ABSTRACT
         This document reports on Library Services and Technology Act
(LSTA) subgrant projects in Michigan for fiscal year (FY) 1998. The
introductory section includes: a description of AccessMichigan, the umbrella
online service that includes a collection of more than 67 commercial
databases, the SPAN (Serials, Periodicals and Newspapers) service, and the
Michigan Electronic Library; AccessMichigan statistics for FY 1997/98; a
state map of U.S. Congressional districts and list of representatives; and
the Library of Michigan's LSTA program goals. The first section of the report
lists LSTA subgrant awards in FY 1998 by Michigan Congressional districts and
includes comments from previous LSTA subgrant programs. In the second
section, LSTA competitive and noncompetitive subgrants awarded in FY 1998 are
listed by the following funding areas: advanced technology; basic library
technology; children in poverty; Internet access program; Internet training
center enhancement; major urban resource libraries; persons having difficulty
using a library; regional/subregional; and regions of cooperation. The
members of the LSTA 1998 Advisory Council are also listed. (MES)

Lansing, MI 48909-7507

April, 1999

Dear Members of Congress,

When the Library Services and Technology Act (LSTA) was enacted in 1996,
the nation's libraries began a new period of cooperation and improvement. In Michigan, new
federal support for libraries built on the accomplishments of previous years with federal
assistance, especially the progress made in bringing new computer technology into many of
the smallest, least-funded school and public libraries.

Federal funding and the new initiatives provided through LSTA significantly affected the
State of Michigan, as this first annual report for the new statute illustrates. The transition
has gone well and the new LSTA appears well-suited to Michigan's library needs.

LSTA funds established a statewide contract that provides public, school, hospital and
academic libraries with use of some of the nation's leading information and reference
databases, at no additional cost to the local library or to the end user. Some state funding has
been added to help expand this popular and successful service. Known as "AccessMichigan"
this service is available over the Internet to residents in all parts of Michigan.

Michigan's other statewide electronic services include the Michigan Electronic Library
(MEL), which continues to search out and organize reliable electronic information sources, and
a digital directory of many of the Serials, Periodicals and Newspapers (SPAN) available in the
state's libraries.
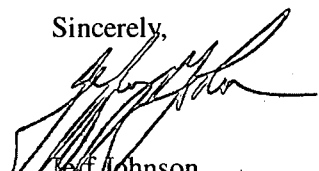

The federal goal to provide assistance to those having difficulty using a library including
citizens unable to read conventional print due to a disabling condition remains a high priority in
Michigan. LSTA funds are used to locate and help those who need additional specialized library
services, including children in poverty.

In the following report you will find details of these statewide services to libraries
and individuals, and a listing of individual subgrants made to libraries throughout Michigan.
LSTA's goals are reflected in these local services.

I hope you will be impressed with the hard work and ingenuity found in the subgrant
projects. The libraries of Michigan have become partners with Congress and the Institute of
Museum and Library Services through LSTA.

Many librarians and library trustees have asked that we convey their appreciation
for your interest and for the support shown to libraries through the Library Services and
Technology Act.

Sincerely,

Jeff Johnson
Deputy State Librarian

AccessMichigan

AccessMichigan is the umbrella on-line service that includes a collection of more than 67 commercial databases provided by Online Computer Library Center, Inc. (OCLC) First Search and the Gale Group InfoTrac. On-line reference books, full-text magazines, indices and abstracts are available to public and academic libraries, schools, hospitals and corporate information centers and the general public. In its first 6 months of operation more than 1 million "hits" were recorded and thousands of magazine and newspaper articles and other information were downloaded. In 1998 the list of over 600 full-text databases and indices to 1,200 journals was expanded with the addition of a consumer health database through the Gale Group InfoTrac.

The Serials, Periodicals and Newspapers (SPAN) service is a second area of AccessMichigan that is available to libraries and the general public throughout Michigan (*http://www.accessmichigan.lib.mi.us/span.htm*). SPAN offers a combined list of the names and dates of magazines, newspapers and other periodical information owned by over 900 libraries around Michigan. Internet access allows researchers to find titles in a single search, saving them many hours in detective work to track down these holdings. Once located, articles or magazines may be obtained through interlibrary loan or by electronic means from the nearest Michigan source.
AccessMichigan also offers the Michigan Electronic Library (*http://mel.org*), which provides one-stop access to over 20,000 useful sites on the World Wide Web. The sites are carefully selected and evaluated for reliability, timeliness and relevance by a cadre of skilled librarians. MEL provides well-organized, easy access to state and federal government information.

