Australian vocational education and training statistics

Apprentices and trainees

March quarter

Highlights

There were 458 900 apprentices and trainees in-training as at 31 March 2011, an increase of 5.3% from the previous year.

In the 12 months to 31 March 2011, compared with the previous year:

- commencements increased by 11.5%, to 315 500
- completions increased by 4.8%, to 169 700
- cancellations and withdrawals increased by 8.7%, to 134 400.

For seasonally adjusted data, comparing the March quarter 2011 with the December quarter 2010:

- commencements in trades occupations decreased by 3.4%
- commencements in non-trades occupations remained stable
- completions remained stable
- cancellations and withdrawals increased by 0.9%
- in-training numbers increased by 0.5%.

Apprentice and trainee directions

Introduction

This publication presents estimates of apprentice and trainee activity in Australia for the March quarter 2011. The figures in this publication are derived from the National Apprentice and Trainee Collection no.68 (June 2011 estimates).

The most recent figures in this publication are estimated. (Those for training activity from the September quarter 2009 to the March quarter 2011.) Estimates take into account reporting lags that occur at the time of data collection. Consequently, the figures in this publication may differ from those published in earlier or later reports.

Estimated data are presented in this publication on a seasonally adjusted, quarterly and 12-month ending series basis. The 12-month ending series is particularly useful in showing longer-term data trends, but is less useful in identifying turning points.

The seasonally adjusted data involve the use of a mathematical model to smooth out fluctuations due to seasonal influences. Seasonally adjusted data are useful to illustrate trends from one quarter to the next, but cannot be further disaggregated.

Further details on the estimation methodology and seasonally adjusted data tables can be found at <http://www.ncver.edu.au/publications/2386.html>.

Overall trends

In-training

The number of apprentices and trainees in-training as at 31 March 2011 was 458 900, an increase of 5.3% from one year earlier.

For the 12 months ending 31 March 2011

Commencements

The number of commencements in the 12 months ending 31 March 2011 was 315 500, an increase of 11.5% from one year earlier.

Of this:

- trades commencements increased by 9.2%
- non-trades commencements increased by 12.4%.

State and territory commencements in the 12 months to 31 March 2011, compared with the previous year, showed:

- New South Wales (+9.3%)
- Western Australia (+13.6%) Tasmania (+8.4%)
- Victoria (+17.6%) Queensland (+10.2%)
- South Australia (+4.7%)
- Northern Territory (+4.0%)
- Australian Capital Territory (+0.2%)

Completions

The number of completions in the 12 months ending 31 March 2011 was 169 700, an increase of 4.8% from one year earlier.

Cancellations and withdrawals

The number of cancellations and withdrawals in the 12 months ending 31 March 2011 was 134 400, an increase of 8.7% from one year earlier.

Seasonally adjusted data

In-training

The number of apprentices and trainees in-training has increased in every guarter since June 2009. Between 31 December 2010 and 31 March 2011, the number intraining increased by 0.5%.

Commencements

The number of trades commencements has decreased by 3.4% between the December quarter 2010 and the March guarter 2011.

The number of non-trades commencements has increased in every guarter since March 2009 and December 2010, stabilising in the March guarter 2011.

Completions

The number of completions has increased in each guarter between March 2006 and December 2010, stabilising in the March quarter 2011.

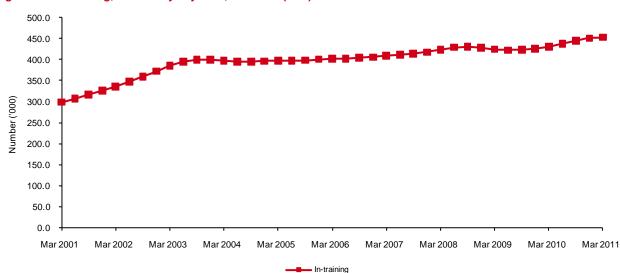

Cancellations and withdrawals

The number of cancellations and withdrawals has increased in every guarter since September 2009. Between the December guarter 2010 and the March guarter 2011, cancellations and withdrawals increased by 0.9%.

For more information on seasonally adjusted data, see the technical notes on page 19.

Additional seasonally adjusted data tables are available at <http://www.ncver.edu.au/publications/2386.html>.

> For more information on concepts and definitions used in this publication, see Terms listed on page 18.

Terms

Australian Qualifications Framework (AQF) is a national framework of credentials that covers qualifications from certificate I through to a doctoral degree. For more details on the AQF, go to http://www.aqf.edu.au.

Australian and New Zealand Standard Classification of Occupations (ANZSCO) is a classification of the occupation of individuals. The classification is based on the Australian Bureau of Statistics publication, *Australian and New Zealand Standard Classification of Occupations* (1st edition, ABS cat.no.1220.0).

