This report is one in a series of publications that comprise the initial phase for PROJECT DESIGN, an ESEA Title III project administered by the Fresno City Unified School District. The purpose of this study was to determine if the students in the district have the opportunity to be involved in a developmental, comprehensive, cocurricular program. Such a program includes student control, student body organizations, student council, club programs, social activities, and athletics. Elementary, intermediate, and high school levels were investigated to determine if students had motivational opportunities for self-direction and development with guidance and assistance. Student surveys were made at all three grade levels. Oral interviews were conducted with the Director of Activities at each school. Written surveys were distributed to the building principal, persons in charge of activity programs, and financial advisors. The major conclusion is that schools at all levels are involved in the cocurricular activities program, meeting most of the various needs of the district's student population.

FOREWORD

PROJECT DESIGN (Inter-Agency Planning for Urban Educational Needs) was organized as a two-year project to develop a comprehensive long-range master plan of education for the Fresno City Unified School District in California.

This project was conceived by school leadership to bring under one umbrella current major problems of the schools, the relationship of the schools to the broader community, the impact of educational change now occurring throughout the nation, and a fresh view of the educational needs, goals and aspirations of our youth and adults. The ultimate purpose of the project is to weld into an integrated plan the best use of available resources to meet the totality of current and projected needs according to their rational priorities.

The United States Office of Education funded the proposal as an exemplary Title III project, recognizing the urgency for developing better planning processes for urban school systems. The first year of this project was organized to assess current and projected educational needs in the urban area served by the Fresno City Schools. Planning procedures will be carried out in the second project year.

A major dimension of the Needs Assessment is an analysis of educational and urban factors by a Task Force of specialists. This report is one of the Task Force Needs Assessment publication series. See the next page for the complete list of project Needs Assessment publications.

INITIAL CHARGE

The task accepted by this team was to identify if the students in the Fresno City Unified School District have the opportunity to be involved in a developmental, comprehensive, co-curricular program. The program includes student control, student body organizations, student council, club program, social activities and athletics. All levels were investigated; elementary, intermediate, and high school to determine if students had motivational opportunities for self-direction and development with guidance and assistance regarding leadership, creativeness and positive values.

EXPERIMENTAL DESIGN

Student surveys were made at all three grade levels. The elementary schools survey represented a cross-section of the city's elementary schools. Ten students at each elementary school and the building principal were surveyed. On the junior high level all junior high schools in the district were surveyed. Twenty students at each school and the building principal were surveyed. On the secondary level all six high schools were visited by the team.

Oral interviews were conducted with the Director of Activities at each school. Written surveys were designed and distributed to the building principal, to the person or persons in charge of the activity program at their particular school and to the financial advisor.

Two surveys were to the students, one pertaining to all aspects of the co-curricular program and the other was specifically designed for the club programs. Also used were the many written comments students made relative to the total co-curricular program.

A total of 145 students were surveyed at each school.

MAJOR CONCLUSIONS

The total assessment as borne out by the visitations, oral interviews, surveys, and comments both written and oral by students, teachers and administrators show that the elementary, junior high and secondary schools are involved in the co-curricular (activities) program, meeting most of the various needs of the Fresno City School District's student population.

On the elementary and junior high levels there is a need to be constantly involved in assessment and re-designing of the activity program so that the students become and continue to be self-directional and motivated. Efforts must be made to develop varied interest activities and encourage student participation involving them in decision making.
On the secondary level there is a need to improve the avenues of communication between administration, faculty and students; allow the student council to make decisions in their area of responsibility, allow the student council (Leadership Class) to meet daily during a regular period during the school day; evaluate and examine the present club structure; and encourage students to support their school.

Further conclusions will be identified in the Project Needs Assessment Report in the next section.

| The activity field encompasses the co-curricular program and refers to all school activities other than those that are a part of the academic program. It includes the athletic program, student council club program, and all of the voluntary student groups; dramatic, forensic, musical, artistic, political, literary, academic and journalistic, as well as service groups, human relations clubs and others. A successful program is one in which a high percentage of the students participate. Recommended goals and objectives to consider for the activity program on the secondary level are: | 1. Observation of all secondary schools | A. To develop good citizenship attitudes and practices  
1. To provide for training and techniques of good citizenship | 4. Written student comments  
5. Co-Curricular and extra-curricular activities |
| 2. Oral interviews with persons in charge of student activities | | A. 1a. A wider range of student representation needed in leadership positions; to receive training, experience and skills of good citizenship |

HISTORICAL DETAIL

As a civilization organizes and supports an educational system it tends to improve and perpetuate itself by training and educating individuals for membership in that culture. Active membership in most societies is called "citizenship" and citizenship is a primary function of education. We believe the purposes of education in a democracy to be that of qualifying citizens to lead the fullest and most useful lives possible.

