ABSTRACT

This curriculum guide was developed as a resource for teachers to use in planning and implementing a competency-based instructional program at the middle school level. It contains materials for a semester-long consumer home economics course based on the North Carolina Vocational Education Program of Studies, Revised 1992. The four units of the curriculum cover resource management, nutrition and wellness, personal and social responsibility, and fashion and appearance. Teaching/learning strategies in the curriculum include the following: applying basic academic skills, encouraging critical and creative thinking skills, problem solving, decision making and higher-order thinking skills, developing life and work skills, promoting cooperative learning, and enhancing a positive self-concept. Units include a rationale, competency, objective, suggested time, teaching outline keyed to teaching strategies and learning activities, and suggested resources. Other contents are as follows: a course blueprint; a resource list of state-adopted textbooks and other publications, software, videotapes, and other resources, with addresses of vendors; equipment and supply lists; and an outline of developmental characteristics of early adolescents. ## FOREWORD

The new exploratory vocational and technical education program for the middle grades will result in the student being able to make good decisions at school, in the community, and within the family. The experiences which are a part of the program will provide an essential foundation for the development of a realistic, useful career development plan for each student.

The student will examine self and the changing nature of the workplace and employ contemporary and emerging technology to explore and define his/her role in the global community.

I hope this guide will be useful to you and to your students.

  
Bob Etheridge  
State Superintendent  
of Public Instruction

**Activities and procedures within the Division of Vocational and Technical Education Services are governed by the philosophy of simple fairness to all. Therefore, the policy of the Division is that all operations will be performed without regard to race, sex, color, national origin, or handicap.**

## INTRODUCTION

Today's world is different. So is today's child. With the growing cognizance that education must also change to accommodate these differences has come a shift to the middle grades philosophy of teaching and learning for the early adolescent. Articulated, integrated, interdisciplinary teaching strategies and learning activities develop personal and interpersonal skills which enable the youth to effectively apply theoretical knowledge to real-world circumstances as today's student and tomorrow's productive citizen.

The Exploring Life Skills curriculum is responsive to the developmental needs of the early adolescent and reflects the priorities and concerns related to managing resources; making life, career and consumer decisions; improving nutrition and wellness; conserving limited resources; and understanding the impact of new technology. The teaching/learning strategies in this curriculum include: applying basic academic skill; encouraging critical and creative thinking skills, problem-solving, decision-making as well as other higher order thinking skills; developing life and work skills; promoting cooperative learning; and enhancing positive self-concept.

Curriculum development for Exploring Life Skills was funded by a Consumer Home Economics Grant established by the Carl D. Perkins Vocational and Applied Technology Education Act of 1990 under Title III, Part B. Grants are to result in improved learning opportunities for public school students in grades 7-12 in Consumer Home Economics Education classrooms. The grants are for program development, improvement of instruction and curricula, and support services and activities in Consumer Home Economics Education. The grants are to be innovative, exemplary and have statewide implications.

## ACKNOWLEDGMENTS

The Division of Vocational and Technical Education Services and the Home Economics Consultant staff wish to acknowledge Joanna N. Peterson in her role as Director of this Consumer Home Economics Grant. Special recognition is due to Dr. Deborah T. Tippet, project consultant and to the following Advisory Committee Members who played a major role in the development of the curriculum.

Joanna N. Peterson, Project Director  
High Point Public Schools  
High Point, NC

Deborah Tippet, Ph.D., C.H.E., Project Consultant  
Associate Professor  
Meredith College  
Raleigh, NC

Mary Alice Bryson, Teacher  
Northwest Middle School  
Charlotte, NC

Maggie Holmes, Project Director  
Project Taking Charge  
American Home Economics Association  
Alexandria, VA

Margaret G. Chase, C.H.E. Project Director  
Wake County Public Schools  
Raleigh, NC

Bettye Lewis, Teacher  
Spring Creek Elementary School  
Seven Springs, NC

Dian Cooley, Teacher  
Central Middle School  
Dobson, NC

Bena Mann, Teacher  
Broadcreek Middle School  
Newport, NC

Gary Hobbs, Vocational Director  
Pitt County Schools  
Greenville, NC

Recognition is given to the Randolph County School System for the sponsorship of this grant and to Darrell Hill, Vocational Director, Randolph County Schools, for his support and guidance.

Appreciation is extended to the total Home Economics Staff of the Department of Public Instruction for their leadership, cooperation, and assistance. Special recognition is given to Melinda Lassister for her tireless efforts.

Acknowledgment is due to Leslie V. Mathews for editing the curriculum guide.

Rebecca B. Payne, C.H.E., State Consultant  
Home Economics Education

## USING THE CURRICULUM

The Exploring Life Skills Curriculum Guide has been developed as a resource for teachers to use in planning and implementing a competency-based instructional program at the middle school level. Exploring Life Skills is a semester-long Consumer Home Economics course offered for students in grades 7-8. The course description which follows is taken from the North Carolina Vocational Education Program of Studies, Revised 1992.

### PART I: COURSE DESCRIPTION

HE7018

(S-1)

Max Enr: 18

#### **Exploring Life Skills**

Designed to explore and apply life management skill experiences to the essential tasks of everyday life. Students practice social, human relations, and communication skills for use in the home and workplace. Factors which influence personality, self-concept, and personal image are studied. Students plan snack and meals for personal and family wellness. They explore related career opportunities. The productive use of life management skills in the workplace in a focus throughout the course.

### PART II: THE CURRICULUM

Each curriculum page includes the following information:

**COURSE NAME:** Title of course as provided by the state.

**UNIT:** Indicates the unit of instruction.

**COMPETENCY and COMPETENCY NUMBER:** Identifies the competency statement and the number based on the course blueprint.

**OBJECTIVE and OBJECTIVE NUMBER:** Identifies the desired student outcome. Each objective makes a complete statement when combined with the stem "The student will be able to." The number identifies the objective according to the unit and competency as provided on the course blueprint.

**TIME:** Indicates the suggested time to be used for the specific objective. Amount of time is based on the weight given to that objective in VoCATS.

**OUTLINE:** Includes information to be covered under the objective.

**STRATEGIES/ACTIVITIES:** The strategies/activities in this curriculum have been developed as student strategies. Specific suggestions to the teacher are designated by: Note.

**RESOURCES:** The resources include the state-adopted textbooks as well as other books, videos, games and computer software.

**HOME ECONOMICS EDUCATION**  
**COURSE BLUEPRINT for 7018 (CIP# 20 0105): EXPLORING LIFE SKILLS**  
 [Course Length: 1 semester; Class Length: 1 period]

**Teacher:** \_\_\_\_\_ **School:** \_\_\_\_\_ **LEA:** \_\_\_\_\_

**Class Period(s):** Circle 1st 2nd 3rd 4th 5th 6th 7th **Room** \_\_\_\_\_ **School Year:** 199 -199.

## Unit A. Resource Management

**Rationale:** Early adolescents need to be more aware of the resources in their control and begin to develop good management practices as they make critical life choices. They must recognize the influences on their everyday decisions and practice using the decision-making process. Early adolescents can learn the process of making good management decisions as they are assuming new roles, learning how to manage their resources, practicing good consumer skills, dealing with problems/crises and taking responsibility for their actions. Facing daily living and new technology, they also must contend with many stresses (both positive and negative) . This unit also provides an opportunity for students to experience a sense of pride and responsibility for their living space and for their planet. Further, management, consumer, housing and environmental fields are growing and students need to be aware of the latest career opportunities.

**COURSE:** Exploring Life Skills

**UNIT:** Resource Management

**COMPETENCY:** 001.00

Analyze ways to manage personal and material resources to achieve goals.

**OBJECTIVE:** 001.01

Give examples of personal and material resources.

**TIME:** 1 Hour

---

**OUTLINE**

**STRATEGIES/ACTIVITIES**

---

**Resources**

Personal resources

Material resources

Private

Public

1. Play a "Hang Man" type of game to identify the word "resources."

[Note. Draw 9 blanks on the board/overhead and have students begin guessing letters as you give clues such as:

A. A source of supply or support

B. Something that meets needs and fulfills wants

C. Things in your life that help you live successfully and meet the goals you set for yourself.

By the time the word is revealed you have defined the main concept for the day's lesson (RESOURCES).]

2. In pairs or small groups, brainstorm for 5 minutes as many resources as possible.

[Note. Reward group with the longest list with a gold star on their lapels.]

3. Identify and discuss the types of resources:

\*personal (Human)-resources that come from within the individual enabling him/her to reach goals

\*Material (Non-human)-resources that are things or conditions that enable goals to be reached

Private resources-belong to an individual or family

Public resources-belong to everyone (paid for by taxes)

4. Use the resources brainstormed by the winning group in #2 to classify the resources under each category identified in #3.

**COURSE:** Exploring Life Skills

**UNIT:** Resource Management

**COMPETENCY:** 001.00 Analyze ways to manage personal and material resources to achieve goals.

**OBJECTIVE:** 001.01 Give examples of personal and material resources.

**TIME:** 1 Hour

---

**OUTLINE**

---

**STRATEGIES/ACTIVITIES**

---

**Resources**

Personal resources

Material resources

Private

Public

5. Break out into small groups/pairs and continue listing resources for all categories.

[Note. As groups come back together to share their ideas make sure the following are mentioned:

Personal resources: Knowledge, Creativity, Talents, Abilities, Friends, Teachers, Family, Employers, Neighbors, Health, Feelings, Attitudes

Material resources-Private: Money, House, Car, Time, Clothing, Equipment, Fuel (electricity, gas, oil, coal, solar energy, etc.)

Public: Schools, Public libraries, Parks, Police and Fire protection, Emergency Medical Services (911)]

6. Make a collage of magazine clippings of three personal resources he/she has. Share your work with the class, by explaining your collage.

[Note. Use collages for a bulletin board or display.]

7. Discuss the importance of all of these resources in helping us to achieve our goals (to be able to get what we want out of life).

[Note. Remind students that through this Resource Management unit, topics will be covered to help them use these resources more wisely!]

**COURSE:** Exploring Life Skills

**UNIT:** Resource Management

**COMPETENCY:** 001.00

Analyze ways to manage personal and material resources to achieve goals.

**OBJECTIVE:** 001.01

Give examples of personal and material resources.

