The following topics are the subject of capsule summaries of Upward Bound (UB) program techniques that make up the major portion of this book, having been compiled from information submitted by project staff, consultants, and others who have seen Upward Bound in action during the past four years: recruiting students; curriculum, including curriculum design, combined studies, arts and fine arts, the humanities, science, mathematics, social studies, and Bridge programs; academic year program—on and off campus; high school involvement; counseling; student government; inter-project events; parental involvement; community involvement; college aid and programs, including financial aid, typical college costs, fundraising, and freshman support; and, as appendixes—transfer legislation, UB summary 1965-70, UB programs 1969-70, bibliography, cross reference to "Ideas Exchange" (a monthly magazine published by UP), and Talent Search Program, 1969-70.
UPWARD BOUND

U.S. Department of Health, Education, and Welfare
Office of Education

Robert H. Finch, Secretary
James E. Allen, Jr., Assistant Secretary and Commissioner of Education
DISCRIMINATION PROHIBITED

Title VI of the Civil Rights Act of 1964 states: "No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." Upward Bound, like every other program or activity receiving financial assistance from the Department of Health, Education, and Welfare, must be operated in compliance with this law.

Material for this manual was compiled by Educational Associates, Inc. (EAI), Washington, D.C., between January and June 1969 pursuant to a contract with the Office of Economic Opportunity. Special acknowledgment should be given to Miss Sharon Tsch, formerly of EAI, who was primarily responsible for compiling the material.
FOREWORD

This manual is designed to provide project staffs with a quick reference to ideas and source materials used in Upward Bound programs throughout the country.

Capsule summaries of Upward Bound program techniques that make up the major portion of this book have been compiled from information submitted by project staffs, consultants, and others who have seen Upward Bound in action during the past 4 years.

For additional information on ideas mentioned here, the reader should contact the Upward Bound project named at the address listed in appendix C.

Fred Bresnick
Acting Chief
Upward Bound Branch
Division of Student Special Service.

December 1969

RECRUITING STUDENTS

STUDENT RECRUITERS
Upward Bounders visit high schools, explain program to prospective applicants; sell program by taking friends along on field trips and to special events.—University of Maryland, College Park.

STUDENT-LED MEETINGS
Students conduct information sessions for potential recruits.—Central College, Pella, Iowa.

LOCAL ASSISTANCE
Self-organized area ecumenical group voluntarily assisted project in identifying families meeting OEO poverty criteria. Project Director used this source extensively in recruiting for program.—Pennsylvania State University, University Park.

KICK-OFF MEETING
Invitees to project's recruitment kick-off meeting included counselors, administrators, and teachers from area high schools, Community Action Agency people.—Southern Colorado State College, Pueblo.

STORE-FRONT RECRUITING CENTER
Upward Bound, (UB) students set up a storefront recruiting center in the target neighborhood.—Northeastern University, Boston.

NEIGHBORHOOD RECRUITING
Tutor-counselors spend time at neighborhood playgrounds, basketball courts, youth centers, talking with students. These informal interviews are followed up with visits to the homes and to the schools.—Swarthmore College, Swarthmore, Pa.

JOB CORPS INTERVIEWS
Staff members from each of the three UB projects in Maine hold joint interview—recruiting sessions at the Job Corps Center. Candidates are selected for each project—Gorham State College, Bowdoin College, and University of Maine.

ON-CAMPUS WEEKEND
Students are encouraged to bring non-UB friends from their neighborhoods or schools to the spring on-campus reunion. This often is a good source of potential recruits for the upcoming summer program.—Lincoln University, Lincoln, Pa.

UB GRADS AS HIRED RECRUITERS
Upward Bound hires many of its "graduates" when they are home from college for spring vacation to recruit in the high schools. The project finds college spring vacations usually occur when high schools are in session.—Columbia University, New York City.
UB CLUB PARTICIPANTS

In-school Upward Bound clubs often include interested non-UB kids. They provide an automatic pool of prospects already acquainted with the program and staff members. – Gorham State College, Gorham, Maine.

PARENT-RECRUITERS

Several UB programs use parents to aid in recruiting. In some cases parents have formed a speakers bureau to explain the program at various neighborhood meetings. In some programs parents are part of recruiting teams that include UB staff members and social workers.

TEACHER-RECRUITERS

Followup staff working in the high schools during the school year have the opportunity to preselect UB prospects from students they teach. School counselors often advise the program and UB teachers of students they feel need the program. In some UB projects, staff members are given a number of program slots to fill themselves.
THREE ACADEMIC PROGRAMS OFFERED

The project conducted three different academic programs during the summer. New students took courses in communications, logic and problem solving, study skills, marine biology, art theory and technique, and contemporary social issues. Bridge students took courses in "The World of the Stage," Composition and Rhetoric, and Play Production. (Bridge students are enrolled in a summer Upward Bound Component after high school graduation.) Program assistants—former UB students working in the program—tackled two seminars: Great Innovators and Their Innovations, and Poetry analysis. – Bowdoin College, Brunswick, Maine.

JOINT PLANNING OF CURRICULUM

During April and May, workshop sessions for staff, students, and advisory committee members are held to plan the summer program. Last year’s curriculum plan involved use of eight program themes—one for each week of the summer session. These were: learning and working in groups; What is leveling?; group roles; responsibility; learning to listen; feedback; and characteristics of a helping relationship. Staff teams—human relations, cultural-social, communications, science-math, and recreation—guided the students through an interdisciplinary approach to these themes. – Weber State College, Ogden, Utah.

USE OF LEARNING LABS

Major academic courses meet in the morning. Afternoon learning labs focus on review and use of skills covered in the morning classes. Students participate in program planning. – Eastern Michigan University, Ypsilanti.

INDIVIDUAL STUDY PLAN

Curriculum is designed by the project staff to fit the individual student’s needs. Packages of texts, bibliographies, and videotapes are compiled for each student. The student then goes through his packaged course at his own pace, with help from his instructors and tutors. – Chadron State College, Chadron, Nebr.

STUDENTS HELP PLAN CURRICULUM

Students participate in program planning and operation. "JB "grads" conduct orientation sessions for new students. Make-up courses for high school credit are offered. – Northwestern University, Evanston, Ill.

STAFF WORKSHOPS

Staff discussion workshops cover topics such as: "What kind of class atmosphere best supports interaction?"; "What are the crucial curricular needs of the students?" Workshops for course instructors cover what to teach, how to teach it, use of tutor-counselors, program evaluation. Preprogram staff orientation includes sensitivity training. Curriculum consists of: math, social sciences, English, science and humanities—each using group leaders for discussion of course aims. – Purdue University, Calumet Campus, Hammond, Ind.
THEME/PROJECT PLAN

In each of the three academic areas—art, communications, and social issues—courses are based on use of a theme and student projects. Examples: The communications class used the movie "2001: A Space Odyssey" to introduce a discussion of the basic concepts of human nature, its definition, and the possibilities for change. The social issues class made and edited a film showing the need for playgrounds in the ghettos. Art classes worked with ceramics, sculpture, photography, portraits, posters. — University of Chattanooga, Tennessee.

TEAM APPROACH

The academic part of the summer program is planned and conducted by teams consisting of a professional counselor, a qualified teacher, a bridge student, and a university undergraduate. Each team works with 20 Upward Bounders and plans the program for and with their students. Teams also help students select afternoon and evening activities. — University of Maryland, College Park. (See "Team Teaching in the Summer Program" in the August 1968 Idea Exchange.)

Idea Exchange was a monthly magazine published by Educational Associates, Inc., Washington, D.C., for Upward Bound. With the transfer of Upward Bound to the U.S. Office of Education on July 1, 1969, the magazine title was changed to Idea and includes material on Talent Search and Student Special Services as well as Upward Bound.

READINESS PROGRAM

Based on feedback from bridge students who were enrolled in college credit courses, the project decided to offer its non-bridge students an elective college-readiness program during the last 4 weeks of the summer program. About 40 students opted for this intensive course in language arts, math, and science. — University of Northern Iowa, Cedar Falls.

CAFETERIA CURRICULUM

The staff programs a curriculum around topics requested by the students. Students have the right to drop out of uninteresting classes. Therefore the teacher has a responsibility for making the material interesting and challenging. — University of South Carolina, Columbia.
COMBINED STUDIES

COLLAGE AND SHADOW

Independent field study projects are offered in five subject areas: social science, natural science, literature, creative arts, and education. Called "college," the study groups meet on and off campus. Each group is under the direction of a group leader and a subject matter specialist. Students and group leaders plan activities. Groups meet three times a week. College activities have included filmmaking, public health, and food processing projects. Two days a week the college students are involved in individual "shadow" projects in which they spend the day on the job with people working in occupations or professions of interest. – San Francisco State College, California.

CORE GROUP SYSTEM

Eight student core groups are involved as teams in academic, recreational, and social activities. The instructional staff presents an academic "problem" to the entire Upward Bound student body; then core groups work as autonomous units in developing approaches of study under the given theme. The academic study areas covered are communications, natural sciences, social sciences. A weekly study of ethnic group problems—black/white/red–15 held in three sections, under the direction of a teacher from the ethnic group being studied. – Luther College, Decorah, Iowa. (See "Core Groups at Luther College" in the February 1968 Idea Exchange.)

SEMINARS AND "MICRO" CLASSES

As a supplement to the regular academic program, students and staff have developed a series of afternoon idea exchange seminars and "micro classes." These deal with topics of current interest such as Black Power, hippies, and political extremists and make use of college and community resources and outside speakers. – University of Wisconsin, Milwaukee.

NATURE OF MAN

An interdisciplinary course on the nature of man. – Southern Methodist University, Dallas, Texas.

MAN AND SOCIETY

An Integrated Studies course called "Man and Society" is team-taught by three university professors. The course theme, aggression, is approached historically, psychosocially, and biologically. The class frequently meets at a nearby nature preserve owned by Antioch College. – Wittenberg University, Springfield, Ohio.