The philosophy of student participation is as old as mankind. It has come down to use from many sources and has existed in many forms. It has been and still is:

- Student exploitation and manipulation
- Administrative convenience
- Learning enrichment experience
- Value finder
- Educational vehicle
- Self-government

And as a person begins to examine each school system, some of the above may be found or a combination of them all. Since the days of Sparta in ancient Greece, students policed their own quarter and supervised themselves. With the beginning of the twentieth century, we have seen student government and student participation in co-curricular programs emerge as a strong force and a vital part of education, particularly on the secondary level. The philosophical and historical background of the democratic way of life must come from the classroom. However, to promote and develop this democracy as a way of life and provide experiences and training in democratic citizenship and leadership, is the essential reason for a well-organized and consistent activity program. The co-curricular program may be thought of as the workshop for good citizenship, democratic living and for training in critical thinking.

Today 80% of American secondary schools have student councils (or similar bodies) and many elementary and junior highs have some form of student government. According to the California Association of Directors of Activity Survey in 1963, the student activities program was administered by a vice principal or director of student activities in three-fourths of the secondary schools in California. The favorable passage of Senate Bill I should undoubtedly give local Boards of Education an opportunity to allow a further expansion of the co-curricular program in the elementary and junior high levels. This could be done by granting additional time in the curriculum and money in support of the program.
METHODOLOGY DETAIL

In making the selection of schools to be surveyed, consideration was given to ethnic groupings and socio-economic factors that make up the city. The following twenty-five elementary schools were surveyed:

Calwa  Kirk  Wolters  Wishon  Roeding  
Emerson  Franklin  Birney  Manchester  Turner  
Jefferson  Addams  Thomas  Powers  Lafayette  
Webster  Lane  Ericson  Homan  Burroughs  
Carver  Gibson  Bullard  Easterby  Jackson  

Ten sixth grade students from each of these selected schools participated in answering the survey for a total of 250 students and 25 elementary school principals.

All junior high and secondary schools were surveyed. Twenty junior high students participated from each school for a total of 280 students and 14 junior high principals.

On the secondary level two surveys were given to the students, a survey to the building principal, one to the director of activities, and one to the financial advisor. At each high school one hundred student surveys were given to a cross-section of the student population. The same survey was also given to members of the student council or legislature, approximately twenty-five at each of the high schools.

An additional survey sampling was made of the schools' club program. Twenty students from each of the schools participated in this sampling. Students taking this survey were five club presidents, five students who were currently holding offices in a school club and ten students who were members of a club holding no office at that time.

A total of 840 students at the secondary level participated in the assessment by taking part in the survey. Of the 840 students, 13 were ninth graders (Edison High School, the only school having 9th graders); 167 tenth graders; 197 eleventh graders; 342 twelfth graders and ninety-three were unable to identify as to grade level.

So far the total assessment of needs, 1370 students, representing all three grade levels in the district were polled.

In addition to the formal sampling taken by the team, approximately 150 secondary students took time to make written comments regarding the activity program in their schools.

Oral interviews were held with all the directors of activity at the secondary level.
In any program where there is an assessment of needs, it is almost an impossible task to cover all areas equally. Programs specifically dealing with student personnel, student control, club program, social activities and athletics certainly compound the assessment of needs.

Since this report is only based on learner needs other factors that may contribute positively or negatively to any limitations upon the total co-curricular program are not included in this assessment.

MARK ONLY ONE RESPONSE TO EACH QUESTION

1. Do you feel that students in your school who want to join clubs can do so?

38 (1) All or nearly all students can join.
48 (2) A large percentage of students can join.
14 (3) Only a few students have the opportunity to join.

2. If some of the students could not join a club, what would probably be the reason?

12 (1) Inadequate time is allowed for club meetings.
12 (2) Too few clubs.
31 (3) Membership is too restrictive.
3 (4) Membership is too expensive.
42 (5) Students are so busy that they do not have time to attend meetings.

3. Can students who want to engage in sports, either intramural or interscholastic, do so?

36 (1) All or nearly all can participate.
46 (2) A large number of students can participate.
18 (3) Only a few students have opportunity to participate.

