## ABSTRACT

This is the fifth edition of a list of postsecondary educational institutions and programs that are accredited by, or that have preaccredited status awarded by, the regional and national accrediting agencies formally recognized by the Secretary of Education. In addition to the lists of postsecondary specialized and vocational institutions and institutions of higher education accredited as of September 1, 1980, this publication includes those having preaccredited status with the recognized accrediting agencies. Not included are lists of institutions that are approved, recognized, classified, or licensed by state agencies. The introduction offers information on the following: functions of accreditation, the accrediting procedure, types of accreditation, national recognition (including criteria and procedure from the Federal Register for recognizing accrediting bodies), preaccreditation status definition, the Division of Eligibility and Agency Evaluation within the U.S. Bureau of Postsecondary Education and the functions of the National Advisory Committee on Accreditation and Institutional Eligibility as established by the Education Amendments of 1980. Part I of the volume lists accredited or preaccredited postsecondary educational institutions with postsecondary programs. It also provides names and addresses of the regional accrediting associations. Part II identifies accredited or preaccredited professional, technical, occupational, and specialized schools or programs (e.g., in allied health education, architecture, art, Bible college education, business, chiropractic, cosmetology). Appendices include names and addresses of nationally recognized accrediting agencies and associations and accrediting agencies and associations recognized by the U.S. Commissioner of Education for Preaccreditation. ## Foreword

This is the fifth edition of a list of postsecondary educational institutions and programs which are accredited by, or which have preaccredited status awarded by, the regional and national accrediting agencies formally recognized by the Secretary of Education. The first three editions in this series were published in the early 1970's, after which publication was suspended while we developed a new automated data system. Beginning with the 1979 edition, the list is being reissued annually to record the changes that occur among the institutions and programs that are accredited, or have a preaccredited status.

In addition to the lists of postsecondary specialized and vocational institutions and institutions of higher education which have attained accredited status as of September 1, 1980, this publication includes those institutions or programs which have attained a preaccredited status with the accrediting agencies having recognized procedures for assigning such status. Not included are lists of institutions that are approved, recognized, classified, or licensed by State agencies authorized to perform these legal functions.

This 1980 edition of *Accredited Postsecondary Institutions and Programs* has been compiled by automated data processing equipment from data stored in the information retrieval system maintained by the Division of Eligibility and Agency Evaluation in the office of postsecondary education and reproduced by the linotron process in the U.S. Government Printing Office.

The Department of Education is grateful to the officers of the regional and national accrediting agencies who supplied the data contained in this publication.

# Introduction

The United States has no Federal ministry of education or other centralized authority exercising single national control over educational institutions in this country. The States assume varying degrees of control over education, but, in general, institutions of postsecondary education are permitted to operate with considerable independence and autonomy. As a consequence, American educational institutions can vary widely in the character and quality of their programs.

In order to insure a basic level of quality, the practice of accreditation arose in the United States as a means of conducting nongovernmental, peer evaluation of educational institutions and programs. Private educational associations of regional or national scope have adopted criteria reflecting the qualities of a sound educational program and have developed procedures for evaluating institutions or programs to determine whether or not they are operating at basic levels of quality.

## FUNCTIONS OF ACCREDITATION

1. Certifying that an institution has met established standards;
2. Assisting prospective students in identifying acceptable institutions;
3. Assisting institutions in determining the acceptability of transfer credits;
4. Helping to identify institutions and programs for the investment of public and private funds;
5. Protecting an institution against harmful internal and external pressures;
6. Creating goals for self-improvement of weaker programs and stimulating a general raising of standards among educational institutions;
7. Involving the faculty and staff comprehensively in institutional evaluation and planning;
8. Establishing criteria for professional certification, licensure, and for upgrading courses offering such preparation; and

9. Providing one of several considerations used as a basis for determining eligibility for Federal assistance.

## THE ACCREDITING PROCEDURE

Accrediting usually involves five basic steps:

1. Standards: The accrediting agency, in collaboration with educational institutions, establishes standards.
2. Self-study: The institution or program seeking accreditation prepares a self-evaluation study that measures its performance against the standards established by the accrediting agency.
3. Onsite Evaluation: A team selected by the accrediting agency visits the institution or program to determine firsthand if the applicant meets the established standards.
4. Publication: Upon being satisfied that the applicant meets its standards, the accrediting agency lists the institution or program in an official publication with other similarly accredited institutions or programs.
5. Reevaluation: The accrediting agency periodically reevaluates the institutions or programs that it lists to ascertain that continuation of the accredited status is warranted.

