This scope and sequenced functional curriculum is designed for use in schools and adult training environments with individuals who have moderate disabilities. The first chapter explains the curriculum's origins in the original Life Centered Career Education Curriculum and the research project which determined the need for and modifications necessary to make the curriculum more appropriate for individuals with moderate disabilities. An extensive chart correlating competencies and subcompetencies of this curriculum with the original curriculum is also included. The second chapter, comprising the major portion of the guide, presents instructional implementation strategies for the three domains of the curriculum: daily living skills, personal-social skills, and occupational skills. Charts break these domains into 20 competencies as well as subcompetencies and objectives. Classroom training activities and home/community-based training activities are suggested for each objective. Chapter 3 briefly addresses assessment and instructional planning strategies and integration of the curriculum into the Individualized Education Program. Appended are the Competency Rating Scale—Modified for Life Centered Career Education Modified Curriculum for Individuals with Moderate Disabilities, master forms for use with the curriculum, a modified Individualized Education Program form, and related resources. Modified Curriculum for Individuals with Moderate Disabilities

Robert J. Loyd and Donn E. Brolin
The Council for Exceptional Children

CEC: Leading the Way

The Council for Exceptional Children (CEC) is the largest professional organization internationally committed to improving educational outcomes for individuals with exceptionalities. CEC accomplishes its worldwide mission on behalf of educators and others working with children with exceptionalities by advocating for appropriate government policies; setting professional standards; providing continuing professional development; and assisting professionals to obtain conditions and resources necessary for effective professional practice.

CEC: The Unifying Force of a Diverse Field

The Council for Exceptional Children, a private nonprofit membership organization, was established in 1922. CEC is an active network of 59 State/Provincial Federations, 900 Chapters, 17 Specialized Divisions, and 275 Subdivisions with reach in over 40 countries.

The CEC Information Center:
International Resource for Topics in Special and Gifted Education

The Council for Exceptional Children is a major publisher of special education literature and produces a comprehensive catalog semiannually. Journals such as TEACHING Exceptional Children (published six times a year) and Exceptional Children (published quarterly) and a newsletter, CEC Today, reach over 100,000 readers and provide a wealth of information on the latest teaching strategies, research, resources, and special education news.

To help those in the field respond to their ever-increasing classroom challenges, CEC is proud to release Life Centered Career Education: Modified Curriculum for Individuals with Moderate Disabilities.

Foreword

The Council for Exceptional Children is pleased to offer the Life Centered Career Education: Modified Curriculum for Individuals with Moderate Disabilities. This work supports CEC’s policy on career education, which states that career education is the totality of experiences through which one learns to live a meaningful, satisfying work life. Within the career education structure, work is conceptualized as conscious effort aimed at producing benefits for oneself and/or others. Career education provides the opportunity for individuals to learn, in the least restrictive environment possible, the academic, daily living, personal-social, and occupational knowledge and the specific vocational skills necessary for attaining their highest levels of economic, personal, and social fulfillment.

CEC supports the belief that career education should permeate the entire school program and even extend beyond it. It should be infused throughout the curriculum by knowledgeable teachers who are able to modify the curriculum to integrate career development goals with existing subject matter goals and content. It is the position of the Council that individualized appropriate education for individuals with exceptionalities must include the opportunity for every student to attain his or her highest level of career potential through career education experiences. Children with exceptionalities require career education experiences that will develop to the fullest extent possible their wide range of abilities, needs, and interests.

In order to assist students with exceptionalities to become productive workers and independent adults, special education needs to work in collaboration with parents, other educators, community services, and business. The LCCE approach serves as a model for making this happen.

This piece of the LCCE line of products has been in development and field testing for several years. During the spring of 1995 more than 40 sites field-tested portions of the curriculum with their students. The feedback from these practitioners was incorporated into the final version of this product. Throughout the developmental phases of the curriculum, Dr. Loyd and Dr. Brolin worked in close collaboration, ensuring that the modified curriculum remained consistent with the original LCCE curriculum product. Because of the long history of collaboration, Dr. Loyd was able to bring this modified curriculum to completion in spite of the untimely death of Donn Brolin in 1996.

The authors would also like to acknowledge the assistance of Robert McMullan, Project Research Assistant, for his contributions to this publication.

CEC is proud to provide this modified LCCE curriculum for use in schools and adult training environments.
1. Life Centered Career Education (LCCE) Modified Curriculum for Individuals with Moderate Disabilities

The Life Centered Career Education (LCCE) Modified Curriculum for Individuals with Moderate Disabilities (herein referred to as the LCCE Modified Curriculum) Program (3-21+) is a modified version of the popular and widely implemented functional Life Centered Career Education (LCCE) curriculum program for individuals with mild disabilities (herein referred to as the "original LCCE Curriculum"). This similarly designed modified curriculum and assessment version utilizes the same competency-based framework and formatting as the original LCCE Curriculum. The LCCE Modified Curriculum program adds to the original LCCE Curriculum program continuum a competency-based functional component for individuals at a lower level of functioning (see Figure 1).

The major difference between the original and the modified LCCE Curriculum programs is that the latter focuses on the critical skills and outcomes that individuals with moderate disabilities need to assist them in making the successful transition from school to work and community living. This LCCE Modified Curriculum program retains the scope and sequencing procedures found in the original LCCE Curriculum that requires teachers/trainers to match the appropriate level of subcompetency instruction/training to the individual’s stage of career development (awareness, exploration, preparation, and career assimilation). This career stage approach provides a sequential framework for teaching/training the competencies and subcompetencies at all grade levels and community need levels, as well as permitting older individuals an opportunity to experience a sequential career development approach. The LCCE Modified Curriculum’s instructional/training activities have been designed to promote the acquisition and performance of critical skills and outcomes needed to succeed in school, at home, in the community, and in employment settings. Another significant difference is that attention to both needed support and participation levels is embedded into the curriculum activities. Each subcompetency includes activities that the teacher/trainer will address with each individual to encourage him or her to seek assistance and support when needed.

The original LCCE Curriculum, developed by Donn E. Brolin, was first published by The Council for Exceptional Children (CEC) in 1978. This functional curriculum program is a K–12+ scope and sequenced education system designed to provide special education and other "at-risk" students with the important skills needed to function successfully as productive workers in school, home, and community environments. The original LCCE Curriculum instructional and assessment materials are grounded in more than 21 years of research. All of the materials have been widely field tested in schools and with students from all...
across the country. Many schools in the United States and internationally have adopted the original LCCE Curriculum as their functional/transitional special education curriculum.

NEED FOR LCCE MODIFIED CURRICULUM

Recent follow-up studies and expert opinion clearly reveal the difficulty adults with moderate disabilities have in achieving successful and appropriate levels of adult community living and working (Bates, 1986; Bellamy, 1986; Frank & Sitlington, 1993; Morgan, Moore, McSweyn, & Salzberg, 1992; Snell, 1988; Wehman & Hill, 1985). After leaving formal education programs, individuals with moderate disabilities often (a) are unemployed or severely underemployed, (b) do not participate in community living activities, and (c) do not receive appropriate postsecondary training and support services (Frank & Sitlington, 1993). It has been reported that approximately 80 to 95% of adults with moderate disabilities are unemployed or severely underemployed (Crites, Smull, & Sachs, 1985). These poor employment adult outcomes result in individuals who must depend on additional supplemental funding programs for their subsistence.

In the Iowa special education follow-up study, Sitlington, Frank, and Carson (1993) interviewed approximately 600 school leavers with mild and moderate disabilities, who left school during the 1985 and 1986 school years, to determine their transitional adult outcomes. It was found that only 10% of the individuals with moderate disabilities were living independently without support. Most were still living with parents or relatives. The researchers also determined that the majority of this population's income came from the supplemental security income (SSI) program. This follow-up study reported that over 75% of these school leavers had not participated in any postsecondary education since leaving school. At the time of the interview, only one was working in competitive employment. The others were employed in sheltered employment and reported making less than $1.00 an hour. The most significant recommendation the study provided was to have schools begin functional curriculum implementation at the elementary school level. The researchers also recommended that a significant community-based and home component be included in these students' functional/transitional programs. Empowering students to become more involved in their own self-advocacy and career path options development during the elementary school years was another significant recommendation provided by the study.

Rusch (1986) also reported the poor transitional outcomes these same individuals were experiencing after leaving formalized education. He described this situation as a critical concern in the education of individuals with moderate disabilities and recommended that schools start implementing the "best practices" identified in model transition demonstration programs. His recommendation, along with other research studies, concurred with the Iowa special education follow-up study that there is a critical need for schools to begin implementing competency-based and community-based functional curriculum programs (Enchelmayer, Kohler, & Rusch, 1994; Johnson & Rusch, 1993; Kohler, 1993; Morgan et al., 1992).

The career education research literature has for years expressed the need for the development of an appropriate functional curriculum program. This expressed need led to the development and wide implementation of the original LCCE Curriculum program. This 21+-year program for students with mild disabilities has now been modified and expanded. The LCCE Modified Curriculum has been developed to meet the field's need for a functional, transitional, and community-based curriculum geared toward individuals with moderate disabilities.

ORIGINAL LCCE CURRICULUM MODIFICATION PROCESS

The original LCCE Curriculum program, which spans a 21+-year developmental period, has gone through several revisions and modifications. The original LCCE Curriculum competencies and subcompetencies have been revised twice. The LCCE Modified Curriculum for individuals with moderate disabilities is an extension and revision of the original LCCE Curriculum. All revisions to the original LCCE Curriculum were a result of the findings from field-validation research studies. The primary purpose of these studies was to determine whether the field felt that the curriculum's competencies, subcompetencies, and objectives were still appropriate. A field-validation research study was also conducted to determine whether the curriculum's competencies, subcompetencies, and objectives were appropriate for individuals with moderate disabilities. Each field-validation research study resulted in minor changes to the original LCCE Curriculum and substantial changes for the LCCE Modified Curriculum for individuals with moderate disabilities. The first LCCE Curriculum (1978) had 22 major competencies, 102 subcompetencies, and 3 to 8 objectives for each subcompetency. The original LCCE Curriculum's revision in 1982 resulted in minor changes in a couple of the competencies and a reduction of the subcompetencies from 102 to the current 97. There are approximately 425 total objectives for the original LCCE Curriculum. Each research project also resulted in revisions to the curriculum guides. See the original LCCE Curriculum guide for a complete description and listing of the available LCCE Curriculum instructional and assessment materials.
LCCE MODIFIED CURRICULUM RESEARCH PROJECT

This LCCE Modified Curriculum resulted from a need expressed by professionals and practitioners who educate/train individuals with moderate disabilities. Throughout the 21-year span of LCCE Curriculum development and use, LCCE staff received numerous requests from across the country to study the feasibility of having a separate LCCE Curriculum designed specifically for individuals with moderate disabilities. Prior to the development of the LCCE Modified Curriculum, project staff encouraged teachers who were requesting a modified version to develop their own modified LCCE Curriculum for this population. Although many teachers did make some modifications to the original LCCE Curriculum for individuals with moderate disabilities, most felt that a stand-alone, field-validated curriculum program would be more effective and beneficial for this population. This prompted the LCCE staff to design and implement a research project to study the feasibility and appropriateness of modifying the original LCCE Curriculum.

This research project's purpose was designed to (a) determine whether a sample of practitioners, parents, and agencies felt that the original LCCE Curriculum needed to be modified for this population and, if so, (b) determine just what modifications would be necessary to make the curriculum more appropriate for this population. The research project utilized the same methodology and analysis as the earlier federally funded field-validated curriculum evaluation research projects.

METHOD

The research project encompassed five major activities. Deciding on the appropriate research design was the first project activity. A modified Delphi survey was selected to determine whether the original LCCE Curriculum needed to be modified and, if so, to indicate the LCCE Modified Curriculum's specific competencies, subcompetencies, and objectives. Project staff decided to use the same survey instrument as was used in the previously conducted LCCE Curriculum evaluation research projects. They felt that it would be appropriate to use the same instrument since both projects addressed the same research questions and only differed in the curriculum's intended population. This survey instrument had been reviewed by national experts, field piloted, and validated during the earlier research projects. Respondents, who assisted or were familiar with individuals who have moderate disabilities, were given an opportunity on the survey to analyze the appropriateness of the original LCCE Curriculum for individuals with moderate disabilities and then to suggest any necessary modifications. Only the introduction section of the original survey had to be revised. The survey's revised introduction section explained the purpose of the study and asked survey respondents to indicate (a) whether the original LCCE Curriculum competencies were appropriate for this other population and, if not, to suggest a more appropriate competency; (b) whether the original LCCE Curriculum subcompetencies were appropriate and, if not, to suggest a more appropriate subcompetency; and (c) if the subcompetencies were revised to suggest a list of objectives needed to master or perform the subcompetency.

Deciding upon a study sample was the second research activity. Project staff selected the following research sample: 250 teachers who teach students with moderate disabilities, 250 family representatives who had children with moderate disabilities, and 250 agency personnel who provide service to children and adults with moderate disabilities. Surveys were either mailed or personally delivered to the respondents. Project staff made oral presentations to some groups, who then completed the surveys either after the presentation or at later times. Mailings to large groups also included a videotape explaining the survey and directions for completion. Follow-up telephone calls were made to the mailed survey respondents to ascertain their understanding of the survey and completion procedures. As a result of this more personalized administration procedure, project staff received a high survey return rate. Approximately 500 usable surveys were collected for analysis (67%).

The returned first-round surveys were then analyzed to determine whether respondents felt there was a need to modify the original LCCE Curriculum to make it more appropriate for individuals with moderate disabilities. Almost all of the survey respondents (94%) felt that modifications to the original LCCE Curriculum were necessary and that there was a need to develop a separate LCCE Curriculum modified for use with individuals who have moderate disabilities. Based on the findings and recommendations from this first-round survey, major modifications were made to the original LCCE Curriculum's competencies, subcompetencies, and objectives. A second-round survey based on the modifications was prepared and administered to 150 selected first-round respondents. Project staff personally administered this second-round survey to a selected group of 75 teachers, 50 parents, and 25 agency personnel. The analysis of the second-round surveys resulted in minor revisions to the LCCE Modified Curriculum. This revised LCCE Modified Curriculum was then presented to a panel of experts in the field for their review. The experts suggested some additional minor revisions, resulting in the current LCCE Modified Curriculum for Individuals with Moderate Disabilities.
This field-developed LCCE Modified Curriculum consists of a modified set of the original LCCE Curriculum’s competencies, subcompetencies, and objectives. Many of the competency and subcompetency revisions are minor, but consensus from the field indicates that this curriculum reflects a more community-based and performance-related orientation, which is more appropriate for this population.

Developing this curriculum guide was the final research project activity. The guide contains this overview (Chapter 1), the suggested instructional/training activities and implementation strategies (Chapter 2), assessment and instructional planning strategies (Chapter 3), and the Competency Rating Scale (CRS) (Appendix A). The instructional/training activities for each of the subcompetency objectives were developed for implementation in both school and community-based environments.

RESULTS

The LCCE Modified Curriculum validation research study resulted in substantial modifications being made to the original LCCE Curriculum’s competencies, subcompetencies, and objectives. These revisions included changing from 22 to 20 major competencies along with changes in the competency titles. The subcompetency revisions also involved title changes, and the total number of subcompetencies changed from 97 to 75. Objectives were also modified to correspond to the revisions made in the subcompetencies. Figure 1 shows the Modified Curriculum along with the corresponding competencies from the original LCCE Curriculum.

SUMMARY

The LCCE Modified Curriculum is a scope and sequenced functional curriculum designed for use with individuals who have moderate disabilities. Although this program was developed specifically for this population, consumers may find it appropriate to use with other disabled and/or nondisabled populations. This program adds an additional functional curriculum component to the original LCCE Curriculum program continuum. Individuals with moderate disabilities who complete this curriculum program are encouraged to continue, if appropriate, their functional school- and community-based training in any part or with all of the original LCCE Curriculum program.

