### Comprehensive Approach to Education Reform

Page 2 of 12

#### State-reported information

**Question:** Describe the State's progress in implementing a comprehensive and coherent approach to education reform from the time of application through June 30, 2011. In particular, highlight key accomplishments over the reporting period in the four reform areas: standards and assessments, data systems to support instruction, great teachers and leaders, and turning around lowest-achieving schools. States are also encouraged to describe examples of LEAs' progress in the four reform areas.

### Tennessee's State-reported Progress in Comprehensive Education Reform

**State-reported response:** Tennessee's application for Race to the Top laid out an ambitious education reform agenda at all levels - from the state to the school district to the classroom. The state established equally ambitious goals for improving both teacher and leader effectiveness and student achievement. In the first year of implementation of the Tennessee First to the Top initiatives, the state made modest gains towards achieving those goals. From 2010 to 2011, overall student achievement in the two primary focus areas of the grant, 3rd grade reading and 7th grade math, increased by 2 percentage points and 7 percentage points respectively.

The implementation of Tennessee's reform agenda has been complex and not without its challenges, but the state has made significant progress in a number of key areas over the past year. Tennessee has made the most significant progress in the area of great teachers and leaders-specifically the development of a new teacher and principal evaluation system, recruitment initiatives, and strategic compensation plans. The state has also laid the groundwork for significant progress to come in the next year on standards and assessments, data systems, school turnaround and STEM, specifically through initial awareness training for the Common Core standards, planning for an early warning data system, establishing charter schools and a co-management process for the state's Achievement School District, and creating two new STEM platform schools. Local education agencies that are experiencing gains in student achievement are executing on First to the Top plans that support these initiatives and have a comprehensive focus on the state goals.

#### Standards and Assessments

Tennessee's primary focus for standards and assessments in the first year of implementation was to raise the level of awareness and understanding among educators about the Common Core standards and the relationship to the current Tennessee standards.

#### **Year One Accomplishments**

- State Board of Education adopted Common Core in July 2010
- 4,500 educators and administrators participated in Common Core awareness trainings and preparation for implementing Common Core in K-2 in summer 2011
- Alignment tools and pacing guides developed by TDOE staff and posted online to assist educators

- in the transition from current state standards to the Common Core
- Local education agencies have selected a representative who will be directing implementation efforts for that district
- Continued planning for phased implementation with full implementation by 2014-15 working with Achieve and the Education Delivery Institute

### **Data Systems**

Tennessee's First to the Top proposal sought to accomplish two objectives related to the wealth of data the state collects and makes available to educators, policymakers, and the public. First, the Tennessee Department of Education, Tennessee Higher Education Commission and other state agencies would work to expand the state's longitudinal data system through the collection and alignment of data across state agencies. Second, the Department of Education proposed to create data tools that would be useful to educators in changing instruction and improving teacher quality. The state has made steady progress towards both of these goals in Year One.

#### **Year One Accomplishments**

- P-20 Data System
  - Grant for implementation and oversight of system awarded to University of Tennessee Center for Business and Economic Research
  - Initial meetings among participating agencies resulted in agreement on basic system structure and detailed RFP including outline of implementation plan
  - RFP awarded and contract negotiations underway
- Early Warning Data System
  - Everyone Graduates Center issued a report for Tennessee on correlations between state specific data elements and persistence to graduation
  - Representatives from school districts participated in a focus group to review Everyone Graduates Center and other recommendations to help determine final elements for use
  - RFP awarded for development in July 2011
  - Beta testing in Fall 2011, piloting in Winter 2011-2012
- Expanded use of Tennessee Value Added Assessment System (TVAAS) data
  - Logins available to all Tennessee teachers
  - Data dashboard including a visual representation of likelihood for students to meet proficiency launched in all districts
  - 33 new learning modules developed and launched
  - Training for 150 higher education faculty on use of TVAAS system
  - Additional training for K-12 teachers and school leaders on system use through SAS Institute
  - Detailed trainings on use of value added data for instruction provided through Battelle for Kids

### **Great Teachers and Leaders**

The centerpiece of Tennessee's reform agenda is the identification, recruitment, retention and rewarding of effective teachers and school leaders. At the root of all of these activities is the development and use of the state's new evaluation system for teachers and leaders. The state has made significant progress on all of these areas and is implementing a new evaluation system including student achievement data in the 2011-2012 school year.