## TYPES OF ACCREDITATION

There are two basic types of educational accreditation, one identified as "institutional" and one referred to as "specialized," or "programmatic."

Institutional accreditation normally applies to an entire institution, indicating that each of its parts is contributing to the achievement of an institution's objectives, although not necessarily all on the same level of quality. The various commissions of the regional accrediting associations, for example, perform institutional accreditation, as do some national accrediting agencies.

Specialized accreditation normally applies to evaluation of programs, departments or schools which usually are

parts of a total collegiate or other postsecondary institution. The unit accredited may be as large as a college or school within a university or as small as a curriculum within a discipline. Most of the specialized accrediting agencies review units within a postsecondary institution which is accredited by one of the regional accrediting commissions. However, certain of the specialized accrediting agencies do accredit professional schools and other specialized or vocational or other postsecondary institutions which are free standing in their operations. Thus, a "specialized" or "programmatic" accrediting agency may also function in the capacity of an "institutional" accrediting agency. In addition, a number of specialized accrediting agencies accredit educational programs within noneducational settings, such as hospitals.

Accreditation does not provide automatic acceptance by an institution of credit earned in another institution, nor does it give assurance of acceptance of graduates by employers. Acceptance of students or graduates is always the prerogative of the receiving institution or employer. For these reasons, besides ascertaining the accredited status of a school or program, students should take additional measures to determine, prior to enrollment, whether or not their educational goals will be met through attendance at a particular institution. These measures should include inquiries to institutions to which transfer might be desired or to prospective employers, and personal inspection of the institution in which enrollment is contemplated.

## NATIONAL RECOGNITION

For various Federal purposes, the U.S. Secretary of Education is required by statute to publish a list of nationally recognized accrediting agencies and associations which the Secretary determines to be reliable authorities as to the quality of education or training offered by educational institutions and programs.

Most postsecondary institutions attain eligibility for Federal funds by holding accredited or preaccredited status with one of the accrediting bodies recognized by the Secretary of Education, in addition to fulfilling other eligibility requirements. In some legislation, provision is made for special qualifying steps that may be taken as alternatives to the normal accreditation process.

The commissions of the regional associations and the national accrediting agencies which are recognized by the Secretary have no legal control over educational institutions or programs. They promulgate standards of quality or criteria of institutional excellence and approve

or admit to membership those institutions that meet the standards or criteria.

The following information concerning the criteria and procedures for recognizing accrediting bodies was published in the Federal Register on August 20, 1974, under Title 45—Public Welfare, Chapter I—Office of Education, Department of Health, Education, and Welfare.

#### Subpart A—Criteria for Nationally Recognized Accrediting Agencies and Associations

##### § 149.1 Scope.

Accreditation of institutions or programs of institutions by agencies or associations nationally recognized by the U.S. Commissioner of Education is a prerequisite to the eligibility for Federal financial assistance of institutions and of the students attending such institutions under a wide variety of federally supported programs. The recognition of such agencies is reflected in lists published by the Commissioner in the Federal Register. Inclusion on such list is dependent upon the Commissioner's finding that any such recognized agency or association is reliable authority as to the quality of training offered. The Commissioner's recognition is granted and the agency or association is included on the list only when it meets the criteria established by the Commissioner and set forth in § 149.6 of this part.

