The work presented or reported, herein was performed pursuant to a grant from the Bureau of Education for the Handicapped, US Office of Education, Department of Health, Education, and Welfare. However, the opinions expressed herein do not necessarily reflect the position or policy of the US Office of Education and no official endorsement by the US Office of Education should be inferred.
The CEC Information Center on Exceptional Children

With a grant from the US Office of Education, the CEC Information Center was established at The Council for Exceptional Children to serve as a comprehensive source of information on research, instructional materials, programs, administration, teacher education, methods, curriculum, etc. for the field of special education. The Center functions as the Clearinghouse on Exceptional Children in the Educational Resources Information Centers (ERIC) program and also as a member center in the Instructional Materials Centers Network for Handicapped Children and Youth (IMCNHCY). In addition, the CEC Center's program includes a commitment to a concentrated effort towards the development of products which will interpret research results into educational methods and practices.

How to Use This Bibliography

The abstracts in this bibliography have been retrieved from the computer stored information of the CEC Information Center on Exceptional Children. Abstracts represent the Center's complete holdings on the topic as of the date indicated.

How to Read the Abstract

Each abstract contains three sections—bibliographic data, descriptors, and a summary of the document. The bibliographic section provides the document's identifying number (ED and/or EC), publication date, author, title, source, and availability. The descriptors indicate the subjects with which a document deals. The summary provides a comprehensive overview of the document's contents and in some cases document availability is announced here.

How to Use the Indexes

Some bibliographies in Exceptional Children Bibliography Series contain author and/or subject indexes. In these bibliographies, readers seeking work on a specific aspect of the general topic may consult the subject index to be referred to specific abstract numbers. Abstracts dealing with several topics may be identified by finding the same abstract number under two or more subjects in the subject index.

How to Purchase Documents

For documents available from their publishers, information on price and address is included in the abstract.

Many documents may be purchased in microfiche (a 4" x 6" microfilm card containing up to 70 pages of information) and/or hard copy (readable size photo reproduced pages) reproduction from the ERIC Document Reproduction Service. For example, "EDRS mf" indicates the document may be purchased in microfiche reproduction and "EDRS mf, hc" indicates the document may be purchased in both microfiche and hard copy reproduction.

To determine purchase price for hard copy multiply the document's number of pages by $.05, then add $.10. To determine purchase price for microfiche, use the table below. For example a 44 page document in hard copy would cost $2.30 (44 x $.05 + $.10) and in microfiche would cost $ .25.

To order document reproductions, provide the ED number of the desired document, the number of copies being ordered, and the type of reproduction desired (microfiche or hard copy). Payment must accompany orders totaling less than $5. Add a special handling charge of $.50 to all orders. The ERIC Document Reproduction Service is registered to collect sales taxes. Orders from states which have sales tax laws should include payment of the appropriate tax or tax exemption certificate. A 25 percent service charge, calculated to the nearest cent, must accompany orders from outside the United States, its territories, and possessions.

Orders should be sent to:
ERIC Document Reproduction Service
National Cash Register Company
4936 Fairmont Avenue
Bethesda, Maryland 20014

ABSTRACT 1
EC 000 002 ED 010 713
Publ. Date 16 Oct 65 6p.
Simches, Raphael F.
EDRS mfhc
Descriptors: exceptional child education; program planning; legislation; administration; emotionally disturbed; state legislation; special classes; identification; program development; teacher education; mandatory legislation; curriculum; recruitment; community resources; supportive services; teacher certification; administrative organization; New York

In an address, the author anticipates by services which might arise when July 1, 1966 legislation became effective, requiring school districts to provide appropriate education for emotionally disturbed children. Aspects included are problems of definition and diagnosis, community responsibilities in providing cooperative medical and social services, varying directions of school program organization, and the unresolved questions of recruitment, preparation and certification of teachers. (GW)

ABSTRACT 2
EC 000 003 ED 010 714
Publ. Date 66 34p.
The Michigan Program for the Education of Emotionally Disturbed Children.
EDRS mfhc
Descriptors: exceptional child education; legislation; emotionally disturbed; administration; state programs; special classes; program guides; state aid; supervision; state standards; program administration; personnel; state laws; Michigan