#### **Year One Accomplishments**

- Identification
  - Teacher and Principal evaluation system
    - Teacher Evaluation Advisory Committee met 22 times between March 2010 and April 2011 resulting in recommendations for a statewide policy adopted by the State Board of Education in April 2011
    - 8,400 teachers participated in field tests in 84 districts on four observation rubrics, TAP (statewide), TIGER (Association of Independent and Municipal Schools districts), IMPACT (Memphis) and COACH (Hamilton County)
    - State Board of Education approved state model including use of modified TAP instrument for observations and three alternate qualitative models for teacher evaluation in June 2011
    - Twelve teams of educators from non-tested subjects worked from October 2010 through Summer 2011 to issue recommendations on student growth measures in non-tested

subjects that will be implemented (3 areas) or piloted (9 areas) in 2011-2012

- Intensive 4-day summer training of administrators on TEAM, reaching a total of over 6,000 participants and a 96% pass rate on the certification exam
- Approval for year-one plans on principal evaluation, which includes assessment of a principal's implementation of the teacher evaluation system
- Tenure reform
  - Governor Haslam signed into law an overhaul to the state's tenure system that bases initial tenure upon educators achieving results in the top two tiers of the new evaluation system, lengthening the tenure window from three to five years and returning teachers who receive ratings in the lowest two tiers of the evaluation system for two years in a row to probationary status
- Recruitment
- UTeach
  - Approximately 150 students enrolled in Fall 2010 at UTeach programs at the University of Tennessee

### LEAs participating in Tennessee's Race to the Top plan

#### State-reported information

	Statewide (#)	Participating LEAs (#) as indicated in the application	Participating LEAs (#) as of June 30, 2011	Involved LEAs (#) as of June 30, 2011
LEAs	140	140	140	0
Schools	1,739	1,734	1,739	0
K-12 Students	958,635	931,634	958,635	0
Students in poverty	542,985	538,015	542,985	0
Teachers	62,653	63,765	62,653	0
Principals	3,344	1,736	3,344	0

[View Table Key](#)

**Question:** Provide a brief explanation of any change in the number of participating LEAs from figure provided in the application.

**State-reported response:** There is no change from the figure provided in the application.

#### Additional information provided by the State:

The numbers provided by Tennessee for the third column "Participating LEAs as of June 30, 2011" are in accordance with Tennessee's EdFacts submission (NO29-SCH, NO52-SCH, NO33-SCH) for SY 2010-2011. The number of schools was submitted to EdFacts on 6-21-11. The number of K-12 students was submitted to EdFacts on 5-24-11. The number of students in poverty was submitted to EdFacts on 4-4-11.

The numbers reported for teachers and principals are for the 2010-2011 school year according to the definitions of "teacher" and "principal" that align with Tennessee's new qualifying evaluation system.

In the original application only the number of classroom teachers was reported for (D)(4). The number reported above reflects the broader definition of "teacher," which includes school services personnel. The definition of "principal" and as a result the count of principals above has also been modified to include assistant principals. These changes in the definitions of "teachers" and "principals" resulted in the increased counts reported above.

Grade 11	38.5%	44.9%	N/A
Grade 12	31.5%	29.5%	N/A
Grades 3 to 8	44.6%	48.7%	94%
Grades 9 to 12	58.9%	58.1%	97%
<a href="#">View Table Key</a>			

#### Additional information provided by the State:

2009–2010 English language arts assessment results, as well as the 2010–2011 results, differ from the targets in Tennessee's approved plan as the state transitioned to the Tennessee Diploma Project standards which aligned with the American Diploma Project network in the 2009–2010 school year. The state is in the process of submitting an amendment with revised targets to reflect this change in standards.

Math and English Language Arts proficiency is measured through the Tennessee Comprehensive Assessment Program. Math proficiency in grades 9–12 is generated by the Algebra I End of Course Assessment typically taken in 9th grade.

English Language Arts proficiency in grades 9-12 is generated by the English II End of Course Assessment typically taken in 10th grade.

Close

**NOTE:** Over the past three years, the Department has transitioned from five to seven racial and ethnic groups used for reporting data, including English language arts and mathematics proficiency results. Therefore, racial and ethnic data reported for SY 2009-2010 may not be directly comparable to racial and ethnic data reported for SY 2010-2011.

Tennessee did not provide targets for each subgroup by grade in the State's approved plan. Tennessee did provide targets for grade span, grades 3 to 8 and grades 9 to 12. Please see the supporting files section to access this data.

