ABSTRACT

This test manual presents the full results of the National Assessment of Educational Progress (NAEP) survey of 1,300 17-year-old students on performance in five major basic life skills: (1) personal finance and consumer protection; (2) health maintenance; (3) interpersonal competence; (4) family responsibility; and (5) career development. In addition, some items measure citizenship and community resources. Mathematics, reading, and writing skills were excluded, since separate assessments are devoted to them. Tables display the survey results nationally, by region, and by sex; results for 17-year-olds in grade 11 are displayed separately. The first row contains the NAEP exercise number, the exercise part, and the correct response label (key). Row 2 contains the percentage of correct responses. Row 3 shows the standard error of the percentage. Adjustments have been made for low response rates in the latter half of each of the six test booklets. The six test booklets and corresponding answer sheets are also included. They can be used as discrete exercises for local assessment or as a controlled replication of the NAEP survey. If replication is the intent, reference to the Results Manual is essential. (CF)

INTRODUCTION

During the spring of 1977, the National Assessment of Educational Progress (NAEP) conducted an abbreviated assessment of performance of 17-year-old students in "basic life skills." Following the assessment, NAEP mailed a packet of materials to many interested state, district and school personnel. The materials were developed to assist state and local personnel in conducting their own assessments in the basic life skills area. The packet contained a booklet, *Guide for an Assessment of Basic Life Skills*, six exercise booklets and answer sheets for each booklet. These materials can be used in two major ways: discrete exercises or exercise sets can be selected for a local assessment, or a controlled replication can be conducted locally using the full set of National Assessment materials. And, of course, the materials can serve as general resources. If, however, replication is the intent, results from the NAEP assessment are essential. This manual presents the full results of the NAEP assessment of performance by 17-year-old students in basic life skills.

Development of the National Assessment of Basic Life Skills

While National Assessment did not attempt to set the parameters or to develop a comprehensive definition of basic life skills, the area was conceived to include certain aspects of everyday transactions of general concern to most citizens. Individuals knowledgeable in several fields were invited to participate in the development of summary objectives and exercises used to probe performance in the life skills area. National Assessment does not claim that the objectives and exercises reflect and/or measure conclusively all possible dimensions of the basic life skills area. Areas

such as mathematics, reading and writing were excluded as separate assessments are devoted to them. The major skills areas represented in the NAEP assessment are:

- Personal finance and consumer protection
- Health maintenance
- Interpersonal
- Family responsibility
- Career development

In addition, a limited number of items measure knowledge of citizens' privileges and responsibilities and community resources.

A group of 168 discrete items was developed to reflect these skills. Many of these items have multiple parts, and some of the 168 items appear in two or more of the areas. For instance, an item may be relevant to "consumer skills" and to "community resource skills." Those interested in conducting local assessments may select and regroup items according to their primary interests and aims. The *Guide for an Assessment of Basic Life Skills* is arranged to aid the local user. All items are referenced by exercise package (booklet) and item number, a general description of the item, the NAEP number, the outline code (skill area), and the correct response (key) for each part of the item. Note that items without correct responses designated concern attitudes and the responses are optional. All items are presented under the heading of the skill area they represent. The *Guide* also contains the outline of the objectives for the skill areas covered in the assessment (Appendix B).

Using the Results Manual

This manual presents the findings of the NAEP assessment. Approximately 1,300 17-year-old students responded to each item in the assessment. Users should note that the exercise booklets are not arranged to contain items from only a single skills area. Instead, items are distributed throughout each of the six exercise booklets. National Assessment does not report scores for individual students, but provides estimated percentages of correct responses for single items. Additional information can be found in the *Guide for an Assessment of Basic Life Skills*.

National Assessment usually samples approximately 2,500 students per item and, consequently, can report results by several group categories in addition to the overall national results. Because of the limited sample in this abbreviated assessment, the number of possible reporting categories is reduced. This manual presents the results for 17-year-old students nationally and by region and sex categories and also for 11th grade (at the time of the assessment) by nation and sex categories. The format is shown in Table 1.

The first row contains the NAEP number of the exercise, the exercise part and the

correct response label (key) for that part of the exercise. The second row contains the percentage of correct responses (P). The third row shows the standard error (SE) of the percentage. The reader should refer to the *Guide for an Assessment of Basic Life Skills*, pages 5-7, for information on percentages and the standard error.

Exercises in the latter half of each of the six basic life skills assessment booklets suffered from rather low response rates. The lack of response to an exercise is difficult to interpret. Failure to respond to an exercise could mean either that the student read the exercise and chose not to respond to it, or that the student did not have the opportunity to read or respond to the exercise within the allotted assessment time.

