

**MEMORANDUM**

October 28, 2021

TO: Khalilah Campbell, Ed.D.  
Officer, Special Populations

FROM: Allison E. Matney, Ed.D.  
Executive Officer, Research and Accountability

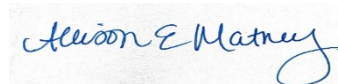

SUBJECT: **SUMMER SCHOOL EDUCATION PROGRAM, 2020–2021**

Each year, the Houston Independent School District (HISD) offers a summer education program designed to assist students with a variety of instructional needs. In 2021, centrally coordinated summer school programs included accelerated instruction for State of Texas Assessments of Academic Readiness (STAAR) and STAAR End-of-Course (EOC) re-testers; bilingual or English as Second Language (ESL) classes for English Learners (ELs); credit accrual/recovery for students needing to graduate; Extended School Year (ESY) services; Promotion/Retention classes; and other school-based programs. The summer education program supports HISD's Board Goal 3: Academic Growth. This report shows student enrollment and outcomes for students who attended summer school in 2021 based on either retention status at the end of spring 2020 or for other reasons, such as academic enrichment.

Key findings include:

- A total of 34,507 students attended the HISD 2021 summer school program in grades 1–12; 23,460 were in grades 1–8.
- Of the 23,460 students in grades 1–8 who were retained at the end of spring 2021 and attended the 2021 summer school program, 78.7 percent were retained because they did not meet course grade requirements, and 17.9 percent for not passing the High Frequency Word Examination (HFWE).
- Of the students in grades 1–8 who were retained in spring 2021 and attended the 2021 summer school program, 91.0 percent of students were promoted either by meeting the appropriate promotion standards or by committee decision, 8.6 percent were retained, and 0.4 percent had an undetermined outcome.
- Among all courses taken by students in grades 9–12 during 2021 summer school program, 8.5 percent were for original credit and 91.5 were for credit recovery. Of all original credit courses completed during the 2021 summer school program, 47.3 percent were in a STAAR subject. Of all credit recovery courses, 94.0 were in a STAAR subject.

Further distribution of this report is at your discretion. Should you have any further questions, please contact me at 713-556-6700.

It is the policy of the Houston Independent School District not to discriminate on the basis of age, color, handicap or disability, ancestry, national origin, marital status, race, religion, sex, veteran status, political affiliation, sexual orientation, gender identity and/or gender expression in its educational or employment programs and activities.

# Summer School Education Program, 2020–2021

## Executive Summary

### Program Description

Each year, the Houston Independent School District (HISD) offers a summer education program designed to assist students with a variety of instructional needs. In 2021, centrally coordinated summer school programs included accelerated instruction for State of Texas Assessments of Academic Readiness (STAAR) and STAAR End-of-Course (EOC) re-testers; bilingual or English as a Second Language (ESL) classes for English Learners (ELs); credit accrual/recovery for students needing to graduate; Extended School Year (ESY) services; Promotion/Retention classes; and other school-based programs. The summer education program supports HISD's Board Goal 3: Academic Growth. This report shows student enrollment and outcomes for students who attended summer school in 2021 based on either retention status at the end of spring 2020 or for other reasons, such as academic enrichment.

### Highlights

- A total of 34,507 students attended the HISD 2021 summer school program in grades 1–12. Among this total, 23,460 were in grades 1–8.
- On the Renaissance 360 (RL 360) end-of-year (EOY) reading assessment, a larger proportion of students (76.3 percent) in grades 1–8 who attended the 2021 summer school program scored in the Below Basic reading proficiency band when compared to all HISD district students in grades 1–8 (48.1 percent).
- When compared to the number of students retained in grades 1–8 at the end of the spring 2020 semester who attended the 2020 summer school program, there was an increase in the number of students retained in spring 2021 and who attended the 2021 summer school program (11,625 vs. 23,460, respectively).
- Of the 23,460 students in grades 1–8 who were retained at the end of spring 2021 and attended the 2021 summer school program, 78.7 percent were retained because they did not meet course grade requirements, and 17.9 percent for not passing the High Frequency Word Examination (HFWE).
- Of the students in grades 1–8 who were retained in spring 2021 and attended the 2021 summer school program, 91.0 percent of students were promoted either by meeting the appropriate promotion standards or by committee decision, 8.6 percent were retained, and 0.4 percent had an undetermined outcome.
- A larger proportion of 2021 summer school students in grades 1–8 scored at the Basic, Proficient, and Advanced levels combined when compared to 2020 summer school students in grades 1–8 (23.7 percent vs. 11.1 percent, respectively).
- Of all courses taken by students in grades 9–12 during 2021 summer school program, 8.5 percent were for original credit and 91.5 were for credit recovery.
- Of all original credit courses completed during the 2021 summer school program, 47.3 percent were in a STAAR subject. Of all credit recovery courses, 94.0 were in a STAAR subject.

