Voici une conversation.

Comment, Mme Dupuy! Déjà de retour! Je vous croyais à la campagne pour le reste de la semaine.

Ne m'en parlez pas! Partis hier matin de bonne heure, nous étions de retour hier soir.

Qu'est-ce qui est arrivé?

Tout s'est mal passé. Au moment de partir, la bonne a refusé de nous accompagner, comme ça. Je me suis fâchée et je l'ai mise à la porte.

Ça commençait mal!

On est donc parti sans elle. A la campagne, un temps de chien! Un vent glacial, de la pluie à torrents; mon mari s'est mis à tousser.

Vous avez décidé de revenir; c'est encore ce qu'il y avait de mieux à faire.

Sans doute. En tout cas, à minuit nous étions chez nous. Mais voilà qu'on s'est aperçu qu'on avait perdu la clé!

Pas possible!

C'est comme je vous le dit.

HAHAHA! Excusez-moi, je ne peux pas m'empêcher de rire.

Je vous en prie. Mais je vous jure que nous, nous n'avons pas trouvé ça drôle.

Mais enfin, le concierge avait bien une autre clé?

Notre immeuble n'a pas de concierge. Chaque locataire a une clé pour la porte d'entrée et une clé pour son appartement. Et à minuit, vous pouvez toujours aller chercher un serrurier! Par bonheur, il y a un petit hôtel dans notre rue et on a pu trouver une chambre.

Tout est bien qui finit bien!

Attendez, ça n'est pas fini.

Comment? Vous n'avez pas trouvé de serrurier ce matin?

Si, il nous a ouvert la porte, mais vous parlez d'une surprise en entrant: l'appartement sens dessus dessous, les armoires ouvertes, les vêtements par terre, les tiroirs et leur contenu dans tous les coins.

Des cambrioleurs?

C'est ce que nous avons pensé d'abord, mais rien n'avait été volé, rien ne manquait.

C'est bizarre. Les voleurs auront été dérangés dans leur besogne.

Je crois plutôt que c'est un mauvais tour que la bonne a voulu nous jouer pour se venger.

Enfin, ça prouve qu'elle a appris quelque chose au cinéma.

Voici les questions.

Voici une information à la radio.

La préfecture de police est chargée, depuis hier, d'une enquête délicate:

Un drame lamentable s'est déroulé au cours de la nuit de samedi à dimanche, à la sortie de la salle municipale où on avait organisé un bal au profit des vieux combattants. Selon divers témoignages, les fêtes du même genre étaient régulièrement troublées par un même groupe de jeunes; ceux-ci, à la fin de la réunion dansante, se précipitaient sur la scène et déterrioraient les instruments des musiciens. Afin d'éviter le renouvellement de ces faits, des agents de police étaient de service dans la salle samedi soir. Vers 2 heures du matin le tumulte commença. Encore une fois, l'orchestre fut menacé. Il y eut une mêlée entre les perturbateurs et la police, et un coup de feu fut tiré.

Le gardien de la paix prétend que, dans l'obscurité, il aurait vu l'un des jeunes gens faire un geste de menace en mettant sa main à sa poche et que, s'estimant en état de légitime défense, il aurait tiré en visant aux jambes.

Voici les questions.

Numéro 33. . . (Man) Où cet incident nocturne a-t-il eu lieu? (12 sec.)
Numéro 34. . . (Man) Pour qui la fête a-t-elle été donnée? (12 sec.)
Numéro 35. . . (Man) Comment avait-on essayé d'empêcher qu'il ne se produise de désordre le samedi soir? (12 sec.)
Numéro 36. . . (Man) Pour quelle raison le gardien de la paix a-t-il tiré sur la victime? (12 sec.)

Voici une conversation.

Comment, Mme Dupuy? Déjà de retour? Je vous croyais à la campagne pour le reste de la semaine.
Ne m'en parlez pas! Partis hier matin de bonne heure, nous étions de retour hier soir.
Qu'est-ce qui est arrivé?
Tout s'est mal passé. Au moment de partir, la bonne a refusé de nous accompagner, comme ça. Je me suis fâchée et je l'ai mise à la porte.
Ça commençait mal!
On est donc parti sans elle. A la campagne, un temps de chien! Un vent glacial, de la pluie à torrents; mon mari s'est mis à tousser.
Vous avez décidé de revenir; c'est encore ce qu'il y avait de mieux à faire.
Sans doute. En tout cas, à minuit nous étions chez nous. Mais voilà qu'on s'est aperçu qu'on avait perdu la clé!
Pas possible!
C'est comme je vous le dis.
HAHAHA! Excusez-moi, je ne peux pas m'empêcher de rire.
Je vous en prie. Mais je vous jure que nous, nous n'avons pas trouvé ça drôle.
Mais enfin, le concierge avait bien une autre clé?
(Woman) Notre immeuble n'a pas de concierge. Chaque locataire a une clé pour la porte d'entrée et une clé pour son appartement. Et à minuit, vous pouvez toujours aller chercher un serrurier! Par bonheur, il y a un petit hôtel dans notre rue et on a pu trouver une chambre.

(Man) Tout est bien qui finit bien!
(Woman) Attendez, ça n'est pas fini.
(Man) Comment? Vous n'avez pas trouvé de serrurier ce matin?
(Woman) Si, il nous a ouvert la porte, mais vous parlez d'une surprise en entrant: l'appartement sens dessus dessous, les armoires ouvertes, les vêtements par terre, les tiroirs et leur contenu dans tous les coins.
(Man) Des cambrioleurs?
(Woman) C'est ce que nous avons pensé d'abord, mais rien n'avait été volé rien ne manquait.
(Man) C'est bizarre. Les voleurs auront été dérangés dans leur besogne.
(Woman) Je crois plutôt que c'est un mauvais tour que la bonne a voulu nous jouer pour se venger.
(Man) Enfin, ça prouve qu'elle a appris quelque chose au cinéma.

(Man) Voici les questions.

Numéro 37. . . (Man) Pourquoi les Dupuy étaient-ils revenus si tôt? (12 sec.)
Numéro 38. . . (Man) Que s'est-il passé lorsqu'ils sont rentrés? (12 sec.)
Numéro 39. . . (Man) Où ont-ils passé la nuit? (12 sec.)
Numéro 40. . . (Man) Comment ont-ils réussi à entrer le lendemain? (12 sec.)
Numéro 41. . . (Man) Qui leur avait joué ce mauvais tour? (12 sec.)

(Man) Continuez à la page suivante. (5 sec.)

(Man) Voici une autre conversation.

(Man) Alors, Juliette, pas de nouvelles?
(Woman) Rien. Il n'a même pas encore téléphoné.
(Man) Notez que cela n'a rien de surprenant. Il arrive que les débats se poursuivent jusqu'au milieu de la nuit. Rappelez-vous l'affaire du mois dernier.
(Woman) Je m'en souviens, mais il m'avait téléphoné pendant une suspension d'audience. Cette fois, peut-être n'a-t-il pas pu m'appeler ou a-t-il tout simplement oublié!
(Man) Dans quel état vous devez être! Voyons, Juliette, vous vous faites beaucoup trop de souci.
(Woman) Je sais, je devrais ne pas y penser, mais je ne peux pas. Mon mari attache une si grande importance à cette affaire que je n'arrive plus à avoir la tête à autre chose. Un échec risquerait de retentir sur sa carrière.
(Man) Oh! Vous savez, sur sa carrière. . .
(Woman) En tout cas, sur son humeur. Pour être heureux, il a besoin de réussir.
(Man) Je lui fais confiance. Soyez sûre qu'il aura su tirer le meilleur parti de la situation.
(Woman) Mais il y a tant d'éléments imprévisibles qui peuvent jouer contre lui! L'atmosphère de la salle d'audience, la composition du jury, l'humeur du président, l'hésitation d'un témoin, que sais-je?

(Man) Je ne suis pas inquiet. Votre mari sait profiter de tout, même de l'imprévu. C'est une tête bien organisée.

(Woman) Le voilà... J'entends son pas... Mon Dieu, pourvu qu'il apporte une bonne nouvelle. Jamais je n'ai été aussi anxieuse.

(Man) Voici les questions.

Numéro 42. . . (Man) De quelle sorte d'affaire attend-on le résultat? (12 sec.)

Numéro 43. . . (Man) Quel doit être le caractère du mari de Juliette? (12 sec.)

Numéro 44. . . (Man) Pourquoi Juliette est-elle si inquiète? (12 sec.)

Numéro 45. . . (Man) Comment se comporte celui qui parle à Juliette? (12 sec.)

(D) un jour

The correct answer is D, so you should have written the letter D in the space provided.

In going through the test, do not spend too much time on any one question. If a question seems to be too difficult, make the most careful guess you can, rather than waste time over it. Your score will be based on the number of questions you answer correctly. It will be to your advantage to answer every question even though you may not be sure that your answer is correct. If you make a mistake or wish to change an answer, cross out your first answer and then write in the answer which you intend. There are 46 questions in the test, and you will have 30 minutes to work on it.

Alain poursuivit Anna dans Paris pendant deux jours, avec une impatience qu'exacerbaient les contretemps, sa maladresse, et les malices du hasard. Il courut chez elle, pour la trouver absente, et la concierge ne sut rien lui dire, sinon qu'Anna était en voyage pour au moins trois jours. Alain devait partir pour le Brésil dans trois semaines. Ces trois jours lui sembrèrent soudain une éternité. Au journal où Anna travaillait, on ne voulut rien dire par téléphone, sinon: écrivez, on fera suivre. Il s'agissait bien d'écrire! Alain se rendit au bureau d'Anna, parla vaguement de la mort d'un parent, et sut qu'elle était partie en Normandie photographier la chapelle que venait d'y achever un grand peintre. Il disposait de la voiture de Génin. Il fit le plein d'essence, et fila vers Rouen. Au pire, se disait-il, je ferai tous les hôtels du pays, ils ne sont sûrement pas si nombreux.

6. Do not turn this page until you are told to do so.
Sub-Test I

SECTION A

DIRECTIONS

Each of the following questions consists of three sentences, marked (i), (ii) and (iii). Each sentence has a word with a letter (or sometimes two letters) underlined. Find which of the letters underlined have the same sound when read. Here is an example:

Question
(i) He received a letter this morning.
(ii) The machine won't work.
(iii) The house is by the sea.

Answer:
A. (i) and (ii) are the same.
B. (i) and (iii) are the same.
C. (ii) and (iii) are the same.
D. (i) and (ii) and (iii) are the same.
E. None are the same.

The sounds represented by ei in received, i in machine, and ea in sea are all the same, so you will put a ring round answer D. Here is another example:

Question:
(i) Will this be enough?
(ii) All his work was finished.
(iii) How could it be otherwise?

