This physical education program consists of teaching basic skills and the use of these skills in implementing a progressive sequence from kindergarten through ungraded primary grades. A section on games includes a description of their general purpose, directions for playing each game, and teaching suggestions. Included are 11 games to be introduced at the kindergarten level; 27 group games and 11 classroom games for the next level; 26 group games and eight classroom games for a subsequent level; and 25 group games and six classroom games for the final level. The rhythm program is divided into fundamental rhythms and singing games and dances. This section includes a list of records as well as rhythmic activities for each level. A section on stunts describes their purpose, gives teaching suggestions and recommends safety precautions. Diagrams of stunts at all developmental levels are illustrated. The final section contains a physical fitness test. The guide was planned to be used in conjunction with "Elementary School Physical Education Handbook." (DF)
CURRICULUM GUIDE

for

PHYSICAL EDUCATION

Kindergarten & Ungraded Primary

ST. LOUIS PUBLIC SCHOOLS

St. Louis, Missouri

1969
To the Instructional Staff
of the St. Louis Public Schools:

This curriculum guide for Physical Education is authorized for use in the St. Louis Public Elementary Schools. It was prepared by a committee whose names are listed on the following page.

WILLIAM KOTTMEYER
Superintendent of Schools
PRODUCTION COMMITTEE

CONDITIONING EXERCISES

William O. Baldwin, Chairman

PHYSICAL EDUCATION

Introduction

Because it is regarded now as a definite method of education rather than a program designed for physical development alone, physical education has acquired a broader meaning and a greater significance in the school program. It is now a fundamental part of all education. Its activities are educational activities and, therefore, have a definite part of school time.

The aim of our physical education program is to develop active minds and bodies by promoting such physical activities, skills, attitudes, and knowledges as will enable the individual to make adjustments for right living now and in the future.

This curriculum guide makes available to the teacher material for use at the various grade levels with suggested methods of teaching. It serves as a guide to the teacher, thereby assuring a balanced program for the entire year; and since the material has been placed in grades according to difficulty, the curriculum guide allows for progression as the child develops.

A successful physical education program depends on careful selection of activities, sufficient development of skill, and good teaching. This course provides for the first two of three requisites; the third is in the hands of the teacher.
Program Organization and Lesson Planning

A. Division of Time

1. Class Instruction
Throughout the term about two-thirds of the gym time should be spent in teaching the basic skills of the activities in the Course of Study.

2. Organized Play
One-third of the gym time may be used in Organized Play. This means that the children are divided into teams or squads and play games in which they utilize the skills taught during the instruction time.

3. Content Material
There are six categories of activities in this course of study. The Physical Education program is considered in good balance if during the term each activity receives the following percentage of time:

<table>

B. Lesson Planning

1. Activities on the playground, in the physical education classes, and during recreational periods are restricted to those which are ordinarily accepted for certain seasons of the year. For example, softball is restricted to the spring season and should be preceded by classwork in skills, rules, and safety procedures.

2. In the fall and spring, when the weather permits outdoor gym periods, Conditioning Exercises, Games, and Sports dominate the lesson. During the winter, when the gym lesson is held indoors, Rhythms, Stunts, and appropriate Games dominate the lesson.

3. If possible, activities should take place in the gymnasium, playroom, or schoolyard. If these facilities are not available, instruction may be given in the classroom.

4. Rhythms for boys and girls is scheduled as a definite unit of activity. The boys and girls of any one room should participate together for a series of consecutive periods.

5. A set lesson plan should not be used from day to day. The lesson plans suggested below can be used interchangeably. These plans are for a forty-five minute period, five minutes being allowed for passing to and from the gym area.

Plan I
- Warming-up exercises (not to exceed 8 minutes)
  1. Running, skipping, etc.
  2. Conditioning exercises
- Stunts (15 minutes)
- Games (17 minutes)

Plan II
- Warming-up exercises (not to exceed 8 minutes)
- Athletic Skills Activities (22 minutes)
- Basic Sport (10 minutes)

Plan III
- Warming-up exercises (not to exceed 8 minutes)
- Athletics (Basic Sport)
  1. Two or more teams playing Lead-Ups while two other teams are competing in the Athletic Game (16 minutes)
  2. Change teams from Lead-Ups to the Basic Sport and vice versa (16 minutes)

Plan IV
- Rhythms (for the entire period)

6. In order to obtain good results, it is advisable to organize the program of activities for the entire school term in the form of weekly content outlines. Only in this way can a good progression of activities be arranged. To be sure, it may be necessary during the school term to modify the particular program of any day on account of weather conditions, inability of a class to proceed with a scheduled activity, or for other reasons of equal importance.

An outline of this kind appears in the Elementary School Physical Education Handbook...

C. Music Records
It is recommended that a library of records be maintained in each school. Suggested records are listed in the “Rhythmic Section” of the Course of Study. A supplementary list of records is contained in the Elementary School Physical Education Handbook.

D. Equipment
Equipment for this program is ordered by the Principal through a definite procedure mentioned in the Elementary School Physical Education Handbook.

E. Supplies
All supplies such as balls, bats, ropes, mats, etc., must be ordered on unit requisition forms. Each school has an
allotment for supplies. Enough balls should be on hand in the school for skill practice to insure one ball for every ten pupils in the largest class.

Distribution of Supplies
It is impossible to furnish each room with all the supplies needed in the physical education program. It is therefore necessary that each school work out a system of distribution so that each room has ready access to all the supplies required for its activities. A central distribution point for certain units of rooms—perhaps primary, middle, and upper grades—with a committee of boys to service them regularly would insure a satisfactory supply at all times. These supplies should be kept in readiness for immediate use.

F. Uniforms
Being properly dressed is vitally important in a program of physical education. Pupils should be strongly urged to be properly dressed for participation in gymnasium activity. This requirement is made for hygienic purposes and reasons of safety.

Recommended attire for physical education is described in the Elementary School Physical Education Handbook.

G. Repainting Lines in Play Yards
The painting of lines on school playgrounds and in gymnasiums will be done in accordance with instructions in the Elementary School Physical Education Handbook under “Maintenance and Repairs.”
GAMES

GENERAL PURPOSE

Games constitute an important phase of the physical education program for children of all ages. They provide vigorous big muscle activity necessary for the development of organic power and physical hardihood. They contribute to efficiency and satisfaction through the development of skills in a variety of movements. They satisfy the need for group participation and cooperation and enable the child to become a socially responsible individual.

TEACHING SUGGESTIONS

A. Before explaining the game, have children take the positions in which the game is played.
B. Make explanations clear and concise.
C. Get the action started as soon as possible.
D. When numbers are large, divide the group and have more than one game as soon as the game is learned.
E. Teach children to stop all activity on command.
F. Stop the game before interest lags.
G. Play at least one vigorous game involving the entire group each period.
H. Delegate children to take care of equipment, when possible.
I. Be familiar with rules; make accurate observations and fair decisions.
J. When possible have a child demonstrate procedure and be sure there are no questions before starting.
K. Repeat familiar games.
L. Encourage children to play during recess the games they learned in gym.
M. Teach and encourage children to play games diagramed in the schoolyard.

Kindergarten

1. Circle Chase

All the children stand in a circle, except one who walks around the circle, stops behind one child, places his hand on that child’s shoulder, and says:

One, two, three,
You chase me.

When he finishes saying the verse, he runs around the outside of the circle, and the one to whom the verse was said chases him. If he is caught the one catching him gets to be “it” the next time. If he isn’t caught, he gets to go around and say the verse to a different child.

2. Hot Ball

All the children sit on the floor or ground in a circle, and a ball is given to one of the players, who puts his hands over the ball and heats it until it is “red hot” and then rolls it towards the center. Then, to be kept “red hot,” it must be on the move all the time. This is done by the children batting it with their hands as soon as it comes near them. More than one ball may be used at one time. The game may also be played by kicking the ball instead of hitting it.

3. Stacking Blocks

All the children sit on the floor or ground in a circle and a ball is given to one of the players. Several blocks or boxes are stacked in a smaller circle in the center. The children roll or throw the ball and try to knock the blocks or boxes down. The child who knocks them down goes to the center and stacks them again and the game continues.

4. Partner Skip

All the children but one stand in a circle with their right hands extended forward. The one who has been chosen to start the game skips around the circle once and takes the hand of one of the children and together they skip around and back to the place of the second child. The first child sits down and the second child then skips around and chooses another partner. This continues until all the children have had a turn.

5. Shoot the Rabbit

Blocks, or other articles, are stacked up in the center of the circle and the children sit around the circle. One child is given a ball and rolls it toward the center, trying to
knock over the articles. If he is successful he runs to the center and stacks them up again. The next child takes his turn and this continues until all the children have had a turn. It is suggested that this game be played indoors only because of the equipment needed.

6. Frog in the Middle

One player, chosen to be the frog, sits in the center of the circle. Use one frog for each ten players. The other players stand in a circle and try to tag the frog without being tagged. The object of the game is for the frog to tag another player while he remains seated. If the frog tags another player, they change places.

7. Bird Catcher

Children stand behind a goal line in an area designated "forest." Each child chooses the name of a bird (or the teacher may assign a bird name to each child). Several children may have the same bird name. "Birdcatcher" ("It") stands in the area between the forest and the bird's nest. Birdcatcher calls, "Robins fly" (or eagles, sparrows, gulls, or whatever he chooses). The children whose bird name is called run to the nest. Any child caught is sent to the Bird Cage. After "It" has called several bird names, he may call "Birds fly" and all remaining birds in the forest must run to the nest. When all have run, "It" chooses a new Birdcatcher from those who reached the nest safely; the birds go back to the forest and the game starts again.

8. Brownies and Fairies

The children are divided into two groups—Brownies and Fairies. Each group stands near the walls at the opposite ends of the room. While the Fairies turn their backs, the Brownies steal softly to ward them. When the Brownies get about fifteen feet from the Fairies the teacher calls, "The Brownies are coming." The Fairies then chase the Brownies back to the goal, tagging as many as they can. Those caught become Fairies. The game continues with the Brownies turning their backs and the Fairies stealing up to the Brownies.

9. Cat and Mice

One child is chosen to be the cat and goes to a corner of the room and pretends to go to sleep. The remaining children are mice. At a signal, the mice tease and try to awaken the sleeping cat who, awakened, tries to catch the mice. When a mouse is caught, he goes to his seat. The last mouse caught becomes the cat in the next game. If the game is played outside, more than one cat may be used. After a mouse is caught, he must go to a designated mousetrap.

10. Follow the Leader

The children form a line behind a child chosen to be leader. They then follow the leader around the room, imitating his actions. He tries to do as many different things as he can—such as skipping, running, hopping, walking like a duck or an elephant, etc. Anyone who does not follow the leader is out of the game.

11. Busy Bee

Children choose a partner and stand facing each other in a scatter formation. The teacher gives commands such as the following, and the children respond:

- Back to back.
- Elbow to elbow.
- Knee to knee.
- Face to face.
- Ear to ear.
- Right hand to right hand.
- Left hand to left hand.
- Right knee to right knee.

