¹ This list comprises names of superintendents, supervising principals, or principals, as the case may be, for cities, towns, and incorporated villages reported as of 2,500 population or over in the census of 1910. A few cities have also been included of less than 2,500 population, but with a regularly designated superintendent of schools. It should be noted that lists published prior to 1915 were for places of 4,000 and over. The salary figures and other information formerly printed in the directory may be found by reference to the statistics of cities published in the annual report of the Commissioner of Education, Volume II, or in special bulletins, such as 1915, No. 31, and 1914, No. 16. Attention is drawn to the special note at the beginning of several of the State lists.

A few cities have also been included of less than 2,500 population, but with a regularly designated superintendent of schools. It should be noted that lists published prior to 1915 were for places of 4,000 and over. Other information formerly printed in the directory may be found by reference to the statistics of cities published in the annual report of the Commissioner of Education, Volume II, or in special bulletins, such as 1915, No. 31, and 1914, No. 16. Attention is drawn to the special note at the beginning of several of the State lists.

3. DIRECTORS OF SCHOOLS IN WHICH TRADES ARE TAUGHT.

It is intended to include in this list those schools, public and private, which offer one or more day courses which prepare students, male or female, for the mechanical trades and industries, by teaching the technic of the occupation in whole or in part, with the expectation that the training given in such course shall serve to shorten the usual period of learning or apprenticeship in the occupation.

This expectation should be justified by the provision of conditions which look definitely toward this end, and should include at least the following: (a) The students should spend not less than 10 hours (60 minutes each) per week in the practical shopwork or other technical processes of the occupation; and (b) the instructor should have had practical experience as a wage earner in the occupation for which he is giving instruction.
