FOREWORD

The guidelines contained in the Tentative Administrator's Guide, Programs for Exceptional Children, have been developed in an attempt to help school districts initiate needed new programs or those continuing special classes. This guide will provide direction and facilitate unity in the state-wide planning of educational programs for all children with special needs.

More and better special education is one of the most critical needs in our educational system today. The Division of Special Education has prepared this Tentative Administrator's Guide to provide assistance and procedures for establishing and maintaining programs for exceptional children.

This present bulletin, Tentative Administrator's Guide, Programs for Exceptional Children, 1970-71, has been prepared to include the information for local school administrators relative to policies for the initiation, organization, and operation of special education programs in Arizona. (Arizona Revised Statutes, Title 15, Chapter 10, Sections 15-1011 through 15-1017 and 15-1246 and 1247)

OUR THANKS!

The Division of Special Education is grateful for the assistance and cooperation in the preparation and critical review of this publication by the Special Education Advisory Committee, Guidelines Committee, superintendents, and specialists in special education.

The Special Education Advisory Committee has provided tremendous aid and will continue to assist in maintaining the high standards desired for special education services in Arizona.

A special note of thanks must go to the Guidelines Committee for the many hours of time volunteered to assist the Division of Special Education in preparing the Tentative Administrator's Guide, Programs for Exceptional Children. Without their dedication to special education, this publication would not have been possible.

PHILOSOPHY OF THE PROGRAM FOR EXCEPTIONAL CHILDREN

A democracy is committed to the principle of equal educational opportunity for all, regardless of race, creed, or abilities. Every child is deserving of and entitled to an education to the limit of his capacity. Education is a task of helping children achieve full growth and development, helping them become happy, successful, and contributing citizens.

Schools have problems of developing and conducting programs of education for all pupils and the specific problems of providing opportunities, adjustments, and adaptations to meet individual needs. Students must be prepared to meet their obligations and make their contributions to society and be given an opportunity to develop fully their potentials as individuals.

While it is recognized and accepted that some children require residential placement, we believe that the vast majority of exceptional students should remain at home and receive their education in a public school setting. We further believe that optimum educational opportunities require multi-agency cooperation and coordination.

The staff of the Division of Special Education realizes its responsibilities to the exceptional children of Arizona and to the educators who must administer these special educational programs. It shall be our purpose to provide leadership in planning, implementation, financial assistance, and to maintain a program of continuous research and evaluation in order that the handicapped children of our state realize their maximum potential.

ARIZONA'S PROGRAMS FOR EXCEPTIONAL CHILDREN

Powers of School District

The governing body of a school district or a County School Superintendent may apply to the Division of Special Education for approval to:

1. Establish special education program(s) for the education of handicapped children as defined in ARS 15-1011.

2. Employ certified special personnel for the operation of special school programs for handicapped children.

3. Establish with another district or districts, cooperative special education programs. A written agreement outlining the proposed provision of services for handicapped children shall be submitted for approval to the Division of Special Education prior to the establishment of classes. This agreement shall designate one school district to administer the program in accordance with the contract. Said contract may prescribe and enforce rules, regulations and policies governing the program.

4. Establish work-experience programs in accordance with rules and regulations of the Division of Special Education. The work-experience programs shall consist of classroom instruction, evaluation, training, and part-time employment. The evaluation, training, and part-time employment may take place on or off the school campus, in or out of the school district, but must be under supervision of certified school personnel. Students enrolled in the work-experience program shall be at least sixteen years of age. Time in a work-experience program shall be counted as attendance at school to qualify for appropriations provided by ARS 15-1017. All work-experience programs must have the approval of the Division of Special Education.

In a school district that does not provide a special program, the governing body may petition the County School Superintendent, who may, upon approval of the Division of Special Education, establish special education programs.

Definitions

The following are general definitions of terms used in Title Fifteen, Chapter Ten, of Arizona Revised Statutes and Arizona's Programs for Exceptional Children:

1. **Exceptional Child** means a handicapped child.
2. **Handicapped Child** means a child of lawful school age who due to physical, mental or emotional characteristics or a combination thereof is not afforded the opportunity for all-around adjustment and progress in regular classroom instruction and who needs special instruction, special ancillary services, or both to achieve at levels commensurate with his abilities.

3. **Educable mentally handicapped** (EMH) means a child who because of his intellectual development, as determined by evaluation pursuant to section 15-1013, is incapable of being educated effectively through regular classroom instruction, but who is capable of achieving a degree of proficiency in basic academic skills and as a result of special education may become economically productive and socially adjusted.

4. **Emotionally handicapped** (EH) means a child who because of social or emotional problems, as determined by evaluation pursuant to section 15-1013, is unable or incapable of meeting the demands of regular classroom programs in the public schools and requires special classes or special services designed to promote his educational and emotional growth and development.

5. **Homebound or hospitalized** (HB) means a child who is capable of profiting from academic instruction but is unable to attend school due to illness, disease, accident, pregnancy, or handicapping conditions, who has been examined by a competent medical doctor and is certified by that doctor as being unable to attend regular classes for a period of not less than three school months.

6. **Multiple handicapped** (MH) means a child who has serious learning and developmental problems resulting from multiple handicapping conditions as determined by evaluation pursuant to section 15-1013, and who cannot be provided for adequately in a regular class.

7. **Physically handicapped** (PH) means a child who has a physical handicap or disability, as determined by evaluation pursuant to section 15-1013, which impedes his educational progress in the regular classroom situation and whose intellectual development is such that he is capable of being educated through a modified instructional environment.

