ABSTRACT

This booklet summarizes data on the status of planning, programming, budgeting systems (PPBS) in the United States, based on a survey conducted by the Indiana State Department of Public Instruction in June 1975. Data are presented on a state-by-state basis for 45 states; the states of Hawaii, Iowa, Maryland, Michigan, and Tennessee did not respond to the survey. For each responding state, the booklet lists the name and address of the contact person who provided the survey data, any PPBS legislation currently in force, and PPBS-related publications submitted in response to the survey, and a brief summary of PPBS-related activities in the state. PROGRAM ACCOUNTING IN THE UNITED STATES

The Indiana Department of Public Instruction has been developing a Planning and Program Budget System (PPBS) for the public school corporation of Indiana since October of 1971. The Division of Planning and Evaluation has had primary responsibility for this task. To assist in the development of Indiana's PPB System, information was requested from the other 49 states concerning this timely subject. As of June 1, 1975, 44 states responded. This report summarizes the research completed by the Division of Planning and Evaluation on the status of Program Accounting in the United States.