Answer:
A. (i) and (ii) are the same.
B. (i) and (iii) are the same.
C. (ii) and (iii) are the same.
D. (i) and (ii) and (iii) are the same.
E. None are the same.

The sounds represented by gh in enough and f in finished are the same, but the sound represented by w in otherwise is different, so you will put a ring round answer A. Here is a final example:

Question:
(i) The Queen made him a knight.
(ii) The hounds killed the fox.
(iii) Please knock before you enter.

Answer:
A. (i) and (ii) are the same.
B. (i) and (iii) are the same.
C. (ii) and (iii) are the same.
D. (i) and (ii) and (iii) are the same.
E. None are the same.

Both the k in knight and the k in knock are silent; that is, they represent no sound. Only the k in killed is pronounced. So you will put a ring round B.

Now turn over and do the following questions.
1. (i) I have five coins in my pocket.
   (ii) We must dig a hole.
   (iii) What is nine out of ten?

   A. (i) and (ii) are the same.
   B. (i) and (iii) are the same.

   E. None are the same.

3. If you do not understand what you are asked to do, raise your hand and the examples will be explained to you.

4. Work fast, but carefully. Do not spend too much time on a single question. Answer all questions. If you are not sure of the answer, you can guess.

5. Most questions have only one right answer. For some questions, however, you are asked to choose the best of the correct answers. These will be made clear to you at the beginning of the section.

6. Do not turn this page until you are told to do so.
SECTION A

DIRECTIONS

In each question of this test you will find three words, which are divided into syllables. In some questions the three words have the main stress on the same syllable. In other questions the stress may be on different syllables. Read the words carefully and decide whether the stress comes on the same syllable in the three words or on different syllables. If the stress is on the same syllable in the first and second words, circle A; if in the first and third words, circle B; if the stress comes on the same syllable in the second and third words, circle C. If the three words have the stress on the same syllable, circle D, and if the stress comes on different syllables in each of the three words, circle E.

EXAMPLE:

Question:

(i) re-ply   
(ii) co-rrect   
(iii) re-ceive

Answer:

A. (i) and (ii) are the same  
B. (i) and (iii) are the same  
C. (ii) and (iii) are the same  
D. all are the same  
E. none are the same

If you read these words carefully, you will find that the stress comes on the same syllable, namely the second, in each case. Therefore you would circle D.

Now please turn over and do the following questions.

DIRECTIONS

In each item you are given a passage and sets of questions upon the passage. Choose the correct alternative as an answer to each of the questions and put a ring around the letter next to it. Here is an example:

Passage: There is a lot of traffic in London, and John is very careful. He looks first to the right and then to the left and then to the right again. Then he crosses the road. He has learned at school to look to the right and to the left before crossing the road. His mother is glad that he is so careful. She says "John can go out alone in London because he is so careful in the traffic."

Question: (i) How does John's mother feel because John is careful?

Answer: A. Sad, B. Happy, C. Nervous, D. Lazy.

The correct answer is that "his mother is glad". She is happy, so you should put a ring around B.

Question: (ii) Before crossing the road, John looks:

Answer: A. once to the right, B. once to the left and once to the right, C. once to the right and twice to the left, D. once to the left and twice to the right.

The correct answer is "once to the left and twice to the right", so you should put a ring around D.

Now turn over and work through the questions which follow.
41.

The favourite occupation of many thousands of English families is sailing. England has a very long coastline with many harbours and estuaries which are sheltered from the ocean and make ideal stretches of water for sailing in small boats. Most amateur sailors belong to sailing clubs, from which they can borrow boats. Many people have also small sailing boats of their own which can easily be handled by one or two persons.

There is no more delightful way of spending a summer afternoon than taking out a boat and gliding gently along over the blue water. You have escaped from the town, with its noise and crowds of hurrying people. You are by yourself or with a chosen friend. The wind fills the sails and the little craft moves along without effort. The only sound to be heard is the gentle splash of the waves as the bow cuts through them.

Most sailing boats have two triangular sails: a big one called the mainsail and a small one called the jib. The mainsail is behind the mast and the jib is in front of it. The bottom of the mainsail is attached to a kind of horizontal mast called a boom. The ropes which are used to hoist and lower the sails are called halyards. The ropes which are used to let out or draw in the sails, according to the direction and strength of the wind are known as sheets.

(i) There are many amateur sailors in England because:

A. there are so many sailing boats,
B. Englishmen like moving along without effort,
C. there are good harbours sheltered from the sea,
D. England has many large lakes,
E. Englishmen do not like motor boats.

(ii) The bow is the same as:

A. the back part of the boat,
B. the horizontal mast,
C. the upper part of the mainsail,
D. the front part of the boat,
E. a type of sailing boat.

(iii) When hoisting the mainsail you have to use:

A. the jib;
B. the halyard,
C. the boom,
D. the sheets,
E. the splash.

(iv) Sailing attracts because:

A. it is cheap,
B. it is peaceful,
C. it is dangerous,
D. it is not dangerous,
E. it is expensive.
What does the conductor do? I am sometimes told that the players never look at me. Of course they do not; they have to look at their music and read it as they go along. It is my business to try to see that an eloquent stick is seen by the player just over the music which he is reading. The eye can take in a wide area round the spot at which one is actually looking, and it is important that the player should place his music so that he can see the stick just over it. It is also the conductor's business to see that his stick is inside the field of the player's vision, and I would suggest that if the conductor waves his hand and stick round in the air well over his head, it is not as easy to see as it would be just in front of him.

With a choir ranged above him, the conductor will have to move in a larger and higher circle, but, again, I try to see that singers keep their music well up so that the stick can be seen just above it, as with the orchestra. At the same time, a chorus has usually had the benefit of a good deal more rehearsal than the orchestra, and the singers must form the habit of paying attention to the beat when concert-time comes, as well as in the later stage of rehearsal; but prior to that I am not at all sure that they should be conducted at all. They should look at their copies while learning their notes, and I used often to sit at the piano-forte myself during these early stages; for it can only do harm if you conduct them when they are not ready to look at the beat.

The conductor, then, has the task of leading the ensemble wherever there is a start, a finish, a pause, or a change of time or pace. He is the mainspring of the emotional interpretation of the work, and must often lead by anticipation. His view of the work as a whole must never be obscured, but must pass to the audience in order that the flow and inevitable forward movement of the music should never seem to falter. In classical music there are often long passages of slow but relentless advance which in themselves call for no special action from the conductor. Here, we are told, Mendelssohn would cease to beat altogether, and Wagner would take a pinch of snuff. Nobody ever seems to stop conducting nowadays, but I wonder whether it would not be a good thing sometimes.
(i) What is the conductor's job?
   A. To make sure that his stick is seen.
   B. To wave his stick round in the air.
   C. To look at the players.

(ii) What happens to the choir's rehearsals?
   A. They are more frequent than the orchestra's.
   B. They are better than the orchestra's.
   C. They are fewer than the orchestra's.

(iii) How should the conductor deal with the choir?
   A. He should conduct them from the first.
   B. He should sit at the piano all the time.
   C. He should begin to conduct them when they know the notes.

(iv) What should be the conductor's attitude to the music?
   A. He should interpret the music.
   B. He should listen to it.
   C. He should not interfere with the choir.

(v) Wagner took snuff at concerts sometimes, because:
   A. he was bored,
   B. it helped him to concentrate,
   C. the choir did not need his attention.

It was already dark when Fred, George, John, Peter and Tom got back from their unsuccessful day's fishing. They were very hungry, of course, and had long since finished the sandwiches and bananas their mother had packed for them before they left home that morning. "Well," said Mother, looking at her five sons, "even if you haven't caught any fish you look better for a day out in the fresh air. Now Peter, you must be in bed when your father comes home at 9 o'clock, so you have just half an hour in which to wash, eat and get upstairs. The rest of you can stay up until 9.30, but no later!"

(i) The youngest boy was called:
   A. John.
   B. Tom.
   C. Fred.
   D. Peter.
   E. George.

(ii) How many fish had the boys caught?

   B. 8.15 a.m.
   C. 8.30 p.m.
   D. 9.00 p.m.
   E. 8.30 a.m.

(iv) Their mother thought the day in the country:
   A. was a waste of time.
   B. had done the boys good.
   C. had been a risky adventure.
   D. had made them sleepy.
The bell rang at two o'clock, but while the boys marched into school for their lessons, the girls got into the bus which was standing outside the school yard, glad that it was their turn to visit the swimming-pool in the nearby town. The bus driver joked them with "All fares, please!", as they got in and pretended to collect money, but everyone was quiet while Miss Brown made sure that all the pupils were present. As the bus moved off they grinned out of the windows at the boys, who had to wait till the following Thursday for their baths, began a sing-song and settled down to enjoy the ride.

Twenty minutes later the bus came to a standstill in the centre of the town outside a modern building which stood opposite the cinema. One of the older girls led the way to the ticket office and by the time that Miss Brown reached it all of her pupils had paid their sixpences and had gone down to the basement to change. A man in uniform came through a door over which were the words "To the pool", and said to Miss Brown that if she would wait a minute, he would fetch a scarf which one of the boys had left upstairs in their dressing room the week before.

The sun shone through the glass roof above the pool of green water. In each corner of the hall were stairs up to seats where the public could sit and watch. The girls began to appear in their bathing suits and caps, but they could not yet jump into the water. First they went to the wash room where they had a lot of fun under the showers until Miss Brown came, and then they had to hurry up.

Two men, dressed in thick white pullovers, blue trousers and rubber boots, came out of the office as soon as the girls were in the water. The younger of the two men walked up to the deep end where some of the girls were already swimming, but the other stayed at the shallow end where most of the pupils were eagerly waiting to show him what they could remember from his last lesson two weeks ago. Four new girls still stood beside the pool, too frightened to get in. Miss Brown spoke to them gently and at last succeeded in getting them into the water beside her where they played games and grew a little less afraid.

SECTION C

DIRECTIONS

The following passage tells a very simple story. At certain points in the story there are blanks and immediately following the blank you are offered the choice of three ways of completing the sentence in which the blank occurs. These alternatives are lettered A or B or C. Choose the alternative which you think is the correct one for that sentence and circle the letter which is placed before it.

Here is an example:

Question:
The dog walked A. fastly  
B. most slow  along the road.  
(C) slowly

The correct alternative is "slowly" and therefore you should circle C.

Now turn over and do the following questions.
Peter and John were not sure how they should spend the afternoon. John asked:

"I would very much like to get tired", answered his brother. They then talked about how much food they should take with them. "We do not need a lot", one of them said. "We need only few pieces of bread, and water," 
"We came to a meadow which they thought was a good place for a picnic. But they met the animal they had never seen. He was very much bigger than a bull. They were very badly frightened and they ran home as fastly as they could and arrived late.