## Mathematics assessment results

*Over the past three years, the Department has transitioned from five to seven racial and ethnic groups used for reporting data, including English language arts and mathematics proficiency results. Therefore, racial and ethnic data reported for SY 2009-2010 may not be directly comparable to racial and ethnic data reported for SY 2010-2011.*

*Tennessee did not provide targets for each subgroup by grade in the State's approved plan. Tennessee did provide targets for grade span, grades 3 to 8 and grades 9 to 12, as seen below.*

## Grades 9 to 12 Proficiency on Tennessee's Mathematics Assessment SY 2010-2011

<n Indicates that data has been suppressed because of a small count.

-- Indicates that data are not available.

N/A Indicates not applicable, e.g., the State did not specify a target in its approved plan, or the element is not applicable this year.

### NAEP reading results

#### Department-reported information

**NOTE:** NAEP is administered once every two years. The two most recent years are SY 2008-2009 and SY 2010-2011. NAEP reading results are provided by the Department of Education's Institute of Education Sciences. To learn more about the NAEP data, please visit <http://nces.ed.gov/nationsreportcard/>.

Tennessee's approved Race to the Top plan included targets for NAEP results based on percentages, not based on students' average scale scores.

[View Table \(Accessible\)](#)

**NOTE:**

**Percentages:**

The percentage of Tennessee's grade 4 students who were at or above Proficient in reading in 2011 was not significantly different than in 2009.

The percentage of Tennessee's grade 8 students who were at or above Proficient in reading in 2011 was not significantly different than in 2009.

**Scale Score:**

Tennessee's grade 4 reading score was not significantly different in 2011 than in 2009.

Tennessee's grade 8 reading score was not significantly different in 2011 than in 2009.

### Results in closing the achievement gap on Tennessee's ELA assessment

State-reported information

Preliminary SY 2010-2011 data reported as of: October 7, 2011

**NOTE:** Numbers in the graph represent the gap in a school year between two subgroups on the State's ELA assessment.

Achievement gaps were calculated by subtracting the percent of students scoring proficient in the lower-performing subgroup from the percent of students scoring proficient in the higher-performing subgroup to get the percentage point difference between the proficiency of the two subgroups.

If the achievement gap narrowed between two subgroups, the line will slope downward. If the achievement gap increased between two subgroups, the line will slope upward.

### Achievement Gap on Tennessee's ELA Assessment SY 2010-2011

[View Table \(Accessible\)](#)

**NOTE:** To better view a specific achievement gap measure in the graph, click a name in the legend to hide that line. Click on the name in the legend again to have the line reappear in the graph.

Achievement gap as measured by percentage point difference on Tennessee's ELA assessment SY 2010-2011. Preliminary data. Preliminary data reported as of October 7, 2011	Baseline: SY 2009-2010	Actual: SY 2010-2011	Target from Tennessee's approved plan: SY 2010-2011
White/Black gap	27.3	28.3	N/A
White/Hispanic gap	20.5	20.9	N/A
Children without Disabilities/ Children with Disabilities gap	26.3	13.2	N/A
Not Limited English Proficient/ Limited English Proficient gap	38.8	40.6	N/A
Not Low Income/ Low Income gap	31.6	30.9	N/A
Female/ Male gap	8.6	7.6	N/A

[View Table Key](#)

#### Additional information provided by the State:

2009-2010 English language arts assessment results, as well as the 2010-2011 results, differ from the targets in Tennessee's approved plan as the state transitioned to the Tennessee Diploma Project standards which aligned with the American Diploma Project network in the 2009-2010 school year. The state is in the process of submitting an amendment with revised targets to reflect this change in standards.

Math and English Language Arts proficiency is measured through the Tennessee Comprehensive Assessment Program. Math proficiency in grades 9-12 is generated by the Algebra I End of Course Assessment typically taken in 9th grade. English Language Arts proficiency in grades 9-12 is generated by the English II End of Course Assessment typically taken in 10th grade.

"Proficiency" includes all students scoring proficient or advanced.

## Results in closing the achievement gap on NAEP reading

Department-reported information

**NOTE:** NAEP is administered once every two years. The two most recent years are SY 2008-2009 and SY 2010-2011.

Tennessee's NAEP reading results as provided by the Department of Education's Institute of Education Sciences. To learn more about the NAEP data, please visit <http://nces.ed.gov/nationsreportcard/>.

Numbers in the graph represent the gap in a school year between two subgroups on NAEP reading.