The low response rate has been handled in one of two ways in the results tables that follow. First, percentages of correct responses for exercises with national response rates greater than 90% have been adjusted to reflect only the performance of students who actually answered the exercises. Students who failed to respond to the exercises are not included in the analysis. Second, only exercises with nonresponse rates less than 10% have been included in the manual. Data from exercises with larger percentages of nonresponse would

provide an unreliable basis for generalization and have therefore been replaced in the results tables with the phrase "data unreliable due to low response rates."

Some basic life skills exercises did not have designated correct responses, as in the case of attitudinal measures. Percentages of students giving each possible response are presented for these exercises.

One exercise containing three open-ended response parts (Exercise 601004, missing leather coat, found in package 14 as item 10)

allowed for numerous types of correct responses. Percentages are given for each of the multiple-choice parts of this exercise (parts A, E, F) followed by percentages of students giving at least one acceptable response to each of the open-ended exercise parts B, C and D. The latter percentages are called "Summary" percentages. Readers wishing to know the types of responses considered correct are referred to pages 49-51 of the *Guide*. Note that response categories 5 and 6 of part D of the exercise have been considered as correct. They were erroneously listed as incorrect in the *Guide*.

PACKAGE NO. 12

**NATIONAL ASSESSMENT OF EDUCATIONAL PROGRESS
A PROJECT OF THE EDUCATION COMMISSION OF THE STATES**

This report is authorized by law (20 U.S.C. 1221 e-1). While you are not required to respond, your cooperation is needed to make the results of this survey comprehensive, accurate and timely.

YEAR 08
AGE CLASS 3
GROUP

DIRECTIONS FOR ANSWERING EXERCISES

In order to record your answers to each of the exercises in this booklet, you need to use the accompanying answer booklet. In the answer booklet, you should fill in one oval for each answer you choose. All answers must be recorded in the answer booklet. Each section of the answer booklet is labeled to correspond to each exercise.

Multiple Choice Exercises

The exercises in this booklet are followed by several suggested answers. For each exercise, choose the answer that you think is best, then locate the corresponding section in the answer booklet and fill in the oval for the answer you have chosen.

Example Exercise 1

Which one of the following organs pumps blood to every part of the body?

- (1) Liver
- (2) Stomach
- (3) Heart
- (4) I don't know.

Look at the first page of the answer booklet. At the top of the page is the answer section for Example Exercise 1. Notice that the oval containing number "3" has been filled in because answer choice number "3", the heart, is the correct answer.

Some multiple choice exercises in this booklet have answer choices that apply to several parts of the exercise, as shown in Example Exercise 2 on the next page. For practice, complete Example Exercise 2. Read through the example, then record your answers in the answer booklet. Part A has been completed for you. Complete Parts B and C on your own.

Example Exercise 2

Is each of the following statements about credit cards correct or incorrect?

	Correct	Incorrect	I don't know.
A. All stores and restaurants will accept credit cards instead of cash.	(1)	(2)	(3)
B. Most credit cards require your signature on the cards.	(1)	(2)	(3)
C. You can borrow money from a bank with some credit cards.	(1)	(2)	(3)

In the answer booklet, for Part A the oval containing number "2" has been filled in because the statement is incorrect. Not all stores and restaurants will accept credit cards instead of cash. For Part B, the right answer choice is number "1"; for Part C, the right answer choice is also number "1". If you did not fill in the ovals for these answer choices in Parts B and C, do so now. Erase any other answers completely.

For most of the exercises, one of the answer choices is "I don't know." If you feel you don't know the answer, fill in the oval for "I don't know."

Calculations

For some exercises, you may need to calculate your answers. Use the scratch paper that has been given to you. Do not write, mark, or do calculations in the booklets.

Short Answer Exercises

For some exercises, you will be asked to write your answers. For this kind of exercise, write or print your answers on the lines provided in the answer booklet. If you feel you do not know the answers, write the words "I don't know" on the answer lines.

The Exercises in the Booklet

The exercises in this booklet are about career decisions, community resources, consumer affairs, family responsibilities, health maintenance and interpersonal relations. The first two exercises consist of conversations. Listen carefully to each part of the conversation. After each part has been completed, you will have time to choose your answer and record it in the answer booklet.

1. This exercise has three parts on this and the next page. Each part consists of a statement made by someone your age, and several possible responses to that statement. Which response would be most helpful to the person making the statement? Record your answers in the answer booklet.

A. "I'm afraid to go to that meeting. I don't know anyone there. I'd just feel out of place - like I didn't belong there."

(1) "You'll like it after you get there."

(2) "It can be kind of scary. Why don't you come with us?"

(3) "When you get there, just introduce yourself to the first person you see. Act like you own the place, and they won't know the difference."

(4) "There's bound to be someone you know. It'll be a large group."

(5) I don't know.

B. "I don't know whether to take college algebra next year or not."

- (1) "You sound confused about it. I guess there are both pros and cons."
- (2) "If you're even thinking about going to college, you'd better take it."
- (3) "I heard that it doesn't help very much."
- (4) "What do your parents want you to do?"
- (5) I don't know.