(20 U.S.C. 1141(a))

##### § 149.2 Definitions.

"Accrediting" means the process whereby an agency or association grants public recognition to a school, institute, college, university, or specialized program of study which meets certain established qualifications and educational standards, as determined through initial and periodic evaluations. The essential purpose of the accreditation process is to provide a professional judgment as to the

quality of the educational institution or program(s) offered, and to encourage continual improvement thereof;

"Adverse accrediting action" means denial of accreditation or preaccreditation status or the withdrawal of accreditation or preaccreditation status;

"Agency or association" means a corporation, association, or other legal entity or unit thereof which has the principal responsibility for carrying out the accrediting function;

"Institutional accreditation" applies to the total institution and signifies that the institution as a whole is achieving its educational objectives satisfactorily;

"Regional" means the conduct of institutional accreditation in three or more States;

"Representatives of the public" means representatives who are laymen in the sense that they are not educators in, or members of the profession for which the students are being prepared, nor in any way are directly related to the institutions or programs being evaluated;

"States" includes the District of Columbia and territories and possessions of the United States.

(20 U.S.C. 1141(a))

### **§ 149.3 Publication of list.**

Periodically the U.S. Commissioner of Education will publish a list in the Federal Register of the accrediting agencies and associations which he determines to be reliable authorities as to the quality of training offered by educational institutions or programs, either in a geographical area or in a specialized field. The general scope of the recognition granted to each of the listed accrediting bodies will also be listed.

(20 U.S.C. 1141(a))

### **§ 149.4 Inclusion on list.**

Any accrediting agency or association which desires to be listed by the Commissioner as meeting the criteria set forth in § 149.6 should apply in writing to the Director, Division of Eligibility and Agency Evaluation, Office of Postsecondary Education, U.S. Department of Education, Washington, D.C. 20202.

(20 U.S.C. 1141(a))

### **§ 149.5 Initial recognition and renewal of recognition.**

(a) For initial recognition and for renewal of recognition, the accrediting agency or association will furnish information establishing its compliance with the criteria set forth in § 149.6. This information may be supplemented by personal interviews or by review of the agency's facilities, records, personnel qualifications, and administrative management. Each agency listed will be reevaluated by the Commissioner at his discretion, but at least once every 4 years. No adverse decision will become

final without affording opportunity for a hearing.

(b) In view of the criteria set forth in § 149.6, it is unlikely that more than one association or agency will qualify for recognition: (1) in a defined geographical area of jurisdiction or (2) in a defined field of program specialization within secondary or postsecondary education. If two or more separate organizations in a defined field do seek recognition, they will both be expected to demonstrate need for their activities and show that their accrediting activities do not unduly disrupt the affected institution or program.

(20 U.S.C. 1141(a))

### **§ 149.6 Criteria.**

In requesting designation by the U.S. Commissioner of Education as a nationally recognized accrediting agency or association, an accrediting agency or association must show:

(a) *Functional aspects* Its functional aspects will be demonstrated by:

(1) *Its scope of operations:*

- (i) The agency or association is national or regional in its scope of operations.
- (ii) The agency or association clearly defines in its charter, by-laws or accrediting standards the scope of its activities, including the geographical area and the types and levels of institutions or programs covered.

(2) *Its organization*

- (i) The agency or association has the administrative personnel and procedures to carry out its operations in a timely and effective manner.
- (ii) The agency or association defines its fiscal needs, manages its expenditures, and has adequate financial resources to carry out its operations, as shown by an externally audited financial statement.
- (iii) The agency's or association's fees, if any, for the accreditation process do not exceed the reasonable cost of sustaining and improving the process.
- (iv) The agency or association uses competent and knowledgeable persons, qualified by experience and training, and selects such persons in accordance with nondiscriminatory practices:
  - (A) to participate on visiting evaluation teams;
  - (B) to engage in consultative services for the evaluation and accreditation process, and
  - (C) to serve on policy and decisionmaking bodies.
- (v) The agency or association includes on each visiting evaluation team at least one person

who is not a member of its policy or decision-making body or its administrative staff.