On the command "Busy bee," each child leaves his partner and moves to a new partner.
5. Drop the Handkerchief

The players form a single circle, jointing hands, facing the center. One player, carrying a handkerchief, runs around the outside of the circle, drops the handkerchief behind one of the players, and continues running around the outside of the circle. The one behind whom the handkerchief was dropped picks it up at once and starts around the circle until they get back to their own places. The first one back raises his hand and is chosen to be "it." The new "it" may then call any other toy. If played inside, children sit around the circle.

4. Good Morning (Come with Me)

Children stand in a circle facing the center while one who is "it" runs around outside the circle and touches someone on the back. The two then run in opposite directions. Upon meeting on the other side, they stop and say, "Good morning," and shake hands. Then both race on for the vacant place. The first one there wins and is "it" for the next turn. Both are out of the game if they do not stop and say, "Good morning," and shake hands.

3. Slap Jack

All players but one form a circle, standing with hands behind, palms up. The odd one runs around on the outside of the circle and slaps the palms of another player. The one slapped runs after the "it," trying to catch him. If caught, the chaser becomes "it." If the tagger is not caught before reaching the vacant place in the circle, he is "it" again.

2. Toy Chase

Players form a circle. Children count off around the circle, one to six. All the ones are dolls; the twos, trains; the threes, balls; the fours, soldiers; the fives, jumping jacks; and the sixes, tops.

An extra player stands in the center. He calls, "Trains," and No. 2 players step back and run around the circle until they get back to their own places. The first one back raises his hand and is chosen to be "it." The new "it" runs around the outside of the circle, stopping every 8" playground ball. If a player hits the object he becomes the tagger, the former tagger taking his place. Those or the large circle try to hit the object with an 8" playground ball. If a player hits the object, he changes places with the guard. The guard must bat or kick the ball away from the object.

1. Cat and Rat

Players form one or more circles, hands clasped. One player is chosen for Cat and one for Rat. Cat stands outside of the circle, Rat stands inside. Cat says, "I am the cat." Rat says, "I am the rat." Cat says, "I will catch you." Rat says, "You cannot." Cat tries to catch Rat. Both must run in and out of the circle and around the circle, while circle players help Rat by raising their arms to let him run under. They try to stop Cat breaking through the circle. When Rat is caught, other children are chosen to take the places of Cat and Rat.
safe if he can return to the vacant spot. If "it" is caught he goes into the "soup" in the center of the circle.

12. Line Chase

Two divisions line up facing each other at a distance of twenty or more feet, holding their hands waist high with palms turned upward. The leader of one side advances and lays his hands successively on the hands of the player of the other side. Suddenly striking one hand, he turns and runs neck to his line, pursued by the one he tagged. If caught before reaching his side he returns to the opposite side. The chaser always continues the game. The side having the greater number of players at the close wins the game.

13. Run, Rabbit, Run

The children are divided into two groups, rabbits and foxes. Choose one rabbit to be the Mother Rabbit. She takes the rabbits for a walk toward the fox home. When they almost reach the foxes' home, Mother Rabbit calls, "Run, rabbit, run." Rabbits try to get home without being tagged. All who are tagged become foxes. Change by having rabbits become foxes and foxes become rabbits.

14. Crossing the Brook

Two divergent lines are marked off one foot apart at the beginning to represent the "Brook." Each child runs and attempts to jump over the narrowest part of the "Brook." After all the children have crossed, they move to a wider part.

15. Fireman

All the children are numbered from one to four with one child named the Fire Chief. All the children having the same number should be grouped together on a goal line. The Fire Chief stands on a distant goal line and calls, "Fire! Fire! Station No. 1!" The group called runs to the opposite goal line and back. When "General Alarm" is called, all groups run. After each group returns to place, another group is called.

16. Zoo

The children are divided into two groups of equal size. Two lines are drawn on the ground, one group behind each line. One group decides upon an animal which they will imitate and then they approach the other group. When they are within a short distance of the other group, they begin to imitate the animal. Those on the line raise their hands and try to guess what the animal is. As soon as someone on the line guesses correctly, all the members of his group chase the animal imitators back to their line. Any players who are caught become members of the other group. The game is repeated with the other group taking its turn at imitating an animal. The game continues in this manner until all members of one group have been caught.

17. Dogs and Ball

Players stand in a line. Each player takes the name of a dog: such as police dog, bulldog, collie, fox terrier, etc. Several players have the same name. One player stands behind the line of players, calls, "Bulldogs," and throws the ball over the heads into the open area. All the Bulldogs run after the ball. The player touching it first becomes the new thrower.

18. Ball Game

One child chosen as leader faces the line. He throws the ball to the first child, then to the second and so on down the line. If anyone misses, he goes to the foot of the line. If the leader misses, he goes to the foot of the line and No. 1 then becomes the leader. Have as many groups playing as there are balls.

19. May I Chase You?

All the children except one chosen as leader stand in a line. One child is chosen to call the leader by name, as "May I chase you, John?" John answers, "Yes, if you have on red." All players who have on red may chase John and try to tag him. The one who tags him first becomes the leader. Other colors may be called.

20. Garden Race

All the children stand in a single line and are given names of vegetables such as lettuce, carrots, etc., with several players having the same name. One player stands behind the line of players, throws the ball over their heads into the open area, and calls the name of a vegetable, whereupon all the players of that name run and try to touch the ball. The player who touches the ball first is the leader for the next time. All players return to their original positions and the game continues.

21. Squirrel in the Tree

The players stand in groups of three, with hands joined, forming trees. One player stoops in each tree as a squirrel. The odd squirrels are without a tree. The teacher blows a whistle, or claps her hands, when all the squirrels must change trees. Meanwhile, the odd squirrel or squirrels attempt to get a place. All of the children should have an opportunity to become a squirrel.

22. Squat Tag

One child is "it." The other children scatter about an area. The children squat in order not to be tagged.

23. Three Bears

Three children representing bears stand at one end of the field with their backs turned to the other players. The other players represent Goldilocks. They leave their home at the other end of the playground and come as close to the three bears as they dare. They ask (or one player appointed by the leader asks), "Who's at home?" If Mother Bear answers, "Mother Bear," they ask again.
GAMES – LEVELS A-2 – C

Baby Bear answers, they ask again. If Father Bear answers, “Father Bear,” all players turn and run, the three bears chasing them. Those caught may help the bears to catch the other players, although only the original bears talk. The last players to be caught become the first bears in the next game.

24. Sheep and Dogs

The teacher, who acts as a shepherd, chooses her sheep according to some mark of identification such as brown shoes, blue coat, pink hair ribbons, etc. She says, “All children with brown shoes are sheep. Run, Sheep!” After a few seconds she tells the rest, who are the dogs, “Get them, Dogs.” The dogs go after the sheep and bring them to the shepherd.

25. Follow the Leader

The group is divided into equal teams. Thirty-six children would be six groups of six children. The first one in each group is leader, and the teams do as their leaders do until the teacher gives a signal (blowing of whistle or clapping of hands). At this signal the first in line goes to the end of his line and number two is leader until a signal is given. Then number two goes to the end and number three is leader, etc., until all children have been leaders. In this way all children play all the time and every child has a turn as leader.

26. Old Lady Witch

A child, chosen to be Old Lady Witch, walks down the street with the other children following her. Children say, “Old Lady Witch lost her switch, picked up a penny and thought she was rich.” The witch turns and points to one child and asks, “Whose children are you?” The child may answer, the fireman’s, the grocer’s, etc. The Witch continues to ask different children until one child answers, “Your children.” The witch then runs after them. Those caught become goblins and bats to help the witch catch the other children.

27. Nose and Toe Tag

The children scatter around the playing area. One child, who is “it,” chases the children. He may not tag any child who is holding his nose with one hand and touching his toes with the other. When a child is legally tagged, he becomes “it” and the game continues.

Variations: “It” may not tag anyone who is

a. Kneeling with forehead touching the floor or ground.

b. Holding nose with right hand, right arm under right leg.

c. Right hand on one’s back.

B. CLASSROOM GAMES

1. Guess Who?

All children are seated except one child who stands in front of the room with his back to the rest of the children. The child standing in the front closes his eyes, and the leader motions to one of the children seated to leave the room or hide some place in the room. The remaining children change seats, and the child who had his eyes closed turns around and tries to guess who is missing. If he guesses correctly, he gets another turn; if he does not guess correctly, he takes his seat and a new player is chosen to hide his eyes.

2. Jack in the Box

Pupils stand in an aisle. When the teacher says, “Jack in the box!” pupils stoop in place; at the command “Jack out of the box!” pupils stand in place. The object of the game is to catch pupils on either command. The teacher may catch them by omitting the word “Jack”; if so, the pupils must retain the position the preceding command called for. When pupils are caught they are out of the game and must be seated. The last one standing wins the game.

3. Squirrel and Nut

All the pupils except one bow their heads on their desks as though sleeping but with one hand outstretched. The odd player is the squirrel. He carries a nut (eraser) and tiptoes about the room and places the nut in the hand of one of the children. The player who gets the nut jumps up from his seat and chases the squirrel, who is safe only when he reaches his seat. Other players wake up during the chase.

4. Think and Place

All children are seated except six or eight children who stand in a row across the front of the room. The children who are seated close their eyes while the children standing change places. Volunteers are then called for to name the children in their new positions and put them back into their original positions. Some other namesuch as colors, birds, toysmay be used instead of the children’s names.

5. Three Little Pigs

One child stands in front of the class; he is the wolf. He moves around and touches the three little pigs, who remain in their houses until the wolf goes back to the front of the room and says, “Huff, Puff.” At these words the three little pigs change seats; the big wolf tries to get into one of the three houses. The pig left out becomes the next wolf.

6. Switch and Reverse

A child stands in front of the room as the Engineer and another child stands at the back of the room as the Switcher with a bean bag or eraser extended at arms’ length in each hand. Two more players stand on each side of the Engineer. The Engineer says, “Go,” and they run in
opposite directions to the Switcher. Each runner grabs one of the objects from the Switcher and runs back to the Engineer. The first one reaching the Engineer wins and becomes the new Engineer. He chooses two new runners. The second place runner becomes the Switcher.

7. **Watch Dog**

One child, with eyes closed, guards an object beside him. At a signal from the teacher, another child tries to take the object without being detected. If he returns to his seat with the object, he becomes the next watchdog. If, however, the watchdog detects a noise while the object is being moved, he calls “Bow-wow,” and opens his eyes. If he barks too soon, he goes to the dog house, and the thief gets to be the next watchdog.

8. **Find the Bean Bag**

A circle is formed with children standing shoulder to shoulder. One child stands in the center. A bean bag is passed on the outside of the circle from one child to another. The child in the center tries to guess who has the beanbag. If the child takes too long to guess, change the center child.

9. **Fruit Basket**

One child stands at front of the room; others are in their seats. Those in their seats are counted off into groups, and each group is given the name of a fruit. The child at the front of the room calls out the name of a fruit. All the children in the group with that name change places. The caller tries to get a seat. He may call, “Fruit basket upset,” at which time all children change places. The caller tries to get any one of the seats, and the child left becomes the caller.

10. **Huntsman**

A leader is chosen. The other children in their seats are named different groups of hunters, such as bear hunters, duck hunters, rabbit hunters, etc. The leader marches in any direction he wishes and announces, “Who would like to go with me to hunt ducks?” (or bears, rabbits, foxes, etc.) The duck hunters fall into line behind him and march as he does. When the leader sees that all are in line and away from their seats he calls, “Bang,” whereupon all scamper for their own seats. The first one to be seated in his own seat may be leader next time. Not more than 10 or 12 players should be up at the same time.

