By: Morris, June E. Comp.; Nolan, Carson Y. Comp.
Bibliography on Tests and Testing of the Blind.
American Printing House for the Blind, Louisville, Ky.
Pub Date 67
Note: 29p
EDRS Price MF-$0.25 HC-$1.55

The 345 references in this bibliography include articles from the periodical literature, books, and conference proceedings, and concentrate on these topics: theoretical and practical aspects of testing, historical development of testing, instructions, manuals, and methods of administration, test descriptions and evaluation, development of adapted tests for the blind, and results of testing with blind populations. (DF)
Bibliography on Tests and Testing of the Blind
1967
Compiled by
June E. Morris and Carson Y. Nolan
Department of Educational Research

Included are references to articles concerning the following:

Theoretical or practical aspects of testing.
Historical development of testing.
Manuals, instructions, and methods of administration.
Descriptions and evaluation of tests.
Development and adaptation of tests for the blind.
Uses of tests - reports of results obtained when established tests were used with blind populations.

Testing and guidance programs are not included.