INTEGRATED STUDIES

As a supplement to a program of college prep courses, Integrated Studies meets 3 hours weekly and focuses on the student and his relationship to society. Self-concept is discussed within the broader perspective of a study of the way film makers, artists, writers, and politicians approach the questions of conformity, protest, self-expression, and war. The program features guest speakers, films, and consultants who conduct interest group activities in drama, music, fine arts, and photography. – Ohio Wesleyan University, Delaware, Ohio.
COMMUNITY AS A CLASSROOM
Direct involvement in community problems is the theme of a series of student seminars. A problem situation is suggested by a student or teacher, a case study is made, and students then work on ways to deal with the problem. Using the community as a classroom, students have become involved in the problems of health, sanitation, the educational system, and recreation sources. — Roosevelt University, Chicago, Ill.

CROSS-DISCIPLINARY
A cross-disciplinary approach is used to teach English, social sciences, and mathematics. — Wichita State University, Wichita, Kan.

MAN AND SOCIETY
The combined studies classes approach day-to-day problems through a study of man in relation to himself and the society around him. A minority cultures class and a social power seminar are also offered. — Loyola University, Chicago, Ill.

PROJECT AS SOCIAL UNIT
Under a program theme “Ways of Knowing,” students focus on a study of the group as a social family unit. The 51 black, white, and Puerto Rican students formed a macrocosm of a family group, reflecting all aspects of adolescent society. Student-developed series of “happenings” have included a writers’ workshop which combined individual student writing projects with visits from professional writers who criticized student writing and invited students to critically analyze theirs. Also, workshops with visiting artists, folk singers, and poets have been held. — Hofstra University, Hempstead, N.Y. (See “Hofstra Approaches UB Project as a Social Unit” in the July 1968 Idea Exchange.)

APPALACHIA THEME
The entire academic program is based on the theme of Appalachia. The sociology course deals with the southern mountains; science classes study area flora and fauna; crafts classes include rug-hooking and dulcimer-making. — Alice Lloyd College, Pippa Passes, Ky. (See “Eight WAYS with the Dulcimer” in the April 1968 Idea Exchange.)
**ARTS AND FINE ARTS**

**MULTIMEDIA**

“Kaleidoscope” introduces students to various art media which may then be pursued in afternoon workshops. Course activities have included: an exploration of sculpture; sketching exercises; a field trip to Boston to consider relationships between art and architecture; a tour of the Boston Museum of Fine Arts; in-class discussions featuring slides of 20th-century art works. — Bowdoin College, Brunswick, Maine.

**ELECTIVE COURSES**

Students may choose from many electives offered. Included are drama, ceramics, photography, instrumental music, and graphic arts. — St. Mary’s College, Notre Dame, Ind.

**CULTURAL SEMINAR**

A cultural seminar meets as a daily required course and covers fine arts, drama, and music. An end-of-summer variety show is presented. — Indiana University, Bloomington.

**BLACK FESTIVAL**

A “Black Festival” was one of several ethnic group culture identification projects produced by UB students. — Mundelein College, Chicago, Ill.

**BLACK ARTS FESTIVAL**

A student-produced “Black Arts Festival” received substantial support from the university’s fine arts department, whose chairman made a special trip to New York to acquire contemporary art works for the occasion. The Project Director attributes success of the festival to student planning. — Oakland University, Rochester, Mich.

**BLACK THEATER WORKSHOP**

A black theater workshop was funded by the State of Connecticut especially for UB students and local participants. — Wesleyan University, Middletown, Conn.

**PLAY PRODUCTION**

A play, written and produced by UB students, so impressed the university’s drama department that, at its request, academic year performances for the entire student body were scheduled. During its 3 night summer run, the play was a sellout to students attending regular college summer school. — Pennsylvania State University, University Park.

**MUSIC/DRAMA**

Workshops in music and drama are offered. Two musicians team-teach the former. The drama workshop is designed to help students “find” themselves and create positive self-images. — California State College at Fullerton.

**ORIGINAL MUSICAL**

An original, UB-produced musical is performed for school and community groups in the Boston area during the academic year. — Bridge Fund, Inc., Boston, Mass.
| ELEMENTS OF MUSIC | Problem solving situations were used to help introduce students to a study of dynamics, form, beat, rhythm, and tone quality. A percussion project involved the improvisational use of percussion "instruments." These included a box with a brittle snap, a retractable ball point pen, a deck of cards, a can of hair spray. — West Liberty State College, West Virginia. (See "West Liberty Students Write Lyrics, Music for UB Song" in the October 1968 Ideas Exchange.) |
| PAINT/POTTERY | Under the guidance of a professional, UB students were offered a paint and pottery workshop off campus. Students assisted in restoring workshop at end of summer. — University of Massachusetts, Amherst. |
| ROCK AND SONATA FORMS | Rock-and-roll music is used to introduce students to a study of the forms and patterns in a sonata. Students are soon able to distinguish between basic and contrasting themes. By using relevancy, students become involved, increase their self confidence, and can see the relationship of all forms of music to their own life styles. — Knoxville College, Tennessee. |
| WOOD CARVING | Under the guidance of their creative arts instructor, students make and sell tikis for the "Nehru set." Students have learned much about wood carving in this financially profitable venture. — Philander Smith College, Little Rock, Ark. |
| APPLIED CRAFTS | In an applied crafts workshop, students learn how to repair common broken objects—furniture, appliances, etc. — Texas Southern University, Houston. |
THE HUMANITIES

COMMUNICATIONS

Student involvement in the actual processes of communication included writing and releasing news stories to area newspapers; making radio tapes and doing radio interviews; participating in press conferences; writing letters to the editor; and meeting face-to-face with congressional and State leaders. Students received assistance of a polls specialist in devising and conducting a survey. — Bowdoin College. Brunswick, Maine.

BEREITER-ENGELMANN METHOD ADAPTED

Using a project-adapted version of the Bereiter-Engelmann method, the 50-minute English classes are divided into 20 minutes of language, 20 minutes of reading and phonics, and 10 minutes of language games and logical puzzles. — University of Virginia, Charlottesville.

AUDIOVISUAL AIDS IN THEME WRITING

Films are used as basic sources for theme writing in the English classes. — Temple Buell College, Denver, Colo., and Central College, Pella, Iowa. (Central College also uses records and videotapes as resource materials.)

DESCRIPTIVE WRITING

To combat the problem of too many broad generalizations in student writing, several methods were devised to teach descriptive writing through use of the five senses. Some examples: To explore the sense of touch, class was divided into two teams. Each team member would touch an unseen, commonly recognized object and then write a description of it for his fellow team members to identify. A sense of sight assignment involved attempting to describe a painting so that the reader would be able to visualize it. Using team competition helps students sharpen descriptive writing abilities. — Southern Methodist University, Dallas, Texas. (See "Trial Balloon for Composition" in the June 1968 Idea Exchange.)

PRINT SHOP

A print shop was opened in which students printed their own works. The staff felt this project increased student interest and competence in creative writing. — Groton School, Groton, Mass.

CORE COURSE

The summer program is built around a core humanities course which attempts to deal with some basic issues common to all men. Selected readings range from the ancient Greeks to Malcolm X. — Yale Summer High School, New Haven, Conn.

RURAL STUDENTS/ URBAN TEACHERS

Graduate students from eastern colleges and universities teach a humanities course to students from rural areas. — Oklahoma Baptist University, Shawnee.

ETYMOLOGY

An etymology quiz game was developed as a method of motivating students in the traditionally dull subject, vocabulary building. — Southeast Community College, Cumberland, Ky.
GREEK MYTHOLOGY

A course in Greek mythology is one of the summer electives. — Loyola University, New Orleans, La.

ORIENTAL CULTURE

Language, history, art, and cuisine are studied in the Chinese-Japanese culture course. — Rhode Island College, Providence.

LANGUAGE SKILLS

All students are drilled in the basics of English language and language skills. Mexican-American students in the project are given instruction in Spanish language skills. — University of California at Riverside.

LEARNING MACHINES

English grammar, punctuation, and syntax are being taught with six learning machines. The newest type of machine aids the student in review and allows him to proceed at his own pace. — Indiana State University, Terre Haute.

LEARNING LAB

A self-service learning laboratory called “Quest” was designed to help students develop an interest in reading and independent study. It is located in a large air-conditioned room and features teaching machines and programmed texts. Two tutor-counselors are on hand to help the students. — Florida A.&M. University, Tallahassee. (See “Quest: A Self-Service Educational Laboratory For Underachievers” in the May 1968 Idea Exchange.)

LINGUISTICS

In a linguistics course, three technical devices were used: one for instruction in use of the telephone; a teletype; and a machine that uses audiovisual approaches to language teaching. — Cochise College, Douglas, Ariz. (See “Language Learning Boosts” in the March 1968 Idea Exchange.)