## Introduction

In 2010–2011, the Texas Education Agency (TEA) adopted a set of promotion standards for students in grades 5 and 8 in Texas. To be promoted, students in grades 5 and 8 must meet academic achievement standards on state-mandated assessments or demonstrate subject matter proficiency for the grade level or course. The state allows students three attempts at the state-mandated assessments, two during the school year and one during summer. To meet extraordinary circumstances, exceptions to promotion standards were provided between the 2014–2015 and 2017–2018 academic years. For the 2018–2019 school year, there were no waivers on any of the promotion standards (Department of Research and Accountability, 2016, 2017, 2018; Houston Independent School District, 2017, 2018). In 2019–2020, in alignment with the Texas Education Agency (TEA) STAAR Cancellation Notice dated March 18, 2020, in response to the COVID–19 pandemic, HISD waived the grade 5 and grade 8 STAAR testing promotion standard. For the 2020–2021 school year, on July 27, 2020, Governor Abbot waived the STAAR testing grade promotion requirements.

Each academic year, HISD offers a summer education program designed to assist students with a variety of instructional needs. The summer 2021 program took place from June 17, 2021 to July 8, 2021 with instruction provided both in-person and via Microsoft Teams with a teacher. The 2021 summer education program allowed students who did not meet the applicable promotion standards the opportunity to repeat the required courses needed for promotion. For other students, the summer school program provided the opportunity to get ahead by taking required courses before the next school year or to receive specialized instruction based on eligibility. Centrally coordinated summer school programs in 2021 included accelerated instruction for State of Texas Assessments of Academic Readiness (STAAR 3–8) and STAAR End-of-Course (EOC), bilingual or English as Second Language (ESL) classes for English Learners (EL), credit accrual/recovery for students needing to graduate, Extended School Year (ESY) services, Promotion/Retention classes, and other school-based programs. The summer education program supports HISD’s Board Goal 3: Academic Growth. This report addresses eligibility, enrollment, attendance, and outcomes for the 2021 HISD summer school program.

## Methods

### Data Collection and Analysis

Several student data files were used for spring 2021 and summer 2021 information, including end-of-year (EOY) promotion, retention, and enrollment (Promotion Standards file, 2020–2021 and SIS Ad Hoc file, spring 2021), students’ reading proficiency levels [Renaissance (RL) 360 Reading assessment], summer school campus (Promotion Standards file and Chancery Historical Grades file), and student demographics (Promotion Standards file and Powerschool Historical Grades file). Results from these data sources are reflected in the tables contained within **Appendix A**, pp. 13–20.

For this report, an HISD student cohort showing all students available for summer school was created using the SIS Ad Hoc Spring 2021 file for purposes of analyzing student demographics. A total of 103,626 students in grades 1–8 were included for summer school eligibility. Further, a total of 55,734 students in grades 9–12 were identified as available for the 2021 summer school program using the SIS Ad Hoc file.

Students from the Promotion Standards file were included in the 2021 HISD summer school cohort if they had a summer school promotion standard status in grades 1–8 (n=23,460). A positive summer school

enrollment indicator in the Powerschool Historical Grades file identified 11,047 students in grades 9–12 who enrolled in the 2021 summer school program. A total of 34,507 HISD students from grades 1–12, attended the 2021 summer school program.

A comparison was then made between the last testing window in the 2021 school year [end-of-year (EOY)] and the last testing window in the 2020 school year [middle-of-year (MOY)]. Summer Lexile scores for the 2020–2021 (EOY) were taken from the RL 360 Reading assessment file for grades 1–8. A total of 14,003 students in grades 1–8 that attended the 2021 summer school program had a 2021 EOY Lexile score after taking the RL 360 Reading assessment. If the student took multiple EOY RL 360 Reading assessments, the latest score was included in this report for analysis. Lexile proficiency categories for grades K–8 were provided by the Secondary Curriculum and Development department. A chart with corresponding Lexile score bands for each Lexile proficiency category (reading level) by grade can be found in **Appendix B**, p. 21. **Appendix C**, pp. 22–110, shows the number of students enrolled in summer school by the Lexile score band based on the students' 2021 spring campus. The Lexile scores were used to ascertain if there was an observable difference between spring 2021 districtwide Lexile scores and the Lexile scores of students that attended the 2021 summer school program, as well as any observable difference in Lexile scores when comparing the group of students who attended the summer school program in 2020 and the group of students that attended the 2021 summer school program. The 2020 student MOY Lexile scores were taken from the MOY 2020 RL 360 Reading assessment results.