**TIME:** 1 Hour

---

**OUTLINE**

**STRATEGIES/ACTIVITIES**

---

Resources

Personal resources

Material resources

Public

8. Use resources listed to work a word puzzle. For example:

R

Equipment

S

Others (friends, family)

U

R

Clothing, coal, cars

monEy

School

9. Brainstorm alternative resource choices. For example, ways to get to school:

Walk

Bike

Carpool

Family car

Taxi

School bus, etc.

Evaluate the alternatives by considering the following:

Which are best for the environment? Why?

Which are best to save money?

Which are more convenient to use?

Management  
Definition  
Process

Setting goals  
Planning  
Implementing  
Evaluating

1. Discuss what it means to be a manager. What does a good manager do? What happens when an ineffective manager is in control?

[Note. Greet students at the door wearing a hat or badge that says "Manager," describing your role as classroom manager.]

2. Establish a class definition for **MANAGEMENT** such as "using what you have (resources) to get what you want (goals)." [Note. Display this definition throughout this unit.]

3. Discuss: What are "life skills?" What is this course "Exploring Life Skills" all about? Work with classmates to establish goals for the class.

[Note. Share your plans for the course, your classroom rules and information about the Vocational Student Organization-Future Homemakers of America (FHA) or Career Exploration Clubs of North Carolina (CECNC). You can use the FHA/HERO Membership Action Kit to help you start a new chapter.]

4. Work in small groups using an envelope containing slips of paper with the management process steps written on them. Read the steps and arrange them in order at your table. Then with the whole group, verify the order of the steps by identifying them one by one as the teacher records answers on the chalkboard/overhead.

[Note. Illustrate the process as you go with a case study you develop or one from a textbook.]

5. Work in small groups using the management process to address situations described in case studies such as these:

A. Jason is an eighth grader at Northeast Middle School. He enjoys art class and is told by his friends and teachers that he has real talent. He would like to be an architect but wonders what plans should be made to reach his goal.

B. Michelle is so excited about Paula's party. She has seen a terrific outfit at the mall that she really wants to wear to the party. Her problem is that she has half of the money and the party is only two weeks away.

C. Ian has a project due in social studies next Tuesday. He has started thinking about it but still has most of the work ahead of him. He knows that this weekend should be spent on the project but he also wants to help the Student Council with their recycling project on Saturday.

D. The Valdes family is discussing their vacation for next summer. The parents want to go to the mountains, the two teenagers would prefer the beach and the 5 year-old keeps yelling "Disney World!"

What do you think would happen if the people involved did NOT use the management process?

**Decision-Making**

**Factors**

Needs

Wants

Values

Goals

Standards

Priorities

1. Imagine that an enormous forest fire is out of control and heading toward your home. List what you would try to save. You have 10 minutes to gather what you wish to save and get out. You can only take things that will fit in the grocery bag or be carried out in one trip. (You are to assume that all other family members are able to get out on their own.) Share what you saved from destruction.

[Note. Draw flames on chalkboard/overhead and write the word "FIRE" before students enter. Place paper grocery bags at each table or around perimeter of the room.]

Discuss factors that influence the decisions you made such as:

Needs-necessities, things that are necessary for life

Wants-desires, things you would like to have but can live without

Values-strong beliefs or ideas about what is important

Goals-what you aim for, hope to accomplish

Priorities-goals that are more important that must be met first

**COURSE:** Exploring Life Skills    **UNIT:** Resource Management

**COMPETENCY:** 001.00    Analyze ways to manage personal and material resources to achieve goals.

Needs and wants

Values

Goals

Standards

Priorities

2. Use current events to identify an area in turmoil (war, famine, natural disaster, etc). Discuss how the people are affected by this situation. Answer the following questions "Are their needs different from ours?" "What would a priority be for you if you were in that situation?"

3. Role play your 10-year class reunion by answering questions such as What have you been doing for the last 10 years? Where do you live? Are you married? Do you have children? What career did you choose? How did you prepare for your career? college? technical college? On the job training?, etc. After everyone tells about his/her life, discuss the dreams of the class. Dreams are very important as the basis for goals. Think about the actions necessary to reach the goals mentioned in class (high school courses, college or technical training, etc.).

[Note. Class Reunion Activity-

Ahead of time prepare banner "Welcome back Class of (current school year)" and set out refreshments. As students enter your classroom, role play the part of a teacher welcoming them to their class reunion. Inform them that you remember them from 1993, reminding them that they were in your Exploring Life Skills Class.]

4. Read Oh, the Places You'll Go! by Dr. Seuss. It addresses the "Great Balancing Act" (life itself, and the ups and downs it presents) while encouraging us to find the success that lies within us. It is a great way to start off a new year of middle school (or to leave middle school to go to high school).

Read the book individually or work in cooperative groups to read the book and answer a portion of the discussion questions.

Discussion questions:

How does it feel to "join the high fliers who soar to high heights?"

List some "Bang-ups and Hang-ups" you might run into.

What is meant by "your gang will fly on. You'll be left in a Lurch?"

List strategies for "Un-slumping yourself."

What happens at the "Waiting Place?"

Is fame important to you? Why?

What happens in "the Hakken-Kraks howl?"

Explain: "So be sure when you step. Step with care and great tact and remember that Life's a Great Balancing Act."

Define your "mountain."

**COURSE:** Exploring Life Skills    **UNIT:** Resource Management

**COMPETENCY:** 001.00    Analyze ways to manage personal and material resources to achieve goals.

Standards  
Priorities

5. Discuss how the standards we live by vary from family to family. The principles or rules within your family have helped form your beliefs of what is right and wrong. Many of these standards have been influenced by moral beliefs and have been passed down from generation to generation. Classify standards as:

Personal/Family standards-originate within the family or small group.

Examples: Class rules, bedtime/ curfew, age to stay home alone, age to date, way to address elders, ways to show respect, ways to celebrate special occasions, etc.

Conventional standards-originate in the cultural or social group. Examples: table manners, etiquette rules, interpersonal communication, driving regulations (driving on the right side of the road), etc.

Scientific standards-based on facts or research.  
Examples: Nutrition guidelines, safety (codes for buildings, electrical wiring), etc.

**COURSE:** Exploring Life Skills    **UNIT:** Resource Management

**COMPETENCY:** 001.00    Analyze ways to manage personal and material resources to achieve goals.

**OBJECTIVE:** 001.03    Describe factors that affect decisions (needs, wants, values, goals, standards and priorities).

**TIME:** 2 HOURS

<b>OUTLINE</b>	<b>STRATEGIES/ACTIVITIES</b>
Decision-Making Factors Needs Wants Values Goals Standards Priorities	6. Survey classmates to find out about standards used within their homes. Ask questions regarding, bedtime/curfew, age to stay home alone, age to date, way to address elders, ways to show respect, ways to celebrate special occasions, etc.  Chart the results of the survey. Discuss the similarities and differences among families.  7. Interview parents/guardians or grandparents and record responses to the same questions as in the previous activity. Discuss the differences from one generation to the next.  What do you think causes the differences?

Decision-Making  
process:

Identify  
  problem  
List alternatives  
Research  
  alternatives  
Make decision  
Act  
Evaluate

1. List decisions you have to make.
  
2. [Note. Introduce lesson by using some decision-making device/technique such as tossing a coin or drawing straws.] Discuss- Is this the best way to make a decision? Why or why not? How do you usually make choices? (chance, habit, imitation, default, etc.)
  
3. Try out the theory called "Mr/Ms \_\_\_\_\_'s Foolproof Decision Making Plan." Think about and list the kinds of decisions you have to make. Your teacher will write these ideas on the board or overhead.  
List the steps of the plan, explaining each step by giving an example.
  - \* Identify the problem
  - \* List all alternative solutions
  - \* Research alternatives
  - \* Make a decision
  - \* Act
  - \* Evaluate

[Note. You might want to name the plan after the school mascot or team name.]
  
4. Work through the examples listed in #1. List the steps and explain how each applies to the decision you are making. Share your impressions about the "Foolproof Decision Making Plan."

Problem Solving Strategies  
Identification  
Ways to cope  
Resources

1. Select a magazine picture that depicts a problem teens must deal with. Post these pictures as the background for a bulletin board titled, "Man, Have I Got Problems!" Use the computer to make signs/banners to list strategies for dealing with the problems identified.
2. Develop a class definition for the term: "problem." (something that causes difficulty/distress)
3. Outline problem-solving strategies:
  - \*Consider alternate points of view.
  - \*Work together to find an answer.
  - \*Seek help from others
4. In small groups, role play strategies to solve problems identified in #1.

**COURSE:** Exploring Life Skills

**UNIT:** Resource Management

**COMPETENCY:** 001.00

Analyze ways to manage personal and material resources to achieve goals.

**OBJECTIVE:** 001.05

Identify problem solving strategies.

**TIME:** 1 Hour

**OUTLINE**

**STRATEGIES/ACTIVITIES**

---

**Problem Solving Strategies**

Identification  
Ways to cope  
Resources

5. [Note. Create a miniature puzzle for each small group by mounting and laminating a magazine pictures to heavy paper. Cut the pictures into 3 or 4 puzzle pieces (one puzzle piece for each student). Mix the pieces together and distribute one to each student.]

Work in cooperative groups and race with other groups to see which one can find all its members and assemble their puzzle first.

Discussion questions: To be a success, what did the members of your group have to do? What examples of teamwork did you see today? How could your group's teamwork been improved? What are some ways to make everyone on a team feel welcomed, encouraged? How can teamwork help us in real life?

6. In small groups formulate lists of where to seek help. Telephone books, newspapers, and other resource listings may be helpful.

[Note. As groups share their findings, compile a master list to post in the room. Decorate the display with "white flags" symbolic for surrender...asking for help.]

**COMPETENCY:** 001.00      Analyze ways to manage personal and material resources to achieve goals.

**OBJECTIVE:** 01.06      Apply effective time management techniques in daily living.

**TIME:** 2 HOURS

---

<b>OUTLINE</b>	<b>STRATEGIES/ACTIVITIES</b>
----------------	------------------------------

---

Time management  
Time wasters  
Tools  
Techniques

1. Write about what you would do with \$86,400.00 if you received that much each day. You could spend it as you like but you cannot save any of it for another day, you cannot give it away and you cannot borrow from tomorrow's \$86,400.00. After discussing plans for using the money think about how we each receive a gift every day of 86,400 seconds in every 24 hour day. Talk about how investing time makes as much sense as investing money.