11. **Queen’s Headache**

A queen is seated on a throne. The leader announces that the queen has a terrible headache; in fact, it is so bad that she must be blindfolded. After the leader gives each a number, he signals them one at a time to cross over the other side of the room. If the queen hears one she groans, whereupon that individual must sit down on the floor at the spot where he is when the queen groaned. The fun is to see how many can escape having to sit on the floor.
Games - Levels D-1, D-2

A. MASS GAMES

1. Double Cat and Rat

Two cats and two rats are chosen and the rest of the children form a circle with clasped hands. The cats say, “We are the cats”; the rats say, “We are the rats.” The cats then say, “We will catch you,” and when the rats defy them with, “You can’t,” the chase begins. Both the rats and the cats must run around or through the circle. The children forming the circle try to help the rats by raising their arms to let them through and lowering them to try to keep the cats out. The rats must be caught with a two-handed tag. When both rats are caught, the cats choose new cats and the rats choose new rats.

2. Flying Dutchman

All players except two join hands in a circle. The two who remain join hands and walk around the outside of the circle and tag the joined hands of any two players. The two players immediately chase the taggers twice around the circle trying to catch them before they can get back to the vacant space. Couples running must keep their hands clasped while running.

3. Fire Ranger

All children except one form a double circle so that each child in the outer circle is directly behind one in the inner circle. The odd player stands in the center and is the Fire Ranger. When he calls, “Fire on the mountain, run, run, run,” the players in the outer circle begin to run around the outside circle until the Fire Ranger calls, “Fire’s out.” He then tries to get in someone’s place in the outside circle; if he succeeds, the one left without a place is “Fire Ranger.” Circles change places after each fire.

4. Piggy in the Pen

The class forms a circle, joining hands, and one is chosen to be in the center. A soccer ball, which represents a pig, is on the ground. A kicker, by kicking the ball, tries to drive it out of the circle between the legs and under the arms of the other players. The players try to keep it in by kicking it back. Change kickers frequently so that every child has a chance to be in the center.

5. Two Deep

All the players but two form a circle facing inward. The runner and the chaser start outside the circle. The object of the game is for the chaser to tag the runner before the runner saves himself by jumping in front of any player in the circle. When he does this, the one in front of whom he jumped becomes at once liable for tagging and must run to evade the chaser. If the chaser tags the runner, they exchange places and he becomes the runner.

6. Bull in the Ring

All but one player stand in the ring with hands firmly clasped. The odd player stands in the center of the ring and is the bull. The bull tries to break the ring by parting the hands of any players. If he breaks through, the two players whose hands he parted immediately give chase, and the one catching him becomes the bull.

7. Run for Your Supper

Form a circle, all players facing center with hands joined. “It” walks inside the circle, stops suddenly, thrusts his hands between two players, and calls, “Run for your supper.” “It” stands with outstretched hands while these two run in opposite directions around the circle. The child who touches “it’s” hand first is the new “it.” “It” may call out, “Skip for your supper” and other variations.

8. Have You Seen My Sheep?

Players join hands and form a circle with one child who is “it” on the outside. “It” touches one of the players on the back and asks, “Have you seen my sheep?” The second player replies, “How was it dressed?” “It” describes a player who, when he recognizes himself, must run around the circle and regain his place without being tagged by the second player, who chases him. If caught, he becomes “it.” If not caught, the chaser becomes “it.” The original “it” does not take part in the chase but takes the chaser’s place in the circle.

9. Circle Stride Ball

The players form a large circle and take a side stride position with feet touching. Several players are in the center of the circle. They attempt to bat or roll a playground ball out of the circle between the feet of any player. If they succeed, the player between whose feet the ball passed becomes “it.” Players on the circle use their hands to stop the ball. More than one ball may be used.

10. Ring Call Ball

Circle formation. One child stands in the center and throws a ball straight up in the air, calling someone’s name. The one called must run and catch the ball before it bounces twice. If he catches the ball he becomes the thrower. If not, the same child throws the ball and calls a different name.

11. Promotion

The children are divided into small groups. One child is selected for the teacher. She stands in the center and tosses the ball to each child in turn. They throw the ball back to her. After going around the circle, the teacher joins the circle, and another child is chosen to be the teacher. After learning the game, children should be formed into small groups, each using a ball.

12. Lemonade

The group is divided into two teams. They line up behind two lines facing each other. Team one chooses some activity such as sewing, washing clothes, etc., and advances toward team two saying, “Here we come.” Team
13. **Rope Skip**

The group is divided into four teams facing front. Another line is drawn about forty feet away. The first child in each line is given a jumping rope. At a signal all skip to the opposite line and back. The rope is then given to the next child while the first child goes to the end of the line. The winning child in each group scores one point for his team. The team with the greatest number of points after all children have had a turn is the winner.

14. **Pied Piper**

The children stand behind a line. One is chosen to be Piper. He stands on the piper's line three feet in front of the children. He walks away from the line pretending to play upon his pipe. As long as he plays, the children follow him, but when he lowers his pipe and turns around, he chases them back to their places on the line. Any player tagged becomes a piper and goes to the piper's line. On the next turn the new pipers walk beside the piper. When he stops playing, they help him catch the other children and the game continues. After a time the uncaught children become pipers, and the pipers become children again.

15. **Straddle Line Tag**

A thirty-foot line is marked on the ground, and all the players but one stand with one foot on each side of the line facing the same way. The odd player, who is the catcher, stands in front facing them. He can never cross the line, but if he wishes to get to the other side he must run around either end of the line. He tries to tag anyone who is on the same side of the line as he is. The players try to keep out of his way by crossing the line to the opposite side. The first one caught is the new catcher. Children may be divided into two or more groups.

16. **Measuring Foot Race**

The players are divided into three or more equal teams, five or six to a team. Each team lines up behind a starting line drawn on the floor. About thirteen feet ahead and parallel to the starting line a goal line is drawn. At a signal the first child in each team runs forward, touches the goal line, and runs back to the starting line. The winning player scores one point for his team. The next children in line repeat the race. The race is started again after each group has run until each child has had his turn. At the end the team with the most points wins.

17. **Single Race**

The players are divided into three or more equal teams, five or six to a team. Each team lines up in single file behind a starting line drawn on the floor. About fifty feet ahead and parallel to the starting line a goal line is drawn. At a signal the first child in each team runs forward, touches the goal line, and runs back to the starting line. The winning player scores one point for his team. Children who have run go to the ends of their lines. The next children in line repeat the race. The race is started again after each group has run until each child has had his turn. At the end the team with the most points wins.

18. **Heel Race Run**

The players are divided into three or more equal teams, five or six on a team. Each team lines up behind a starting line drawn on the floor. About twenty feet ahead and parallel to the starting line a goal line is drawn. At a signal the first child in each team walks forward on his heels to the goal line, turns, and walks back on his heels to the starting line. The winning player scores one point for his team. Children who have walked go to the ends of their lines. The races continue until each child has had his turn. At the end the team with the most points wins.

19. **Back to Back**

The players are arranged back to back in couples. One odd player who is “it” starts the game by commanding, “Change.” At this signal each player must seek a different partner with whom he squats and hooks elbows. The one left without a partner is the new “it” and in turn commands, “Change.”

20. **Chinese Tag**

One player is “it” and tries to tag one of the other players. When he succeeds in tagging a player, that player must place his left hand on the place where he was tagged and try to tag someone else. After the group has played for a while, several players may be “it.”

21. **Fox and the Chickens**

One player is Fox, another Mother Chicken. Each Mother Chicken chooses four baby chicks, who line up behind her and clasp hands around the waist of the one in front. Fox stands in front of Mother Chicken to start. On signal, Fox attempts to tag the last baby chicken. Mother Chicken, by turning and twisting, tries to prevent Fox from getting to the back. The baby chicks try to stay behind the mother. The mother must keep her hands clasped on her own stomach. If the chain breaks, Fox wins. When Fox tags the last chick, Fox takes his place at the end of the line, Mother Chicken steps out and becomes the new Fox, and the second in line becomes the new Mother. This rotation continues for each game.
GAMES – LEVELS D-1, D-2

22. Wood Tag

One player is chosen to be “it” while the other players scatter around the play space. At a given signal, the chaser tries to tag one of the other players, who can save himself only by touching wood. One piece of wood can accommodate only one player. When one of the players is tagged, he becomes “it” and play continues. Other materials may be used such as iron, stone, trees, etc.

23. Speedy Squirrel

All the children but one form a circle. The extra child stands outside the circle and represents the squirrel. As the squirrel walks around the circle, he tags five children who remain in their places, until he calls, “Speedy squirrel!” The five children who have been tagged then run around the outside of the circle to their left. The first player to return to his former place wins the game, and is the squirrel next time.

24. Frog in the Sea

The children form a circle around five “frogs” who sit with feet crossed. All the players in the circle skip close to the frogs and back, repeating, “Frog in the sea, you can’t catch me.” The frogs attempt to touch any player without rising or uncrossing their feet. If a frog succeeds in tagging a player, they change places, the tagged player becoming a frog.

25. Fisherman’s Net

The children are divided into two equal groups, the fish and the net. The groups stand behind parallel goal lines drawn about fifty feet apart. Joined hands of one group of players form a net. The other group will be fish. At a signal, both groups advance toward each other. The fish try to reach the opposite goal and the net attempts to prevent this by closing in its ends. A fish may not break through or under the net, but may escape only by dodging around the ends. Should the net break, the fish escape. Any fish caught are out of the game until all are caught. The two groups alternate in playing they are the fish and the net. The groups stand behind parallel goal lines drawn about fifty feet apart. Joined hands of one group of players form a net. The other group will be fish. At a signal, both groups advance toward each other. The fish try to reach the opposite goal and the net attempts to prevent this by closing in its ends. A fish may not break through or under the net, but may escape only by dodging around the ends. Should the net break, the fish escape. All the children but one form a circle. The extra child stands outside the circle and represents the squirrel. As the squirrel walks around the circle, he tags five children who remain in their places, until he calls, “Speedy squirrel!” The five children who have been tagged then run around the outside of the circle to their left. The first player to return to his former place wins the game, and is the squirrel next time.

B. CLASSROOM GAMES

1. I Say Stoop

The players are in a circle. In front of them is a leader. He says, “I say stoop,” and immediately stoops himself and rises again. The players imitate the action; but when the leader says, “I say stand,” at the same time stooping himself, the players should remain standing. Anyone who makes a mistake and stoops when the leader says, “I say stand,” is out of the game.

2. Spinning the Platter

All the players are numbered and seated in a circle except one who stands in the center and spins a tin pan or plate on edge. While it is spinning he calls a number, and the one whose number is called tries to catch the plate before it stops spinning. If he is successful, he becomes the spinner and the former spinner takes his place in the circle. If he fails to catch the plate, the first spinner spins the plate again, calling another number.

3. Bean Bag Race

The children stand in the aisles with feet apart, an equal number of players in each row. The first one in each row has a bean bag. On the command “Go” the bag is passed (not thrown) back between the legs to the next one who in turn passes it between his legs. This continues until the bag reaches the last one, who holds it high. The row finishing first wins. The game is then repeated with all facing the rear of the room.

