IDENTIFIERS *Heroes; *Heroines

ABSTRACT

This study assessed the personal values of a group of 17 kindergarten-age children. Children participated in a classroom discussion of heroes and heroines, then drew a picture of their heroes or heroines. The researcher analyzed each child's artwork and determined the outstanding values represented by the hero or heroine. A parallel was drawn between the values of heroes and heroines and this group of children's developing values. The findings indicated that the children were learning concepts, values, and behaviors from television. Fourteen of the children drew pictures of characters who were involved in violent behavior such as fighting. Three of the children identified heroes or heroines as role models with positive images and no evidence of negative behavior such as fighting. The study suggests that children's artwork offers many insights into children's development of moral values. (Contains 18 references.) (SM)

Children's Heroes and Heroines: Developing Values

Manifested Through Artwork

Purpose

At the heart of any character education program are the moral values that children are expected to develop and that teachers will be expected to encourage and model. Values are a unique kind of idea (Parker & Jarolimek, 1997) and include social values as well as democratic values (Parker & Jarolimek, 1997; Spodek, 1994). These ideas include concern for the worth of the individual and the right to life, liberty, and the pursuit of happiness; ideas of freedom and responsibility; ideas of justice; ideas concerning the safety of persons and property; and ideas of equality of opportunity (Parker and Jarolimek, 1997; Spodek, 1994).

From the moment a classroom teacher walks through the school house doors, he/she will be teaching values - whether they want to or not. Throughout the day children will be looking and listening to those significant adults around them. Children will, in turn, imitate the adult behavior and assimilate the values as they perceive them (Spodek, 1994). The classroom becomes an educative force where values are learned.

The purpose of this research was to assess the personal values of a select group of kindergarten age children. It was determined that children's values would best be reflected through the drawings of heroes and heroines. Heroes and heroines are defined as people whose qualities are admired by fellow members of a social group (Fowler,1980).

Literature Review

Young children have a difficult time expressing themselves verbally (Protherough, 1983; Smith, 1976). Art offers children an opportunity to create something with which they may identify (Carson, 1985). According to Goldberg (1992), artistic expression allows children to express what they know and what they understand in another medium. Britsch (1993) further stated that children use their drawings to tell a story.

In an effort to investigate multiple ways of knowing, Clyde (1994) entered a first grade classroom as a co-teacher instead of as a visitor. She found that, through artwork, one child was better able to express his thought and his knowledge on a particular subject. According to Clyde, "the more global nature of art provided a more compatible format for Douglas' ideas" (p. 28).

Through the incorporation of art and drawing into high school honors English classes, Claggett and Brown (1992) found that students were better able to make

meaning as they read and as they wrote. They stated that students were able to move from the visual to the verbal by talking about their drawings. Drawings enabled them to discover, develop, and confirm their own ideas and perceptions.

In conclusion, artwork allows younger and older students an avenue of self-expression. Through various media, children are able to express what they know. Later, this lends itself to the enhancement of verbal expression.

Methodology

Research Design

While the research method for this study was qualitative, the research design followed an interpretative approach. This design allowed for interviews and content analysis (Vierra & Pollock, 1988). According to Noblit and Hare (1988), “an interpretation enables the reader to translate the case studied into his or her own social understanding. Interpretive accounts, above all, provide a perspective and, in so doing, achieve the goal of enhancing human discourse” (p. 18). Merriam (1988) further stated that, because of the “thick description” (p. 28), interpretative case studies may actually illustrate or support theoretical assumptions.

Method

This study consisted of 17 kindergarten children from an elementary school in Calhoun County, Alabama. Children participated in a classroom discussion of heroes and heroines. Each child then drew a picture of his/her hero or heroine. The researcher analyzed the artwork of each child and determined the outstanding values represented by the hero or heroine. A parallel was then drawn between the values of heroes and heroines and this group of children's developing values.

Findings

The findings indicated that children are learning concepts, values, and behaviors from television. Fourteen of the children drew pictures of characters who were involved in violent behavior such as fighting. Three of the children identified, as heroes or heroines, role models with positive images and no evidences of negative behavior such as fighting. Refer to Table 1 for complete information.

Implications

Protherough (1983) contended that young children have a difficult time expressing themselves and what they know orally. The findings of this study are significant in that they suggest to the classroom teacher that children's artwork

offer many insights into children's development of moral values. Artwork may be used as a tool in the assessment of these developing values.

A significant finding was the influence of mass media on young children and their choice of a hero or heroine. This parallels the concerns of others in the role mass media plays in socializing young children into violence (American Psychological Association, 1993; Garbarino, 1992; Levin & Carlsson-Paige, 1995). According to Boyatzis (1997) and Huesmann (1994), the high status of role models or heroes is reason for us to be worried because the more a hero is rewarded for participating in an aggressive act, the more likely children will be to imitate the aggressive act.

Table 1

Children's Heroes and Heroines

HEROES & HEROINES	MALE	FEMALE
Aquaman	X	X
Babe	X	
Batman	X X X	
Cat Woman		X
George of the Jungle	X	
Hercules	X	X
Jake the Snake	X	
Momma	X	
Robin	X	
Superman	X X X	
Wonderwoman		X

Corporate Source: <i>Jacksonville State University</i>	Publication Date: <i>November 1999</i>

II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, *Resources in Education* (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic media, and sold through the ERIC Document Reproduction Service (EDRS). Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce and disseminate the identified document, please CHECK ONE of the following three options and sign at the bottom of the page.

The sample sticker shown below will be affixed to all Level 1 documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL HAS BEEN GRANTED BY

Sample

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

1

Level 1

Check here for Level 1 release, permitting reproduction and dissemination in microfiche or other ERIC archival media (e.g., electronic) and paper copy.

The sample sticker shown below will be affixed to all Level 2A documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL IN MICROFICHE, AND IN ELECTRONIC MEDIA FOR ERIC COLLECTION SUBSCRIBERS ONLY, HAS BEEN GRANTED BY

Sample

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

2A

Level 2A

Check here for Level 2A release, permitting reproduction and dissemination in microfiche and in electronic media for ERIC archival collection subscribers only

The sample sticker shown below will be affixed to all Level 2B documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL IN MICROFICHE ONLY HAS BEEN GRANTED BY

Sample

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

2B

Level 2B

Check here for Level 2B release, permitting reproduction and dissemination in microfiche only

Documents will be processed as indicated provided reproduction quality permits.
If permission to reproduce is granted, but no box is checked, documents will be processed at Level 1.

I hereby grant to the Educational Resources Information Center (ERIC) nonexclusive permission to reproduce and disseminate this document as indicated above. Reproduction from the ERIC microfiche or electronic media by persons other than ERIC employees and its system contractors requires permission from the copyright holder. Exception is made for non-profit reproduction by libraries and other service agencies to satisfy information needs of educators in response to discrete inquiries.