For this report, summer school enrollment by campus for eligible students grades 1–8 was provided by the Promotion Standards file. **Appendix D**, pp. 111–153, shows summer school campus enrollment and the students' 2021 spring grade level.

#### Data Limitations

The summer school days attended was not available for this report. Therefore, the researcher used the summer school promotion status indicator to identify students in grades 1–8 who were retained in spring 2021 and attended the summer 2021 program. In addition, students from the Texas Connections Academy Houston (TCAH) did not have promotion or retention data and were subsequently dropped from the HISD eligibility cohort. However, TCAH students (n=161) were included in the summer school analysis cohort if they had a summer school promotion standard status.

## Results

### *What was the number of students who were available for summer school participation in 2020–2021?*

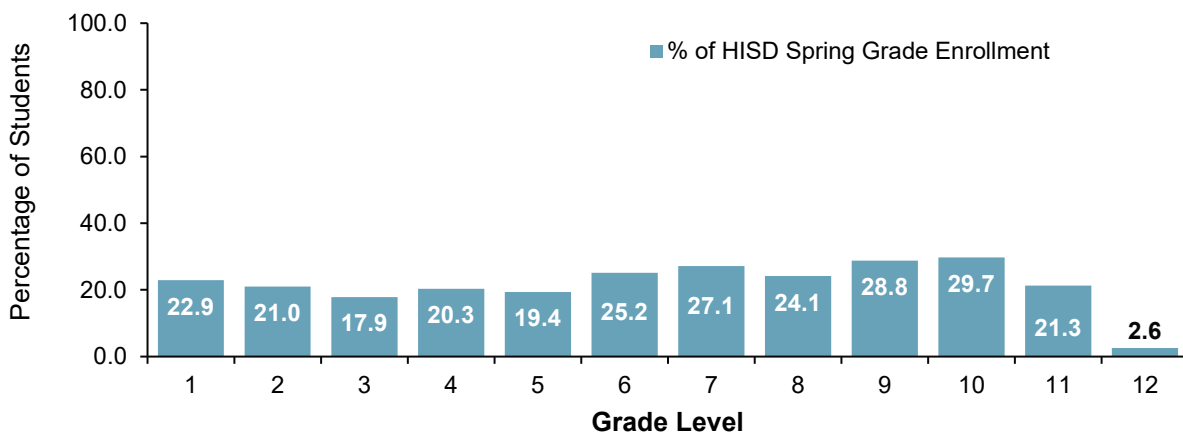

- A total of 168,384 HISD students enrolled in Early Education (EE) – grade 12 at the end of the 2021 spring semester were available for summer school participation (**Table A–1**, p. 13). This enrollment number does not include students identified as ‘graduated’ and is different from the fall PEIMS snapshot of enrollment taken in October. The enrollment number more closely reflects students available at the end of the school year to attend summer school.

### Grades 1 through 12

### *What was the number of students in grades 1–12 that attended the HISD 2021 summer school program?*

- A total of 34,507 students in grades 1–12 attended the HISD 2021 summer school program (**Table A–2**, p. 14) for enrichment (Extended School Year, Campus Enrichment, or Reading Intervention) or failing to meet HISD promotion standards (meeting class requirements or attendance).
- Based on the 2021 spring enrollment, grade ten had the largest proportion of spring 2021 students enrolled in the 2021 summer school program (29.7 percent), followed by grade nine students (28.8 percent). In addition to students in grades nine and ten, all other grades except for grade twelve, with 2.6 percent, had at least 17.0 percent of the spring 2021 enrolled students who attended the 2021 summer school program (Table A-2 and **Figure 1**).

**Figure 1. Percentage of HISD Districtwide Students Who Attended the 2021 Summer School Program by Grade Level**

Sources: Promotion Standards file, August 23, 2021; Historical Grades file 2020-2021

- Of all students enrolled in the 2021 summer school program, the largest proportion of students were in grade nine and grade ten (13.2 percent and 10.6 percent, respectively). In contrast, the smallest proportion of all students enrolled in the 2021 summer school program was in grade twelve (0.8 percent), followed by grade three (7.3 percent) (Table A-2; **Figure 2**, p. 5).