Achievement gaps were calculated by subtracting the percent of students scoring proficient or advanced in the lower-performing subgroup from the percent of students scoring proficient or advanced in the higher-performing subgroup to get the percentage point difference between the proficiency of the two subgroups.

If the achievement gap narrowed between two subgroups, the line will slope downward. If the achievement gap increased between two subgroups, the line will slope upward.

[View Table \(Accessible\)](#)

Preliminary high school graduation rates reported as of October 7, 2011	Baseline: SY 2008-2009	Actual: SY 2009-2010	Target from Tennessee's approved plan: SY 2009-2010
All Students	82.2%	88.7%	78.7%
View Table Key			

#### Additional information provided by the State:

For the 2009-2010 graduating class, Tennessee will use the National Governor's Association (NGA) rate. For 2010-2011, Tennessee will use the US DOE mandated 4-year cohort rate. Tennessee expects, based on test calculations of the NGA rate, the Graduation Rate will decrease in 2009-2010. In the following year, Tennessee expects the rate to remain at a similar rate or possibly decrease slightly when using the US DOE 4-year cohort rate.

## College enrollment rates

### State-reported information

Preliminary SY 2009-2010 data reported as of: **October 7, 2011**

**NOTE:** The Department provided guidance to States regarding the reporting period for college enrollment. For example, for SY 2009-2010, a State would report on the students who graduated from high school in SY 2007-2008 and enrolled in an institution of higher education (IHE) within 16 months of graduation.

Tennessee provided college enrollment data reported by the Tennessee Independent Colleges and Universities Association and the National Student Clearinghouse. College enrollment data generated by the Tennessee Independent Colleges and Universities Association is displayed below. Please see the supporting files section to access data provided by the National Student Clearinghouse.

[View Table \(Accessible\)](#)

Preliminary college enrollment rates reported as of October 7, 2011	Baseline: SY 2009-2010	Actual: SY 2010-2011	Target from Tennessee's approved plan: SY 2010-2011
<b>All Students</b>	53.6%	54.2%	54%

**Additional information provided by the State:**

\*The data reported above includes enrollment figures from Tennessee's public higher education institutions as well as from institutions in the Tennessee Independent Colleges and Universities Association (TICUA). TICUA member institutions include the following colleges and universities: Aquinas College, Baptist College of Health Sciences, Belmont University, Bethel University, Bryan College, Carson-Newman College, Christian Brothers University, Cumberland University, Fisk University, Free Will Baptist Bible College, Freed-Hardeman University, Johnson University, King College, Lane College, Lee University, LeMoyne-Owen College, Lincoln Memorial University, Lipscomb University, Martin Methodist College, Maryville College, Meharry Medical College, Memphis College of Art, Middle Tennessee School of Anesthesia, Milligan College, Rhodes College, Sewanee: The University of the South, Southern Adventist University, Southern College of Optometry, Tennessee Wesleyan College, Trevecca Nazarene University, Tusculum College, Union University, Vanderbilt University, Watkins College of Art, Design & Film.

\*\*2009-2010 enrollment years represent the number of high school graduates from 2007-2008 who are enrolling within 16 months. The 2010-2011 enrollment years represent the number of high school graduates from 2008-2009 who are enrolling within 16 months.

Tennessee public institution and TICUA enrollment data reports on the number of first time freshman from a particular high school graduating class who enroll in a Tennessee institution of higher education within 16 months. This data is able to track the exact semester of enrollment, making the Tennessee public institution and TICUA enrollment data comparable

### Supporting the transition to college and career-ready standards and high-quality assessments

State-reported information

**NOTE:** The Department does not expect States to begin implementing such assessments until school year 2014-2015.

**Question:** Has the State implemented any common, high-quality assessments aligned to college and career-ready standards in SY 2010-2011? If so, please indicate what assessment and for which grades.

State-reported response: No

#### Additional information provided by the State:

Tennessee is participating in the Partnership for Assessment of Readiness for College and Careers (PARCC), a 24-state consortium working together to develop next-generation K-12 assessments in English and math. These new K-12 assessments will build a pathway to college and career readiness by the end of high school, mark students' progress toward this goal from 3rd grade up, and provide teachers with timely information to inform instruction and provide student support. The PARCC assessments will be ready for states to administer during the 2014-15 school year.