Through MEL, a researcher may locate information on nearly any topic imaginable. MEL is a collaborative project of the Library of Michigan, the University of Michigan and the Merit Network, Inc.

For more information, see http://www.accessmichigan.lib.mi.us.

Library of Michigan's LSTA Program Goals

Michigan's LSTA program seeks to assist Michigan libraries in developing service paradigms that incorporate new technologies and models of service, while continuing to meet the service needs of traditional library users, including special populations. The 1998 Library of Michigan LSTA program identifies four major goals that are designed to extend and improve library services by:

Goal I   Developing and funding LSTA programs in support of statewide access to the widest possible range of information for all residents of the state through all types of libraries.

Goal II   Increasing equity of information access by providing special assistance to areas of the state where library services are inadequate (underserved rural and urban communities), and to libraries that are working to provide service to persons having difficulty using a library.

Goal III   Supporting the continued development of information skills through continuing education on a collaborative basis statewide.

Goal IV   Fostering innovation and technical improvements in information services by funding leading edge projects in libraries that will serve as models and training centers.

Toward achievement of these goals, the Library of Michigan has awarded $4,527,609 in LSTA dollars for projects during this last year. Funding focused on bringing technology and the promise of the Internet to the state's libraries as well as to support services to special populations, such as the blind and physically handicapped and children who live in poverty.

LSTA Projects

Every library in the state is eligible to participate in the statewide project called AccessMichigan, which is funded in part by federal Library Services and Technology Act funds from the Institute of Museum and Library Services and by a grant from the State Legislature. This project brings the full text of over 1,200 magazines and newspapers, indexes and abstracts, reference books, telephone directories, and health information to public libraries, schools, and colleges via the World Wide Web, at no charge to libraries.

In addition to AccessMichigan, competitive and noncompetitive subgrants were awarded in fiscal year 1998 to the following libraries in your district to address special areas of need in library settings. Funding areas included Advanced Technology, Basic Library Technology, Children in Poverty, Internet Access, Internet Training Center Enhancements, Major Urban Resource Libraries, Persons Having Difficulty Using a Library, Regions of Cooperation, and Regional/Subregional Libraries.

LSTA subgrants awarded in fiscal year 1998 in support of services to this district: $285,485

Comments From Previous LSTA Subgrant Programs

"This project has not only allowed us to provide a much appreciated service to seniors in our area by giving them the skills needed to use the Internet, it has also provided a great deal of visibility for the library and strengthened our relationships with other agencies that work with seniors."
Otsego County Library, Gaylord

"This project (purchasing adaptive technologies) has attracted the most attention of any program Northland Library for the Blind and Physically Handicapped has offered in the past six years... with some patrons traveling over 100 miles round trip."
Northland Library for the Blind and Physically Handicapped, Alpena

"I've read all my life. Without this service I'd go crazy. It's the best government program out there. I couldn't exist without it."
Patron, Traverse Area District Library for the Blind and Physically Handicapped, Traverse City

"The impact of this project on the target audience has been tremendous. It has introduced a new service to young people in 8 public libraries and 5 branch libraries in the eastern Upper Peninsula of Michigan."
Hiawathaland Library Cooperative, Sault Ste. Marie.

"In Vanderbilt, this is the only free resource for the public and patrons to find out about computers and Internet technology. It is available for adults and students alike. This is a true community service that we provided and is appreciated by the public."
Vanderbilt Branch, Otsego County Library, Gaylord

"How wonderful that a small town has such an outstanding collection."
Patron, Indian River Area Library, Indian River

"I think the greatest long-term benefit of the Internet Access Program is that it brings people to the library. Of equal benefit is that our small library has access to information we would never be able to afford in printed materials."