(3) *Its procedures.*

- (i) The agency or association maintains clear definitions of each level of accreditation status and has clearly written procedures for granting, denying, reaffirming, revoking, and reinstating such accredited statuses.
- (ii) The agency or association, if it has developed a preaccreditation status, provides for the application of criteria and procedures that are related in an appropriate manner to those employed for accreditation.
- (iii) The agency or association requires, as an integral part of its accrediting process, institutional or program self-analysis and an on-site review by a visiting team.
  - (A) The self-analysis shall be a qualitative assessment of the strengths and limitations of the institution or program, including the achievement of institutional or program objectives, and should involve a representative portion of the institution's administrative staff, teaching faculty, students, governing body, and other appropriate constituencies.
  - (B) The agency or association provides written and consultative guidance to the institution or program and to the visiting team.

(b) *Responsibility.* Its responsibility will be demonstrated by the way in which--

- (1) Its accreditation in the field in which it operates serves clearly-identified needs, as follows:
  - (i) The agency's or association's accreditation program takes into account the rights, responsibilities, and interests of students, the general public, the academic, professional, or occupational fields involved, and institutions.
  - (ii) The agency's or association's purposes and objectives are clearly defined in its charter, by-laws, or accrediting standards.
- (2) It is responsive to the public interest, in that:
  - (i) The agency or association includes representatives of the public in its policy and decisionmaking bodies, or in an advisory or consultative capacity that assures attention by the policy and decision-making bodies.
  - (ii) The agency or association publishes or otherwise makes publicly available:
    - (A) The standards by which institutions or programs are evaluated;
    - (B) The procedures utilized in arriving at decisions regarding the accreditation status of an institution or program;

(C) The current accreditation status of institutions or programs and the date of the next currently scheduled review or reconsideration of accreditation;

(D) The names and affiliations of members of its policy and decision-making bodies, and the name(s) of its principal administrative personnel;

(E) A description of the ownership, control, and type of legal organization of the agency or association

- (iii) The agency or association provides advance notice of proposed or revised standards to all persons, institutions, and organizations significantly affected by its accrediting process, and provides such persons, institutions, and organizations adequate opportunity to comment on such standards prior to their adoption.
- (iv) The agency or association has written procedures for the review of complaints pertaining to institutional or program quality, as these relate to the agency's standards and demonstrates that such procedures are adequate to provide timely treatment of such complaints in a manner that is fair and equitable to the complainant and to the institution or program.
- (3) It assures due process in its accrediting procedures, as demonstrated in part by:
  - (i) Affording initial evaluation of the institutions or programs only when the chief executive officer of the institution applies for accreditation of the institution or any of its programs;
  - (ii) Providing for adequate discussion during an on-site visit between the visiting team and the faculty, administrative staff, students, and other appropriate persons;
  - (iii) Furnishing, as a result of an evaluation visit, a written report to the institution or program commenting on areas of strengths, areas needing improvement and, when appropriate, suggesting means of improvement and including specific areas, if any, where the institution or program may not be in compliance with the agency's standards;
  - (iv) Providing the chief executive officer of the institution or program with an opportunity to comment upon the written report and to file supplemental materials pertinent to the facts and conclusions in the written report of the visiting team before the accrediting agency or association takes action on the report;
  - (v) Evaluating, when appropriate, the report of the visiting team in the presence of a member of the team, preferably the chairman;

- (vi) Providing for the withdrawal of accreditation only for cause, after review, or when the institution or program does not permit reevaluation, after due notice;
- (vii) Providing the chief executive officer of the institution with a specific statement of reasons for any adverse accrediting action, and notice of the right to appeal such action;
- (viii) Establishing and implementing published rules of procedure regarding appeals which will provide for:
  - (A) No change in the accreditation status of the institution or program pending disposition of an appeal;
  - (B) Right to a hearing before the appeal body;
  - (C) Supplying the chief executive officer of the institution with a written decision of the appeal body, including a statement of specifics.
- (4) It has demonstrated capability and willingness to foster ethical practices among the institutions or programs which it accredits, including equitable student tuition refunds and nondiscriminatory practices in admissions and employment.
- (5) It maintains a program of evaluation of its educational standards designed to assess their validity and reliability.
- (6) It secures sufficient qualitative information regarding the institution or program which shows an ongoing program of evaluation of outputs consistent with the educational goals of the institution or program.
- (7) It encourages experimental and innovative programs to the extent that these are conceived and implemented in a manner which ensures the quality and integrity of the institution or program.
- (8) It accredits only those institutions or programs which meet its published standards, and demonstrates that its standards, policies, and procedures are fairly applied and that its evaluations are conducted and decisions rendered under conditions that assure an impartial and objective judgment.
- (9) It reevaluates at reasonable intervals institutions or programs which it has accredited.
- (10) It requires that any reference to its accreditation of accredited institutions and programs clearly specifies the areas and levels for which accreditation has been received.