On his feet were some old blue boots, such as every man wore in this country.

While Dorothy was looking into the funny painted face of the scarecrow, she was surprised to see one of the eyes slowly wink at her. 1. This test has a lot of different questions, which are divided into sections.

2. Before each section, special instructions are given, as well as one or two examples which show how to answer the problems. Read the examples carefully before you begin each section.

3. If you do not understand what you are asked to do, raise your hand and the examples will be explained to you.

4. Work fast, but carefully. Do not spend too much time on a single question. Answer all questions. If you are not sure of the answer, you can guess.

5. Most questions have only one right answer. For some questions, however, you are asked to choose the best of the correct answers. These will be made clear to you at the beginning of the section.

6. Do not turn this page until you are told to do so.
DIRECTIONS

In this test you are asked to match words which are opposite in meaning. You have two columns of words - those on the left have letters before them, and those on the right have numbers before them. There is a blank column between these two columns of words. Find the two words which are opposite in meaning and in the blank column put the number of the word which is opposite in meaning to the word which is lettered a, the number of the word which is lettered b, and so on, so that every one of the five words in the left hand column has a number after it in the blank column.

Here is an example:

<table>
<thead>
<tr>
<th>a. high</th>
<th>b. white</th>
<th>c. hard</th>
<th>d. fast</th>
<th>e. dry</th>
<th>1. soft</th>
<th>2. slow</th>
<th>3. wet</th>
<th>4. black</th>
<th>5. low</th>

ENGLISH AS A FOREIGN LANGUAGE

Population II

Sub-Tests 11 and 12 (Listening)

Booklet containing text to be translated and inserted on tape and also text of English already on tape.

The tape script is in this booklet. The parts with a line down the left-hand margin are to be translated into the mother-tongue, recorded and then spliced in the appropriate place onto the tape which has been sent to you and which includes the spoken English only. The text of the spoken English is also included in this booklet for your information. There are no lines next to the English texts which are already on the tape.

Note

Please note that within the passages to be translated into the mother-tongue there are sample questions and answers. These, of course, will have to remain in English and will have to be recorded in English at the National Center.
Dictation

In this test you will hear a short piece of prose read to you in English. After the passage has been read through once, it will be repeated in short sections of two or three words at a time. After each short section you will be given time to write down as correctly as you can what you have heard. It will then be read through a third time, and you can then, if you wish, correct your copy. There is no need to hurry. Please write legibly.

Now listen to this first reading:

Mary's Birthday

Mary decided to have a small party for her birthday. So she invited five of her schoolfriends, and also two of her cousins. Mary's mother baked a beautiful cake for her daughter's birthday and stuck ten candles on it. All the guests who came to her party brought her a birthday present. She received a pretty blouse that she liked very much. Another friend brought her a lovely book with pretty pictures in it. The book was about a little girl and her family. Mary enjoyed the book very much. That night before going to bed Mary kissed her mother and thanked her for arranging such an enjoyable party.

END OF TEST
1. This test has a lot of different questions, which are divided into sections.

2. Before each section, special instructions are given, as well as one or two examples which show how to answer the problems. Read the examples carefully before you begin each section.

3. If you do not understand what you are asked to do, raise your hand and the examples will be explained to you.

4. Work fast, but carefully. Do not spend too much time on a single question. Answer all questions. If you are not sure of the answer, you can guess.

5. Most questions have only one right answer. For some questions, however, you are asked to choose the best of the correct answers. These will be made clear to you at the beginning of the section.

6. Do not turn this page until you are told to do so.

If the stress is on the same syllable in the first and second words, circle A; if in the first and third words, circle B; if the stress comes on the same syllable in the second and third words, circle C. If the three words have the stress on the same syllable, circle D; and if the stress comes on different syllables in each of the three words, circle E.

John O'Connor flew in to Shannon airport in the west of Ireland. He was returning after fifteen years in America, and he went by car to the little village where he had lived as a boy.

Gone was the sleepy Ireland he remembered. The first thing he saw in the village was a new transistor factory started by some Japanese. In the local pub he happened to meet his old friend, Riley, who told him that since 1958, industries, built largely with foreign money, had been growing up all over the place. He pointed to the Dutch piano factory on the other side of the river. Riley's daughter was working as a secretary in an American carpet factory a few miles away and had to go there by bus every day. There were French and English factories too, but the Germans dominated and were also buying up a lot of land. On the whole, the villagers did not mind these invaders, although old Riley had not been very pleased when he found a locked gate kept him away from his favourite fishing ground.

They hoped that the tourists would still come for the fishing, and at the local hotel, which once had only packed lunches and boiled mutton to offer the visitors, they now had a menu worthy of a Paris restaurant. O'Connor was surprised when he got an American sized beef steak there one day. Life in the old country was definitely improving.

(i) Most of the foreigners who had come to Ireland were:
A. Americans,
B. English,
C. French,
D. Germans,
E. Irish.

(ii) Riley's daughter:
A. lived a few miles away,
B. worked on the other side of the river,

A. saw his friend across the river,
B. arranged to meet his friend,
C. visited a Dutch piano factory,
D. found his friend in the pub,
E. had often been to the pub since 1958.
On his return to Ireland O'Connor found that:

A. Ireland was sleepy,
B. his friend was working in a Dutch factory,
C. there were more foreign industries,
D. his friend had been building industries with foreign money,
E. there were more Irish industries.

A good name for this passage is:

A. Sleepy Ireland,
B. A Flying Visit,
C. Ireland for the Irish,
D. An American Visitor,
E. Ireland Awakes.

The Irish villagers:

A. were not unfriendly towards the foreigners,
B. bought land and went fishing,

DIRECTIONS:

Choose from the list of words following this passage the one word or phrase which can best be used in place of the word or phrase underlined. The underlined word or phrase is numbered. More than one may be correct, but you are asked to decide which is the most suitable as well as correct.

EXAMPLE:

The first phrase which is underlined in the passage is conscious of. It is marked (X) because it is used as an example. Look for the answer marked X after the passage. From the five alternatives given, choose the one which can be substituted for "conscious of". This is "aware of". Therefore you should put a ring around C. Now continue with the passage.
No girl is more conscious of her outward appearance, lavishes more care on her looks, than the typical American girl of suburb or city. From the age of fourteen or earlier, her store of cosmetics swells, her clothes budget rockets her experimentations with her hair, face, nails, skin, body assume obsessive proportions.

And here probably is where the rule of diminishing returns sets in. The more she thinks of herself, the more she lavishes care on herself, the less she gives to others.

Watch her sometimes on a date, or on the street, or at a party. See how often she pats her hair, strains for glimpses of herself in a mirror, smoothes her dress, assumes poses of allure.

She may be talking to a man and looking at him: but behind this outward attention the gaze is inward: How do I look? How am I doing? Rather than: What does he like? What is he like?

And the perceptive man knows this. This is what he means when he says, often to our annoyance, that European and Asian women are more feminine, that they flatter a man's ego. He maintains that these girls are more interested in him than they are in themselves. And if the American girl objects that this is nonsense, the reminder could be that, certainly, the American girl is interested in him as an accessory, a potential husband, and instrument of security, rather than as a fellow individual - himself. She has learned the lessons of the self-confident advice-givers, the women who write books and syndicated columns on the fine art of snaring the male, by hook or by crook.

DIRECTIONS:

The object of this test is to construct a paragraph on "Magazines and Civilisation". Each of the eleven groups of sentences has four sentences and you are asked to select one sentence from each of the groups. The test is one of style: all the sentences are correct but one sentence in each of the groups is better than the others from the point of view of vocabulary and the order of the words.

In order to help you choose the best sentence please read the first group of four sentences.

A. A conspicuous feature of the great railroad terminals of the world is the newspaper and magazine stand.
B. In the great railroad terminals of the world is to be found a conspicuous feature - the newspaper and magazine stand.
C. The newspaper and magazine stand of the great railroad terminals of the world is a conspicuous feature.
D. In the great railroad terminals of the world is to be found the newspaper and magazine stand, which is a conspicuous feature.

The sentences are all the same in meaning and they state that a very easily seen object on the platforms of the great railway stations of the world is the stand where magazines are sold. There is one sentence which states this fact clearly and simply and that is the first sentence. All the other three sentences are poor sentences, either because the order of the words is awkward, or because there is repetition or ambiguity. Therefore you would choose the first sentence in the group and circle A.

Now choose the sentence in every group which is most like this first sentence in style. Circle the letter A, B, C or D according to which you choose in each group.

Now turn over and continue.

He has learned at school to look to the right and to the left before crossing the road. His mother is glad that he is so careful. Question: (i) How does John's mother feel because John is careful?

Now turn over and work through the questions which follow.
16. The favourite occupation of many thousands of English families is sailing. England has a very long coastline with many harbours and estuaries which are sheltered from the ocean and make ideal stretches of water for sailing in small boats. Most amateur sailors belong to sailing clubs, from which they can borrow boats. Many people have also small sailing boats of their own which can easily be handled by one or two persons.

There is no more delightful way of spending a summer afternoon than taking out a boat and gliding gently along over the blue water. You have escaped from the town, with its noise and crowds of hurrying people. You are by yourself or with a chosen friend. The wind fills the sails and the little craft moves along without effort. The only sound to be heard is the gentle splash of the waves as the bow cuts through them.

Most sailing boats have two triangular sails: a big one called the mainsail and a small one called the jib. The mainsail is behind the mast and the jib is in front of it. The bottom of the mainsail is attached to a kind of horizontal mast called a boom. The ropes which are used to hoist and lower the sails are called halyards. The ropes which are used to let out or draw in the sails, according to the direction and strength of the wind are known as sheets.

(i) There are many amateur sailors in England because:

A. there are so many sailing boats,
B. Englishmen like moving along without effort,
C. there are good harbours sheltered from the sea,
D. England has many large lakes,
E. Englishmen do not like motor boats.

(ii) The bow is the same as:

A. the back part of the boat,
B. the horizontal mast,
C. the upper part of the mainsail,

E. a type of sailing boat.
(iii) When hoisting the mainsail, you have to use:

A. the jib,
B. the halyard,
C. the boom,
D. the sheets,
E. the splash.

(iv) Sailing is attractive because it is:

A. cheap,
B. peaceful,
C. dangerous,
D. expensive,
E. safe.
John O'Conner flew in to Shannon Airport in the west of Ireland. He was returning after fifteen years in America, and he went by car to the little village where he had lived as a boy.

