## ABSTRACT

This annual report presents 1996-97 financial information on 20 degree-granting universities and related institutions in Ontario, Canada. The report first explains the general guidelines and reporting requirements used in compiling the report, including university accounting procedures, the principles of fund accounting involved, and definitions of types of funds, revenue sources, operating expenses, and objects of expense. Twenty-four data tables present summary information for all institutions, including: (1) combined revenues and expenses and changes in fund balances; (2) expenses by object and type of fund; (3) actual operating expenses by object and functional area; (4) percentage of total expenses by object of expense by institution; (5) percentage analysis of expenses by type of fund by institution; (6) general fund changes in appropriated fund balances; and (7) treatment and rehabilitation funds. Financial information for the following institutions are provided: Brock University, Carleton University, University of Guelph, Lakehead University, Laurentian University, Algoma University College, Le College Universitaire de Hearst, McMaster University, Nipissing University, Ontario College of Art \& Design, University of Ottawa, Queen's University, Ryerson Polytechnic University, University of Toronto, Trent University, University of Waterloo, University of Western Ontario, Wilfrid Laurier University, University of Windsor, and York University. # The Honourable David Johnson 

Minister of Education and Training
22nd Floor, Mowat Block
900 Bay Street
Toronto, Ontario
M7A 1L2

Dear Minister:

On behalf of the Council of Ontario Universities, I am pleased to submit to you the Financial Report of Ontario Universities 1996-97. This report provides accountability to the Province of Ontario for funds received by the 42 provincially assisted universities and colleges during the 1996-97 fiscal year and is the latest in an annual series that dates back more than a quarter of a century.

The Financial Report of Ontario Universities 1996-97 provides detailed financial information within a prescribed format which utilizes consistent reporting categories and definitions, as developed by the Council of Finance Officers - Universities of Ontario.

Volume I of this report provides financial information on 20 degree granting universities and related institutions. Volume II provides financial information on 22 church-related colleges, universities and seminaries.

I trust that the Financial Report of Ontario Universities $1996-97$ will be of assistance to your Ministry.

Sincerely,

Bonnie M. Patterson
President

# REPORT OF THE COUNCIL OF FINANCE OFFICERS <br> UNIVERSITIES OF ONTARIO FOR THE FISCAL YEAR ENDED 30 APRIL 1997 

This report has been compiled from submissions prepared by each of the provinciallyassisted universities and colleges in Ontario. Those submissions have been prepared in accordance with Guidelines established by the Council of Finance Officers - Universities of Ontario. The Guidelines and reporting forms are generally consistent with those followed in previous years in the publication of the Financial Report of Ontario Universities.

Volume I of this report provides financial information on the provincially-assisted universities of Ontario. Volume II provides information on those universities' churchrelated, federated or affiliated colleges, universities or seminaries.

It should be noted that this publication does not follow the recommendations of the Canadian Institute of Chartered Accountants with respect to pension costs and the accrual of vacation pay. It should also be noted that, of the 42 universities and federated and affiliated colleges included in the Financial Report of Ontario Universities 1996-97, 37 reported financial information for the 12 months ending 30 April 1997. The remaining five institutions reported information for 12 months but employed the following fiscal year ends:

Ontario College of Art \& Design
Ryerson Polytechnic University McMaster Divinity College
Knox College
Wycliffe College

May 31, 1996
March 31, 1996
December 31, 1995
December 31, 1995
May 31, 1996

Attention is directed to the General Caveat which follows. The Council of Finance Officers Universities of Ontario would welcome comments and suggestions on this report.

Chair - Committee on Financial Reporting
Council of Finance Officers - Universities of Ontario
Chair - Council of Finance Officers
Universities of Ontario

## GENERAL CAVEAT

#### Abstract

CERTAIN OF THE SUMMARY DATA IN THIS REPORT ARE SUBJECT TO INTERPRETATION OR CLARIFICATION BECAUSE OF INHERENT DIFFERENCES AMONG INSTITUTIONS IN ACADEMIC PROGRAMMES, ORGANIZATION, PHYSICAL ENVIRONMENT, MANAGEMENT PHILOSOPHY AND BUDGETARY AND ACCOUNTING PROCEDURES.