Comments From Previous LSTA Subgrant Programs

"An educator in the Houghton Lake area has written two books and says it would not have been possible without access to resource sharing through interlibrary loan."
Mid-Michigan Library League Region of Cooperation, Cadillac

"Access for all is the greatest impact that this grant has accomplished for our rural library. We have scheduled Internet classes for adults, parent/child combinations, and school visits. Every day, new patrons ask for help using the Internet. Our library has collaborated extensively with homeschoolers, and the six schools in our district, which often want Internet and World Wide Web demonstrations."
Northeast Ottawa District Library, Coopersville

"The Children's Computer Center had an exciting impact on the children and families served. These youngsters, who often look for something to do after school, find the Center a satisfying place to visit for its interactive stories, creative learning activities and art projects."
Hackley Public Library, Muskegon

"Patrons have been delighted with the Internet access provided through this project. The Internet computer is in nearly continuous use when the library is open, and often has a waiting list, especially after school and during the summer. Access to the information provided on the Internet has been a tremendous help to many people."
Warner Baird District Library, Spring Lake

"Local college students have used the library more than ever as a means of free access to the Internet. Access for them means they no longer need to travel the 60 miles round-trip to the community college to use the computer lab."

Comments From Previous LSTA Subgrant Programs

"The funding of this project through the LSTA program was instrumental in allowing the Grand Rapids Public Library to extend Internet and electronic reference services to all our 7 locations."
Grand Rapids Public Library, Grand Rapids

"The main purpose of the subgrant was to benefit the general population with up-to-date and interesting information. It has given them the opportunity to gain knowledge, the ability to obtain the resources independently, continually promoting self reliance and hours of recreational satisfaction."
Grand Rapids Home for Veterans, Grand Rapids

"I just want to let you know how much I appreciate your access to the online periodical databases such as FirstSearch by Internet. It is good to see the library is on the cutting edge of serving the information needs of the community. Again, thanks for a job well done."
Patron, Grand Rapids Public Library, Grand Rapids
"Recently this library began the process of forming a district library and planning a new facility. Our efforts attracted a private donor who offered $500,000. I believe this offer came from a perception that this library is vital, current and responsive to the community. Having Internet Access is one aspect of our success."

"The new library has really been embraced by the community. It will serve a broad spectrum of people from birth to seniors where the old building couldn't."
From The St Johns Reminder 2/14/98
Briggs Library, St Johns

"Installing the network has greatly increased the resources in the branches, giving rural patrons the same access as those within the city."
Chippewa River District Library, Mt Pleasant

"I am pleased to have this service available. I use the Internet each week. I have used the Internet for information on campanies, services and general information. I think it is a wonderful opportunity for this community. I do not have a computer in my home."
Patron, Weidman Public Library Branch, Chippewa River District Library, Weidman

"We are no longer a small island with limited information. The Internet allows rural patrons to be just as connected as urbanites. We have used the Internet every day for reference searches with almost 100% success."
Harrison Community Library, Harrison

"The Internet has given our rural library seemingly unlimited research potential and has provided new opportunities for staff to assist patrons with their needs in many different areas."
Laingsburg Public Library, Laingsburg

"I am learning to make use of the unlimited supply of resources via the Internet that were not at my disposal before."
Patron, Flat River Community Library, Greenville

Born for Books

Positive Ways to Raise a Reader

Positive Ways to Raise a Reader

1. Read to your child every day. It is the sounds that are important and reassuring to your child.

2. Let your child see you read. This tells your child that reading is important. Keep books, magazines and newspapers in your home.

3. Attend storytime at your nearest public library. Let your child help choose his or her own books.

4. Get to know your librarian and ask for help choosing good books.

5. Encourage your child to select books for fun reading as well as educational reading.

6. Praise your child's efforts to begin reading. Be a good listener.

7. Give books as gifts. Let your child know that you think books are special.

8. Visit a good bookstore with your child to buy books for a home library. Children take pride in owning books and in hearing them read repeatedly.