Gone was the sleepy Ireland he remembered. The first thing he saw in the village was a new transistor factory started by some Japanese. In the local pub he happened to meet his old friend, Riley, who told him that since 1958 industries, built largely with foreign money, had been growing up all over the place. He pointed to the Dutch piano factory on the other side of the river. Riley's daughter was working as a secretary in an American carpet factory a few miles away in the other direction and had to go there by bus every day. There were French and English factories too, but the Germans dominated and were also buying up a lot of land. On the whole, the villagers did not mind these invaders, although old Riley had not been very pleased when he found a locked gate kept him from his favourite fishing ground.

They hoped that the tourists would still come for the fishing, and at the local hotel, which once had only packed lunches and boiled mutton to offer to the visitor, they now had a menu worthy of a Paris restaurant. O'Conner was surprised one day when he got an American sized beef-steak there. Life in the old country was definitely improving.

(1) Most of the foreigners who had come to Ireland were:
   A. Americans,
   B. English,

   A. saw his friend across the river,
   B. arranged to meet his friend,
   C. visited a Dutch piano factory,
   D. found his friend in the pub,
   E. had often been to the pub since 1958.
(iv) On his return to Ireland O'Conner found that:

A. Ireland was sleepy,
B. his friend was working in a Dutch factory,
C. there were more foreign industries,
D. his friend had been building industries with foreign money,
E. there were more Irish industries.

(v) A good name for this passage is:

A. Sleepy Ireland,
B. A Flying Visit,
C. Ireland for the Irish,
D. An American Visitor,
E. Ireland Awakes.

(vi) The Irish villagers:

A. were not unfriendly towards the foreigners,

The bell rang at two o'clock, but while the boys marched into school for their lessons, the girls got into the bus which was standing outside the school yard, glad that it was their turn to visit the swimming-pool in the nearby town. The bus driver joked with them "All fares, please!", as they got in and pretended to collect money, but everyone was quiet while Miss Brown made sure that all the pupils were present. As the bus moved off they grinned out of the windows at the boys, who had to wait till the following Thursday for their baths, began a sing-song and settled down to enjoy the ride.

Twenty minutes later the bus came to a standstill in the centre of the town opposite a modern building which stood opposite the cinema. One of the older girls led the way to the ticket office and by the time that Miss Brown reached it, all of her pupils had paid their sixpences and had gone down to the basement to change. A man in uniform came through a door over which were the words "to the pool", and said to Miss Brown that if she would wait a minute, he would fetch a scarf which one of the boys had left upstairs in their dressing room the week before.

The sun shone through the glass roof above the pool of green water. In each corner of the hall were stairs up to seats where the public could sit and watch. The girls began to appear in their bathing suits and caps, but they could not yet jump into the water. First they went to the wash room where they had a lot of fun under the showers until Miss Brown came, and then they had to hurry up.

Two men, dressed in thick white pullovers, blue trousers and rubber boots, came out of the office as soon as the girls were in the water. The younger of the two men walked up to the deep end where some of the girls were already swimming, but the other stayed at the shallow end where most of the pupils were eagerly waiting to show him what they could remember from his last lesson two weeks ago. Four new girls still stood beside the pool, too frightened to go in. Miss Brown spoke to them gently and at last succeeded in getting them into the water beside her where they played games and grew a little less afraid.

Sub-test VII

SECTION A

DIRECTIONS:

In this test you are given a sentence from which a word or several words have been omitted. Following this sentence you are given four alternatives from which you have to choose the one which you think could be used most suitably to fill the blank in the key sentence. When you have chosen the correct answer circle the letter placed in front of your choice, that is A or B or C or D.

EXAMPLE:

Questions: Because he had little education his knowledge of the subject was ______.

Answer: A. limited

The sentence is best completed by choice A and the sentence would then read:
Because he had little education his knowledge of the subject was limited.

As you see from this example the test is one of style not of correct grammar. For instance "small in quantity" would be correct but no one who speaks English well would use that phrase in such a sentence. What you have to do therefore is to decide not only what is correct but what a speaker of good English would normally use.

DIRECTIONS:

In each item you are given a passage and sets of questions upon the passage. Choose the correct alternative as an answer to each of the questions and put a ring around the letter next to it. Here is an example:

Passage: There is a lot of traffic in London, and John is very careful. He looks first to the right and then to the left and then to the right again. Then he crosses the road. Do we, then, consider Bentham's political speculations useless? Far from it. We consider them only one-sided. He has brought out into a strong light, has cleared from a thousand confusions and misconceptions, and pointed out with admirable skill the best means of promoting, one of the ideal qualities of a perfect government — identity of interest between the trustees and the community for whom they hold their power in trust. This quality is not attainable in its ideal perfection, and must, moreover, be striven for with a perpetual eye to all other requisites; but those other requisites must still more be striven for, without losing sight of this; and, when the slightest postponement is made of it to any other end, the sacrifice, often necessary, is never unattended with evil. Bentham has pointed out how complete this sacrifice is in modern European societies; how exclusively, partial and sinister interests are the ruling power there, with only such check as is imposed by public opinion; which being thus, in the existing order of things, perpetually apparent as a source of good, he was led by natural partiality to exaggerate its intrinsic excellence. This sinister interest of rulers, Bentham hunted through all its disguises and especially through those which hide it from the men themselves who are influenced by it.

(i) The writer thought Bentham's ideas:
   A. interesting,
   B. unpracticable,
   C. biased.

(ii) Bentham:
   A. advanced novel ideas,
   B. expressed more clearly ideas that have always been important,
   C. was confused in his thinking.

(iii) According to the writer, good government involves:
   A. doing what the rulers demand,
   B. agreement by the rulers with the views of the people,
   C. partnership between the people and rulers.

(iv) Bentham said:
   A. good government has to take into account very many considerations and demands some sacrifices,
   B. sacrifice is unnecessary and evil,
   C. people do not need to strive a great deal to obtain good government.

(v) In Bentham's day the governments of Europe:
   A. were fair and just,
   B. favoured one group of people more than others,
   C. were only partly successful.
(vi) Bentham:

A. was opposed to the rulers of his time,
B. only described and did not criticise the political ideas of his time,
C. agreed with the views of the political leaders of Europe.

(vii) Misconceptions in this passage are:

A. prejudices,
B. poor people,
C. misunderstandings.

(viii) Other requisites in this passage are:

A. other things we need to buy,

DIRECTIONS:

Each question consists of five sentences, which are intended to make a paragraph. As the sentences stand at present they are not in a suitable order to make an intelligible paragraph and you are asked to put these sentences in a suitable order.

If the order of the sentences is:

2, 1, 3, 5, 4 circle A
2, 4, 3, 1, 5 circle B
2, 5, 3, 1, 4 circle C
3, 2, 4, 1, 5 circle D
3, 5, 4, 1, 2 circle E

EXAMPLE:

Answer: A. 2, 1, 3, 5, 4

C. 2, 5, 3, 1, 4

E. 3, 5, 4, 1, 2

The writer of the paragraph is referring to a book, (2 "Here is a book") and he says that it is good (5 "It is a remarkable book"). He then goes on to tell us what the book is about (3 "It examines the main aspects of European policy"). It also does something else (1 "It examines the personalities") and then the book, we are told (4 "relates these two things"). The order of the sentences for the paragraph would be therefore: 2, 5, 3, 1, 4. So you should circle E.

   2. We went to church twice on Sunday.

A. 2, 1, 3, 5, 4
B. 2, 4, 3, 1, 5
C. 2, 5, 3, 1, 4

   5. It will not be long before the line pulls.

A. 2, 1, 3, 5, 4
B. 2, 4, 3, 1, 5
C. 2, 5, 3, 1, 4
D. 3, 2, 4, 1, 5
E. 3, 5, 4, 1, 2

12. 1. Dickens’ A Tale of Two Cities adds a historical setting to adventure.
   2. Of course, many boys prefer the traditional tales of old, such as Robin Hood, or stories of King Arthur’s Court.
   3. There are many fine books for boys.
   4. If one prefers adventure to humour, the stories of R.L. Stevenson should please.
   5. Mark Twain, for example, has written stories such as Tom Sawyer containing a gentle humour.

A. 2, 1, 3, 5, 4
B. 2, 4, 3, 1, 5
C. 2, 5, 3, 1, 4
D. 3, 2, 4, 1, 5
E. 3, 5, 4, 1, 2
1. This test has a lot of different questions, which are divided into sections.

Sub-test VIII

SECTION A

DIRECTIONS:

In each of the items of the following test an adjective is given on the left hand side and to the right of that word are printed a column of five nouns. In each item four of the nouns can be used quite appropriately with the adjective but one noun would be wrong. Decide which of the nouns would be wrong if it were used with the adjective on the left hand side, and circle the letter which is placed before that noun.

EXAMPLE:

Sweet A. drink  B. girl  C. chocolate  D. smile  E. flight

It would be quite correct to speak of a sweet drink, or a sweet girl or a sweet chocolate, or a sweet smile, but no one would usually speak of a sweet flight. Therefore you would circle E because E is the wrong noun to use with that adjective.

SECTION C

DIRECTIONS:

In this test you are given a sentence from which a word or several words have been omitted. Following this sentence you are given four alternatives from which you have to choose the one which you think could be used most suitably to fill the blank in the key sentence. When you have chosen the correct answer circle the letter placed in front of your choice, that is A or B or C or D.

EXAMPLE:

Questions: Because he had little education his knowledge of the subject was ________.

Answer: A. limited
         B. small in quantity
         C. minor
         D. not large at all.

The sentence is best completed by choice A and the sentence would then read:

Because he had little education his knowledge of the subject was limited.

As you see from this example the test is one of style not of correct grammar. For instance "small in quantity" would be correct but no one who speaks English well would use that phrase in such a sentence. What you have to do therefore is to decide not only what is correct but what a speaker of good English would normally use.

Now work through the following items.
28. Many of these cylinders used to have minor flaws _____.
   A. and which are now detected by x-ray.

DIRECTIONS:

Each question consists of five sentences, which are intended to make a paragraph. As the sentences stand at present they are not in a suitable order to make an intelligible paragraph and the question you are asked is to put these sentences in a suitable order. If the order of the sentences is

2,1,3,5,4 circle A
2,4,3,1,5 circle B
2,5,3,1,4 circle C

B. 2,4,3,1,5

The writer of the paragraph is referring to a book (2, "Here is a book") and he says that it is good (5. "It is a remarkable book"). He then goes on to tell us what the book is about (3. "It examines the main aspects of European policy"). It also does something else (1."It examines the personalities etc."), and then the book, we are told, (4."relates these two things"). The order of the sentences for the paragraph would be therefore 2,5,3,1,4. So you should circle C.