FINANCIAL INFORMATION REPORTED BY THE AFFILIATED AND FEDERATED COLLEGES AND UNIVERSITIES (SHOWN IN VOLUME II) CANNOT BE ADDED TO THE FINANCIAL INFORMATION REPORTED BY THE UNIVERSITIES (SHOWN IN VOLUME I) WITHOUT CERTAIN ADJUSTMENTS. THE CONSOLIDATED SUMMARY TABLES SHOWN IN SECTION 4 OF VOLUME I REFLECT THESE ADJUSTMENTS.

## GUIDELINES

## I INTRODUCTION

## A. University Accounting Procedures

The accounts of universities are maintained in accordance with the principles of fund accounting to ensure that limitations and restrictions placed on the use of available resources are observed. Fund accounting classifies resources for accounting and reporting purposes in accordance with activities or objectives as specified by donors, in accordance with regulations, restrictions or limitations imposed by sources outside the institution or in accordance with directions issued by the governing body. A fund is an accounting entity with a self-balancing set of accounts for recording assets, liabilities, a fund balance, and changes in the fund balance. Separate accounts are maintained for each fund to ensure observance of limitations and restrictions placed on the use of resources. For accounting and reporting purposes, however, funds of similar characteristics are combined into fund groups.

This report accounts for the change (increase or decrease) in fund balances. Consequently, it displays the sources of revenue and types (objects) of expense giving rise to the change.

The accrual basis of accounting - a method of recording transactions by which revenues and expenses are reflected in the accounts of the period in which they are considered to have been earned and incurred - is a further generally accepted accounting principle for college and university financial statement reporting.

Changes in fund balances reported in an institution's financial statements may also have occurred as a result of approved transfers to reserves or appropriation of funds for specific future purposes. Appropriations are a means by which fund balances are committed or reserved for future use, e.g. encumbrances. Appropriations relate to future events and, under the principle of accrual accounting, an increase in appropriations should not be recorded as an expense in the accounting period nor should a decrease in the appropriation be recorded as a source of revenue.

As a reserve, the appropriation should be recorded as an allocation of unallocated fund balances. The actual expense should be recorded in the accounting period in which it is incurred and the related appropriation restored to its unallocated fund balance in the same accounting period. Consequently, while outlining the changes arising from revenues and expenses, separate provision in the reports has been made to reflect the net change in reserve and appropriation accounts (Table 1).

## B. Reporting

For purposes of reporting, all funds have been identified as being either expendable or non-expendable. Expendable funds have been identified as being either general or restricted. General funds are subdivided into operating, other (non- credit) and ancillary enterprises while restricted funds include sponsored research, trust and endowment and capital. In addition, expenses of the operating fund are further segregated into operational (functional) areas. Non-expendable funds generate investment income, which may be utilized for various purposes, but the principal of the funds cannot be expensed.

Expenses are to be reported in the same fund or functional area as the source of revenue. Normally, the criteria for reporting a particular revenue or expense within a fund entity or functional area on the report forms are the same as those used for the financial statements of an institution. When revenue and expense are classified differently by an institution, the guidelines specifically require that they be reported according to its instructions, regardless of the institution's practice. For example, health services and athletics are to be reported in the student service functional area even if they are carried as ancillary enterprises by a university. However, the opening and closing fund balances shown on Table 1 of each institution's report must reflect the balances shown on the institution's audited financial statements.

## C. Submissions

A separate report is filed covering each federated or affiliated institution such that information can be included in a publication separate from that of the main university.

## II PRINCIPLES OF REPORTING

## A. Fund Concept

The concept of fund accounting distinguishes between those funds which are expendable and those which are non-expendable. Expendable funds are further grouped as either general or restricted with additional sub-groupings within each category.

General expendable funds, including operating, other (non-credit), and ancillary enterprises, should reflect the traditional matching approach of incurred expenses with earned revenues.

Restricted expendable funds, including sponsored research, trust and endowment, and capital, should be reported using a "funds flow" approach, that is, revenues should be reported when due and expenses as incurred on an accrual basis with the difference representing the annual change (increase or decrease) in fund balances.