LANGUAGE ARTS “CASINO”

A language arts “casino” helped teach students parts of speech, vocabulary, and logical patterns of thinking through games that reward players with high scores. A former Project Director developed the games. A project film shows the “casino” in action. — Indiana State University, Terre Haute.
| RESEARCH PROJECT | In a Science/English interdepartmental project individual student research on a man of science was conducted to gain information for a talk given to the science class. English department faculty aided each student in the art of organizing research and preparing speech outline. The purpose was to further the student's knowledge of science while also helping him to acquire skills in using the library and to see the value of English class assignments through application. — West Virginia Institute of Technology, Montgomery. |
| GENETICS OF RACE | The biology course was taught by a geneticist. Time scale of probability was used in teaching the genetics of race and skin color. — University of Washington, Seattle. |
| SCIENTIFIC METHOD | Stress was on the scientific method: need for knowing how to ask the right questions; need for patience during experiments; need for understanding limits of findings. Student teams had their own lab equipment and specimens; they were responsible for control of their individual experiments. Two examples of problems that groups worked on are: Can frogs see color? What is the learning ability of a mouse? — Colorado State College, Greeley. |
| INTEGRATED SCIENCE | The integrated science course used demonstration materials from the college's botany, ecology, limnology, and comparative anatomy courses. Where demonstration or personal involvement was impractical, film was used. Classroom activities were directed toward personal involvement in the lab, in lecture sessions, and in the synthesis of ideas by debative interaction. — Eastern Kentucky University, Richmond. (See “Biology: A Demonstration in Reality” in the August 1968 Idea Exchange.) |
| CAMPING: ECOLOGY | In a week long outdoor camping experience, students learned by observation about classes of plant and animal life and their ecological relationships. Afternoon discussions ranged from geologic history of the area to evolution and religion. — Arkansas Polytechnic College, Russellville. (See “An Upward Bound Camp in the Ozarks” in the August 1968 Idea Exchange.) |
| CAMPING: SURVIVAL | A 6 day primitive camping experience was designed to teach teams of students to become autonomous and self-sustaining. Each group reflected the project's diversity in race, sex, and national origin. Student-selected team leaders met for training and planning prior to camping week. Campers could choose activities such as lensatic compass, river charting, flora and fauna. — West Texas State University, Canyon. |
| MARINE BIOLOGY | Learning to use the powers of observation was stressed in this course. Activities ranged from dissecting an anesthetized dogfish and observing living |
plankton to a 24-hour field trip to an island to observe tidal changes. As a voluntary final exam, students chose five of 15 living specimens and wrote or drew what they observed. Students helped plan what to study, and how to study it. — Bowdoin College, Brunswick, Maine.

PHYSICS

In a physics class for science-oriented students, emphasis is on developing intuitive understanding based on direct sensory experience. Mechanics, electricity, and optics are covered—using materials relevant to everyday life and teaching techniques designed to facilitate the transition from sensory experience to symbol orientation. — Washington University, St. Louis, Mo.

ROCKETRY

Rocketry is a feature of the summer math-science course. Students make and fire their own rockets from the campus green. — Hofstra University, Hempstead, N.Y.

LAB-LECTURE

Each science class is an integrated lab-lecture course on one particular scientific problem. A learning-by-doing approach is used by the instructor. — West Virginia State College, Institute, W. Va. (See “Photography Proves Effective in Teaching Chemistry” in the October 1968 Idea Exchange.)

MARINE BIOLOGY/OCEANOGRAPHY

The textbook is Rachel Carson's *The Sea Around Us*. The marine biology/oceanography students are exposed to geology, chemistry, and physics. Classroom lectures supplement field work. Oral reports based on the student's observations and findings are given at the end of the course. — Florida Presbyterian College, St. Petersburg. (See “Two Florida Programs: Curriculum in Motion—By Sea” in the January 1968 Idea Exchange.)

AERONAUTICS

In an aeronautics course, students study flight theory, meteorology and navigation and actually handle a plane in flight. — University of South Florida, Tampa. (See “Two Florida Programs: Curriculum in Motion—By Air” in the January 1968 Idea Exchange.)
Students formed a corporation called Cozy Coasters, Inc., bought shares, elected a board of directors, and employed contemporary marketing and advertising techniques and have realized excellent profits from their product (the round mat to set a glass on). – Morehead State University, Morehead, Ky. (See “Production Sales Booming As Students Form Coaster Corp.” in the September 1968 Idea Exchange.)

Student need and achievement studies were used to develop a math game in which students are “paid off” in scrip for problems solved. At summer’s end, students use their scrip to “buy” a variety of prizes donated to the project by community members. Top prize last summer was an airplane trip. – Temple University, Philadelphia, Pa.

Algebraic and geometric concepts and skills are taught in a contemporary math course. Problem solving and relating to new situations are emphasized. – St. Mary’s College, Notre Dame, Ind.

The school trustees funded a unique teaching fellowship in which a mathematics teacher from Philadelphia was hired to head the UB program’s math department for the summer, to teach math at the school during the academic year, and to serve as assistant to the Project Director and adviser to sending schools in the area. Similar arrangements with teachers from other urban areas are planned for the future. – Groton School, Groton, Mass.

Games and game theory are used as an introduction to mathematics. Students learn basic concepts used in all types of math, from algebra to calculus. – Washburn University, Topeka, Kans.

Several projects use a casino approach in teaching probability. Among them are Graceland College, Lamoni, Iowa; and Virginia Union University, Richmond. Virginia Union also uses surveying to teach trigonometry.

In a consumer finance course, speakers on subjects such as real estate offer information on purchase, sale, transfer, etc. In-class follow up deals with interest rates, time differentials, and calculating costs and helps students overcome weaknesses in working with percentages, fractions, and solving for unknowns. – Baylor University, Waco, Tex.

Mathematics is taught by using the computer, three-dimensional games, and a chess tournament which involves use of percentages and points built around a computerized formula. – University of Northern Iowa, Cedar Falls.
CONSUMER ECONOMICS

Budgeting, installment buying, interest rates, and trade-ins are among the topics covered in a consumer economics course. The class visits a local bank. – Arkansas A.M.&N. College, Pine Bluff.

LOGIC AND PROBLEM SOLVING

A logic and problem solving course covers map coloring, prime numbers, probability, trigonometry, geometry, symmetry, rules of mathematics, and properties of numbers. Students use the college computer and learn how to operate a teletype machine. – Bowdoin College, Brunswick, Maine.

COMPUTER TECHNOLOGY

A course in computer technology was provided students by an oil company. A company mathematician teaches the program. UB grads who have taken the course have been able to land high-paying part-time jobs on campus. – Texas Southern University, Houston.
SOCIAL STUDIES

EXCURSION
An excursion program was designed to help students improve problem solving abilities. Students have visited the State Youth Authority facilities, State prison, and training school for the mentally handicapped. They have toured a hotel, an airport, and private clubs. Group discussion follows each visit, and students write about their experiences. The academic year phase of this program is devoted to the “world of work” and observing the processes involved in becoming a trained, productive person. — Weber State College, Ogden, Utah. (See “Community Excursions at Weber State” in the May 1968 Idea Exchange.)

HISTORICAL PAGEANT
As part of a cultural heritage course, UB students celebrate Nebraska’s centennial year by presenting a pageant depicting the legend of Chief Crazy Horse. — Chadron State College, Chadron, Nebr. (See “Experience Is the Curriculum - An Indian Pageant” in the March 1968 Idea Exchange.)

DISCUSSION COURSE
The social studies course is team taught. Topics for discussion include poverty, race relations, Vietnam, and gun legislation. At the end of the summer, the course focuses on anticipated student problems in returning home and how to deal with them. — Indiana University, Bloomington.

BLACK HISTORY
The black history course deals with the development of racism in the social, political, and economic systems of the country. — Norman College, Norman Park, Ga.

MODEL COMMUNITY PROJECT
The social studies course involves planning the development of a model community. — North Carolina Wesleyan College, Rocky Mount.

MINORITY GROUP HISTORY
American Indian history courses are taught at Chadron State College in Nebraska and at the University of South Dakota, Vermillion; Afro-American history courses at Webster College, St. Louis, and the University of Missouri—Kansas City. All stress cultural study from an historical perspective.

BLACK/WHITE STUDIES
Black students study the various forces that have produced “black poverty” in America; white students, the forces that have produced “white poverty.” The two classes meet together weekly to compare findings and draw conclusions about the relative positions of blacks and whites in contemporary society. — Rockhurst College, Kansas City, Mo.

SEMINARY
An economic and political seminar is part of the social science curriculum. — Northwestern University, Evanston, Ill.
A statewide summer study tour provides the basis for an academic year discussion course and model city design project. The summer tour includes visits to Philadelphia and Pittsburgh to study urban problems and to rural areas of the State to study white poverty and the problems of Appalachia. Urban planners, government officials, and model city program staff were among guest speakers during the on-campus part of the course. — Franklin and Marshall College, Lancaster, Pa.

Students in this project are natives of St. Landry parish, a poor rural area. Their study of the area's local economics involves research and opinion gathering. Parents and other adult members of the community become involved in this project. — Xavier University, New Orleans, La. (See "A Family Need a Thing To Be Proud of" in the February 1968 Idea Exchange.)

Current events seminars use newspapers and magazines as textbooks. Subscription to a local Spanish-language newspaper provides a source of special interest discussion topics for Spanish-speaking UB students. — Prairie View A&M College, Prairie View, Tex.

State and national elections were the focal point of a social studies course. The role of the individual in shaping the government through voting power was the class theme. Attending political rallies and interviewing candidates after speeches preceded the project's end-of-summer mock political conventions. — West Texas State University, Canyon.

"Turf," a slang expression for power or property rights, is also the title of the social studies discussion course. Among the topics covered are analyzing the company town and development of the labor movement. An Afro-American studies course taught to mixed sections of students and staff, includes history, sociology, anthropology, and psychology. — University of Washington, Seattle.

Minority group history course uses a cross-cultural approach. Music and literature of black and Latin origin are studied. Instructors include teachers, outside experts, and tutor-conseleors. — Wesleyan University, Middletown, Conn.

"Social Change" is a daily 2-hour core course for students and staff. Participants designed and wrote a social studies curriculum using a multicultural approach to U.S. History and Problems in American Democracy. Course planning and research are a joint student-staff venture during the academic year. — Humboldt State College, Arcata, Calif.
AMERICAN HERITAGE
An assistant to the Governor of Maine teaches an American Heritage course, which has included class field trips to the capitol and nearby cities and interviews with elected and appointed officials. — Gorham State College, Gorham, Maine.

AFRO-AMERICAN HISTORY
In an elective course which combines history, sociology, and anthropology, the history and tactics of the black revolution in America and the cultural/religious life of African tribal groups are studied. — Cherry Lawn School, Darien, Conn.