To assist school systems in setting up classes for the emotionally handicapped, the legal basis for state-approved (Michigan) programs is identified, state rules and regulations are reviewed, and relationships to other school and community services are indicated. Included are programs and their goals and administrative definitions and procedures. Descriptions of such classes, steps to program approval, and supervision requirements are given. Relevant state statutes are cited. Sixteen references are cited. (JW)

ABSTRACT 3
EC 000 007 ED 010 718
Publ. Date Nov 65 62p.
State Plan for Special Education. Texas Education Agency, Austin
EDRS mfhc
Descriptors: exceptional child education; administration; program planning; state programs; state laws; state standards; program development; program administration; psychological evaluation; teacher certification; speech therapy; mentally handicapped; blind; physically handicapped; homebound children; preschool programs; deaf; deaf-blind; emotionally disturbed; partially sighted; hospitalized children; hard of hearing; minimally brain injured; educable mentally handicapped; trainable mentally handicapped; textbooks; transportation; hearing therapy; Texas

Information for the initiation, organization, and operation of special education programs in Texas is included in this bulletin. Programs described are for the blind, partially sighted, physically handicapped, homebound or hospitalized, minimally brain injured, deaf and severely hard of hearing, educable mentally handicapped, trainable mentally handicapped, speech and hearing therapy, emotionally disturbed children, preschool deaf children, and deaf-blind or non-speaking blind children. In addition to program descriptions, information is given about local planning, psychological reporting, teacher certification, and transportation. (CG)

ABSTRACT 4
EC 000 008 ED 010 719
Publ. Date 66 35p.
The La Grange Area Department of Special Education Handbook.
La Grange Area Dept. Of Special Educ., Illinois
EDRS mfhc
Descriptors: exceptional child education; mentally handicapped; physically handicapped; administration; personnel; special services; admission criteria; cooperative programs; socially maladjusted; emotionally disturbed; instructional staff; blind; social workers; prevocational education; psychological evaluation; program guides; home instruction; homebound children; aurally handicapped; perceptually handicapped; psychologically services; administrative personnel; social services; La Grange; Illinois

The La Grange Area Department of Special Education serves 16 school districts. Policies of the department are listed. Functions of the director, secretary, and coordinator-supervisor are listed in detail. Qualification for admission to special education classes, goals of these classes, and information about existing classes are presented for blind, educable mentally handicapped, hospitalized and homebound, hearing impaired, physically handicapped, trainable mentally handicapped, emotionally and socially maladjusted, and perceptually handicapped. Descriptions of programs of psychological services, social work services, and prevocational services are included. (MY)

ABSTRACT 5
EC 000 012 ED 010 916
Publ. Date 66 32p.
Guidelines of Programs of Special Education in Alaska.
Alaska State Dept. Of Education, Juneau
EDRS mfhc
Descriptors: exceptional child education; state programs; curriculum; administration; program planning; physically handicapped; educable mentally handicapped; trainable mentally handicapped; admission criteria; program development; identification; emotionally disturbed; equipment; legislation; educational equipment; orthopedically handicapped; neurologically handicapped; multiply handicapped; blind; partially sighted; deaf; hard of hearing; aurally handicapped; visually handicapped; mentally handicapped; Juneau; Alaska

Six areas of exceptionality served by public school programs are presented, including mentally retarded both educable and trainable, blind and partially sighted, deaf and hard of hearing, orthopedically or neurologically handicapped, emotionally disturbed, and multiply handicapped. Included for each exceptionality are a definition, criteria for determining placement, and a section on evaluation of disabilities. Procedures for establishing special education programs are discussed in detail, and explicit directions for submitting applications to the state department are included. A section on curriculum outlines recommended objectives, equipment, and programs for the educable and trainable mentally handicapped, the physically handicapped, and the emotionally disturbed. A section is included on the identification of speech and hearing problems. A list of equipment and supplies for special education classrooms, the state referral form for special education placement, and an application for home or hospital teaching are included. (VO)