Percentage of teachers in participating LEAs with qualifying evaluation systems whose evaluations were used to inform tenure decisions in the prior academic year	N/A	N/A	N/A	N/A	N/A	N/A
Percentage of teachers and principals in participating LEAs who were removed for being ineffective in the prior academic year	N/A	N/A	N/A	N/A	N/A	N/A
<a href="#">View Table Key</a>						

#### Additional information provided by the State:

Tennessee's principal and teacher evaluation system (which will meet the criteria of a "qualifying evaluation system") will be implemented in all 140 participating LEAs during the 2011-2012 school year. Planning, development, and training took place during the 2010-2011 school year.

[Back to the Top](#)

### Ensuring equitable distribution of effective teachers and principals

#### State-reported information

**NOTE:** Based on States' approved Race to the Top plans, the Department does not expect the grantee States will implement qualifying evaluation systems prior to SY 2011-2012

Performance measure	Baseline: SY 2009-2010	Actual: SY 2010-2011	Target from Tennessee's approved plan: SY 2010-2011
Percentage of teachers in schools that are high-poverty, high-minority, or both (as defined in this notice) who are highly effective (as defined in the application)	0%	N/A	N/A
Percentage of teachers in schools that are low-poverty, low-minority, or both (as defined in the application) who are highly effective (as defined in the application)	N/A	N/A	N/A
Percentage of teachers in schools that are high-poverty, high-minority, or both (as defined in the application) who are effective or better (as defined in the application)	N/A	N/A	N/A
Percentage of teachers in schools that are low-poverty, low-minority, or both (as defined in the application) who are effective or better (as defined in the application)	0%	N/A	N/A
Percentage of teachers in schools that are high-poverty, high-minority, or both (as defined in the application) who are ineffective	0%	N/A	N/A
Percentage of teachers in schools that are low-poverty, low-minority, or both (as defined in the application) who are ineffective	0%	N/A	N/A
Percentage of principals in schools that are high-poverty, high-minority, or both (as defined in the application) who are highly effective (as defined in the application)	0%	N/A	N/A
Percentage of principals in schools that are low-poverty, low-minority or both (as defined in the application) who are highly effective (as defined in the application)	0%	N/A	N/A
Percentage of principals in schools that are high-poverty, high-minority, or both (as defined in the application) who are effective or better (as defined in the application)	N/A	N/A	N/A

Percentage of principals in schools that are <b>low-poverty</b> , <b>low-minority</b> , or both (as defined in the application) who are <b>effective</b> or better (as defined in the application)	N/A	N/A	N/A
Percentage of principals in schools that are <b>high-poverty</b> , <b>high-minority</b> , or both (as defined in the application) who are <b>ineffective</b>	0%	N/A	N/A
Percentage of principals in schools that are <b>low-poverty</b> , <b>low-minority</b> , or both (as defined in the application) who are <b>ineffective</b>	0%	N/A	N/A
Percentage of mathematics teachers who were evaluated as <b>effective</b> or better	0%	N/A	N/A
Percentage of science teachers who were evaluated as <b>effective</b> or better	0%	N/A	N/A
Percentage of special education teachers who were evaluated as <b>effective</b> or better	0%	N/A	N/A
Percentage of teachers in language instructional programs who were evaluated as <b>effective</b> or better	0%	N/A	N/A

[View Table Key](#)

Term	State's Definition
<b>Mathematics teachers</b>	"Mathematics teachers" are defined as those K-12 teachers who either have a K-8 endorsement or a math endorsement and teach at least one math course.
<b>Science teachers</b>	"Science teachers" are defined as those K-12 teachers who either have a K-8 endorsement or a science endorsement and teach at least one science course.
<b>Special education teachers</b>	"Special education teachers" are defined as K-12 teachers who teach at least one class for students with disabilities ages 3-21+.
<b>Teachers in language instruction educational programs</b>	"Teachers in language instruction educational programs" are defined as teachers who teach at least one class of English as a Second Language.