## B. Revenues and Expenses

1. Net Reporting - The net reporting approach is used by the guidelines because it best reflects the major operations of the university. Therefore, revenue derived from outside the university from sales, rentals or the provision of services (the costs of which are reflected in other functional areas) should be netted against the objects of expense related to the generation of these revenues. However, profits included in these revenues should not be netted against expense but rather shown as miscellaneous revenue.

Examples of revenues which must be netted are:
(a) computer service sales to outside organizations. The cost of the academic computer centre should primarily reflect the centre's cost of the educational service. The recovery of revenue is merely an assistance to the financing of this facility;
(b) sale of central services (e.g., power, heat, etc.) to external organizations. The sale of power, heat, etc. may reflect an oversized facility when related to university use only and which, if included at gross, would distort the significance of this expense;
(c) medical salaries recovered from the Ontario Ministry of Health;
(d) payments for teaching or administrative services between universities and affiliated institutions. To prevent the double counting of costs for individual expense items on aggregation of the reports, the recipient university must net out the receipt against the applicable expense items;
(e) physical plant costs recovered from external sources; and
(f) revenues from university employees or outside organizations for the use of athletic facilities.

Examples of revenues which must not be netted against expenses are grants, student fees, and ancillary revenue.

## 2. Internal Cost Allocations and Cost Recoveries

A particular fund or function may incur costs which properly should be charged or allocated to another fund or function within the university. Common examples include the allocation of administrative costs as overhead to ancillary enterprises and sponsored research, or printing costs transferred by the printing department to individual departments. The use of interfund transfers would be inappropriate in these cases.

Two methods are available for transferring expenses from one fund or function to another. The direct approach of modifying the applicable line items should be used where specific expense identification is possible. This method should be used as much as possible. It is acceptable that this allocation be made on a "best-estimate" basis. Where specific expense identification is not possible, the alternative method is the use of the object of expense "internal cost allocation"; e.g. allocation of computer costs.

## 3. Gifts-in-Kind

Gifts-in-kind must be reported as both revenue and expenses within the appropriate fund or function. As revenue they are included in Donations.

## 4. Debt Servicing and Retirement

Principal and interest repayments associated with ancillary enterprises are to be appropriately included as expenses of ancillary enterprises. This treatment emphasizes their fully-costed nature and assists in matching expenses with revenues.

## C. Appropriated Funds

Expenses, which have been funded from reserves or appropriations in the financial statements of a university, should be reported as expenses. Amounts transferred to create or increase a reserve or appropriation account should not be reported as expenses.

Similarly, fund transfers to eliminate or reduce a reserve or appropriation account should not be included as revenue or netted against expenses. Instead, these transfers are shown on Table 1.

For example, provisions for the replacement of assets are considered to be transfers to reserve or appropriation accounts and, consequently, are not to be reported as expenses.

## III DEFINITIONS

## A. Funds

1. General Expendable Funds

General Expendable Funds account for the general operational costs of the university financed by fees, grants and other general income.
(a) Operating - this fund accounts for the costs of instruction, research other than sponsored or contract research, academic support services, library, computing, student services, administrative services, plant maintenance and other operating expenses of the university financed by fees, grants and other general income.
(b) Other (Non-Credit) - this fund accounts for all revenues and expenses associated with lectures, courses, and similar activities which are not recognized by the institution for the purpose of granting credit.
(c) Ancillary Enterprises - these operations reflect services provided as supplementary to the primary function of instruction and research. Although an integral part of the institution's total operations, they are reported separately.

Ancillary operations are typically provided on a "fee for service" basis and include revenues and expenses of "sales producing", non-teaching areas, such as the bookstore, food services, residences, parking, university press/publishing, property rentals, university facility rentals, theatres and conference centres.

Where services are provided to other departments in the university, revenues from those services should be netted against expenses.

Expenses for furniture and equipment and capital debt repayment borne directly from ancillary enterprise revenue are to be shown in this fund in their respective objects.