SOCIAL ISSUES SEMINARS
In a social issues seminar course, topics ranged from contrasting problems of urban and rural life to the generation gap. Readings, films, field trips, and outside speakers were used to generate ideas. Object was to help students learn to think about, investigate, and evaluate these issues for themselves. — Bowdoin College, Brunswick, Maine.
# BRIDGE PROGRAMS

| COURSE OPTIONS | Bridge students were given three summer program options: participate in regular UB programs, audit college classes, or enter the college's Career Scholarship program in which students work during the day, take college courses at night, and receive special guidance and counseling. — Washington University, St. Louis, Mo. |
| LECTURE SERIES | A year-round lecture series, conducted by university professors, is designed to help students gain experience with the patterns of instruction and the atmosphere of the regular college classroom. — Roosevelt University, Chicago, Ill. |
| TEST EXTENSION | Bridge students enroll in regular college classes during the summer. Special tutoring assistance is offered. Students may extend class exam date for 2 weeks after close of regular college summer session. Test data extension is made possible by UB's later summer closing. — Graceland College, Lamoni, Iowa. |
| T-C'S AUDIT COURSES | Bridge students are enrolled in regular college credit courses. Upward Bound tutor-counselors (T-C's) audit these courses in order to be of better assistance to students. — Colorado State College, Greeley. |
| TUITION CUT | The university cut tuition costs 20 percent for bridge students enrolled in regular college courses during the summer. — University of Louisville, Kentucky. |
| COLLEGE PREP COURSE | "Know Yourself" is an introductory course in the whys and wherefores of college life offered to UB students. — Occidental College, Los Angeles, Calif. |
| STUDY CC. JRSE | A college professor has developed a multidisciplinary study course which presents an overview of various disciplines and techniques for studying particular subjects. One day is spent on each subject area. Students participate in open discussions and write short summaries on topics discussed. — Bloomfield College, Bloomfield, N.J. |
| COMPOSITION AND RHETORIC | Writing essays based on experiences or local material allows the student to work with his experience in his language. Use of reference materials, selected readings, and individual student-teacher conferences are part of the college prep course offered in composition and rhetoric. — Bowdoin College, Brunswick, Maine. |
TUTOR AIDES

Bridge students work in the summer program as paid tutor aides and are offered a special Afro-American seminar. — Earlham College, Richmond, Ind. (See "Students Are Staff in Pre-Freshman Program" in the July 1968 Idea Exchange.)

POETRY SEMINAR

A poetry analysis seminar is designed to introduce students to college freshman English. The course attempts to develop analytic skill through close examination of individual poems. Practicing poets are invited to read from their works and participate in discussions with students. Work in library procedures and preparation of research papers are part of the course. — Bowdoin College, Brunswick, Maine.

"GREAT INNOVATORS AND THEIR INNOVATIONS"

Socrates, Thoreau, Freud, Ghandi, Jane Addams, and Malcolm X were among the innovators studied in a special seminar course for UB graduates serving as program assistants in the summer project. Group discussions and individual projects were used to acquaint students with the world of ideas. — Bowdoin College, Brunswick, Maine.

STUDENTS HIRED BY PROJECTS

Work-study jobs in the UB summer program are provided to those bridge students already admitted to college. Some work as tutor-counselors, others as secretaries or office assistants. Students whose financial needs would not otherwise permit them to be involved in the summer UB program can thus benefit academically and financially. — Purdue University, Calumet Campus, Hammond, Ind.
# ACADEMIC YEAR PROGRAM

## ON CAMPUS

### CAREER CONFERENCE

The Chicago Committee on Urban Opportunity organized a 2-day career conference and luncheon for Upward Bounders and representatives from more than 20 professions. CCUO works with the six Chicago area projects during the academic year.

### CORE LECTURES

Students return to campus on Saturdays for college core lectures. A variety of topics, such as music, novelists, and poets is presented. College student volunteers participate with Upward Bounders in post lecture discussions. – Florida Presbyterian College, St. Petersburg.

### TEST TAKING

In a test taking course, students take exams consisting of sample College Board questions. – University of Miami, Florida.

### COLLEGE STUDENTS AS TUTORS

Many college student organizations have provided tutorial assistance to Upward Bounders. At Southwestern State College in Oklahoma, the Student Education Association offers tutorial help and a part-time job placement service. At Ohio University, tutoring Upward Bounders is part of the service qualification for pledges of Kappa Delta Pi, the national honorary education fraternity. Teacher Corps and VISTA have provided tutors for many Upward Bound projects.

### DISCUSSION GROUPS

Upward Bound students participate in group discussions with leaders of fraternities, student government, professional clubs, etc. Seminars on "How to Study, Work, and Pay your Way through College" have been conducted by the Student Government Association. – University of Maryland, College Park.

### COURSE STRUCTURE

The weekly English and mathematics courses are organized into three 10-week segments. Each segment involves different subject matter emphasis and each involves a different teacher. – Morehouse College, Atlanta, Ga.

### INFORMAL SEMINARS

The learning process was moved out of the classroom by holding college-style informal seminars in the homes of professors. – Florida Presbyterian College, St. Petersburg.
Saturday projects are the basis of the academic year follow-up phase. Included are ghetto economics, censorship, rocketry. — Emory University, Atlanta, Ga.

Prior to visiting with Upward Bounders from other parts of the country by telephone, a study of the geography, language, and climate of the area was made. Extension phones and the college's teletypewriter equipment made it possible for all students to participate in phone conversations. — Tougaloo College, Tougaloo, Miss.
Paperback book clubs and newsletter are popular in many projects. The two ideas are connected at Bowdoin College in Maine where student-written book reviews often appear in the monthly newsletter.

By recruiting rural students in clusters and selecting summer staff members from schools in each community, those students who do not live close enough to campus to attend Saturday sessions may meet in weekly cluster groups with the UB teacher from their area. — Prairie View A&M College, Prairie View, Texas; and Central College, Pella, Iowa.

Several projects offer correspondence courses. A “How to Study to Succeed in College” course is administered through the Ohio University (Athens) extension division. The College of St. Teresa, Winona, Minn., offers an English composition course especially styled for Upward Bounders. Morehead University in Kentucky offers home economics and industrial graphics correspondence courses.

Two week long intensive residential tutoring institutes are held during Christmas and Easter vacations for students who live too far away to attend the project’s weekly on-campus tutorial sessions. Seven project faculty members live in the dorm with students and conduct institute classes at the college conference center. — State University of New York, Plattsburgh.

Students are encouraged to phone the project for long-distance tutorial assistance. The project also works with area Community Action agencies and local volunteers to obtain tutoring assistance for the students. — State University of New York, Stony Brook.

A number of UB projects have developed pen pal programs—some with students in other UB programs, some with foreign students.

Improving college community relations and bettering interracial understanding is the purpose of a project community program in which students live in homes of local residents during on-campus reunion weekends. — Southwestern State College, Weatherford, Okla.

Spring and fall “cluster parties” are held in each of the six widely scattered geographic areas from which the project draws its students. UB staff members attend, along with students, parents, advisory committee members, area teachers, and Community Action workers. — University of Montana, Missoula.
SPECIAL ASSISTANCE

Teachers in the high schools who also taught in the summer UB program have been relieved of some classroom duties in order to give special assistance to Upward Bounders—Harvard University, Cambridge, Mass.

UB STUDY HALLS

In-school UB study halls are staffed by the project's summer staff, tutor counselors, and college faculty and are open to non-UB students. Afternoon and evening tutorial sessions are also part of the followup. — Wooster School, Danbury, Conn.

NEWSLETTER TO SCHOOLS

A newsletter from the Project Director is sent to Upward Bounders and high school personnel. — Bemidji State College, Bemidji, Minn.

SCHOOL CLUSTERS

Three teachers from each of the five UB-sending high schools are directly involved in followup activities. School cluster groups meet monthly with these teachers, college faculty, and tutor-counselors to coordinate in-school activities and plan monthly on-campus programs. — Spring Hill College, Mobile, Ala.

SCHOOL WITHIN A SCHOOL

During the academic year all Upward Bounders attend a single high school. The students are placed in special classes, spend double periods in their major courses, and receive intensive tutoring and counseling assistance. — Kingsborough Community College, Brooklyn, N.Y.

GUIDANCE HELP

The college has assigned a social work student to aid the guidance staff at one of the high schools enrolling a large number of Upward Bound seniors. — Purdue University, Calumet Campus, Hammond, Ind.

DEBATE/DRAMA

A college faculty member developed a debate and drama program for Upward Bounders and high school students who wanted help in oral communications. The special program meets in area schools that enroll UB students. — Morehead State University, Morehead, Ky.

FTA's JOIN IN UB MEETINGS

High school student members of the Future Teachers of America are invited to attend all UB academic year sessions. — Purdue University, Calumet Campus, Hammond, Ind.

PROGRAM FOR TEACHERS

An in-school program called "Upward Bound and the Schools" is sponsored by the college and involves over 200 area teachers and counselors. — Webster College, St. Louis, Mo.
A movie camera was donated to the project last summer and UB summer activities were filmed by the students. The film has been shown in all the city's feeder schools.—St. Mary's College, Notre Dame, Ind.

UB has had quite an impact on the Topeka public school system. After UB's first year in this community, the Project Director was asked to help develop a proposal for a model inner-city school designed on the principles of Upward Bound.—Washburn University, Topeka, Kans.

The Consortium School is an experiment in transferring UB principles into the school system. Four area colleges and the public school system worked together to develop a special curriculum for 320 ninth to twelfth graders. Participating institutions donate facilities and personnel to the public schools. Detailed information on this program has been published in the New York State Schools Journal. Utica College, Utica, N.Y. participates in the UB program.
COUNSELING

JOB CORPS ENROLLEES
Older Job Corp students have been integrated into the program by making them responsible for the younger Upward Bounders, in the role of assistant counselors. So that college admissions could be obtained, these Job Corps students must have GED certificates. — University of Maryland, College Park.

HUMAN RELATIONS
Three courses in human relations with special content for bridge, senior, and junior students are taught by the project counselors. — Oakland University, Rochester, Mich.

GROUP COUNSELING
Six mixed groups of UB students meet with a counselor and tutor-counselors at regular intervals. Result: considerable feedback to project staff. — University of Massachusetts, Amherst.