Modified LCCE

Personal-Social Skills

9. Acquiring Self-Identity
   33. Demonstrate knowledge of personal interests and abilities
   34. Demonstrate appropriate responses to emotions
   35. Display self-confidence and self-worth
   36. Demonstrate giving and accepting praise and criticism

10. Exhibiting Socially Responsible Behavior
   37. Demonstrate appropriate behavior
   38. Identify current and future personal roles
   39. Demonstrate respect for others' rights and property
   40. Demonstrate respect for authority
   41. Demonstrate ability to follow directions/instructions
   42. Demonstrate appropriate citizen rights and responsibilities
   43. Identify how personal behavior affects others

11. Developing and Maintaining Appropriate Social Relationships
   44. Develop friendships
   45. Maintain friendships

12. Exhibiting Independent Behavior
   46. Set and reach personal goals
   47. Demonstrate self-organization
   48. Demonstrate self-determination

13. Making Informed Decisions
   49. Identify problems/conflicts
   50. Use appropriate resources to assist in problem solving
   51. Develop and select best solution to problems/conflicts
   52. Demonstrate decision making

14. Communicating with Others
   53. Demonstrate listening and responding skills
   54. Demonstrate effective communication
   55. Communicate in emergency situations

Original LCCE

10. Achieving Self-Awareness; 11. Acquiring Self-Confidence
   43. Identify interests and abilities
   44. Identify emotions
   47. Express feelings of self-worth; 50. Develop confidence in oneself
   48. Accept and give praise; 49. Accept and give criticism

12. Achieving Socially Responsible Behavior
   53. Demonstrate appropriate behavior in public places
   55. Recognize personal roles
   51. Develop respect for the rights and property of others
   52. Recognize authority and follow instructions
   32. Demonstrate knowledge of citizens' rights and responsibilities
   61. Demonstrate awareness of how one's behavior affects others

13. Maintaining Good Interpersonal Skills
   58. Make and maintain friendships

14. Achieving Independence
   66. Develop goal-seeking behavior
   60. Demonstrate self-organization

15. Making Adequate Decisions
   65. Recognize nature of problems
   62. Locate and utilize sources of assistance
   64. Develop and evaluate alternatives
   63. Anticipate consequences

16. Communicating with Others
   56. Demonstrate listening and responding skills
   68. Communicate with understanding
   67. Recognize and respond to emergency situations
Occupational Guidance and Preparation

15. Exploring and Locating Occupational Training and Job Placement Opportunities
   56. Identify rewards of working
   57. Locate available occupational training and job placement possibilities

16. Making Occupational and Job Placement Choices
   58. Demonstrate knowledge of occupational interests
   59. Demonstrate knowledge of occupational strengths and weaknesses
   60. Identify possible and available jobs matching interests and strengths
   61. Plan and make realistic occupational training and job placement decisions
   62. Develop training plan for occupational choice

17. Applying for and Maintaining Occupational Training and Job Placements
   63. Apply for occupational training and job placements
   64. Interview for occupational training and job placements
   65. Make adjustments to changes in employment status

18. Developing and Maintaining Appropriate Work Skills and Behavior
   66. Perform work directions and requirements
   67. Maintain good attendance and punctuality
   68. Respond appropriately to supervision
   69. Demonstrate job safety
   70. Work cooperatively with others
   71. Meet quality and quantity work standards

   72. Demonstrate fine motor dexterity in occupational and job placements
   73. Demonstrate gross motor dexterity in occupational training and job placements
   74. Demonstrate sensory discrimination in occupational training and job placements
   75. Demonstrate stamina and endurance

20. Training and Occupational Choices
    There are no specific subcompetencies listed here since they depend upon the specific occupational training selected.

17. Knowing and Exploring Occupational Possibilities
   70. Identify remunerative aspects of work; 72. Identify personal values met through work; 73. Identify societal values met through work
   71. Locate sources of occupational and training information; 74. Classify jobs into occupational categories; 75. Investigate local occupational and training opportunities

18. Selecting and Planning Occupational Choices
   79. Identify major occupational interests
   78. Identify occupational aptitudes
   77. Identify requirements of appropriate and available jobs
   76. Make realistic occupational choices

20. Seeking, Securing, and Maintaining Employment
   89. Apply for a job
   90. Interview for a job
   93. Know how to adjust to change in employment

19. Exhibiting Appropriate Work Habits and Behavior
   81. Follow directions and observe regulations
   82. Recognize importance of attendance and punctuality
   83. Recognize importance of supervision
   84. Demonstrate knowledge of occupational safety
   85. Work with others
   86. Meet demands of quality work; 87. Work at a satisfactory rate

21. Exhibiting Sufficient Physical/Manual Skills
   96. Demonstrate manual dexterity
   97. Demonstrate sensory discrimination
   94. Demonstrate stamina and endurance
2. Instructional Implementation Strategies

This chapter presents the guidelines for implementing the instructional strategies and activities for the LCCE Modified Curriculum. The curriculum outlines the instructional/training strategies and activities for teaching each one of the LCCE Modified Curriculum's 20 major competencies, 75 subcompetencies, and their objectives. This curriculum guide employs the same format and guidelines as the original LCCE Curriculum guide.

STRUCTURE OF CURRICULUM GUIDE

Each one of the 75 subcompetencies in the curriculum guide provides the following three specific components: (1) a list of the objectives that are necessary for subcompetency mastery, (2) school training activities, and (3) home/community-based training activities. These three components are designed to assist teachers, family members, and community service personnel to provide individuals with moderate disabilities with relevant performance experiences for achieving mastery of the 20 competencies and 75 subcompetencies. No specific grade or age level is suggested for subcompetency training. Instruction is to be designed and implemented based on individual needs. Assessment of specific individual needs can be determined by administering the Competency Rating Scale-Modified (CRS-M) (see Appendix A). The CRS-M and LCCE Modified Curriculum assessment strategies and instructional planning are discussed in Chapter 3.

Objectives

Each subcompetency includes two to six performance objectives that must be mastered to demonstrate subcompetency acquisition. Objectives can be expanded and/or developed in smaller units to meet specific individual needs of each student with moderate disabilities. Additional objectives can also be developed if necessary.

Training Activities

Training activities are the vehicle by which teachers convey the information to develop subcompetency acquisition. The suggested training activities are not arranged in any hierarchy, although some consideration must be given to identifying the difficulty of any activity. More appropriate training activities may be developed and included. The suggested training activities make use of a wide array of resources and supports. Emphasis on generalization is recommended to ensure transfer of performance in natural settings. These activities include roleplays, discussions, guest speakers, developing collages, and so forth.

A unique feature in this curriculum is that, for each of the subcompetencies, students are taught to seek assistance and support when needed. This student empowerment strategy has been embedded into the curriculum to prepare the students to request the supports they need for integration into normalized environments.
Home-/Community-Based Training Activities

It is strongly suggested that these activities be given priority as students/individuals move into higher grades or age levels. These activities are critical in assisting students/individuals with moderate disabilities to achieve a successful transition from school to work and community living. Also, it is strongly suggested that parents and other family members be involved in home-/community-based training. These activities include roleplays, discussions, job shadows, hands-on experience, and the like.

Integration

The successful implementation of this curriculum will require attention to instruction in natural environments. It is strongly suggested that instruction always take place in the least restrictive integrated environments. This usually can, and in most instances should, occur in normalized community environments. Finally, instructors/trainers should pay careful attention to addressing the current and future ecological environments, instructional needs, generalization/transfer of skills, and maintenance of skills of individuals with moderate disabilities. Implementation of these strategies is critical to ensure that students succeed in making the necessary transition.

Guidelines for Effective Use of Curriculum Guide

Effective instruction using the curriculum guide is contingent on certain conditions or factors. As with any training activity, teachers and support personnel must make individualized decisions about student needs and the instruction necessary to meet those needs. Several factors to consider when using the curriculum guide include (a) using age-appropriate materials; (b) teaching for generalization; (c) utilizing individual strengths and weaknesses; (d) utilizing home and community supports; (e) providing instruction in integrative and natural community environments; (f) actively involving and empowering the individual in the development and implementation of his or her functional individualized education program (IEP) and instructional program; (g) implementing self-advocacy strategies, training, and activities; and (h) actively involving family members and community supports.

The training activities and home/community-based training activities presented in the following section are intended to serve as a guide for teaching the 20 competencies and 75 subcompetencies. We believe that these activities will result in more successful transitional adult outcomes for individuals with moderate disabilities.

</table>
| 1. Identify coins | • Student discusses names of all coin types  
• Student finds penny, nickel, dime, quarter, and half dollar from an assortment of coins  
• Student names all coin types | • Student names the coins from adult's/peer's pocket change  
• Student names the coins used during adult's/peer's transactions |
| 2. Count sums of up to five coins from stacks of pennies, nickels, dimes, quarters, and half dollars | • Student collects and counts up to five like coins  
• Student counts sums of up to five coins  
• Student collects and counts up to five different coins  
• Student seeks assistance from teacher | • Student counts the value of two to five coins from adult's/peer's change  
• Student seeks assistance from adult/peer |
| 3. Identify bills up to $20 | • Student identifies one-, five-, ten-, and twenty-dollar bills by recognizing denomination  
• Student finds one-, five-, ten-, and twenty-dollar bills from a stack of different bills  
• Student seeks assistance from teacher | • Student names currency from adult's/peer's wallet  
• Student names the currency used during adult's/peer's transactions in the community  
• Student seeks assistance from adult/peer |
| 4. Count currency with sums less than $20 | • Student counts like bills with sums up to $20  
• Student practices counting bills up to sums of $20  
• Student counts different bills with sums up to $20  
• Student seeks assistance from teacher | • Student counts bills up to sums of $20 with adult/peer at home and in the community  
• Student seeks assistance from adult/peer |

**Domain:** Daily Living Skills  
**Competency 1:** Managing Money  
**Subcompetency 2:** Make Purchases

<table>
<thead>
<tr>
<th>Objectives</th>
<th>Training Activities</th>
<th>Home-/Community-Based Training Activities</th>

</table>
| 1. Select appropriate items | • Student finds items named by teacher in school store, food mart, drugstores, grocery stores, and other community retail stores/businesses  
• Student selects appropriate items from teacher list | • Student makes up a list for grocery stores, drugstores, and other community retail stores/businesses with adult/peer  
• Student selects appropriate items when requested by adult/peer |
| 2. Recognize and request assistance | • Student finds pictures of store clerk in magazines or "world of work" textbooks  
• Student finds store clerk in retail store/business  
• Student discusses and roleplays problem situations that require help, finds appropriate source of help, decides when to ask, and then requests assistance for problem | • Student discusses ways to identify store clerks in retail store/business with adult/peer  
• Student finds store clerk and requests help in finding appropriate items with adult/peer |
### Domain: Daily Living Skills

**Competency 1: Managing Money**

**Subcompetency 3: Use Vending Machines**

<table>
<thead>
<tr>
<th>Objectives</th>
<th>Training Activities</th>
<th>Home-/Community-Based Training Activities</th>
</tr>
</thead>
</table>
| 1. Select appropriate coins | - Student uses “four quarters” method in school and in the community (method: put quarter(s) in machine and push button after each quarter until item is received), always checking coin return  
- Student selects appropriate coins for use in making vending machine selection | - Student uses “four quarters” method in vending machine and pushes button after each quarter to check to see if item is received, always checking coin return  
- Student waits for items to be received with adult/peer |
| 2. Operate vending machines | - Student selects and cuts out vending item from magazine pictures  
- Student verbally selects letters and/or numbers of wanted pictured items on vending machine  
- Student selects wanted item and inserts money and pushes button to operate school vending machine | - Student pushes correct numbers or letters of item wanted in machine, after inserting money into machine with adult/peer  
- Student operates vending machine in the community or at job placement setting |
| 3. Receive vending machine purchase and change | - Student finds and points to the coin return/change box on school vending machine  
- Student finds and points to the item | - Student removes the purchased item and checks coin return/change box for change returned with adult/peer in the community |
### Domain: Daily Living Skills

**Subcompetency 4:** Budget Money

#### Objectives

<table>
<thead>
<tr>
<th>1. Identify weekly personal income</th>
<th>Training Activities</th>
<th>Home-/Community-Based Training Activities</th>
</tr>
</thead>
</table>
| 2. Identify weekly and/or monthly expenses | *Student identifies weekly personal income*  
*Teacher discusses weekly personal income’s purpose* | *Student identifies earned personal weekly income from job with adult/peer*  
*Adult/peer discusses weekly personal income’s use in the community* |
| *Teacher discusses typical weekly and/or monthly expenses*  
*Student identifies typical weekly/monthly expenses*  
*Student makes poster depicting typical weekly/monthly expenses*  
*Student makes chart depicting typical weekly/monthly expenses* | *Adult/peer discusses typical weekly and/or monthly expenses*  
*Student determines what her/his weekly/monthly expenses include with adult/peer*  
*Student writes out her/his expenses for a typical week and/or month*  
*Student writes out items that can be purchased with her/his weekly incomes* | *Adult/peer demonstrates how to calculate daily/weekly/monthly expenses*  
*Student, using a calculator and written record, figures out weekly personal income and expense budget/total with adult/peer*  
*Student seeks assistance from adult/peer*  
*Adult demonstrates how to compare expenses to date with remaining personal income*  
*Student keeps her/his own records to make weekly comparison of expenses with remaining income with adult/peer* |
| 3. Calculate daily/weekly/monthly expenses | *Teacher demonstrates how to calculate daily/weekly/monthly expenses*  
*Student, using calculator and chart/poster of weekly expenses, figures out personal income and expense budget/total*  
*Student, using calculator and chart/poster of monthly expenses, figures out personal income and expense budget/total*  
*Student seeks assistance from teacher* |  |
| 4. Compare expenses to date with remaining personal income | *Teacher demonstrates how to compare expenses to date with remaining personal income*  
*Student keeps records on chart to make weekly comparisons of expenses with remaining income* |  |

#### Notes
- Dispensing area on school vending machine
- Student receives vending machine purchase and change from school vending machine
- Student discusses what to do when vending machine does not give item or provide correct/returned change at school
- Student role plays actions when machine does not give purchased item or correct/returned change
- Student identifies whom to request help from in resolving problems when operating vending machine
- Student role plays locating sources for helping to resolve problems when operating vending machines
- Student requests help in resolving a problem operating vending machines
- Student removes purchased item and checks coin return/change box for returned change in the community
- Student identifies to adult/peer whom to contact to request assistance in resolving problems when operating vending machine
- Student locates sources for helping to resolve problems when operating vending machines with adult/peer
- Student requests help in resolving a problem when operating vending machines in the community

### Competency 1: Managing Money
### Subcompetency 5: Perform Banking Skills

<table>
<thead>
<tr>
<th>Objectives</th>
<th>Training Activities</th>
<th>Home-/Community-Based Training Activities</th>
</tr>
</thead>
</table>
| **1. Open checking account** | • Teacher discusses services provided by banks and the benefits of opening and having a checking account  
- Student visits a local bank and banker discusses the benefits of having a checking account and the various types of checking accounts available  
- Student knows and can print full name, address, birthdate, telephone number, and names of references  
- Student practices copying information from ID card to account application for opening a checking account at school bank  
- Student opens school checking account  
- Student seeks assistance from teacher | • Student visits a local bank and banker discusses services provided by banks, the benefits of opening and having a checking account, and how to open various types of checking accounts  
- Student fills out information on account application in order to open a checking account at a bank with adult/peer  
- Student knows and can print full name, address, birthdate, telephone number, and names of references  
- Student opens checking account with banker's or adult's/peer's assistance if needed  
- Student seeks assistance from adult/peer |
| **2. Open savings account** | • Teacher discusses services provided by banks and the benefits of opening and having a savings account  
- Student visits a local bank and banker discusses the benefits of having a savings account  
- Student practices copying information from ID card to account application for opening a savings account at school bank  
- Student opens school savings account  
- Student seeks assistance from teacher | • Student visits a local bank and banker discusses services provided by banks, the benefits of opening and having a savings account, and how to open a savings account  
- Student fills out information on account application in order to open a savings account at a bank with adult/peer  
- Student opens savings account with banker's or adult's/peer's assistance if needed  
- Student seeks assistance from adult/peer |
| **3. Write checks and record transactions** | • Teacher demonstrates how to write a check and record transactions in ledger  
- Student practices writing a check and recording transactions at school bank  
- Student seeks assistance from teacher | • Adult/peer demonstrates how to write a check and record transactions in ledger  
- Student writes checks and records transactions for her/his bank checking account with adult/peer  
- Student seeks assistance from adult/peer |
| **4. Make deposits and record transactions** | • Teacher demonstrates how to make deposits and record transactions in ledger for checking and savings accounts  
- Student practices making deposits and withdrawals and recording transactions at school bank  
- Student seeks assistance from teacher | • Adult/peer demonstrates how to make deposits and record transactions in ledger for checking and savings accounts  
- Student makes deposits and withdrawals and records transactions for her/his bank savings accounts  
- Student seeks assistance from adult/peer |
| **5. Request banking assistance** | • Teacher demonstrates how to and with whom to request banking help | • Adult/peer demonstrates how to and with whom to request banking help |
6. Use check cashing cards/services

- Student demonstrates what to do when problems occur while making checking or savings transactions
- Student identifies whom to request help from in resolving problems while making checking or savings transactions
- Student role plays actions when problems occur while making checking or savings transactions
- Student requests help in resolving problems when making checking or savings transactions
- Student identifies whom to request help from in resolving problems while making checking or savings transactions
- Student role plays actions when problems occur while making checking or savings transactions
- Student requests help in resolving problems when making checking or savings transactions

- Teacher demonstrates how to use check cashing cards
- Student demonstrates the use of check cashing cards/services
- Student obtains check cashing cards/services information
- Student writes down procedures for using check cashing cards/services on chart/poster
- Student verbally explains how to use check cashing cards/services
- Student practices using check cashing cards/services
- Student demonstrates what to do when problems occur while using check cashing cards/services
- Student role plays actions when problems occur while using check cashing cards/services
- Student identifies whom to request help from in resolving problems when using check cashing cards/services
- Student role plays locating sources for helping to resolve problems when using check cashing cards/services
- Student requests help in resolving a problem when using check cashing cards/services
- Student seeks assistance from teacher

</tr>
</thead>
</table>
| 1. Identify routine cleaning tasks | - Teacher demonstrates routine cleaning tasks  
- Student discusses the areas that need to be cleaned weekly  
- Student visits an apartment/house and discusses with manager the areas that need routine cleaning  
- Student states what areas of an apartment/house need daily and weekly cleaning  
- Student demonstrates making and changing bed  
- Student seeks assistance from teacher | - Adult/peer demonstrates routine cleaning tasks  
- Student visits an apartment/house and demonstrates which areas need daily or weekly cleaning  
- Student names with the adult/peer the routine cleaning tasks in the home/apartment that need daily/weekly cleaning  
- Student identifies what areas of house need daily and weekly cleaning  
- Student demonstrates making and changing bed  
- Student seeks assistance from adult/peer |
| 2. Plan daily/weekly cleaning routine | - Student plans approximate time of day for daily cleaning tasks  
- Student plans tentative day of the week for weekly cleaning tasks  
- Student develops poster/calendar of daily/weekly cleaning tasks using pictures and/or descriptions  
- Student seeks assistance from teacher | - Student lists approximate time and plans tentative day of the week for daily or weekly cleaning tasks  
- Student writes out schedule for day of the week for weekly cleaning tasks  
- Student develops schedule of daily/weekly cleaning tasks and hangs it up in utility closet  
- Student seeks assistance from adult/peer |
| 3. Identify and use common household cleaning products | - Teacher demonstrates the common household cleaning products and their uses  
- Student develops poster/collage of cleaning products for use in daily/weekly cleaning  
- Student demonstrates the use of each cleaning product  
- In pairs, students discuss the amounts used in cleaning for each cleaning product on their posters | - Adult/peer demonstrates the common household cleaning products and their uses  
- Student lists and demonstrates the use of each cleaning product  
- Student determines the amounts used for each cleaning product  
- Student performs the cleaning task using the appropriate cleaning product  
- Student seeks assistance from adult/peer |
### Domain: Daily Living Skills