## 2. Restricted Expendable Funds

Restricted Expendable Funds account for resources that may be used for current purposes, but with some degree of limitation as to the exact use.
(a) Sponsored Research - this fund accounts for all research activities and contract research funded from government and private sources.
(b) Trust and Endowment - this fund accounts for expendable gifts, benefactions, grants available for special purposes (other than operating, research, or capital), and interest earned on non-expendable gifts, in accordance with donors' intentions.
(c) Capital - this fund accounts for grants and monies available for capital purposes, including building programs, acquisitions of major equipment, and major renovations. Capitalization of and equity in fixed assets (e.g. equipment, library acquisitions) are not part of the expense and the fund balance respectively.

## 3. Non-Expendable Trust and Endowment Fund

This fund accounts for the capitalization of gifts which cannot be spent and the capitalization of revenues.

## B. Revenue Sources

1. Government Grants and Contracts - this object will include all grants and contracts from the Ministry of Education and Training and other Ontario government departments and agencies, federal and municipal governments and governmental agency sources. Grants and contracts from other provinces and from foreign governments are to be reported under "Other Government" grants and contracts. Government grants received by a university on behalf of its affiliates should only be reported as revenue by the affiliate to avoid double counting.
(a) Ontario Ministry of Education and Training Grants and Contracts - includes all those operating and capital grants announced by the Ministry as transfer payments to the universities of Ontario, as well as any other grants or contracts with MET.
(i) MET Formula Grants - includes basic operating grant only.
(ii) MET Non-formula Grants - includes all other MET grants announced by the Ministry as transfer payments to the universities, including:

- northern operations grants and northern mission grants
- bilingualism grants
- research/overheads infrastructure grants
- differentiation grants
- pay equity assistance grants
- enhanced accessibility for students with disabilities grants
- grants to compensate for municipal taxation
- university student residences grants
- capital grants made by MET.
(iii) Other MET Grants and Contracts - includes all other grants and contracts with the Ministry of Education and Training.
(b) Other Ontario Grants and Contracts - include Capital and other grants received from other provincial ministries; e.g. grants and contracts with Centres of Excellence, OMAF grants for Guelph, and energy management grants. While some of these grants may be administered by MET, the "Source of Funds" may be other than MET and, therefore, should be reported here rather than under the previous (iii).

Note: Where the university, providing an accounting service for a Centre of Excellence, receives funds, those funds should not be included in these reports. If there is an administrative fee, it should be reported as income.
(c) Federal

This will include all grants and contracts from the Government of Canada or its agencies.
(d) Municipal

Include all grants and contracts received from municipalities.
(e) Other Governments

This will include all grants from, and contracts with, other provinces and foreign governments.

## 2. Fees

(a) Tuition credit - includes fees for fall and winter sessions of a semester type operation, all three terms of a trimester operation, the year-round operation of graduate schools, intersession, spring session credit courses and credit extension. Fees for "make-up" or special courses which are related to the credit offerings of an institution and fees for auditing in credit courses are included.
(b) Tuition non-credit - includes fees for lectures, courses, and similar activities which are not recognized by the institution for the purposes of granting credit.
(c) Miscellaneous - includes all other fees charged to students, including room and board charges, health services, athletics, OUAC application fees, charges for deferred or instalment payment, late registrations, and lockers, but excluding fees collected and turned over to student-controlled and administered areas such as Student Councils or Federations.
3. Borrowings - this category includes only those borrowings which are used to finance capital expenditures, where the university will repay both interest and principal.
4. Donations, Non-Government Grants and Contracts - includes donations and gifts-in-kind received from individuals, companies, foundations, charitable institutions, associations, and societies which are considered to be gifts for tax purposes and eligible for tax receipts as charitable donations. Also includes grants and contracts received from individuals, corporations, foundations and associations
for which no tax receipts are provided and which are not considered as charitable donations for tax purposes. Contracts provide financial support under certain specific stipulations and conditions, including the provision of a deliverable product, such as a piece of equipment, provision of a service, or a report.
5. Sales of Services and Products - includes external receipts from sales in ancillary enterprises, excluding room and board charges to students. Revenues associated with services to other departments within the university should be netted against the appropriate objects of expense where material.
6. Investment Income - includes income from dividends, bonds, mortgages, short-term notes and bank interest. Realized gains or losses, if treated as income, should also be included in the applicable fund area. Significant non-recurring items should be noted. Interest charged to student loans or other non-tuition fee accounts receivable should be allocated to investment income.
7. Miscellaneous - include any form of revenue not identified in the above categories of revenue.