C. "All I get from my girlfriend is criticism. She doesn't appreciate me anymore."

- (1) "That's bad."
- (2) "The worst thing is that you've wasted so much time and money on her."
- (3) "Why do you keep going with someone like that?"
- (4) "That must hurt, being criticized all the time."
- (5) I don't know.

2. In the conversation that follows, two high school students are talking about what they plan to do after they finish high school. The first student who speaks is upset and seems to be looking for help. How helpful are her friend's responses? Is each response "Very Helpful," "Helpful," "Harmful," or "Very Harmful?"

"It isn't that I don't want to go to college, it's just that I think I'd rather work for a year before I go. I think I'd be better off if I was older when I started college. I try to talk to my folks about this but they really want me to start college next year. They won't even listen to me."

	Very Helpful	Helpful	Harmful	Very Harmful
A. "It must be pretty frustrating when you know what you want to do, but your parents are against it."	(1)	(2)	(3)	(4)

"It is. And the way they treat me drives me up the wall. They tell me I'm better off doing it their way."

	Very Helpful	Helpful	Harmful	Very Harmful
B. "You know, the same thing happened to me. My folks want me to go to one college but I want to go to another, so I just told them if I couldn't go where I wanted to go, I wouldn't go to college at all."	(1)	(2)	(3)	(4)

UNTIL TOLD TO DO SO.

2. (Continued)

"I'd like to be able to tell them the same thing, but I'm afraid to."

	Very Helpful	Helpful	Harmful	Very Harmful
C. "Sometimes it takes a lot to be straight with your parents."	(1)	(2)	(3)	(4)

"I know what they'd do. They'd blow up. Then I'd do whatever they told me to."

	Very Helpful	Helpful	Harmful	Very Harmful
D. "So you've decided. You're copping out."	(1)	(2)	(3)	(4)

"They really do push me around."

	Very Helpful	Helpful	Harmful	Very Harmful
E. "You don't seem to be strong enough to make up your own mind about things."	(1)	(2)	(3)	(4)

DIRECTIONS FOR ANSWERING EXERCISES

In order to record your answers to each of the exercises in this booklet, you need to use the accompanying answer booklet. In the answer booklet, you should fill in one oval for each answer you choose. All answers must be recorded in the answer booklet. Each section of the answer booklet is labeled to correspond to each exercise.

Multiple Choice Exercises

The exercises in this booklet are followed by several suggested answers. For each exercise, choose the answer that you think is best, then locate the corresponding section in the answer booklet and fill in the oval for the answer you have chosen.

Example Exercise 1

Which one of the following organs pumps blood to every part of the body?

- (1) Liver
- (2) Stomach
- (3) Heart
- (4) I don't know.

Look at the first page of the answer booklet. At the top of the page is the answer section for Example Exercise 1. Notice that the oval containing number "3" has been filled in because answer choice number "3", the heart, is the correct answer.

Some multiple choice exercises in this booklet have answer choices that apply to several parts of the exercise, as shown in Example Exercise 2 on the next page. For practice, complete Example Exercise 2. Read through the example, then record your answers in the answer booklet. Part A has been completed for you. Complete Parts B and C on your own.

Example Exercise 2

Is each of the following statements about credit cards correct or incorrect?

	Correct	Incorrect	I don't know.
A. All stores and restaurants will accept credit cards instead of cash.	(1)	(2)	(3)
B. Most credit cards require your signature on the cards.	(1)	(2)	(3)
C. You can borrow money from a bank with some credit cards.	(1)	(2)	(3)

In the answer booklet, for Part A the oval containing number "2" has been filled in because the statement is incorrect. Not all stores and restaurants will accept credit cards instead of cash. For Part B, the right answer choice is number "1"; for Part C, the right answer choice is also number "1". If you did not fill in the ovals for these answer choices in Parts B and C, do so now. Erase any other answers completely.

For most of the exercises, one of the answer choices is "I don't know." If you feel you don't know the answer, fill in the oval for "I don't know."

Calculations

For some exercises, you may need to calculate your answers. Use the scratch paper that has been given to you. Do not write, mark, or do calculations in the booklets.

Short Answer Exercises

For some exercises, you will be asked to write your answers. For this kind of exercise, write or print your answers on the lines provided in the answer booklet. If you feel you do not know the answers, write the words "I don't know" on the answer lines.

The Exercises in the Booklet

The exercises in this booklet are about career decisions, community resources, consumer affairs, family responsibilities, health maintenance and interpersonal relations. The first two exercises consist of conversations. Listen carefully to each part of the conversation. After each part has been completed, you will have time to choose your answer and record it in the answer booklet.