4. If students cannot participate in athletics, what are the most likely reasons?

1 (1) Not enough squads for the number of students wanting to participate.

Circle Your Grade Level: 10 11 12

16 (2) Eligibility rules are too strict.
13 (3) Transportation problems prohibit some students from participating.
3 (4) Too expensive.
57 (5) Students are cut off squads for lack of skill.

5. How do you feel about your assemblies?

35 (1) We have a sufficient number of assemblies of good quality.
40 (2) We need more assemblies.
25 (3) We have a sufficient number of assemblies but the quality is poor.

6. Do you feel that students in your school have ample opportunity to participate in making changes in student government activities and student body procedures?

19 (1) Most students have ample opportunity to participate.
18 (2) Quite a number can participate, but many are left out.
37 (3) Student government and activities are run by a few select students, most students having little chance to participate.
26 (4) Only popular students have opportunity to participate.

7. Which of the following ways are used to provide students a chance to participate in student government?

47 (1) Regular meetings of elected representatives - student council, courts, congress, etc.
17 (2) Discussion in homerooms or other specified classes.
12 (3) Discussion of issues in the school paper or bulletins.
6 (4) Discussion in assemblies.
17 (5) Election campaigns, campus clean-up campaigns, etc.

8. How do you think the faculty members feel about student participation in activities?

45 (1) Most faculty members think it is worthwhile and actively support activities.
46 (2) Some faculty members support activities and some don’t.
4 (3) Most faculty members are opposed to, or retard progress in activities.
5 (4) Some faculty members feel a number of students participate too excessively in activities.

9. How would you rate your program for acquainting the new students (10th graders) with information about your school’s activity and club program at the beginning of the year?

47 (1) A real effort is made to help students learn about the different clubs.
53 (2) No organized program of orientation is offered.

10. Do you feel free to discuss your school’s problems regarding the activity program with your activity advisor or school administration?

59 (1) Yes
41 (2) No

11. Is the student council at your school given real help by the activity advisor or administrators in planning the activity program for the year?

43 (1) Yes, nearly all the time.
43 (2) Most of the time.
12 (3) Little of the time.
2 (4) Usually no

12. What is done by the Student Council or Clubs to orient new students entering after school opens?

40 (1) A real effort is made by the Student Council or Clubs to help students learn their way around.
60 (2) No organized program of orientation is offered by the Student Council or Clubs.

13. How would you rate the job your activity advisor/advisors is doing in giving services you feel you need?

18 (1) Excellent
52 (2) Good
24 (3) Average
6 (4) Poor

14. Does your school offer all of the co-curricular activities that you would like to participate in at school?

55 (1) Yes
45 (2) No
15. Why do you think certain activities are not offered?

(1) There is not enough student interest to make the activity successful.
(2) School authorities feel the subject does not belong in curriculum or co-curriculum.
(3) No classroom or adequate facility is available.
(4) No interested or qualified teacher on campus to sponsor the activity.

16. Does your school sell an Associated Student Body Card or Activity Card?

(1) Yes
(2) No

17. If your school sells an ASB card or Activity Card, how much do they charge?

(1) $2.00 - $3.00
(2) $3.00 - $4.00
(3) $4.00 - $5.00
(4) Over $5.00
(5) School provides card

18. In your opinion does the cost of the ASB/Activity Card keep students from attending or participating in student activities?

(1) Yes
(2) No
(3) Does not apply at our school.

19. Does your student council meet daily during the school day and carry credit towards graduation?

(1) Yes
(2) No
(3) Yes, it meets during school day but carries no class credit.
(4) Meets only occasionally during school time.

20. Does your school have a person (persons) to co-ordinate the activity program at your school?

(1) Yes
(2) No

21. Do the members of the Student Body know when and where the student council holds its meetings?

(1) Yes
(2) No

22. When student council meetings are publicized and held:

(1) Only student council members may attend.
(2) Any student may attend.
(3) Students other than members are discouraged from attending.
(4) Student Council members encourage members of the student body to attend.

23. In your opinion, do you feel your Student Council represents?

(1) Only a select group of students.
(2) The majority group.
(3) All groups as fairly as possible.
(4) The minority Group
26. Which of the following statements most nearly describes the relationship between the school administration and the students?

25 (1) Most administrators permit students to conduct projects and activities but give little personal support.

29 (2) Most administrators seem to oppose giving students real authority in student government and activities.

46 (3) Most administrators regularly attend and actively support the student body to the limit of their time and energy.

27. Which of the following statements do you feel best describes the faculty?

40 (1) Most faculty members actively support students in the classwork and activities and try to help whenever possible.