ABSTRACT 6
EC 000 049 ED 010 923
Publ. Date 14 Mar 63 160p.
Education of Handicapped Children in Rhode Island, a Report to the Legislature.
EDRS mfhc
Descriptors: exceptional child education; state programs; state legislation; handicapped children; program evaluation; visually handicapped; emotionally disturbed; mentally handicapped; physically handicapped; speech handicapped; teacher qualifications; curriculum evaluation; psychological services; volunteer organizations; aurally handicapped; educational needs; special programs; special classes; speech handicapped; Rhode Island

In 1961 the General Assembly of Rhode Island established a commission to study needs and provisions for the education of handicapped children. In addition to meeting with representatives of many agencies throughout the state, the com-
mission employed a project director and a staff of special education consultants who gathered data about all existing programs and transmitted to the Assembly. The major commission recommendations developed a series of recommendations for commission review, and for legislative action are summarized. Consultant recommendations and evaluation for each area of handicap are included. These chapters represent comprehensive descriptions and evaluations of facilities and services in existence in February 1963. (DF)

ABSTRACT 7
EC 000 072     ED 011 415
Publ. Date 65  8p.
Guidelines for Implementation of the Pilot Program for Emotionally Disturbed Children, a Supplement to the State Plan for Special Education.
Texas Education Agency, Austin
EDRS mf,he
Descriptors: exceptional child education; emotionally disturbed; program administration; administrator guides; pilot projects; special classes; student grouping; class size; teacher certification; educational finance; admission criteria; personnel; individual characteristics; educational objectives; facility guidelines; program guides; Austin
In 1965-66, 14 school districts established 20 classes in schools, mental health centers, and hospitals for emotionally disturbed children (ages 6-17). Outlined are definitions and characteristics of emotionally disturbed children, purposes of the program, minimum plant facilities, related personnel, eligibility requirements, class size and age grouping, teacher certification, and finance. (HK)

Understanding and Helping the Retarded Reader.
EDRS not available
Descriptors: exceptional child education; reading; teaching methods; reading difficulty; emotionally disturbed; disadvantaged youth; mentally handicapped; identification; remedial reading programs; remedial instruction; reading skills; reading materials; achievement; student achievement; reading diagnosis; neurologically handicapped; bilingual students; program planning; skill development; communication skills; teacher role; retarded readers
The proceedings of a 1962 statewide Arizona conference on reading development and reading difficulties include 15 papers. Articles on the able retarded reader are Identification and Diagnosis by Helen C. Wright, Understanding the Able Retarded Reader by Helen M. Robinson, and Classroom Procedures by Rosemary Yoakum. Papers on emotionally disturbed children are Identification of Emotional Difficulties in Reading by Peter Gallagher, Causation and Prevention by Boris Zeedyk, Neuropsychiatric Considerations in Children's Reading Problems by Ralph Rabinovitch, and Classroom Procedures by Lora Anderson. Bilingual children (children from non-English speaking homes) are discussed by Mamie Sturgeon in Understanding Bilingual Children, by Miles Zintz in Developing a Communications Skills Program, and by Jane Moore in Classroom Procedures. Included also is an introduction by Ruth S. Strang on levels of knowledge and skill, diagnostic procedures, essentials of treatment, and reading materials. The summary and concluding remarks are by Amelia Melnik in Methods and Procedures and Ruth Strang in The Role of the Teacher. Appendixes contain Moore's introduction to the conference and a selected bibliography. This document is available from the University of Arizona Press, Tucson, Arizona, for $2.75. (JD)

In this description of the Psychoeducational Clinic in the Department of Psychology at Yale University, the Clinic's historical and professional origins are reviewed, and its relationship to the schools that it serves discussed. Specific topics considered are (1) the approach to the schools, (2) teaching as a lonely profession, (3) helping to change the teacher's perception of a problem, (4) authoritative support, (5) the manageable child, (6) translating psychological concepts into action, (7) transferring a child from one classroom to another, (8) the child at home, (9) the inner city school and the convergence of resources and (10) accomplishments, failures, and limitations. Community Progress Incorporated (CPI), an agency designed to attack the condition of poverty by stimulating other agencies, coordinating their efforts, and creating necessary new programs, is described in terms of its relationship with the neighborhood employment center, the disposition conferences, the work crews, the work crew foremen, and the consultant. An attempt is also made at evaluating CPI. Considered are its relationship to the New Haven Regional Center are (1) the problem of scope, (2) professional staff and the problem of preciousness, (3) the Center, the CPI, and the schools, and (4) studying, understanding and serving the community. A 70-item bibliography and an appendix of transcribed teacher-discussion groups are included. Case histories appear throughout the book. This document is available from John Wiley Sons, Inc., 605 Third Avenue, New York, New York 10016, for $12.93. (JD)