(c) *Reliability.* Its reliability is demonstrated by—

- (1) Acceptance throughout the United States of its

policies, evaluation methods, and decisions by educators, educational institutions, licensing bodies, practitioners, and employers;

- (2) Regular review of its standards, policies, and procedures, in order that the evaluative process shall support constructive analysis, emphasize factors of critical importance, and reflect the educational and training needs of the student;

- (3) Not less than 2 years' experience as an accrediting agency or association;

- (4) Reflection in the composition of its policy and decision-making bodies of the community of interests directly affected by the scope of its accreditation.

(d) *Autonomous.* Its autonomy is demonstrated by evidence that—

- (1) It performs no function that would be inconsistent with the formation of an independent judgment of the quality of an educational program or institution;

- (2) It provides in its operating procedures against conflict of interest in the rendering of its judgments and decisions.

(20 U.S.C. 1141(a) et al.)

## PREACCREDITATION STATUS

"Preaccreditation status" means status awarded by an accrediting agency or association, after favorable review, to an educational institution or program that is working toward accreditation status.

## THE DIVISION OF ELIGIBILITY AND AGENCY EVALUATION

The Division of Eligibility and Agency Evaluation, formerly the Accreditation and Institutional Eligibility Staff, was established in 1968 by the Commissioner of Education to deal with accreditation and eligibility matters. Located in the Bureau of Postsecondary Education, the Division has the following major functions:

- 1. Continuous review of procedures, policies, and issues in the area of the Department of Education's interests and responsibilities relative to accreditation and eligibility for funding;
- 2. Administration of the eligibility for funding process;
- 3. Administration of the process whereby accrediting associations secure initial and renewed recognition by the Secretary of Education;
- 4. Liaison with accrediting associations
- 5. Consultative services to institutions, associations, other Federal agencies, and Congress regarding accreditation and eligibility for funding considerations;
- 6. Interpretation and dissemination of policy relative to

accreditation and eligibility for funding issues in the case of all appropriate programs administered by the Department of Education;

7. Conduct and stimulation of appropriate research, and
8. Support for the National Advisory Committee on Accreditation and Institutional Eligibility.

## **THE NATIONAL ADVISORY COMMITTEE ON ACCREDITATION AND INSTITUTIONAL ELIGIBILITY**

The National Advisory Committee on Accreditation and Institutional Eligibility was established under the Education Amendments of 1980 (P.L. 96-374). It is composed of 15 persons appointed to 3-year terms by the Secretary of Education, from various segments of the secondary and postsecondary education community, the student/youth population, State departments of education, professional associations, and the general public.

### **FUNCTIONS**

The committee functions to assist the U.S. Secretary of Education in the performance of eligibility determining duties imposed by Public Law 82-550, the Veterans' Readjustment Assistance Act of 1952, and subsequent legislation. It also serves to advise the Secretary on broader policy matters and specific issues relating to accreditation and institutional eligibility for Federal funding. Specifically, the committee is mandated to:

1. Review all current and future policies relating to the responsibility of the Secretary for the recognition and designation of accrediting agencies and associations wishing to be designated as nationally recognized accrediting agencies and associations, and recommend desirable changes in criteria and procedures;
2. Review all current and future policies relating to the responsibility of the Secretary for the recognition and listing of State agencies wishing to be designated as reliable authority as to the quality of public postsecondary vocational education, and of nurse education, and recommend desirable changes in criteria and procedures;
3. Review and advise the Secretary of Education in the formation of all current and future policy relating to the matter of institutional eligibility;
4. Review the provisions of current legislation affecting Department of Education responsibility in the area of accreditation and institutional eligibility and suggest needed changes to the Secretary of Education;
5. Develop and recommend to the Secretary of Education criteria and procedures for the recognition and designation of accrediting agencies and associa-

tions in accordance with legislative provisions, Presidential directives, or interagency agreements