2. In pairs or small groups, formulate a list of **TIME WASTERS** (things that steal time from us). Discuss ideas (be sure to include):

- wrong information (i.e. preparing for the wrong assignment, etc.)
- no set priorities (using up time for less important tasks then running out of time)
- procrastinating (putting things off/ perfectionism)
- telephone/television
- repeating yourself (forgetting something or not following directions)
- habit (spending time on things that do not need to be done, just because it is the way you have always done it)
- clutter (too much stuff in too little space making it take longer to do tasks)
- workaholism (being addicted to activity not working toward specific goals)

**COURSE:** Exploring Life Skills      **UNIT:** Resource Management

**COMPETENCY:** 001.00      Analyze ways to manage personal and material resources to achieve goals.

**OBJECTIVE:** 001.06      Apply effective time management techniques in daily living.

**Stress Management**

Stress

Distress

Eustress

1. Define the following key words:  
Stress-tension (emotional, mental or physical) felt when faced with change  
Distress-discomfort/pain caused by change  
Eustress-positive emotions caused by change (such as striving to do your best)
2. Play "Name that Stress." From deck of cards prepared by teacher, draw a physical or emotional sign of stress. Give example of situation that would cause that stress symptom.
3. How does stress affect your life/health?  
(Can make you sick-headaches, high blood pressure, heart disease, ulcers, etc.)
4. Identify "stressors" in life. (unrealistic expectations of ourselves, unrealistic expectations others have of us, pressure to do well on a test or in an athletic event, to learn a new piece of music, to complete a project or term paper by the due date, household chores, relationships or any change)
5. Identify techniques used by the media to help you deal with stress. (by taking medications, going on a trip, using bubble bath, drinking alcoholic beverages, etc.)

[Note. Discuss how solutions such as drugs and alcohol can add to the stress in your life.]

**COURSE:** Exploring Life Skills      **UNIT:** Resource Management

**COMPETENCY:** 001.00      Analyze ways to manage personal and material resources to achieve goals.

**OBJECTIVE:** 001.07      Identify strategies for managing stress in daily living.

**TIME:** 2 HOURS

<b>OUTLINE</b>	<b>STRATEGIES/ACTIVITIES</b>
Stress Management Stress Distress Eustress	6. Record stresses encountered and how managed, for a 24-hour period.  7. Create a list of ideas for managing stress. Make sure to include some of the following: deep breathing/relaxation exercise/ working out visualization (imagining yourself being successful at working through a stressful situation) talking to a friend (or a parent, teacher or counselor) positive "self-talk" get up 15 minutes earlier break large tasks into bite size portions pet a friendly dog/cat say something nice to someone strive for excellence NOT perfection hold that thought (put the problem on hold-deal with it later) get help cry (a good way to relieve tension) inventory negative thoughts then the positive ones trade places (pretend your problem belongs to someone else, think of how they would handle the situation) be assertive (not aggressive) feed the birds

**COURSE:** Exploring Life Skills      **UNIT:** Resource Management

**COMPETENCY:** 001.00      Analyze ways to manage personal and material resources to achieve goals.

**STRATEGIES/ACTIVITIES**

---

Stress management

Stress

Distress

Eustress

8. Work in small groups to plan three possible ways to react to each of the following stressful situations.

Consider results of each choice listed.

First day at a new school

Opening night of the school play

(you have a leading role)

Game that decides the championship

Accidental fall in front of others

Loss of your girl/boy friend to another person

9. Brainstorm ways that stress can be eustress (good for us). Remember that a certain amount of stress (eustress) is good for us. It helps to keep us alert and gets the adrenalin pumping.

[Note. Good management of time and other resources will help control the level of distress and capitalize on the eustress in life, making us more successful/happier.]

10. As an FHA/CECNC service project, make stress management posters for classroom, cafeteria, school halls, mall, central office, etc.

Consumer Practices  
Shopping skills  
Advertising tactics

1. Identify and describe types of stores, and list examples from your community. (Label, with push pins on a map of your area-which has been posted on a bulletin board or mounted on a piece of styrofoam insulation.)

Department store

Discount store

Factory outlet store

Specialty stores

Variety stores

Thrift shop/yard sales

Mail-order catalogs

Door to door sales

Electronic Shopping (i.e. Prodigy, CompuServe, etc.)

2. Using sales brochures, catalogs, and field reports (from homework assignments), compare the prices of the same item in different stores. Chart the findings. What are the advantages/ disadvantages of each type of store?

3. Define "comparison shopping" examining the goods and services available in the marketplace.

4. Using your textbook and other consumer education materials, research shopping skills. Create a brochure summarizing the findings.

[Note. Make copies of the brochures to share with other students (possibly in Advisor-Advisee/homeroom).

Display the brochures on a bulletin board in the hall, library or lobby of school. This could be an FHA/CECNC activity.]

Consumer Practices  
Shopping skills  
Advertising tactics

5. Discuss advertising by sharing your most favorite/least favorite ad. Establish a class definition of advertising such as calling attention to a product or business.
6. List and describe:  
Advertising techniques:  
Informative advertising-informs consumers about prices, products and availability  
Comparative advertising-compares one brand to another  
Emotional appeals-sex, fear and rational appeals  
Endorsements-celebrities promoting a product  
Testimonials-ordinary people praising products  
False advertising-unfair tactics to encourage consumers to buy (including: bait & switch, contests, giving free goods, merchandise substitution)
7. Look for examples of the advertising techniques listed in #6. Discuss what draws attention to an ad. (Bright colors, pretty or famous people, catchy tune, repetition, etc.)
8. In small groups prepare ads for real or fictitious products. Video tape commercials for play back and evaluation. Answer these questions as you watch:  
What appeals and techniques were used? How did the commercial try to make you want to buy the product?  
Which ads were most convincing? Why?

**Technology**

Positive effects on management

Negative effects on management

1. Interview a grandparent or the oldest person you know. Develop a list of possible questions ahead of time such as:

What are your best childhood memories?

What challenges did families face in those days?

What was your school like?

What are the biggest differences between your teen years and my world today?

2. Discuss "good ole days," that is, how things were different before our modern appliances.

[Note. Invite a guest speaker from the local Historical Society or dress the part, complete with washboard and lye soap, etc. Display pictures of early appliances.]

Talk about the shift of labor from humans to machines and the families labor from homeplace to workplace. Consider the question, "If modern equipment and appliances are taking so much labor away from us, why are families so stressed these days?"

3. Work in pairs to fill in a chart with the following headings:

	Past	Present
Good		
Bad		

As groups share, include in the discussion positive effects and negative effects of technology on management.  
less physical labor

**COURSE:** Exploring Life Skills      **UNIT:** Resource Management

**COURSE:** Exploring Life Skills      **UNIT:** Resource Management

**COMPETENCY:**    002.00      Work with others to accomplish group goals.

**OBJECTIVE:**      002.03      Identify characteristics of effective group leaders and members.

**TIME:** 1 Hour

<b>OUTLINE</b>	<b>STRATEGIES/ACTIVITIES</b>
Characteristics of effective leaders Hardworking Fair Wise Dependable	1. List some important leaders and tell why you consider each one a leader. [Note. Encourage students to list people they look up to. Record their answers on the board/overhead. Stress that not all leaders have a title. Most of us have mentors who are leaders in our lives. Early adolescents often see celebrities from music, films and sports as important leaders.]
Characteristics of effective members Attendance Punctuality Reliability Honesty Preparedness Perserverence	2. Work in small groups to develop a classified ad for a leader (student body president, mayor of a town, president of a country, etc.). Share your ad with the class. Listen as other groups read their ads. List on the board/overhead the traits mentioned in the ads. Discuss the following: Why are these attributes important? What would happen if a leader does not have these qualities? What could happen if a leader was chosen merely by popularity or charisma?  3. Identify the various offices in your Vocational Student Organization, Future Homemakers of America (FHA) or Career Exploration Clubs of North Carolina (CECNC). Preview plans for the club for this school year. Discuss reasons for becoming a member and/or a leader in the club.  4. Work in pairs or small groups to illustrate the variety in temperaments found in people as they work together. Illustrate a picture of a potato to go along with the characteristics mentioned in the following "tator" descriptions. Share your group's picture, describing your "tator" to the class.

**COURSE:** Exploring Life Skills      **UNIT:** Resource Management

**COMPETENCY:** 002.00      Work with others to accomplish group goals.

**OBJECTIVE:** 002.03      Identify characteristics of effective group leaders and members.

**TIME:** 1 Hour

---

<b>OUTLINE</b>	<b>STRATEGIES/ACTIVITIES</b>
----------------	------------------------------

---

Characteristics of effective leaders

- Hardworking
- Fair
- Wise
- Dependable

4. "Tator" activity (cont.)

Dictator-He is always yelling and making a lot of noise. Everything must be done exactly as he wants it to be done or he will get very angry. If Dictator is not the leader, he will not support the idea or activity. He is not a follower.

Characteristics of effective members

- Attendance
- Punctuality
- Reliability
- Honesty
- Preparedness
- Perserverence

Spectator-She usually wants to sit on the sidelines and watch the rest of the family do the work. She will not pitch in and work right along with the rest of the family. Often Spectator says, "I'll let the other guy do the job."

Agitator-She often gets the family fired up and ready to jump in with both feet in order to complete a project or activity. After she has excited and agitated the others, she will drop out or quit. She also shows a great deal of disrespect at times. She sits back, "cracks jokes," and makes smart remarks in order to draw attention to herself.

Hesitator-He is never quite sure of himself, because he is never prepared. He will hold back his thoughts and ideas until after a decision has been made and then be upset because they were not incorporated in the plan.

Imitator-This tator tries to get the job done by imitating another family member. She never thinks of any original ideas and always wants to do the same thing she did last time.