Lloren, Lela A.; Rubin, Eli Z.
Developing Ego Functions in Dis-turbed Children, Occupational Therapy in Milieu.
EDRS not available
Descriptors: exceptional child education; emotionally disturbed; milieu therapy; program planning; case studies (education); occupational therapy; residential schools; clinical diagnosis; skill development; psychomotor skills; interpersonal relationships; intellectual needs; perceptual motor coordination; evaluation techniques; instructional materials; behavior change; group activities; individualized programs
The use of occupational therapy (OT) with emotionally disturbed children in a residential treatment setting or milieu is described on the basis of 6 years of experimental work. Corrective treatment and rehabilitation approaches are explained. Also considered is the contribution of OT in (1) the development, fulfillment, or modification of motor skills, (2) interpersonal relationships, (3) social skills, (4) behavioral functioning, (5) psychological and emotional needs, (6) psychodynamic conflict, and (7) cognitive perceptual motor dysfunction. After an overview and rationale are provided, milieu treatment planning is defined in terms of programs, general attitudes, behavior management, and treatment stages. The discussion of evaluation and treatment planning pertains to graded activity programs, evaluation procedures, and program planning. Eight case histories are presented with clinical findings, OT evaluation, and plan. Activity group programs, with lists of materials and criteria, are described for basic, intermediate, and advanced skill levels. Problem areas dealt with are those of application, handling maladjusted behavior, interest groups, and physical facilities. Individual programs outlined and case histories for the modification of psychological processes and two for training procedures. Appendices include milieu treatment data forms, an evaluation battery, a cognitive perceptual motor manual, and a rating summary, and are list of 25 references and resources. A bibliography lists 55 items. This document is available from the Wayne State University Press, Detroit, Michigan 48202. (HK)

Project Re-Ed, a Demonstration Project for the Reeducation of Emotionally Disturbed Children. Tennessee State Dept. Of Health
North Carolina State Dept. Mental Health, Raleigh
George Peabody Coll. For Teachers, Nashville, Tenn.
EDRS mf, hc

Descriptors: exceptional child education; emotionally disturbed; behavior; teaching methods; class management; elementary grades; laboratory schools; demonstration programs; program planning; psychoeducational processes; special classes; behavior change; student behavior; behavior problems; team teaching

The psychoeducational approach to the classroom management, treatment, and education of emotionally disturbed children is described. As an illustration, a clinical episode involving an emotionally handicapped boy who initiates provocative verbal behavior and is immediately removed from the classroom is related. The incident occurs in a school in a day care center, involving 14 elementary school age children, two teachers, and other personnel, in demonstration, training, and research functions. The classroom includes a project area, an independent work area (the children's desks), and two centers of learning where each teacher sits at a table which has room for four or five children. A standby officer is available to provide help with the individual child outside the classroom, when necessary. Management and teaching approaches, program planning, and programming for individual children is discussed. References are cited. This article was published in Exceptional Children, Volume 32, Number 6, pages 377-383, February 1966. (JA)

Rules and Regulations to Govern the Administration and Operation of Special Education.
EDRS mf, hc

Descriptors: exceptional child education; state programs; administration; special classes; personnel; administrator guides; special services; teacher qualifications; educational facilities; educational finance; admission criteria; handicapped children; teacher certification; Springfield, Illinois

Rules and regulations for special education programs in Illinois are reviewed. Areas of special education treated separately include physically handicapped children in special classrooms, physically handicapped children in home and hospital, deaf and hard of hearing, blind, partially seeing, maladjusted children, educable mentally handicapped, trainable mentally handicapped, speech correction, and multiply handicapped. Given for each handicap are a definition, establishment of educational facilities, types of services, admission to programs, eligibility of pupils, enrollment, supervision, case records, curriculum, physical plant, equipment and instructional materials, and qualifications of personnel. Rules and regulations are also provided for psychological services, transportation of exceptional children, administrators and supervisors, necessary noncertified employees, and completion of the summary report and reimbursement claim for exceptional children. (JA)