SUB-TEST 9

Section A

In each of these questions you will see a picture and while you are looking at the picture you will be asked to listen to three words being spoken to you. Listen carefully and then decide which of the three words you have heard is the correct one to use with the picture you were looking at. If it is the first word, circle A on your score sheet; if it is the second word, circle B, and if it is the third word, circle C. You will now have an example before you try the questions.

Example: Look at your booklet and you will see as an example a picture of a 'lock'. At the same time you will hear the words: 'look', 'lack', and 'lock'. The third word is the correct one to use with the picture, so you would circle C.

Now look at the first picture of the questions and listen for the first three words.

16. A. wash  B. waltz  C. watch
Sub-Test 9

Now look at Section F.

In each question in this test you will hear a sentence. The voice may rise or it may fall towards the end of the sentence, and at the same time a word or two words may be emphasised within the sentence. You are being asked to decide, for each sentence that you hear, whether the voice rises or falls and whether a word or a group of words is emphasised or not. If the voice falls and there is also emphasis, circle A; if the voice falls and no words are emphasised, then circle B. If the voice rises and words are emphasised, circle C, and if the voice rises and no words are emphasised, then circle D.

Here is an example. Listen:

"I will never sing it again".

In the sentence you have just heard, the voice falls towards the end and the word never was emphasised. So you would mark A.

Now listen to the following sentences and do the same.

1. Where do you come from?
2. Where do you come from?
3. When is our meeting?
4. What's the time?
5. Did you say, "What's the time?"
6. Good Morning.
7. Do you believe that?
8. I doubt it very much indeed.

15. Is he older than you and John?
Sub-Test 9

Now look at Section C.

In this test you will hear for each item, a sentence, or a short paragraph. In your test booklet you will also see for each item three statements. Select the one which you think is the correct answer, and circle A, B or C, according to whether the correct sentence is the first, second, or the third.

Here is an example. Listen to this sentence:

"If I had expected to hear a good singer, I would have been disappointed."

Now in your booklet, you will find that of the three sentences, the second is the correct answer, because in the sentence you heard, the speaker suggested that he had not expected a good singer, and that he was therefore not disappointed with the one he heard. Therefore, you would circle B.

Now listen to the questions and answer them by circling your answers in your booklet.

1. There are ten boys in the class. Most of the boys are going to the concert.
2. This is September. Dr. Smith has been in the United States two months.
3. John said to Charles, "Please remind me to telephone the doctor."

If the first is correct, circle A; if the second, circle B; if the third circle C; if the first and second are correct, circle D; if the second and third are correct, circle E.

In each of the questions in this test you will hear three words. Listen carefully and decide whether the three words are the same, or whether they are different. Sometimes the first and the second are the same. If so, circle A. Sometimes the first and third are the same, if so, circle B. If the second and third are the same circle C. If they are all the same, circle D, and if they are all different, circle E. Here is an example. Listen to these three words:

   it    eat    it

The first word is the same as the third, so you would circle B. Here is another example:— Listen to these three words:

   take  take  take

All three words are the same, so you would circle D.

The test begins now.

Note to National Centers: To see the words spoken in English on the tape for this Section, please refer to Section B of Sub-Test 12 for Population II. The tests are the same.
Sub-Test 10

Now look at Section B.

In each of the following questions, you will hear a sentence and at the end of the sentence, one word will be repeated. Listen carefully, and then look at your test booklet where you will see printed three sentences relating to each of the sentences you have listened to. Only one of the three printed sentences is a correct interpretation of the key sentence. Choose the correct alternative and circle A or B or C according to whether the correct sentence is the first the second or the third.

Here is an example. Listen to this sentence and the word which is repeated:

"My father always uses a pen." Repeat "pen".

In your booklet you will read three sentences. The correct one is "My father likes to write" because the word pen refers to something with which we write. So you would circle B.

Now listen to the first sentence of the test.

1. The lady said it was a lovely tale. tale

10. We knew straight away he was sinking sinking
Now look at Section C.

In each of the items of the following test two young people, Ann and Bill, are having a conversation. After each item of conversation you will be given three statements, which you should listen to very carefully. Sometimes only one statement is correct, sometimes two of them are correct. If the first is correct, circle A; if the second, circle B; if the third circle C; if the first and second are correct, circle D; if the second and third are correct, circle E.

Here is an example. Listen to the following conversation:

Ann  "I don't like mathematics, it's so difficult."
Bill  "I don't agree at all, I must say."

You will then hear three statements:

A. Ann doesn't like mathematics.
B. Bill likes mathematics.
C. Ann and Bill don't like mathematics.

In the conversation we heard Ann say that she didn't like mathematics, and Bill say that he thought differently. Therefore the first and second are both correct, and you should circle D.

Now the test begins. Listen to this first piece of conversation.

1. Ann  Do you know something? I'm going to give a party and invite Dick, too. He should forget about Latin and see people for a change.
Bill  It's a magnificent idea. I hope he doesn't feel embarrassed about failing his Latin exams.
A. Dick has spent a lot of time on Latin.
B. Dick wanted to give a party.
C. Bill knew that Dick wouldn't like Ann's plan.

2. Ann  I don't think we need to worry about that. After all, we all know each other.
Bill  You'd better make sure that nobody ever mentions Latin during the party. That would spoil everything.
A. Ann is worried about how the party will succeed.
B. Bill feels worried about how the party will succeed.
C. Ann thinks that Bill will spoil the party.
3. **Ann**
   I'll take care of that. I'll call on everybody personally and tell them to mind what they say.

   **Bill**
   Fine. But don't let them get the impression that they're supposed to sit tongue-tied all the time.

A. Ann wants somebody to make a speech.
B. Ann is going to make several phone calls.
C. Bill doesn't want the guests to be silent.

4. **Ann**
   A party like that takes a lot of preparation. I'll need somebody to decorate the house.

   **Bill**
   You can count on me.

A. Ann is going to do everything by herself.
B. Ann is going to decorate the house.
C. Bill is going to decorate the house.

5. **Ann**
   Oh! I can't ask you to do that.

   **Bill**
   Well, if you insist.

A. Ann won't allow Bill to help her.
B. Bill is glad to help Ann.
C. Ann asked Bill to help her.

6. **Ann**
   I appreciate it, Bill. I really do. There are a thousand things to attend to before everything is ready for the party.

   **Bill**
   That's something we men can never understand. Why on earth should women take so much trouble in arranging a party for old friends.

A. Ann finds it an easy task to give parties.
B. Bill thinks that arranging parties for old friends should be simple.
C. Bill says that parties are a nuisance.

7. **Ann**
   Yes, you men are all alike. You can't possibly understand that our honour as a hostess is at stake. Yet it is the most simple fact in the world. Even you should realize that.

   **Bill**
   We don't judge people by what kind of parties they give. Other things weigh more in our judgment.

A. Bill says that parties are a heavy burden.
B. Ann claims that parties are very important for women.
C. Ann says that all men look exactly like each other.
8. **Ann**
   Let's not talk about that. We shouldn't argue about matters of taste. It is a matter of taste, isn't it?

   **Bill**
   Well, I grant you that in a sense it is.

   A. Ann doesn't want to talk to Bill.
   B. Ann claims that Bill has no taste.
   C. Bill says that Ann is partly right.

9. **Ann**
   Do let's talk about something else, Have you read or heard anything interesting?

   **Bill**
   Rather. What do you think of Senator MacTavish's speech last night? Wasn't it something?

   A. Bill says that he has not read anything interesting
   B. Bill thinks that the Senator's speech was good.
   C. Bill says that the Senator's speech was worth nothing.

10. **Ann**
    Politics! Don't you know by now that I'm not keen on politics. It's just simply beyond me.

    **Bill**
    Nonsense! Politics is really a simple game when you observe it closely. It's mostly repetition of old phrases.

    A. Bill claims that women can't understand politics.
    B. Ann claims that she is not interested in politics.
    C. Ann thinks that politics is for simple people, only.
SECTION A

In the questions that follow you are asked to listen carefully to the way the voice rises and falls in the sentences to be repeated to you. You will hear in each question three sentences the words of which all are the same. Sometimes the voice of the speaker rises and falls in the same way in two sentences, sometimes in all three, and sometimes it will rise and fall differently in all three sentences. If the first and second are the same, circle A; if the first and third, circle B, if the second and third, circle C. If all three are the same, circle D, and if they are all different, circle E. Here is an example:

A. He's often very sleepy.
B. He's often very sleepy.
C. He's often very sleepy.

A and C are the same, so you should circle B.

1. A. Helen lives at home.
   B. Helen lives at home.

   B. It rains in August.
   C. It rains in August?

Sub-Test 11

Now look at Section B.

In each item of this test you will hear a sentence and you will read in your test booklet three sentences only one of which is a correct interpretation of the sentence you heard. Listen carefully to the key sentence and then choose whichever of the three sentences in your booklet is the correct interpretation and circle A or B or C according to whether the first, the second, or the third is correct.

Here is an example. Listen to this sentence:

"I have seen you somewhere before".

In your booklet you will find that the third is correct, since "I have seen you" is the same as "I have met you". Therefore you would circle C.

Now listen to the following sentences and circle the letter next to the correct interpretations in your booklet.

1. The man was blind.
2. It is only a little way to go.
3. He was walking along very fast.

If the first and second are the same circle A, if the first and third circle B, if the second and third, circle C, if all three are the same circle D, and if they are all different, circle E.

Here is an example:–

Now turn to Section B.

In each item of this test you will hear a sentence, and you will read in your test booklet three sentences only one of which is a correct interpretation of the sentence you heard. Listen carefully to the key sentence and then choose whichever of the three sentences in your booklet is the correct interpretation, and circle A, or B or C, according to whether the correct sentence is the first, second, or third.

Here is an example. Listen to the sentence:

"The visitor has to go".

Here is an example. Listen to this sentence:

END OF TEST
The Writing and Speaking tests for both Populations II and IV are not yet ready. These will be sent as an Addendum to this Bulletin when they are ready.
CIVIC EDUCATION
Directions:

Each of the questions or incomplete statements in this test is followed by several suggested answers. You are to decide which one of these answers is best.

You must mark all your answers on the separate answer sheet you have been given. This test booklet should NOT be marked in any way. You will have about 40 minutes (one class period) to answer the 36 questions in this test. This is NOT a test on which you will be graded. Therefore, do NOT guess at any answer unless you are fairly sure that you know the answer. If you are unsure of the answer simply leave it blank or check the Do Not Know response, if there is one for that question. You must mark your answer sheet by blackening the space having the same letter as the answer you have chosen. For example:

1a Which one of the following is an animal?
1. Bed
2. Dog Sample Answer
3. Chair
4. Box
5. Table

Since a dog is an animal, you should choose the answer numbered 2. On your answer sheet, you would first find the row of spaces numbered the same as the question - in the example above, it is 1a. Then you would blacken the space in this row which has the same letter as the answer you have chosen. This is how the example should be marked on your answer sheet:

1a 1 2 3 4 5

Make your answer marks heavy and black. Mark only one answer for each question. If you change your mind about an answer, be sure to erase the first mark completely. Do NOT spend too much time on any one question. If a question seems too difficult, go on to the next one.