1. This exercise has three parts on this and the next page. Each part consists of a statement made by someone your age, and several possible responses to that statement. Which response would be most helpful to the person making the statement? Record your answers in the answer booklet.

A. "I'm afraid to go to the meeting. I don't know anyone there. I'd just feel out of place - like I didn't belong there."

- (1) "You'll like it after you get there."
- (2) "It can be kind of scary. Why don't you come with us?"
- (3) "When you get there, just introduce yourself to the first person you see. Act like you own the place, and they won't know the difference."
- (4) "There's bound to be someone you know. It'll be a large group."
- (5) I don't know.

DO NOT CONTINUE
UNTIL TOLD TO DO SO.

1. (Continued)

B. "I don't know whether to take college algebra next year or not."

(1) "You sound confused about it. I guess there are both pros and cons."

(2) "If you're even thinking about going to college, you'd better take it."

(3) "I heard that it doesn't help very much."

(4) "What do your parents want you to do?"

(5) I don't know.

C. "All I get from my girlfriend is criticism. She doesn't appreciate me anymore."

(1) "That's bad."

(2) "The worst thing is that you've wasted so much time and money on her."

(3) "Why do you keep going with someone like that?"

(4) "That must hurt, being criticized all the time."

(5) I don't know.

DO NOT CONTINUE
UNTIL TOLD TO DO SO.

2. In the conversation that follows, two high school students are talking about what they plan to do after they finish high school. The first student who speaks is upset and seems to be looking for help. How helpful are her friend's responses? Is each response "Very Helpful," "Helpful," "Harmful," or "Very Harmful?"

"It isn't that I don't want to go to college, it's just that I think I'd rather work for a year before I go. I think I'd be better off if I was older when I started college. I try to talk to my folks about this but they really want me to start college next year. They won't even listen to me."

	Very Helpful	Helpful	Harmful	Very Harmful
A. "It must be pretty frustrating when you know what you want to do, but your parents are against it."	(1)	(2)	(3)	(4)

"It is. And the way they treat me drives me up the wall. They tell me I'm better off doing it their way."

	Very Helpful	Helpful	Harmful	Very Harmful
B. "You know, the same thing happened to me. My folks want me to go to one college but I want to go to another, so I just told them if I couldn't go where I wanted to go, I wouldn't go to college at all."	(1)	(2)	(3)	(4)

DO NOT CONTINUE
UNTIL TOLD TO DO SO.

2. (Continued)

"I'd like to be able to tell them the same thing but I'm afraid"

	Very Helpful	Helpful	Harmful	Very Harmful
C. "Sometimes it takes a lot to be straight with your parents."	(1)	(2)	(3)	(4)

"I know what they'd do. They'd blow up. Then I'd do whatever they told me to."

	Very Helpful	Helpful	Harmful	Very Harmful
D. "So you've decided. You're copping out."	(1)	(2)	(3)	(4)

"They really do push me around."

	Very Helpful	Helpful	Harmful	Very Harmful
E. "You don't seem to be strong enough to make up your own mind about things."	(1)	(2)	(3)	(4)

DO NOT CONTINUE
UNTIL TOLD TO DO SO.

PACKAGE NO. 14

**NATIONAL ASSESSMENT OF EDUCATIONAL PROGRESS
A PROJECT OF THE EDUCATION COMMISSION OF THE STATES**

This report is authorized by law (20 U.S.C. 1221 e-1). While you are not required to respond, your cooperation is needed to make the results of this survey comprehensive, accurate and timely.

YEAR 08
AGE CLASS 3
GROUP

DIRECTIONS FOR ANSWERING EXERCISES

In order to record your answers to each of the exercises in this booklet, you need to use the accompanying answer booklet. In the answer booklet, you should fill in one oval for each answer you choose. All answers must be recorded in the answer booklet. Each section of the answer booklet is labeled to correspond to each exercise.

Multiple Choice Exercises

The exercises in this booklet are followed by several suggested answers. For each exercise, choose the answer that you think is best, then locate the corresponding section in the answer booklet and fill in the oval for the answer you have chosen.

Example Exercise 1

Which one of the following organs pumps blood to every part of the body?

- (1) Liver
- (2) Stomach
- (3) Heart
- (4) I don't know.

Look at the first page of the answer booklet. At the top of the page is the answer section for Example Exercise 1. Notice that the oval containing number "3" has been filled in because answer choice number "3", the heart, is the correct answer.

Some multiple choice exercises in this booklet have answer choices that apply to several parts of the exercise, as shown in Example Exercise 2 on the next page. For practice, complete Example Exercise 2. Read through the example, then record your answers in the answer booklet. Part A has been completed for you. Complete Parts B and C on your own.

Example Exercise 2

Is each of the following statements about credit cards correct or incorrect?