**Figure 2. Proportion of 2021 Summer School Program Participants by Grade Level**

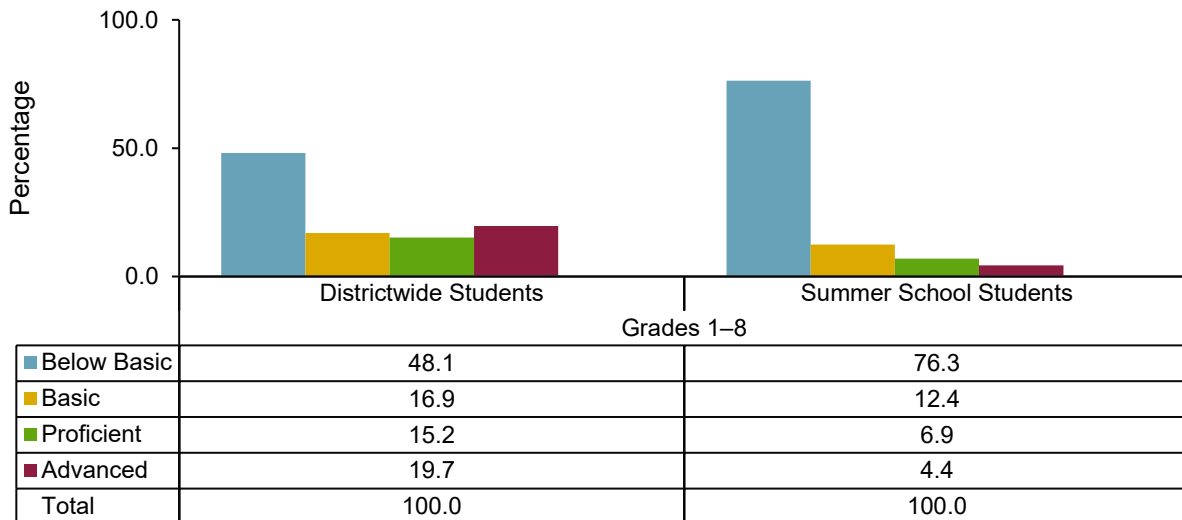

Sources: Promotion Standards file, August 23, 2021; Historical Grades file 2020-2021

**Grades 1 through 8**

*What were Lexile scores for students in grades 1 through 8 who attended the 2021 summer school program?*

- Of the students in grades 1 through 8 who were assigned a Lexile score, a larger proportion of 2021 summer school students scored in the Below Basic Lexile band when compared to all spring 2021 districtwide students (76.3 percent and 48.1 percent, respectively) (**Figure 3**; Table **A-3**, p. 14). Conversely, a smaller proportion of 2021 summer school students met the Advanced Lexile band when compared to spring 2021 districtwide students (4.4 percent and 19.7 percent, respectively) (Table A-3). (See **Appendix B**, p. 21, for Lexile bands.)

**Figure 3. 2021 Districtwide Students vs. 2021 Summer School Participants End-of-Year Lexile Band Performance, Grades 1–8**

Sources: Cognos SIS Ad Hoc Spring 2021 Enrollment, August 23, 2021; Promotion Standards file, August 23, 2021; Historical Grades file 2020-2021

