National Association of State Student Grant & Aid Programs

About NASSGAP and this Report

The National Association of State Student Grant and Aid Programs (NASSGAP) is dedicated to the promotion, strengthening, encouragement, and enhancement of high standards in the administration and operation of student grant and aid programs, in order that these programs be available to students in all states to expand and further their postsecondary educational opportunities.

NASSGAP serves as a forum for the development and exchange of information, ideas, policy positions, procedures, and needs for student financial assistance for the benefit of member agencies and other organizations. NASSGAP also acts as a collective voice of reasoned opinion before state, regional, and national councils with respect to student financial aid programs.

NASSGAP conducts research, publishes reports, holds conferences, and otherwise engages in activities which help existing student aid programs to become more responsive to federal, regional, and state public policy goals and objectives.

Each year, NASSGAP completes a survey regarding state-funded expenditures for postsecondary student financial aid. This report, the 51st annual survey, represents data from academic year 2020-21. Please note row and column data in the tables may not add to row and column table totals throughout the report due to rounding .

Comments, suggestions, or questions concerning this report may be directed to NASSGAP at survey@nassgapsurvey.com.

Electronic Resources

NASSGAP's Web site is www.nassgap.org. The site has many elements of interest to student aid policymakers and researchers including links to state aid agency web sites.

NASSGAP operates a second Web site at www.nassgapsurvey.com which houses electronic copies of this report, and reports from several previous years, available in PDF format and downloadable free of charge.

An online query tool that will allow for customized queries of survey data is available at: www.nassgapsurvey.com/customquery/CQB01listqueries.aspx

A State Data Quick Check tool which shows expenditures by programs for a selected year is available at: www.nassgapsurvey.com/survey/state_data_check.asp

A Program Finder Tool which lists programs by user selected criteria is available at: www.nassgapsurvey.com/survey/program_finder/program_finder.asp

Puerto Rico did not respond to the survey this year. There was insufficient information available to estimate Puerto Rico's aid expenditures. Puerto Rico is unlikely to continue reporting moving forward.

Executive Summary

This report provides data regarding state-funded expenditures for student financial aid and illustrates the extent of efforts made by the states to assist postsecondary students. Information in this report is based on academic year 2020-21 data from the 52nd Annual NASSGAP survey.

Data Highlights

- In the 2020-21 academic year, the states awarded almost \$14.8 billion in total state funded student financial aid, a slight decrease about 0.1 percent in nominal terms and about 1.3 percent in constant dollar terms from the \$14.8 billion in aid awarded in 2019-20.
- The majority of state aid (87 percent) remains in the form of grants. In 2020-21, about 4.1 billion grant awards were made representing about 12.9 billion in need and nonneed-based grant aid. This represents a decrease of about 0.4 percent from the \$12.95 billion in grants awarded in 2019-20. Of the grant money awarded in 2020-21, about 73 percent was need-based and about 27 percent was nonneed-based, a breakout consistent with historical data.
- Funding for undergraduate need-based grant aid decreased slightly nationwide from \$9.3 billion in 2019-20 to about \$9.15 billion in 2020-21, a change of about 1.8 percent in nominal terms.
- Eight states (California, Texas, New York, Washington, New Jersey, Virginia, Illinois, Pennsylvania) collectively again awarded about 6.3 billion in undergraduate need-based grant aid, accounting for about 69 percent of all aid of this type.
- States provided about \$1.8 billion in nongrant student aid, including loans, loan assumptions, conditional grants, work-study, and tuition waivers. Tuition waivers represented about 51 percent of nongrant aid.

Most states reported state-funded undergraduate grant program with a need component, however, Wyoming reported no need-based aid programs. Puerto Rico did not report any data this year and is unlikely to continue reporting moving forward. Twenty-four states identified undergraduate programs which made awards based only on merit. Exclusively need-based aid constituted 45.9 percent of all aid to undergraduates, exclusively merit-based aid accounted for 20.9 percent, with the rest, 33.2 percent, accounted for by other programs and by programs with both need and merit components.

South Carolina, Georgia, Louisiana, Virginia, and Washington provided the greatest amount of grant aid on a per capita basis. South Carolina, Georgia, Washington, Louisiana, and Tennessee provided the most undergraduate grant dollars compared to undergraduate full time equivalent enrollment. Excluding Washington D.C., South Carolina, Louisiana, Colorado, Virginia, and Georgia had the highest proportion of total expenditures for state-funded grants compared to State fiscal support for higher education. The figures in this survey should not include any Federal stimulus funds.