## C. Operating Expenses - Functional Areas

1. (a) Instruction and (Non-Sponsored) Research - Excluding Medicine - this functional area includes all direct costs of faculties, academic departments, graduate school, summer school, credit extension, deans and departmental offices and other academic functions and expenses attributable to the area of Instruction and (Non-Sponsored) Research.
(b) Instruction and (Non-Sponsored) Research - Medicine - this functional area includes all direct costs of the Faculty of Medicine. These costs are to be shown net of recoveries from the Ontario Ministry of Health (Treatment and Rehabilitation Funds), that is they are to be deducted before expenses are entered on the report and not as a lump sum offset or as revenue. The expenses of all other areas of Instruction and Research (including Health Sciences other than the Faculty of Medicine) are to be shown under 1 a).

Research funded directly from the university's operating revenues should be reported in this function.
2. Library - this area encompasses the institution's main library, branch, faculty or departmental libraries. All purchases of books and periodicals from operating funds should be shown under this functional heading.
3. Central Computing and Communications - only expenses for central computing and communication facilities are recorded in the functional area "central computing and communications".

A central computing facility is defined as comprising those computer-related activities and resources which, due to (a) economies of scale, (b) the existence of a large number of users who require a wide variety of services, and (c) the high degree of technical expertise required in computer operations, are budgeted and administered under a central management. This is usually seen as a university resource providing a centralized support service to the institution's instruction, research and administrative areas.

This contrasts with stand-alone computer installations established for the main purpose of providing services to a single division or department. Where facilities are meant to serve a single division or department, the expenses of these remote computing resources should be reported within the relevant fund or functional area. For example, a computing facility in the library to provide library computing should be included in the Library function.

Communications includes the costs of telephone equipment rental, acquisition and switchboard, including related personnel and other costs.

If an institution employs a charge-out system for central computing time or telephone equipment usage, the expenses should be drawn together and reported under this column. Where an allocation of costs to other funds is to be reflected, the Object of Expense "Internal Cost Allocation" should be used for the purpose of recording these transfers (e.g., charges made to the Sponsored Research Fund). Thus the function will show the net cost to the operating fund.
4. Student Services - this functional area includes the cost of services (other than direct teaching, research and administrative services) provided to students by an institution. Generally, these services will include counselling; both intramural and intercollegiate athletics (not physical education); Dean of Students; placement services; student housing services (not to be confused with residence hall operations); student transportation services; grants to student organizations; student programme costs, e.g., cultural, music, drama; student centre costs and student awards administration.

If any of the foregoing activities are carried as ancillary enterprises on the financial statements of the institution, the revenue and expenses should be transferred to this functional operating area for reporting purposes. These services may be provided from general revenue or wholly or in part by a specific charge included in the incidental fee structure.

Note: Student Activity Fees collected and turned over to student councils or federations are to be excluded where an institution is acting in an agency capacity.
5. Administration - this function includes the administration, planning and information costs and activities associated with the offices of the president and vice-presidents, the registrar and admissions (including student recruitment and high school liaison), research administration, space planning, board and senate secretariat, finance and accounting, personnel, central purchasing, receiving and stores, institutional research, and general university memberships, e.g. COU, AUCC, CAUBO.