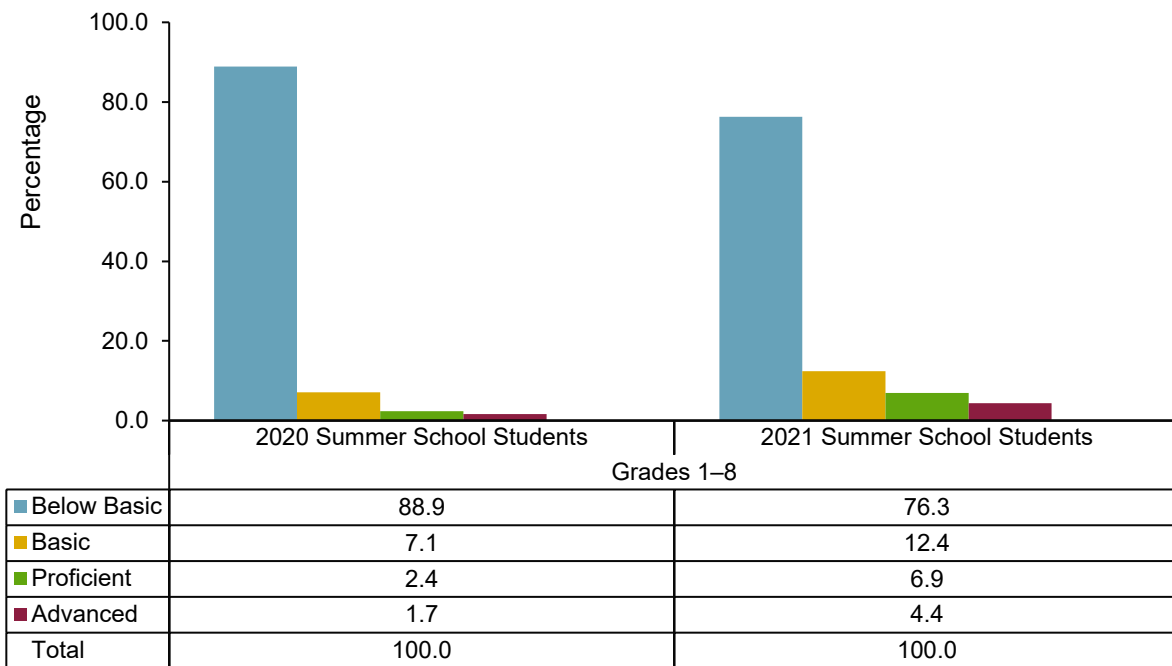

Note: Percentages may not total 100 percent due to rounding.

*How did the 2020–2021 Lexile levels for students in the 2021 summer school program compare to 2019–2020 Lexile levels for students in the 2020 summer school program?*

- The number of summer school students in grades 1–8 with Lexile scores declined from 15,996 for 2020 summer school attendees to 14,003 students’ scores in 2021 (**Table A–4**, p. 15).
- As shown in **Figure 4**, a smaller proportion of 2021 summer school attendees in grades 1–8 scored in the Below Basic reading band when compared to 2020 summer school attendees in grades 1–8 (76.3 percent vs. 88.9 percent, respectively).
- Additionally, a larger proportion of 2021 summer school students in grades 1–8 scored at the Basic, Proficient, and Advanced levels combined when compared to 2020 summer school students in grades 1–8 (23.7 vs. 11.1 percent) (Figure 4).

**Figure 4. 2020 Summer School Participants vs. 2021 Summer School Participants Lexile Band Performance, Grades 1–8**

Sources: Cognos SIS Ad Hoc Spring 2021 Enrollment, August 23, 2021; Promotion Standards file, August 23, 2021; Historical Grades file 2020-2021

Note: Percentages may not total 100 percent due to rounding.

*What were the reasons students in grades 1–8 attended the 2021 summer school program?*

- Of the 23,460 students in grades 1–8 who were retained at the end of spring 2021 and attended the 2021 summer school program, 78.7 percent were retained because they did not meet course grade requirements, 17.9 percent of students were retained for not passing the High Frequency Word Examination (HFWE). Additionally, 3.4 percent were retained for other reasons (**Figure 5**, p. 7; **Table A–5**, p. 15).