4. Eraser Snatch

Erasers or other articles are placed on the front and back desks of each row and on each desk in the two outside rows. There should be one less eraser than there are players. Children march around the outside aisles of the room. At a given signal each grabs an eraser from the desk closest to him. The child left out is out a the game.

5. Fox and Squirrel

The players sit in their seats facing the aisles, so that each two adjacent lines have their feet in the same aisle and face each other. The game consists in passing some object—the squirrel—(bean bag or eraser) from one player across the aisle to another and back again, zigzagging down each aisle to be followed at once by a second object (the fox); the effort being to have the fox overtake the squirrel before the end of the line is reached.

6. Bread and Butter

One child is “it” and is sent from the room. An article is hidden in the room by one of the other players who is then sent to call the child who is “it.” He summons him by saying, “Bread and butter, come to supper.” “It” then searches for the hidden article. Whenever he gets close to the hidden article, the other players indicate by motions such as fanning themselves that he is warm. When he is
farther from the object, they shiver or likewise show that he is cold. When he finds the article, another child becomes “it.”

7. **Lost or Found**

Children are seated in a circle. One player is “it” and is sent from the room. While he is out, one child leaves the circle and hides somewhere while the rest of the children change places. “It” is called in and tries to tell who is missing. If he is successful, he chooses someone to take his place as “it”; if not, the hidden person becomes “it.”

8. **Eraser Overhead Race**

Children are seated, there being the same number in each row of seats. An eraser is placed on the front desk of each row. At a given signal the first player in each row lifts the eraser over his head and passes it to the player behind him, who passes it to the one behind him in the same manner, and so on until the last player in the row receives it. He then stands immediately, holding the eraser high, and runs to the front of the room, thus indicating that his row is finished. The row finishing first receives one point. The children then move backward one seat and the race starts again.
A. MASS GAMES

1. Circle Kick (or Throw)

The group is divided into two teams. One team is lined up around one side of the circle and the other on the opposite side. The game is played with a soccer ball that is put into play by one team kicking it towards the opposing team. Points are scored when the ball is kicked between the legs of the opposing players; but when the ball is kicked over the head of any player, the team opposite the kicker scores a point, and when the ball is kicked by a player through the legs of his own team, the opposing team scores a point. The same rules hold when the game is played by throwing the ball rather than kicking it.

2. Brothers

Couples line up in a circle, children on the outer side facing one way, those on the inner side facing the other way. At a signal, one circle walks one way and the other walks the other way. When the teacher says, "Brothers," the children find their partners, join hands, and stoop down. The last couple down is eliminated. After the first elimination the children form a circle again and continue. The last couple left is the winner.

3. Dodge Ball

Divide the group into two teams of ten or fewer on each. One team is in a circle. The other team scatters itself inside the circle. The players in the circle try to hit the players inside the circle. They get ten throws. If a player is hit he leaves the circle. After ten throws the teams change. Variation: The group is divided into four teams—three teams around a circle, one inside the circle. Outside teams try to hit inside players. When hit, an inside player joins the circle and helps to hit others left inside. After a period of time, team two goes inside. All teams given the same amount of time inside the circle. Variation: The group is divided into two groups—one inside and one around the outside of a circle. When an inside player is hit, he goes to the outside and the outside player who hit him takes his place in the circle.

4. Elimination Pass

The players stand in a circle four feet apart, facing in. At a signal, the ball is passed from one player to the next around the circle. When the teacher says, "Change," the direction of the ball is reversed. The players may pass the ball in any manner they choose, but should pass it quickly and accurately. Any pass which the receiving player can touch with both hands is considered a fair pass, if not thrown too hard. Players making throws which cannot be caught are also eliminated. This continues until only one remains. This player is the champion.

5. Diamond Ball

The players are divided into two teams. The members of one team, the batters, stand behind home plate. The members of the other team are scattered around the infield and outfield of the softball diamond. The batter hits a playground ball out of his own hand and then runs the bases. The batter-runner is out if a fielder (1) catches the ball on the fly, (2) gets the ball and tags the base before the batter-runner gets there, (3) tags the batter-runner with the ball between bases. The batter-runner must hold at the closest base when the fielders return the ball to home plate. A batter-runner scores a point for his team when he successfully rounds the diamond, tagging all bases. Sides change after three outs. A soccer ball may be used, the ball being kicked instead of batted.

6. Circle Tag

All players stand in a large circle and face counter-clockwise. At a signal each player starts to run, trying to pass on the outside of the next runner in front of him, tagging him on the outside shoulder as he passes. Any player who is passed and tagged drops out. The last player who stays in wins.

Variation: All children stand on a circle. At a signal, they start running around the circle. When the teacher blows once on his whistle, the children reverse directions. When the teacher blows twice on his whistle, the children freeze. The slightest movement puts them out of the game.

7. Frog

A goal is marked off at each end of the play space, and the players form a circle between the two goals. One player is chosen to be a frog and squats very still at the center of the circle, while the other players walk or skip around, clapping their hands as they go. When the frog jumps up and chases them, they run toward either goal. If the frog tags them before reaching the goal, they become frogs and must go into the circle and squat down with the first frog. The game continues and no frog may move until the first one starts to run. This goes on until all are frogs. The last one caught is the frog for the new game.

8. Red Light

The player who is chosen to be "it" stands on a line at one end of the play space with his back to the rest of the players, who are lined up at a corresponding line at the other end of the play space. As he counts from one to ten, the players move forward as rapidly as possible. After counting to ten he says, "Red light," and immediately turns around. Anyone whom he sees moving is sent back to start all over again, but those not seen are allowed to start running from the places they now occupy when the counting is begun again. The first player to reach the goal line is "it" for the next game.

9. Through the Line

Two teams line up, facing each other about ten feet apart. They join hands to form a line that cannot be broken. One player is chosen from each line. Each advances toward his opponents' line and tries to break
through or dodge under their arms. If he is unsuccessful at one place he may try at another, but he may have only three trials. Should he succeed in breaking through, he returns to his side, taking with him the two whose hands had been parted or evaded. Should he fail in the third attempt, he must remain on the side of his opponents. The team having the greater number of prisoners at the end is the winner.

10. Boundary Ball

The play area is divided into three parts, the size to be determined by the teacher (a central area and two end areas). The players are divided into two equal teams. Each team scatters itself in an end area. Each team is given a ball. The object of the game is to throw the ball over the opposite team’s rear boundary line. The balls are started from the rear boundary line, and each team tries to intercept the opponent’s ball. If a ball goes out of bounds, it is brought inside the area nearest where it went out. No ball can be thrown outside the boundary line. One point is scored for each ball that goes over the opponent’s rear line. The team getting five points first wins. The central area is out of bounds. The ball can be rolled or bounced instead of being thrown.

11. Throw Away

The play area is divided into three divisions, the size to be determined by the teacher (a central area and two end areas). The players are divided into two equal teams. Each team scatters itself in an end area. Each team is given a ball. The players throw and catch and throw the balls as fast as they can. The team with the least balls in their area at the second whistle is the winner.

12. Water Sprite

The players stand in two rows, facing each other, with a large open space, the river, between them. One player, the water sprite, stands in the middle of the river and beckons to a player on the bank to cross. This player crosses the river. The water sprite tries to tag one of them. If he succeeds he changes places with the player tagged.

13. Chinese Wall

Make the wall across the playing space by drawing two parallel lines eight to twelve feet apart. Draw home bases twenty to thirty feet away from the wall on each side. All the players stand at one of the home bases. A guard standing on the wall calls, “Go.” All the players leave the home base, running across the wall to the other home base. The guard, standing within the boundaries of the wall, tags as many players as he can as they cross the wall. All those who are tagged go to the side of the wall, and on the next “Go,” they run out onto the wall and help the guard catch the other players. The last one tagged is the new guard for the new game.

14. School Colors

Draw two parallel lines about ten feet apart in the center of the playing area. Establish goals for each team parallel to the center lines at each end of the field. Divide the class into two teams, and line them up facing each other on the center lines; one team is one school color (Red), the other team is the other school color (White). If “Red” is called, they immediately give chase to the “Whites,” who try to get to their goal without being tagged. Any who are tagged join the opposite team. The group that captures all or the largest number of players wins.

15. Circle Bounce Ball

Draw two lines about twenty feet apart. At the center of the space between draw a circle about 25 inches in diameter. Divide up into two teams. Line up in two parallel lines, facing the circle. The first player on one team tries to bounce the ball into the circle. If he succeeds, a point is scored for his side. The opposing team then tries. Each player in the line takes a turn at bouncing the ball. The team that gets ten points first wins the game. If the group is large, have several games with short lines of only five or six players.

16. Stationary Dodge

Draw two parallel lines about thirty feet apart. At the center of the space between draw a circle about 25 inches in diameter. Divide up into two teams. Line up in two parallel lines, facing the circle. The first player on one team tries to bounce the ball into the circle. If he succeeds, a point is scored for his side. The other team tries to bounce the ball and attempt to hit him. If hit, the player who hit him takes his place in the circle. The circle player must stay in the circle.

17. Hopping Relay

A starting line is drawn on the ground behind which the players stand in two or more single files, facing a goal. The goal should be ten or more feet from the starting line. At a signal the first player in each line hops on one foot to the goal, touches it with his hand, and hops back to the end of his line, which should have moved forward to fill his place as he started. He takes the place at the rear of the line. He tags the first player in line as he passes and this player hops forward to the goal. Each player thus takes his turn, and the line wins whose last player reaches the rear of his line first and raises his hand as a signal. If the game is repeated, the player should hop on the opposite foot.

18. Baseball Diamond Relay

Divide the class into two, three, or four teams. The game is played on a regulation ball diamond. Each team lines up facing one of the four bases with the first man on the base and the other men in a column inside the diamond. At a signal, the first man of each group runs around the bases, all going in the same direction. When each returns to his group, the man who is second in line runs. The group whose men complete the circuit first wins the game.
19. Find Me

One player stands with his back to the group of players who are scattered out behind him. This person tosses a bean bag over his head without turning or looking around. As one of the players catches it, all put their hands behind them and cry out, “Find me.” The tosser turns around and guesses who has the bean bag. If he is correct, he keeps his place; if not, the child who is holding the bean bag becomes the tosser. Keep groups small, ten players or fewer.

20. Double Tag

This game is played in the same manner as simple tag. All the players, however, are coupled off with one hand joined. One couple is “it” and chases the other couples. If the ones who are “it” break apart, they must again join hands before they can tag anyone. If the ones chased break apart while running from “it,” they must, as a penalty, sit down or “freeze” until someone is caught.

21. Freeze Ball

One person is “it” with an eight-inch rubber ball. On the signal “Go,” all the other children scatter within a definite large area. “It” chases them, throwing the ball. Anyone hit by the ball, freezes right where he was hit. (Frozen players must stand.) “It” recovers the ball and continues chasing and throwing the ball until all players have been hit. The last player hit is the “it” for the next game.

22. Stop Statue

The children are scattered over the play area. The teacher gives a command to skip, run, etc. When she says, “Stop, statues,” the children must stop in whatever position they are in. If they move in any way they are eliminated. After a short time the teacher gives the command, “Relax.” They then are ready for another command to be given by the teacher. This continues until all but one are eliminated. He is the winner and may be the one to give the commands.