Cancellations and withdrawals refers to apprentices and trainees whose contract of training has been terminated prior to a successful completion. Cancellation and withdrawal figures also include contracts which have been transferred, due to a change in employer. 'Transferred' is a new contract status which was historically reported as a cancellation or withdrawal.

Commencements refers to apprentices and trainees starting a program of training. The date of commencement is the date that an apprentice or trainee's contract of training is registered or approved under the provisions of the relevant state/territory legislation.

Completions refers to apprenticeship or traineeship contracts of training where all of the prescribed requirements have been met.

Contract status indicates the status of apprentice and trainee contracts of training, including the commencement, completion, and cancellation/withdrawal of contracts, and apprentices and trainees 'in-training'.

Existing workers refers to those apprentices and trainees who were employed by their current employer for more than three months full-time (or 12 months part-time/casual) prior to commencing their training contract.

Full-time apprentices or trainees are those whose ordinary hours of employment, including the training component, are at least the usual hours of employment for a full-time employee in that occupation.

Industry skills councils are organisations representing particular industries. For more information on industry skills councils, go to http://www.isc.org.au/. For more information on training packages developed by industry skills councils, go to http://www.training.gov.au.

In-training refers to apprentices and trainees who are actively training, at the end of each quarter, under the terms of their training contract, and who have not completed, cancelled, withdrawn or suspended their training, nor had their training contract expire without meeting all of the prescribed requirements of their program.

Non-trades refers to those apprentices and trainees employed in occupations outside the trades. 'Non-trades' includes all occupations listed under ANZSCO 1st edition, with the exception of major group 3 (Technicians and trades workers).

Part-time apprentices or trainees are defined as those whose ordinary hours of employment, including the training component, are less than full-time. Part-time provisions vary across Australia and across occupations, with 'part-time' defined by each state and territory.

Seasonal adjustment refers to a mathematical model used in time series data to smooth out fluctuations attributable to seasonal influences.

Trades refers to those apprentices and trainees employed in trades occupations under major group 3 (Technicians and trades workers) of ANZSCO 1st edition.

Training duration indicates the amount of time that an apprentice or trainee takes to complete their contract of training from the time of commencement.

Training packages are a set of nationally endorsed standards, guidelines and qualifications for training and for recognising and assessing skills. For more details on training packages, go to http://www.training.gov.au.

12-month ending series refers to the total number of commencements, completions and cancellations/withdrawals within a 12-month period (i.e. summing the current quarter with the previous three quarters).

Technical notes

Data source

Information included in this publication is, unless stated otherwise, derived from the National Apprentice and Trainee Collection, no.68, June 2011 estimates, which is compiled under the Australian Vocational Education and Training Management Information Statistical Standard (AVETMISS) for Apprentice and Trainee Collection Specifications, Release 6.0, March 2008.

Estimation procedure

This publication contains figures on apprentice and trainee activity (such as commencements, completions and in-training) based on the date of effect rather than the date of processing. Due to lags in processing, the most recent figures in this publication are estimated (for training activity from September quarter 2009 to March quarter 2011). The estimation method involves weighting recently processed numbers based on average reporting lags. Because estimates are revised for up to seven quarters, figures for the last two years may differ from those published in earlier or in subsequent reports. Further details on the methodology can be found at <hr/>
<hr/>

Seasonal adjustments

Seasonally adjusted data in this publication are derived from table 2 for in-training, table 4 for commencements, table 6 for completions and table 8 for cancellations and withdrawals. These data are adjusted using X-11-ARIMA methodology and then are 7-point Henderson-smoothed. The seasonally adjusted data used in figures 1–3 are available at <<u>http://www.ncver.edu.au/publications/2386.html</u>>.

Notes on figures and tables

Due to lags in processing numbers, recent quarter activity is estimated. Proportions (percentages) may be subject to error as they are based on a sample, not the total population. Figures in bold are actual numbers.

See <<u>http://www.ncver.edu.au/publications/2386.html</u>> for the standard errors on these estimates.

- 1 The data have been seasonally adjusted and smoothed. For further information please refer to the technical notes on page 19.
- 2 The cancellation and withdrawal figures are inclusive of the new contract status 'transferred', as contract transfers were historically reported as cancellations or withdrawals.
- 3 Non-trades are defined as all major occupations groups 1–2 and 4–8 (ANZSCO 1st edition). Trades are defined as all major group 3 (Technicians and trades workers) (ANZSCO 1st edition).
- 4 The data presented in figure 3 use ANZSCO. ANZSCO has now been back-cast by NCVER to 1994 for reporting purposes. For further information on the methodology, see http://www.ncver.edu.au/publications/2266.html.
- 5 Unknown data have not been reported, whereas the total includes all contracts, including those with unknown status. Hence, some figures may not sum to the total.