	Correct	Incorrect	I don't know.
A. All stores and restaurants will accept credit cards instead of cash.	(1)	(2)	(3)
B. Most credit cards require your signature on the cards.	(1)	(2)	(3)
C. You can borrow money from a bank with some credit cards.	(1)	(2)	(3)

In the answer booklet, for Part A the oval containing number "2" has been filled in because the statement is incorrect. Not all stores and restaurants will accept credit cards instead of cash. For Part B, the right answer choice is number "1"; for Part C, the right answer choice is also number "1". If you did not fill in the ovals for these answer choices in Parts B and C, do so now. Erase any other answers completely.

For most of the exercises, one of the answer choices is "I don't know." If you feel you don't know the answer, fill in the oval for "I don't know."

Calculations

For some exercises, you may need to calculate your answers. Use the scratch paper that has been given to you. Do not write, mark, or do calculations in the booklets.

Short Answer Exercises

For some exercises, you will be asked to write your answers. For this kind of exercise, write or print your answers on the lines provided in the answer booklet. If you feel you do not know the answers, write the words "I don't know" on the answer lines.

The Exercises in the Booklet

The exercises in this booklet are about career decisions, community resources, consumer affairs, family responsibilities, health maintenance and interpersonal relations. The first two exercises consist of conversations. Listen carefully to each part of the conversation. After each part has been completed, you will have time to choose your answer and record it in the answer booklet.

1. This exercise has four parts on this and the next page. Each part consists of a statement made by someone your age, and several possible responses to that statement. Which response would be most helpful to the person making the statement? Record your answers in the answer booklet.

A. "Last night we had a fire in our mobile home. Most of our clothes and furniture were destroyed."

(1) "That's terrible."

(2) "How long do you think you'll have to live with the neighbors?"

(3) "Just be glad nobody got hurt."

(4) "That's a real tragedy. I'll bring over some jeans and shirts for you."

(5) I don't know.

B. "Guess what! I got the lead in the play!"

(1) "What's the name of the play?"

(2) "Did Gene get a part too? I know he was hoping to."

(3) "That's great! I really am happy for you."

(4) "I don't know how you do so much and still make good grades."

(5) I don't know.

161

DO NOT CONTINUE
UNTIL TOLD TO DO SO.

1. (Continued)

C. "Home life is really bad. My parents are always arguing with me. I dread going home."

(1) "It must be pretty uncomfortable."

(2) "It happens to lots of kids."

(3) "How long has this been going on?"

(4) "Just keep your mouth shut."

(5) I don't know.

D. "Tom, you're doing really well in math. What's your secret?"

(1) "I don't know if it would work for you, but if you want me to, I'll tell you how I study."

(2) "Hard work, baby, hard work. I've got to get into Med school."

(3) "Who knows?"

(4) "Yes, but you're doing better than I am in history."

(5) I don't know.

162

DO NOT CONTINUE
UNTIL TOLD TO DO SO.

2. On this and the next two pages is part of a conversation that took place in a high school student committee meeting. Georgia is leading the committee and starts the conversation. How helpful or harmful are the responses of the other committee members in reaching the goal of the committee? Is each response "Very Helpful," "Helpful," "Harmful," or "Very Harmful?"

Georgia: "I guess you all know I was asked to be the head of this committee to plan a dance for our class. I hope we can make this the best dance we've ever had."

	Very Helpful	Helpful	Harmful	Very Harmful
A. Mary Alice: "Well, we never have any good dances. The chaperones always watch us like hawks."	(1)	(2)	(3)	(4)

Georgia: "Okay, any more comments?"

	Very Helpful	Helpful	Harmful	Very Harmful
B. Beth: "Well, we need to decide what kind of band we're going to have. We have some kids who want rock music and other kids who say they don't like rock. I really don't know what to do about it. We can't afford two bands."	(1)	(2)	(3)	(4)

163

DO NOT CONTINUE
UNTIL TOLD TO DO SO.

2. (Continued)

	Very Helpful	Helpful	Harmful	Very Harmful
C. Tim: "I think we ought to put on a rock festival. We should get some big name stars and we could make a lot of money out of it. My idea could really put this school on the map!"	(1)	(2)	(3)	(4)
D. Beth: "That's the dumbest idea I ever heard. Where are you ever going to get the money?"	(1)	(2)	(3)	(4)

164

DO NOT CONTINUE
UNTIL TOLD TO DO SO.

2. (Continued).

Georgia: "Listen! Let's get back to the problem. We've got a lot of decisions to make about what kind of a dance to have, and we need more suggestions."

	Very Helpful	Helpful	Harmful	Very Harmful

6.

Here are descriptions of four 17-year-olds' different approaches to career planning. Read the descriptions, then answer the questions on the next page.

HENRY has given no thought to his future career, confident that something will come along. He believes that coincidence and luck are the most likely determinants of what he will be.

MARTHA is anxious about the future in a vague way, but has not really taken a good look at the decisions that face her. She worries sometimes but has not started to give her future careful examination.

