INTRODUCTION

This bibliography for teachers of the visually handicapped, students preparing to go into the field, and others in associated helping professions is a list of sources which deals with the multi-impaired, visually handicapped child.

It is designed to inform the student or beginning teacher of the books, journals, and other publications which have been published in the United States and abroad. Sources cited throughout the bibliography, such as publishers and agencies issuing specific references, have been compiled into a list at the back of this work.

For greater usefulness, the bibliography has been divided into nine sections dealing with visual impairment as a concomitant disability:

1. Deaf and hard of hearing
2. Physically handicapped
3. Mentally retarded
4. Vocational rehabilitation
5. Teacher resources: medical
6. Teacher resources: educational
7. Speech impaired
8. Educationally handicapped

Agencies serving the visually handicapped, as well as residential and day schools, are listed in the 1969 Directory for Exceptional Children, edited by D. R. Young, and in the 16th Edition of the A. F. B. Directory of Agencies Serving Blind Individuals in the U. S. and Canada.