23. Pictures

The class is broken into small groups of two, three, or four. The teacher gives a command to skip, run, etc. When she says, “Lights, action, camera,” the children must stop and form a picture while the teacher counts to ten. At ten, all pictures freeze. The teacher walks around and judges which is best. The best group then judges the next picture.

24. Link Arm Tag

Couples with arms linked and outside hands on hips are scattered around the play area. The runner, chased by “it,” links the outside arm of one of the pairs, whereupon the third player is chased. If caught, the runner becomes “it.”

25. Midnight

One player is the fox and the rest the sheep. The fox may catch the sheep only at midnight. The game starts with the fox standing in a den marked on one corner of the field and the sheep in a sheepfold marked in a corner diagonally opposite. The fox leaves his den and wanders about the field. Suddenly the sheep also come out and scatter about, coming as close to the fox as they dare. They keep asking him, “What time is it?” and he answers with any hour he chooses. Should he say any hour but midnight they are safe; but if he should say, “Midnight,” they must run toward the sheepfold as fast as possible, the fox chasing them. Any sheep who is caught is taken to the fox’s den. At the next call of “midnight” the caught sheep become foxes and help catch the other sheep, but each fox can only catch one sheep each time “midnight” is called. The last sheep to be caught becomes the fox for the next game.

B. CLASSROOM GAMES

1. Numbers Change

All players are given a number on a slip of paper. One player takes his place in the center. He calls two numbers, and the players whose numbers are called change places while the center player tries to secure one of their places. The one who is left without a place becomes the center player, and he calls the next two numbers. The numbers are exchanged after each turn.

2. Huckle, Buckle, Beanstalk

A small object is used for hiding. All players hide their eyes while the object is being hidden. When the object has been hidden, the players begin looking for it. When one sees it he does not tell the others but quietly takes his seat. Sometimes the teacher says, “Huckle, Buckle, Beanstalk.” This indicates that he knows where the object is. The same continues until all the players have located the object or until the teacher says the hunt is over. The first one to locate the object hides it for the next game.

3. Partners

Divide the class into two rows, the opposite players being partners. The players exchange bean bags by tossing with their right hands, holding their left hands behind their backs. When the bag falls to the floor, both players are seated. Sometimes the tossing may be done with the left hands. The couples left standing at the end of a set time win. Small playground balls or erasers or other small objects may be used if bean bags are not available.

4. Hot Potato

One player who is “it” stands in front of the room. The players who are seated keep passing an eraser between them in any direction. The one who is “it” runs about the room and tries to tag a player when he has the eraser, or hot potato, in his hands. The one caught with the hot potato is “it.”
5. Do You Know Me?

The players remain seated except one who stands and asks of anyone he chooses, "Have you seen my friend?" The chaser stands and answers, "How was he dressed?" The questioner describes the dress of someone in the room. The chaser then names the player whom he thinks has been described. The one described must walk quickly around the room and return to his seat without being tagged. If he is not tagged, he becomes the questioner and the others sit down. If he is tagged, the chaser or tagger becomes the next questioner.

6. Goal Toss

One goal for all rows is placed at the front of the room. The last one in each row at the rear of the room passes a bean bag or other small object to the player in front of him who passes it to the next and so on down to the front player. The front players throw and try to make a goal. When all front players have thrown, they recover their object and go to the rear of their line and start the object down the line. Each goal counts a point. When all have had a turn to throw, the team with the highest score wins.
RHYTHMS

GENERAL PURPOSE

The Rhythmic Program for the Primary Levels will include Fundamental Rhythms and Singing Games and Dances.

The Fundamental Rhythms will provide the children with the opportunity to develop a sense of rhythm and coordination resulting in skills that can be used in many situations. These skills contribute to the development of a strong body.

The other activity, Singing Games and Dances, will help to develop favorable pupil relationships and will appeal to the children for their repetition in words, melody, and action.

TEACHING SUGGESTIONS

The Rhythm Program should be equally balanced in Fundamental Rhythms and Singing Games and Dances.

At the beginning of most physical education classes, it is well to have a few minutes of Fundamental Rhythms as a limbering-up period.

Each lesson should contain instruction in something new as well as a review of some familiar material.

For accompaniment, three sources of rhythm are generally found suitable: the tom tom, the record player, and the piano.

It is recommended that a library of records be maintained in each school. A list of suggested music records by activity may be found in the Rhythms section of this curriculum guide. An up-dated supplementary list of records will also be published in the Physical Education Handbook.

The selection of materials for teaching should be primarily made from the curriculum guide before supplementary material from other sources is used.

CLASS ORGANIZATION

The classroom may be used for the rhythm lesson if there is sufficient space which can be cleared of hazards. All tables and chairs should be moved well away from the activity area.

It is strongly urged that the gymnasium or playroom be used for the rhythm lesson whenever possible. As a rule these facilities are more desirable than classrooms, for they afford greater expanse and freedom of movement.

In cases where space is very limited, it is advisable to have small groups take turns in performing in the entire space.

Forming in lines and circles is very desirable in the first lessons of each new term. By becoming a member of a line or circle children develop a sense of security and a feeling of belonging to their new social group. Later, children should be taught to move independently around the room.

In the first stages of using the scattered positions, children should be frequently encouraged to find their own spaces in which to dance. They should keep well apart and use all the available space in the room.

While using scattered positions all children should move around the room in the same direction, either in a clockwise direction or in a counter-clockwise direction.
List of Records by Activity

Note: The title on the reverse side of the record is given in parentheses.

I. FUNDAMENTAL RHYTHMS

Walk - Hop - Jump

Baby Elephant Walk
Boulevard of Broken Dreams
Childhood Rhythms
Dream On
I Still Get Jealous

Statements Concerning Specific Rhythmic Activities

A. FUNDAMENTAL RHYTHMS include those rhythmic activities which provide experience in the fundamental forms of locomotor and non-locomotor, or axial, movements.

LOCOMOTOR MOVEMENTS take the individual from one place to another. These rhythms include the walk, tiptoe, march, run, hop, jump, skip, gallop, and slide.

NON-LOCOMOTOR, OR AXIAL, MOVEMENTS are those rhythms which turn-twist, bend-stretch, swing-sway, and push-pull various parts of the body around a fixed axis.

At this age children walk, skip, run, or jump for the sheer joy of moving. With a simple and well-accented music the activity becomes even more stimulating and pleasing to them. The rhythms should be very invigorating, with much freedom of movement and big muscle activity.

To assist children to become aware of the rhythmic beat of the music have them clap hands to the music. Other simple rhythmic movements done with the hands, arms, legs, or feet can help the child get the feel of the music.

The music should be played long enough to develop an awareness to group and class rhythm. This may be done by having the class move with the accompaniment, and then when the music stops, let the class continue to move in rhythm without accompaniment. A group or class rhythm will be heard. This rhythm should take up the tempo and underlying beat of the music.

The material for Fundamental Rhythms is arranged in chart form to assist the teacher in selecting an activity. The teacher is encouraged to add notes or other ideas in the columns and spaces left for this purpose.

Under each fundamental activity several suggestions are given which gradually increase in difficulty. Various fundamentals can be used for each lesson.

B. SINGING GAMES AND DANCES

Singing Games are a source of real enjoyment to children when the rhyme or song is simple, rhythmic, repetitious, and engaging.

The simple fundamental locomotor movements are the basis for the dances.

In presenting a singing game and dance to a class, the following steps provide a logical sequence of progression:

1. Introduce background information
2. Analyzing the music
3. Learning the music and the verses
4. Learning the dance by parts
5. Combining the parts
6. Variations

When the activity is well learned by the class as a whole, divide the class into smaller units so that more children have opportunities to be in the active part. If the dance is active for all, it is not necessary to divide the group.
The illustrated formations presented below can be used for singing games and dances.

Fig. 1

Fig. 2

Fig. 3

Fig. 4

Fig. 5

Fig. 6

Fig. 7

SINGLE CIRCLE

1. All facing center.
2. All facing counter-clockwise.
3. By partner, all facing center.
4. By partner, with partners facing.

DOUBLE CIRCLE

5. Partners facing each other.
6. Partner side by side, facing counter-clockwise.
7. Double line, partners facing.

Several singing games and dances are recommended for each primary grade.

 | On place, jump slow (high jumps).
HOP | Class Formation: Circle.
 | Listen to music; clap it.
 | Hop on place on one foot, and then hop on place on the other foot.
 | Hop on one foot, moving forward.
 | Hop on the other foot, moving forward.

### B. SINGING GAMES AND DANCES

**Charlie Over The Water**

**RECORD:** Bowmar - No. 1512-A (Band 1)

**FORMATION:** Single circle, facing in, all hands join.

**SONG**

*Charlie over the water,*  
*Charlie over the sea,*  
*Charlie catch a blackbird,*  
*Can't catch me!*

**ACTION**

Circle of players walk clockwise as they sing the song. On the last word of the song, “me,” circle players stoop and center players try to tag them before they stoop. The “me” is usually a high shriek and jump in the air. Players tagged before they stoop exchange places with those in the center.

**VARIATION:** Let the children in the circle skip, gallop and slide as they move singing the song.
Did You Ever See A Lassie

**RECORD:** Folkraft 1183.

**FORMATION:** Children are in a single circle, facing left with hands joined. One child is in the center.

**SONG**

Did you ever see a lassie, a lassie, a lassie,
Did you ever see a lassie do this way and that?
Do this way and that way, do this way and that way,
Did you ever see a lassie, do this way and that?

**ACTION**

Children with hands joined walk to the left in a circle. The child in the center gets ready to demonstrate some type of movement. All stop and follow the movement suggested by the child in the center.

As the verse starts over, the center child selects another to do some action in the center and changes places with him.

The word “laddie” should be substituted if the center person is a boy.

Farmer In The Dell

**RECORD:** Folkraft 1182.

**FORMATION:** Children are in a single circle with hands joined and facing center. One child is chosen to be the farmer and stands inside the circle.

**SONG**

1. The farmer in the dell,
The farmer in the dell,
Heigh-O! the dairy-O!
The farmer in the dell.

2. The farmer takes a wife, etc.

3. The wife takes a child, etc.

4. The child takes a nurse, etc.

5. The nurse takes a dog, etc.

6. The dog takes a cat, etc.

7. The cat takes a rat, etc.

8. The rat takes the cheese, etc.

9. The cheese stands alone, etc.

**ACTION**

Verse 1. The circle players walk to the left with hands joined while the farmer is deciding on a child to be selected for his “wife.”

Verse 2. The singing and moving continues as the farmer chooses a wife. The child selected as his wife joins hands with him, and they walk around the inside of the circle in the opposite direction the big circle is moving.

Verses 3-8. Each child in turn selected joins with the center group.

Verse 9. All children in the center with the exception of the child who is the “cheese” return to the outside circle. The circle stops and the children face the center clapping hands during this verse.