#### Improving the effectiveness of teacher and principal preparation programs

State-reported information

Percentage of Teacher Preparation Programs for which the Public can Access Data on Achievement and Growth of the Graduates' Students

[View Table \(Accessible\)](#)

Performance measure	Baseline: SY 2009-2010	Actual: SY 2010-2011	Target from Tennessee's approved plan: SY 2010-2011
Number of teacher preparation programs in the State for which the public can access data on the <a href="#">achievement</a> and <a href="#">growth</a> (as defined in the Race to the Top application) of the graduates' students	N/A	43	N/A
Number of principal preparation programs in the State for which the public can access data on the <a href="#">achievement</a> and <a href="#">growth</a> (as defined in the Race to the Top application) of the graduates' students	N/A	0	N/A
Total number of teacher preparation programs in the State	39	43	N/A
Total number of principal preparation programs in the State	20	20	N/A
Percentage of teacher preparation programs in the State for which the public can access data on the <a href="#">achievement</a> and <a href="#">growth</a> (as defined in the Race to the Top application) of the graduates' students	100	100	100
Percentage of principal preparation programs in the State for which the public can access data on the <a href="#">achievement</a> and <a href="#">growth</a> (as defined in the Race to the Top application) of the graduates' students	0	0	0
Number of teachers prepared by each credentialing program in the State for which the information (as described in the criterion) is publicly reported	N/A	3,784	N/A
Number of principals prepared by each credentialing program in the State for which the information (as described in the criterion) is publicly reported	N/A	0	N/A
Number of teachers in the State whose data are aggregated to produce publicly available reports on the State's credentialing programs	N/A	1,513	N/A
Number of principals in the State whose data are aggregated to produce publicly available reports on the State's credentialing programs	N/A	0	N/A
<a href="#">View Table Key</a>			

#### Additional information provided by the State:

Please note that targets in this section relate to the school year in which the public can access data on the achievement and growth of teacher preparation program graduates' students, not the school year from which the data are reported. The data that was publicly accessible at the end of school year 2010-2011 is data reported from the 2009-2010 school year. Data for the 2010-2011 will be publicly accessible in November 2011.

The number of teacher and principal programs indicated in rows 3 and 4 represent the number of programs for the 2010-2011 school year.

The 1513 figure given for "number of teachers in the State whose data are aggregated to produce publicly available reports on the State's credentialing programs" is an estimate based on the number of in-service teachers with TVAAS data, approximately 40%. This number is only an estimate as there is potential for duplicated data with teachers teaching in multiple subject areas. The number of teachers prepared by each credentialing program in the State for which the information is publicly reported will likely expand as Tennessee is able to use evaluation data for those teachers without TVAAS scores.

[Back to the Top](#)

#### Changes to Tennessee's legal, statutory, or regulatory authority to intervene in Tennessee's persistently lowest-achieving schools and in LEAs that are in improvement or corrective action status

##### State-reported information

**Question:** Report any changes, from the time of application through June 30, 2011, in the State's legal, statutory, or regulatory authority to intervene in the State's [persistently lowest-achieving schools](#) and in LEAs that are in improvement or corrective action status.

**State-reported response:** The only change was the passage of Chapter 466 of the Public Acts of 2011 passed on May 20, 2011 which gave the Achievement School District (ASD) the authority to authorize charter schools. The law now states that the ASD may authorize charter schools within the jurisdiction of the LEA for the purpose of providing opportunities for students within the LEA who are zoned to attend or enrolled in a school that is eligible to be placed in the achievement school district.

## Education Funding and Charter Schools

Page 9 of 12

**Making education funding a priority**

**Ensuring successful conditions for high-performing charter schools and other innovative schools**

Collapse All

### Making education funding a priority

#### State-reported information

**Question:** Describe in narrative form any changes from the time of application through June 30, 2011, to State policies that relate to equitable funding (a) between [high-need LEAs](#) and other LEAs, and (b) within LEAs, between [high-poverty schools](#) and other schools.

**State-reported response:** No changes have been made.

[Back to the Top](#)

### Ensuring successful conditions for high-performing charter schools and other innovative schools

#### State-reported information

**Question:** Describe in narrative form any changes, from the time of application through June 30, 2011, in the extent to which the State has a charter school law that does not prohibit or effectively inhibit increasing the number of [high-performing charter schools](#) in the State, measured by the percentage of total schools in the State that are allowed to be charter schools or otherwise restrict student enrollment in charter schools.

**State-reported response:** 2011 Public Chapter 466 removed both the student eligibility limitations on charter schools and the statewide and local caps on the numbers of charter schools. Now, any student may attend a public charter school, and there is no cap on the number of charter schools that may be authorized across the State.

**Question:** Describe in narrative form any changes, from the time of application through June 30, 2011, in the extent to which the State has laws, statutes, regulations, or guidelines regarding how charter school authorizers approve, monitor, hold accountable, reauthorize, and close charter schools; in particular, whether authorizers require that [student achievement](#) be one significant factor, among others, in authorization or renewal; encourage charter schools that serve student populations that are similar to local district student populations, especially relative to [high-need students](#) and have closed or not renewed ineffective charter schools.