**COURSE:** Exploring Life Skills      **UNIT:** Resource Management

**COMPETENCY:** 002.00      Work with others to accomplish group goals.

**OBJECTIVE:** 002.03      Identify characteristics of effective group leaders and members.

**TIME:** 1 Hour

<b>OUTLINE</b>	<b>STRATEGIES/ACTIVITIES</b>
Characteristics of effective leaders Hardworking Fair Wise Dependable	"Tator" descriptions (cont.)  Commentator-She is the steady, hardworking dedicated leader who puts other's wishes before her own. She contributes new ideas, uses democratic methods in conducting activities, and adds much spirit and enthusiasm to the family. She often receives recognition due to her outstanding leadership.
Characteristics of effective members Attendance Punctuality Reliability Honesty Preparedness Perseverance	Facilitator-He is also a hard worker but is often not in the spotlight. He helps others and makes activities easier by cooperating. A peace-maker, Facilitator helps work out disputes within the family. He is dependable and responsible, always doing his fair share.

[Note. Ask students to think about which tator they think they are. Which "Tator" they hope to be. Ask, "Are there any negative "Tator" characteristics you might have?" "How could you go about changing a negative into a positive?" Students could respond in a class discussion or by writing a paper or journal entry.] (Original idea developed by Harley Cutlip, Assistant State 4-H Leader, West Virginia Cooperative Extension Service, 1962.)

Organizing Living Space  
Storage  
Furniture arrangement  
Sharing Space

1. Work in pairs or small groups to go on a "Storage Scavenger Hunt" compiling a list of storage hints found in texts and brochures.

[Note. Create an information file for this activity that includes catalogs/brochures from storage/ventilated shelving companies and sales papers from local discount stores featuring storage systems.]

2. Sketch a design for storage in your bedroom.

3. Make decorative storage organizers for your locker or home. Use boxes and other containers by covering them with paint, wallpaper scraps, fabric, contact paper, etc.

4. Discuss the advantages and disadvantages of sharing space with others. Identify a situation that involves sharing space (for example, siblings sharing a bedroom) and list hints for living together peacefully.

Maintenance of living space  
Tasks  
Sharing Responsibilities  
Safety

1. Brainstorm a list of tasks that must be carried out in the home to keep it clean. Place a symbol by each task identifying when it is done: occasionally (O), weekly (W), or daily (D). Place these items on a chart and make a plan for sharing the responsibilities within the home. Discuss the sharing of the tasks. Do some family members do more than others? Why?
2. Demonstrate basic cleaning methods such as windows/mirrors, stoves/ranges/microwaves, floors, wooden furniture, counters/tables, desks, etc.
3. Divide classroom/lab cleaning tasks among classmates and practice cleaning. Choose a quality control team to follow up. Leave cards stating "This mirror (sink, stove, window, counter, carpet, etc.) was cleaned by \_\_\_\_\_." Discuss the feeling of pride you experience when you do a good job and when your surroundings (at home or in the classroom) look nice.
4. Listen to a local firefighter talk about safety in the home, school and business.
5. Listen to a paramedic or Red Cross educator share about how to prevent accidents and what to do when they occur.

Resource Conservation

Precycling

Reducing waste

Reusing materials

1. Investigate the concept of "Precycling" (planning purchases by determining the amount of trash that will be created from using the product and buying the item in a form to create the smallest impact on the environment) by considering the amount of trash created when the following occur:

Drinks are purchased in drink boxes.

Oatmeal is purchased in individual serving packets.

Cologne is purchased inside a box wrapped in cellophane.

2. Explore the concept of "biodegradable" (able to be broken down and disposed of by nature) by conducting a biodegradability experiment. Fill an old flower pot with soil (not potting soil-it has been sterilized and will not work) and "plant" pieces of materials (paper, cardboard, disposable diaper material, plastic, polystyrene, aluminum can, etc.) partially down into the soil. Set the flower pot outside where it will be exposed to weather but safe from tampering. Check on the experiment every few days (you might want to make photographs to document the outcomes). Discuss the implications of non-biodegradable items. Where do they end up? Why are they a problem? What can be done about it?

3. Identify recycling stations in your area by locating them on a local map. Make a chart showing materials that are accepted at each station. Invite someone from a recycling company to speak to your class about how recycling works and what we can do to help.

Resource Conservation

Precycling

Reducing waste

Reusing materials

4. Brainstorm a list of ways to reuse materials that are not recyclable. Make a classroom display of items that can be reused (title could be "Another Lifetime").

Examples: Egg cartons as desk drawer organizers, can lid wind chimes, milk carton bird feeder, milk jug catcher's mitts, storage organizers, etc.

5. Organize recycling for your school, as an FHA/CECNC service project. For more information order the Environmental Protection Agency (EPA) publications listed under RESOURCES.

6. Consider ways to conserve resources through voluntary simplicity. Make a list of simple, ordinary things that you can to conserve resources. [Note. For information and extended activities on voluntary simplicity, use Voluntary Simplicity: Lifestyle Option, by Ruth Pestle.]

Career opportunities

Entry level

Skilled level

Advanced level

1. Identify entry level, skilled level and advanced level jobs in each of the careers listed below:

Financial planner

Insurance agent

Tax consultant

Personal shopper

Consumer representative/advocate

Home and institutional manager

Architect

Drafter

Interior designer

Real estate agent

Upholsterer and refinisher

Contractor and developer

Housing maintenance worker

2. Listen to a consumer education representative from the local utility company share about energy and homes as well as career information.

3. Brainstorm to develop a list of potential places of employment in business, banking and financial institutions, education and entrepreneurship.

4. Develop a list of questions to use while interviewing someone with a career in this field. Conduct an interview. Discuss the interview findings in class.

[Note. The remaining activities for this objective are Learning Centers. Set up enough centers to accommodate the size and interests of your specific classes.]

**COURSE:** Exploring Life Skills

5. Learning Center-Banking: Using materials from a local bank research and practice writing checks and reconciling monthly statements.

6. Learning Center-Consumer Education: Using information gathered from the local utility company, develop a brochure or presentation about energy conservation.

7. Learning Center-Architecture: Using tools of the trade (T-square, templates, mechanical pencil, graph paper or interior design software) and specifications issued by the teacher, draw a house plan.

8. Learning Center-Drafting: In a center decorated by actual trade drawings (machine parts, automobiles, etc.) use the tools of the trade (as mentioned in #7) to draft a drawing of a simple object.

9. Learning Center-Interior design: Using a Stanley "Project Planners-Home Designer" kit or materials developed by the teacher, practice arranging furniture in a room. After completing placement of furniture and accessories on the kit, trace your plan onto tracing paper.

[Note. A list of guidelines should be provided (including- 4 feet wide path for main traffic patterns, cautions against blocking doors, leaving room to pull chairs out and sit down, etc.)]

10. Learning Center-Real estate: Using the real estate section of the local Sunday paper (or real estate brochures) and information about a particular family (i.e. income, number of people in family, interests, hobbies, etc.) provided by the teacher, select a home for the family and write a paragraph telling why the home is right for that family. Write the things you would tell the family to "sell" them on that particular home.

11. Learning Center-Upholstering & refinishing: Complete a decorative padded storage box using a cheese box or similar container. Use cloth scraps and batting to cover the lid using a staple gun and pulling the fabric tight as an upholsteror would cover a piece of furniture. The bottom of the box could be cleaned/stripped, stained and protected with varnish.

[Note. Teacher demonstration idea-recover the seat of a chair or vanity stool. Glue any separated joints. Tighten screws. Refinish the wood or use scratch cover.]

1. Create a career plan portfolio. Begin by collecting data related to a career from the management, consumer and housing field. Your data should include the following:

Duties

Working conditions

Working environment

Skills needed

Education required

Schedule (shift, hours, weekend/weekdays, etc.)

Salary

Benefits

2. Record your thoughts about the career you have researched. Does it relate to your interests? What do you like about the career? What do you dislike?

[Note. Remind students that career decisions they make today are not final. However, researching careers will help them to plan for the future by highlighting volunteer activities and part-time jobs that will allow them an inside view of the career they are thinking about. Students will also have insight into which courses to take as they move into high school.]

Today's Teen, 57-64; You: Living, Learning & Caring, 323-337

## Unit B. Nutrition & Wellness

Rationale: "Young adolescents must be healthy in order to learn." (TURNING POINTS, pp. 60-61) Therefore it is essential that home economics at the middle school level provide the opportunity for early adolescents to acquire knowledge and practice skills that insure healthful living. As students reach middle school they begin making decisions about what to eat and how to maintain desired weight. They are also making critical choices related to destructive behaviors such as smoking and alcohol/drug abuse. Healthy habits that are initiated in early adolescence are the best way to establish a healthy adult lifestyle.

**COURSE:** Exploring Life Skills    **UNIT:** Nutrition & Wellness

**COMPETENCY:** 005.00    Predict the relationship of good food choices to a healthy lifestyle.

**OBJECTIVE:** 005.01    Describe positive and negative influences on mental, physical, and emotional wellness.

**TIME:** 2 HOURS

OUTLINE	STRATEGIES/ACTIVITIES
<p>Influences on Wellness</p> <p>Positive influences</p> <p>    Adequate sleep</p> <p>    Proper exercise</p> <p>    Good nutrition</p> <p>Negative influences</p> <p>    Inactivity</p> <p>    Poor nutrition</p> <p>    Empty calories</p> <p>    Eating disorders</p> <p>        Anorexia</p> <p>        Bulimia</p> <p>        Fad Diets</p>	<p>1. Work in pairs to write a definition of the term "WELLNESS." Compare the various definitions by writing each pair's idea on the board/overhead. Think of wellness as "the state of mental, physical, emotional and spiritual health."</p> <p>2. Work with a partner again to list positive and negative influences on wellness. Find and clip a picture from a magazine illustrating an example of positive or negative influences on wellness. Mount each picture on a piece of construction paper.</p> <p>[Note. Collect all the pictures and ask the entire class to decide if the picture is illustrating a positive or negative influence on wellness by holding their thumb up or down as you hold up the pictures.]</p> <p>3. Discuss how nutritious food can contribute to wellness. Explain that food can also hurt wellness such as poor food choices of foods high in empty calories, fad diets, and more serious food disorders such as anorexia nervosa and bulimia.</p> <p>4. Work in small groups to develop signs for the road to wellness. For example, "Stop skipping meals," "Caution: Sleep required." Display the signs on a bulletin board titled, "Signs of Wellness."</p>

**COURSE:** Exploring Life Skills **UNIT:** Nutrition & Wellness

**COMPETENCY:** 005.00 Predict the relationship of good food choices to a healthy lifestyle.

**OBJECTIVE:** 005.01 Describe positive and negative influences on mental, physical, and emotional wellness.

**TIME:** 2 HOURS

<b>OUTLINE</b>	<b>STRATEGIES/ACTIVITIES</b>
Influences on Wellness Positive influences Adequate sleep Proper exercise Good nutrition Negative influences Inactivity Poor nutrition Empty calories Eating disorders Anorexia Bulimia Fad Diets	5. Develop public service announcements about the positive and negative influences on wellness for a local radio station.  6. Teach other students in your school about nutrition, fitness, and self-awareness using the <u>Student Body Handbook</u> as a FHA chapter project.  7. Create a bulletin board summarizing influences on wellness.  [Note. This could be an FHA/CECNC service activity if posted in the cafeteria or hallway.]  8. Keep track of your food intake for 3 days.  [Note. Provide food intake logs for students to use as they record the foods they eat. They will use this in activity #1 Objective 005.05.]