Now here are some other sample questions:

Questions 2a and 2b refer to the following foods. Match the food with the animal who produces the food.

2a Cows produce
1. Eggs
2. Milk
3. Wine
4. Apples
5. Fish Sample Answer

In answer to question 2a answer 2 is marked because cows produce milk;

2b Chickens produce
1. Eggs
2. Milk
3. Wine
4. Apples
5. Fish Sample Answer

In answer to question 2b answer 1 is marked because chickens produce eggs;
Here is another kind of question which you will see in this test:

Only four of the following are national capitals.

3a Which one is NOT the capital city of its country?

1. Paris, France
2. New Delhi, India
3. Barcelona, Spain
4. Moscow, U.S.S.R.
5. Oslo, Norway

The answer to this question is 3, because each of the other four cities is a capital city. Madrid is the capital of Spain. Therefore Barcelona is NOT the capital city of its country, Spain - so the correct choice is 3.

You are now ready to begin the test. Do NOT turn the page to begin the test until you are told to do so.

Directions:

Each of the questions or incomplete statements in this test is followed by several suggested answers. You are to decide which one of these answers is best.

You must mark all your answers on the separate answer sheet you have been given. This test booklet should NOT be marked in any way. You will have about 40 minutes (one class period) to answer the 36 questions in this test. This is NOT a test on which you will be graded. Therefore, do NOT guess at any answer unless you are fairly sure that you know the answer. If you are unsure of the answer simply leave it blank or check the Do Not Know response, if there is one for that question. Civic Education Pretest Form II A

Directions:

Each of the questions or incomplete statements in this test is followed by several suggested answers. You are to decide which one of these answers is best.

You must mark all your answers on the separate answer sheet you have been given. This test booklet should NOT be marked in any way. You will have about 40 minutes (one class period) to answer the 46 questions in this test. This is NOT a test on which you will be graded. Therefore, do NOT guess at any answer unless you are fairly sure that you know the answer. If you are unsure of the answer simply leave it blank or check the Do Not Know response, if there is one for that question. You must mark your answer sheet by blackening the space having the same letter as the answer you have chosen. For example:

1a Which one of the following is an animal?

1. Bed
2. Dog
3. Chair
4. Box
5. Table

Sample Answer

1a 1 2 3 4 5

Since a dog is an animal, you should choose the answer numbered 2. On your answer sheet, you would first find the row of spaces numbered the same as the question - in the example above, it is 1a. Then you would blacken the space in this row which has the same letter as the answer you have chosen. This is how the example should be marked on your answer sheet:

1a 1 2 3 4 5

Make your answer marks heavy and black. Mark only one answer for each question. If you change your mind about an answer, be sure to erase the first mark completely. Do NOT spend too much time on any one question. If a question seems too difficult, go on to the next one.

Now here are some other sample questions:

Questions 2a and 2b refer to the following foods. Match the food with the animal who produces the food.

2a Cows produce

1. Eggs
2. Milk
3. Wine
4. Apples
5. Fish

Sample Answer

2a 1 2 3 4 5

2b Chickens produce

1. Eggs
2. Milk
3. Wine
4. Apples
5. Fish

Sample Answer

2b 1 2 3 4 5

In answer to question 2a answer 2 is marked because cows produce milk; in question 2b, 1 is marked because chickens produce eggs.
Here is another kind of question which you will see in this test:

Only four of the following are national capitals.

3a Which one is NOT the capital city of its country?
   1. Paris, France
   2. New Delhi, India.
   3. Barcelona, Spain
   4. Moscow, U.S.S.R.
   5. Oslo, Norway

The answer to this question is 3, because each of the other four cities is a capital city. Madrid is the capital of Spain. Therefore Barcelona is NOT the capital city of its country, Spain - so the correct choice is 3.

You must mark all your answers on the separate answer sheet you have been given. This test booklet should NOT be marked in any way. You will have about 40 minutes (one class period) to answer the 46 questions in this test. This is NOT a test on which you will be graded. Therefore, do NOT guess at any answer unless you are fairly sure that you know the answer. If you are unsure of the answer simply leave it blank or check the Do Not Know response, if there is one for that question. 46. How long has it taken you to do this test? Write your answer in Arabic numerals on your answer sheet (For example, 35 minutes and so forth).
Directions:

Each of the questions or incomplete statements in this test is followed by several suggested answers. You are to decide which one of these answers is best.

You must mark all your answers on the separate answer sheet you have been given. This test booklet should NOT be marked in any way. You will have about 40 minutes (one class period) to answer the 46 questions in this test. This is NOT a test on which you will be graded. Therefore, do NOT guess at any answer unless you are fairly sure that you know the answer. If you are unsure of the answer simply leave it blank or check the Do Not Know response, if there is one for that question. You must mark your answer sheet by blackening the space having the same letter as the answer you have chosen. For example:

1a Which one of the following is an animal?

   1. Bed
   2. Dog
   3. Chair
   4. Box
   5. Table

Sample Answer

1a □ 2 □ 3 □ 4 □ 5

Since a dog is an animal, you should choose the answer numbered 2. On your answer sheet, you would first find the row of spaces numbered the same as the question - in the example above, it is 1a. Then you would blacken the space in this row which has the same letter as the answer you have chosen. This is how the example should be marked on your answer sheet:

1a □ 2 □ 3 □ 4 □ 5

Make your answer marks heavy and black. Mark only one answer for each question. If you change your mind about an answer, be sure to erase the first mark completely. Do NOT spend too much time on any one question. If a question seems too difficult, go on to the next one.

Now here are some other sample questions:

Questions 2a and 2b refer to the following foods. Match the food with the animal who produces the food.

2a Cows produce

2b Chickens produce

   1. Eggs
   2. Milk
   3. Wine
   4. Apples
   5. Fish

Sample Answer

2b □ 2 □ 3 □ 4 □ 5

In answer to question 2a answer 2 is marked because cows produce milk; in question 2b, 1 is marked because chickens produce eggs.
Here is another kind of question which you will see in this test:

3a Which one is NOT the capital city of its country?

1. Paris, France
2. New Delhi, India.

The answer to this question is 3, because each of the other four cities is a capital city. Madrid is the capital of Spain. Therefore Barcelona is NOT the capital city of its country, Spain — so the correct choice is 3.

Directions:

Each of the questions or incomplete statements in this test is followed by several suggested answers. You are to decide which one of these answers is best.

You must mark all your answers on the separate answer sheet you have been given. This test booklet should NOT be marked in any way. You will have about 40 minutes (one class period) to answer the 51 questions in this test. This is NOT a test on which you will be graded. Therefore, do NOT guess at any answer unless you are fairly sure that you know the answer. If you are unsure of the answer simply leave it blank or check the Do Not Know response, if there is one for that question. You must mark your answer sheet by blackening the space having the same letter as the answer you have chosen. For example:

1a Which one of the following is an animal?
   1. Bed
   2. Dog
   3. Chair
   4. Box
   5. Table

Sample Answer

Since a dog is an animal, you should choose the answer numbered 2. On your answer sheet, you would first find the row of spaces numbered the same as the question - in the example above, it is 1a. Then you would blacken the space in this row which has the same letter as the answer you have chosen. This is how the example should be marked on your answer sheet:

1a 1 2 3 4 5

Make your answer marks heavy and black. Mark only one answer for each question. If you change your mind about an answer, be sure to erase the first mark completely. Do NOT spend too much time on any one question. If a question seems too difficult, go on to the next one.

Now here are some other sample questions:

Questions 2a and 2b refer to the following foods. Match the food with the animal who produces the food.

2a Cows produce
   1. Eggs
   2. Milk
   3. Wine
   4. Apples
   5. Fish

Sample Answer

2a 1 2 3 4 5

2b Chickens produce
   1. Eggs
   2. Milk
   3. Wine
   4. Apples
   5. Fish

Sample Answer

2b 1 2 3 4 5

In answer to question 2a answer 2 is marked because cows produce milk; in question 2b, 1 is marked because chickens produce eggs.
Here is another kind of question which you will see in this test:

Only four of the following are national capitals.

3a Which one is NOT the capital city of its country?

1. Paris, France
2. New Delhi, India
3. Barcelona, Spain
4. Moscow, U.S.S.R.
5. Oslo, Norway

The answer to this question is 3 because each of the other four cities is a capital city. Madrid is the capital of Spain. Therefore Barcelona is NOT the capital city of its country, Spain - so the correct choice is 3.

Here is a final example of a type of question which you will see in this test:

4a Which of the following are the capital cities of their countries?

I. Paris, France
II. New Delhi, India
III. Barcelona, Spain
IV. Moscow, U.S.S.R.
V. Oslo, Norway

1. I and II only,
2. III and IV only,
3. II, III and V only,
4. I, II, IV and V only,
5. I, II, III, IV and V.

The answer to this question is 4, because each of these cities I, II, IV and V is a capital city. As we said in question 3a, Madrid is the capital of Spain, NOT Barcelona. Therefore, number III CANNOT be part of the right answer.

You are now ready to begin the test. Do NOT turn the page to begin the test until you are told to do so.

Speaker I: What is good for our big business is good for the country as a whole. Every time the national government raises corporate taxes, the nation as a whole suffers. The government ought to keep its hands off the private sector of the economy.

Speaker II: You are right. For the most part, the proper job of government is to encourage and support business, not to interfere or compete with it. Government competition with private enterprises is very harmful.

Speaker III: But there are times when some interference may be necessary. If the national government is to assure free and fair competition, it has to be concerned with the size and power of large business corporations.

Speaker IV: You do not get the point. It is not economically sound to try to dissolve or reduce the size of great industrial enterprises. Instead, the government should use its fiscal powers to prevent depressions, stimulate economic growth, and assure a degree of security for the average person.

Speaker V: The government, if controlled by the proletariat, should go much further. It should take over the ownership of all major businesses and industries. Then these government operated businesses can be run by the workers. In this way each worker can produce according to his ability and receive according to his needs.

Civic Education Pretest Form IV B

Directions:

Each of the questions or incomplete statements in this test is followed by several suggested answers. You are to decide which one of these answers is best.

