A Bibliography on Higher Education.

Maryland State Teachers Association, Baltimore Higher Education Council.

69 pages, 178 p.

EDPS Price MF-$0.75 HC-$9.00

Abstract

Over 5800 books pertaining to higher education are included in this bibliography. Its 16 sections deal with the following areas: 1) historical, philosophical, sociological, and general development; 2) organization and administration; 3) finance, budget, and business administration; 4) faculty personnel; 5) directories; 6) admissions and registration; 7) student personnel; 8) teaching methods and media; 9) learning and psychological factors; 10) graduate curricular; 11) adult and university extension curricula; 12) undergraduate curricula; 13) evaluation and accreditation; 14) physical plant; 15) libraries; and 16) junior colleges. At the beginning of each section, there is a short notation of some of the sub-topics included in that area. The books were published from approximately 1955 through 1969, but many were out of print at the time of the bibliography's publication. Copies are available from Higher Education Council, Maryland State Teachers Association, 3444 N. Charles Street, Baltimore, Maryland 21201 ($2.50). (DS)

### Use of the Bibliography

1. The sixteen sections are listed above in the order of their appearance. At the beginning of each section there is a short notation of some of the facets included within that section.

2. The more than 6,000 books listed in this bibliography all pertain to Higher Education. Textbooks are excluded unless they deal with the subject of Higher Education.

3. Placement of these books within categories is a matter of judgment on the author's part, determined by the prime contribution to Higher Education of a particular book.

4. The bibliography includes most of the books that Dr. Kelsey has identified as pertaining to Higher Education during his years as the book exhibitor for the American Association for Higher Education. The books listed here were identified between 1964 and 1969 although some were printed in the mid 1950's.

5. Normally, books on Higher Education are printed in a short run and some of these books may no longer be in print. Some of the items were printed for internal use within the college or university or the organization involved.

A Bibliography on Higher Education

Until recently, books and monographs on higher education had meager or short runs, and quickly went out of print. For this reason, many of the listings in this bibliography are not available.

The intent of this bibliography is that of a source for those interested in higher education. Out-of-print listings might be available on inter-library, inter-university or college, or inter-foundation loan.

The basis of these listings is on the following: (1) the listings were in print between 1965 and 1969, (2) the listings pertained in some manner to higher education, and (3) although some listings were specific, there might be facts or items of general interest.

No book is written which pertains to only a single topic. The classification of the listing is that where it seems to have the most to contribute.

### A

#### Historical, Philosophical, and Sociological Development in Higher Education

This section includes histories of individual colleges, history of higher education in general, philosophical factors and bases for higher education, sociological topics pertaining to higher education such as urbanization, integration, deprived and minority populations and similar topics.

Junior College

This section includes books on community-junior colleges, and in some instances overlaps the other sections in that the topics were considered in a community college setting, when in fact the information might well have been noted under previous sections.

The Higher Education Council
of the
Maryland State Teachers Association

In November of 1968 the Higher Education Council of MSTA was officially formed to provide for all Higher Education professors the opportunity to develop a unified state program that was completely under the direction of the membership. The Maryland State Teachers Association through financial and staff assistance gave to the 11,000 Higher Education professors in Maryland the necessary materials for their use. With this backing and by working within the framework of this state association the Higher Education Council made rapid strides to represent the professional needs and desires of all Higher Education in Maryland.

This bibliography is the product of an important member of the Higher Education Council and only begins to fill the desperate need of the professor for a comprehensive program focusing on philosophical and academic subjects. We hope you will find this bibliography useful to yourself and to your campus.

We are offering the bibliography free to all Higher Education Council members in Maryland. As such this is not for sale in Maryland. Since we believe that this is also a contribution to Higher Education in our country we are placing it on sale to interested professors throughout the United States. For more information on this or any of the program of the Higher Education Council of the Maryland State Teachers Association, please write.

Oscar C. Jensen,
Associate for Higher Education