If purchasing, receiving and stores are centralized, then these expenditures should be included under Administration. If these services are not centralized then these expenditures should be included in the various functional areas.
6. Physical Plant - this functional area reflects costs related to the physical facilities of the university, including the following:
(a) Physical Plant Administration - activities necessary to carry out the duties of management and administration for all areas under the jurisdiction of the Physical Plant Division.
(b) Building Maintenance - routine repair of buildings and structures, including normal recurring repairs and preventive maintenance.
(c) Custodial Services - janitorial and custodial services to buildings and structures including care and waxing of floors, washing of windows and costs of all cleaning contracts let to outside cleaning contractors (including windowwashing).
(d) Utilities - costs of heating, cooling, light and power, gas, water, and any other utilities necessary for the operation of the physical plant.
(e) Landscape and Grounds Maintenance - operation and maintenance of campus landscape and grounds.
(f) Security and Traffic - costs for watchmen, police services related to plant and campus security, and vehicle control. Costs relating to "parking lots" are to be segregated and reported as an ancillary enterprise.
(g) Other - services and costs which are often the responsibility of Physical Plant Departments, such as:
(i) Hauling, moving and storing of furniture for other departments.
(ii) The costs of courier services, mail services, postal services, porters, or services requiring technical direction at the time of performance which are usually provided by the department having specific jurisdiction.
(iii) Property taxes and other municipal assessments.
(iv) Vehicles.
(v) Unabsorbed physical plant costs relative to chargeouts, not recovered from departmental work orders.
(vi) Property and liability insurance.
(vii) Renovations, alterations and major repairs.
(viii) Costs of renting space and land together with property taxes paid thereon.

Costs reported should represent the total operating costs of the physical plant function as defined in the Guidelines and may not, therefore, necessarily reflect how they are reported in a university's financial statements.

Note: Central purchasing, receiving and stores are to be recorded in the function Administration. For further explanation, see the definition of the functional area Administration.
7. Other - this area is used for all other operating expenses including the development office, alumni office, public relations, and the administration of the occupational health and safety programme, including the disposal of hazardous wastes. It would include expenses for professional fees (legal and audit), convocations and ceremonies, and insurance (except fire, boiler and pressure vessel, property and liability insurance which are reported under the physical plant function).

## D. Object of Expense

## 1. Salaries and Wages

(a) Academic Ranks - this object includes salaries paid to staff who hold an academic rank in the reporting institution from lecturers to deans inclusive (both full or part-time) in faculties, academic departments or programmes, summer schools, credit extension courses and other academic functions. Salary payments to staff members on paid academic leave are also included.
(b) Other Instruction and Research - payments made to staff members without academic rank at the reporting institution who are engaged in instruction and research as instructors, tutors, markers, demonstrators, teaching assistants, research assistants, invigilators, clinical assistants, post-doctoral fellows, and others are to be included. Payments made to graduate and undergraduate students undertaking these activities are included.
(c) Other Salaries and Wages - this object reflects all salaries, wages and payments to non-instructional staff (support staff) including among others, technicians, clerical and secretarial, professional and managerial, janitorial, trades and maintenance. All salaries for functions other than Instruction and Research are to be included in this object even though individuals, (e.g., certain professional librarians or computing centre personnel), may hold the equivalent of an academic rank.

Note: Salaries paid from Sponsored Research funds are to be shown in that Fund column in the appropriate object line.
2. Employee Benefits - this object is to reflect an institution's contributions (with respect to salaries) for pensions (including payments for actuarial deficiencies and past service liability), group life insurance, salary continuance insurance, dental plans, cost of Workers' Compensation and the Employer Health Tax, free tuition, employment insurance, early retirement benefits and other costs of an employee benefit programme. Memberships or other perquisites of employment are not to be reported here. Whenever an institution pays a premium or sets aside a negotiated amount for an employee, these amounts should be included under employee benefits. Other categories of compensation payments to employees shall be reported under salary expenditures (for example, salary continuance payments during sick leave or maternity leave).
3. Library Acquisitions - this object will include all purchases of books, periodicals, microfilms, microfiche and other reference materials, (including costs of bookbinding), with respect to the institution's main library, branch and faculty or departmental libraries.
4. Equipment and Furniture - this object will include all purchase, amortization, rental and maintenance expenses for equipment and furniture, including laboratory equipment (other than consumables), administrative equipment and furnishings (including carpets and drapery), copying and duplicating equipment, computing equipment, and maintenance equipment. Instalment payments, as a result of external and internal financing, lease purchase computer contracts, and installation costs are included.
5. Operational Supplies and Expenses - this object includes all expenses for supplies, postage, reproduction (i.e., all reproducing and printing carried out by the university), publications, telephone long distance charges, repair materials, office supplies, and computer software packages.
6. Cost of Goods Sold - this object is to be used where an inventory method of accounting is normally employed, (e.g. bookstore, food services) and should include the laid down cost of goods purchased for resale only. The remaining costs of operating the service, i.e. salaries, supplies, etc., are to be shown in their respective
objects. Where a service is externally contracted, particularly in the ancillary enterprises area, the total costs of the contract should be included in the object "Externally Contracted Services", referred to below.
7. Utilities - expenses for fuel, electricity, water, gas and telephone equipment rental, acquisition, amortization, installation, and maintenance costs are reported in this object.
8. Municipal Taxes - property taxes for which there are compensatory grants as well as all other payments for municipal services out of operating funds are to be included.