GROUP, INDIVIDUAL SESSIONS
Several full-time guidance counselors conduct regular intensive group and individual counseling sessions for the students. — Gannon College, Erie, Pa.

COUNSELOR TRAINING
Training tutor-counselors as group counselors is part of the preprogram staff orientation. — State University of New York-Stony Brook.

"ENCOUNTER" GROUPS
In group counseling sessions, called "Encounter," 12 students meet with faculty members to talk about themselves and their problems. The staff has devised a "counselor evaluation form" to aid in discussing individual student problems and making subsequent recommendations. — Occidental College, Los Angeles, Calif.

JOB COUNSELING
Volunteers from the community who were successful in careers of interest to project students, and who came from backgrounds similar to those of the students, were recruited to conduct on and off-campus in-depth career counseling sessions. — Washington University, St. Louis, Mo.

DISCUSSION GROUPS
As a supplement to individual student counseling, groups of six to eight students meet regularly with a counselor to discuss topics of interest and "tell it like it is." These sessions run 1 to 1½ hours each. — Marist College, Poughkeepsie, N.Y. and Bennett College, Millbrook, N.Y.

INSERVICE TRAINING
A member of the Yale Child Study Center meets with the Master Teachers and tutor-counselors working in the program for weekly inservice counseling training sessions. — Wesleyan University, Middletown, Conn.
Each of the 12 program assistants works with three or four students in the areas of personal problems and general adjustment counseling. These assistants meet weekly with the project’s clinical psychologist to discuss ways of coping with particular student problems. The psychologist is also available to consult with students and with project staff.—Bowdoin College, Brunswick, Maine.

Sensitivity training sessions are part of the preprogram staff orientation. Focus is on the development of interpersonal skills.—Bucknell University, Lewisburg, Pa. (See “Sensitivity Training for Staff Orientation” in the April 1968 Idea Exchange.)

Students from seven Chicago area Upward Bound programs met with representatives from 20 colleges in an all-day session at Chicago’s Loyola University. Students were able to meet with college representatives on a one-to-one basis. (See “Loyola Sponsors College Day” in August 1968 Idea Exchange.)

A weekly staff-student symposium includes academic and college counseling sessions. Invited speakers have included college financial aid, placement bureau, and admissions directors.—Indiana University, Bloomington.

The counseling program for seniors includes frequent trips to other colleges to check living conditions; filling out applications, simulating college conditions; making out course schedules; writing letters of application and autobiographies; discussion sessions.—Mundelein College, Chicago.

A “Post High School Plan Booklet” and an illustrated brochure called “Can I?” were produced by students under supervision of the project guidance director. (See appendix D of this manual.) — Bowdoin College, Brunswick, Maine.

The Fellowship of Concerned University Students (FOCUS) is assisting in the placement of students as college freshmen in UB projects in 23 southern and western States. FOCUS has secured public and private funds and is staffed and directed entirely by college students. Academic year headquarters: Adams B-15, Harvard University, Cambridge, Mass. 02138. Summer headquarters: 520 Westview Drive, Nashville, Tenn. 37208. (See “New Student Group Assists Upward Bound” in the August 1968 Idea Exchange.)
## STUDENT GOVERNMENT

### EXPERIMENTS IN GOVERNMENT
From a list submitted by the Project Director, students selected a new form of government for each week of the summer program. These ranged from dictatorship to constitutional monarchy to timocracy. Petitions, referendums, campaigns, strategy sessions, and letters to the editor were used. Berea College, Berea, Ky. (See “The Governed and the Governors” in the November 1968 Idea Exchange.)

### COURT SYSTEM
A student court system was designed to teach students the practical application of democratic principles and offer a way in which they could participate in decisionmaking. Student-elected judges appointed court officers to investigate charges. If a hearing were held, the student-defendant could conduct his own defense or select a fellow student to defend him. Court verdicts were reported to Project Director and counseling staff for final action. Southwest Texas State College, San Marcos.

### CONSTITUTION
Students wrote their own project constitution based on the U.S. Constitution. Baylor University, Waco, Tex.

### DORM COUNCIL
Students share in decisionmaking by helping to run the dormitories and serving on a dorm advisory council. Ohio Wesleyan University, Delaware, Ohio.

### REVIEW BOARD
The student government consists of a review board which uses a project-developed constitution as the basis for making disciplinary recommendations to Project Director. Yale University, New Haven, Conn.

### COUNCIL/Senate System
A student council—president, executive, financial, and activities vice presidents; and a secretary—was elected by the entire student body. The Senate consisted of an elected representative from each of the sending schools. Its responsibilities were to establish rules of conduct and to assist in planning field trips, curriculum, and social activities. A court system was developed to handle discipline, with the Project Director as final authority. College of Southern Utah, Cedar City.

### ADVISORY BOARD
A student-elected advisory board helps plan project activities and makes recommendations to the Project Director on all aspects of the program. University of Louisville, Ky.

### LEADERSHIP TRAINING
Learning and practicing leadership are stressed in a student council which is primarily responsible for program management, a student court system, and in weekly “community meetings” where student criticisms and suggestions are heard and frequently acted upon. Wittenberg University, Springfield, Ohio.
INTER-PROJECT EVENTS

**UB OLYMPIAD**

Several hundred students participated in an Upward Bound Olympiad, which was designed by the host college, Purdue, to bring out and develop individual and team talents. Competitive events in track, table tennis, tumbling, basketball, softball, debate, poetry writing, oratory, and mathematics were held. Participating projects were those of the University of Illinois; Central State University, Ohio; Indiana State University; and the University of Notre Dame.

**SPORTS MARATHON**

Three neighboring projects jointly sponsored a sports marathon with track and field events on each campus. The participating projects were Webster College, Washington University, and Southern Illinois University, all located in or near St. Louis, Mo.

**DEBATE PROGRAM**

Inter-Club round-robin debates are a feature of the academic year followup program for the six Chicago area UB projects.

**PEN PALS**

Purdue Upward Bound students have become pen pals with UB students in Guam, Puerto Rico, and Hawaii.

**COLLEGE BOWL**

Last summer UB students at Tougaloo College, in Mississippi, and LeMoyne College, in Tennessee, competed in a "college bowl" contest in Negro history. The host project, Tougaloo, has made plans to challenge other projects in similar contests. A rematch with LeMoyne is planned.

**ARTS FESTIVAL**

Three Kentucky projects staged a cultural arts festival. Morehead University and Berea College UB students performed Appalachian dances; Kentucky State College students performed Afro-American dances.
PARENTAL INVOLVEMENT

AIDING UB FAMILIES

All project staff members, including tutor-counselors, are trained as paraprofessional social workers. In addition to carrying out academic year staff assignments, they act as liaison between UB families and local social service agencies.—Dowling College, Oakdale, N.Y.

PARENTS AS PROGRAM AIDES

Nine parents are paid by the program to serve as program aides. They visit homes to keep parents informed and students motivated, provide transportation to campus events and tutoring sessions, and follow up on medical and dental needs. They file biweekly reports to the Project Director.—State University of New York, Plattsburgh, N.Y.

COMMUNITY COORDINATOR

A local woman serves a dual function—housemother for students and community coordinator. In the latter capacity she visits homes to offer help to families in such areas as medical care and housing.—Temple University, Philadelphia, Pa.

MOTHERS MEETINGS

Neighborhood UB mothers' meetings are held to discuss matters of common interest and to find ways to help the project by providing transportation, etc.—Western Reserve Academy, Hudson, Ohio.

PARENTS CLUB

Some parents initiated and hosted a cookout; as a result a parents club was formed with the purpose of helping the UB program. Such assistance has included chaperoning campus activities, and transportation.—Eastern Michigan University, Ypsilanti.

PARENTS ORGANIZATIONS

Some projects have created special committees for parents, organized neighborhood advisory groups, and encouraged active parent participation in PTA and local school activities. Among them are those at Oklahoma Baptist University, Texas A. & I. University, and Xavier University in New Orleans. (See "A Family Needs a Thing To Be Proud Of" in the February 1968 Idea Exchange.)

SUPPORT SERVICES

The college is negotiating with the University of Maine's extension services for parental education and support in such areas as group dynamics, delinquency, nutrition, and family planning.—Gorham State College, Gorham, Maine.

BROTHERS, SISTERS INCLUDED

Because brothers and sisters often showed up on visiting days, the project decided to encourage them to occasionally stay overnight in the dorms and participate in field trips.—University of Maryland, College Park.

<td>OPEN HOUSE/TOUR</td>
<td>Academic year open house for parents included a tour of the campus and a meeting with the admissions director on financial aid, scholarships, applications, etc.—College of St. Teresa, Winona, Minn.</td>
</tr>
</tbody>
</table>
COMMUNITY INVOLVEMENT

STUDENTS TUTOR AT JUNIOR HIGH

In "Operation Catch-Up" Upward Bounders tutor Junior high school students each Saturday. UB project staff assists in developing lesson plans, etc.—Fort Valley State College, Fort Valley, Ga.

STUDENT-DEVELOPED COMMUNITY PROGRAMS

Student-developed programs and forums are offered to community groups. Among them: "I Have A Dream," based on past and present hopes and aspirations of Negroes, teenage problems, social issues.—Tougaloo College, Tougaloo, Miss.

UB SPEAKERS BUREAU

A speakers bureau offers a series of slide and movie presentations to civic and community groups. Short speeches by UB students follow. The project feels the bureau performs the dual role of aiding students in developing poise and speaking ability while also providing the community with information and enlisting its support.—College of Southern Utah, Cedar City.

COMMUNITY PROJECTS

UB improved its image and thanked the community for its support by devoting an afternoon to various community projects. This was a result of a meeting with the mayor and city council to ask for suggestions, followed up by UB student government review of suggestions and planning of these projects.—College of Southern Utah, Cedar City.

STUDENT ART SHOW

A traveling display of UB student art—oils, sketches, etc.—has been shown in high schools throughout the project's area.—Gorham State College, Gorham, Maine.