Food Guide Pyramid: A Guide to Daily Food Choices (leaflet # 572, poster #1503) Free,  
USDA/HNIS, 6505 Belcrest Road, Room 328-A, Hyattsville, Maryland 20782.

**COURSE:** Exploring Life Skills    **UNIT:** Nutrition & Wellness

**COMPETENCY:** 005.00    Predict the relationship of good food choices to a healthy lifestyle.

**OBJECTIVE:** 005.06    Describe the influences of advertising on food selection.

**TIME:** 1    Hour

OUTLINE	STRATEGIES/ACTIVITIES
Food Advertising Media T.V. Radio Magazines Newspapers Billboards Peer Pressure	<p>1. Record food commercials. Make note of the time of day and program during which each commercial ran. View tape in class. Discuss whom the ad is aiming to influence. Think about what type of program from which the ad came. List specific techniques used in the ad. How does the food advertised relate to the dietary guidelines discussed earlier?</p> <p>[Note. The discussion may also include other forms of food advertising such as radio announcements, bill boards, magazine and newspaper ads, etc.]</p> <p>2. Evaluate ads in magazines and newspapers to determine to whom they are designed to appeal.</p> <p>3. Identify snacks advertised for young kids and determine if they are nutritious.</p> <p>4. Display generic, house brand and national brand packages of a food product. Select one to taste based on package. In blind taste test, sample product. Reveal brand names. Discuss how advertising influenced first choice.</p>

**COURSE:** Exploring Life Skills    **UNIT:** Nutrition & Wellness

**COMPETENCY:** 006.00    Prepare nutritious foods.

**OBJECTIVE:** 006.01    Communicate safe and sanitary practices to use when preparing food.

**TIME:** 1    Hour

---

<b>OUTLINE</b>	<b>STRATEGIES/ACTIVITIES</b>
----------------	------------------------------

---

Food Preparation  
Safety  
Sanitation

1. Listen to the school nurse, cafeteria manager or a Health Department representative discuss sanitation in restaurants. Their discussion will include:

-how epidemics have occurred because of food borne illness (i.e. Typhoid Mary)

-sanitation grading in restaurants (what inspectors look for, how the grading system works)

-hand washing techniques

\*Use soap and running water

\*Rub your hands vigorously

\*Wash all surfaces, including:

    backs of hands/wrists

    between fingers

    under fingernails

\*Rinse well

\*Dry hands with a paper towel

\*Turn off the water using a paper towel instead of bare hands

\*Wash hands after using the restroom as well as after touching your nose, hair, face, etc.

2. Practice hand washing by working in pairs and timing one another. Create a mini-poster that will teach fellow students to be clean in the kitchen.

[Note. Have a contest and reward the winners. Laminate the best posters and place in the foods lab as well as other places around the school. Hand washing posters could even be placed in restrooms.]

**COURSE:** Exploring Life Skills    **UNIT:** Nutrition & Wellness

**COMPETENCY:** 006.00    Prepare nutritious foods.

**OBJECTIVE:** 006.01    Communicate safe and sanitary practices to use when preparing food.

**TIME:** 1    Hour

OUTLINE	STRATEGIES/ACTIVITIES
Food Preparation Safety Sanitation	<p>3. Demonstrate kitchen safety guidelines.</p> <p>Note. Involve students to help role play the correct way to use equipment and appliances. For example, how to use a knife, a small appliance, etc.]</p> <p>4. Discuss kitchen emergencies that might require first aid.</p> <p>5. Brainstorm and list safety rules for the foods lab.</p> <p>6. Divide into 4 small groups. While 2 groups wait in hall, 2 others set up safety hazards in classroom kitchens. 2 groups in hall return to correct hazards. Switch roles.</p>

---

**OUTLINE**

**STRATEGIES/ACTIVITIES**

---

Food Preparation  
 Measuring techniques  
 Dry  
 Liquid  
 Moist

1. Prepare 2 batches of the same recipe-once without a recipe and then again with a recipe. Compare the finished products. Discuss the importance of accurate measurements and complete directions.

[Note. Select a simple recipe like peanut butter delight candy or buttermilk biscuits. Rewrite the recipe in gibberish by substituting exact measurements with approximate amounts-a dab, a handful, a gob, etc. Replace conventional cooking terms with your own-marsk until blended, squiggle the shortening into the flour, etc. Ask several students to assist with demonstration. First prepare rewritten recipe. Then, prepare as originally written. If you use the biscuit recipe, read This and That Bread (a children's book by Joan Ellis) while the bread is baking. The story tells about a rabbit and turtle making bread without a recipe. The yeild is a humorous outcome.]

2. Rotate through measuring stations to practice measuring liquid, dry and moist ingredients such as water, sugar, flour, brown sugar.

[Note. Train a student to manage each station (demonstrating proper techniques and supervising other students' practice).]

---

**STRATEGIES/ACTIVITIES**

---

Food preparation  
Reading/following  
directions

1. Carry out simple lab activities that will reinforce previous competencies. Use self-check rating sheets to evaluate your performance as well as your group's performance.

[Note. Assign job titles to each student and have them rotate for each new lab. Ideas for labs could include English muffin pizzas, Rice Krispies treats, or Cookies.]

2. Plan a meal to be served to the school's busdrivers (or some other group). Match the following job titles to the tasks in preparing the meal.

Manager  
Waiters/Waitresses  
Head Waiter  
Host/Hostess  
Buspersons  
Dishwashers  
Cooks

[Note. As an FHA/CECNC service project, have students bake nutritious bar cookies to serve other students during the break on test (C.A.T., etc.) day. Cookies could be packaged and sent to each class with an attached mini-poster encouraging the students to eat and rest well before big tests.]

Management of Nutritional Needs

Labeling

Product information

1. Participate in a product information scavenger hunt using food labels.

[Note. Devise a scavenger hunt by allowing students to search package labels and other product information on products you provide: canned beans, packaged cereal, or packaged cookies. Select one item that has health claims: Fat Free, Low in sugar, Natural source of fiber, etc.

Sample questions:

1. Which of the items is healthy? Explain your answer.
2. How many servings are in the can of beans?
3. Of the three items, which has the most iron per serving?
4. How many ingredients are in the cookies?
5. How much is a serving of cereal?
6. Your friend is a diabetic and has to closely monitor his food choices. Which of the items has information that would help him?

**COURSE:** Exploring Life Skills    **UNIT:** Nutrition & Wellness

**OUTLINE**

**STRATEGIES/ACTIVITIES**

---

Management of Nutritional Needs

Labeling

Product information

2. Discuss how consumers were not always privileged with so much information about food products; but health and consumer groups have pushed for laws concerning these issues. Legislation effective May 1994 requires food companies to provide information on all packaged foods showing calories, total fat, saturated fat, cholesterol, sodium, carbohydrates, and protein. The information will also be presented in the context of a recommended daily diet of 2,000 calories and 65 grams of fat. Serving sized will be uniform.

Labeling rules will not apply to restaurants, but if they claim a food is "low fat" they must make sure it complies with the government's definition.

The Food and Drug Administration will provide extensive education to help people use the labels in order to better control their diets as a safeguard against chronic diseases.

3. Define commonly used labeling terms:

**Free:** Less than five calories; less than 0.5 grams of sugar; less than 5 milligrams of fat; less than 2 milligrams of cholesterol and 2 grams of saturated fat per serving.

**Low:** Less than 140 milligrams of sodium; less than 40 calories; 3 grams of less of fat per serving size.

**High:** Benefits the consumer by providing more than 20 percent of the amount recommended for daily eating, as in high-fiber.

**Source of:** Beneficial because it provides 10 percent to 19 percent of the amount of the nutrient recommended to be eaten each day.

**COURSE:** Exploring Life Skills    **UNIT:** Nutrition & Wellness

**COMPETENCY:** 007.00    Investigate resources necessary for managing nutritional needs of a family and/or individual.

## Unit C: Personal & Social Responsibility

**Rationale:** In order to help students develop personal living skills and prepare to live and work in a changing world, Exploring Life Skills must offer early adolescents the opportunity to evaluate their responsibilities to themselves, to their families and friends, and to their communities. It is an important time for students to learn about forming relationships and commitments, to explore self-identity, to gain social skills, and to understand the consequences of their decisions and actions. Understanding and accepting sexual responsibility is an important concept as early adolescence is a time where students must make critical life choices. It is a time when early adolescents need factual information about their development as well as skills which will enable them to postpone sexual involvement. It will be crucial for teachers in this unit to involve parents, the community, and other educators (from programs such as Healthful Living) and professionals in an interdisciplinary approach.

As students learn about themselves and their families, it is also important for students to understand basic child development principles. Because early adolescents often care for younger children, it is essential they explore caregiving techniques and safety guidelines. Careers in this area need to be introduced as the need for family and child care services has increased in our society.

**COURSE:** Exploring Life Skills

**UNIT:** Personal & Social Responsibility

**COMPETENCY:** 009.00

Determine ways to account for oneself and act responsibly toward others (peers, family and society).

**OBJECTIVE:** 009.01

Consider ways to demonstrate personal responsibility.

**COURSE:** Exploring Life Skills

**UNIT:** Personal & Social Responsibility

**COMPETENCY:** 009.00

Determine ways to account for oneself and act responsibly toward others (peers, family and society).