**Figure 5. Summer 2021 Enrollment Grades 1–8, by reason for Spring 2021 Retention**

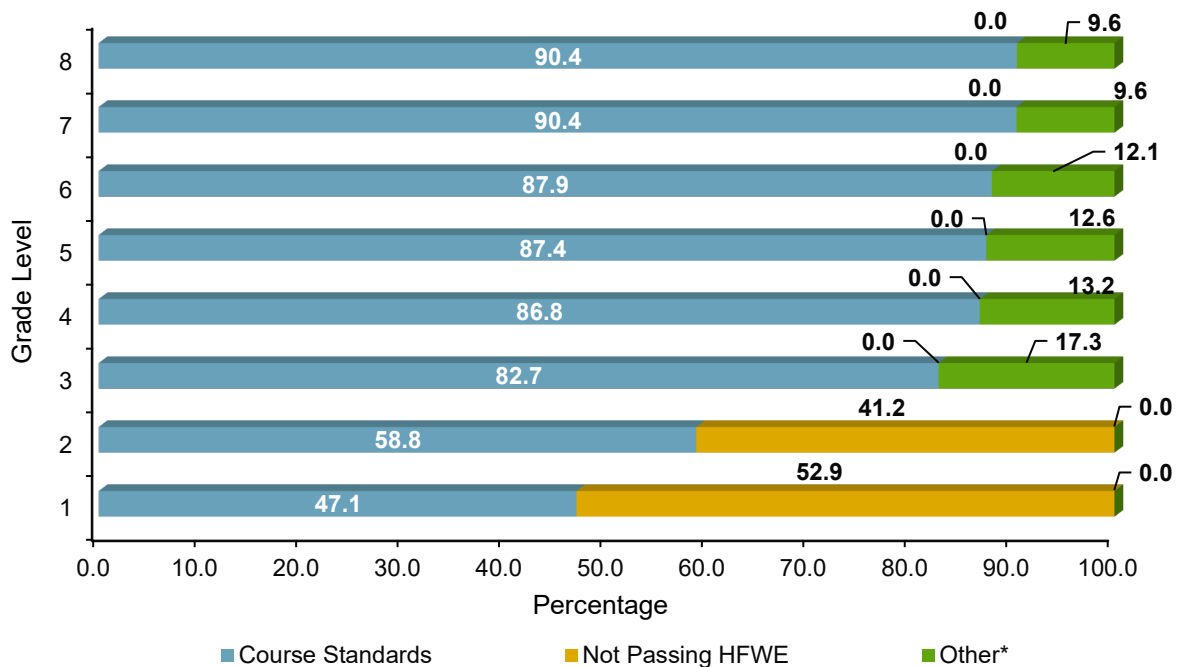

Source: Promotion Standards file, August 23, 2021

Note: Percentages may not total 100 percent due to rounding.

\* means retention based on either ARD committee or Attendance committee.

- As shown in **Figure 6**, grades seven and eight had the largest proportion of students who were retained and attended the 2021 summer school program based only on not meeting course promotion standards (90.4 percent), followed by grade six with 87.9 percent.
- The grade level with the largest proportion of students who were retained and attended the 2021 summer school program for other reasons was grade three (17.3 percent), followed by grade four with 13.2 percent (Figure 6).

**Figure 6. Spring 2021 Students Retained and Attended 2021 Summer School Program, by Grade Level and Reason for Retention**

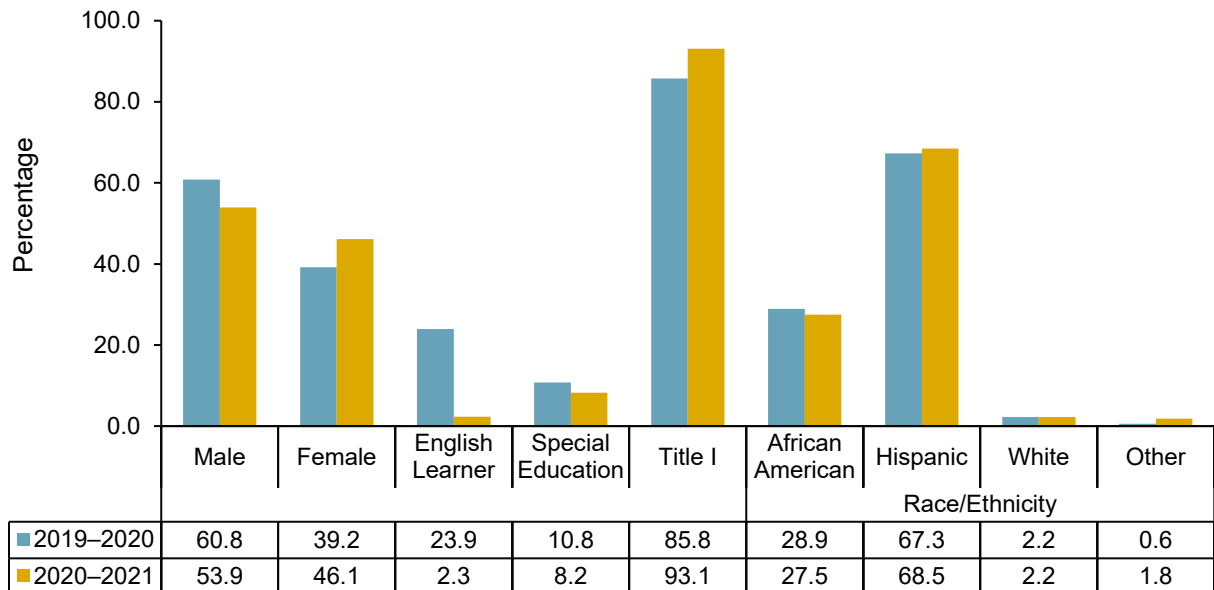

Source: Promotion Standards file, August 23, 2021

Note: \* means retention based on either ARD committee or Attendance committee.

*What were the demographic characteristics of retained students in grades 1–8 who attended the 2021 summer school program, and how did they compare to retained students in grades 1–8 who attended the 2020 summer school program?*

- The number of students in grades 1–8 who were retained and attended summer school in 2021 increased from 11,625 in 2020 to 23,460 in 2021. This increase could be explained by students being retained in greater numbers based on observed learning loss during the Covid-19 pandemic (**Table A–6**, p. 16).
- The most substantial change in the proportion of students who attended summer school based on being retained in spring when comparing 2020 to 2021 were students identified as English Learners (ELs), a 21.6 percentage-point decrease (**Figure 7**).
- Among ethnicities, only African American students had a smaller proportion of students who were retained and attended the 2021 summer school program compared to African American students who were retained and attended the 2020 school program (1.4 percentage-point decrease). Additionally, there was a decrease from 2020 to 2021 in the proportion of male students who were retained and attended the summer school program (6.9 percentage-point decrease) (Figure 7; **Table A–7**, p. 16).