"The new library is handicapped accessible, so patrons with disabilities can use the library. Twenty to 25 new residents per month are registering for a library card. Patrons have been heard to comment the following about the new library: 'it is so bright and airy in the library. 'There is such a spacious feeling in the library.' 'The library is able to display magazines like it was never able to do before.' 'This is quite an impressive library for a village of this size.' Private donations have increased since moving to the new library."
Lawton Public library, Lawton

"The benefits of an automated circulation system are numerous. First and foremost is the speed of access to information for our patrons."
Bridgman Public Library, Bridgman

"When library patrons began to see the updated collection of non-fiction (resulting from the federal grant), they began asking for and expecting that the library would do the same expansion in the fiction collection. Our solution was to apply for more grants from private and public foundations. We received over $10,000 from foundations to update our fiction collection."
Marcellus Township - Wood Memorial Library, Marcellus

"Thanks for my first Internet experience! Was lots of fun."
Patron, Benton Harbor Public Library, Benton Harbor

"Many patrons are now using the Internet for research, trip planning, leisure time, resources, checking weekly advertising, weather information, communicating via email and checking news stories on a regular basis. The Internet has brought people into the library who previously never used it."

LSTA Projects

Every library in the state is eligible to participate in the statewide project called AccessMichigan, which is funded in part by federal Library Services and Technology Act funds from the Institute of Museum and Library Services and by a grant from the State Legislature. This project brings the full text of over 1,200 magazines and newspapers, indexes and abstracts, reference books, telephone directories, and health information to public libraries, schools, and colleges via the World Wide Web, at no charge to libraries.

In addition to AccessMichigan, competitive and noncompetitive subgrants were awarded in fiscal year 1998 to the following libraries in your district to address special areas of need in library settings. Funding areas included Advanced Technology, Basic Library Technology, Children in Poverty, Internet Access, Internet Training Center Enhancements, Major Urban Resource Libraries, Persons Having Difficulty Using a Library, Regions of Cooperation, and Regional/Subregional Libraries.

Comments From Previous LSTA Subgrant Programs

"The Internet has provided our rural community access to technology and information previously not readily available in this area. We are proud to be a leader in providing this service."
Waldron District Library, Waldron

"The subgrant enabled the Region of Cooperation to mount its union serials database on the web, provided hands-on training and web browser software to schools and small rural public libraries, which helped to promote resource sharing."
Southern Michigan Region of Cooperation, Albion

"The Parent And Children Together (PACT) project has impacted its audience by increasing awareness of the library and its resources. Much of the adult programming associated with PACT has been to at-risk parents and non-users of the library."
Adrian Public Library, Adrian

Funded, in part, with a federal Library Services and Construction Act grant, administered by the Library of Michigan

"The presence of a computer with Internet access has allowed library patrons to obtain research information from the Internet that would not otherwise be available to them due to cost and space considerations, or because of the immediacy of the information not available in traditional modes."
Dorothy Hull Library, Windsor Township, Dimondale

"Late one Friday afternoon, a man came in requesting some information on employment in other states. I immediately set him up on the Internet. With a few directions and suggestions, he was able to research job availabilities in the state that he was interested in."
Mulliken District Library, Mulliken

"With the Internet Access Grant, we are now able to provide current information in a timely manner to our patrons.

"We expect that this project (especially with AccessMichigan) will make a significant impact on our patrons. Patrons are just beginning to realize the wonderful depth of material that is available on the Internet. Over and over we hear how excited patrons are to find the information they need so easily."
Capital Area District Library, Lansing

"Patrons are thrilled to have the new computer equipment and Internet access in the Youth Services Department. Comments made during interviews range from 'excellent, nice, it's great, had fun, I really like it, cool, neat, OK, faster than at home, loved it,' to 'I feel very fortunate to have access to this technology at the library.'"
Howell Carnegie District Library, Howell

"A number of patrons have expressed mild 'shock' at how quickly the library is now able to obtain requests from other libraries. With the e-mail notification system, one patron was waiting at the front door when we opened because she checked her e-mail at 8:00 a.m. and found her notice of a hold waiting at the library."
Dexter District Library, Dexter

"At least 30 percent of Internet users never used the library prior to learning about free Internet access at the Library."
Dexter District Library, Dexter

"Due to our Internet access we now provide rapid up-to-date information for our patron base. We no longer have to tell people 'Sorry we do not have that information.' Instead we can say 'Let me look that up on the World Wide Web for you.'"
Pinckney Community Public Library, Pinckney

LSCA Grant Brings Internet to Youth Services

Youth Services will have one computer dedicated to the Internet thanks to money from a federal LSCA (Library Services and Construction Act) grant. The grant provides funds to purchase a computer, furniture to house the computer, software, and Internet related books. A special Kids-page is being designed with help from Howell High School Students. The focus of the Kids-page will be for children three to ten years old and their parents. Special Internet classes are in the works. Check with Youth Services for dates, time and registration.