**Competency 2: Selecting and Maintaining Living Environments**

**Subcompetency 8: Use Basic Appliances and Tools**

<table>
<thead>
<tr>
<th>Objectives</th>
<th>Training Activities</th>
<th>Home-/Community-Based Training Activities</th>
</tr>
</thead>
</table>
| 1. Identify common household appliances and tools and their uses | Teacher demonstrates the common household appliances and tools and their uses  
Student names common household appliances and tools  
Student discusses the uses for the named common household appliances and tools  
Student identifies common household appliances and tools appropriate to the cleaning/repair tasks  
Student seeks assistance from teacher | Adult/peer demonstrates the common household appliances and tools and their uses  
Student demonstrates the uses for common household appliances and tools  
Student identifies the appropriate appliances and tools for the cleaning/repair tasks  
Student seeks assistance from adult/peer |
| 4. Identify and demonstrate safe use of household cleaning products | Student is given cleaning task and performs the task using the appropriate cleaning  
Student seeks assistance from teacher  
Teacher demonstrates the common household cleaning products and their safe use  
Student discusses the dangers of most cleaning products (e.g., to eyes, skin, etc.)  
Student demonstrates the use of safety glasses, gloves, aprons, brushes, buckets  
Student discusses the precautions listed on all cleaning products  
Student states the emergency first aid interventions  
Student puts labels on cleaning products, outlining where they should be used (e.g., furniture, bathroom, dishes, countertops, floors, etc.)  
Student performs cleaning tasks in school and in community living environments, using cleaning products safely  
Student seeks assistance from teacher | Adult/peer demonstrates the common household cleaning products and their safe use  
Student discusses the dangers of most cleaning products, regarding eyes, skin, etc.  
Student demonstrates the safe use and the precautions to take when using cleaning products, regarding glasses, gloves, aprons, brushes, buckets, etc.  
Student states cleaning products' emergency first aid interventions  
Student performs the cleaning task in her/his community living environment, using the cleaning products safely  
Student seeks assistance from adult/peer |
| 5. Perform daily/weekly cleaning routine | Student practices cleaning and charting daily/weekly cleaning tasks  
Student seeks assistance from teacher | Student cleans and charts daily/weekly cleaning tasks at home or in living environment with adult/peer  
Student seeks assistance from adult/peer |
| 6. Identify when and where to obtain common household cleaning products | Teacher discusses when and where to obtain common household cleaning products  
Student discusses when to obtain cleaning products  
Student discusses where to obtain cleaning products  
Student seeks assistance from teacher | Adult/peer discusses when and where to obtain common household cleaning products  
Student demonstrates the appropriate time and place to purchase household cleaning products  
Student seeks assistance from adult/peer |
2. Demonstrate appropriate use of common household appliances and tools

- Teacher describes the common household appliances and tools and their safe use
- Student selects on request the appropriate household appliances or tools from the storage area
- Student uses common household tools and appliances to perform household cleaning and repair tasks
- Student stores tools and appliances in the appropriate area
- Student discusses routine care required for tools and appliances
- Student seeks assistance from teacher

- Adult/peer describes the common household appliances and tools and their safe use
- Student demonstrates the use of common household tools and appliances by performing household cleaning and repair tasks
- Student demonstrates storing tools and appliances in the appropriate area
- Student demonstrates the required routine care for tools and appliances
- Student seeks assistance from adult/peer

3. Identify safety procedures when using household appliances and tools

- Teacher describes the safe use of common household appliances and tools
- Student discusses the precautions to be practiced when using common household tools and appliances
- Student demonstrates using electrical tools and appliances safely
- Student lists “Dos and Don’ts” of using household tools and appliances on chart/poster
- Student seeks assistance from teacher

- Adult/peer describes the safe use of common household appliances and tools
- Student demonstrates the precautions for using common household tools and appliances
- Student demonstrates using electrical tools and appliances safely
- Student discusses and lists rules for using household tools and appliances
- Student seeks assistance from adult/peer

4. Request appropriate assistance for household repair tasks

- Student demonstrates what to do when faced with household repairs requiring repair person
- Student role plays actions when faced with household repairs requiring repair person
- Student identifies whom to request help from in resolving repair problems
- Student role plays locating sources for help with household repair problems

- Student demonstrates actions when faced with household repairs requiring repair person
- Student demonstrates whom to call and locates source in resolving repair problem
- Student demonstrates procedure for requesting help in repairing household problem
- Student requests help in repairing household problem

</table>
| 1. Select clothing for different weather conditions | - Teacher discusses dressing for different weather conditions  
- Student demonstrates what clothing is appropriate for seasonal conditions | - Adult/peer discusses dressing for different weather conditions  
- Student demonstrates selecting appropriate clothing for seasonal conditions |
2. Select clothing for different activities

- Student demonstrates storing clothing by season
- Student selects and stores clothing for seasons and various weather conditions
- Student role plays selecting different clothes for different weather conditions
- Student develops poster depicting appropriate clothing for different weather conditions
- Student seeks assistance from teacher

- Teacher demonstrates dressing for different daily activities
- Student makes poster matching clothing and types of activities
- Student selects appropriate clothing for different types of school activities
- Student seeks assistance from teacher

- Adult/peer demonstrates dressing for different daily activities
- Student demonstrates appropriate clothing for different types of community activities
- Student seeks assistance from adult/peer

3. Select and coordinate appropriate fitting clothing

- Teacher demonstrates dressing in coordinated, properly fitting clothing
- Student visits retail clothing store, and salesperson discusses the importance of dressing in appropriately sized and coordinated clothing.
- Student develops card listing sizes for clothing/shoes/outerwear
- Student practices selecting coordinated and fitted clothing for school
- Student seeks assistance from teacher

- Adult/peer demonstrates dressing in coordinated, properly fitting clothing
- Student visits retail clothing store and salesperson demonstrates coordinated and appropriately sized clothing
- Student develops card listing sizes for clothing/shoes/outerwear
- Student practices selecting coordinated and fitted clothing for community activities
- Student seeks assistance from adult/peer

- Adult/peer discusses the importance of exercise and some home examples
- Student identifies which physical exercises/activities individuals can practice to maintain physical fitness at home
- Student seeks assistance from adult/peer

4. Maintain neat appearance

- Teacher discusses the importance of a neat appearance
- Student discusses the importance of a neat appearance at school
- Student identifies several times of the day to check and make needed adjustments to appearance at school
- Student practices keeping a neat appearance at school
- Student seeks assistance from teacher

- Adult/peer discusses the importance of exercise and some community examples
- Student identifies which physical exercises/activities individuals can practice to maintain physical fitness in the community
- Student seeks assistance from adult/peer

<th>Objectives</th>
<th>Training Activities</th>
<th>Home-/Community-Based Training Activities</th>
</tr>
</thead>
</table>
| 1. Identify situations that are dangerous in the home, community, and at work | - Teacher describes dangerous situations at school and home  
- Student discusses situations in the home, community, and at work that require the practicing of personal safety  
- Student develops poster depicting dangerous situations at school and home  
- Student seeks assistance from teacher | - Adult/peer describes dangerous situations in the community or at the job site  
- Student determines situations in the home, community, and at work in which he/she can demonstrate personal safety  
- Student seeks assistance from adult/peer |
| 2. Identify safety precautions to avoid personal injury in the home, community, and at work | - Teacher describes safety precautions to take at school and home  
- Student demonstrates safety actions to take to avoid dangerous situations leading to personal injury in the home, community, and at work  
- Student develops poster depicting safety precautions to take at school and home  
- Student seeks assistance from teacher | - Adult/peer describes safety precautions to take in the community or at the job site  
- Student determines safety actions for avoiding dangerous situations that may lead to personal injury in the home, community, and at work  
- Student seeks assistance from adult/peer |
### 3. Identify self-protection procedures
- Police officer describes self-protection procedures to take at school and home
- Student demonstrates ways to secure personal living environment
- Student visits police station and officer discusses/demonstrates self-protection methods
- Student demonstrates ways to protect self when out in public (e.g., traveling in pairs, not hitchhiking, etc.)
- Student role plays self-protection procedures to take in school, home, community, and at the job site
- Student seeks assistance from teacher
- Adult/peer describes self-protection procedures to take in the community or at the job site
- Student visits police station with police officer demonstrating self-protection methods
- Student demonstrates different ways to protect self when in community (e.g., traveling in groups, be alert)
- Student seeks assistance from adult/peer

### 4. Practice precautions when dealing with strangers
- Officer describes “Dos and Don’ts” when meeting strangers
- Student discusses “Dos and Don’ts” of meeting strangers
- Student role plays appropriate methods when meeting strangers
- Student seeks assistance from teacher
- Adult/peer describes “Dos and Don’ts” of meeting strangers
- Student demonstrates appropriate methods of interacting with strangers
- Student demonstrates ways to distance self from strangers
- Student seeks assistance from adult/peer

| 1. Identify basic male and female sexual differences | Teacher identifies basic differences in males and females and purposes of the differences  
Student locates male and female reproductive organs on diagrams or models  
Student discusses purpose of the reproductive organs  
Student seeks assistance from teacher | Adult/peer identifies basic differences in males and females and purposes of differences  
Student locates male and female reproductive organs on diagrams or models  
Student identifies several purposes of the reproductive organs and understands them  
Student seeks assistance from adult/peer |
| 2. Describe the human reproduction process | Student views film/video on human reproduction  
Physician discusses the human reproduction process  
Student discusses pregnancy and the childbirth stages  
Student seeks assistance from teacher | Student views film/video on human reproduction  
Student visits community clinic and physician discusses the human reproduction process  
Student demonstrates an understanding of pregnancy and the childbirth stages  
Student seeks assistance from adult/peer |
| 3. Discuss personal responsibilities/behaviors | Teacher identifies basic personal responsibilities/behaviors when expressing human sexuality  
Student identifies the reasons for mature human sexual feelings  
Student discusses that erections and ejaculations are normal human sexual experiences but are only for private times | Adult/peer identifies basic personal responsibilities/behaviors when expressing human sexuality  
Student demonstrates an understanding of the reasons for mature human sexual feelings  
Student demonstrates an understanding of privacy relating to normal human sexual experiences |
Student discusses the appropriate times and places for masturbation
Student discusses appropriate sexuality expression with other individuals
Student discusses sexually transmitted diseases and prevention
Student seeks assistance from teacher

Student identifies an understanding of the appropriate times and places for masturbation
Student discusses appropriate sexuality expression with other individuals
Student discusses sexually transmitted diseases and prevention
Student seeks assistance from adult/peer

Domain: Daily Living Skills
Competency 4: Developing and Maintaining Appropriate Intimate Relationships
Subcompetency 17: Demonstrating Knowledge of Appropriate Dating Behavior

Objectives | Training Activities | Home-/Community-Based Training Activities
---|---|---
1. Identify the physical needs of dating | • Teacher describes the physical needs of dating  
• Student discusses the need for appropriate touching  
• Student practices appropriate touching at school and in the community with date  
• Student seeks assistance from teacher | • Adult/peer describes the physical needs of dating  
• Student demonstrates an understanding of the need for appropriate touching  
• Student demonstrates appropriate touching with her/his date  
• Student seeks assistance from adult/peer |
2. Identify the social-emotional needs of dating | • Teacher describes the social-emotional needs of dating  
• Student discusses the types of relationships (e.g., friends, boyfriend/girlfriend, marriage, etc.) and the mature social-emotional feelings involved in each  
• Student role plays expressing appropriate feelings for different types of personal relationships  
• Student practices expressing appropriate feelings for different types of relationships  
• Student seeks assistance from teacher | • Adult/peer describes the social-emotional needs of dating  
• Student demonstrates an understanding of types of relationships such as friends, boyfriend/girlfriend, marriage  
• Student demonstrates the mature social-emotional feelings involved in different types of relationships.  
• Student demonstrates an understanding of others (different views on relationships)  
• Student seeks assistance from adult/peer |
3. State parents'guardians' on dating and dating behavior | • Student demonstrates appropriate behavior on a date  
• Student states parents'guardians' position on dating and dating behavior  
• Student seeks assistance from teacher | • Student determines her/his views on appropriate behaviors on a date  
• Student demonstrates an understanding of others' views on appropriate behaviors on a date  
• Student seeks assistance from adult/peer |

Domain: Daily Living Skills
Competency 5: Eating at Home and in the Community
Subcompetency 18: Plan Balanced Meals

Objectives | Training Activities | Home-/Community-Based Training Activities
---|---|---
1. Identify the basic food groups | • Teacher identifies food guide pyramid  
• Student names the food guide pyramid groups  
• Student sorts food products into the food guide pyramid  
• Student develops poster depicting foods in the food guide pyramid | • Adult/peer identifies food guide pyramid  
• Student demonstrates understanding of the food guide pyramid by classifying the foods that he/she eats at all three of the meals and at snack times |
## Domain: Daily Living Skills

### Competency 5: Eating at Home and in the Community

#### Subcompetency 19: Purchase Food

<table>
<thead>
<tr>
<th>Objectives</th>
<th>Training Activities</th>
<th>Home-/Community-Based Training Activities</th>
</tr>
</thead>
</table>
| 1. Construct shopping list from weekly word or picture menu | Student identifies food products needed to complete a weekly menu  
Student develops word/picture shopping list from weekly menu  
Student seeks assistance from teacher | Student makes a list of foods that he/she will need to complete her/his weekly menu  
Student develops word/picture shopping list from weekly menu with adult/peer  
Student seeks assistance from adult/peer |
| 2. Locate food items on list | Grocery manager discusses locations of food departments in grocery store  
Student visits grocery store and locates foods from shopping list  
Student seeks assistance from teacher | Student demonstrates an understanding of the locations of different food departments in a grocery store  
Student locates the groceries he/she needs from his/her shopping list in a grocery store  
Student seeks assistance from adult/peer |
| 3. Recognize and request assistance as needed | Teacher discusses whom to request assistance from in a grocery store  
Student discusses whom to request assistance from in a grocery store  
Student role plays requesting assistance in a grocery store  
Student appropriately requests assistance in a grocery store  
Student seeks assistance from teacher | Adult/peer discusses whom to request assistance from in a grocery store  
Student identifies whom to request help from in a grocery store with adult/peer  
Student requests assistance in a grocery store  
Student seeks assistance from adult/peer |
| 4. Locate cashier | Student discusses where cashiers are generally located in grocery store  
Student demonstrates how to tell whether cashier’s lane is open or closed  
Student visits grocery store and locates cashier  
Student seeks assistance from teacher | Student locates open cashier’s lane in a grocery store  
Student demonstrates an understanding of checking out  
Student visits grocery store and locates cashier  
Student seeks assistance from adult/peer |
| 5. Calculate and give appropriate purchase amount | Student pays for simulated purchase of groceries from shopping list at school grocery store  
Student purchases groceries using the “next dollar” method or writes check for purchase  
Student seeks assistance from teacher | Student demonstrates purchasing groceries using the “next dollar” method or writes check for purchase  
Student demonstrates purchases using correct amount  
Student seeks assistance from adult/peer |

2. Identify appropriate foods eaten at typical daily meals
   - Student states approximate times for meals
   - Student discusses appropriate foods and portions to be eaten at different meals
   - Student judges simulated meals as being balanced meals
   - Student names junk foods and discusses reasons for limiting the amounts consumed
   - Student writes out names of foods, determining at which meal they would be served
   - Student determines which foods are not typical for the different meals
   - Student demonstrates an understanding of junk foods and healthy foods to adult/peer

3. Plan weekly menu
   - Student visits hospital and dietician demonstrates how to plan weekly menu
   - Student plans weekly word/picture menu
   - Student seeks assistance from teacher
   - Student visits hospital and dietician demonstrates how to plan weekly menu
   - Student plans a weekly menu including all three meals and snacks
   - Student seeks assistance from adult/peer

---

**INSTRUCTIONAL IMPLEMENTATION STRATEGIES** / 27

---

**Domain:** Daily Living Skills

**Competency 5:** Eating at Home and in the Community

**Subcompetency 19:** Purchase Food

**Objectives**

1. Construct shopping list from weekly word or picture menu
   - Student identifies food products needed to complete a weekly menu
   - Student develops word/picture shopping list from weekly menu
   - Student seeks assistance from teacher

2. Locate food items on list
   - Grocery manager discusses locations of food departments in grocery store
   - Student visits grocery store and locates foods from shopping list
   - Student seeks assistance from teacher

3. Recognize and request assistance as needed
   - Teacher discusses whom to request assistance from in a grocery store
   - Student discusses whom to request assistance from in a grocery store
   - Student role plays requesting assistance in a grocery store
   - Student appropriately requests assistance in a grocery store
   - Student seeks assistance from teacher

