UNESCO - a global leader in education Education is UNESCO's top priority because it is a basic human right and the foundation for

is a basic human right and the foundation for peace and sustainable development. UNESCO is the United Nations' specialized agency for education, providing global and regional leadership to drive progress, strengthening the resilience and capacity of national systems to serve all learners and responding to contemporary global challenges through transformative learning, with special focus on gender equality and Africa across all actions.

The Global Education 2030 Agenda

UNESCO, as the United Nations' specialized agency for education, is entrusted to lead and coordinate the Education 2030 Agenda, which is part of a global movement to eradicate poverty through 17 Sustainable Development Goals by 2030. Education, essential to achieve all of these goals, has its own dedicated Goal 4, which aims to "ensure inclusive and equitable quality education and promote lifelong learning opportunities for all". The Education 2030 Framework for Action provides guidance for the implementation of this ambitious goal and commitments.

### **ABOUT THIS PROFILE**

This profile is incomplete. Please use our update form  $\nearrow$  to help us improve this service.

The UNESCO-UNEVOC TVET Country Profiles aim to provide concise, reliable and up-to-date information on TVET systems worldwide. Dynamic TVET diagrams illustrate education systems and the role of TVET at a glance. Statistical data can easily be compared across countries. Please help us improve the profiles by using the feedback form.

### GOVERNANCE

## **TVET Country Profiles**

The UNESCO-UNEVOC TVET Country Profiles are an online service. They aim to provide concise, reliable and up-to-date information on TVET systems worldwide, including key statistical data which can be compared across countries, major TVET policy documents, and information on governance of TVET. Dynamic diagrams illustrate education systems at a glance, aligned with ISCED levels.