Richman, Vivien
Pittsburgh Public Schools' Mental Health Services, Evaluation Report. Pittsburgh Public Schools, Pennsylvania
EDRS mf

Descriptors: exceptional child education; emotionally disturbed; children; special classes; mental health; mental health programs; mental illness; public schools; special programs; research needs; case studies (education); school services; special services; program evaluation

The development of mental health services in the Pittsburgh public schools during 1965-66 is reviewed. The history, philosophy, objectives, and program components, including information on staff, varieties of classes provided, and the activities of mental health teams are presented. The adjustment classes and resource room for emotionally disturbed children are described and compared with respect to uses, objectives, eligibility criteria, physical facilities, populations served, programs, and classroom methods. The mental health team's contribution to the overall program, including such activities as program planning, evaluation of children, cooperation with community agencies, teacher training, and teacher constellation, and suggestion of resource modifications, is discussed. Attention is called to funding, evaluation, research, scope, preventive aspects of a mental health program, delinquent subgroups, and the need for residential facilities to prevent more serious problems. Directions for further research are noted. Eight references are given. The appendices provide case studies of children served in the adjustment classes and resource rooms and narrative reports of observational visits to adjustment classes. (JW)

EDRS mf/hc

Descriptors: exceptional child research; emotionally disturbed; rehabilitation therapy; adolescents; day care programs; demonstration projects; insurance education; mental health programs; referral; rehabilitation programs; state programs; therapeutic environment; program descriptions; administration; group therapy; personnel; admission criteria; adults; case records; cooperative programs; Butler Hospital; Providence

In this 5-year demonstration project, emotionally disturbed adults and adolescents received treatment at a day care rehabilitation center sponsored by the Rhode Island Division of Vocational Rehabilitation (DVR) located in a private psychiatric hospital (Butler Hospital). The major treatment goals were preservation and restoration of interpersonal relationships in an environment of little structure, free choice, many activities, comfort, and security where individual and group therapy were available. Patient selection, admission criteria, and referral procedures are discussed. Day-care staff descriptions include the hospital superintendent, director, assistant director, home economist, paint shop supervisor, bookbinder, woodworking instructor, school teacher, homoeworker, social worker, psychologist, DVR coordinator, and counselors. The inservice training program for rehabilitation counselors is described. The philosophy of day care, the evolution of its theoretical framework, and the attitudes of the staff toward the program at this center are discussed. A typical day of a patient and brief case studies of 20 patients are presented. (JK)

World Federation Of Occupational Therapists
EDRS not available

Descriptors: exceptional child education; vocational adjustment; physically handicapped; vocational education; vocational rehabilitation; emotionally disturbed; occupational therapy; handicapped; adjustment problems; adolescents; adults; evaluation techniques; job training; occupational therapists; program evaluation; vocational training centers; work attitudes; records (forms); sheltered workshops; rehabilitation programs; conference reports; West Haven State Rehabilitation Hospital; Institute for Crippled and Disabled; Jewish Vocational Service

Resulting from one of six 1-week study courses following the Third International Congress of the World Federation of Occupational Therapists in 1962, this manual presents a broad review of the philosophy, role, and techniques of occupational therapy in the field of pre-vocational evaluation, vocational training, and sheltered workshops. Nineteen lectures by therapists from several countries describe occupational therapy programs related to work adjustment for the physically handicapped and for the former psychiatric patient. Forms used in performance testing, photographs of skill testing and work situations, and a listing of appropriate films are included. A final lecture summarizes content of the study course. Some lectures cite references. This document is available from the Wm. C. Brown Book Company, 135 South Locust Street, Dubuque, Iowa 52001 for $2.25. (SB)

Program Standards for Special Education and Legal Dismissal from School Attendance. Ohio State Dept. Of Education, Columbus, Div. Of Special Education
EDRS mf/hc

Descriptors: exceptional child education, administration, standards; state standards; handicapped; admission criteria; program guides; aurally handicapped; boarding homes; educable mentally handicapped; educational finance; emotionally disturbed; hearing therapy; homebound; hospitalization; mentally retarded; orthopedically handicapped; orthopedically handicapped; physically handicapped; physically handicapped; program planning; school attendance laws; school services; speech therapy; student transportation; tutoring; visually handicapped; Columbus