4. Locate cashier
   - Student discusses where cashiers are generally located in grocery store
   - Student demonstrates how to tell whether cashier's lane is open or closed
   - Student visits grocery store and locates cashier
   - Student seeks assistance from teacher

5. Calculate and give appropriate purchase amount
   - Student pays for simulated purchase of groceries from shopping list at school grocery store
   - Student purchases groceries using the "next dollar" method or writes check for purchase
   - Student seeks assistance from teacher

---

**Home-/Community-Based Training Activities**

- Student makes a list of foods that he/she will need to complete her/his weekly menu
- Student develops word/picture shopping list from weekly menu with adult/peer
- Student seeks assistance from adult/peer

- Student demonstrates an understanding of the locations of different food departments in a grocery store
- Student locates the groceries he/she needs from his/her shopping list in a grocery store
- Student seeks assistance from adult/peer

- Adult/peer discusses whom to request assistance from in a grocery store
- Student identifies whom to request help from in a grocery store with adult/peer
- Student requests assistance in a grocery store
- Student seeks assistance from adult/peer

- Student locates open cashier's lane in a grocery store
- Student demonstrates an understanding of checking out
- Student visits grocery store and locates cashier
- Student seeks assistance from adult/peer

- Student demonstrates purchasing groceries using the "next dollar" method or writes check for purchase
- Student demonstrates purchases using correct amount
- Student seeks assistance from adult/peer
6. Receive purchase and change

- Student receives purchase and change for simulated purchase of groceries from shopping list at school grocery store
- Student makes purchase and waits for purchase and receives change at grocery store
- Student seeks assistance from teacher

- Student receives groceries and correct change from cashier
- Student seeks assistance from adult/peer

**Domain:** Daily Living Skills

</table>
| 1. Identify food preparation procedures | - Student visits restaurant and observes food preparation and practices  
- Student discusses food preparation procedures  
- Student practices cleaning hands and food preparation area  
- Student seeks assistance from teacher | - Student visits restaurant, observing food preparation procedures  
- Student cleans hands and food preparation area  
- Student seeks assistance from adult/peer |
| 2. Identify and demonstrate uses of basic kitchen tools and appliances | - Teacher discusses basic kitchen tools and appliances and their uses  
- Student develops poster/collage of kitchen tools and appliances and their uses  
- Student visits restaurant and chef discusses and demonstrates the uses of basic food preparation tools and appliances  
- Student names basic kitchen tools and appliances  
- Student demonstrates the safety precautions when using basic kitchen tools and appliances  
- Student practices using basic kitchen tools and appliances  
- Student seeks assistance from teacher | - Adult/peer discusses basic kitchen tools and appliances and their uses  
- Student lists and discusses the use of each kitchen tool and appliance  
- Student visits restaurant and chef demonstrates food preparation and use of kitchen tools and appliances  
- Student demonstrates familiarity with basic kitchen tools and appliances, and safety precautions, with adult/peer  
- Student uses basic kitchen tools and appliances safely  
- Student seeks assistance from adult/peer |
| 3. Select recipe | - Student practices selecting appropriate recipes for meals  
- Student seeks assistance from teacher | - Student selects appropriate recipes for meals  
- Student seeks assistance from adult/peer |
| 4. Collect foods and utensils listed on recipe | - Student practices collecting food products and cooking utensils needed to follow recipes  
- Student seeks assistance from teacher | - Student collects food products and cooking utensils needed for following recipe  
- Student seeks assistance from adult/peer |
| 5. Follow simple recipe | - Student visits restaurant and chef demonstrates how to follow simple recipe for preparing a meal  
- Student follows simple no-cook recipe  
- Student follows simple cook recipe  
- Student demonstrates how to use microwave to follow recipe  
- Student follows microwave recipe  
- Student follows oven/stove recipe  
- Student discusses signs of overcooked foods  
- Student seeks assistance from teacher | - Student visits a restaurant, with chef preparing a simple meal from a recipe  
- Student prepares from recipes:  
  a. no-cook meal  
  b. toaster, no-cook recipes  
  c. microwave recipe  
  d. oven-/stove-cooked recipe  
- Student points out overcooked meal and discusses signs of overcooked foods  
- Student seeks assistance from adult/peer |

</table>
| 1. Demonstrate meal clean-up procedures | - Teacher demonstrates appropriate meal clean-up procedures  
- Student discusses the importance of meal clean-up immediately after mealtime  
- Student demonstrates the procedure for meal clean-up  
- Student practices removing leftover food from table  
- Student practices removing dishes from table  
- Student practices clearing the table of food scraps and crumbs  
- Student demonstrates the procedures for washing, drying, and storing clean dishes  
- Student practices the procedures for washing, drying, and storing clean dishes  
- Student inspects eating area after meal clean-up  
- Student seeks assistance from teacher | - Adult/peer demonstrates appropriate meal clean-up procedures  
- Student identifies the importance of meal clean-up  
- Student removes leftover food from table  
- Student removes dishes from table  
- Student uses space to clean the table of food scraps and crumbs  
- Student washes, dries, and stores clean dishes  
- Student reviews eating area after meal clean-up and repeats any necessary procedures  
- Student seeks assistance from adult/peer |
2. Identify signs of food spoilage
   - Teacher describes signs of food spoilage
   - Student discusses the signs of food spoilage
   - Student discusses the consequences of eating spoiled foods
   - Student finds spoiled foods in a group of foods
   - Student seeks assistance from teacher

3. Demonstrate waste disposal procedures
   - Teacher demonstrates waste disposal procedures
   - Student discusses reasons for proper waste disposal
   - Student demonstrates procedures for using and cleaning trash receptacles
   - Student observes school cook using the garbage disposal
   - Student demonstrates the appropriate use of garbage disposal
   - Student demonstrates the appropriate methods of disposing of food waste
   - Student seeks assistance from teacher

4. Sort food into storage groups
   - Student observes school cook placing food in appropriate containers and wrapping foods
   - Student practices wrapping foods to be stored
   - Student practices placing foods in containers to be stored
   - Student practices checking food for spoilage weekly
   - Student practices appropriate food storage
   - Student seeks assistance from teacher

5. Demonstrate appropriate food storage
   - Student visits restaurant and chef demonstrates food storage into appropriate groups
   - Student discusses why foods are stored in different locations
   - Student develops posters depicting foods stored in refrigerator, in cool places, pantries, etc.
   - Student sorts and stores food in the school food preparation/storage area for school cooks
   - Student seeks assistance from teacher

| 1. Identify basic clothing needs | • Student visits clothing store and salesperson discusses a basic wardrobe  
• Student discusses number and types of clothes needed to compose a wardrobe  
• Student develops a poster depicting basic clothing needed for wardrobe | • Student visits clothing store and demonstrates knowledge of basic clothes needed to compose a wardrobe |
| 2. Identify appropriate size, color, and style of clothing needed | • Student discusses the size, color, and style of clothes he/she needs for a wardrobe  
• Student seeks assistance from teacher | • Student demonstrates knowledge of the size, color, and style of clothes needed for wardrobe  
• Student seeks assistance from adult/peer |
| 3. Estimate clothing costs and bring money for clothing needs | • Student identifies current clothing needs  
• Student estimates costs for clothing needs and brings amount to make needed purchases | • Student demonstrates knowledge of costs for clothing needs  
• Student brings amount needed to make purchases |
| 4. Identify appropriate clothing store | • Student discusses appropriate types of clothing stores to shop at  
• Student seeks assistance from teacher | • Student identifies appropriate store to shop at for clothing  
• Student seeks assistance from adult/peer |
| 5. Locate appropriate store department | • Student states the location of clothing store departments  
• Student locates appropriate clothing departments  
• Student seeks assistance from teacher | • Student appropriately locates which clothing department to shop in for each item  
• Student seeks assistance from adult/peer |
| 6. Request assistance from store clerk | • Student role plays asking store clerk for assistance  
• Student identifies the school store clerks  
• Student requests assistance from school store clerk | • Student identifies store clerks and appropriately requests information from them |
7. Select clothing item(s) • Student develops poster of clothing needs • Student selects clothing item(s) • Student seeks assistance from teacher

8. Check fit of clothing item(s) • Sales clerk discusses clothing sizing • Student discusses how to check clothing fit • Student checks fit of clothing prior to purchasing • Student seeks assistance from teacher

9. Locate cashier • Student demonstrates where cashiers are generally located in clothing stores • Student locates cashier to make purchase of clothes • Student seeks assistance from teacher

10. Calculate and give appropriate purchase amount • Student role plays the calculating and use of the “next dollar” method to pay for simulated purchase and make purchase • Student uses “next dollar” method to pay for clothing purchase and make purchase • Student seeks assistance from teacher

11. Receive purchase and change • Student role plays receiving purchase and change • Student receives purchase and change • Student seeks assistance from teacher

Domain: Daily Living Skills
Competency 7: Participate in Leisure/Recreational Activities
Subcompetency 26: Identify Available Community Leisure/Recreational Activities

Objectives | Training Activities | Home-/Community-Based Training Activities
---|---|---
1. Identify types of individual leisure/recreational activities • Student discusses the importance of participating in individual leisure/recreational activities • Student visits YMCA/YWCA or community recreational center and director discusses and demonstrates activities that can be performed alone during leisure time • Student demonstrates various activities that an individual can perform alone during leisure time • Student develops posters depicting activities he/she enjoys performing alone during leisure time • Student seeks assistance from teacher • Student visits YMCA/YWCA or community recreational center and watches others participate in activities that can be performed alone during leisure time • Student visits YMCA/YWCA or community recreational center and participates in activities that can be performed alone during leisure time • Student seeks assistance from adult/peer
2. Identify types of group leisure/recreational activities
   - Student discusses the importance of participating in group leisure/recreational activities
   - Student visits YMCA/YWCA or community recreational center and director discusses and demonstrates activities that can be performed in a group during leisure time
   - Student demonstrates various activities that an individual can perform in a group during leisure time
   - Student develops posters depicting activities he/she enjoys performing in a group during leisure time
   - Student seeks assistance from teacher

3. Locate equipment and facilities of leisure/recreational activities
   - Student visits YMCA/YWCA or community recreational center and director discusses where equipment and facilities can be found for participating in leisure/recreational activities
   - Student locates where equipment and facilities for leisure/recreational activities can be found
   - Student locates the sources for assisting in identifying leisure/recreational activities in the community using telephone directory
   - Student seeks assistance from teacher

</table>
| 1. Identify modes of transportation in the community | • Student visits local bus or taxicab company in town and dispatcher discusses and demonstrates how to use local modes of transportation in the community  
• Student discusses the modes of available transportation in the community  
• Student states her/his types of personal transportation | • Student visits local bus and taxicab company in town, demonstrating an understanding of the use of local modes of transportation in the community  
• Student identifies her/his preference for available transportation in the community |
| 2. Identify requirements of each mode of community transportation | • Student visits local bus or taxicab company in town and dispatcher discusses the requirements for using each community mode of transportation  
• Student states the requirements for using her/his major mode of transportation  
• Student seeks assistance from teacher | • Student demonstrates an understanding of the requirements for using each community mode of transportation  
• Student states the requirements for using her/his major mode of transportation with adult/peer  
• Student seeks assistance from adult/peer |
| 3. Practice using modes of community transportation | • Student practices using the various types of community transportation  
• Student participates in bike safety training program  
• Student participates in public transportation training program  
• Student seeks assistance from teacher | • Student demonstrates that he/she can use the various types of community transportation independently  
• Student participates in bike safety training program  
• Student uses or demonstrates an understanding of curb-to-curb van service  
• Student seeks assistance from adult/peer |
| 4. Request assistance for using modes of community transportation | • Student identifies sources of assistance for travel in the community for any of the available modes of transportation and lists on chart/poster  
• Student requests assistance from appropriate sources for using modes of community travel | • Student demonstrates an understanding of requesting assistance for any of the available modes of transportation in the community to adult/peer  
• Student requests assistance from appropriate sources for using modes of community travel |
| 5. Identify and develop strategies for coping with disruption in primary community transportation mode | • Teacher demonstrates strategies to use when there is a disruption in primary transportation | • Adult/peer demonstrates strategies to use when there is a disruption in primary transportation |
### INSTRUCTIONAL IMPLEMENTATION STRATEGIES / 39

- Student discusses her/his options for use of community travel when major mode is disrupted
- Student states her/his strategies for using alternative modes of transportation when primary mode is disrupted
- Student seeks assistance from teacher
- Student determines which other modes of transportation she/he can use when her/his major mode is disrupted
- Student explores ways of travel when all of her/his primary modes of transportation are disrupted
- Student seeks assistance from adult/peer

### PERSONAL-SOCIAL SKILLS

</thead>
</table>
| 1. Identify different emotions | - Teacher discusses why people have emotions and examples of emotions  
- Student names common emotions that people express  
- Student develops list and teacher lists on chart or chalkboard several common emotions expressed daily  
- Student develops poster by cutting and pasting pictures from magazines of people demonstrating the emotions listed on chart or chalkboard  
- Student seeks assistance from teacher | - Adult/peer describes her/his personal emotions and examples of other people’s emotions  
- Student demonstrates an understanding of emotions that people express  
- Student identifies emotions from pictures of people in magazines and newspapers  
- Student seeks assistance from adult/peer |
### 2. Identify ways to express emotions

- Teacher discusses ways people can express and examples of emotions
- Student demonstrates ways emotions listed on the chart or chalkboard are expressed
- Student role plays expressing emotions listed on chart or chalkboard
- Student seeks assistance from teacher

### 3. Practice appropriate ways to express emotions

- Student states emotions that are difficult for him/her to express and role plays strategies to express them appropriately
- Student develops self-monitoring plan for tracking difficult-to-express emotions
- Student demonstrates appropriate ways to express emotions
- Student seeks assistance from teacher

### 4. Request assistance for coping with emotions

- Student identifies sources of assistance for coping with emotions and lists telephone numbers and contacts on chart/poster
- Student role plays seeking assistance for coping with emotions
- Student requests assistance to help him/her cope with emotions

#### Domain: Personal-Social Skills

- Student names 5 appropriate and 5 inappropriate behaviors exhibited in the community and an adult/peer lists them on chart/notepad  
- Student seeks assistance from adult/peer |
| 5. Practice appropriate behavior at home | - Student demonstrates appropriate behavior at home in role-play scenarios | - Student demonstrates appropriate ways to behave in the home with adults/peers |
6. Practice appropriate behavior at work
- Student demonstrates examples of appropriate behavior in the home and in the classroom
- Student teams practice exhibiting appropriate behavior at home and monitor daily and report at end of each day
- Student seeks assistance from teacher

7. Practice appropriate behavior at school/training program
- Student demonstrates appropriate behavior at work in role play scenarios
- Student demonstrates examples of appropriate behavior at work in the classroom
- Student teams practice exhibiting appropriate behavior at work and monitor daily and report at end of each day
- Student seeks assistance from teacher

8. Practice appropriate behavior in the community
- Student demonstrates appropriate behavior in the community in role-play scenarios
- Student demonstrates examples of appropriate behavior at work and in the classroom
- Student teams practice exhibiting appropriate behavior in the community and monitor daily and report at end of each day
- Student seeks assistance from teacher

Domain: Personal-Social Skills
Competency 10: Exhibiting Socially Responsible Behavior
Subcompetency 38: Identify Current and Future Personal Roles

Objectives | Training Activities | Home-/Community-Based Training Activities
--- | --- | ---
1. Identify current personal roles | Teacher describes her/his current personal roles and examples of other people's personal roles | Adult/peer describes student’s current personal roles and examples of other people’s personal roles
| Student names possible current personal roles | Student demonstrates an understanding of current personal work roles
| Student develops list and teacher lists on chart or chalkboard several possible current personal roles | Student identifies possible current work role from pictures in magazines or “world of work” textbooks and newspapers
2. Identify possible future personal roles

- Student develops poster by cutting and pasting pictures from magazines of people demonstrating possible current personal roles listed on chart or chalkboard
- Student seeks assistance from teacher

3. Describe how personal roles differ from those of significant others

- Teacher describes student’s possible future personal roles
- Student names possible future personal roles
- Student develops list and teacher lists on chart or chalkboard several possible future personal roles
- Student develops poster by cutting and pasting pictures from magazines of people demonstrating possible future personal roles listed on chart or chalkboard
- Student seeks assistance from teacher

4. Describe how personal roles interact with others’ roles

- Student discusses the differences between her/his current and/or future personal roles and those of her/his significant others
- Student lists on chart/chalkboard her/his own current and/or future personal roles and her/his significant others’ current and future personal roles
- Student seeks assistance from teacher

- Student discusses how her/his current and/or future personal roles interact with that of her/his significant others
- Student lists on chart/chalkboard her/his own current and/or future personal roles and how they interact with her/his significant others’ current and future personal roles
- Student seeks assistance from teacher

| 1. Identify personal property and rights of others | Teacher describes student’s personal property and rights of others and examples of others’ personal property
- Student lists on chart/chalkboard her/his own personal property and the rights of others to her/his personal property
- Student lists on chart/chalkboard others’ personal property and her/his rights to others’ personal property
- Student seeks assistance from teacher | Adult/peer describes student’s personal property and rights of others and examples of others’ personal property
- Student lists with supervisor her/his personal property that should accompany her/him at training programs or job placements and the rights of others to her/his personal property on notepad/chart
- Student lists with supervisor others’ personal property that could accompany them at training programs or job placements and others’ rights to her/his personal property on notepad/chart |
2. Identify reasons for respecting personal property and rights of others