**OBJECTIVE:** 009.02

Determine responsible sexual practices.

**TIME:** 1 HOUR

---

**OUTLINE**

**STRATEGIES/ACTIVITIES**

---

Sexual responsibility

1. Write a paragraph explaining what "responsible sexual involvement" means to you.
2. Discuss main points of paragraphs.  
[Note. Some main points might include:  
being able to accept responsibility for one's behavior  
being mature enough to form commitments  
not being pressured by media or peers to make decisions before ready for sex  
respecting the values and beliefs of parents  
considering religious instruction  
facing the consequences of one's actions  
knowing the difference between sexuality and sex]
3. Review from Competency 001.03 factors that affect decisions (needs and wants, values, goals, standards and priorities) and the decision-making process. [Remind students that the decision-making process involves identifying alternatives.] Apply the decision-making process to the decision to become or not to become sexually active.
4. Work in pairs, to list the benefits of postponing sexual involvement for teens. [Note. Students' lists might include: no guilt; no premarital pregnancy; no risk of AIDS or other STDs; less strain on parental relationships; can maintain good reputation; better able to meet future goals-school, college, career; less complicated relationship with boy/girl friend. For additional information and extended activities, use Project Taking Charge.]

**COURSE:** Exploring Life Skills

**UNIT:** Personal & Social Responsibility

**COMPETENCY:** 009.00

Determine ways to account for oneself and act responsibly toward others (peers, family and society).

**OBJECTIVE:** 009.02

Determine responsible sexual practices.

**TIME:** 1 HOUR

---

**OUTLINE**

---

**STRATEGIES/ACTIVITIES**

---

Sexual responsibility

5. Give examples from the media (TV, movies, advertising, music, MTV) of the messages regarding sexual involvement. Discuss the following questions: What is society's message to teens about sex? How does this affect your attitude about sex?"

6. In small groups, create a mini "soap opera" in which the teen star chooses to postpone sexual involvement. Write the script and act out the parts. Video short segments of the presentations.

7. Role-play situations where students say "no" to sex. Identify situations where girls and boys are pressured to have sex before they are ready. Use typical "lines" that are used such as : "Prove that you are a woman;" "Prove that you are a man;" "If you loved me you would;" "Everyone is doing it;" "You are the only virgin in our class;" etc. Role-play responses to the pressures to have sex.

8. Listen as a guest speaker from the health care field talks about STDs (sexually transmitted diseases).

9. View video on STDs.

[Note. Send a permission slip home to parents allowing their child to watch the video or hear the speaker in the preceding activities.]

**COURSE:** Exploring Life Skills

**UNIT:** Personal & Social Responsibility

**COMPETENCY:** 010.00

Describe unique characteristics of self and others.

**OBJECTIVE:** 010.01

Describe developmental characteristics of early adolescents.

**TIME:** 1 HOUR

---

**OUTLINE**

**STRATEGIES/ACTIVITIES**

---

Personal Uniqueness

Development  
Physical  
Emotional  
Social  
Intellectual

1. Take a True/False pre-test about the myths of adolescence.

[Note. Develop a pre-test using information about developmental characteristics of early adolescents (Appendix B). Discuss the pretest. Correct the myths without putting students on the spot.]

2. Divide a piece of paper into three columns with 4 rows. Label the 3 columns: "Development," "Last 5 years," and "Next 5 years." Label the 4 rows under "Development:" "Physical," "Emotional," "Social," and "Intellectual." In the second column, list next to each type of development how you have changed in these areas in the past 5 years. In the third column, list next to each type of development how you hope to grow in the next 5 years. Share your ideas with the class.

[Note. This is a good opportunity to reassure students that variations in rate of development are very normal. Close the class with an uplifting activity reassuring students that their uniqueness is an asset. For example, take the students on an imaginary journey. They must close their eyes as you ask the questions.

What would the world be like if...

the weather was always the same?

there were no changes of season?

every day was a school day?

**COURSE:** Exploring Life Skills

**COMPETENCY:** 010.00

Describe unique characteristics of self and others.

**OBJECTIVE:** 010.02

Identify elements that contribute to a positive self-concept.

**TIME:** 1 HOUR

---

**OUTLINE**

---

**STRATEGIES/ACTIVITIES**

---

**Personal Uniqueness**

Self-Concept

Self-ideal

Self-image

Self-esteem

1. List the people (famous, historical, others you know) you admire most. Describe the characteristics of these admired people. How do you think these people would describe themselves? Why do you think they possess these characteristics?

2. Explain the elements of self-concept:

\*self-ideal: the person you would like to become

\*self-image: how you see yourself

\*self-esteem: how you feel about yourself

3. View videos from the Self-Esteem Curriculum Module and participate in accompanying activities:

4. Use information from "Next 5 Years" column in activity # 2, objective 010.01 to draw a "Self Map." Indicate on your map where you are now and where you'd like to be in terms of the 4 areas of development. Map could resemble road map, treasure map, flight plan, navigation chart, or constellation map.

**COURSE:** Exploring Life Skills

**UNIT:** Personal & Social Responsibility

**COMPETENCY:** 010.00

Describe unique characteristics of self and others.

**OBJECTIVE:** 010.03

Identify personal uniqueness (personality traits, heredity, developmental characteristics, and self-concept).

**TIME:** 1 HOUR

---

**OUTLINE**

**STRATEGIES/ACTIVITIES**

---

Personal Uniqueness  
Individualism  
Unique abilities  
Unique skills  
Unique talents

1. Define key terms: Personality  
Heredity  
Unique

2. Review the definition of self-concept.

3. List developmental characteristics of early adolescents.

[Note. Refer to Appendix B Developmental Characteristics of Early Adolescents.]

4. Create a "Me" bag (lunch bag) decorated with magazine clippings that reflect your personality. Bring one or two small objects from home to place in your bags and share with the class about yourself. Listen as others share their "Me" bags. Discuss how we are unique.

5. Brainstorm personality traits: positive and negative. List responses in your notebook as they are listed on the board/overhead. Your list should include traits, such as:

Responsible  
Hard working  
Sense of humor  
Kind  
Selfish  
Perceptive  
Self-centered  
Conceited, etc.

Underline the characteristics you possess. Place a check by those you consider to be positive. Circle those that you would like to develop.

Influencing factors

Family/group structure

Economic issues

Support systems

Education

1. Play the human knot game: Stand in a circle, reach across and grasp hands with two people, without releasing hands, undo the knot to form one big circle of people holding hands. Discuss how each action/move affected several people and how everyone had to work together. Did some people take charge and try to organize the effort? Was there tension between group members? Why? Explain that this is like our interpersonal relationships: we have to work together, we have to communicate, to react positively to authority figures, and do our part to work toward a common goal.

2. Listen as The Berenstain Bears and the Trouble with Grownups is read aloud. Discuss how parents' and children's views of each other affect their relationships. How would you portray your parents? How do you suppose your parents would portray you?

[Note. Allow a few quick role plays.]

3. Hold a debate featuring one panel of students portraying children and one panel of students portraying parents. Topics for debate could include the following: curfews, telephone use, household chores, etc.

---

**Interpersonal Skills**

Membership roles

Family

Friend

Student

Responsibilities

1. From a classroom display of hats, identify to whom each belongs: surgeon, chef, firefighter, police person, football player, etc. Can one person possibly wear more than one of these hats? Discuss how one person could wear several, just as we each balance varying roles in our lives. Each role comes with its own responsibilities and rewards. Discuss the roles represented within the class (i.e. son/daughter, brother/sister, friend, grandson/granddaughter, student, club member, part-time employee: babysitter, grass cutter, car washer, trash toter, etc.).

[Note. Review from Objective 009.02, the meaning of responsibility.]

2. Work in small groups to explore a teen role such as friend, student, son/daughter, mother/father, club member, employee, etc. Each group should discuss their "role" and prepare a chart that tells the duties and responsibilities of that role. The group also should list the benefits and rewards received in each role. Share charts with the class. Discuss how your role changes in different settings; you may be a leader in one situation and a follower in another.

**COMPETENCY:** 011.00

Practice the interpersonal skills needed to interact effectively with family members, friends and co-workers.

**OBJECTIVE:** 011.03

Illustrate social skills acceptable in the home, community and workplace.

**TIME:** 2 HOURS

---

**OUTLINE**

---

**STRATEGIES/ACTIVITIES**

---

**Social Skills**

Acceptable behavior

Respect

Politeness/consideration  
of others

1. Brainstorm to list the benefits of using good etiquette in the home, community and workplace.

2. Role play social situations such as greeting someone, introducing people, talking on the telephone, and interviewing for a job. Discuss the actions from the role play situations. Identify positive and negative actions and make a list of suggestions for teens to follow.

3. Visit learning centers to practice social skills.

[Note. The learning centers for this objective could include:

\*"Telephone Station" This center should include a handout summarizing telephone manners, 2 telephones, script cards for the incoming call and an checklist for evaluation of their responses.

\*"The Front Door" This center could be set up by a real door or an imaginary one and should include a handout summarizing the proper (and safe) way to greet someone at the front door, script cards describing situations and the visitor's speaking lines, and a self evaluation sheet.

**COURSE:** Exploring Life Skills

**UNIT:** Personal & Social Responsibility

**COMPETENCY:** 011.00

Practice the interpersonal skills needed to interact effectively with family members, friends and co-workers.

**OBJECTIVE:** 011.03

Illustrate social skills acceptable in the home, community and workplace.

**TIME:** 2 HOURS

---

**OUTLINE**

**STRATEGIES/ACTIVITIES**

---

**Social Skills**

Acceptable behavior

Respect

Politeness/consideration  
of others

Note. (cont.):

\*"Introducing People" In this center, three students should work together as they read a handout summarizing the proper way to introduce people. They would then role play situations that are described on script cards. They should evaluate each other, listing the positive and negative comments.

\*"The Interview" This center should be set up on a table (that will serve as the employer's desk). After reading together the handout that summarizes job interview pointers, the students should take turns being the boss and asking the questions. Each student should write 2-3 paragraphs explaining why the other person should or should not be hired. You might also have students summarize their idea of manners for the employer.]

5. Listen to a guest speaker from a modeling agency tell about proper etiquette.

**COMPETENCY:** 011.00

Practice the interpersonal skills needed to interact effectively with family members, friends and co-workers.

