be considered and included by the Foundation School Fund Budget Committee in estimating the needs for purposes of the Foundation School Program and the regional day school programs for the deaf. However,

funds allocated to countywide schools shall remain so allocated except in those regions in which the countywide program has been made a part of the appropriate region, as aforesaid. Funds specially appropriated to the regional day school program by the General Appropriations Act of the 63rd Legislature, or any substitute therefor, shall be used so as to implement as completely as may be possible the provisions of this Act during the next biennium and in accordance with a budget of expenditures approved by the State Board of Education with the first funds, however, hereby required to be expended for staffing and planning of the regional day school program. Such funds may be used in conjunction with funds from the Foundation School Program Fund in accordance with rules and regulations adopted by the Central Education Agency, the allocation and reallocation of which is hereby authorized. While the principal cost of educating deaf children shall be borne by the state, independent school districts and all institutions of higher learning in the state are hereby authorized and encouraged to make available real or personal property or services in cooperation with the regional day school programs for the deaf for any activities related to education and betterment of education of deaf children including but not limited to research and personnel training and development. It is the intent of the legislature in enacting this subsection that the use of all of the educational resources of this state be maximized to carry out the intent and objectives of this Act.

"(s) Operating costs for the program in each regional day school program for the deaf shall be determined and paid on the following basis:

"(1) An estimated allocation of \$2,700 for each student enrolled in the program of the regional day school program for the deaf in any current year.

"(2) Considering that the professional leadership represented in the new positions of Director of Deaf Education and regional superintendents is vital to the effect of this Act, salaries for these positions shall permit recruitment and retention of properly qualified persons.

"(3) Teachers, principals, supervisors, counselors, para-professional and supporting personnel shall be employed in such numbers as the Central Education Agency finds to be necessary to establish and operate the regional day school programs for the deaf, and such numbers shall not be less than student-professional ratios known to be requisite for success in education of deaf children. Salaries of all personnel employed in the regional day school programs for the deaf shall be determined in accordance with policies established by the State Board of Education, but in no case shall such salaries be less than salaries paid for comparable positions in any school district comprising any part of the geographic area of the regional day school program for the deaf.

"(t) To assure effective implementation of this Act the Central Education Agency shall upon the passage of this Act institute planning and research designed to accomplish the intent and objectives set forth herein including employment of the Director of Deaf Education and other personnel considered essential to meet the operational date specified for this Act.

"(u) The regional day school programs for the deaf shall commence operation to the fullest extent possible on September 1, 1974."

Section 2. The imperative need to make available better education for deaf children in this state, and the crowded condition of the calendars in both houses create an emergency and an imperative public necessity that the constitutional rule requiring bills to be read on three several days in each house be suspended, and said rule is suspended, and this Act shall be in force and take effect according to its terms, and it is so enacted.

TEXTBOOKS - BLIND AND VISUALLY HANDICAPPED - FEDERAL
FUNDS - PRIVATE SCHOOLS

Section 1. Subsection (a), Section 12.03, Texas Education Code, is amended to read as follows:

"(a) The State Board of Education is authorized to acquire, purchase, and contract for, with or without bids, subject to rules and regulations adopted by the Board, free textbooks recommended as suitable and usable as textbooks for the education of the blind and visually handicapped scholastics in the public school systems of this state in grades one to twelve inclusive. The board may also enter into agreements providing for the acceptance, requisition, and distribution of books and instructional aids pursuant to Public Law 922, 84th Congress, or as amended, for use by students enrolled in public or private non-profit schools. The agreements may include the purchase of textbooks for blind and visually handicapped students attending private, non-profit schools if no state funds except for administrative cost are involved."

Section 2. The importance of this legislation and the crowded condition of the calendars in both houses create an emergency and an imperative public necessity that the constitutional rule requiring bills to be read on three several days in each house be suspended, and this rule is hereby suspended, and that this Act take effect and be in force from and after its passage, and it is so enacted.