- Teacher describes reasons for respecting personal property and rights of others
- Student lists on chart/chalkboard reasons for respecting others' personal property and rights of others on notepad/chart
- Student role plays scenarios depicting the reasons for respecting the personal property and rights of others

3. Practice respecting others' personal property and rights

- Student self-monitors daily on a classroom chart his/her practice of respecting other class members' personal property and rights
- Student role plays scenarios depicting the practice of respecting other class members, personal property and rights
- Student teams practice respecting team members' personal property and rights and monitor daily and report at end of each day
- Student seeks assistance from teacher

4. Identify actions for borrowing items

- Teacher describes and demonstrates actions for borrowing items
- Student lists on chalkboard/chart the appropriate actions for borrowing items
- Student role plays scenarios depicting the appropriate actions for borrowing items
- Student seeks assistance from teacher

5. Identify actions when others' personal property has been damaged

- Teacher describes and demonstrates appropriate actions when others' personal property has been damaged
- Guest speaker discusses the appropriate actions that should be taken when others' personal property has been damaged
- Student lists on chalkboard/chart the appropriate actions that should be taken when others' personal property has been damaged
- Student role plays scenarios depicting the appropriate actions for when others' personal property has been damaged
- Student seeks assistance from teacher

- Student lists with adult/peer her/his personal property in the community and the rights of others to her/his personal property on notepad/chart
- Student lists with adult/peer others' personal property in the community and others' rights to her/his personal property on notepad/chart
- Student seeks assistance from adult/peer

- Adult/peer describes reasons for respecting personal property and rights of others
- Student lists with supervisor the reasons for respecting others' personal property rights at training programs or job placements
- Student lists with adult/peer the reasons for respecting others' personal property and rights in the community
- Student seeks assistance from adult/peer

- Adult/peer describes and demonstrates actions for borrowing items
- Student lists with supervisor on notepad/chart the appropriate actions for borrowing items at training programs or job placements
- Student lists with adult/peer on notepad/chart the appropriate actions for borrowing items in the community
- Student seeks assistance from adult/peer

- Adult/peer describes and demonstrates appropriate actions when others' personal property has been damaged
- Supervisor discusses the appropriate actions that should be taken when others' personal property in training programs or job placements has been damaged
- Adult/peer discusses the appropriate actions that should be taken when others' personal property in the community has been damaged
- Student lists with supervisor on notepad/chart the appropriate actions that should be taken when others' personal property in training programs or job placements has been damaged

</table>
| 1. Identify authority figures | - Teacher identifies authority figures at school  
- Student lists on chalkboard/chart individuals who are to be respected as authority  
- Teacher discusses who are authority individuals at school  
- Speaker discusses figures who are typically regarded as being authorities  
- Student seeks assistance from teacher | - Adult/peer identifies authority figures in community  
- Supervisor discusses authority figures in training programs or job placements  
- Adult/peer discusses authority figures in the community  
- Supervisor and student list on notepad/chart 5 individuals who are authority figures at training programs or job placements  
- Student seeks assistance from adult/peer |
| 2. Identify roles of authority figures | - Teacher discusses the roles of authority figures and how and why we respect these individuals  
- Guest speaker identifies the roles of those individuals in position of authority and how and why we show them respect  
- Student lists on chalkboard/chart 5 different roles of authority figures | - Supervisor discusses the roles of authority figures in training programs or job placements and how and why we show them respect  
- Adult/peer identifies the roles of authority figures in the community and how and why we show them respect  
- Supervisor and student list on notepad/chart 5 different roles of authority figures  
- Adult/peer lists on notepad/chart 5 different roles of authority figures in the community |
| 3. Identify consequences of not respecting authority | - Guest speaker discusses the consequences of not respecting authority in school or in the community | - Supervisor discusses with student the consequences of not respecting authority in training programs or job placements |

6. Identify actions when others' personal rights have been violated

- Guest speaker discusses the appropriate actions that should be taken when others' personal rights have been violated  
- Student lists on chalkboard/chart the appropriate actions that should be taken when others' personal rights have been violated  
- Student role plays scenarios depicting the appropriate actions that should be taken when others' personal rights have been violated  
- Student seeks assistance from teacher  

- Supervisor discusses the appropriate actions that should be taken when others' personal rights in training programs or job placements have been violated  
- Adult/peer discusses the appropriate actions that should be taken when others' personal rights in the community have been violated  
- Student lists with supervisor on notepad/chart the appropriate actions that should be taken when others' personal rights in training programs or job placements have been violated  
- Student lists with adult/peer the appropriate actions that should be taken when others' personal rights in the community have been violated  
- Student seeks assistance from adult/peer
4. **Practice respecting authority**

- Teacher identifies the consequences of not respecting authority
- Student lists on chalkboard/chart 5 consequences of not respecting authority
- Adult/peer identifies the consequences of not respecting authority in the community
- Supervisor and student list on notepad/chart 5 consequences of not respecting authority in training programs or job placements
- Adult/peer lists on notepad/chart 5 consequences of not respecting authority in the community
- Adult/peer seeks assistance from teacher
- Student self-monitors daily on a classroom chart her/his practice of respecting authority figures in school
- Student role plays scenarios depicting the practice of respecting authority in school
- Student teams practice respecting authority and monitor daily and report at end of each day
- Student seeks assistance from adult/peer
- Student is evaluated by supervisor at training program or job placements on her/his practice of respecting authority figures
- Student is evaluated by adult/peer on her/his practice of respecting authority figures in the community

| 1. Identify signs of an emergency situation | - Teacher identifies signs indicating an emergency situation in school or at home  
- Student lists on chalkboard/chart the effective techniques of communicating emergencies at school and at home  
- Teacher demonstrates some of the most effective communication techniques to use for emergencies at school and at home | - Adult/peer identifies signs indicating an emergency situation in the community  
- Supervisor demonstrates appropriate techniques for communicating emergencies at training programs or at job placements  
- Adult/peer demonstrates appropriate techniques for communicating emergencies while in the community |
| 5. Identify appropriate techniques of communicating on the telephone | - Student constructs poster outlining some of the most common methods of expression of needs and feelings in the school or at home  
- Student seeks assistance from teacher  
- Teacher identifies appropriate techniques of communicating on the telephone at home  
- Student lists on chalkboard/chart the appropriate techniques for communicating on the telephone at home  
- Teacher demonstrates some of the most effective communication techniques to use on the telephone at home  
- Representative from local telephone service discusses some of the most appropriate telephone communication techniques to use in school or in the community  
- Student seeks assistance from teacher  
- Teacher identifies appropriate techniques of communicating on the telephone | - Adult/peer explores the community with student, discussing methods other people use to express needs and feelings  
- Student seeks assistance from adult/peer  
- Adult/peer identifies appropriate techniques of communicating on the telephone in the community  
- Supervisor demonstrates appropriate techniques for communicating on the telephone at training programs or at job placements  
- Adult/peer demonstrates appropriate techniques for communicating on the telephone while in the community  
- Student seeks assistance from adult/peer |
| 6. Identify nonverbal cues and communication skills | - Teacher identifies some of the most appropriate nonverbal communication techniques to use at school and at home  
- Speaker discusses some of the most appropriate nonverbal communication techniques to use in school or in the community  
- Student lists on chalkboard/chart the appropriate nonverbal communication techniques to use in school and at home  
- Student seeks assistance from teacher  
- Supervisor discusses appropriate nonverbal communication techniques used at training programs or at job placements  
- Adult/peer demonstrates appropriate nonverbal communication techniques used in the community  
- Student seeks assistance from adult/peer | - Adult/peer identifies signs indicating an emergency situation in the community  
- Supervisor demonstrates appropriate techniques for communicating emergencies at training programs or at job placements  
- Adult/peer demonstrates appropriate techniques for communicating emergencies while in the community |
| 7. Practice effective communication | - Student develops self-monitoring plan for practicing effective communication skills in school and at home  
- Student demonstrates using the skills of effective communication in school and at home | - Adult/peer identifies signs indicating an emergency situation in the community  
- Supervisor demonstrates appropriate techniques for communicating emergencies at training programs or at job placements  
- Adult/peer demonstrates appropriate techniques for communicating emergencies while in the community |
### INSTRUCTIONAL IMPLEMENTATION STRATEGIES

2. Identify appropriate authorities to contact in different emergency situations
   - Guest speaker discusses some of the most effective communication techniques to use during emergency situations in school or in the community
   - Student seeks assistance from teacher
   - Teacher identifies appropriate authorities to contact in different emergency situations
   - Student lists on chalkboard/chart appropriate authorities to contact in various emergency situations occurring in school or at home
   - Teacher discusses some of the more appropriate authorities to contact in various emergency situations occurring in school and at home
   - Guest speaker discusses some of the more appropriate authorities to contact in various emergency situations occurring in school, at home, or in the community
   - Student seeks assistance from teacher

3. Practice communicating in emergency situations
   - Student develops self-monitoring plan for practicing effective communication skills during emergency situations that occur in school or at home
   - Student demonstrates using the skills of effective communication during emergency situations in school and at home
   - Student seeks assistance from teacher
   - Adult/peer discusses importance of working in the community
   - Adult/peer discusses reasons he or she works
   - Student seeks assistance from adult/peer
   - Adult/peer discusses the rewards of working in the community
   - Student writes out list of material rewards of working
   - Student seeks assistance from adult/peer
   - Adult/peer discusses the rewards of working in the community
   - Student writes out list of nonmaterial rewards of working
   - Student seeks assistance from adult/peer

### OCCUPATIONAL GUIDANCE AND PREPARATION

**Domain**: Occupational Guidance and Preparation

</table>
| 1. Identify the importance of working | Teacher discusses importance of working at school and home  
Student discusses the reasons for paid and unpaid work  
Student seeks assistance from teacher | Adult/peer discusses importance of working in the community  
Adult/peer discusses reasons he or she works  
Student seeks assistance from adult/peer |
| 2. Discuss the rewards of working | Teacher discusses the rewards of working at school and home  
Student develops collage illustrating material rewards of working  
Student discusses nonmaterial rewards of working  
Student seeks assistance from teacher | Adult/peer discusses the rewards of working in the community  
Student writes out list of material rewards of working  
Student seeks assistance from adult/peer |
| 3. Identify the reasons some jobs pay more than others | Teacher discusses the reasons why some jobs pay more than others | Adult/peer discusses the reasons why some jobs pay more than others in the community |
4. Identify personal needs that are met through work

- Student discusses different jobs that are available in the community
- Student discusses the jobs that pay the most and least
- Student seeks assistance from teacher

- Teacher discusses how personal needs are met through work
- Student states personal needs for working
- Student develops collage of personal needs that are met through work
- Student seeks assistance from teacher

5. Identify how work is part of one's personal identity

- Teacher discusses how work is part of one's personal identity
- Student discusses how work is part of one's parents'/guardians' identity
- Student seeks assistance from teacher

- Adult/peer discusses how work is part of one's personal identity
- Student explores identity gained through work
- Student seeks assistance from adult/peer

6. Identify ways workers contribute to society

- Teacher discusses how workers contribute to society
- Student discusses how working benefits the community
- Student seeks assistance from teacher

- Adult/peer discusses how workers contribute to society
- Student demonstrates how working benefits society
- Student seeks assistance from adult/peer

7. Identify ways society rewards different types of jobs

- Teacher discusses ways society rewards different types of jobs
- Student states how the community rewards workers
- Student seeks assistance from teacher

- Adult/peer discusses ways society rewards different types of jobs
- Student explores how the community rewards workers
- Student seeks assistance from adult/peer

Domain: Occupational Guidance and Preparation  
Competency 16: Making Occupational Training and Job Placement Choices  
Subcompetency 59: Demonstrate Knowledge of Occupational Strengths and Weaknesses

### Objectives

1. Identify occupational strengths and weaknesses
2. Discuss jobs matching personal occupational strengths
3. Request assistance regarding matching jobs with personal occupational strengths

### Training Activities

- Teacher identifies personal occupational strengths and weaknesses and other people's strengths and weaknesses
- Student states personal occupational strengths
- Student states personal occupational weaknesses
- Student seeks assistance from teacher

### Home-/Community-Based Training Activities

- Adult/peer identifies personal occupational strengths and weaknesses and other peoples' strengths and weaknesses
- Student writes out personal occupational strengths and discusses with adult/peer
- Student seeks assistance from adult/peer

### Objectives

1. Identify jobs of interest
2. State jobs of interest that match personal occupational strengths and weaknesses
3. Discuss job-related requirements of jobs matching personal occupational interests

### Training Activities

- Student looks through catalogs and identifies jobs of interest
- Student lists jobs of interest on chart/poster
- Student develops collage of jobs of interest
- Student lists jobs of interest that match personal occupational strengths and weaknesses
- Student lists jobs of interest on chart/poster
- Student develops collage of jobs of interest
- Teacher meets with student and discusses job requirements of jobs matching personal occupational strengths and interests

### Home-/Community-Based Training Activities

- Student discusses with adult/peer jobs that are of interest
- Student writes out list of jobs of interest and discusses with adult/peer
- Student writes out list of jobs of interest that match personal occupational strengths and weaknesses
- Student writes out list of jobs of interest and discusses with adult/peer
- Adult/peer meets with student and discusses job requirements of jobs matching personal occupational strengths and interests

• Student visits business/agency HRM to learn of solutions to potential problems to be encountered while participating in occupational training and in jobs  
• Student discusses with teacher problems that may be encountered while participating in occupational training and maintaining a job  
• Student role plays potential solutions to problems that may be encountered while participating in occupational training and maintaining a job  
• Student seeks assistance from teacher | • HRM discusses potential solutions to problems encountered in occupational training and job placements  
• Student visits business/agency HRM and asks him/her what are some solutions to problems encountered while participating in occupational training and maintaining a job  
• Student makes a list of different solutions to problems that may be encountered while participating in occupational training and maintaining a job  
• Student discusses with adult/peer potential solutions to problems that may be encountered while participating in occupational training and maintaining a job  
• Student seeks assistance from adult/peer |
| 3. Identify factors that determine successful work adjustment | • Student discusses successful work adjustment skills (e.g., getting along with coworkers, taking appropriate time for lunch and breaks, etc.)  
• HRM discusses potential factors in successful work adjustment  
• Student visits business/agency HRM to learn of potential factors that determine successful work adjustment  
• Student discusses factors determining successful work adjustment with teacher  
• Student role plays potential factors that determine successful work adjustment  
• Student seeks assistance from teacher | • Students, in pairs, develop a list of successful work adjustment skills for occupational training and jobs and review list with HRM  
• Personnel officer discusses potential factors in successful work adjustment  
• Student visits business/agency HRM and asks him/her what factors determine successful work adjustment  
• Student makes a list of factors determining successful work adjustment with adult/peer  
• Student discusses potential factors that determine successful work adjustment  
• Student seeks assistance from adult/peer |
4. Identify factors that determine unsuccessful work adjustment
   - Student discusses unsuccessful work adjustment skills (e.g., inability to get along with coworkers, taking inappropriate time for lunch and breaks, etc.)
   - HRM discusses potential factors in unsuccessful work adjustment
   - Student visits business/agency HRM to learn of potential factors that determine unsuccessful work adjustment
   - Student discusses factors determining unsuccessful work adjustment with teacher
   - Student role plays potential factors that determine unsuccessful work adjustment
   - Student seeks assistance from teacher

5. Identify reasons for occupational training or employment changes or termination
   - HRM discusses reasons for employment changes or termination
   - Student role plays scenarios depicting reasons employees lose jobs or change place of employment
   - Student develops list of reasons why employees lose jobs or change place of employment
   - Student seeks assistance from teacher

6. Identify factors relating to being promoted in jobs
   - Student discusses factors related to being promoted in jobs
   - HRM discusses factors related to being promoted in jobs
   - Student visits business/agency HRM to learn of potential factors related to being promoted in jobs
   - Student discusses factors related to being promoted in jobs with teacher
   - Student role plays potential factors that are related to being promoted in jobs
   - Student seeks assistance from teacher

7. Request assistance in making changes in employment status
   - HRM discusses sources for assistance in making changes in employment status
   - Student identifies sources for helping in making changes in employment status
   - Student role plays seeking help in making changes in employment status
   - Student states how to seek help in making changes in employment status
   - Student requests help in making changes in employment status
   - Student seeks assistance from teacher

   - Student pairs develop a list of unsuccessful work adjustment skills for occupational training and jobs and review list with HRM
   - HRM discusses potential factors in unsuccessful work adjustment
   - Student visits business/agency HRM and asks him/her what factors determine unsuccessful work adjustment
   - Student makes a list of factors determining unsuccessful work adjustment with adult/peer
   - Student discusses potential factors that determine unsuccessful work adjustment
   - Student seeks assistance from adult/peer

   - Student speaks with HRM about reasons for employment changes or termination
   - Student provides, to adult/peer, five factors related to being terminated and five factors related to why employees decide to change jobs/training programs
   - Student discusses reasons with personnel officer why employees lose jobs or change place of employment
   - Student seeks assistance from adult/peer

   - Student pairs discuss factors related to being promoted in jobs
   - HRM discusses factors related to being promoted in jobs
   - Student visits business/agency HRM and asks him/her what factors are related to being promoted in jobs
   - Student makes a list of factors related to being promoted in jobs with adult/peer
   - Student discusses potential factors that are related to being promoted in jobs
   - Student seeks assistance from adult/peer

   - HRM discusses sources for assistance in making changes in employment status
   - Student demonstrates an understanding of seeking help in making changes in employment status
   - Student requests assistance in making changes in employment status
   - Student demonstrates an understanding of seeking help in making changes in employment status
   - Student seeks assistance from personnel officer in making changes in employment status
   - Student seeks assistance from adult/peer
### Domain: Occupational Guidance and Preparation