You must mark all your answers on the separate answer sheet you have been given. This test booklet should NOT be marked in any way. You will have about 40 minutes (one class period) to answer the 51 questions in this test. This is NOT a test on which you will be graded. Therefore, do NOT guess at any answer unless you are fairly sure that you know the answer. If you are unsure of the answer simply leave it blank or check the Do Not Know response, if there is one for that question. You must mark your answer sheet by blackening the space having the same letter as the answer you have chosen. For example:

1a Which one of the following is an animal?
   1. Bed
   2. Dog
   3. Chair
   4. Box
   5. Table

Sample Answer

Since a dog is an animal, you should choose the answer numbered 2. On your answer sheet, you would first find the row of spaces numbered the same as the question - in the example above, it is 1a. Then you would blacken the space in this row which has the same letter as the answer you have chosen. This is how the example should be marked on your answer sheet:

1a □ 1 □ 2 □ 3 □ 4 □ 5

Make your answer marks heavy and black. Mark only one answer for each question. If you change your mind about an answer, be sure to erase the first mark completely. Do NOT spend too much time on any one question. If a question seems too difficult, go on to the next one.

Now here are some other sample questions:

   4. Apples
   5. Fish

Sample Answer

2b □ 1 □ 2 □ 3 □ 4 □ 5

In answer to question 2a answer 2 is marked because cows produce milk; in question 2b, 1 is marked because chickens produce eggs.
Here is another kind of question which you will see in this test:

Only four of the following are national capitals.

3a Which one is NOT the capital city of its country?

1. Paris, France
2. New Delhi, India
3. Barcelona, Spain
4. Moscow, U.S.S.R.
5. Oslo, Norway

The answer to this question is 3, because each of the other four cities is a capital city. Madrid is the capital of Spain. Therefore Barcelona is NOT the capital city of its country, Spain - so the correct choice is 3.

Here is a final example of a type of question which you will see in this test

4a Which of the following are the capital cities of their countries?

II. New Delhi, India

Directions:

Each of the questions or incomplete statements in this test is followed by several suggested answers. You are to decide which one of these answers is best.

You must mark all your answers on the separate answer sheet you have been given. This test booklet should NOT be marked in any way. You will have about 40 minutes (one class period) to answer the 51 questions in this test. This is NOT a test on which you will be graded. Therefore, do NOT guess at any answer unless you are fairly sure that you know the answer. If you are unsure of the answer simply leave it blank or check the Do Not Know response, if there is one for that question. You must mark your answer sheet by blackening the space having the same letter as the answer you have chosen. For example:

1a Which one of the following is an animal?

1. Bed
2. Dog
3. Chair
4. Box

Sample Answer

Since a dog is an animal, you should choose the answer numbered 2. On your answer sheet, you would first find the row of spaces numbered the same as the question - in the example above, it is 1a. Then you would blacken the space in this row which has the same letter as the answer you have chosen. This is how the example should be marked on your answer sheet:

Make your answer marks heavy and black. Mark only one answer for each question. If you change your mind about an answer, be sure to erase the first mark completely. Do NOT spend too much time on any one question. If a question seems too difficult, go on to the next one.

   The answer to this question is 4, because each of these cities, I, II, IV, and V is a capital city. As we said in question 3a, Madrid is the capital of Spain, NOT Barcelona. Therefore, number III CANNOT be part of the right answer.

Directions:

Each of the questions or incomplete statements in this test is followed by several suggested answers. You are to decide which one of these answers is best.

You must mark all your answers on the separate answer sheet you have been given. This test booklet should NOT be marked in any way. You will have 40 minutes (one class period) to answer the 51 questions in this test. This is NOT a test on which you will be graded. Therefore, do NOT guess at any answer unless you are fairly sure that you know the answer. If you are unsure of the answer simply leave it blank or check the Do Not Know response, if there is one for that question. You must mark your answer sheet by blackening the space having the same letter as the answer you have chosen. For example:

1a Which one of the following is an animal?

1. Bed
2. Dog
3. Chair
4. Box
5. Table

Sample Answer

Since a dog is an animal, you should choose the answer numbered 2. On your answer sheet, you would first find the row of spaces numbered the same as the question - in the example above, it is 1a. Then you would blacken the space in this row which has the same letter as the answer you have chosen. This is how the example should be marked on your answer sheet:

1a 2 3 4 5

Make your answer marks heavy and black. Mark only one answer for each question. If you change your mind about an answer be sure to erase the first mark completely. Do NOT spend too much time on any one question. If a question seems too difficult, go on to the next one.

Now here are some other sample questions:

Questions 2a and 2b refer to the following foods. Match the food with the animal who produces the food.

2a Cows produce:

1. Eggs
2. Milk
3. Wine
4. Apples
5. Fish

Sample Answer

2a 1 2 3 4 5
Chickens produce:

1. Eggs  
2. Milk  
3. Wine  
4. Apples  
5. Fish

Here is another kind of question which you will see in this test:

Only four of the following are national capitals.

3a. Which one is NOT the capital city of its country?

1. Paris, France  
2. New Delhi, India  
3. Barcelona, Spain  
4. Moscow, U.S.S.R.  
5. Oslo, Norway

The answer to this question is 3 because each of the other four cities is a capital city. Madrid is the capital of Spain. Therefore Barcelona is NOT the capital city of its country - Spain - so the correct choice is 3.

Here is a final example of a type of question which you will see in this test:

4a. Which of the following are the capital cities of their countries?

I. Paris, France  
II. New Delhi, India  
III. Barcelona, Spain  
IV. Moscow, U.S.S.R.  
V. Oslo, Norway

1. I and II only,  
2. III and IV only,  
3. II, III and V only,  
4. I, II, IV and V only,  
5. I, II, III, IV and V.

The answer to this question is 4, because each of these cities I, II, IV and V is a capital city. As we said in question 3a, Madrid is the capital of Spain, NOT Barcelona. Therefore, number III CANNOT be part of the right answer.

You are now ready to begin the test. Do NOT turn the page to begin the test until you are told to do so.

The following comments were made during a discussion of various governmental systems.

Speaker I: It seems to me that the most important factor in a stable government in a system like ours is the people. Unless a government serves all the people, it is not worthy of its purpose. Of equal importance is the establishment of guarantees so that the ordinary citizen is protected from any unwarranted interference with his civil liberties.

Speaker II: While I agree that what you describe might be a hoped for goal, we must face the reality that basically the majority of the people are ignorant and must be led. It is only by placing a strong leader in a position of complete authority that the nation can progress. Individual freedom is purely secondary. The important thing is the welfare of the state.

Speaker III: I agree that it is important to have a leader, but I think that you also have to be concerned about succession. You may lose whatever gains have been achieved if there is no one to carry on the policies of his predecessor. That is why a monarchy offers the ideal solution to the problems of government.

Speaker IV: I agree in part, but to place the burdens of caring for a group of people on the shoulders of one man seems unwise. Certainly, we can all agree that there is a group of people who are capable of ruling, and then there are the vast majority who must be ruled. True, this group is small, but it represents the best elements of a society, and it should be entrusted with caring for the welfare of the masses.

51. How long has it taken you to do this test? Write your answer in Arabic numerals on your answer sheet (For example, 35 minutes and so forth.)
Civic Education Pretest Form IVS - B

Directions:

Each of the questions or incomplete statements in this test is followed by several suggested answers. You are to decide which one of these answers is best.

You must mark all your answers on the separate answer sheet you have been given. This test booklet should NOT be marked in any way. You will have 40 minutes (one class period) to answer the 51 questions in this test. This is NOT a test on which you will be graded. Therefore, do NOT guess at any answer unless you are fairly sure that you know the answer. If you are unsure of the answer simply leave it blank or check the Do Not Know response, if there is one for that question. You must mark your answer sheet by blackening the space having the same letter as the answer you have chosen. For example:

1a. Which one of the following is an animal?
   1. Bed
   2. Dog
   3. Chair
   4. Box
   5. Table

Sample Answer

Since a dog is an animal, you should choose the answer numbered 2. On your answer sheet, you would first find the row of spaces numbered the same as the question - in the example above, it is 1a. Then you would blacken the space in this row which has the same letter as the answer you have chosen. This is how the example should be marked on your answer sheet:

1a. [Marking: 2]

Make your answer marks heavy and black. Mark only one answer for each question. If you change your mind about an answer be sure to erase the first mark completely. Do NOT spend too much time on any one question. If a question seems too difficult, go on to the next one.

Now here are some other sample questions:

Questions 2a and 2b refer to the following foods. Match the food with the animal who produces the food.

2a. Cows produce:

Sample Answer
Chickens produce:

5. Fish

Here is another kind of question which you will see in this test:

Only four of the following are national capitals.

3a. Which one is NOT the capital city of its country?

1. Paris, France
2. New Delhi, India
3. Barcelona, Spain
4. Moscow, U.S.S.R.
5. Oslo, Norway

The answer to this question is 3 because each of the other four cities is a capital city. Madrid is the capital of Spain. Therefore Barcelona is NOT the capital city of its country—Spain—so the correct choice is 3.

Here is a final example of a type of question which you will see in this test:

4a. Which of the following are the capital cities of their countries?

I. Paris, France
II. New Delhi, India
III. Barcelona, Spain
IV. Moscow, U.S.S.R.
V. Oslo, Norway

1. I and II only,
2. III and IV only,
3. II, III and V only,
4. I, II, IV and V only,
5. I, II, III, IV and V.

The answer to this question is 4, because each of these cities I, II, IV and V is a capital city. As we said in question 3a, Madrid is the capital of Spain, NOT Barcelona. Therefore, number III CANNOT be part of the right answer.

You are now ready to begin the test. Do NOT turn the page to begin the test until you are told to do so.

Descriptions of Five Governments

I. The legislature consists of two branches; the members of the first branch are elected by the people; the members of the second branch sit by virtue of hereditary right. All measures must be passed by both branches of the legislature.

II. Each state or locality retains its sovereignty, freedom, and independence, and every power, jurisdiction, and right not expressly delegated to the general government. For the more convenient management of the general interests, delegates are appointed annually in such manner as the legislature of each state or locality shall direct.

III. The national legislature consists of two branches. The members of the first branch are elected by the people of the several states and localities. The members of the second branch are elected by those of the first, out of a proper number of persons nominated by the individual state or local legislatures. The national legislature legislates in all cases in which the separate states and localities are incompetent or in which the exercise of individual legislation would disrupt the harmony of the country.

IV. All legislative powers are vested in a congress which consists of two houses. The first house is composed of members chosen every second year by the people of the several states and localities. The second house is composed of two members from each state and locality chosen by the legislature thereof. Both houses shall have the power to make all laws necessary and proper for carrying out all powers vested in the government.