**Figure 7. Demographics of Students Who Were Retained and Attended Summer School in 2020 or 2021, Grades 1–8**

Source: Promotion Standards file, August 23, 2021  
 Note: Percentages may not total 100 percent due to rounding.

*How many HISD students in grades 1–8 were promoted or retained following the 2020 and 2021 spring semesters and summer school program?*

- Compared to summer 2020, there was an increase in the proportion of students in grades 1–8 retained at the end of the spring semester (10.5 percent vs. 19.8 percent, respectively) (**Figure 8**, p. 9; **Table 1**, p. 9).

**Figure 8. Promotion Status of Students Grades 1–8 for Spring and Summer, 2020 and 2021**

Source: PSE, July 22, 2020; Promotion Standards file, August 23, 2021

Note: Percentages may not total 100 percent due to rounding. Students with an 'undetermined' promotion or retention outcome were students retained in spring of 2021 and were coded after summer school as, campus enrichment, reading intervention, or N/A.

- As shown in Figure 8 and Table 1, 61.9 percent of spring 2021 students in grades 1–8 were promoted compared to 87.5 percent of spring 2020 students in grades 1–8. There was a 3.6 percentage-point increase from 2020 to 2021 in the proportion of summer school attendees that were promoted following summer school. The proportion of spring and summer combined promoted students decreased 23.5 percentage-points in 2021 when compared to 2020. This decrease could be explained by an increase in the number of students who had an 'undetermined' promotion status (18.4 percent).

**Table 1. Promotion Following Summer School, 2019–2020 and 2020–2021**

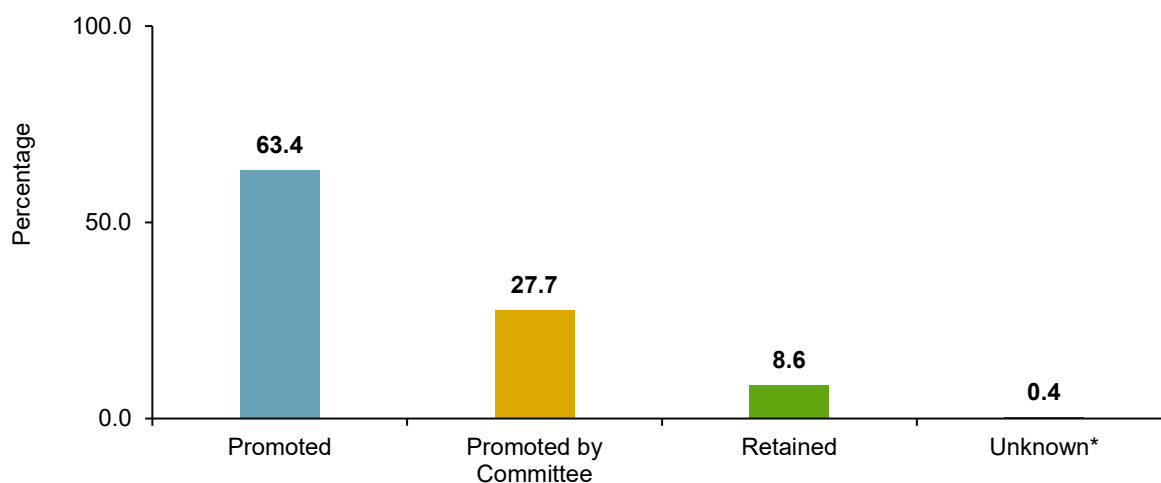

Grade	2019–2020			2020–2021		
	Retained/Attended N	Promoted N	Promoted %	Retained/Attended N	Promoted N	Promoted %
1	1,750	1,298	74.2	3,149	2,425	77.0
2	1,528	1,222	80.0	2,889	2,387	82.6
3	1,669	1,448	86.8	2,514	2,299	91.4
4	1,564	1,407	90.0	2,937	2,784	94.8
5	1,110	1,062	95.7	2,800	2,707	96.7
6	1,044	945	90.5	2,920	2,698	92.4
7	1,586	1,465	92.4	3,322	3,164	95.2
8	1,374	1,300	94.6	2,929	2,854	97.4
<b>Total</b>	<b>11,625</b>	<b>10,147</b>	<b>87.3</b>	<b>23,460</b>	<b>21,318</b>	<b>90.9</b>

Source: Promotion Standards file, August 23, 2021

### *What were the outcomes for retained students in grades 1–8 after participating in the 2021 summer school program?*

- Of the students in grades 1–8 who were retained in spring 2021 and attended the 2021 summer school program, 90.9 of students were promoted either by meeting the appropriate promotion standards (63.4 percent) or by committee decision (28.3 percent), 8.6 percent were retained, and 0.4 had an undetermined outcome (**Figure 9**, p. 10; **Table A–8**, p. 17).

