INTRODUCTION

The Desegregation Advisory Project, operating under a grant from the U. S. Office of Education and funded under Title IV of the 1964 Civil Rights Act, is now in its second year. It is directed to work on educational problems incident to the desegregation of schools in the forty-three school districts of Wayne county.

The prime assumption of the Desegregation Advisory Project is that, given the realities of our world today, segregated schools - either Negro or white - are unable to provide the kinds of personal interaction and learning experiences necessary for living in the larger, pluralistic community. This assumption determines the Project's direction and shapes its program. One of the products of its program is this bibliography.

Books speak for themselves, once the reader has plunged between the covers. But persons who want to become informed and knowledgeable about the broad field of civil rights and the schools need a place to turn for organized information about books and other materials which are authoritative and relevant.

The Desegregation Advisory Project presents such a "place to turn to" in this bibliography and in the collection itself. In our library, which the reader is invited to visit, there are over 800 titles. The bibliography presents selected titles and annotations as well as information about sources of other materials. It does not include our pamphlet collection, our files of press clippings, and multiple copies of speeches and reprints, all of which are available on request for use by school and community people in Wayne county.
I. BOOKS FOR ADULTS

The volumes listed will provide a background for teachers and school administrators, parents, church leaders and others who are seeking to understand the problems incident to race relations in the United States. Many of the books in these lists will prove interesting to and suitable for children and young people. The teacher will wish to acquaint himself with individual volumes before assigning them. A separate list for children and young adults with suggested grade levels appears as a later section.

A young girl finds that one disastrous evening can turn a town and her own life upside down.

*Sturton, Hugh. ZOMO THE RABBIT. Atheneum, 1966. 128p. Gr. 4-6.*
Freely adapted from African folklore, these eleven tales about a rascally Nigerian progenitor of Br'er Rabbit and his devious schemes for outwitting his jungle compatriots and evading work are very funny.

A story of sharing and of what Mary Jo decided to share with her class at school.

*Verdi, Giuseppe. AIDA. Putnam, 1965. 61p. Gr. 4-8.*
A simple retelling of the opera, Aida, the story of a captive Ethiopian princess who was given to the princess of Egypt for her personal slave.

*Weik, Mary Hays. THE JAZZ MAN. Atheneum, 1966. 48p. Gr. 4-5.*
A thought-provoking atmospheric story of a period in the life of Zeke whose mother is work worn thin and whose father has difficulty holding down a job. Zeke’s lameness tends to keep him indoors so that most of his day consists of what he sees from the fifth floor window. Did his mother and father walk out on him? It is a strange story with the evanescent quality of Bontemp’s *LONESOME BOY*.

"Chip Woodman was new in the neighborhood when another lad, A. L. Reese, moved in. Finding only warmth and good fun in the Reese house, Chip was baffled by the neighborhood boycott of this one Negro family in the all-white neighborhood." Huntting.

As in the case of books, the staff of the Desegregation Advisory Project has made use of a wide variety of sources of annotated lists. For this bibliography the most helpful references have been *HUMAN RELATIONS AND INSIGHT* published by the State Committee on Human Relations of the Department of Public Instruction, Commonwealth of Pennsylvania, and the list of instructional materials in *BUILDING IMPROVED HUMAN RELATIONS* (unpublished), a bibliography prepared by Barbara Nimroth for the Department of Special Projects of the Ann Arbor, Michigan Public Schools.

IV. SELECTED BIBLIOGRAPHIES

The list below is a selection from published bibliographies covering areas of interest to the Desegregation Advisory Project. In preparing book listings the Project staff had access to a large number of bibliographies from many sources. Some of these were prepared for use in local school systems or public libraries and were in mimeographed or dittoed form. Since there was question as to the availability of these in the future, they have not been included in the present selected list.

Among school systems having prepared lists in the fields of Negro History, Contributions of Negroes, Human Relations, and Civil Rights are Berkeley, California; Chicago, Illinois; Cleveland, Ohio; Detroit, Michigan; New York, New York; Oakland, California; Philadelphia, Pennsylvania; and San Francisco, California. Interested readers may wish to write to school administrators in those cities concerning current material available.