BEATRICE has already made up her mind as to what she will become. Investigation of alternatives seems pointless and would only confuse her. She is positive she's made the right choice.

ALEX has begun to ask himself serious questions about what he wants out of life and has spent some time reviewing occupational information and test scores in an attempt to narrow his options.

6. (Continued)

Average Daily Balance is 160.99							1.61
The FINANCE CHARGE is computed by applying a periodic rate of 1% (12% ANNUAL PERCENTAGE RATE) to the average daily balance. The average daily balance is determined by totaling the balances outstanding for each day in the billing cycle and dividing that total by the number of days in the billing cycle. The outstanding balance for any given day is determined by adding to the prior day's ending balance any purchases made and subtracting any payments received or credits given. A maximum FINANCE CHARGE of 50¢ will be imposed if the average daily balance does not exceed \$50.00. No FINANCE CHARGE will be assessed for a billing period in which there is no previous balance or during which payments and credits equal or exceed the previous balance. To avoid additional finance charges pay the new balance not later than the last day of the month following your billing date.

DIRECTIONS FOR ANSWERING EXERCISES

In order to record your answers to each of the exercises in this booklet, you need to use the accompanying answer booklet. In the answer booklet, you should fill in one oval for each answer you choose. All answers must be recorded in the answer booklet. Each section of the answer booklet is labeled to correspond to each exercise.

Multiple Choice Exercises

The exercises in this booklet are followed by several suggested answers. For each exercise, choose the answer that you think is best, then locate the corresponding section in the answer booklet and fill in the oval for the answer you have chosen.

Example Exercise 1

Which one of the following organs pumps blood to every part of the body?

- (1) Liver
- (2) Stomach
- (3) Heart
- (4) I don't know.

Look at the first page of the answer booklet. At the top of the page is the answer section for Example Exercise 1. Notice that the oval containing number "3" has been filled in because answer choice number "3", the heart, is the correct answer.

Some multiple choice exercises in this booklet have answer choices that apply to several parts of the exercise, as shown in Example Exercise 2 on the next page. For practice, complete Example Exercise 2. Read through the example, then record your answers in the answer booklet. Part A has been completed for you. Complete Parts B and C on your own.

Example Exercise 2

Is each of the following statements about credit cards correct or incorrect?

Correct Incorrect I don't know.

A. All stores and restaurants will accept credit cards instead of cash.	(1)	(2)	(3)
B. Most credit cards require your signature on the cards.	(1)	(2)	(3)
C. You can borrow money from a bank with some credit cards.	(1)	(2)	(3)

In the answer booklet, for Part A the oval containing number "2" has been filled in because the statement is incorrect. Not all stores and restaurants will accept credit cards instead of cash. For Part B, the right answer choice is number "1"; for Part C, the right answer choice is also number "1". If you did not fill in the ovals for these answer choices in Parts B and C, do so now. Erase any other answers completely.

For most of the exercises, one of the answer choices is "I don't know." If you feel you don't know the answer, fill in the oval for "I don't know."

Calculations

For some exercises, you may need to calculate your answers. Use the scratch paper that has been given to you. Do not write, mark, or do calculations in the booklets.

Short Answer Exercises

For some exercises, you will be asked to write your answers. For this kind of exercise, write or print your answers on the lines provided in the answer booklet. If you feel you do not know the answers, write the words "I don't know" on the answer lines.

The Exercises in the Booklet

The exercises in this booklet are about career decisions, community resources, consumer affairs, family responsibilities, health maintenance and interpersonal relations. The first two exercises consist of conversations. Listen carefully to each part of the conversation. After each part has been completed, you will have time to choose your answer and record it in the answer booklet.

1. This exercise has four parts on this and the next page. Each part consists of a statement made by someone your age, and several possible responses to that statement. Which response would be most helpful to the person making the statement? Record your answers in the answer booklet.

A. "Last night we had a fire in our mobile home. Most of our clothes and furniture were destroyed."

- (1) "That's terrible."
- (2) "How long do you think you'll have to live with the neighbors?"
- (3) "Just be glad nobody got hurt."
- (4) "That's a real tragedy. I'll bring over some jeans and shirts for you."

(5) I don't know.

B. "Guess what! I got the lead in the play!"

- (1) "What's the name of the play?"
- (2) "Did Gene get a part too? I know he was hoping to."
- (3) "That's great! I really am happy for you."
- (4) "I don't know how you do so much and still make good grades."

(5) I don't know.

1. (Continue)

C. "Home life is really bad. My parents are always arguing at me. I
I'm afraid going home."

(1) "It must be pretty uncomfortable."

(2) "It happens to lots of kids."

(3) "How long has this been going on?"

(4) "Just keep your mouth shut."

(5) I don't know.