**Figure 9. Outcomes for 2021 Summer School Attendees Who Were Retained in Spring 2021**

Source: Promotion Standards file, August 23, 2021

Note: Students with an 'unknown' 2021 summer school promotion or retention outcome were students retained in the spring of 2021 and were coded after summer school as, campus enrichment, reading intervention, or N/A.

## Grades 9 through Grade 12

### *What type of courses did students in grades 9–12 take during the 2021 summer school program?*

- Of the 11,047 students in grades 9–12 who attended the 2021 summer school program, 41.2 percent were in ninth grade, 33.2 percent were in tenth grade, 23.0 percent were in eleventh grade, and 2.5 percent were in the twelfth grade (**Table A–9**, p. 17).
- Students in grades 9–12 in summer 2021 took courses that provided either original credit or credit recovery (**Table A–10**, p. 18; **Table A–11**, p. 19).
- Of the original credit courses enrolled in by students in grades 9–12 (n=2,194), ninth-graders took a 51.2 percent, followed by 26.9 percent taken by tenth graders, 17.4 percent taken by eleventh graders, and 4.5 percent taken by twelfth graders (Table A-10). Of all original credit courses, 47.3 were STAAR subject courses.
- In summer 2021, a total of 23,660 credit recovery courses were taken by students in grades 9–12, ninth graders took 41.8 percent, tenth graders took 33.6 percent, eleventh graders took 21.9 percent, and 2.7 percent of twelfth graders (Table A–11). Of all credit recovery courses, 94.0 percent were STAAR subject courses.

### *How many credits were earned by students attending the 2021 summer school program for grades 9–12?*

- Of the 25,854 completed courses, less than one percent of completed courses awarded 0.5 credits toward high school graduation (**Table A–12**, p 20). Students in grades 9–12, on average, completed two courses or more.

## Discussion

The 2021 summer education program allowed students who did not meet the applicable promotion standard the opportunity to successfully meet the requirements for promotion. Promotion standards included both course grades and attendance. For the other students, it provided the opportunity to get ahead by taking the required courses before the next school year or to receive specialized instruction based on eligibility. A total of 34,507 students attended the HISD 2021 summer school program in grades 1–12. Of this total, the majority of students were in grades 1–8 (n=26,708).

The number of students who were retained following the spring semester and attended summer school showed an increase in 2021 when compared to the previous year (23,460 vs. 11,625, respectively). The course work promotion standard accounted for 78.7 percent of retained students who attended the 2021 summer school program, followed by 17.9 for not passing the High Frequency Word Examination (HFWE). Of the students in grades 1–8 who were retained in spring 2021 and attended the 2021 summer school program, 91.0 percent of students were promoted either by meeting the appropriate promotion standards or by committee decision, and 8.6 percent were retained.

A higher proportion of students in grades 1–8 who were retained (76.3 percent) scored within the Lexile Below Basic reading proficiency band than student scores districtwide (48.1 percent) at the 2021 RL360 (reading) latest testing window (EOY). Additionally, a smaller proportion (76.3 percent) of 2021 summer school attendees scored within the Below Basic reading band when compared to 2020 summer school attendees in grades 1–8 (88.9 percent). Finally, a larger proportion (23.7 percent) of 2021 summer school students in grades 1–8 scored at the Basic, Proficient, and Advanced levels combined when compared to 2020 summer school students in grades 1–8 (11.1 percent).

Of the 11,047 students in grades 9–12 that attended the 2021 summer school program, 41.2 percent were in the ninth grade (n=4,552), 33.2 percent were in tenth grade (n=3,669), 23.0 percent were in eleventh grade (n=2,546), and 2.5 percent were in the twelfth grade (n=280). Of all courses taken by students in grades 9–12 during 2021 summer school program, 8.5 percent were for original credit and 91.5 were for credit recovery. Both original courses and credit recovery courses can be divided between STAAR subject courses and non-STAAR subject courses. Of all original credit courses completed during the 2021 summer school program, 47.3 percent were in a STAAR subject. Of all credit recovery courses, 94.0 percent were in a STAAR subject.