Taxes paid in relation to space rental are not to be reported here; these amounts should be included with other costs of space rental under the object entitled "Miscellaneous".

Note: Municipal taxes for which compensatory grants are received from the province are to be shown in the Physical Plant functional area of operating expenses, as are other payments for municipal services (e.g., garbage disposal, fire protection) out of operating funds.
9. Renovations and Alterations - this object includes all expenses for renovations and alterations to existing university space. If externally contracted, these expenses are to be reported under this object and not as "Externally Contracted Services". If internally performed, the total costs including labour and materials should both be reported in this object.
10. Externally Contracted Services - all expenses for services contracted to external agencies (except for renovations, alterations, and equipment maintenance) are to be included. Examples of expenses to be included would be cleaning contracts, security services, snow removal and similar time and material contracts under physical plant, and food services under ancillary enterprises. Where food services are contracted, the contract amount in total should be shown under this object and not under cost of goods sold or other objects, even though the contractor may provide a breakdown.
11. Scholarships, Bursaries, etc. - this object will include all payments to students (except those for which the student is required to perform service for that payment) including fee remission, prizes and awards.

Note: This expense is to be displayed under the "Student Service" functional area of operating expenses on Table 4.
12. Principal and Interest Repayments - this object reflects all principal and interest repayments on university debts.
13. Land and Site Services - this object is to include acquisition costs, land improvements and site preparation, including landscaping, sewers and road. Also include fees and planning costs relative to the direct expenses.
14. Buildings - all expenses which are normally considered part of the construction costs are to be included. Where applicable, furniture and equipment and site services are to be segregated from the total contract for inclusion in their specific objects of expenses. Include all fees and planning costs associated or directly attributable to this object as well as any costs such as utilities incurred during construction.
15. Miscellaneous - this category of expenses includes amounts not reported in the previously identified objects. Categories of expenses may include recruitment, travel and field trips, relocation, entertainment, memberships, ceremonials, assistance to student organizations, insurance, legal fees, audit fees, consultants' fees, cost of renting space and land together with property taxes paid thereon. Expenses which can be properly identified as belonging to another object are not to be included here, particularly those which fall within the category of operational supplies and expense.
16. Internal Cost Allocation - this object is intended only for internal transfers of costs among funds and not between functions within the Operating fund. Wherever possible or feasible, direct allocation of expenses should be reported in the appropriate fund and this object should not be used for reporting expediency. Reductions in the objects of expense of one fund should be offset by corresponding increases in those same expense objects of the other fund.

Within the Total Operating Expenses all objects should have direct allocation into the functional areas and this object will therefore only represent the net effect of transfers to other "funds". On Table 3 of the report forms, this object of expenses must cross-add to Nil.

## E. Tables

1. Table 1-Combined Revenue and Expense and Changes in Fund Balance - this table is a statement, for each fund, designed to bring together, in summary form, total revenues and expenses to show the institution's net revenue and expense by fund, before and after interfund transfers and appropriations. The table also reconciles the institution's financial results as classified according to the guidelines with those reported on the institution's audited financial statements. Finally, the table reports the institution's fiscal year opening and closing balances by fund.