SUNDAY DINNERS

Upward Bounders were Sunday dinner guests in homes of community residents during the summer.—Graceland College, Lamoni, Iowa.

VOLUNTEER CORPS

Community residents joined college students and faculty in volunteering to assist the project with academic projects, sewing classes, the making of posters, etc.—Purdue University Calumet Campus, Hammond, Ind.

CLUB SPONSORS

The project worked through church organizations, schools, and advisory committees to find community sponsors for academic year college clubs.—Ohio University, Athens.

SEMINAR LEADERS

Volunteers from the community conduct weekly seminars in their area of expertise. Question-and-answer sessions follow.—Washington University, St. Louis, Mo.
TRANSPORTATION

Area service organizations—Rotary, Elks, etc.—provide transportation for students to and from academic year study centers.—Mercersburg Academy, Mercersburg, Pa.

CAMPOUT SITES

Area residents who own mountain cabins have let project use them for weekend campouts.—University of Nevada at Las Vegas.

OUTSIDE SPEAKERS

Outside speakers for project seminars have included the district attorney, a newspaper editor, State legislators, a panel of clergymen, a group of ex-convicts, and entertainers.—University of Nevada at Las Vegas.

EXCHANGE OF VISITS

Students make regular visits to community leaders. In turn, community leaders regularly are invited to participate in project discussion courses.—Marist College, Poughkeepsie, N.Y.

HEAD START AIDES

Following a training session by teachers and social workers, several UB students worked as volunteer assistants in a Head Start project daily for 6 weeks. Under the guidance of professionals, the UB students helped individual youngsters in correcting reading deficiencies, etc.—Bowdoin College, Brunswick, Maine.

BIG BROTHER, BIG SISTER PROJECT

UB students are "big brothers" and "big sisters" to elementary school students. This one-to-one relationship project includes weekly on-campus activities for participants.—Temple Buell College, Denver, Colo. (See "UB Students 'Adopt' Grade School Youngsters" in the January 1969 Idea Exchange.)

ENTERTAINMENT FOR YOUNGSTERS

Twice a week, Head Start and other disadvantaged children are bussed to the campus where they are entertained by UB students. Sports, music, and UB-produced plays have been among activities offered.—State University of New York, Binghamton.

COMMUNITY TUTORS

Community has aided the project all year in tutoring. Summer evening tutors have been college and high school students and adults recruited through service clubs and schools. On-campus and Harlem-based academic year tutoring has involved parents and Public Advisory Committee members.—Hofstra University, Hempstead, N.Y. (See "Hofstra Tutorial Program Involves Local Community" in the January 1969 Idea Exchange.)

TAPES FOR THE BLIND

In cooperation with the State school for the deaf and blind, UB students make tape recordings for blind students. Upward Bounders read and edit their own tapes.—Idaho State University, Pocatello.
Reading specialists and other educators conduct seminar sessions to assist UB students who work with underachieving elementary school students as volunteer tutors.—Sarah Lawrence College, Bronxville, N.Y.

UB students serve as volunteer assistants to VISTA workers. They also tutor elementary school students.—College of the Virgin Islands, St. Thomas.

The six Chicago area UB programs have conducted citywide variety shows and have formed a chorus to tour schools and hospitals for Christmas caroling.

A UB chapter of the Student Educational Exchange Roundtable meets weekly with students from nonpoverty backgrounds to discuss the Great Books Series.—Washington University, St. Louis, Mo.

Public Advisory Committee members have provided study places for students whose home environment created difficulties in this regard.—Glassboro State College, New Jersey.

“Need Help? Call Upward Bound” is the head on a classified ad placed by the UB Employment Bureau. The bureau has been successful in meeting part-time job needs of UB students.—Southwestern State College, Weatherford, Okla.
**COLLEGE AID AND PROGRAMS**

**FINANCIAL AID**

**NATIONAL DEFENSE STUDENT LOAN PROGRAM**

Most colleges and universities take part in the National Defense Education Act student loan program. To qualify, the recipient must be a high school graduate who needs financial help for educational expenses. He must be enrolled in college at least half time. Colleges and universities approve and make the loans and are responsible for collections. (Students in proprietary institutions are eligible for NDEA loans from any sums appropriated in excess of $100 million.)

Undergraduates may borrow up to $1,000 a year for 5 years. No principal or interest is paid while the student is in school. Repayment, with 3 percent a year interest begins 9 months after the student graduates or leaves college. Repayment may extend for up to 10 years.

Repayment may be deferred up to three years while the borrower is serving in the Armed Forces or as a volunteer with Peace Corps or VISTA. A borrower who becomes a full-time teacher in a public or nonprofit elementary or secondary school, in an Armed Forces overseas school, or in an accredited institution of higher education may have 50 percent of his loan forgiven at the rate of 10 percent per year. If a borrower teaches in a designated low-income area school or in a recognized school for the handicapped, he may qualify for cancellation of his entire obligation at the rate of 15 percent per year.

**EDUCATIONAL OPPORTUNITY GRANT (EOG) PROGRAM**

The EOG program provides direct, outright grants based on academic or creative promise.

To be eligible the student must be accepted for enrollment on a full-time basis or be currently enrolled and in good standing. Grants are renewable annually for a maximum of 4 years.

The amount of financial assistance a student may receive depends upon his need. Grants now range from $200 to $1,000 a year and must be matched by other institutionally-administered financial aid, such as scholarships, loans, or work-study jobs.

**COLLEGE WORK-STUDY**

This is a program of employment in which the student is compensated for the number of hours he works for the institution or for an eligible off-campus agency.

The work-study program is designed to supplement and combine with other forms of financial assistance, such as loans, grants, or scholarships from the college, to enable the student to meet his educational expenses.
The student may work an average of up to 15 hours a week while attending classes. Permissible hours of work during vacation and other nonenrollment periods are set from time to time by the U.S. Commissioner of Education. A student may work on campus in a library or laboratory, as a research assistant, or maintenance aide. Off-campus employment for a public or private nonprofit agency must either be related to the student’s educational objectives or be in the public interest. The work-study student is paid a basic rate of $1.60 per hour; up to $3.50 is paid for highly specialized work.

Full-time students in colleges and vocational schools who have good academic standing and demonstrated need are eligible. Students in proprietary schools are also eligible if they do not work for the proprietary school. Assignments are made through the institution’s financial aid office.

The programs are administered by the U.S. Office of Education through participating institutions of higher education. Information and applications are available through the institution’s financial aid office. Specific eligibility criteria and amounts are determined by the institution.

The Office of Education also sponsors the Guaranteed Loan Program, which allows students to borrow directly from savings and loan associations, credit unions, banks, and other lenders. In most states the maximum loan is $1,500 per year. Repayment begins 9 to 12 months after a student leaves school, and the Federal Government pays interest until that time for students with adjusted family incomes under $15,000. This program also offers deferment of repayment while the borrower is in the military, Peace Corps, VISTA, or graduate school. This program is now open to vocational school students. Loan arrangements are made directly between borrower and lender. Application information is available from banks, schools, and the agencies listed below:

### TYPICAL COLLEGE COSTS

#### Expenses — One Year

**TATE COLLEGE:**

- **Tuition & Fees:** $350.00
- **Room and board:** $600.00
- **Books and supplies:** $100.00
- **Personal expenses:** $400.00
- **Transportation:** $150.00
- **Total:** $1,600

**PRIVATE, LIBERAL ARTS COLLEGE:**

- **Tuition and fees:** $1400.00
- **Room and board:** $850.00
- **Books and supplies:** $160.00
- **Personal expenses:** $400.00
- **Transportation:** $200.00
- **Total:** $3,000

**STATE UNIVERSITY:**

- **Tuition and fees:** $400.00
- **Room and board:** $750.00
- **Books and supplies:** $150.00
- **Personal expenses:** $400.00
- **Transportation:** $200.00
- **Total:** $1,900

**PRIVATE, URBAN UNIVERSITY:**

- **Tuition and fees:** $1400.00
- **Maintenance at home:** $500.00
- **Books and supplies:** $400.00
- **Transportation:** $150.00
- **Total:** $2,600

**COMMUNITY COLLEGE:**

- **Tuition and fees:** $0.00
- **Maintenance at home:** $500.00
- **Books and supplies:** $50.00
- **Personal expenses:** $400.00
- **Transportation:** $150.00
- **Total:** $1,100*

#### Sources of Support — One Year

**TATE COLLEGE:**

- **Parents:** $0.00
- **Student assets:** $0.00
- **EOG award:** $700.00
- **Institution grant:** $300.00
- **Loan or private award:** $300.00
- **College Work—Study:** $300.00

**PRIVATE, LIBERAL ARTS COLLEGE:**

- **Parents:** $25.00
- **Student assets:** $60.00
- **EOG award:** $800.00
- **Institution grant:** $1200.00
- **College Work—Study:** $200.00
- **Loan or private award:** $300.00
- **Other grant:** $425.00

**STATE UNIVERSITY:**

- **Parents:** $25.00
- **Student assets:** $25.00
- **EOG award:** $800.00
- **Institution grant:** $350.00
- **College Work—Study:** $200.00
- **Other grant:** $200.00

**PRIVATE, URBAN UNIVERSITY:**

- **Parents:** $25.00
- **Student assets:** $25.00
- **EOG award:** $800.00
- **Institution grant:** $1000.00
- **Loan or private award:** $300.00
- **College Work—Study:** $200.00
- **Other grant:** $260.00

**COMMUNITY COLLEGE:**

- **Parents:** $0.00
- **Student assets:** $0.00
- **EOG award:** $400.00
- **Loan or private award:** $400.00
- **College Work—Study:** $300.00

---

*Above chart assumes no tuition in the community college. This is true in only some of the States; in those with tuition charges about $260 should be added.
**Student Financial Aids**

**Numbers of Awards**

- Guaranteed Student Loans*
- College Work-Study Program
- Educational Opportunity Grants
- National Defense Student Loans