D. "Tom, you're doing really well in math. What's your secret?"

(1) "I don't know if it would work for you, but if you want me to, I'll
tell you how I study."

(2) "Hard work, baby, hard work. I've got to get into Med school."

(3) "Who knows?"

(4) "Yes, but you're doing better than I am in history."

(5) I don't know.

2. On this and the next two pages is part of a conversation that took place in a high school student committee meeting. Georgia is leading the committee and starts the conversation. How helpful or harmful are the responses of the other committee members in reaching the goal of the committee? Is each response "Very Helpful," "Helpful," "Harmful," or "Very Harmful?"

Georgia: "I guess you all know I was asked to be the head of this committee to plan a dance for our class. I hope we can make this the best dance we've ever had."

	Very Helpful	Helpful	Harmful	Very Harmful
A. Mary Alice: "Well, we never have any good dances. The chaperones always watch us like hawks."	(1)	(2)	(3)	(4)

Georgia: "Okay, any more comments?"

	Very Helpful	Helpful	Harmful	Very Harmful
B. Beth: "Well, we need to decide what kind of band we're going to have. We have some kids who want rock music and other kids who say they don't like rock. I really don't know what to do about it. We can't afford two bands."	(1)	(2)	(3)	(4)

2. (Continued)

	Very Helpful	Helpful	Harmful	Very Harmful
C. Tim: "I think we ought to put on a rock festival. We should get some big name stars and we could make a lot of money out of it. My idea could really put this school on the map!"	(1)	(2)	(3)	(4)
D. Beth: "That's the dumbest idea I ever heard. Where are you ever going to get the money?"	(1)	(2)	(3)	(4)

2. (Continued)

Georgia: "Listen! Let's get back to the problem. We've got a lot of decisions to make about what kind of a dance to have, and we need more suggestions."

	Very Helpful	Helpful	Harmful	Very Harmful
E. Mary Alice: "Why don't we develop a little questionnaire that we could give out in homeroom one day this week so we can find out what the kids are thinking."	(1)	(2)	(3)	(4)
F. Beth: "The principal would never let us hand out any questionnaire. They're always against everything we've ever tried to do."	(1)	(2)	(3)	(4)
G. Marcus: "It seems like we have a lot of different ideas. How about going ahead with the questionnaire and then decide."	(1)	(2)	(3)	(4)

DIRECTIONS FOR ANSWERING EXERCISES

In order to record your answers to each of the exercises in this booklet, you need to use the accompanying answer booklet. In the answer booklet, you should fill in one oval for each answer you choose. All answers must be recorded in the answer booklet. Each section of the answer booklet is labeled to correspond to each exercise.

Multiple Choice Exercises

The exercises in this booklet are followed by several suggested answers. For each exercise, choose the answer that you think is best, then locate the corresponding section in the answer booklet and fill in the oval for the answer you have chosen.

Example Exercise 1

Which one of the following organs pumps blood to every part of the body?

- (1) Liver
- (2) Stomach
- (3) Heart
- (4) I don't know.

Look at the first page of the answer booklet. At the top of the page is the answer section for Example Exercise 1. Notice that the oval containing number "3" has been filled in because answer choice number "3", the heart, is the correct answer.

Some multiple choice exercises in this booklet have answer choices that apply to several parts of the exercise, as shown in Example Exercise 2 on the next page. For practice, complete Example Exercise 2. Read through the example, then record your answers in the answer booklet. Part A has been completed for you. Complete Parts B and C on your own.

Example Exercise 2

Is each of the following statements about credit cards correct or incorrect?

	Correct	Incorrect	I don't know.
A. All stores and restaurants will accept credit cards instead of cash.	(1)	(2)	(3)
B. Most credit cards require your signature on the cards.	(1)	(2)	(3)
C. You can borrow money from a bank with some credit cards.	(1)	(2)	(3)

In the answer booklet, for Part A the oval containing number "2" has been filled in because the statement is incorrect. Not all stores and restaurants will accept credit cards instead of cash. For Part B, the right answer choice is number "1"; for Part C, the right answer choice is also number "1". If you did not fill in the ovals for these answer choices in Parts B and C, do so now. Erase any other answers completely.

For most of the exercises, one of the answer choices is "I don't know." If you feel you don't know the answer, fill in the oval for "I don't know."

Calculations

For some exercises, you may need to calculate your answers. Use the scratch paper that has been given to you. Do not write, mark, or do calculations in the booklets.

Short Answer Exercises

For some exercises, you will be asked to write your answers. For this kind of exercise, write or print your answers on the lines provided in the answer booklet. If you feel you do not know the answers, write the words "I don't know" on the answer lines.

The Exercises in the Booklet

The exercises in this booklet are about career decisions, community resources, consumer affairs, family responsibilities, health maintenance and interpersonal relations.

6. Knowing how to use a business telephone properly is an important skill. For each of the situations on this and the next two pages, choose the one response that is the best way to handle that business call.