**OBJECTIVE:** 011.04

Interpret ways to communicate effectively to promote relationships.

**TIME:** 2 HOURS

---

**OUTLINE**

**STRATEGIES/ACTIVITIES**

---

Interpersonal Skills  
Effective communication skills

1. Define "communication"-the ability to give and receive information through speaking, body language, reading and writing.

2. Play "Gossip" the children's game where a message is started at one point and passed person-to-person by whispering until it reaches the end of the circle. Compare the message heard by the last person to the initial message.

3. Sit back to back with another student. Have the other student describe a picture to you. Draw the picture without looking at the other student or the instruction card, going only on the verbal instructions.

4. Write the instructions for making a peanut butter and jelly sandwich.

[Note. Set out ingredients and follow the students' instructions LITERALLY to prepare sandwiches for them to snack on. Be prepared for students to be frustrated when their sandwich is not as they anticipated.]

5. Discuss the quote, "I know you believe you understand what you think I said, but I'm not sure you realize what you heard is not what I meant."

6. List and explain ways we communicate:  
Verbal: through words (spoken or written)  
Non-verbal: \*Body language-gestures, movements, facial expressions can convey information (i.e. frown, smile, nodding head, wink, shrug of shoulders, slouching, etc.)

**COURSE:** Exploring Life Skills

**UNIT:** Personal & Social Responsibility

**COMPETENCY:** 011.00

Practice the interpersonal skills needed to interact effectively with family members, friends and co-workers.

**OUTLINE**

**STRATEGIES/ACTIVITIES**

---

Interpersonal skills

Effective communication skills

6. Ways we communicate (cont.)

Non-verbal communication (cont.):

\*Body language: Discuss the saying, "Actions speak louder than words"

\*Touch is a form of communication and can send positive/reassuring messages (hug, pat on back, etc.) as well as confrontational ones (pushing, hitting, etc.).

\*Silence can communicate especially if you are not answering a direct question or if both parties are waiting for the other to speak first.

\*Space is the distance you put between yourself and others. (We are uneasy if we are too close to someone we do not know or do not like.) Discuss how closeness sends messages to others. Watch your friends interact before school tomorrow and think about how the space between them relates to the level of closeness/acceptance between them.

**COURSE:** Exploring Life Skills

**UNIT:** Personal & Social Responsibility

**COMPETENCY:** 011.00

Practice the interpersonal skills needed to interact effectively with family members, friends and co-workers.

---

**OUTLINE**

---

**STRATEGIES/ACTIVITIES**

---

Interpersonal skills  
Effective communication  
skills

7. Work with a small group to develop a 1-2 minute skit that portrays one type of communication (written, oral, body language, touch, silence, space, etc.).

[Note to teacher. Good listening skills are essential for effective communication. Try this role play with a student's help. Ask the student to come to the front of the class and tell you about something (a recent vacation, a pet peeve, etc.). As he/she talks to you look away, yawn, plunder in your purse/pocket, interrupt, look at your watch, laugh at an inappropriate time, etc. Thank the student and ask him/her if they felt they were being listened to. How did that make them feel? Explain that effective communication is a two-way street. It takes a sender of information and a receiver of information to have communication. Ask, "Why listening is so important?" "What happens when we listen?"]

8. Identify a person you think of as a good listener and list the qualities that make them effective listeners. Share your ideas with the class as your teacher records your ideas on the board/overhead. The list should include:

- Eye contact
- Face the speaker
- Look interested
- Ask questions to understand
- Restate what you heard

[Note. Emphasize that being a good listener makes others feel that what they saying is important.]

**COMPETENCY:** 011.00

Practice the interpersonal skills needed to interact effectively with family members, friends and co-workers.

**OBJECTIVE:** 011.05

Identify alternative points of view of others (family members, friends & co-workers).

**TIME:** 1 HOUR

---

**OUTLINE**

**STRATEGIES/ACTIVITIES**

---

**Interpersonal Skills**

Alternative points of view  
Judgements  
Perspective

1. Work in groups to read a children's story. Group #1- The Three Little Pigs, Group #2-The True Story of the Three Little Pigs. The second story listed is written from the wolf's point of view: he was "framed." Act out your story as you share your version with the other groups. Discuss the difference in the stories. Did it make you feel like you had believed the wrong character "all these years?"

2. Talk about how we form judgements sometimes on one set of messages and do not hear the other side of the story. Discuss the importance of searching for and listening to others' points of view before forming their own opinion on the issues.

3. Write a paragraph (or journal entry) about the importance of getting the whole story before forming an opinion or making a judgement.

---

**RESOURCES:**

The True Story of the Three Little Pigs, Jon Scieszka. New York: Scholastic, Inc., 1989.

**COURSE:** Exploring Life Skills

**UNIT:** Personal & Social Responsibility

**COMPETENCY:** 011.00 Practice the interpersonal skills needed to interact effectively with family members, friends and co-workers.

**OBJECTIVE:** 011.06 Practice effective conflict resolution and negotiation skills.

**TIME:** 2 HOURS

---

**OUTLINE**

---

**STRATEGIES/ACTIVITIES**

---

Interpersonal skills  
Negotiation  
Conflict resolution

1. Discuss violence by answering questions like:  
What is violence? Give examples.  
Is it more prevalent today than ten years ago?  
Why/Why not?  
How does violence affect us?  
What can we do to rid our world of violence?

[Note. Use the Inner/Outer Circle technique to have students discuss the topic of violence in their world. To do this form two circles ( a small one and then a larger one outside of it with all students facing the center of the circle). Allow the inner circle to begin the discussion as the questions spark their involvement. After a predetermined amount of time, permit the outer circle to react to the same questions and to the inner circle's ideas. Summarize the discussion and emphasize the need for conflict resolution for people of all ages.

Assure your students that they can be positive role models in showing their peers how to handle conflict. Remind them that a person who is angry is not in control, in fact the angry person has actually allowed the other person or circumstances to control him/her. Tell students that you will share with them conflict resolution techniques that will allow them to stay in control, to fight fair and win (win-respect, trust and a better understanding of others).]

**COURSE:** Exploring Life Skills

**UNIT:** Personal & Social Responsibility

**COMPETENCY:** 011.00

Practice the interpersonal skills needed to interact effectively with family members, friends and co-workers.

**OBJECTIVE:** 011.06

Practice effective conflict resolution and negotiation skills.

**TIME:** 2 HOURS

---

**OUTLINE**

**STRATEGIES/ACTIVITIES**

---

Interpersonal skills  
Negotiation  
Conflict resolution

2. State rules for fighting fair:

- \*Determine the problem. (Work with one main problem-don't be sidetracked.)
- \*Confront the problem, not the person.
- \*Speak in a normal tone of voice-no yelling.
- \*Listen to the other person's point of view.
- \*Don't threaten the other person by your wording.  
Use "I" statements. Treat them with the respect you wish to receive.
- \*Try to differentiate between facts/actions and feelings.
- \*Don't argue about how the other person feels.  
(How would you really know?)
- \*Be willing to compromise.
- \*Work together to choose a solution and agree to try it.
- \*Get help from a mediator if you cannot work through these steps.
- \*Be open to trying a second solution if the first plan does not work.

3. Relate this concept to sports by becoming an umpire/referee in class and around school. List some fouls your peers might commit. (Include gossiping, name calling, threatening/bullying, put downs, etc.) Discuss what actions you would take as a referee in each foul situation.

---

**RESOURCES:**

**COURSE:** Exploring Life Skills

**UNIT:** Personal & Social Responsibility

**COMPETENCY:** 011.00

Practice the interpersonal skills needed to interact effectively with family members, friends and co-workers.

**OBJECTIVE:** 011.07

Determine ways to cope with changes and family/individual problems.

**TIME:** 2 HOURS

---

**OUTLINE**

**STRATEGIES/ACTIVITIES**

---

Interpersonal Skills  
Coping with changes

1. Relate change to stress (any event, positive or negative that causes the body to adjust OR emotional, mental, or physical tension felt when faced with change.)

2. Review the techniques for managing stress/change in our lives (from Unit A. Resource Management objective 001.07).

3. Work in small groups to suggest responses for each of the following stressful situations:

- \*First day at a new school
- \*You have to move because your parent's job was transferred
- \*Losing your girl/boyfriend to another
- \*You've grown 2 inches already this year...you're taller than all of your friends
- \*Your boss tells you that business is slow and he must cut back on the part-time help...you lose your job

[Note. As each group shares their ideas of how to handle these changes, keep a running list of strategies. Post the list or create a bulletin board depicting two mountains with a swinging bridge spanning between them-the strategies link together to form the floor and hand rail of the bridge, symbolizing how these strategies can keep us out of the "valley" (depression, burn-out, etc).]

Young Living, 87-91

**COURSE:** Exploring Life Skills

**UNIT:** Personal & Social Responsibility

**COMPETENCY:** 012.00

Identify tasks and safety procedures in caring for children.

**OBJECTIVE:** 012.01

List primary responsibilities of a babysitter.

**TIME:** 1 HOUR

---

**OUTLINE**

**STRATEGIES/ACTIVITIES**

---

**Caring for Children**

**Responsibilities of a  
babysitter**

1. Brainstorm to list words that describe babies/children. Your list will include words such as:

dependent

helpless

trusting

impressionable

questioning/curious, and so on.

[Note. Expand on their ideas by explaining how children need to be cared for by their parents and other care givers. Because many middle school students are often babysitters (for siblings or other children), they need to know the responsibilities of babysitting. Your discussion should include following through with the parents' instructions, enforcing their rules, keeping the children safe, entertaining the children, reacting responsibly if problems arise, etc.]

2. Visit the learning center, "What is a babysitter?" Research to identify qualities of a good babysitter. Summarize your findings by creating a business flyer that advertises your own babysitting service. The flyer would highlight your qualifications. Proof one another's work. If a computer and printer are available create a very professional flyer which could be copied and handed out. You might also want to make an information form you would use to get important information from parents before they leave you with the children.

[Note. This learning center should be set up along with other centers for this competency so that students rotate through several centers.]

**COURSE:** Exploring Life Skills

**UNIT:** Personal & Social Responsibility

**COMPETENCY:** 012.00

Identify tasks and safety procedures in caring for children.