#### Competency 18: Developing and Maintaining Appropriate Work Skills and Behavior

#### Subcompetency 66: Perform Work Directions and Meet Requirements

<table>
<thead>
<tr>
<th>Objectives</th>
<th>Training Activities</th>
<th>Home-/Community-Based Training Activities</th>
</tr>
</thead>
</table>
| 1. Identify the importance of following directions and meeting requirements | - Teacher discusses importance of following authorities' directions/instructions in jobs  
- Student lists on chalkboard/chart the importance of following authorities' directions at jobs | - Adult/peer discusses importance of following authorities' directions/instructions in jobs  
- Supervisor discusses the importance of following authorities' directions/instructions in training programs or job placements |
| 2. Perform a series of tasks in response to verbal instructions | - Student practices completing a series of work/job tasks with partner after receiving verbal instructions  
- Student practices completing a series of work/job tasks alone after receiving verbal instructions | - Student completes a series of tasks in the community with a partner after receiving verbal instructions  
- Student completes a series of tasks in the community alone after receiving verbal instructions |

### Domain: Occupational Guidance and Preparation

#### Competency 18: Developing and Maintaining Appropriate Work Skills and Behavior

#### Subcompetency 67: Maintain Good Attendance and Punctuality

<table>
<thead>
<tr>
<th>Objectives</th>
<th>Training Activities</th>
<th>Home-/Community-Based Training Activities</th>
</tr>
</thead>
</table>
| 1. Identify reasons for good attendance and punctuality | - HRM discusses reasons for good attendance and punctuality at occupational training and job placements  
- Student role plays scenarios depicting reason for good attendance and punctuality in occupational training and job placements  
- Student develops list of reasons why it is important to have good attendance and punctuality in occupational training and job placements  
- Student seeks assistance from teacher | - Student speaks with HRM about reasons for good attendance and punctuality at occupational training and job placements  
- Student provides five reasons for good attendance and punctuality in occupational training and job placements with adult/peer  
- Student discusses reasons why it is important to have good attendance and punctuality at occupational training and job placements with HRM  
- Student seeks assistance from adult/peer |
| 2. Identify actions to take for tardiness or absence from work | - HRM discusses appropriate actions to take for tardiness or absence from work  
- Student role plays scenarios depicting actions to take for tardiness or absence from work  
- Student develops list of actions to take for tardiness or absence from work  
- Student seeks assistance from teacher | - Student speaks with HRM about actions to take for tardiness or absence from work  
- Student provides five actions to take for tardiness or absence from work  
- Student demonstrates actions to take for tardiness or absence from work  
- Student seeks assistance from adult/peer |

### Domain: Occupational Guidance and Preparation

#### Competency 18: Developing and Maintaining Appropriate Work Skills and Behavior

#### Subcompetency 68: Respond Appropriately to Supervision

<table>
<thead>
<tr>
<th>Objectives</th>
<th>Training Activities</th>
<th>Home-/Community-Based Training Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Identify appropriate behavior when being supervised</td>
<td>- Teacher demonstrates appropriate behavior when being supervised</td>
<td>- Adult/peer demonstrates appropriate behavior when being supervised</td>
</tr>
</tbody>
</table>
### Objectives

1. **Identify the importance of job safety**
   - Teacher discusses importance of following job safety guidelines in occupational training and job placements
   - Student lists on chalkboard/chart the importance of following job safety guidelines in occupational training and job placements
   - Student pairs discuss the importance of following job safety guidelines in occupational training and job placements
   - Student seeks assistance from teacher

2. **Identify potential job hazards**
   - Business supervisor discusses potential job hazards
   - Student demonstrates potential job hazards with teacher
   - Student develops job hazards poster/chart
   - Student demonstrates whom to contact when hazardous situations are encountered
   - Student seeks assistance from teacher

3. **Identify safety measures in job choices**
   - Business supervisor discusses potential safety measures at job site
   - Student demonstrates the activities that are safety measures at occupational training or job placements
   - Student discusses potential job safety measures with teacher
   - Student develops job safety measures on the job poster/chart
   - Student demonstrates whom to contact when needing assistance in practicing job safety measures on the job
   - Student seeks assistance from teacher

### Training Activities

- Supervisor demonstrates the importance of appropriate behavior when being supervised
- Student demonstrates the importance of appropriate behavior when being supervised
- Student seeks assistance from adult/peer
- Student seeks assistance from adult/peer

### Home-/Community-Based Training Activities

- Adult/peer discusses importance of following job safety guidelines in occupational training and job placements
- Supervisor discusses the importance of following job safety guidelines in occupational training and job placements
- Student discusses the importance of following job safety guidelines in occupational training and job placements
- Student seeks assistance from adult/peer

- Student discusses with adult/peer reasons for working cooperatively with others at occupational training and job placements  
- Student seeks assistance from adult/peer |
| 2. Practice working cooperatively with others | - Student pairs demonstrate how to work cooperatively with others  
- Student role plays situations requiring the cooperation of coworkers  
- Student discusses what actions to take when problems between coworkers occur  
- Student practices working cooperatively with coworkers  
- Student seeks assistance from teacher | - Student lists situations that require working cooperatively with others  
- Student lists appropriate actions to take when problems between coworkers occur  
- Student works cooperatively with coworkers on job site  
- Student practices working cooperatively with others while being reviewed by adult/peer  
- Student seeks assistance from adult/peer |

Domain: Occupational Guidance and Preparation  
Competency 18: Developing and Maintaining Appropriate Work Skills and Behavior  
Subcompetency 71: Meet Work Quality and Quantity Standards

<table>
<thead>
<tr>
<th>Objectives</th>
<th>Training Activities</th>
<th>Home-/Community-Based Training Activities</th>
</tr>
</thead>
</table>
| 1. Identify reasons for work quality standards | - HRM discusses reasons for performing to meet work quality standards at occupational training and job placements  
- Student role plays scenarios depicting reasons for performing to meet work quality standards at occupational training and job placements | - Student speaks with HRM about reasons for performing to meet work quality standards at occupational training and job placements  
- Student provides, with adult/peer, five reasons for performing to meet work quality standards at occupational training and job placements |
2. Identify reasons for work quantity standards

- Student develops list of reasons why it is important to perform to meet work quality standards in occupational training and job placements
- Student develops poster/chart listing reasons for performing to meet work quality standards in occupational training and job placements
- Student seeks assistance from teacher

- HRM discusses reasons for performing to meet work quantity standards at occupational training and job placements
- Student role plays scenarios depicting reasons for performing to meet work quantity standards in occupational training and job placements
- Student develops list of reasons why it is important to perform to meet work quantity standards in occupational training and job placements
- Student develops poster/chart listing reasons for performing to meet work quantity standards in occupational training and job placements
- Student seeks assistance from teacher

3. Identify consequences of not meeting work quality and quantity standards

- Business supervisor discusses the consequences of not meeting work quality and quantity standards at occupational training and job placements
- Student discusses the consequences of not meeting work quality and quantity standards at occupational training and job placements
- Teacher discusses the consequences of not meeting work quality and quantity standards at occupational training and job placements
- Student seeks assistance from teacher

- Student speaks with HRM about reasons for performing to meet work quantity standards at occupational training and job placements
- Student provides, with adult/peer, five reasons for performing to meet work quantity standards at occupational training and job placements
- Student discusses with HRM reasons why it is important to perform to meet work quantity standards at occupational training and job placements
- Student discusses with adult/peer reasons for performing to meet work quantity standards at occupational training and job placements
- Student seeks assistance from adult/peer

4. Practice meeting work quality and quantity standards

- Student pairs discuss how to meet work quality and quantity standards
- Student role plays situations meeting work quality and quantity standards
- Student demonstrates what actions to take to meet work quality and quantity standards
- Student practices working to meet work quality and quantity standards
- Student seeks assistance from teacher

- Business supervisor discusses the consequences of not meeting work quality and quantity standards at occupational training and job placements
- Student lists the consequences of not meeting work quality and quantity standards at occupational training and job placements
- Student visits work site, interviews employers, and discusses the consequences of not meeting work standards at occupational training and job placements
- Student seeks assistance from adult/peer

- Student visits business and supervisor discusses the consequences of not meeting work quality and quantity standards at occupational training and job placements
- Student lists the consequences of not meeting work quality and quantity standards at occupational training and job placements
- Student visits work site, interviews employers, and discusses the consequences of not meeting work standards at occupational training and job placements
- Student seeks assistance from adult/peer

- Student practices meeting work quality and quantity standards
- Student lists appropriate actions to take to meet work quality and quantity standards
- Student works at meeting work quality and quantity standards on job site with supervisor
- Student practices working to meet work quality and quantity standards with co-worker
- Student seeks assistance from adult/peer

| 1. Demonstrate size and shape discrimination | - Student pairs demonstrate how to perform size and shape discrimination at occupational training and job placements  
- Student role plays performing in situations where size and shape discrimination is required  
- Student discusses what actions to take to perform size and shape discrimination tasks at occupational training and job placements  
- Student practices working to perform size and shape discrimination tasks at occupational training and job placements  
- Student seeks assistance from teacher | - Student practices performing size and shape discrimination tasks at occupational training and job placements  
- Student lists appropriate actions to take to perform size and shape discrimination tasks at occupational training and job placements  
- Student works at meeting size and shape discrimination requirements on job site with supervisor  
- Student practices working to meet size and shape discrimination requirements with coworker  
- Student seeks assistance from adult/peer |
| 2. Demonstrate color discrimination | - Student pairs discuss how to perform color discrimination tasks at occupational training and job placements  
- Student role plays performing in situations requiring color discrimination  
- Student discusses what actions to take to perform color discrimination tasks at occupational training and job placements  
- Student practices working to perform color discrimination tasks at occupational training and job placements  
- Student seeks assistance from teacher | - Student practices performing color discrimination tasks at occupational training and job placements  
- Student lists appropriate actions to take to perform color discrimination tasks at occupational training and job placements  
- Student works at meeting color discrimination requirements on job site with supervisor  
- Student practices working to meet color discrimination requirements with coworker  
- Student seeks assistance from adult/peer |
| 3. Demonstrate auditory discrimination | - Student pairs discuss how to perform auditory discrimination tasks at occupational training and job placements  
- Student role plays performing in situations requiring auditory discrimination  
- Student discusses what actions to take to perform auditory discrimination tasks at occupational training and job placements  
- Student practices working to perform auditory discrimination tasks at occupational training and job placements  
- Student seeks assistance from teacher | - Student practices performing auditory discrimination tasks at occupational training and job placements  
- Student lists appropriate actions to take to perform auditory discrimination tasks at occupational training and job placements  
- Student works at meeting auditory discrimination requirements on job site with supervisor  
- Student practices working to meet auditory discrimination requirements with coworker  
- Student seeks assistance from adult/peer |
| 4. Demonstrate adequate sensory discrimination in occupational training and job placements | - Student pairs discuss how to perform sensory discrimination tasks at occupational training and job placements  
- Student role plays performing in situations requiring sensory discrimination  
- Student demonstrates what actions to take to perform sensory discrimination tasks at occupational training and job placements  
- Student seeks assistance from teacher | - Student practices performing sensory discrimination tasks at occupational training and job placements  
- Student lists appropriate actions to take to perform sensory discrimination tasks at occupational training and job placements  
- Student works at meeting sensory discrimination requirements on job site with supervisor |
5. Request assistance in developing size, shape, color, auditory, and sensory discrimination in occupational training and job placements

- Student practices working to perform sensory discrimination tasks at occupational training and job placements
- Student seeks assistance from teacher
- HRM discusses sources for assistance in developing size, shape, color, auditory, and sensory discrimination
- Student identifies sources for help in developing size, shape, color, auditory, and sensory discrimination to teacher
- Student role plays seeking help to improve size, shape, color, auditory, and sensory discrimination
- Student states how to seek help in improving size, shape, color, auditory, and sensory discrimination
- Student requests help for making improvements in size, shape, color, auditory, and sensory discrimination
- Student seeks assistance from teacher

- Student practices working to meet sensory discrimination requirements with coworker
- Student seeks assistance from adult/peer
- HRM discusses sources for assistance in developing size, shape, color, auditory, and sensory discrimination
- Student demonstrates an understanding of seeking help to improve size, shape, color, auditory, and sensory discrimination
- Student requests assistance in developing size, shape, color, auditory, and sensory discrimination
- Student demonstrates an understanding of seeking help in developing size, shape, color, auditory, and sensory discrimination
- Student seeks assistance from personnel officer for developing size, shape, color, auditory, and sensory discrimination
- Student seeks assistance from adult/peer

Domain: Occupational Guidance and Preparation
Competency 19: Matching Physical/Manual Skills to Occupational Training and Employment
Subcompetency 75: Demonstrate Stamina and Endurance

Objectives

1. Identify need for stamina and endurance in occupational training programs and job placements
   - HRM discusses reasons for good stamina and endurance in occupational training and job placements
   - Student role plays scenarios depicting reasons for good stamina and endurance at occupational training and job placements
   - Student develops list of reasons why good stamina and endurance are important at occupational training and job placements
   - Student develops poster/chart listing reasons for having good stamina and endurance at occupational training and job placements
   - Student seeks assistance from teacher
   - Student develops a list of jobs requiring good stamina and endurance
   - Guest speaker discusses the many jobs requiring good stamina and endurance
   - Student develops poster identifying 20 jobs requiring good stamina and endurance
   - Student seeks assistance from teacher

2. Identify jobs in which stamina and endurance are critical
   - Student speaks with HRM about reasons for good stamina and endurance in occupational training and job placements
   - Student provides, with adult/peer, five reasons for good stamina and endurance at occupational training and job placements
   - Student discusses with HRM reasons why it is important to have good stamina and endurance at occupational training and job placements
   - Student discusses with adult/peer reasons for good stamina and endurance at occupational training and job placements
   - Student seeks assistance from adult/peer
   - Student visits jobs that require good stamina and endurance
   - Student visits several job sites and identifies the jobs that require good stamina and endurance
   - Student discusses with adult/peer several jobs that require good stamina and endurance
   - Student seeks assistance from adult/peer
3. Work at demonstrating satisfactory stamina and endurance in occupational training programs and job placements

- Student practices working to build up stamina and endurance in simulated occupational settings
- Student pairs demonstrate how to perform tasks requiring good stamina and endurance at occupational training and job placements
- Student role plays situations requiring good stamina and endurance
- Student demonstrates what actions to take to perform tasks requiring good stamina and endurance at occupational training and job placements
- Student practices working to perform tasks requiring good stamina and endurance at occupational training and job placements
- Student seeks assistance from teacher

4. Request assistance in developing satisfactory stamina and endurance in occupational training and job placements

- HRM discusses sources for assistance in developing good stamina and endurance
- Student identifies sources for help in developing good stamina and endurance to teacher
- Student role plays seeking help to improve stamina and endurance
- Student states how to seek help in improving stamina and endurance
- Student requests help for making improvements in stamina and endurance
- Student seeks assistance from teacher

Domain: Occupational Guidance and Preparation
Competency 20: Training for Occupational Choices
There are no specific subcompetencies, since they depend on the specific occupational choice being taught.
3. Assessment and Instructional Planning Strategies

INTRODUCTION

Assessment of the 20 major competencies and 75 subcompetencies is a critical process in the implementation of the LCCE Modified Curriculum. It not only provides information regarding what competencies and subcompetencies have been acquired, but also determines where to begin instruction and whether or not competence was achieved after instruction/training. The field-tested competencies and subcompetencies were established to address the transitional outcomes of students with moderate disabilities. The related behavioral objectives represent tasks which the student should be able to perform to demonstrate acquisition and mastery of the subcompetencies that ultimately lead to mastery of the competency. These objectives provide a comprehensive set of transitional goals and outcomes for this population.

In a competency-based curriculum, mastery and acquisition can best be measured by comparing students to themselves, as opposed to comparing them to other students. This is especially important in meeting the individual needs of students with moderate disabilities. The major assessment instrument suggested for use in preparing to implement the LCCE Modified Curriculum is the Competency Rating Scale-Modified (CRS-M). The CRS-M was developed as a systematic approach to organizing and standardizing the assessment of students in the LCCE Modified Curriculum program. The CRS-M Manual, presented in Appendix A, provides a detailed explanation of the CRS-M instrument and the procedures for administering it. The Manual may be copied for use in home and community settings.

The CRS-M is a rating scale built around the 20 competencies and 75 subcompetencies of the curriculum. The 75 subcompetencies serve as the actual assessment rating items. The Manual presents the criteria (objectives) for judging student mastery of a subcompetency. These criteria are to be rated by at least three individuals who are knowledgeable about the student’s performance on the subcompetencies. The use of the specific objectives and rating values is intended to enhance the reliability and validity of the ratings.

Descriptions of who should do the rating, criteria for rating, when rating should be done, a rating key defining numerical rating values, and CRS-M Record Forms for recording and summarizing ratings as well as recording demographic data are all included in the CRS-M Manual. CRS-M users are encouraged to perform an initial rating to be followed by a readministration at least every 2 years. The rater can assign a rating of the degree of mastery (0 = Not Competent, 1 = Partially Competent, and 2 = Competent) for each subcompetency based on the objective’s criteria. Ratings are recorded and summarized on the appropriate CRS-M Record Forms (see Appendix B). Results of CRS-M ratings can be used to develop individualized transitional goals and objectives and to measure students’ transitional outcomes success.