**State-reported response:** Tennessee law has always required public charter schools to be measured against the same academic achievement measures as other public schools. Tennessee law has always made revocation based on student academic achievement a significant and perhaps the most significant reason for revocation or non-renewal, since revocation based on failure to make adequate yearly progress for two consecutive years may not be appealed. T.C.A. 49-13-122.

Though charter school student eligibility based on academic achievement of students or schools was eliminated in 2011 Public Chapter 466, district authorizers are still required to give preference to applications that demonstrate the potential to meet the needs of high-need students. Charters authorized in the Achievement School District may only serve students zoned to the State's lowest performing schools.

[Close](#)

**Question:** Describe in narrative form any changes, from the time of application through June 30, 2011, in the extent to which the State's charter schools receive equitable funding compared to traditional public schools, and a commensurate share of local, State, and Federal revenues.

**State-reported response:** No changes in the law in this area. Tennessee law has always required authorizers to pass through 100% of the State and local revenues generated for students under the Basic Education Program (BEP). Federal revenues also flow through to public charter schools as they do to any other public schools.

**Question:** Describe in narrative form any changes, from the time of application through June 30, 2011, in the extent to which the State provides charter schools with funding for facilities (for leasing facilities, purchasing facilities, or making tenant improvements), assistance with facilities acquisition, access to public facilities, the ability to share in bonds and mill levies, or other supports; and the extent to which the State does not impose any facility-related requirements on charter schools that are stricter than those applied to traditional public schools.

**State-reported response:** Tennessee law provides the capital outlay portion of the BEP to public charter schools. Tennessee law also allows public charter schools to be part of a district's bond offering or apply for their own bond offerings to the local bonding authority. The only change to the laws in this area, in 2011 Public Chapter 465, was a requirement that districts catalog vacant or underutilized space annually and make that space available to charter schools through leases or lease-purchase agreements.

[Close](#)

**Question:** Describe in narrative form any changes, from the time of application through June 30, 2011, in the extent to which the State enables LEAs to operate [innovative](#), [autonomous public schools](#) other than charter schools.

**State-reported response:** No changes have been made.

## Progress Updates on Invitational Priorities

Page 11 of 12

- Innovations for improving early learning outcomes (Optional)
- Expansion and adaption of statewide longitudinal data systems (Optional)
- P-20 coordination, vertical and horizontal alignment (Optional)
- School-level conditions for reform, innovation, and learning (Optional)
- Additional optional performance measures (Optional)

Collapse All

### Innovations for improving early learning outcomes (Optional)

State-reported information

**NOTE:** Reporting in this section is optional.

**Question:** Describe the State's progress in implementing, consistent with its approved application, practices, strategies, or programs to improve educational outcomes for high-need students who are young children (pre-kindergarten through third grade) by enhancing the quality of preschool programs. Describe the State's progress specifically in implementing practices that (i) improve school readiness (including social, emotional, and cognitive); and (ii) improve the transition between preschool and kindergarten.

**State-reported response:** No response provided.

[Back to the Top](#)

### Expansion and adaption of statewide longitudinal data systems (Optional)

State-reported information

**NOTE:** Reporting in this section is optional.

**Question:** Describe the State's progress expanding, consistent with its approved application, statewide longitudinal data systems to include or integrate data from special education programs, English language learner programs, early childhood programs, at-risk and dropout prevention programs, and school climate and culture programs, as well as information on student mobility, human resources (i.e., information on teachers, principals, and other staff), school finance, student health, postsecondary education, and other relevant areas, with the purpose of connecting and coordinating all parts of the system to allow important questions related to policy, practice, or overall effectiveness to be asked, answered, and incorporated into effective continuous improvement practices. In addition, describe the State's progress in working together with other States to adapt one State's statewide longitudinal data system so that it may be used, in whole or in part, by one or more other States, rather than having each State build or continue building such systems independently."