6. Review and recommend to the Secretary of Education for designation as nationally recognized accrediting agencies and associations of reliable authority all applicant accrediting agencies and associations which meet criteria established under (5) above.
7. Develop and recommend to the Secretary of Education criteria and procedures for the recognition, designation and listing of State agencies in accordance with statutory provisions, Executive orders, or interagency agreements.
8. Review and recommend to the Secretary of Education for designation as State agencies of reliable authority as to the quality of public postsecondary vocational education, and of nurse education, all applicant State agencies which meet criteria established under (7) above.
9. Develop, under the authority of the Vocational Education Act of 1963, as amended, and recommend for the approval of the Secretary of Education, standards and criteria for specific categories of private vocational training institutions which have no alternative route by which to establish eligibility for Federal funding programs;
10. Develop, under the authority of the Higher Education Act of 1965, as amended, and recommend for the approval of the Secretary of Education, standards and criteria for specific categories of institutions of higher education, for which there is no recognized accrediting agency or association, in order to establish eligibility for participation in the student loan programs authorized by title IV-B thereof;
11. Maintain a continuous review of Department of Education administrative practice, procedures, and judgments relating to accreditation and institutional eligibility and advise the Secretary of needed changes;
12. Keep within its purview the accreditation and approval process as it develops in all levels of education.
13. Advise the Secretary of Education concerning the relations of the Department with accrediting agencies or associations, or other approval bodies as the Secretary may request;
14. Advise the Secretary of Education, pursuant to the Bureau of Budget (Office of Management and Budget) policy dated December 23, 1954, regarding the award of degree-granting status to Federal agencies and institutions;
15. Not later than March 31 of each year, make an annual report of its activities, findings, and recommendations.

# PART I

## Postsecondary Educational Institutions and Secondary Educational Institutions with Postsecondary Programs Accredited or Preaccredited by Regional Commissions and Regional Associations Recognized by the U.S. Secretary of Education.

Following the listing of each institution by State, dates of initial accreditation and latest renewal or reaffirmation of accreditation are given. The dates given do not reflect changes in the accredited status of an institution. The initial date of accrediting, whether as a 2-year or 4-year college, is reported. Secondary schools offering one or more postsecondary educational programs are also listed if their accrediting agency is recognized by the U.S. Secretary of Education. To conserve space, such phrases as 'School of Practical Nursing,' 'School of Religion,' 'School of Medicine' etc. have been omitted from the names of schools and programs except where they are necessary for identity. The information is current as of September 1, 1980.

This directory lists only the institutions or their branches which have separate accredited or preaccredited status. Any other locations which are included in the institutions' status are not listed. For the most part, the information for this listing appears as provided by the accrediting associations, with only those editorial changes necessary for consistency of format. Any questions regarding the information contained in the listing should be directed to the appropriate commission of the association. The addresses follow:

## PART II

### Professional, Technical, Occupational, and Specialized Schools or Programs Accredited and Preaccredited by National Specialized Accrediting Agencies Recognized by the U.S. Secretary of Education

Preceding each of the following lists of accredited and preaccredited professional, technical, occupational, or specialized schools or programs is the name of the accrediting agency, and the name and address of its secretary or other responsible officer. The information is current as of September 1, 1980. Accreditation is shown by curriculum for professional engineering and engineering technology. To conserve space, such phrases as 'School of Practical Nursing', 'School of Religion', 'School of Medicine', etc. have been omitted from the names of schools and programs except where they are necessary for identity.

Many of the accrediting boards and/or associations shown in this part do not accredit entire institutions. Their scope of accreditation is limited to programs offered by the institutions listed below.