This technique for assessing mastery of the curriculum is unique in that it offers a measure of LCCE Modified Curriculum transition competency outcomes. Thus, we believe that educators, parents, and community support personnel will find it useful in their efforts to provide transitional programming to individuals with moderate disabilities.
INDIVIDUALIZED EDUCATION PROGRAM (IEP)

The Education for All Handicapped Children Act of 1975 (P.L. 94-142) mandated the establishment of an IEP for every student with a disability. In 1990, P.L. 101-476 gave this Act a new title, The Individuals with Disabilities Education Act (IDEA). One of the most important provisions was a mandate that every eligible student have transition services incorporated into his or her IEP no later than age 14 or as early as the initial IEP. It may be appropriate to include a statement of the interagency responsibilities or linkages in the IEP before the student leaves the school setting. In an attempt to assist educators in fulfilling this requirement, a suggested IEP structure and form for including transition services is presented in this chapter. This form in Appendix C serves as an illustration of how the LCCE approach can be integrated into an IEP or individual transition program (ITP) format. State and local education agencies will have their own forms and requirements. The LCCE IEP form consists of the following sections:

Section I: Present Level of Educational Performance
Section II: Annual Goals
Section III: Specific Educational Services Needed
Section IV: Short-Term Individual Objectives
Section V: Dates and Lengths of Times of Specific Educational Services
Section VI: Extent of Participation in Regular Program
Section VII: Placement Justification
Section VIII: Individuals Responsible for Implementation

Section IX: Evaluation Criteria, Procedures, and Schedule
Section X: Day, Location, and Time of Next IEP Conference

The CRS-M can be used in both the development and evaluation of the functional skills/transition component of the IEP. For example, the present level of educational performance in Section I can be partly determined by the CRS-M results. The annual functional skills/transition goals for Section II can be chosen from the 20 competencies. The specific educational services in Section III can be selected from the 75 subcompetencies as well as from other sources. The short-term objectives in Section IV can also be selected from the 75 subcompetencies. The CRS-M can be used to evaluate the degree of mastery of these short-term objectives, since the CRS-M items are identical to the subcompetencies. Section IX can be completed using CRS-M behavioral criteria/objectives. The CRS-M is an appropriate evaluation measure. Thus, an IEP with functional skills and transition components can be constructed from the LCCE Modified Curriculum competencies and subcompetencies from the information provided on the CRS-M.

The assessment and instructional planning processes are critical for determining the student’s needs in preparing to make the transition from school to work and community living. The LCCE Modified Curriculum’s CRS-M and IEP are valuable tools for assisting students with moderate disabilities in achieving a successful transition outcome.
Appendix A

Competency Rating Scale-Modified (CRS-M) for Life Centered Career Education (LCCE) Modified Curriculum for Individuals with Moderate Disabilities

INTRODUCTION

The Life Centered Career Education (LCCE) curriculum is a competency-based approach. There are 22 competencies in the original LCCE Curriculum (Brolin, 1974) and 20 competencies in the LCCE Modified Curriculum (Loyd & Brolin, 1997) that have been identified as necessary for achieving successful adult adjustment for students with mild or moderate disabilities. These competencies have been broken down further into subcompetencies and their objectives. The Competency Rating Scale-Modified (CRS-M) provides users with a systematic means of assessing student mastery of the subcompetencies. This manual furnishes the criteria/objectives for rating students' performance and mastery of each of the 75 subcompetencies making up the LCCE Modified Curriculum for Individuals with Moderate Disabilities.

The user completes the CRS-M by judging the student's mastery of the subcompetencies using the performance criteria/objectives presented in Section III of this manual. Since the CRS-M requires judgments regarding student performance and behavior, it is necessary that all raters employ the same criteria when making judgment decisions. This is critical if the user intends to make comparisons of the student's performance or behavior over time.

This manual is divided into four sections. Section I describes the rating key and how to rate student performance and behavior. Section II explains the use of the CRS-M Form. Section III presents explanations and behavioral criteria/objectives for the subcompetencies. Section IV describes the interpretation of CRS-M results.

The task of evaluating the performance of students with moderate disabilities in any functional academic area is a difficult one. This task becomes increasingly more difficult for educators dealing with the transitional education of these students.

SECTION I—RATING STUDENT PERFORMANCE

The Rating Key

The CRS-M provides three alternative ratings for student performance on each subcompetency. There are three
sources from which the user can draw information to establish the rating for a given subcompetency. The most valid evaluation is the rater’s personal observation of the student’s performance and behavior. Ratings from other personnel who have observed the student’s performance and behavior are less valid, but acceptable. Finally, the student’s personal assessment of her or his performance and behavior is the least valid, but it may be of some assistance in identifying the student’s personal perceptions of abilities.

When sufficient information exists to rate a subcompetency, one of the following ratings should be selected:

0 = Not Competent. The student is unable to perform any of the behavioral criteria/objectives for the subcompetency. This rating should be used for students who, in the judgment of the rater, cannot be expected to perform this subcompetency satisfactorily and who would need support in normalized/integrated environments. This student needs additional training, or, if such training is not available, will need the support of some advocate or agency personnel to partially or fully participate in activities requiring the subcompetency skills.

1 = Partially Competent. The student is able to perform at least one but not all of the behavioral criteria/objectives for the subcompetency. This rating should be used for students who, in the judgment of the rater, can be expected to perform this subcompetency partially or fully in integrated or normalized environments with the support of an advocate or agency personnel.

2 = Competent. The student is able to perform all of the behavioral criteria/objectives for the subcompetency. This rating should be used when the rater is confident that the student can satisfactorily perform this subcompetency in integrated or normalized environments.

NR = Not Rated. The rater feels that she or he is unable to rate the student’s performance at this time. This may be due to a lack of time to collect sufficient information about the student’s performance or behavior or lack of information to validate a rating.

If the student leaves formal education without a competent rating (2) for a subcompetency, then he or she should seek additional training (advocates or community agencies) and/or request necessary support. A unique feature in this curriculum is that for each of the subcompetencies students are taught to seek assistance and support when needed. This student empowerment strategy has been embedded into the curriculum to prepare the student to request supports necessary for integration into normalized environments.

The Rater

Optimally, the same individual should rate a student’s performance and behavior for all of the subcompetencies in a particular domain. However, it is also recommended that others who are knowledgeable about the student’s performance and behavior rate the student. These can include parents, previous teachers/trainers, community agency personnel, and/or siblings. It may be necessary to have several raters complete the rating scale. If this occurs, then it is recommended that each rater complete at least one of the three LCCE domains. Each completed rating scale should be discussed with the student’s support team and used to help complete the student’s individualized education program (IEP), or individualized work rehabilitation plan (IWRP), or individualized habilitation plan (IHP).

Rating Intervals

Space is provided on Section II of the CRS-M Record Form (see Appendix B) for seven ratings. It is suggested that the CRS-M be administered prior to the first IEP conference and each 2 years thereafter. These forms can be duplicated and ratings completed as often as necessary.

SECTION II—USING THE CRS-M RECORD FORM

The CRS-M Record Form is separated into three sections corresponding to the three functional curriculum domains: Daily Living Skills, Personal-Social Skills, and Occupational Guidance and Preparation. Although it is best to complete the CRS-M all at one time, each domain can be administered independently. As noted in Section I of this manual, it is desirable that one individual rate all subcompetencies in a particular domain. The blank CRS-M Record Form presented in Appendix B may be used as a master for duplication.

Identifying Information

The CRS-M Record Form provides space to record the student’s name, date of birth, and sex. Space is also provided for the name and address of the student’s school.

Directions

The directions for the CRS-M Record Form indicate that the user should choose one of the four possible ratings for each subcompetency. The numerical ratings should be recorded in the space to the right of the subcompetency. The NR rating should be assigned to items that are not rated. The sub-
competencies are listed on the left side of the CRS-M Record Form and are grouped under the competencies. Space is provided at the head of each rating column to record the rater's name(s), the student's grade level, and the date(s) of the rating period. If the ratings are completed in a single day, only that date need be recorded. However, if the ratings require more than 1 day, the user should record both the beginning and ending dates. It is recommended that ratings be completed as quickly as possible (i.e., 1 day to 1 week).

Note that Competency 20 in the Occupational Guidance and Preparation domain has no subcompetencies. Space is provided following Competency 20 to list specific occupational skill training the student is receiving. The rater should rate this training in the same manner as the other subcompetencies by treating the skill training as a subcompetency.

Space is also provided following the list of subcompetencies for the total possible score if a student were assigned the highest rating for each subcompetency in a domain. This value is determined by omitting Competency 20 from the calculations. The total possible score can be calculated by counting the number of rated items (N) and multiplying by the highest possible rating (2). Thus, total possible score (TPS) = N × 2. To the right of the total possible score, space is provided to record the student’s total actual score (TAS), which is the sum of the ratings for all rated items. Space is provided below the TAS to record the average score per item (AS). The AS is calculated by dividing the TAS by N; thus, AS = TAS ÷ N. Space is provided at the end of the Occupational Guidance and Preparation section for a cumulative total possible score, a cumulative total actual score, and a cumulative average score. The cumulative TPS can be calculated by adding the TPSs for the three domains. Note: The TPS and cumulative TPS must be calculated for each administration since the number of rated items may vary with each administration. The cumulative TPS can be calculated by adding the TPSs from the three domains. The cumulative AS can be calculated by adding the ASs from the three domains and dividing by three. Thus, the user can evaluate performance and behavior for each domain as well as the three domains combined. There is space provided for comments at the end of each record form.

SECTION III—BEHAVIORAL CRITERIA/OBJECTIVES FOR RATING SUBCOMPETENCIES

A list of the 75 subcompetencies grouped into the three functional curriculum domains follows. Each subcompetency is described conceptually and further defined by behavioral criteria/objectives. As discussed in Section I, the rater should compare student performance to the behavioral criteria/objectives for each subcompetency to determine the degree of mastery. The ratings from the rating key can then be assigned to each subcompetency (item) based on the number of criteria/objectives that the student is able to perform for each subcompetency.

DAILY LIVING SKILLS

1. Managing Money

1. Count Money
   1. Identify coins
   2. Count sums of up to five coins from stacks of pennies, nickels, dimes, quarters, and half dollars
   3. Identify bills up to $20
   4. Count currency with sums less than $20

2. Make Purchases
   1. Select appropriate item
   2. Recognize and request assistance
   3. Locate cashier
   4. Calculate and give appropriate purchase amount
   5. Receive purchase and change

3. Use Vending Machines
   1. Select appropriate coins
   2. Operate vending machines
   3. Receive vending machine purchase and change
   4. Recognize and request assistance as needed

4. Budget Money
   1. Identify weekly personal income
   2. Identify weekly and/or monthly expenses
   3. Calculate daily/weekly/monthly expenses to personal income
   4. Compare expenses to date with remaining personal income

5. Perform Banking Skills
   1. Open checking account
   2. Open savings account
   3. Write checks and record transactions
   4. Make deposits and record transactions
   5. Request banking assistance
   6. Use check cashing cards/services

2. Selecting and Maintaining Living Environments

6. Select Appropriate Community Living Environments
   1. Identify available living environments
   2. Choose appropriate living environments
   3. Identify procedures for renting and connecting utilities

7. Maintain Living Environment
   1. Identify routine cleaning tasks
   2. Plan daily/weekly cleaning routine
   3. Identify and use common household cleaning products
   4. Identify and demonstrate safe use of household cleaning products
   5. Perform daily/weekly cleaning routine
   6. Identify when and where to obtain common household cleaning products

8. Use Basic Appliances and Tools
   1. Identify common household appliances and tools and their uses
2. Demonstrate appropriate use of common household appliances and tools
3. Identify safety procedures when using household appliances and tools
4. Request appropriate assistance for household repair tasks
9. Set Up Personal Living Space
   1. Identify and select personal living space
   2. Identify and select personal living furnishings
   3. Arrange personal living space

3. Caring for Personal Health
10. Perform Appropriate Grooming and Hygiene
    1. Identify grooming products and where to obtain them
    2. Identify and practice body care skills
    3. Identify and practice oral/dental hygiene skills
    4. Identify and practice hair care skills
    5. Identify and practice toileting skills

11. Dress Appropriately
    1. Select clothing for different weather conditions
    2. Select clothing for different activities
    3. Select and coordinate well-fitting clothing
    4. Maintain neat appearance

12. Maintain Physical Fitness
    1. Identify physical exercises/activities
    2. Practice physical exercises/activities daily

13. Recognize and Seek Help for Illness
    1. Identify signs/symptoms of common illnesses/diseases
    2. Contact medical assistance

14. Practice Basic First Aid
    1. Perform basic first aid measures
    2. Identify emergency situations
    3. Contact emergency assistance
    4. Follow emergency procedures

15. Practice Personal Safety
    1. Identify situations that are dangerous in the home, community, and at work
    2. Identify safety precautions to avoid personal injury in the home, community, and at work
    3. Identify self-protection procedures
    4. Practice precautions when dealing with strangers

4. Developing and Maintaining Appropriate Intimate Relationships
16. Demonstrate Knowledge of Basic Human Sexuality
    1. Identify basic male and female sexual differences
    2. Describe the human reproduction process
    3. Discuss personal responsibilities/behaviors

17. Demonstrate Knowledge of Appropriate Dating Behavior
    1. Identify the physical needs of dating
    2. Identify the social-emotional needs of dating
    3. State parents'/guardians' position on dating/dating behavior

5. Eating at Home and in the Community
18. Plan Balanced Meals
    1. Identify the four basic food groups
    2. Identify appropriate foods eaten at typical daily meals
    3. Plan weekly menu

19. Purchase Food
    1. Construct shopping list from weekly word or picture menu
    2. Locate food items on list
    3. Recognize and request assistance as needed
    4. Locate cashier
    5. Calculate and give appropriate purchase amount
    6. Receive purchase and change

20. Prepare Meals
    1. Identify food preparation procedures
    2. Identify and demonstrate use of basic kitchen tools and appliances
    3. Select recipe
    4. Collect foods and utensils listed on recipe
    5. Follow simple recipe

21. Demonstrate Appropriate Eating Habits
    1. Demonstrate table setting
    2. Demonstrate appropriate serving of food
    3. Demonstrate appropriate eating manners

22. Demonstrate Meal Clean-Up and Food Storage
    1. Demonstrate meal clean-up procedures
    2. Identify signs of food spoilage
    3. Demonstrate waste disposal procedures
    4. Sort food into storage groups
    5. Demonstrate appropriate food storage

23. Demonstrate Appropriate Restaurant Dining
    1. Identify types of restaurants
    2. Estimate meal costs and bring sufficient money to dine out
    3. Order from wall/printed menus
    4. Demonstrate eating manners
    5. Pay bill and tip appropriately

6. Cleaning and Purchasing Clothing
24. Wash/Dry Clothes
    1. Identify types and uses of laundry products
    2. Sort clothing by temperature, load, and colors
    3. Load clothes
    4. Add detergent
    5. Set temperatures and load settings
    6. Start washing machine
    7. Remove clothes at end of washing cycle and hang non-dryable clothes up to dry
    8. Load washed clothes in dryer
    9. Set temperature and time dials
    10. Start dryer
    11. Remove clothes from dryer and hang or fold at end of drying cycle
    12. Store clothes
    13. Perform any upkeep procedures
    14. Perform washing/drying clothes at laundromat

25. Buy Clothes
    1. Identify basic clothing needs
    2. Identify size, color, and style of clothing needed
    3. Estimate clothing costs and bring money for clothing needs
    4. Identify appropriate clothing store
    5. Locate appropriate store department
    6. Request assistance from store clerk
7. Select clothing item(s)
8. Check fit of clothing item(s)
9. Locate cashier
10. Calculate and give appropriate purchase amount
11. Receive purchase and change

7. Participate in Leisure/Recreational Activities

26. Identify Available Community Leisure/Recreational Activities
   1. Identify types of individual leisure/recreational activities
   2. Identify types of group leisure/recreational activities
   3. Locate equipment and facilities of leisure/recreational activities

27. Select and Plan Leisure/Recreational Activities
   1. Identify personal leisure/recreational activities and interests
   2. Identify costs, time, and physical requirements of leisure/recreational activities
   3. Develop weekly schedule of leisure/recreational activities

28. Participate in Individual and Group Leisure/Recreational Activities
   1. Identify and obtain necessary equipment
   2. Identify and follow rules of leisure/recreational activities

29. Select and Participate in Group Travel
   1. Identify travel interests
   2. Identify travel possibilities
   3. Identify expenses and resources needed for travel
   4. Request assistance in travel planning
   5. Demonstrate appropriate travel behavior

8. Getting Around in the Community

30. Follow Traffic Rules and Safety Procedures
   1. Identify common traffic and safety signs and rules
   2. Practice following common traffic and safety signs and rules

31. Develop and Follow Community Access Routes
   1. Identify routinely used community locations
   2. Plan and practice following important community routes
   3. Request assistance as needed

32. Access Available Transportation
   1. Identify modes of transportation in the community
   2. Identify requirements of each mode of community transportation
   3. Practice using modes of community transportation
   4. Request assistance for using modes of community transportation
   5. Identify and develop strategies for coping with disruption in primary community transportation mode

PERSONAL-SOCIAL SKILLS

9. Acquiring Self-Identity

33. Demonstrate Knowledge of Personal Interests and Abilities
   1. Identify and describe personal interests
   2. Identify and describe personal abilities

34. Demonstrate Appropriate Responses to Emotions
   1. Identify different emotions
   2. Identify ways to express emotions
   3. Practice appropriate ways to express emotions
   4. Request assistance for coping with emotions

10. Exhibiting Socially Responsible Behavior

37. Demonstrate Appropriate Behavior
   1. Identify appropriate/inappropriate behavior at home
   2. Identify appropriate/inappropriate behavior at work
   3. Identify appropriate/inappropriate behavior at training programs
   4. Identify appropriate/inappropriate behavior in the community
   5. Practice appropriate behavior at home
   6. Practice appropriate behavior at work
   7. Practice appropriate behavior at school/training programs
   8. Practice appropriate behavior in the community

38. Identify Current and Future Personal Roles
   1. Identify current personal roles
   2. Identify possible future personal roles
   3. Describe how personal roles differ from those of significant others
   4. Describe how personal roles interact with others' roles

39. Demonstrate Respect for Others' Rights and Property
   1. Identify personal property and rights of others
   2. Identify reasons for respecting personal property and rights of others
   3. Practice respecting others' personal property and rights
   4. Identify actions for borrowing items
   5. Identify actions when others' personal property has been damaged
   6. Identify actions when others' personal rights have been violated

40. Demonstrate Respect for Authority
   1. Identify authority figures
   2. Identify roles of authority figures
   3. Identify consequences of not respecting authority
   4. Practice respecting authority

41. Demonstrate Ability to Follow Directions/Instructions
   1. Identify importance of following authority directions/instructions
   2. Identify actions of not following authority directions/instructions
   3. Practice following authority directions/instructions

42. Demonstrate Appropriate Citizen Rights and Responsibilities
   1. Identify community services available to citizens
   2. Locate community services available to citizens
3. Identify major rights of citizens
4. Identify major responsibilities of citizens
5. Identify citizens’ duties to governments
6. Practice being a good citizen

43. Identify How Personal Behavior Affects Others
   1. Identify how personal behavior can affect others
   2. Identify cues others provide when personal behavior is inappropriate
   3. Describe ways to change inappropriate behavior

11. Developing and Maintaining Appropriate Social Relationships

44. Develop Friendships
   1. Identify why friendship is important
   2. Identify characteristics of friendship
   3. Describe how to select a friend
   4. Practice developing friends

45. Maintain Friendships
   1. Identify ways to keep and lose friends
   2. Identify how to select a date
   3. Identify procedures for dating
   4. Identify appropriate responses to intimacy with close friends
   5. Practice maintaining friendships

12. Exhibiting Independent Behavior

46. Set and Reach Personal Goals
   1. Identify the importance of setting personal goals
   2. Identify how to set goals
   3. Identify reasons to reach goals
   4. Identify how to modify/revise goals
   5. Practice setting and meeting goals

47. Demonstrate Self-Organization
   1. Identify routine daily activities
   2. Develop plan of daily activities
   3. Identify areas of responsibility in personal life
   4. Identify importance of organizing personal activities
   5. Practice daily self-organization
   6. Request assistance with self-organization.