**State-reported response:** No response provided.

[Back to the Top](#)

## P-20 coordination, vertical and horizontal alignment (Optional)

### State-reported information

**NOTE:** Reporting in this section is optional.

**Question:** Describe the State's progress addressing, consistent with the approved application, how early childhood programs, K-12 schools, postsecondary institutions, workforce development organizations, and other State agencies and community partners (e.g., child welfare, juvenile justice, and criminal justice agencies) will coordinate to improve all parts of the education system and create a more seamless preschool-through-graduate school (P-20) route for students. Vertical alignment across P-20 is particularly critical at each point where a transition occurs (e.g., between early childhood and K-12, or between K-12 and postsecondary/careers) to ensure that students exiting one level are prepared for success, without remediation, in the next. Horizontal alignment, that is, coordination of services across schools, State agencies, and community partners, is also important in ensuring that [high-need students](#) (as defined in the Race to the Top application) have access to the broad array of opportunities and services they need and that are beyond the capacity of a school itself to provide.

**State-reported response:** No response provided.

[Back to the Top](#)

## School-level conditions for reform, innovation, and learning (Optional)

### State-reported information

**NOTE:** Reporting in this section is optional.

**Question:** Describe progress consistent with the State's approved application, of participating LEAs creating the conditions for reform and innovation as well as the conditions for learning by providing schools with flexibility and autonomy in such areas as—

- (i) Selecting staff;
- (ii) Implementing new structures and formats for the school day or year that result in [increased learning time](#) (as defined in the Race to the Top application);
- (iii) Controlling the school's budget;
- (iv) Awarding credit to students based on student performance instead of instructional time;
- (v) Providing comprehensive services to [high-need students](#) (as defined in the Race to the Top application) (e.g., by mentors and other caring adults; through local partnerships with community-based organizations, nonprofit organizations, and other providers);
- (vi) Creating school climates and cultures that remove obstacles to, and actively support, student engagement and achievement; and
- (vii) Implementing strategies to effectively engage families and communities in supporting the academic success of their students.

**State-reported response:** No response provided.

[Back to the Top](#)

### Obligations (Optional)

State-reported information

**NOTE:** Reporting in this section is optional.

**Question:** To provide additional context for the spending activity on the Race to the Top grant, grantees may include additional budgetary information, such as figures for funds obligated in addition to funds expended or descriptive text.

**State-reported response:** The attached spreadsheet shows obligations currently incurred by Tennessee for the state's Race to the Top grant for Years 1-4 through grants and contracts. As of June 30, 2011, the state had expended a total of \$50,595,121 (\$49 million in grants and contracts including LEA expenditures) and obligated an additional \$49,942,116 for Year 1 in grants and contracts. Of the \$49 million in obligations outstanding for Year 1, LEA scopes of work account for \$32.3 million. The remaining \$17.5 million is obligated through grants or contracts from state agencies and has not yet been invoiced by contractors.

Of the total \$120.3 million allocated in Tennessee's Year 1 budget, the state has expended or obligated \$112.5 million or

[View Table Key](#)[View Table Key](#)**Additional information provided by the State for project: SITES M**

The vendor had not submitted expenditures as of June 30, 2011. A complete list of contract obligations for Year 1 is available in the accompanying obligations document.

**Additional information provided by the State for project: Leadership Action Tank**

Governor Haslam has identified school leadership as one of his primary education reform agenda items and he and his staff would like to have additional input into the setup of the Leadership Action Tank. However, given the transition and the intensity of the Governor's first legislative session, it has taken some time for the administration to reengage on the development of their strategy and intended policies regarding leadership. Commissioner Huffman has also made school leadership a top priority of the Department and he would like to have the opportunity to work with the Governor to provide input into the process of developing this project.

As a result, a previously prepared RFP for the Leadership Action Tank has been put on hold in the Office of Contract Review to allow time for the Commissioner and Governor to align around a strategy for implementation. While the timeline for implementation is delayed, the intent behind the Leadership Action Tank remains and we expect that it will still be carried out once the Governor and Commissioner outline a strategy. We expect that the Leadership Action Tank, once developed, will still serve as a principal effectiveness laboratory, as described in the original application. Once a revised strategy has been developed (expected after the Commissioner's strategic plan is complete and likely in mid-to late-fall), we will submit a revised, more detailed amendment in plan and budget to the U.S. Department of Education.

#### Additional information provided by the State for project: STEM Platform Schools

\$2,000,000 in grants have been awarded to LEAs in Year 1.

[Back to the Top](#)

< n	indicates data has been suppressed because of a small count or, for NAEP data, indicates reporting standards not met; sample size insufficient to permit a reliable estimate.
- -	indicates data are not provided.
N/A	indicates not applicable (e.g., the State did not specify a target in its approved plan, or the element is not applicable this year).
