This bibliography offers a "magical adventure into the dark and dreamy world of the night." It contains annotations for 146 books, available for free to the blind and disabled, that cover various things associated with the night: dreams, monsters and ghosts, overcoming fear of the dark, nights in other countries that are six months long, and more. Entries are arranged alphabetically by author, and also include title, a brief description, appropriate grade level (K through 9), and book numbers that differentiate the type of media that the book is available in (cassette books, braille books, and recorded computer disks). There is also an alphabetical title index that list the page number where each can be found. An order form is provided to obtain copies of indexed books. (MAS)