In outline form this guide presents the program standards approved by the Ohio-State Board of Education in August 1966 for 13 special education programs and for legal dismissal from school attendance. The following topics are considered--general standards, eligibility for services, funding, administration and program organization and content, and teacher qualifications. General and specific program standards are presented for (1) deaf; (2) hard of hearing; (3) crippled, (4) visually handicapped; (5) neurologically handicapped; (6) emotionally handicapped; (7) slow learning; (8) speech and hearing therapy; (9) child study services; (10) individual instructional services; (11) transporta-
tion, (12) boarding homes for physically handicapped children, and (13) standards for legal dismissal from school attendance. (DF)

An Emerging Program for Emotionally Disturbed and Neurologically Impaired Pupils in the Warwick Public Schools, Grades 1-6.
Warwick School District, Rhode Island
EDRS mf,he

Descriptors: exceptional child education; administration; learning disabilities; emotionally disturbed; neurologically handicapped; curriculum; behavior change; children; class management; elementary grades; interprofessional relationship; parent school relationship; records (forms); teacher aide; teacher role; teaching guides; testing; physical facilities; program descriptions

Intended for teachers this manual resulted from a special workshop held in 1966 to plan a better program for emotionally disturbed and neurologically impaired elementary school age students. Admissions policy, administration of both types of classes, and the duties of the teacher and teacher's aide are described. Relationships with parents, the principal, supportive personnel, student teachers, and non-teaching personnel are discussed. The philosophy and techniques of management of behavior are presented. The academic program for the neurologically impaired which includes training for general academic improvement, improvement of perception, reading, handwriting, language and spelling, and mathematics is presented. Source: of materials are listed. Problems in testing intelligence and achievement and in preparing student reports and records are noted and some suggestions are given. Physical facilities for the class are described. Appendixes give examples of a report card and a check list of academic skills and behavior traits of brain-injured children. The bibliography lists 33 items. (JA)

Hampshire Country School Staff
Commitments
Hampshire Country School, Rindge, New Hampshire
EDRS mf,he

Descriptors: exceptional child education; gifted; emotionally disturbed; personnel; standards; residential schools; contracts; specifications; teacher responsibility; qualification; program administration; program descriptions; student behavior; professional standards; behavior standards

Intended for professional personnel of the Hampshire Country School, which treats gifted children with immobilizing emotional dysfunctions, the handbook specifies staff commitments. The Code of Ethics, adapted from the National Education Association Code as supplemented by The Council for Exceptional Children, sets forth four principles: commitment to the student, to the community, to the profession, and to professional employment practices. A conceptual framework of the school program outlines the rationale of administrative organization and practices, houseparenting, coeducation, extracurricular activities, and the interdependence of specific areas and the totality of the therapeutic community. Qualifications of staff are discussed, and the following are provided: a manual listing roles and regulations; behavior; behavior change; learning experience; achievement; Santa Monica Project

The emotionally disturbed child is presented as a learning problem whose difficulties can be helped by the teacher and school. The description of educational goals, methodology, and assessment includes the psychodynamic-interpersonal, sensory-neurological, and behavior modification strategies; a developmental sequence of educational goals; methodology of the learning triangle of task, reward, and structure; and educational assessment of emotionally disturbed children. Specific classroom practices detailed concern attention level, response level, order level, exploratory and social levels, and mastery and achievement levels. Total classroom design for emotionally disturbed children is explained, and the curriculum of the Santa Monica Project which developed and evaluated engineered classroom design is reviewed. Appendixes provide a student assessment inventory, parent and teacher rating scales, task attention criteria, and a bibliography of 208 items. (JD)

COVERT (Children Offered Vital Educational Retraining and Therapy) Project. Year 1.
Tucson Public Schools, Arizona; Arizona Children's Home, Tucson; Tucson Child Guidance Clinic, Arizona
EDRS mf,he

Descriptors: exceptional child research; emotionally disturbed; program planning; behavior problems; educational therapy; play therapy; residential schools; special classes; day schools; regular class placement; tutorial programs; testing; evaluation techniques; identification; administrative organization; program descriptions