Total Revenue and Additions reflects the totals reported on Table 2. Total Expense reflects the totals of all expenses reported on Table 3. The costs associated with lump sum payments on termination of employment should be reported on Table 1, Line 03 . The costs associated with lump sum payments which are covered by pension surpluses are not to be reported, except to the extent that Net Reconciling Items, Table 1, Line 05 is affected. Net Revenue (Expense) reflects the difference between Total Revenue and Additions and Total Expense (adjusted by any lump sum payments). Net Reconciling Items reflects the net adjustment required to make the Increase (Decrease) For the Year per COFO-UO Report agree with the institution's financial statements. This adjustment is necessary when revenues and expenses, as defined by the Guidelines, are different from the way an institution reports its revenues and expenses on its financial statements. Interfund Transfers reflect transfers between funds where expenditures in one fund are financed by revenue of another fund and are offsetting. Net Variation in Appropriations reflects the net amount of increases and decreases in the institution's appropriations as defined by the Guidelines and shown on Table 5.

The Balance - Beginning of Year per Financial Statements - reflects the institution's opening balance in each fund at the beginning of the fiscal year. The Balance - End of Year per Financial Statements - reflects the Balance - Beginning of Year - plus or minus the increase/decrease for the year and must agree with the closing fund balances shown on the institution's financial statements. The equity in an institution's fixed assets is not considered part of the fund balances for the purpose of the report and will not, therefore, be included in opening and closing balances of the Capital fund.
2. Table 2 - Revenue and Additions by Source and Type of Fund - this table reports the institution's total revenue and additions by type of fund and source for the current fiscal year. The sum of revenues and additions of each fund is carried forward to the appropriate line item on Table 1.
3. Table 3 - Expenses (All Expendable Funds) by Object and Type of Fund - this table reports the institution's total expenses by type of fund and object of expense for the current fiscal year. The sum of expenses of each fund is carried forward to the appropriate line item on Table 1.
4. Table 4-Actual Operating Expenses by Object and Functional Area - this table reflects, in further detail, the objects of expense (as reported for the Operating fund on Table 3) by various functional areas.
5. Table 5 - General Funds Changes in Appropriated Fund Balances Per Financial Statements - this table itemizes the increases and decreases in the institution's appropriations as classified by the Guidelines. Appropriations are a means by which Operating or Ancillary funds may be committed or reserved for specific future purposes in accordance with institutional policy.

This table also provides a Reconciliation of the Net Variation in Appropriations, as defined by the Guidelines, with the net change reported in the institution's audited financial statements. Finally, the table shows the fiscal year's opening and closing appropriated balances, as reported on the institution's audited financial statements.

An Increase in appropriated funds is caused by an appropriation of current funds for use in future years. A Decrease in appropriated funds is caused by expending funds appropriated during previous years.

The table groups appropriations of operating funds into the following six categories:

1. Provision for repairs, renovations and replacement of physical assets in future years.
2. Purchase order commitments representing funds set aside to pay for materials and services ordered but not received in the current year.
3. Budget appropriations carried forward for specific budgetary purposes in subsequent years. These can arise from commitments, to various budget centres, to allow the complete or partial carry-forward of budgeted funds where it is determined that it would be in the best interests of the university to defer a particular expenditure to the following year.
4. Funds set up for self-insurance to protect against uninsured losses, for example to cover the deductible amounts under fire and theft insurance policies.
5. Unexpended pension contributions which arise from compliance with the Handbook of the Canadian Institute of Chartered Accountants.
6. Finally, an "Other" category is employed to report various types of appropriations which are not defined in the preceding categories. Examples include provisions for pension liabilities, library or instructional development.

The first two categories, as well as the final "Other" category, are also reported for ancillary enterprises.

TABLE 8

TREATMENT AND REHABILITATION FUNDS FOR THE FISCAL YEAR ENDED 30 APRIL 1997 (IN THOUSANDS OF DOLLARS)

Note: Treatment and Rehabilitation (T. \& R.) Funds provided by the Ontario Ministry of Health are shown in these reports at the net cost to the university; i.e. recoveries are deducted before expenses are entered on these reports. Table 8 on this page reports the amount of these $T$. \& R. funds flowed through the teaching hospitals as reimbursement to the universities for medical and dental services provided by geographic full-time academic staff.