A. Your boss has just come back from lunch, and you say:

- (1) "Oh, Mr. Leone, you have a call to return to Acme Colors. The name and number are on your desk."
- (2) "Oh, Mr. Leone, a man called from Acme Colors. He asked you to call back. I think it was their accountant."
- (3) I don't know.

B. A customer calls asking for some repair parts, and you say:

- (1) "No, the DT25L and DS27L aren't being regionally distributed. Arco Associates might still carry them. I can put G.K. on the line to fill you in on Arco."
- (2) "I'm sorry, sir, the parts you would need are no longer available. George Keller might be able to direct you to another supplier. Would you like to speak with him?"
- (3) I don't know.

6. (Continued)

C. Someone wants to speak to your office manager, but he's busy. You put the caller on hold, and cut back in after about a minute, saying:

- (1) "Sorry, he's not available yet. Would you like to continue to hold?"
- (2) "Sorry, he's still talking to the boss on the other line. What was it you wanted again?"

(3) I don't know.

D. A caller wants some information. You say:

- (1) "Yes, I know where that information is. It's in another office down the hall. Hold on and I'll go and get it for you."
- (2) "Yes, I know where that information is, but it will take 2 or 3 minutes. Would you like me to call you back?"
- (3) I don't know.

6. (Continued)

DIRECTIONS FOR ANSWERING EXERCISES.

In order to record your answers to each of the exercises in this booklet, you need to use the accompanying answer booklet. In the answer booklet, you should fill in one oval for each answer you choose. All answers must be recorded in the answer booklet. Each section of the answer booklet is labeled to correspond to each exercise.

Multiple Choice Exercises

The exercises in this booklet are followed by several suggested answers. For each exercise, choose the answer that you think is best, then locate the corresponding section in the answer booklet and fill in the oval for the answer you have chosen.

Example Exercise 1

Which one of the following organs pumps blood to every part of the body?

- (1) Liver
- (2) Stomach
- (3) Heart
- (4) I don't know.

Look at the first page of the answer booklet. At the top of the page is the answer section for Example Exercise 1. Notice that the oval containing number "3" has been filled in because answer choice number "3", the heart, is the correct answer.

Some multiple choice exercises in this booklet have answer choices that apply to several parts of the exercise, as shown in Example Exercise 2 on the next page. For practice, complete Example Exercise 2. Read through the example, then record your answers in the answer booklet. Part A has been completed for you. Complete Parts B and C on your own.

Example Exercise 2

Is each of the following statements about credit cards correct or incorrect?

	Correct	Incorrect	I don't know.
A. All stores and restaurants will accept credit cards instead of cash.	(1)	(2)	(3)
B. Most credit cards require your signature on the cards.	(1)	(2)	(3)
C. You can borrow money from a bank with some credit cards.	(1)	(2)	(3)

In the answer booklet, for Part A the oval containing number "2" has been filled in because the statement is incorrect. Not all stores and restaurants will accept credit cards instead of cash. For Part B, the right answer choice is number "1"; for Part C, the right answer choice is also number "1". If you did not fill in the ovals for these answer choices in Parts B and C, do so now. Erase any other answers completely.

For most of the exercises, one of the answer choices is "I don't know." If you feel you don't know the answer, fill in the oval for "I don't know."

Calculations

For some exercises, you may need to calculate your answers. Use the scratch paper that has been given to you. Do not write, mark, or do calculations in the booklets.

Short Answer Exercises

For some exercises, you will be asked to write your answers. For this kind of exercise, write or print your answers on the lines provided in the answer booklet. If you feel you do not know the answers, write the words "I don't know" on the answer lines.

The Exercises in the Booklet

The exercises in this booklet are about career decisions, community resources, consumer affairs, family responsibilities, health maintenance and interpersonal relations.

46X8 SOLDIERS OF THE AMERICAN REVOLUTION—A SKETCHBOOK. As a contribution to the Nation's bicentennial celebration, renowned military artist H. Charles McBarron was commissioned to produce a series of paintings entitled "Soldiers of the American Revolution," for which the artist made detailed sketches of each scene as part of his preparations. This large-format publication brings together McBarron's sketches and paintings, which depict scenes from the War for Independence, and gives students an insight into the research and preparation required for such work. The reproductions also allow comparison of the artist's initial efforts with the final product. 1976. 40 p. il.

FRESHMEN INTERESTED IN NURSING AND ALLIED HEALTH PROFESSIONS. The following two books review and analyze a wide variety of information on the health career aspirations and plans of college students, particularly women and minorities. It focuses on those first-time, full-time 1974 freshmen who, at college entry, named nursing or a related field as their long-term career choice. These students are described, the characteristics of women and black members of the class are examined, and trends in the characteristics of aspiring nursing professionals are analyzed.