Involving seven Tucson school districts, a children's home, and a child guidance clinic, the COVERT School (Children Offered Vital Educational Retraining and Therapy) was designed to initiate, compare, and evaluate educational approaches to the problems of emotionally disturbed children. Six distinct approaches were implemented, including a residential school, a day school, special class programs, group approach combined with a tutorial program, a student teacher, and recreational therapy for children in regular classes. Areas involved were identification of problem children, the teacher as team member, teacher evaluation and reporting, techniques to be demonstrated, pupil and project evaluation, teacher objectives and purposes, the teacher's professional role, classroom management, and means of teacher identification of individual problems to determine classroom procedures. The school's philosophy, location and physical plant, and organization (cooperation, coordination, admission and dismissal procedures, and implementation planning) are described. (RK)

Exceptional Children in the Schools.
George Peabody College For Teachers, Nashville, Tennessee
EDRS not available

Descriptors: exceptional child education; educational needs; administration; program planning; individual characteristics; gifted; instructional materials; educational programs; incidence; mentally handicapped; identification; educable mentally handicapped; trainable mentally handicapped; emotionally disturbed; speech handicapped; visually handicapped; physically handicapped; learning disabilities; neurologically handicapped; socially maladjusted; deaf; blind; hard of hearing; partially sighted; orthopedically handicapped

Intended as a survey text for college students in special education or as a reference for non-educators associated with the schools, the book includes 10
chapters by seven authors treating exceptional children in the school. A general overview is presented and exceptions are discussed. Areas of exceptionality considered include the educable mentally retarded, trainable mentally retarded, gifted, emotionally disturbed and socially maladjusted, speech impaired, deaf and hard of hearing, blind and partially seeing, and crippled and neurologically impaired. Each exceptionality is defined and discussed in terms of prevalence, identification, characteristics, educational procedures, and resources. For each, references, films, and resources are listed. Teaching the Troubled Child.
EDRS not available
The Free Press, 866 Third Avenue, New York, New York 10022 ($2.45).
Descriptors: exceptional child research; emotionally disturbed; learning disabilities; community programs; adjustment (to environment); minimally brain injured; individualized instruction; ancillary services; volunteers; nonprofessional personnel; teacher aides; psychotic children; cooperative programs; school community programs; program evaluation; case studies (education); Elmont Project

The Elmont Project was a community initiated, low cost program supported by the regular school system which began with the teaching of six disturbed children, aged 6 to 8. The principle was that the disturbed child is not to be isolated from his family, peers, and community, but rather helped by a team of educators, psychologists, psychiatrists, and a teacher-mom. The school system supplied a teacher to be in charge, transportation, supportive music, psychological and psychiatric services, and educational materials; snacks and insurance were supplied by the Kiwanis Club; classroom space was provided by the Elmont Jewish Center; and 12 volunteer teacher-moms worked with the teacher in charge with two moms alternating teaching one child on a one-to-one basis two mornings a week. For evaluation of how this project achieved its goals, six case histories describe children who were psychotic, neurotic, pseudo-retarded, sociopathic, brain damaged, and unteachable. In 5 years, 31 children were included in the project with 21 successfully returned to regular classrooms, one was hospitalized, and one entered part-time regular classes; the program was expanded to 38 teacher-moms who teach 11 children. Vocational Rehabilitation in a Residential Treatment Center. Devereux Fiftieth Anniversary Monograph Series.
Devereux Foundation, Devon, Pennsylvania
EDRS not available

Descriptors: exceptional child education; vocational education; mentally handicapped; emotionally disturbed; vocational rehabilitation; residential centers; rehabilitation programs; vocational counseling; job training; family role; educational programs; rehabilitation centers; Devereux Schools

The demonstration project in vocational rehabilitation at the Devereux Schools which is described explored a full-scale program for the development of vocational skills and job placement for emotionally disturbed and mentally handicapped adolescents. The organization of the program, which included services of a multidisciplinary staff of professionals, is reviewed; the program content is explained in terms of initial and vocational and clinical evaluation, classroom instruction, counseling services, job training, transitional living, employment opportunities, and follow-up evaluations. The role of the family in the program and the future development and expansion of the program are discussed. (K)