**SUGGESTIONS:** The game should be repeated until all children have had an opportunity to be in the center.

**VARIATIONS:**

1. Several farmers can be chosen to start. When the outer circle gets smaller, the children no longer can join hands.

2. Verse 8 can be: “The cat chases the rat.” During this the cat does chase the rat in and out of the circle with the children raising and lowering their joined hands to help the rat and hinder the cat. If the cat catches the rat, he gets to be the farmer for the next game. If not, the rat becomes the farmer. The rat must be caught during the singing of the verse.
Holly, Holly, Ho!
(English)

RECORD: Victor 22356

FORMATION: Children arranged in one or two circles, hands joined, facing center. One child inside each circle represents the Big Ship.

SONG

The big ship sails through the
Holly, Holly, Ho!
Holly, Holly, Ho!
Holly, Holly, Ho!
The big ship sails through the
Holly, Holly, Ho!
On a cold and frosty morning.

ACTION

The center child starts weaving in and out of the circle under the raised hands of the children on the circle. This action follows the song through the first six complete measures.

On the words, "on a cold and frosty morning" the "ship" stops in front of someone on the circle and bows to that person.

The song is repeated and the person chosen by the leader joins the first "ship" by standing behind the leader and placing hands on the waist of the leader. Both begin sailing the "big ship" by weaving in and out. It is not necessary to sail in any particular order. The "big ship" may cut across the circle to weave in and out.

If two circles are used, sail to the next circle as well.

The step may be walking, skipping, or running. It is advisable to do it walking first.

Each time the leader bows to a new person, that person hooks up on the end of the line.

When all but two children are sailing, it is fun to sail from one ocean or circle to the other.

This song game may also be done in lines as in a Virginia Reel.
How Do You Do, My Partner

**RECORD:** Folkraft 1190.

**FORMATION:** Double circle, partners facing each other.

**SONG**

_Song:_

_How do you do, my partner,_
_How do you do today?_
_Will you dance in a circle?_
_I will show you the way._

_Chorus:_ Sing tra, la, la, la, la, la, etc.

**ACTION**

_Song:_

_How do you do, my partner,_
_How do you do today?_
_Will you dance in a circle?_
_I will show you the way._

-Chorus—Sing tra, la, la, la, la, la, etc.

**RECORD:** Folkraft 1184

**FORMATION:** Single circle, all facing center with hands joined.

**SONG**

_Song:_

_Here we dance looby loo,_
_Here we dance looby light,_
_Here we dance looby loo,_
_All on a Saturday night._

_Verses:_

1. I put my right hand in,
   I take my right hand out,
   I give my right hand a shake.
   Shake, shake,
   And turn myself about.
2. I put my left hand in, etc.
3. I put my right foot in, etc.
4. I put my left foot in, etc.
5. I put my head way in, etc.
6. I put my whole self in, etc.

**ACTION**

_On the verse part of the dance, the children stand still facing the center and follow the directions of the words. On the words “And turn myself about” they make a complete turn in place and get ready to skip around the circle._

_The movements should be definite and vigorous._

_VARIATION:_ On the last verse, the child jumps forward and then backwards, shakes himself vigorously, and then turns about.
Our Exercises

RECORD: Bowmar 1512-A (Band 3)

FORMATION: Single circle, all face in toward center.

SONG
We touch our toes and then our heads,
Touch our toes, then our heads,
We touch our toes and then our heads,
Let feet go stamp, stamp, stamp.

ACTION
Follow the action of the song while singing.

VARIATIONS:
1. We touch our knees and stretch up tall, etc.
2. We touch our toes and stretch up tall, etc.
3. We touch our heads and bend down low, etc.

Pop Goes The Weasel

RECORD: Folkraft 1329.

FORMATION: Children standing in circle.

SONG
All around the cobbler's bench,
The monkey chased the weasel,
The monkey thought 'twas all in fun,
Pop! goes the weasel.

A penny for a spool of thread,
A penny for a needle,
That's the way the money goes,
Pop! goes the weasel.

ACTION
One child skips around inside the circle.

At the word "pop," the group in the circle give a single clap and the child skipping stops and faces a partner. He takes the hand of the partner and they skip about inside the circle.

As the music is repeated, both children stop on the next word "pop" and both choose a partner. They form a circle of their own and skip around in place as the music continues. This time on the third word "pop" the first two children to make up the circle of four lift their arms, and one of the other two skips out under the lifted arms to start the game again. The remaining three then join the large circle.

Push arms forward, with hands open; pull arms back, with fists clenched. 
Push arms upward; pull with hands together down to the floor.

B. SINGING GAMES AND DANCES

Deedle Deedle Dumpling

RECORDER: Victor E-83

FORMATION: Single circle, partners facing one another.

Figure I

<table>
<thead>
<tr>
<th>SONG</th>
<th>ACTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Deedle, deedle, dumpling, my son John,</td>
<td>Two jumps on place; hit sides twice; clap hands together twice; clap both hands with partner. Partners join both hands and skip 8 skips clockwise.</td>
</tr>
<tr>
<td>Went to bed with his stockings on;</td>
<td>Place foot sideward toward center of circle on word “one” and close feet on word “off.” Repeat, placing other foot sideward and close feet on word “on.” Join both hands with partner and take 8 skips in a circle, turning clockwise.</td>
</tr>
<tr>
<td>One shoe off and one shoe on,</td>
<td></td>
</tr>
<tr>
<td>Deedle, deedle, dumpling, my son John.</td>
<td></td>
</tr>
</tbody>
</table>

Figure II

Tra, la, la is sung through another playing of music.

In a double circle, inside hands joined with partner, all skip in a large circle moving counter-clockwise.
Girls And Boys A-Dancing

**RECORD:** Childhood Rhythms, Ruth Evans, Series VI 606

**FORMATION:** Single circle, children facing center with hands joined. Several children stand inside circle.

**SONG**

Girls (boys) like to dance,
Girls (boys) like to sing,
Out little girls (boys) like to dance in a ring.
So won't you please be a partner to me?
Give me your hands and we'll dance merrily.

All repeat verse

**ACTION**

Children inside of circle walk clockwise; outside circle, counter-clockwise.

Children inside the circle choose a partner from the outside circle and continue walking.

All couples inside the circle skip clockwise; those in outside circle skip counter-clockwise.

Repeat with boys starting in center.

Go Round And Round The Village

**RECORD:** Folkraft 1191

**FORMATION:** Single circle, hands joined, facing in. One or more players are outside of circle.

**SONG**

**Verses:**

1. Go round and round the village,
   Go round and round the village,
   Go round and round the village,
   As we have done before.

2. Go in and out the window, etc.

3. Now stand and face your partner, etc.

4. Now follow me to London, etc.

**ACTION**

Circle players walk or skip to right or left.
Players outside circle walk or skip in opposite direction.

Circle players stop, raise arms to form windows. Extra players go in and out the windows, finishing inside the circle.

Extra players select partners by standing in front of them.

The extra players and partners now skip around the inside of the circle while the outside circle skips the opposite way.

**VARIATION:** All chosen players can continue and repeat the game until the entire circle has been chosen.
Muffin Man

RECORD: Folkraft 1180

FORMATION: Children are in a single circle, facing the center with hands joined. One child, the Muffin Man, in the center.

SONG

Verses:

1. Oh, do you know the Muffin Man, The Muffin Man, the Muffin Man?
   Oh, do you know the Muffin Man, Who lives in Drury Lane?

2. Oh yes, we know the Muffin Man, etc.

3. Four of us know the Muffin Man, etc.

4. Eight of us know the Muffin Man, etc.

5. Sixteen of us know the Muffin Man, etc.

6. All of us know the Muffin Man, etc.

ACTION

Verse 1. The children in the circle stand still and sing, while the Muffin Man skips around the circle. He chooses a partner by skipping in place in front of him. On the last line of the verse, "Who lives in Drury Lane?" the Muffin Man and his partner go to the center.

Verse 2. The action is the same except two people now skip around in the circle and choose two partners.

Verse 3. The action is repeated with four skipping and four partners being chosen.

The verses continue until all children have been chosen. When all have been chosen, the last verse is sung while the children skip around the room.

Nuts In May

RECORD: Bowmar 1517-B

FORMATION: Two lines, 10 feet apart, equally divided with boys and girls.

Lines are numbered 1 and 2. Chalk mark at center of space parallel to the lines of children.

SONG

Here we come gathering Nuts in May
Nuts in May, Nuts in May
Here we come gathering Nuts in May
So early in the morning.

Whom will you have for Nuts in May
Nuts in May, Nuts in May, etc.

We will have John for Nuts in May
Nuts in May, Nuts in May, etc.

Whom will you have to pull him away
Pull him away, Pull him away, etc.

We will have Tom to pull him away
Pull him away, Pull him away, etc.

ACTION

Line 1 walks forward to center and backward to place.

Line 2 walks forward and backward.

Line 1 walks forward and backward.

Line 2 walks forward and backward.

At the conclusion of the last verse, both John and Tom go to the center line, place the right foot on the line, join both hands across the line. Each attempts to pull the other over the line.

The one pulled over the line joins the other line and the game continues from the beginning. It is good to alternate boys and girls in selecting names to be sung.

At the end of the game the line with the greatest number of children wins.
Pussy Cat

**RECORD:** Russell 700-B: bowmar 1514-A (Band 2)

**FORMATION:** Single circle, ali facing center with hands joined.
One player, the Pussy Cat, is in the center.
If desired, more than one Pussy Cat can be in the center.

**SONG**

*Pussy Cat, Pussy Cat,*
*where have you been?*

*I've been to London to visit*
*the Queen.*

*Pussy Cat, Pussy Cat,*
*what did you there?*

*I frightened a little mouse*
*under the chair.*

**ACTION**

Circle joins hands and walks 4 steps toward center of circle while singing.

Circle drops hands, walks toward center, shaking a finger at Pussy Cat while singing.

Circle players run back to place; Pussy Cats run in a small circle and jump high into the air singing.

**Sally Go Round The Moon**

**RECORD:** Folkraft 1198

**FORMATION:** Single circle, hands joined.

**SONG**

*Sally go round the moon,*
*Sally go round the stars,*
*Sally go round the chimney pots,*
*Every afternoon - Bump!*

**ACTION**

Circle moves clockwise with a skipping step as pupils sing the song. At the word "Bump!" (to be sung crisply and loudly), all squat down. Without pause repeat the song, dancing in the opposite direction, starting with the right foot.

**VARIATION:**

Use different steps such as walking, sliding, running.

In using a running step the song should be sung more quickly.

**Saturday Afternoon**

**RECORD:** *Childhood Rhythms,* Ruth Evans, Series VI, 605

**FORMATION:** Single circle, facing center. One child in center of circle to start.

**SONG**

*Mary went to Sally’s house,*
*Sally’s house, Sally’s house:*
*Mary went to Sally’s house*
*On Saturday afternoon.*

*Sally, won’t you play with me,*
*Play with me, play with me:*
*Sally won’t you play with me*
*On Saturday afternoon.*

**ACTION**

The child in the center, whose name might be Mary, skips around inside of the circle.

Mary stops in front of a friend and bows - takes friend’s hands and skips around; all others clap.

Repeat, using the names of the children chosen to be in the center of the circle.

**SWING-SWAY**  | Review Levels A-2–C material.  
As children listen to music, let them swing and sway from side to side.  
In a stride stand, swing arms from side to side.  
In a stride stand, swing arms overhead.  
With feet apart in a forward stride position, swing arms forward, upward, and downward.

