**ABSTRACT**

Information on North Dakota degree and certificate programs available and student program completions for fiscal year 1986-87 in postsecondary educational institutions is presented. A completed program is defined as one where the individual meets all necessary requirements to obtain a degree or certificate in that field of study. Education codes are explained. A list of abbreviations of colleges is offered along with names of the chief administrators at the two-year and four-year institutions. Institutional changes per academic year are noted in a table. One- and two-year program offerings by field in public and private institutions are listed. Additional sections list bachelor's program offerings by field in public and private institutions, master's and doctoral program offerings by field, and programs offered by Classification of Instructional Programs (CIP) code. Under the section on student completions by program, data are given on one- and two-year student completions, bachelor's degree program completions, master's and doctoral degree program completions, and program completers by field of study (with statistics from 1976-77, 1985-86, and 1986-87). ## INTRODUCTION

This report provides information on degree and certificate programs offered and student program completions for fiscal year 1986-87 in North Dakota postsecondary educational institutions.

Institutional programs are coded, in accordance with the Classification of Instructional Programs (CIP Code) system provided by the Center for Statistics branch of the United States Department of Education. To assist readers, programs have been organized by level of offering: one and two year, bachelor's or graduate. Information included was provided by administrators at each institution.

Individuals desiring additional program information about vocational-technical programs should check the directory published by the State Board for Vocational Education. Students desiring information about institutional tuition, fees, room and board rates and financial aid should contact the institutions admissions office directly.

## DEFINITIONS

### Program Completed

A completed program is one in which the individual has met all of the requirements to obtain a degree or certificate in that field of study. This number may vary slightly from degrees granted since one person may complete two programs yet receive only one degree. This publication reports only programs completed.

### Education Codes

CIP Codes with a 13 prefix indicate a program in education. Fields of study that offer an option that includes teaching certification list the corresponding education CIP Code in parentheses. Individuals looking for education programs should look under both the 13 code and the field of study.
