INEXPENSIVE BOOKS FOR TEACHING,
THE CLASSICS: 19TH ANNUAL LIST

The following includes paper and cloth covered translations of classical texts and books about Greece and Rome, up to and including $3.00. It does not include texts in the original languages, grammars, etc., which form the subject of our "Textbooks" list published in April. Also excluded are works of fiction and books intended for children below the seventh grade. The list is confined to works in English published in the United States and Canada. The listing should prove helpful for courses in classics and for numerous other teaching aids.

Within the above limits, completeness has been aimed at, in the listing as much as, and in the indication of contents, translators, etc. As always, the publishers are as humanly possible to get them. For the sake of such accuracy, we have again removed any items for which we could not find independent confirmation, when a publisher chose not to respond to either our original request or its follow-up plea. Comparison with last year's list will reveal many changes in details, while the only general alteration is that we have removed all mentioned separate prices for Canada, as these had been made available to us very eclectically, and their verification involved even greater difficulty than that of the regular (American) figures. Naturally, prices and availability are subject to change without notice.

Users of this list are requested to mention it in their contacts with publishers, and they are advised to inquire about teachers' discounts. Some publishers charge postage on orders from individuals.

Readers may wish to familiarize themselves with "Paperbound Books in Print," published monthly by R. R. Bowker Co.

The present listing has the following arrangement:
I. Authors and Texts (incl. Anthologies)
II. History of Literature
III. Classical History and Civilization
IV. Greek History and Civilization
V. Roman History and Civilization
VI. Philosophy and Science
VII. Religion and Mythology