**Funds Received by Students**

- Federal Funds
- Student Borrowed

**Fiscal Year**

- 1964
- 1968
- 1971 (Potential)

*Loans made by vocational and college students*

| ADVISORY COMMITTEE AIDS PROJECT | The community advisory committee initiated and conducted a fundraising drive with local merchants. — Purdue University, Calumet Campus Hammond, Ind. |
| PAC AND PARENTS START SCHOLARSHIP DRIVE | A scholarship fundraising drive aimed at the private sector of the community was initiated by UB parents and public advisory board members. — Queens College, Flushing, N.Y. |
| $12,000 RAISED | A project-organized scholarship fund drive raised $12,000 to provide supplemental financial assistance to college bound UB graduates. — Savannah State College, Ga. |
| FACULTY FUNDS SCHOLARSHIPS, TUTORING | A group of 22 faculty members, including the college president, five deans, and several department chairmen, have pledged 1 percent of their annual salary to provide tuition scholarships and tutorial services to UB college freshmen. — Western Washington State College, Bellingham. |
| STUDENT/FACULTY FUND DRIVE | Students voted to increase their fees by 5 percent to establish a scholarship fund for UB students attending the university. Last year $12,372 was raised, including faculty contributions. — Wittenberg University, Springfield, Ohio. |
| FOUNDATIONS, PARENTS HELP | A private organization of small family foundations helps area UB students by providing supplementary financial assistance for college. Funds cover costs not usually met by financial aid packages. Also, a parent-initiated fund drive covers transportation costs for students attending college outside the immediate area. — University of Maryland, College Park. |
FRESHMAN SUPPORT

PRIVATELY FUNDED PROGRAM FOR URBAN STUDENTS

The more than 100 participants in the freshman support program averaged B-minus (2.69) at the end of their first semester. Of these, 78 were Martin Luther King program participants and 30 UB graduates who ranked above the campus average—even though by normal admissions criteria most would not have been admitted.

Funded by private contributions, the $35,000 support program began in fall 1968 to serve the special needs of urban black students. The special assistance offered them includes course planning and counseling, academic and social tutorial assistance, group meetings, and a study center which provides social and academic support. Special classes in reading and study techniques are offered.

Students carry 12 credit hours per semester. Many are active in extracurricular activities and in a tutoring project for young children in the community. The university hopes to obtain funds to expand the program.—Western Michigan University, Kalamazoo.

UNIVERSITY-FUNDED TRANSITIONAL YEAR PROGRAM

One of 11 urban problem solving projects on University of Missouri campuses is the 65-student transitional year program at Kansas City. The program is directed by the UB Project Director and is funded for $112,891 by the university. An outgrowth of the university’s experience with Upward Bound, the program offers: assistance with class scheduling, special developmental courses in basic skills, individual professional counseling, and tutoring by faculty members and undergraduates.—University of Missouri at Kansas City.

COUNSELING/TUTORING ASSISTANCE PROGRAM

Special counseling services are offered by the university counseling department and, informally, by academic advisers. Faculty volunteers and paid undergraduates provide tutorial assistance. State funds supplement Federal financial aid sources. Another larger project is open to all State residents.—University of Illinois, Urbana.

PROGRAM INDEPENDENT OF UB

The freshman support program operates independently of Upward Bound. It features full financial aid packages, altered course sequences in some disciplines, tutorial assistance by college undergraduates and faculty members, and a full counseling program.

Full tuition scholarships and tutorial services in the program are supported by a fund instituted by 22 faculty members who assess themselves 1 percent of their annual salary.—Western Washington State College, Bellingham.

PROGRAM AFFILIATED WITH UB

The Special Opportunity Scholarship program is directly affiliated with the university’s Upward Bound project and makes full use of UB’s counseling...
STATEWIDE PROGRAM

The SEEK project operates on State University of New York campuses at Binghamton, Plattsburgh, and Stony Brook and has opened admissions to these schools to students previously considered ineligible. The program is supported by the State and includes intensive counseling and guidance, tutoring, smaller classes, and stipends based on need.

STATE ADMISSIONS CLEARINGHOUSE

CONNTAC is an admissions clearinghouse operated by the State of Connecticut to assist disadvantaged students seeking admission to colleges in that State. Assistance with applications is offered.

OMBUDSMAN APPROACH

Assistance to freshmen Upward Bounders at the university is handled in ombudsman fashion by the Upward Bound Project Director who helps students plan their course schedules, obtain needed counseling and guidance services, and sees that tutorial assistance is available.—Case Western Reserve University, Cleveland, Ohio.

ROCKEFELLER FUNDS HELP SUPPORT SPECIAL PROGRAM

Last fall 25 Upward Bound graduates entered a support program that includes a maximum of 12 credit hours per semester and a tutoring component manned by university underclassmen. A university contribution of $21,450 plus EOG, Work-Study, and NDEA loan funds were added to a $24,900 Rockefeller Foundation grant to meet the $3,104 cost per student.—University of Miami, Florida. (See "Miami Students Initiate Unique Support Program" in the July 1968 Idea Exchange.)

PROVISIONAL YEAR PROGRAM MODIFIED TO MEET UB STUDENT NEEDS

A special college program for Upward Bound graduates similar to the university’s regular provisional year program, was devised last year. The Upward Bound version includes expansion of the program to a full calendar year, beginning the program in the summer, making use of the “cluster” plan, and a reduced college load.—University of Northern Iowa, Cedar Falls. (See “A Provisional Freshman Year” in the March 1968 Idea Exchange.)

TRANSITIONAL SEMESTER AND FRESHMAN SUPPORT PROGRAM

A project which operates a “transitional year” type program during the first semester and a freshman support program during the second has these features: First semester includes three special classes—(1) English as a second language (phonetics), taught by speech and drama department and English literature faculty members; (2) a mathematics course based on a system of teaching by gradual progression; (3) the Phoenix course, which uses reading machines to present materials in literature and the social sciences prior to open discussion of topics of contemporary concern. Community leaders participate in class discussions.
In the second semester, students enroll in regular college classes and in one special project course in the humanities. They continue to receive special assistance from paid undergraduate student tutors.—Louisiana State University at New Orleans.

PROJECT CHANCE, A FRESHMAN SUPPORT PROGRAM

Project Chance at New Jersey’s Trenton State College features a 14 credit hour maximum course load and includes special courses in English and mathematics. Admission to the program is granted on the recommendation of the Upward Bound Project Director. State colleges at Glassboro and Montclair conduct similar programs.

SPECIALY DESIGNED COURSES OFFERED

The Temple Opportunity Program enrolls about 250 students, many with an Upward Bound background, in a compensatory freshman support program which includes specially designed courses. The assistant dean of men, former director of the UB program, is TOP director.—Temple University, Philadelphia.

FACULTY TUTORIAL AND COUNSELING HELP

Volunteer tutorial and counseling services by college faculty members are available to Upward Bound graduates enrolled at freshmen.—Southern Colorado State College, Pueblo.

ALTERED SEQUENCE FOR ENGLISH

An altered sequence which permits students to take one term of English each year for 3 years, rather than having to meet this requirement during the freshman year, is offered.—University of Oregon, Eugene.

ONE-TO-ONE TUTORING

Student assistance for UB college freshmen involves assignment of one qualified tutor to each student. Assistance from a national honor fraternity in providing competent people to conduct this intensive tutoring program has aided the college in meeting student need on a regular, one-to-one basis.—Gannon College, Erie, Pa.

The following colleges and universities have reported active recruitment of students from low-income or minority group backgrounds and offer special supportive services such as tutoring and counseling:

TRANSFER LEGISLATION

Public Law 90–575
90th Congress, S. 3769
October 16, 1968

An Act

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act, with the following table of contents, may be cited as the “Higher Education Amendments of 1968”.

TITLE 1–STUDENT ASSISTANCE

PART A–AMENDMENTS TO EDUCATIONAL OPPORTUNITY GRANT PROGRAM

EXTENSION OF EDUCATIONAL OPPORTUNITY GRANT PROGRAM

CONSOLIDATION AND REVISION OF TALENT SEARCH AND UPWARD BOUND PROGRAMS; SPECIAL SERVICES TO DISADVANTAGED STUDENTS IN INSTITUTIONS OF HIGHER EDUCATION

20 USC 1068.

Sec. 105. (a) Section 408 of the Higher Education Act of 1965 is amended to read as follows:

"IDENTIFYING QUALIFIED LOW-INCOME STUDENTS; PREPARING THEM FOR POST SECONDARY EDUCATION; SPECIAL SERVICES FOR SUCH STUDENTS IN INSTITUTIONS OF HIGHER EDUCATION"

"Sec. 408 (a) To assist in achieving the objectives of this part the Commissioner is authorized (without regard to section 3709 of the Revised Statutes (41 U.S.C. 5))--

"(1) to make grants to, or contracts with, institutions of higher education and combinations of institutions of higher education for planning, developing, or carrying out one or more of the programs described in subsection (b),

"(2) to make grants to, or contracts with, public and private nonprofit agencies and organizations (including professional and scholarly associations) and to make contracts with public and private agencies and organizations for planning, developing, or carrying out Talent Search programs described in subsection (b) (1), and

"(3) in exceptional cases, to make grants to, or contracts with, secondary schools, and postsecondary educational institutions accredited by a State, for planning, developing, or carrying out Upward Bound programs described in subsection (b) (2)."
No grant or contract for planning, developing, or carrying out a Talent Search program described in subsection (b)(1) may exceed $100,000 per year.

(b) The programs referred to in subsection (a) are—

"(1) programs, to be known as 'Talent Search', designed to—

"(A) identify qualified youths of financial or cultural need with an exceptional potential for postsecondary educational training and encourage them to complete secondary school and undertake postsecondary educational training;

"(B) publicize existing forms of student financial aid, including aid furnished under this title, and

"(C) encourage secondary school or college dropouts of demonstrated aptitude to reenter educational programs, including postsecondary school programs;

"(2) programs, to be known as 'Upward Bound', (A) which are designed to generate skills and motivation necessary for success in education beyond high school and (B) in which enrollees from low-income backgrounds and with inadequate secondary-school preparation participate on a substantially full-time basis during all or part of the program; or

"(3) programs, to be known as 'Special Services for Disadvantaged Students', of remedial and other special services for students with academic potential (A) who are enrolled or accepted for enrollment at the institution which is the beneficiary of the grant or contract, and (B) who, by reason of deprived educational, cultural, or economic background, or physical handicap, are in need of such services to assist them to initiate, continue, or resume their postsecondary education.

