 IDENTIFIERS *Montana; *Small School Districts

ABSTRACT

This report presents data on budgets, levies, enrollments, costs per pupil, and teacher salaries in Montana's smallest (Class "C") school districts for fiscal year 1999-2000. Survey responses were received from 78 of the 94 public schools and 2 of the 5 nonpublic schools in the Class C category. The range of Class C enrollments was 46-418 in elementary schools (average 106), 24-138 in high schools (average 62), and 46-368 in K-12 schools (average 137). Cost per pupil to the general fund budget without special education averaged \$4,479 in elementary schools, \$6,576 in high schools, and \$6,378 in K-12 districts. The pupil/teacher ratio averaged 12.1 in elementary schools, 8.3 in high schools, and 9.1 in K-12 districts. Teacher salaries averaged \$26,661. Data tables provide the following information for each responding school: (1) enrollment; (2) taxable valuation (total and per pupil); (3) general fund budget without special education (total and per pupil); (4) general fund reserve as percentage of general fund; (5) guaranteed tax base per mill; (6) over base budget and levy mills required; (7) special education budget and FTE personnel; (8) transportation budget and cost per pupil; (9) teacher salaries as percentage of total general fund; (10) teacher/enrollment ratio; (11) teacher salaries (base, average, and highest); and (13) wages and salaries for instructional aides, noncertified staff, and extra duty. Appendix includes individual school data on staff wages and extra duty payments. (Contains survey questionnaire.) (SV)

INTRODUCTION

This edition of the *Class C Survey Report* marks the nineteenth year of Class C school research by the Montana Rural Education Center. The data is based upon survey responses from 78 of the 94 public schools and two of the five nonpublic schools in the Class C category. This report reflects data from 81% of all Class C schools in Montana. The purpose of this survey is to provide Montana Class C school districts with information about how each compared to other schools of the same size category with regard to budgets, levies, and enrollment.

This is the ninth year that the Class C survey will be submitted to the ERIC Clearinghouse on Rural Education and Small Schools. Since the Center receives requests for copies of the survey form out-of-state researchers, the classification and size of school districts in the survey is important. The survey uses the Montana High School Association classification, which groups high schools according to enrollment for competitive activities. Class C indicates an enrollment of 130 high school students or less and is used to denote the smallest school districts in the state.

The largest Class C school responding this year is Rocky Boy with 418 average number belonging (ANB) in K-12; the smallest high school responding is Willow Creek with 24 ANB.

Based on the dozens of requests we get for this report, we are committed to continuing this annual project. The Center thanks those of you who filled out this year's survey, and extends a special thanks to those who complete the survey year after year. The survey is compiled and published as a service to the small schools of Montana by the Western Montana College Rural Education Center of The University of Montana. Many of you take the time to send comments and suggestions for revising the survey. Those comments are appreciated and incorporated, whenever possible. We also extend a special thanks to Teresa Reuter who compiled the data for this report.