50 (2) Some faculty members try to help in classwork activities.

10 (3) Faculty members tend to be antagonistic to students.

28. Which of the following statements seems to describe the relationship between faculty and parents?

32 (1) Most teachers and parents work together to promote student activities and improve classwork.

47 (2) Most parents do not cooperate with the school in promoting student activities and improvement of classwork.

21 (3) Quite a few teachers seem to ignore the wishes, opinions and views of parents concerning education.

29. Taking everything into consideration, how would you rate your school compared to other high schools? Consider especially the other high schools in your area.

50 (1) Our school is "tops."

24 (2) Our school is not the best but might be second or third.

17 (3) Our school is average.

9 (4) Our school does not compare very favorably with others in the area.

COMMENTS ON QUESTION 18

I'm proud of my school because it is a very good one.
Because it's fun and friendly.
Too many fights.
It's well organized.
The teachers, programs, scheduling, clubs, etc.
It is too bad.

COMMENTS ON QUESTION 19

It should have more dances.
It should have more activities where the different grades are mixed so that
the students would have a chance to meet others with a mutual interest.
We don't have enough activities in our school.
The teachers are nice and it offers a chance to join clubs.
I wish there were more activities for girls.
I would like to have baseball on Saturdays.
More and different kinds of activities at noon that girls can play in and have
and have more clubs at school. Have more assemblies.

SURVEY FOR 6th GRADE ELEMENTARY STUDENTS

1. Does your school have Student Government?

   Yes 52  No 30  I don't know 18

2. Do you have Assemblies at your school?

   Some 53
   Few 20
   Many 24
   No 3

3. If you have assemblies do students participate?

   Many 69
   Few 31
   None less than 1

4. Is there an intra-mural program?

   29 For all students
   60 For some students
   11 For a few students

5. Are the teachers interested in your activities?

   53 all teachers
   47 A few teachers
   less than 1

6. Do you like your school?

   Yes 89  No 11

   Explain: It has more things that the other schools I have went to. I've been going here for six years. Because we have a clean school, good and sometimes a little bit dirty. We have a good principal and teachers.

7. Do you have clubs at your school?

   Many 8
   Some 21
   Few 23
   None 48
8. Do you have many friends at school?

- Some: 14
- Many: 20
- Few: 4
- None: 2

9. If you could change your school, what would you change?

- I don't think anything should be changed. Larger play area and more things to play on.
- I would change the buildings and paint it all over. (replace them by new ones)
- I would get a soccer team and a football team for the sixth graders.
- I wouldn't change much, maybe some rules. More trees for shade.

10. Please write a short paragraph about your school.

It's a middle sized school. Everyone enjoys what they have to play with. The kids do complain once in a while. When we have a fire drill most of the time everyone go's out fine. We study about all subjects. We keep our school clean. When it starts getting papers on the grounds, the principal reports it to the teachers.

Our school is alright. You have a lot of playground but few things you can do on it.

The kids are nice on the whole, but I think the rules are too strict and sometimes stupid:

1. Rules about you can't take off your shoes when practicing to track
2. That you can't have Frisby on school grounds, etc.

   Individual Motivation

(Please rank in order of importance for your school)
1. Do you have an activity program at your school?
   Yes [X] No

2. What is the purpose of an activity program on the Elementary level.
   I feel that the activities that we provide at our school such as chorus,
other, traffic patrol, field trips, assemblies, inter school games,
class programs, journalism club, participation in city-wide musical and
civic affairs, and folk dancing provide enriching and enjoyable experiences
that most students do not get at home or in the classroom. Children draw from these
experiences and utilize them in their classroom work. Besides being motivating
to the students these activities are excellent for public relations with the
community. Activities add zest to an otherwise routine classroom schedule.

3. What problems do you foresee in developing an activity program, or are
   in the program already in effect.
   The more traditional teachers seem to resent classtime used for some of these
activities (actually, I believe the real reason is that they do not like their
routine upset). Finding willing and capable leadership for activities is
another problem. The key is to build an activity program around the talents
and interests of the teachers and parents. Our P T A is very interested in
field trips so we have no problem in organizing these.
MAJOR CONCLUSIONS IDENTIFIED BY PROJECT STAFF.

TF 22- 1. Constant student, teacher, administrator, and parent involvement in assessment and redesign of activity program at the elementary and junior high levels is needed.

TF 22- 2. There is a need for a continued effort to develop varied interest activities for students.