V. All legislative powers are vested in a national legislature of two branches. Members of the lower house are elected by the people, while most of the upper house sit by virtue of hereditary right. The "Sovereign" (King or Queen) has the power to create peers, to call for new elections, and to request members of the lower house to form a cabinet government. In effect, the lower house has control over the conduct of national affairs and the majority party chooses the Prime Minister, who performs the executive functions with the help of his cabinet ministers. Questions 47 - 49 are based on the following passage:

The formulation of international law—that is, of rules of conduct for states to observe in their dealings with one another—has now been proceeding for over three and a quarter centuries. There has, of course, been much disagreement concerning the substance of these rules, because governments of different states have had different views of their respective interests and advantages, and, if a law of nations is drafted, it must somehow reconcile competing private national interests into a cooperative, public, international order. Despite complications, it is well within the scope of human ingenuity to devise a satisfactory body of rules that could ensure a place in the sun for all peoples of the world and eliminate the excesses of competitive hostility. But law, when framed, requires a framework of institutions, in which to operate. For rules will sometimes be violated; and if so, they must receive enforcement or they will be disregarded with impunity and will then cease to have any utility as rules. Hence the same problem that existed originally in the foundations of the state is repeated - identically in principle, although differently in scale - in the construction of order among states. A committee of international jurists could codify an equitable set of rules of international conduct. But how are such rules to acquire official recognition, public acceptance, and authoritative enforcement? Without this, international law is left hanging, as it were, in the air.

47. The fundamental social process considered by the author is that of:

   5. it was not established by a committee of international jurists.
50. The tendency of state public education in most countries has been to:

51. How long has it taken you to do this test? Write your answer in Arabic numerals on your answer sheet (For example, 35 minutes and so forth).
Civic Education Pretest Form IVS - C

Directions:

Each of the questions or incomplete statements in this test is followed by several suggested answers. You are to decide which one of these answers is best.

You must mark all your answers on the separate answer sheet you have been given. This test booklet should NOT be marked in any way. You will have 40 minutes (one class period) to answer the 51 questions in this test. This is NOT a test on which you will be graded. Therefore, do NOT guess at any answer unless you are fairly sure that you know the answer. If you are unsure of the answer simply leave it blank or check the Do Not Know response, if there is one for that question. You must mark your answer sheet by blackening the space having the same letter as the answer you have chosen. For example:

1a Which one of the following is an animal?

1. Bed
2. Dog
3. Chair
4. Box
5. Table

Sample Answer

1a  [ ] 2 [ ] 3 [ ] 4 [ ] 5

Since a dog is an animal, you should choose the answer numbered 2. On your answer sheet, you would first find the row of spaces numbered the same as the question - in the example above, it is 1a. Then you would blacken the space in this row which has the same letter as the answer you have chosen. This is how the example should be marked on your answer sheet:

1a  [ ] 1 [ ] 2 [ ] 3 [ ] 4 [ ] 5

Make your answer marks heavy and black. Mark only one answer for each question. If you change your mind about an answer be sure to erase the first mark completely. Do NOT spend too much time on any one question. If a question seems too difficult, go on to the next one.

Now here are some other sample questions:

Questions 2a and 2b refer to the following foods. Match the food with the animal who produces the food.

2a Cows produce:

1. Eggs
2. Milk
3. Wine
4. Apples

Sample Answer

2a  [ ] 1 [ ] 2 [ ] 3 [ ] 4 [ ] 5
2b Chickens produce:

1. Eggs
2. Milk
3. Wine
4. Apples
5. Fish

Sample Answer

Here is another kind of question which you will see in this test:

Only four of the following are national capitals.

3a Which one is NOT the capital city of its country?

1. Paris, France
2. New Delhi, India
3. Barcelona, Spain
4. Moscow, U.S.S.R.
5. Oslo, Norway

The answer to this question is 3 because each of the other four cities is a capital city. Madrid is the capital of Spain. Therefore Barcelona is NOT the capital city of its country — Spain — so the correct choice is 3.

Here is a final example of a type of question which you will see in this test:

4a Which of the following are the capital cities of their countries?

I. Paris, France
II. New Delhi, India
III. Barcelona, Spain
IV. Moscow, U.S.S.R.
V. Oslo, Norway

1. I and II only,
2. III and IV only,
3. II, III and V only,
4. I, II, IV and V only,
5. I, II, III, IV and V.

The answer to this question is 4, because each of these cities I, II, IV and V is a capital city. As we said in question 3a, Madrid is the capital of Spain, NOT Barcelona. Therefore, number III CANNOT be part of the right answer.

You are now ready to begin the test. Do NOT turn the page to begin the test until you are told to do so.

Boy I: I do not want a Chinese in our club. He is not a natural born citizen of our country. Willie can not play our games. He does not even look like the rest of us. Have you ever seen his mother and dad? They do not live the way we do. I am against letting Willie in.

Boy II: Willie can not help the way he looks. You would look funny in China. Suppose he can not play our favorite games. You do not know any Chinese games either. Besides, he is smart, and he knows many things we do not know. Remember Willem could hardly speak our language when he got here from Denmark, and he turned out all right.

Boy III: My father was in China in 1945, and he says that you can not trust the Chinese. They are shift and they lie and they cheat. I do not want anybody like that in our club.

Boy IV: We should not worry about how different Willie is or what Jack's father thinks of the Chinese. The question is, is Willie a good fellow or not? If most of the members want him, we should take him in.

Speaker I: This nation was founded on the principles of freedom, and this means freedom to buy and sell without artificial restrictions. When you tell a man what he may or may not do with his property, you have sown the seed of totalitarianism.

Speaker II: Freedom does not mean the freedom to starve. When the unrestricted use of property causes economic panic and unemployment, there arises a need for temporary regulations and artificial stimulation which will restore the nation's economic health and set our system right again.

Speaker III: Freedom is a term that the weak use to excuse their follies. The rights of individuals to the use of property must be submerged in the struggle to fulfill the destiny of the state, the nation, and the race.

Civic Education Pretest Form IVS - D

Directions:

Each of the questions of incomplete statements in this test is followed by several suggested answers. You are to decide which one of these answers is best.

You must mark all your answers on the separate answer sheet you have been given. This test booklet should NOT be marked in any way. You will have about 40 minutes (one class period) to answer the 52 questions in this test. This is NOT a test on which you will be graded. Therefore, do NOT guess at any answer unless you are fairly sure that you know the answer. If you are unsure of the answer simply leave it blank or check the Do Not Know response, if there is one for that question. You must mark your answer sheet by blackening the space having the same letter as the answer you have chosen. For example:

1a Which one of the following is an animal?
1. Bed
2. Dog
3. Chair
4. Box
5. Table

Sample Answer

Since a dog is an animal, you should choose the answer numbered 2. On your answer sheet, you would first find the row of spaces numbered the same as the question - in the example above, it is 1a. Then you would blacken the space in this row which has the same letter as the answer you have chosen. This is how the example should be marked on your answer sheet:

1a □ 1 □ 2 □ 3 □ 4 □ 5

Make your answer marks heavy and black. Mark only one answer for each question. If you change your mind about an answer, be sure to erase the first mark completely. Do NOT spend too much time on any one question. If a question seems too difficult, go on to the next one.

Each of the questions or incomplete statements in this test is followed by several suggested answers. You are to decide which one of these answers is best.

You must mark all your answers on the separate answer sheet you have been given. This test booklet should NOT be marked in any way. You will have 40 minutes (one class period) to answer the 51 questions in this test. This is NOT a test on which you will be graded. Therefore, do NOT guess at any answer unless you are fairly sure that you know the answer. If you are unsure of the answer simply leave it blank or check the Do Not Know response, if there is one for that question. You must mark your answer sheet by blackening the space having the same letter as the answer you have chosen. For example:

1a Which one of the following is an animal?

1. Bed
2. Dog
3. Chair

5. Table

Sample Answer

Since a dog is an animal, you should choose the answer numbered 2. On your answer sheet, you would first find the row of spaces numbered the same as the question - in the example above, it is 1a. Then you would blacken the space in this row which has the same letter as the answer you have chosen. This is how the example should be marked on your answer sheet:

Make your answer marks heavy and black. Mark only one answer for each question. If you change your mind about an answer be sure to erase the first mark completely. Do NOT spend too much time on any one question. If a question seems too difficult, go on to the next one.

The answer to this question is 4, because each of these cities I, II, IV and V is a capital city. As we said in question 3a, Madrid is the capital of Spain, NOT Barcelona. Therefore, number III CANNOT be part of the right answer.

Questions 11 - 14 refer to the following:

Shortly before a national election in Country X, a newspaper reporter (correspondent) asked several people how they were going to vote and why. These are some of the answers he received: (Note: Country has a two party political system - as compared with a multiple party system like Israel or France.)

Speaker I

"I am voting for all of party A's candidates. I am a businessman, and party A knows what the problems of the businessman are. If Party B wins, I pity the country. Party B members are all revolutionists. They are not loyal to our country. I would not want to associate with most of them."

Speaker II

"Party B is the party for me. I will support every one of their candidates. Party B is for the common people -- the workingman who works hard for a living. Most party A members are sincere, but they favor the rich. Let us put the government in the hands of the people. We need laws that help everyone, not just a few. I am for Party B all the way."

Speaker III

"Neither party A nor party B has all the good candidates. There are some good and bad people in both parties. I am going to study the important issues and the men running for office. Then I will vote for the better man. It will not make any difference to me what his political party is."

Speaker IV

"Why get excited over an election? It will not make any difference who wins. The politicians have everything arranged. They work together. What is the use of voting? One vote does not mean anything anyway."

Speaker V

"One vote may mean much in an election. You would not want the wrong man to win, would you? I am for a democratic political party system where everyone votes for the party of his choice."

SCORING KEYS
SCORING THE TESTS

Scoring keys for the French Listening and Reading tests are given below. Each of these tests should be treated with the standard item analysis described in Section 5 of IEA/B/42 (revised), and the results should be reported to Hamburg on the standard forms, IEA/A/17 and IEA/A/18. The criterion for the item analysis in each case is the score on the particular test, not the sum of scores on the whole battery.

The Speaking Test response tapes should all be returned to Hamburg for central scoring.

SCORING KEY FOR FRENCH LISTENING TEST

Items 1 - 5 inclusive are practice examples and should not be scored. If a pupil has put two responses to an item, without crossing one of them out, he should score '0' for that item. One point should be scored for each correct response. The maximum score is therefore 40 points.

NOTES ON SCORING KEY FOR CIVIC EDUCATION SUPPLEMENTARY QUESTIONS

1. In several questions there is a series of answers to be given. In most cases each section has been numbered. However, in two cases, that is, in questions 10 and 26, this additional numbering has been omitted in the question, but appears in the scoring key.

2. For questions 34, the answers have been entered in the actual question.