**OUTLINE**

**STRATEGIES/ACTIVITIES**

---

Caring for Children  
Developmental  
characteristics  
Infants  
Toddlers  
Preschoolers

1. Identify and explain child development terminology:  
Infant-a child from birth through 1 year-old.  
Toddler-a child from 1 through 3 years-old.  
Preschooler-a child from 3 through 4 years-old.  
Identify ages and stages from magazine pictures, posters,  
or family photo albums.
2. Rotate through the centers for this competency,  
collecting information/materials for your personal baby-  
sitting kits.

**INFANTS**-Research this stage of development by describing the child at this age; what to expect as far as communication, movement, feeding; and what activities would be appropriate for infants  
Create a toy or book appropriate for this age child.

**TODDLERS**-Research toddlers to find out what to expect of this age child. Describe the toddler by listing facts related to development (physical, cognitive and socio-emotional). Explore guidance of toddlers and list strategies for dealing with an independent 2-year-old. Make a puppet and develop a story or finger play for toddlers.

**COURSE:** Exploring Life Skills

**UNIT:** Personal & Social Responsibility

Caring for children  
Developmental  
characteristics  
Infants  
Toddlers  
Preschoolers

Learning centers (continued):

**PRECHOOLERS**-Research this stage of development by gathering facts related to physical, cognitive and socio-emotional growth. Develop a list of activities appropriate for this age child. Add the following ideas to your baby-sitting kit:

-A puzzle made by mounting a coloring book page (that has been copied and colored) onto a heavy piece of paper. It can then be laminated and cut apart to make a puzzle to construct while baby-sitting.

-A food activity such as ants-on-a-log (celery, peanut butter, with raisins), etc.

-(if an adult is present, the baby-sitter could help the child prepare cookies) Aggression cookies (a basic cookie recipe that becomes tastier the more it is kneaded...kids love to knead!)

Toddlers  
Preschoolers  
Developmentally  
appropriate activities  
Guidance  
Activities

1. Recall fun, happy memories from your own childhood. List ways to reward a child—a smile, a hug, a special game/treat/ privilege, a word of praise, etc. Discuss positive guidance of children—using rewards to encourage good behavior.
2. Reinforce your knowledge of activities for children of various stages of development by adding to the kit you have started in the learning centers from previous objectives. Include fun activities for children such as: finger plays, puppetry, story telling, memory games (lotto), art, outside play, etc. As each activity is described, discuss the age child for which is it most appropriate. Be sure to include safety precautions. Record notes and store in your babysitting kit.

Caring for children  
Safety guidelines

1. View a video such as, "Childproof: Home Safety Checklist" to identify safety guidelines for babysitting.
2. Create a "Child Safety" bulletin board by designing posters that cover all aspects of safety such as:
  - stay with children at all times
  - survey the home for hazards within the child's reach
  - remove toys that are broken or have sharp edges
  - check on sleeping children often
  - prepare ahead for emergencies (know where the first aid kit is located, post emergency numbers by the phone)
3. Make a safety checklist to place in your babysitting kit.
4. Use the software program "Babysitting Basics" to review safety tips.

Job Tasks

1. Formulate a list of potential careers from this unit.
2. Work in small groups to research careers using reference materials such as textbooks, The Occupational Outlook Quarterly, The Occupational Outlook Handbook and the Dictionary of Occupational Titles. Present to the class a brief on the job your group researched including a description of the career, salary range, education/training needed, expected outlook, etc.
3. Create simple toys, books, puppets or some other item used when working with children.
4. Practice tasks of Social Work/Counseling type jobs by researching to find listings of places people can go for help such as local support groups, mental health agencies, school counselors, social services, etc. Prepare a brochure listing available sources of assistance for various needs. Post your brochure on a bulletin board/display titled, "Here's Help!"

## Unit D. Fashion & Appearance

Rationale: Because early adolescents are experiencing major physical changes, they are very conscious of their appearance. They spend much time and energy on trying to look attractive. Although they are beginning to express themselves as unique individuals, peer influences result in a great deal of conformity among early adolescents. It is important to acknowledge variability in physical growth rate among students. Instruction and practice in selecting and caring for clothing, as well as image enhancing activities will allow students to make better choices and thus feel better about themselves. The many career opportunities within the fashion industry can be explored as these early adolescents begin to ponder who they are and what they hope to become.

**COURSE:** Exploring Life Skills

**UNIT:** Fashion & Appearance

**COMPETENCY:** 014.00

Use grooming and clothing choices to create a positive image.

**OBJECTIVE:** 014.01

Identify reasons good grooming is desirable.

**TIME:** 1 HOUR

---

**OUTLINE**

**STRATEGIES/ACTIVITIES**

---

**Grooming**

**Reasons**

First impressions

Impact on self-concept

Impact on wellness

1. Play a quick game that results in one winner and one runner up (musical chairs, etc.).

[Note. Display two prizes: one prize should be wrapped attractively; one a bit shabby. As students watch the winners open the gifts, they will discover that the shabby box held the nicer contents.]

What affected the winner's choice of gifts.

Discuss how others' outward appearance contributes to your first impression about them.

[Note. Ask, "Did you know that you wrapped yourself up just like a gift this morning?" Then explain that how we care for our bodies, how we dress and accessorize our bodies and how we carry ourselves plays a big part in how we feel about ourselves (our self-concept) and how others perceive us.]

2. Cut and mount pictures of persons well groomed and not well groomed. Pass these pictures around the class at fifteen second intervals. Think of and write down one adjective describing each picture. Discuss the impressions perceived from the well groomed and the not well groomed pictures. Did the well groomed persons in the pictures appear to be more successful, brighter, happier, etc.? After the activity you could put these pictures on a bulletin board. Divide well groomed from not well groomed; include some of the adjectives used to describe each picture.

3. Develop a class definition of GROOMING such as things you do to make yourself attractive; cleaning and caring for your body.

**COURSE:** Exploring Life Skills

**UNIT:** Fashion & Appearance

**COMPETENCY:** 014.00

Use grooming and clothing choices to create a positive image.

---

**Grooming**

Reasons to groom

First impressions

Impact on self-concept

Impact on wellness

4. Think about the following quote: "You never get a second chance to make a first impression." Vote on your reaction to the quote-agree (thumbs up), disagree (thumbs down). Explain why you agree or disagree. Discuss the following questions:

When are first impressions important?

How does our appearance influence first impressions?

What are some things that are in our control that contribute to our appearance?

5. FHA/CECNC: Take a group picture of your chapter. Describe what is positive about each other's appearance. Write your positive statements on pieces of paper and place them on a bulletin board with your chapter picture entitled, "Looking Good, Feeling Great!"

6. FHA/CECNC: Have a "Look Your Best Day" at your school. In class, discuss how dressing nicely makes you feel better about yourself. When others notice that you look nice, how do you feel? Compare these feelings to the way you feel on a day when you do not look your best (a "bad hair" day).

[Note. Greet students at the door, smile and say something positive about each student's appearance. Expand on this by discussing their feelings and reactions to the complement.]

4. Watch a demonstration of sewing machine operating procedures.

5. Compete in a relay race where team members thread a sewing machine. (Each team member does one step then moves to the back of the line so the next member can continue the process.)

6. Identify sewing equipment (name, use and any precautions).

7. Watch a demonstration to learn how to use a pattern to cut fabric for a project.

8. Practice the measurement techniques related to sewing projects.

9. Select a project to practice job tasks from this unit.

Suggested projects:

Design a window display for a clothing store

Design and sketch a garment

Write copy for a clothing catalog

Create a client interview to use as a personal shopper

Complete a sewing project such as: Apron for class,

book cover, children's book, draft dodger for

doorways, duffle bag/tote bag/cosmetic bag,

exercise mat, fabric covered picture frame, locker

organizer, neckties, pillow-cases, pillow letters,

puppet, roll-up travel case for jewelry, scarves,

school pennant, simple clothing project, stuffed

animal, wall hanging (applique), wind sock etc.

**COURSE:** Exploring Life Skills

**UNIT:** Fashion & Appearance

**COMPETENCY:** 016.00

Examine careers in clothing, textiles, fashion and personal service.

**OBJECTIVE:** 016.01

Consider the major occupational opportunities and requirements of clothing, textiles, fashion, and personal service careers.

**TIME:** 5 HOURS

Training requirements

1. Add to your tentative career plan portfolio, the research data collected from activity #3, objective 016.01.

2. Listen to a guest speaker (a Career Development Specialist/counselor) as he/she speaks about forming career plans and making decisions with careers in mind.

3. Listen to a guest speaker from the fashion industry. Ask questions to help you understand more about their career and if it interests you.

[Note. Remember that students will complete one tentative career plan from any unit of this course. The time (one class period) was allotted in unit A.]

## APPENDIX B

### Developmental Characteristics of Early Adolescents (Ages 10-15)

#### PHYSICAL:

There is an intense and rapid growth rate among early adolescents.

Boys experience the peak growth rate at age 14 and girls experience the peak growth rate at age 12.

There is a great deal of variety in growth rates among early adolescents.

Many early adolescents experience growing pains and need physical exercise.

The nutritional needs are greater (i.e. more calcium needed for growing bones).

#### SOCIO-EMOTIONAL:

Many early adolescents feel as if they have an "imaginary audience" where everyone is looking at them and they may feel self-conscious.

Many early adolescents feel as if they are unique in that others are not experiencing similar feelings, thoughts, and problems, which can lead to increased egocentrism.

Families are the most important influence on values and behavior.

Peers becoming more important in the lives of early adolescents.

Many early adolescents experience a drop in self-esteem.

Developmental tasks of the early adolescent include: seeking independence, forming self-identity, and deciding possible career goals.

#### COGNITIVE:

There is a great deal of variability among early adolescents.

Many early adolescents need concrete experiences to learn.

Some early adolescents will acquire abstract and hypothetical reasoning skills.

Early adolescents may be idealistic in finding solutions to complex problems.

#### Resources:

Dorman, Gayle (1984) Middle Grades Assessment Program User's Manual. Carrboro, NC: Center for Early Adolescence.

Scales, P.C. (1991). A Portrait of Young Adolescents in the 1990's: Implications for Promoting Healthy Growth and Development. Carrboro, NC: Center for Early Adolescence.
