This is a bibliographical compilation of much of the literature pertinent to the current drug emphasis which has appeared since c. 1960. It is divided into two general sections: (1) books and pamphlets; and (2) articles. In all, there are 13 books and pamphlets on LSD, three on marihuana, and 52 of a more general nature. Articles are more numerous, and included approximately 300 entries, rather evenly divided among the same categories.
THE LITERATURE ON DRUG ABUSE