25

Comments From Previous LSTA Subgrant Programs

"We exceeded our expectation of participation by 200+ percent. An unanticipated impact of the project has been in providing basic Internet connectivity and email accounts to Lapeer County government employees participating in the project. This project has paved a direct line of access to Lapeer County Government information. Traditionally local government information is the most difficult public information to access. This project has created a gateway to public information that is easy to use, efficient and accessible."
Lapeer County Library, Lapeer

"The Orion Township Public Library is now able to provide a much-needed resource for the Orion community and is committed to see that it grows and evolves through the years as the community changes."
Orion Township Public Library, Lake Orion

Career Opportunities & Planning for Employment

The Career Opportunities and Planning for Employment (COPE) Center, located in the Main Branch of the Flint Public Library, should be at the top of your to do checklist if you're looking for a job, thinking about a career change, trying to decide which career best suits your interests and goals, or re-searching colleges and financial aid. The COPE Center resources include a wide variety of materials from newspaper want ads and the latest CD-Rom technology to websites on the Internet. Our trained staff stand ready to assist you.

JOB SEARCH INFORMATION
- Classified ads listing jobs in Ann Arbor, Flint, Detroit, Grand Rapids, Lansing and Saginaw – Plus ads from an additional 64 cities across the U.S.
- Local job announcement bulletins
- Videos on the job search process
- How-to manuals on interviewing techniques, writing resumes, and cover letters
- Job related newsletters including Federal Jobs Digest and National Business Employment Weekly
- Computerized resume writing assistance

HIGHER EDUCATION RESOURCES
- Catalogs from colleges and universities from across the nation
- Directories for technical schools and post graduate programs
- Test preparation manuals from the ACT, SAT, MCAT, and LSAT
- Up-to-date scholarship information

CAREER INFORMATION
- MOIS (Michigan Occupational Information System
- Civil Service exams
- Continuously updated career information in pamphlet form
- Information for changing careers or enhancing a career
- Job Bank directories for major U.S. cities
- Career evaluation and selection guides

"The biggest impact was on the children. There are more resources for them to choose from, in addition to the fact that the information is current, and the danger of out-dated information was decreased."
Redford Township District Library, Redford

The mother of a second grader who had played Mathblaster wrote, *"Since we don't have a computer at home, the library is essential in helping my kids learn."*
Patron, Highland Township Public Library, Highland

"The 'Electronic Rainbow' project had a dramatic impact on the target audience. Through the development of the project, area children and young adults were able to expand their knowledge of art, science, math and literature by utilizing age-appropriate software that not only teaches but entertains as well."
Milford Township Library, Milford

THE REDFORD TOWNSHIP DISTRICT LIBRARY RECEIVED LSCA GRANT IN 1997

The Library Services and Construction Act grant enabled the Redford District Library to improve Children's Services by providing $27,000 to purchase additional books for the children's non-fiction collection.

Many subject areas needed updated materials, and others were enhanced with books appropriate for the interest levels of pre-school through high school ages. With the LSCA grant, books have been added on the following subjects--and more:

animals, animals, animals
art
biographies
biomes and habitats
careers
computers
crafts
dinosaurs
diseases
environmental concerns

history
holidays
math

mythology
natural disasters
North American Natives
oceans
planets
poetry

"Our thanks to you, the entire staff of the Canton Public Library, and the administrators of the Library Services and Technology Act grant for the wonderful year of computer instruction and hands-on learning. In 1997 and 1998 over 100 older adults used a computer for the first time, learning new concepts and ways to access information and communicate across country. Without your assistance, this Internet instruction and opportunity to access the Internet would not have been possible."
Summit on the Park, Senior Program, Canton Public Library, Canton

