Loans are available in each of the 50 states under programs established for students who are residents of each particular state. The description that follows is for loans to students who are residents of the State of Utah. Students from other states may obtain information regarding their state's program from this office or the Financial Aids Office of any nearby college or university.

Long Term Loans. A loan program to assist students of limited financial means is supervised by the Office of Student Services. Utah State University is affiliated with the National Defense Education loan program. To qualify a student must be enrolled or have been accepted for enrollment as a full-time student and must prove scholastic ability by maintaining a good academic standing. He must be in need of the amount of the loan to pursue the course of study.

Undergraduate students may borrow up to $1,000 a year.

Under the program, repayment of principal and 3 per cent interest begins when the student has ceased his course of study.

Application forms for these long-term, low-interest loans may be obtained in Room 102 of the Main Building.

Short Term Loans. It is the desire of USU that no student fail to complete school because of some temporary financial limitation. As a phase of the program of financial aid to students, small, short-term loans are made available on a business-like basis in Room 118 of the Main Building. Personal qualifications and need for financial assistance are the principal criteria.

Except in cases of extreme emergency no loans will be made during the last two weeks of any quarter, or a period of time exceeding the academic school year except for graduating Seniors.