48. Demonstrate Self-Determination
   1. Identify importance of practicing self-determination
   2. Practice self-determination
   3. Request assistance with self-determination

13. Making Informed Decisions

49. Identify Problems/Conflicts
   1. Identify personal problems/conflicts
   2. Identify why personal problems/conflicts exist
   3. Request assistance in identifying personal problems/conflicts

50. Use Appropriate Resources to Assist in Problem Solving
   1. Identify situations in which individuals need advice
   2. Identify available sources for providing assistance in resolving personal problems/conflicts
   3. Identify outcomes of seeking help in resolving personal problems/conflicts

4. Seek appropriate sources in helping to resolve personal problems/conflicts

51. Develop and Select Best Solution to Problems/Conflicts
   1. Identify solutions to personal problems/conflicts
   2. Select best solutions developed to personal problems/conflicts
   3. Seek assistance in helping to develop and select best solutions to personal problems/conflicts
   4. Practice developing and selecting best solutions to personal problems/conflicts

52. Demonstrate Decision Making
   1. Identify importance of making decisions
   2. Identify steps in making informed decisions
   3. Seek help in making decisions

14. Communicating with Others

53. Demonstrate Listening and Responding Skills
   1. Identify the importance of listening and responding
   2. Identify appropriate listening techniques
   3. Identify appropriate responding techniques
   4. Practice attentive listening and responding

54. Demonstrate Effective Communication
   1. Identify modes of communication
   2. Identify appropriate speaking methods
   3. Identify inappropriate speaking methods
   4. Identify methods of expressing needs and feelings
   5. Identify appropriate techniques of communicating on the telephone
   6. Identify nonverbal cues and communication skills
   7. Practice effective communication

55. Communicate in Emergency Situations
   1. Identify signs of an emergency situation
   2. Identify appropriate authorities to contact in different emergency situations
   3. Practice communicating in emergency situations

OCCUPATIONAL GUIDANCE AND PREPARATION

15. Exploring and Locating Occupational Training and Job Placement Opportunities

56. Identify Rewards of Working
   1. Identify the importance of working
   2. Discuss the rewards for working
   3. Identify the reasons some jobs pay more than others
   4. Identify personal needs that are met through work
   5. Identify how work is part of one’s personal identity
   6. Identify ways workers contribute to society
   7. Identify ways society rewards different types of jobs

57. Locate Available Occupational Training and Job Placement Possibilities
   1. Identify sources for locating occupational training and job placement information
   2. Discuss different types of occupational training possibilities
   3. Identify general job placement possibilities
   4. Identify general training possibilities
5. Practice locating available occupational training possibilities
6. Request assistance for locating occupational training possibilities

16. Making Occupational Training and Job Placement Choices

58. Demonstrate Knowledge of Occupational Interests
   1. Identify occupational interests
   2. Discuss types of jobs matching personal occupational interests
   3. Request assistance regarding matching jobs with personal occupational interests

59. Demonstrate Knowledge of Occupational Strengths and Weaknesses
   1. Identify occupational strengths and weaknesses
   2. Discuss jobs matching personal occupational strengths
   3. Request assistance regarding matching jobs with personal occupational strengths

60. Identify Possible and Available Jobs Matching Interests and Strengths
   1. Identify jobs of interest
   2. State jobs of interest that match personal occupational strengths and weaknesses
   3. Discuss job-related requirements of jobs matching personal occupational interests

61. Plan and Make Realistic Occupational Training and Job Placement Decisions
   1. Identify occupational training and job placement options
   2. Develop plan to meet identified occupational training and job placement options
   3. Request assistance to help plan and make realistic occupational training and job placement choices

62. Develop Training Plan for Occupational Choice
   1. Identify steps in developing occupational choice training plan
   2. Develop occupational choice training plan

17. Applying for and Maintaining Occupational Training and Job Placements

63. Apply for Occupational Training and Job Placements
   1. Identify steps in applying for occupational training and job placements
   2. Collect and develop personal data card for completing application forms
   3. Complete applications for occupational training and job placements
   4. Request assistance in applying for occupational training and/or job placements

64. Interview for Occupational Training and Job Placements
   1. Identify appropriate interview skills for occupational training and job placements
   2. Practice mock interviews for occupational training and job placements
   3. Practice interviews for occupational training and job placements

4. Request help in preparing and interviewing for occupational training and job placements

65. Make Adjustments to Changes in Employment Status
   1. Identify potential problems encountered in occupational training and job placements
   2. Identify potential solutions to problems encountered in occupational training and job placements
   3. Identify factors that determine successful work adjustment
   4. Identify factors that determine unsuccessful work adjustment
   5. Identify reasons for occupational training or employment changes or termination
   6. Identify factors relating to being promoted in jobs
   7. Request assistance in making changes in employment status

18. Developing and Maintaining Appropriate Work Skills and Behavior

66. Perform Work Directions and Meet Requirements
   1. Identify the importance of following directions and meeting requirements
   2. Perform a series of tasks in response to verbal instructions

67. Maintain Good Attendance and Punctuality
   1. Identify reasons for good attendance and punctuality
   2. Identify actions to take for tardiness or absence from work

68. Respond Appropriately to Supervision
   1. Identify appropriate behavior when being supervised
   2. Exhibit appropriate response to supervision

69. Demonstrate Job Safety
   1. Identify the importance of job safety
   2. Identify potential job hazards
   3. Identify safety measures in job choices
   4. Exhibit job safety

70. Work Cooperatively with Others
   1. Identify reasons for working with others
   2. Practice working cooperatively with others

71. Meet Work Quality and Quantity Standards
   1. Identify reasons for work quality standards
   2. Identify reasons for work quantity standards
   3. Identify consequences of not meeting work quality and quantity standards
   4. Practice meeting work quality and quantity standards

19. Matching Physical/Manual Skills to Occupational Training and Employment

72. Demonstrate Fine Motor Dexterity in Occupational Training and Job Placements
   1. Identify need for good fine motor dexterity in occupational training and employment
   2. Identify jobs in which fine motor dexterity is critical
   3. Demonstrate fine motor dexterity in occupational training programs and/or at job sites
   4. Request assistance in developing fine motor dexterity in occupational training and job placements
73. **Demonstrate Gross Motor Dexterity in Occupational Training and Job Placements**
   1. Identify need for gross motor dexterity in occupational training and employment
   2. Identify jobs in which gross motor dexterity is critical
   3. Demonstrate gross motor dexterity in occupational training programs and/or at job sites
   4. Request assistance in developing gross motor dexterity in occupational training and job placements

74. **Demonstrate Sensory Discrimination in Occupational Training and Job Placements**
   1. Demonstrate size and shape discrimination
   2. Demonstrate color discrimination
   3. Demonstrate auditory discrimination
   4. Demonstrate adequate sensory discrimination in occupational training and job placements
   5. Request assistance in developing size, shape, color, auditory, and sensory discrimination in occupational training and job placements

75. **Demonstrate Stamina and Endurance**
   1. Identify need for stamina and endurance in occupational training programs and job placements
   2. Identify jobs in which stamina and endurance are critical
   3. Work at demonstrating satisfactory stamina and endurance in occupational training programs and job placements
   4. Request assistance in developing satisfactory stamina and endurance in occupational training and job placements

20. **Training for Occupational Choices**

   *There are no specific subcompetencies since they depend on the skill being taught.*

**SECTION IV—INTERPRETATION**

Each user will have to decide whether a complete mastery of a specified percentage of subcompetencies is preferable to a partial mastery of all of the subcompetencies. At this time, the suggested method of interpretation involves the user’s identification of student strengths and weaknesses. Such identification should prove useful for developing individualized education programs (IEPs) as well as evaluating IEP outcomes. Since the CRS-M items are actually the subcompetencies of the LCCE Modified Curriculum, low-rated items can be used to establish short-term objectives for individualized functional planning. Readministration of the CRS-M can then be used to evaluate the effectiveness of such planning by comparing pre- and postintervention ratings.

The CRS-M user can review student performance and behavior for any given rating period to determine deficient areas. Such a determination can assist both in general curriculum planning and in individualized functional planning.

If a large percentage of students are deficient in particular areas (subcompetencies, competencies, or domains), emphasis on these areas could be incorporated into functional planning and training. Individual weaknesses can be addressed through revised IEPs. Note that the rating key allows only three numerical ratings. The operational definition of the 1 rating ("at least one, but not all") makes student progress on a subcompetency possible without a change in numerical rating. A student might require several years to progress from a rating of 1 on an individual subcompetency to a rating of 2. Therefore, in the IEP evaluation, the user should look for short-term gains in the larger categories (competencies or domains). This system will reflect short-term gains when used in this manner.

The CRS-M user can review student performance and behavior over several rating periods to determine progress as well as establish realistic expectancies for typical student growth and development. This interpretation provides not only suggestions for immediate functional curriculum planning on a general and individual basis, but also suggestions for long-range functional curriculum sequencing. This type of data should prove particularly useful after systematic analysis, since there is little information available to predict typical developmental stages in the career development of students with mild or moderate disabilities.

Although the subcompetencies, competencies, and domains identified here are felt to be generally comprehensive, there is no evidence at present that these divisions and their sequencing correlate strongly with student ability to master these objectives at any particular age or developmental stage. Thus, the CRS-M user has an opportunity to either formally or informally establish expectancies and sequencing in each particular setting.

In summary, CRS-M results can be employed to:

- Determine students' strengths and weaknesses.
- Develop and review IEPs.
- Plan and develop a functional/transitional curriculum.
- Monitor student or group progress.

The CRS-M is an integral part of the assessment process for the LCCE-Modified Curriculum program. The CRS-M results should be included in the student’s transition portfolio and should accompany the student when seeking support from other adult service providers or seeking employment. This instrument should be a valuable tool for all students with moderate disabilities in K through 12+ transition planning.

Objective criteria can be found in the LCCE Competency Rating Scale (CRS), the LCCE Knowledge Battery (KB), and the LCCE Performance Battery (PB). Criteria listed reflect the short-term individual objectives checked in Section IV, Part B, of this form.

Evaluation Procedures can be determined by the IEP Committee reviewing the manuals for the Competency Rating Scale, Knowledge Battery, and Performance Battery.

Schedule for Assessment should include time, date, frequency, place, etc.

SECTION X: Estimated Date, Location, and Time for next IEP Committee Review

Life Centered Career Education: A Competency Based Approach
Fifth Edition
Donn E. Brolin

The fifth edition of the basic LCCE text includes improvements that make it easier to use in conjunction with the LCCE Complete Curriculum Package. Pages have been tabbed for quick reference to the Daily Living, Personal-Social, and Occupational Guidance and Preparation domains. Objectives have been numbered to coincide with the lesson plans in the Complete Curriculum Package. The competencies have remained the same, and the 97 subcompetencies and over 400 objectives continue to provide the most comprehensive career education program available. The guide also contains the Competency Rating Scale (CRS), a subjective assessment instrument used to rate student achievement. This is a very useful screening device and is extremely helpful in selecting areas for instructional planning.

Life Centered Career Education
Modified Curriculum for Individuals with Moderate Disabilities
Robert J. Loyd and Donn E. Brolin

This modified version of the LCCE Curriculum provides practitioners with the same easy-to-use format of the original text. A correlation table allows teachers to identify corresponding competencies in each curriculum in the event that students are able to move from this more basic version to the more advanced objectives of the original work. The major difference between the original and the modified curriculum programs is that the modified curriculum focuses on the critical skills and outcomes that individuals with moderate disabilities need to perform to assist them in making a successful transition from school to work and community living. Another significant difference is that attention to both support needed and participation levels is embedded in the curriculum activities and individuals are encouraged to seek assistance when necessary. A modified Competency Rating Scale (CRS) is included in the text. This instrument is useful in determining appropriate objectives to be included in the IEP or other planning documents.

LCCE Demonstration Video
This 55-minute video provides an explanation of the LCCE curriculum and demonstrates administration of the Knowledge and Performance Batteries as well as a number of instructional lessons. This product can be used to support inservice training or to model teaching and testing strategies to teachers who are new to the program. The video follows the content of LCCE Training Workshops.

No. M5189. Edited 1996. 55 min. VHS. $75

The IEP Planner for LCCE Transition Skills
Allows teachers to incorporate Life Centered Career Education (LCCE) skills into students’ IEPs. Each competency from the LCCE Curriculum is listed along with up to 9 objectives for each of the 97 competencies—more than 400 objectives altogether. The program allows teachers to edit any objective or add special goals and objectives as needed. Easy to update for annual reviews and progress reports. You can even import your own district’s curriculum. The package includes:

- Disks for both Macintosh and DOS-based computers containing LCCE objectives and an IEP form template.
- A spiral bound book of codes for LCCE competencies and goals and the IEP form.
- A copy of Life Centered Career Education: A Competency Based Approach, the foundation text by Donn E. Brolin.

No. S5174. 1996. $220

Life Centered Career Education
The Complete Curriculum and Assessment Package
Includes over 1,100 lesson plans covering Daily Living Skills, Personal-Social Skills, and Occupational Skills; Knowledge Batteries (10 copies of each of two alternative forms); Performance Batteries; Administration Manuals; and Technical Report.

No. P371. 1992. $980

LCCE: Daily Living Skills
Donn E. Brolin

Includes 472 lesson plans covering personal finances, household management, personal needs, family responsibilities, food preparation, citizenship responsibilities, and leisure.

LCCE: Personal-Social Skills
Donn E. Brolin
Provides 370 lesson plans for developing self-awareness, self-confidence, socially responsible behavior, good interpersonal skills, independence, decision-making, and communication skills.

LCCE: Occupational Guidance and Preparation
Richard T. Roessler and Donn E. Brolin
Includes 286 lesson plans to help students explore occupational possibilities; make occupational choices; develop appropriate work habits; seek, secure, and maintain employment; exhibit sufficient physical/manual skills; and obtain specific occupational competencies.

LCCE: Competency Assessment Knowledge Batteries
Available in parallel forms, each Knowledge Battery consists of 200 multiple-choice questions that cover the first 20 competencies. Primarily a screening instrument, the Knowledge Batteries were designed to pinpoint specific competency deficiencies. Package includes an Administration Manual, a Technical Report, and samples of each form of the test. Also included are two introductory sets of 10 Knowledge Batteries, Forms A and B, to use with students.

LCCE: Competency Assessment Performance Batteries
The Performance Batteries consist of two alternative forms for each of the 21 competency units. Items are primarily performance based and should be administered to students before and after instructional units have been taught. Performance Batteries are administered individually or with small groups of students. Test materials must be reproduced as needed. Performance Batteries are packaged in a loose-leaf binder along with an Administration Manual.

Additional Sets of Knowledge Batteries
Packages of 10 tests may be ordered separately to be used by students. Students may answer questions directly in the test booklets by circling the correct choice or may use a standard machine-scorable form. Knowledge Batteries may not be reproduced.
LCCE: Knowledge Battery Form A (10 per package) No. P372. $20
LCCE: Knowledge Battery Form B (10 per package) No. P373. $20