**TURN-TWIST**  | Review Levels A-2–C material.  
With feet in a side stride position, turn and twist trunk, swinging arms from side to side.  
With arms overhead, twist from side to side, gradually bending knees until the body is in a low stooping position.

**PUSH-PULL**  | Review Levels A-2–C material.  
Push arms forward (leaning forward) and pull arms back (leaning backward).  
Reach arms high overhead; pull down to floor.

---

**B. SINGING GAMES AND DANCES**

**Baa Baa Blacksheep**

**RECORDS:**  Folkraft 1191; Russell 700-A

**FORMATION:**  Single circle, all facing center.

**SONG**  
*Baa Baa Blacksheep, have you any wool?*
*Yes sir, yes sir, three bags full,*  
*One for my master and one for my dame,*  
*And one for the little boy who lives down the lane.*

**ACTION**  
Stamp three times, shake forefinger three times.  
Nod head twice and hold up three fingers.  
Bow to the person on the left.  
Hold one finger up high and walk around in a little circle again facing center.
Cats And Rats

**RECORD:** Bowmar 1511-A (Band 1)

**FORMATION:** Two lines of children facing in opposite directions.

```
X X X X X X ↑ Cats
O O O O O O ↓ Rats
```

*Note:* Each cat has a rat opposite for a partner.

**SONG**

Now here comes sly old pussy cat,  
You'd best beware, you little rat,  
Pussy wants with you to play,  
So you'd better run away.

**ACTION**

Players sing the song as the two lines move away from each other in opposite directions.

On the last word of the song, "away," the lines break and each cat chases his own rat.

When caught, or upon signal from the teacher, all players return to the original line formation and the cats become rats. The game is repeated.

Hickory Dickory Dock

**RECORD:** Victor 22760

**FORMATION:** Children are in a double circle, partners facing.

**SONG**

Hickory, Dickory Dock, tick tock,  
The mouse ran up the clock.  
The clock struck one, the mouse ran down.  
Hickory, Dickory Dock.

**ACTION**

Stretch arms overhead and bend the body from side to side like a pendulum, finish with two stamps on "tick tock."

Repeat action of Line 1.

Clap hands on "one." Join hands with partner and run to the right in a little circle.

Repeat the pendulum swing with the two stamps.
London Bridge

RECORDS: Durlacher - Album 12; Bowmar 1518-A; Victor 20806

FORMATION: Single circle moving to left or right. Two children are chosen to form the bridge. They face and join hands, raising them high in the air to represent a bridge ready to fall.

SONG

Verses:
1. *London Bridge is falling down,*
   *Falling down, falling down.*
   *London Bridge is falling down,*
   *My fair lady.*

2. Build it up with iron bars, etc.
3. Iron bars will rust away, etc.
4. Build it up with gold and silver, etc.
5. Gold and silver I have not, etc.
6. Build it up with pins and needles, etc.
7. Pins and needles rust and bend, etc.
8. Build it up with penny loaves, etc.
9. Penny loaves will tumble down, etc.
10. Here's a prisoner I have got, etc.
11. What's the prisoner done to you, etc.?
12. Stole my watch and bracelet, too, etc.
13. What'll you take to set him free, etc.?
14. One hundred pounds will set him free, etc.
15. One hundred pounds we don't have, etc.
16. Then off to prison he (or she) must go, etc.

ACTION

All children pass under the bridge in a single line. When the words "My fair lady" are sung, the bridge falls and the child caught is a prisoner. He or she must choose either gold or silver and must stand behind the side of the bridge which represents his choice. No one must know which side is gold or silver until after he or she has made his choice as a prisoner. When all have been caught, the game ends with a tug of war.

VARIATION: Using more bridges will speed up the game.
Mulberry Bush

RECORDS: Victor 20806; Folkraft 1183

FORMATION: Single circle, facing center, hands joined.

SONG

Chorus:
Here we go 'round the mulberry bush,
The mulberry bush, the mulberry bush;
Here we go 'round the mulberry bush,
So early in the morning.

Verses:
1. This is the way we wash our clothes,
   Wash our clothes, wash our clothes,
   This is the way we wash our clothes,
   So early Monday morning.

2. This is the way we iron our clothes, etc. (Tuesday morning).

3. This is the way we mend our clothes, etc. (Wednesday morning).

4. This is the way we sweep our floor, etc. (Thursday morning).

5. This is the way we scrub our floor, etc. (Friday morning).

6. This is the way we make a cake, etc. (Saturday morning).

7. This is the way we go to church, etc. (Sunday morning).

ACTION

The singing game begins with the chorus, which is also sung after each verse. As the chorus is sung, the children skip (or walk) to the right. On the words “so early in the morning” each child drops hands.

During the verses the children dramatize the actions suggested by the words. The children should be encouraged to use big and vigorous movements.
Oats, Peas, Beans, and Barley Grow

**RECORD:** Folkraft 1182

**FORMATION:** Single circle with a “Farmer” in the center.

**SONG**

Oats, peas, beans, and barley grow,
Oats, peas, beans, and barley grow,
You and I, or anyone else we know,
Oats, peas, beans, and barley grow.

First, the farmer sows the seed,
Then he stands and takes his ease,
He stamps his foot and claps his hands,
And turns around to view his lands.

Waiting for a partner,
Waiting for a partner,
Open the ring and choose one in,
While we all gaily dance and sing.

Now you’re married, you must obey,
You must be kind in all you say,
You must be kind, you must be good,
And keep your wife in kindling wood.

**ACTION**

The children walk clockwise around the “Farmer.”

All stand in place and follow the actions suggested by words of the verse.

The circle players again move clockwise while the “Farmer” chooses a partner, which should be done before the end of the verse.

Everyone skips during this verse. The circle continues in the same direction it has been while the “Farmer” and his partner (wife) skip in the opposite direction.

Swinging In A Swing

**RECORD:** Bowmar 1518-B (Band 2)

**FORMATION:** Groups of threes form a circle around the room. Two children form the swing by facing each other and joining both hands. The third child stands behind the “swing” to push it.

**SONG**

Swinging in a swing
Swinging up so high,
We can almost bump our heads
Up against the sky.

**ACTION**

With one foot slightly forward, the child pushes the “swing” in time with the music. The action is forward and backward in two measures. Children should try to accent the first beat of each measure by giving the “swing” a good push forward on count one.

With increased vigor the “swing” is pushed during the first two measures, and then on the word “bump” the child who is pushing stoops down and goes under the arms. Then, stretching arms and with body high, he runs to give another “swing” a good push forward on count one.

On word “up,” the children forming the swing, with hands still joined, twirl around as the swing does when it twists and turns. Before twirling, the swing must wait until the child swinging goes under it.
Twinkle, Twinkle, Little Star

RECORD: Childcraft EP-C-4

FORMATION: Children are in a single circle, facing in. (The circle should be large enough so they can come forward seven short steps without crowding.)

SONG

Twinkle, twinkle, little star.

How I wonder what you are

Up above the world so high.

Like a diamond in the sky.

(Repeat first line.)

(Repeat second line.)

ACTION

Children have arms extended overhead and fingers extended and moving. Each child takes seven tip-toe steps toward the center of the circle.

Continue with seven tip-toe steps in place making a full turn around.

Each child makes a circle with his arms and hands, rocking back and forth.

All form a diamond with the fingers in front of the face.

With the arms overhead and the fingers extended, move backward to original place with seven tip-toe steps.

Turn in place with seven tip-toe steps.

RHYTHMS – LEVELS E-1, E-2

**Activity** | **Teaching Procedures**
---|---
**TURN-TWIST** | Review Levels D-1, D-2 material. With hands on hips, twist body from one side to the other. With arms overhead, twirl around, gradually going lower and lower until the body is in a low squat position.

**PUSH-PULL** | Review Levels D-1, D-2 material. With slow walking steps, use alternate push and pull of arms; e.g., walk 4 step: forward, push and pull 4 counts.

---

**B. SINGING GAMES AND DANCES**

**Bean Porridge**

**RECORDS:** Folkraft 1190; *Childhood Rhythms, Series VI, 606*

**FORMATION:** Double circle, or two lines, with partners facing.

**FIGURE I**

**SONG** | **ACTION**
---|---
*Bean porridge hot,* | Clap own thighs; clap own hands; clap partner’s right hand.

*Bean porridge cold,* | Clap own thighs; clap own hands; clap partner’s left hand.

*Bean porridge in the pot,* | Clap own thighs; clap own hands; clap partner’s right hand; clap own hands.

*Nine days old.* | Clap partner’s left hand, clap own hands; clap partner’s both hands.

*Some like it hot.* | Repeat Action 1.

*Some like it cold.* | Repeat Action 2.

*Some like it in the pot.* | Repeat Action 3.

*Nine days old.* | Repeat Action 4.

(Repeat song.)

**FIGURE II**

Circles skip around in opposite directions and repeat clapping with a new partner.
**Chimes Of Dunkirk**

**RECORDS:** Folkraft 1188; Victor 45-6176

**FORMATION:** Double circle with partners facing, girl on the outside.

**MUSIC**

**ACTION**

**PART 1**

**Measures:**

- 1 - 2
- 3 - 4
- 5 - 8
- 9 - 16

- All stamp 3 times (right-left-right).
- All clap hands 3 times.
- Join hands with partner and turn clockwise in place with 8 steps.
- All join hands in a single circle facing the center and slide to the left (16 slides).

**PART 2**

**Carrousel**

**RECORDS:** Folkraft 1183; Victor 45-6179

**FORMATION:** Double circle, all facing center. Girls form inside circle, hands joined. Boys place hands on girls' shoulders.

**MUSIC**

**ACTION**

**PART 1**

**Measures:**

- 1 - 4
- 5 - 8

- All take sliding steps to the left, one per beat, 16 in all. Stamp on last 3 steps.

**PART 2**

**SING (at the same time)**

*Ha, ha, ha! Happy are we, Anderson and Peterson and Lundstrom and me!*

- Still moving left, double time so that slide becomes a gallop.
- Repeat Part 2 to the right.
- At the end of second chorus, boys and girls exchange places and repeat from beginning.
Jolly is the Miller

RECORDS: Bowmar No. 1521-A, Album 3 (Band 1); Folkraft 1192; Victor 45-5067

FORMATION: Double circle, girls on outside.

SONG

Jolly is the miller who lives by the mill,
The wheel goes round with a right good will;
One hand in the hopper and the other in the sack,
The right skips forward and the left skips back.

ACTION

All skip forward during the singing of the song.
Continue skipping, reaching up with one hand, then down with the other.
Right hand girl skips forward one place to get a new partner and the lefthand boy skips backward to get a new partner.
Repeat to end of music.

Kinderpolka

RECORDS: Folkraft 1187; Russell 750; Victor 45-6179

FORMATION: Single circle, partners facing, with hands joined. Arms extended sideward, shoulder high.

MUSIC

PART 1

Measures:
1 - 2

ACTION

Couples take 2 step-draws toward center of circle (step-close, step-close) and 3 steps in place.

3 - 4

Then 2 step-draws back to place and 3 more steps.

5 - 8

Repeat all Part 1.

PART 2

9 - 10

Siap thighs with both hands, clap own hands, then clap partner’s hands 3 times.

11 - 12

Repeat Part 2.

PART 3

13 - 14

Place right heel forward and shake right forefinger at partner 3 times. Repeat with left heel and forefinger.