"Besides thanking you again, I'd like to thank all the other people involved in making it possible for us to have such a good computer here at Canton Place for use by the residents."
Canton Place, Senior Center, Canton Public Library, Canton

"This project filled the need of providing a service to our patrons that is as similar as possible to service received by the non-handicapped."
Wayne County Library for the Blind and Physically Handicapped, Wayne
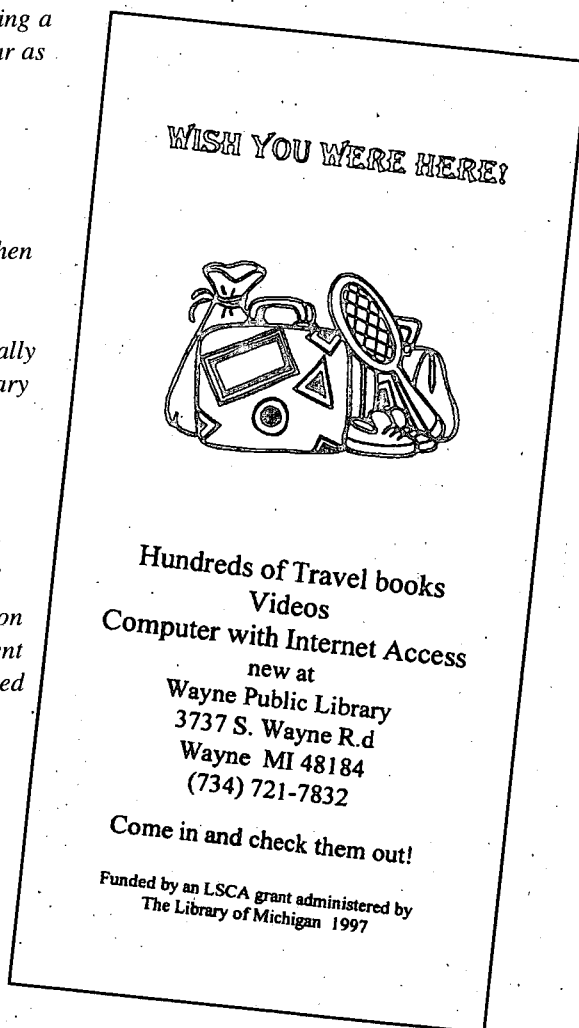

"The impact of this project is clear when one looks at the usage statistics of the public access machines. Growth has been steady, and we have been especially pleased to see the number of non-library card holders (i.e., mostly former non-library users) who have signed up specifically to use the Internet at the library, many on a repeat basis."
Ypsilanti District Library, Ypsilanti

"I'm writing to express my appreciation for the help my son received on a recent homework assignment. He was assigned a research project on a career. He chose a biomedical engineer. He was able to get good information from the Library's new career collection. The material available was extensive and informative. This was technical sub-ject matter and you provided him with sources that he could relate to at the 5th grade level."
Patron, Wayne Public Library, Wayne

Comments From Previous LSTA Subgrant Programs

"I am so grateful to have the opportunity to learn to use the computer and to click on the Internet at the Trenton Library. The introductory classes were very informative and gave me the confidence I needed to explore a new learning vehicle and e-mail."
Patron, Trenton Branch, Wayne County Library, Trenton

"This Community Information Center Development subgrant has allowed the Monroe County Library System to greatly expand its role as information provider within the community and establish MCLS as a community leader, not only in information, but also in building community partnerships with far reaching benefits to Monroe County."
Monroe County Library System, Monroe

"The Wyandotte Community Information Center is a permanent service that we offer to the people of Wyandotte and all Downriver. As it continues to grow, it will become an invaluable source of information that anyone with a computer can access at any time. We have had comments thanking us for making information, such as schedules of local events, available even when the library is closed."
Bacon Memorial District Library, Wyandotte

"Receiving the Internet Access Grant was just the spark that ignited our school. The placement of the hardware in January and turning on the Internet has had a very positive effect on the school community. It has caused an explosion for SMCC! We have been truly thrust into the technological age and are finding that it's an exciting place to be."
St Mary Catholic Central High School, Monroe