(c) (1) Upward Bound programs under paragraph (2) of subsection (b) must include arrangements to assure cooperation among one or more institutions of higher education and one or more secondary schools. Such programs must include necessary health services. Enrollees in such programs may not receive stipends in excess of $30 per month. The cost of carrying out any such program may not exceed $150 per enrollee per month. Federal financial assistance by way of grant or contract for such a program may not be in excess of 80 per centum of the cost of carrying out such program. Such programs shall be carried on within the States.

"(2) Special Services for Disadvantaged Students programs carried on under paragraph (3) of subsection (b) may provide, among other things, for—

"(A) counseling, tutorial, or other educational services, including special summer programs, to remedy such students' academic deficiencies,

"(B) career guidance, placement, or other student personnel services to encourage or facilitate such students' continuance or reentrance in higher education programs, or

"(C) identification, encouragement, and counseling of any such students with a view to their undertaking a program of graduate or professional education.

"(d) There are authorized to be appropriated to carry out this section $10,000,000 in the fiscal year ending June 30, 1969 (of which $500,000 shall be available in connection with planning and related activities for Upward Bound programs described in subsection (b)(2)), $56,680,000 for the fiscal year ending June 30, 1970, and $96,600,000 for the fiscal year ending June 30, 1971."

(b) Effective July 1, 1969, section 222(a) of the Economic Opportunity Act of 1964 is amended by striking out paragraph (5) and by redesignating paragraphs (6), (7), and (8) and references thereto as paragraphs (5), (6), and (7).

(c) (1) On July 1, 1969, all functions, powers, and duties of the Director of the Office of Economic Opportunity with respect to Upward Bound programs, are transferred to the Commissioner of Education. No provision of law which limits the number of persons who may be appointed as full-time civilian employees, or temporary and part-time employees, in the executive branch of the Government shall apply to employees of the Office of Education whose duties the Director of the Bureau of the Budget determines primarily relate (A) to
programs carried out under section 408 (b) (2) of the Higher Education Act of 1965, or (B) to functions transferred by this paragraph. In applying any such provision of law to the departments and agencies in the executive branch, the number of such employees of the Office of Education shall not be taken into account.

(2) For purposes of this subsection the term "Upward Bound program" means a program carried out under section 222 (a) (5) of the Economic Opportunity Act of 1964 (as so designated prior to the amendment made by subsection (b) of this section) or a comparable program carried out under section 221 of such Act.

<tr>
<td>1967 through spring of sophomore year</td>
<td>37.2%</td>
</tr>
</tbody>
</table>

III. How are UPWARD BOUND graduates supported once they enter college?

A recent study by the Financial Aid Services Division of the American College Testing Service found that the average cost of keeping an UPWARD BOUND student in colleges of the types attended by the 1968 class is $2,065 for 9 months. Most of this amount comes from the following sources, usually about half from Federal funds. About $250 usually remains to be raised by the student himself.

<table>
<thead>
<tr>

78
IV. Do colleges and universities support UPWARD BOUND?

Yes, approximately 300 colleges and universities are sponsoring UPWARD BOUND programs in June 1969. More than 155 others applied for programs in that fiscal cycle and were rejected because of lack of money.

According to the most recent data a total of 791 4-year colleges and universities and 297 2-year colleges admitted UPWARD BOUND students as college freshmen in September 1969. These figures indicate that academic institutions of higher learning throughout the country have been willing to admit and assist a population heretofore not served.

V. How many youngsters are there in the country who qualify for UPWARD BOUND?

The best estimate is 600,000. This number includes youngsters from the inner city, the reservation, the migrant camp, mountain youngsters of Appalachia, and farm youngsters of the rural South and Southwest.

VI. What kind of youngster is in UPWARD BOUND?

An UPWARD BOUND student is a youngster from a poverty family who might do well in college or other postsecondary education if given a pervasive program of academic remediation and enrichment. Typically, UPWARD BOUND youngsters are underachievers in high school but the kind of youngsters who can be motivated to achieve when the right kind of experiences and opportunities are made available to them.

BIBLIOGRAPHY

MATERIAL FROM UPWARD BOUND PROJECTS

"The Upbeats," a four-song album by an Upward Bound student singing group. Contact: Jack Webb, Associate Project Director, Upward Bound, Morehead State University, Morehead, Ky. 40351. $1 (Profits to UB Scholarship fund.)

Copies of this booklet, written for UB students by UB staffs, were distributed to projects in the summer of 1968.

Can I?, by Upward Bound, Bowdoin College, Brunswick, Maine 04011.

Written by and for UB students, the booklet describes financial aid sources, college requirements, college testing. This project has also produced a post high school plan booklet containing a checklist for juniors and seniors on tests and applications.

“We're Upward Bound,” by Bobbie Johnson. An original musical composition by a UB student. Contact: Don N. Jensen, Project Director, Upward Bound, Weber State College, Ogden, Utah 94403.

A Tutor-Counselor Training Session Booklet, by Betty Jo Tucker, Project Director, Upward Bound, Southern Colorado State College, 900 W. Orman Avenue, Pueblo, Colo. 81005.

Selected exercises and materials used in TC training sessions.

For information on the following Upward Bound materials contact the Division of Student Special Services, Bureau of Higher Education, U.S. Office of Education, Washington, D.C. 20202:

Upward Bound Annual Report to OEO. May 1969.
Upward Bound - a general interest brochure
Out of a bleak background comes learning and a future... (selected press clippings)
One of the best things that ever happened to me... (selected press clippings)
If school were only like this (press clippings)

The following materials on Upward Bound are available from the sources named:
**Higher Education: Programs and Financial Aid Sources**

  - Describes sources of financial aid, application procedures, list of colleges and universities participating in Federal financial aid programs.

  - Brochure updates descriptions of EOG, NDSL, and CWSP programs. Contains information for vocational students; lists state agencies administering the Guaranteed Loan Program.

- *How To Get Money For College*, by Benjamin Fine, Ph.D., Education Editor, North American Newspaper Alliance, 376 Brower Avenue, Rockville Center, N.Y. 11570. A series of 10 8-page brochures--25¢ each, five for $1, or 10 for $2.

  1. College Help for Veterans and Children of Veterans
  2. Where to Get Federal, State & Private Loans
  3. Major Scholarship Sources
  4. High School and College Degrees Through Correspondence
  5. Scholarships Available Through Business and Industry
  6. The National Merit Scholarship Program
  7. College Scholarships & Fellowships
  8. Scholarships, Fellowships & Loans for Nurses and Medical Students
  9. Fellowships, Grants & Loans for Graduate and Professional Students
  10. Federal Scholarships, Fellowships & Loans

  - Analysis and report on a survey of colleges and universities all over the country. Describes special programs in operation at public and private institutions. (See review in the May 1969 Issue Exchange.)

Describes pre-college programs, private and government sources of assistance in admissions, admissions procedures, financial aid, career information. Bibliography lists 16 free or inexpensive books and pamphlets. Over 100 colleges and universities interested in low-income minority applicants are listed.

College Opportunities for Southern Negro Students, University of North Carolina Scholarship Information Center, YMCA-YWCA Human Relations Committees, Chapel Hill, N.C., 27514. 50 cents, free to students.

Describes over 300 national and regional scholarships, fellowships, loan programs; information on entrance exams, applications, admissions centers, career and summer job opportunities. Includes bibliography.

The Disadvantaged Student: Special Collegiate Programs - Admissions - Financial Aid - Instruction. Middle States Association of Colleges and Secondary Schools, Inc., 226 Broadway, Room 4003-B, New York, N.Y. 10007. $3.25.

Contains information on policies, programs in operation at 157 institutions in Delaware, District of Columbia, Maryland, New Jersey, New York, Pennsylvania, and Puerto Rico.

Need A Lift? American Legion Education and Scholarship Program, Dept. S, Box 1066, Indianapolis, Ind. 46206. 25 cents.

Lists and describes hundreds of local, State, and national programs, scholarships, and financial aid sources.

Invest Yourself, Commission on Youth Service Projects, 475 Riverside Drive, Room 832, New York, N.Y. 10027. 50 cents.

Detailed description of summer service opportunities. (See "Involvement and Action: A Catalog of Opportunities" in the March '68 Idea Exchange.)

PERIODICALS

Educators Guide to Media and Methods, nine issues per year, 134 N. 13th St., Philadelphia, Pa., 19107. $5. (Reviewed in May '68 Idea Exchange.)

Southern Education Report, 10 issues per year, Southern Education Reporting Service, 1109 19th Ave. S. Nashville, Tenn. 37212. $3.
This Magazine is About Schools, quarterly, PO Box 876, Terminal 'A', Toronto 1, Ontario, Canada. $3.50.

College Board Review, quarterly, College Entrance Examination Board, Publications Order Office, Box 592, Princeton, N.J. 08540. $2.

ACAC Journal, quarterly, National Association of College Admissions Counselors, 801 Davis St., Evanston, Ill. 60201. $8.

GOVERNMENT PUBLICATIONS

The publications listed here are available from the Superintendent of Documents, Washington, D.C. 20402. Publication numbers should be sent with requests.

American Education, published 10 times per year by the Office of Education. $7.00 per year.

The following may be obtained free from the Public Affairs Office of the Office of Economic Opportunity, Washington, D.C. 20508:
OEO: A News Summary of the War on Poverty, published weekly.
Catalog of Federal Domestic Programs, revised, expanded edition of the earlier Catalog of Federal Assistance Programs. 1969.
### Academic Year