15 - 16

Turn about in place with 4 running steps, face partner and stamp 3 times.
Shoemaker’s Dance

RECORDS: Folkraft 1187; Russell 750; Victor 45-6171

FORMATION: Double circle with girls on outside, facing partners. Hands on own hips.

MUSIC

1. Wind, wind wind the thread

2. Wind, wind, wind the thread

3. Pull, pull (pulling the thread)

4. Tap, tap, tap (driving pegs)

ACTION

PART 1

1. Wind, wind wind the thread
   With forearms held horizontally, clench fists in front of chest. Revolve fists around each other forward rapidly.

2. Wind, wind, wind the thread
   Repeat, revolving fists backward.

3. Pull, pull (pulling the thread)
   Pull elbows backward twice vigorously with a strong jerk, as if breaking thread across chest.

4. Tap, tap, tap (driving pegs)
   Clap own hands 3 times or pound one fist on top of other. Repeat all of Part 1.

PART 2

Join inside hands and skip forward - 8 counts.

Measures 9 - 16
Skip Around Your Partner

RECORD: Childhood Rhythms, Ruth Evans, Series VI, 604

FORMATION: Partners facing.

SONG

Verse 1:
Put your hands on your shoulders,
put your hands on your knees,
Put your hands on your shoulders,
put your hands on your knees.
Put your hands on your shoulders,
put your hands on you knees.
Then skip around your partner.

Verse 2:
Up to the ceiling, down to the floor
(Repeat two more times)
Then skip around your partner.

Verse 3:
Bend over this way, bend over that way
(Repeat two more times)
Then skip around your partner.

ACTION

Interpret words of song with appropriate actions.

Note: Introduce other desired movements.

Turn Me Around

RECORD: Bowmar No. 1517-B (Band 1)

FORMATION: Double circle, partners facing - boys on outside.

SONG

1. Turn me 'round, turn me 'round,
   Turn me 'round.

2. Clap, clap, clap.

3. Slide to the side, slide to
   the side, slide to the side.

4. Stamp right, stamp left, stamp
   right.

5. Clap, bow.

ACTION

Link right arms with partner and run around in small circles,
12 steps.

Drop hands and clap 3 times.

Join both hands with partner and slide six times
counter-clockwise.

Drop hands and stamp three times. Repeat No. 3 sliding
clockwise.

Clap hands once and bow to partner. Repeat Nos. 3, 4, and 5.
STUNTS

Introduction

GENERAL PURPOSE
The stunt program should aid the child in developing his sense of balance and rhythm as well as control of his body movements. The challenge inherent in the performance and perfecting of stunts should aid in establishing desirable personality traits. The program should also provide an immediate source of fun, satisfaction, and pride in achievement.

TEACHING SUGGESTIONS
1. Align the class according to the stunts being taught, the size of the class, and whether or not mats or apparatus are to be used. See page on “Class Organization.”
2. Present the stunt; name, explain, and demonstrate it. Give whatever assistance is necessary to the child demonstrating the stunt.
3. Permit adequate practice time. Make corrections and suggestions. Encourage better students to help others.
4. Change to a new stunt before children become physically or psychologically tired from the stunt being practiced.
5. Permit the children to enjoy stunt work. Class procedure should not be formalized. However, horseplay has no place in the stunt program.
6. Include at least one new stunt each period to maintain interest and provide challenge.

SAFETY PRECAUTIONS AND USE OF MATS
1. Use mats when caution prescribes their use. Remember, also, that children are motivated by the use of mats.
2. Place the “knotted” side of the mat to floor.
3. Use all mats that are available in order to keep the group at each mat as small as possible.
4. Encourage children to wear proper gym attire. Under all circumstances children should remove street shoes before working on mats. Dangerous articles should be removed from clothing or person engaging in stunts.
5. Children with scalp ring-worm, impetigo, boils, or other skin infection should not be permitted to use mats or participate in dual or group activities.
6. Proper spotting techniques should be taught so that students can help one another as they experience new stunts.
CLASS ORGANIZATION
(Numbers refer to diagrams that follow)

**Without Mats or Apparatus**

1. Forming Squads –
   Count off by 4’s; the 2’s take two steps forward, 3’s take four steps forward, 4’s take six steps forward, 1’s stand in place.
2. Squad leader stands out in front and demonstrates, or leads others.
3. Circle formation, all participating.

**With Mats**

4. Squad leader tumbles across the mat and then takes his place in line.
5. Squad leader tumbles across the mat and walks in rear of squad to his place in line.
6. Students line up four to a mat; they roll back and forth across the mat together, then take their places in line.
7. Squads line up in front of the mat; the leader rolls across the mat and back, then takes his place in line.

**With Apparatus**

8. Rings, Poles, and Ladders. Sufficient mats are to be placed under the apparatus to provide safety. Students are to work on the apparatus, then return to their place in line. Avoid having students sit on both sides of apparatus.
9. Vaulting Boxes. Students are sitting in squads alongside the mats. The squad leader begins the vault while the next student is standing ready to vault when the teacher gives the command.
(1) Use all mats - 3 feet apart

(7) vaulting boxes

(2) Without mats or apparatus

(3) With mats

(4) rings, poles & ladders

| 17. Floor Touch               | Stand erect with feet hip-width apart. Two pieces of chalk are on the floor with tip end of chalk touching toes:  
1. Slowly bend forward without bending knees or bouncing up and down;  
2. Pick up the pieces of chalk by using the thumb and middle finger;  
3. Repeat three times. |                |
| 18. Blind Balance             | Stand on left foot; place sole of right foot against inside of left knee, arm sideward:  
1. Close eyes and maintain balance position on left foot for 8 seconds;  
2. Repeat test standing on right foot for 8 seconds. |                |
| 19. Running Broad Jump        | Stand:  
1. Run forward from starting line to take-off line;  
2. Jump over take-off line and over finish line without touching either line;  
3. Do three times correctly;  
4. Lines are 5 feet apart. |                |
| 20. Potato Race               | Two squares 30 feet apart. Three erasers placed in one square. Child stands in opposite square:  
1. Run to square with erasers and pick up one eraser;  
2. Run back to starting position and place eraser in square;  
3. Continue until all erasers are transferred to starting square;  
4. Perform stunt in 21 seconds. |                |
| 21. Overhead Ball Throw       | Stand with feet slightly apart, an 8½” playground ball held firmly in both hands overhead. Pumping of body and arms helps:  
1. Throw the ball upward and forward over the finish line, a distance of 15 feet;  
2. Repeat. |                |

### 14. Twister Greeting (2 children)

**Directions**

1. Stand facing partner, grasp right hands:
   1. No. 1 swing left leg over joined hands; No. 2 swing right leg over joined hands (action is simultaneous);
   2. No. 1 swing right leg over joined hands; No. 2 swing left leg over joined hands.

**Teaching Helps**

**Directions**

1. Bend forward, place hands on floor about 24” to front of feet:
   1. Walk on all fours, keeping body on a slight oblique angle to line of progress;
   2. Keep head up and arms straight;
   3. Distribute weight equally;
   4. Start slowly, then increase speed.

C. Stunts on Apparatus

Kindergarten and the Ungraded Primary

1. Gymnasium Ladders

   Climb half way up and down the vertical ladders (like walking up or down stairs, using one hand or foot on each rung.

   With ladders in an oblique position, let children climb through rungs; over and under two or three of the lowest ones.

2. Gymnasium Rings

   Rings shoulder high. Grasp rings with hands and lift both legs up and over head to reach floor in rear. Hands remain in position and legs are kicked up over head through rings to front starting position.

   Rings shoulder high. Arms through rings under arm pits, swing with a forward and backward run. Stop swing before getting out of rings.

   Hold both hands closed together in one ring and swing forward and backward.

3. Poles

   Climbing up as far as mark (five or six feet high on pole). Come down hand under hand slowly; avoid dropping or sliding.

   Grasping pole with hands shoulder high, try to get both legs around pole over head. Trunk is slightly inverted.

4. Benches

   Walk on top of bench from one end to the other.

   Support weight on hands on the bench; climb over bench from side to side, touching both feet on each side of bench.

   Crawl on hands and knees across top of bench.

   Cat walk, duck waddle across top of bench.

5. Playground Gym Tree

   Climbing in and out, up and down.

   Grasping a bar above head, pull body upward until the chin rests on hands.

   Sitting on a low bar, lower trunk backward, letting go with hands and hanging from bent knees.

6. Playground Merry-Go-Round

   Push the bar with a good run before sitting and riding. Encourage the timid and weaker riders to do some pushing.

7. Steps

   Have children walk up and down stairs single file, one foot on each step.
Testing - Primary Unit

On the E-1 and E-2 levels a specific period of time should be set aside each term for testing.

The tests evaluate specific aspects of physical status which, taken together, give an overall picture of the pupil's general fitness.

The activities that comprise the test are a part of the stunts without mats on the D-1 and D-2 level. The stunts should be practiced before the tests are given.

Reporting to Parents

Report cards reflecting the child's ability to do the stunts satisfactorily are sent home each term. Special forms have been printed for this purpose and are available from the Division of Warehouse and Distribution as follows:

PT-12 - Physical Fitness Test - Primary Unit - Catalog No. 10464.
PHYSICAL FITNESS TEST

Primary Unit

POTATO RACE
Endurance and Speed

Starting position — Two squares a distance of 30 feet apart. Three erasers are placed in square 2. The child stands in square 1.

Test — On signal "Go", the child runs from square 1 to square 2, picks up an eraser, races back to square 1, places the eraser in square. Continue until all erasers are transferred to square 1. For passing test — 21 seconds or less.

HUMAN BALL
Co-ordination

Starting position — Child sits on floor, knees bent, feet flat on floor. Arms are inside knees under and around legs, fingers grasping ankles in front. Feet must stay together throughout the stunt.

Test — Roll to one side, across his back to the other side and sit up to starting position. This is one roll.

Do three rolls starting to the right side. Stop. Do three rolls starting to the left side.

KNEE SNAP
Power

Starting position — From a kneeling position sitting on heels with instep resting on floor. Flex hips, at same time swing arms over head, then down beside body. On third upswing of arms, jump to a stand on feet.

Test — Do three times correctly.

30 FEET
RUNNING BROAD JUMP
Leg Spring and Co-ordination

Starting position — Run forward from starting line to take-off line.
Test — Jump over take-off line and over finish line without touching either line. Lines are 5 feet apart. Do three times correctly.

OVERHEAD BALL THROW
Strength and Co-ordination

Starting position — Child stands with feet slightly apart, an 8½ inch playground ball held firmly in both hands overhead. (Pumping motion of body and arms in throwing the ball is permitted.)
Test — Throw the ball upward and forward over the finish line, a distance of 15 feet.

BLIND BALANCE
Balance

Starting position — Stand on left foot, place sole of right foot against inside of left knee, arms sideward.
Test — Close eyes and maintain balance position on left foot for 8 seconds. Repeat test standing on right foot for 8 seconds.

FLOOR TOUCH
Flexibility

Starting position — Two pieces of chalk on floor with tip end of chalk touching toes. Child is standing erect with feet hip width apart.
Test — Slowly bend forward without bending knees or bouncing up and down and simultaneously pick up the pieces of chalk. Do three times correctly in succession.