8. **Trainable mentally handicapped** (TMH) means a child who because of his intellectual development, as determined by evaluation pursuant to section 15-1013, is incapable of being educated in regular classroom instruction or educable mentally handicapped classes and who meets the following criteria:
a. Is physically capable of attending school and benefitting from the school experience.

b. Is able to communicate to the extent that he can make his wants known and can understand simple directions.

9. Special education means the adjustment of the environmental factors, modification of school curricula and adaptation of teaching methods, materials, and techniques to provide educationally for those children who are handicapped to such an extent that they do not profit from the regular school curricula or need special education services in order to profit. Difficulty in writing, speaking or understanding the English language due to an environmental background wherein a language other than English is spoken primarily or exclusively shall not be considered a sufficient handicap to require special education.

Visual handicapped and hard of hearing programs are administered and supervised by the Arizona School for the Deaf and Blind located in Tucson, Arizona. Any questions should be addressed to the Superintendent of the school.

Speech handicapped, specific learning disabilities, and gifted programs are not reimbursed by the Division of Special Education on a State level. Each program is strictly the option of individual school districts.

Screening and Referral

A method should be devised which will annually screen potential candidates for special education programs. A team approach is suggested with each team learning as much as possible about the potential candidate and/or his family. A team, consisting of at least three members, should have a representative from as many professions as possible and may include:

1. An Administrator
2. Special Education Personnel
3. Counseling Personnel
4. Psychological Personnel
5. School Nursing Personnel
7. Other Appropriate Personnel

A thorough case study should be completed on each candidate for special education programs. This case study may be utilized in the referral for evaluation. A referral for evaluation is required by ARS 15-1013 and attention is called to the following quotation from the law:
"A. The referral of a child for evaluation for possible placement in a special education program shall be made under the direction of the Chief Administrative Official of the school district or county or such person designated by him as responsible for special education, after consultation with the parent or guardian."

**Evaluation**

An evaluation is required before any candidate may be placed in a special education program. This evaluation shall be of the capabilities and limitations of the candidate. The evaluation shall be made by at least one professional specialist in a field relevant to the candidate's handicap. The educational implications of the handicapping condition(s) should be evaluated by a school psychologist whose qualifications have been approved by the State Board of Education. Refer to each category for specific requirements regarding evaluation.

The results of the evaluation shall be submitted in writing to the Chief Administrative Official of the school district or county, or to such person designated by him as responsible for special education. The written report of educational appraisal shall include:

1. An assessment of abilities and disabilities.
2. Instructional and behavioral recommendations for placement.

An evaluation is required by ARS 15-1013 and attention is called to the following quotation from the law:

"B. Before a child is placed in a special education program an evaluation shall be made of the capabilities and limitations of the child. The evaluation shall be made by at least one professional specialist in a field relevant to the child's handicap and under the direction of the Chief Administrative Official of the school district or county or such person designated by him as responsible for special education. If appropriate, the educational implications of the handicapping conditions shall be evaluated by a psychologist.

C. The results of the evaluation shall be submitted in writing and with recommendations to the Chief Administrative Official of the school district or county or to such person designated by him as responsible for special education."
Placement

Placement of a candidate in a special education program shall not be considered until the screening, referral and evaluation procedures have been completed. A placement procedure is required by ARS 15-1013 and attention is called to the following quotation from the law:

"D. In determining placement the following persons shall be consulted by the Chief Administrative Official of the school district or county or such person designated by him as responsible for special education:
1. The school principal.
2. A person responsible for administering or conducting special education courses in the school or school district.
3. A teacher who currently has been instructing the child.
4. An appropriate professional advisor who may be a physician, psychologist, professional social worker or school nurse.
5. A parent or guardian of the child.

E. The Chief Administrative Official of the school district or county or such person designated by him as responsible for special education shall place the child, except that no child shall be placed or retained in a special education program without the approval of his parent or guardian."

Review of Special Education Placement

The placement of a child in a special education program shall be reviewed by the Chief Administrative Official of the school district or county or such person as designated by him as responsible for special education once each semester, if requested by the parent or guardian of the child or by the person conducting the special education program. A copy of the results of the review shall be furnished to the person making such request or recommendation for review. A review of special education placement is required by ARS 15-1014 and attention is called to the following quotation from the law:

"15-1014. Review of special education placement. The placement of a child in a special education program shall be reviewed by the Chief Administrative Official of the school district or county or such person as designated by him as responsible for special education once each semester, if requested by the parent or guardian of the child or recommended by the person conducting the special education program."
education program. A copy of the results of the review shall be submitted to the person making such request or recommendation for review."

Documentation

The Chief Administrative Official of the school district or county or such person as designated by him as responsible for special education shall prepare documents indicating that the requirements of ARS 15-1013 (evaluation and placement) and ARS 15-1014 (review of placement) have been met. These documents shall be signed by all concerned. Your attention is called to the person listed in ARS 15-1013. These documents shall include the written approval of the parent or guardian for placement in special education. This document shall be retained in the office of the Chief Administrative Official of the school district or county or in the office of a person designated as responsible for special education. A copy of the document concerning review of placement (results of review) shall be submitted to the person making such request or recommendation for review.

Maximum Membership in Programs

Maximum enrollment (membership) in special education programs shall be as follows:

- Emotionally Handicapped - 10 per teacher
- Educable Mentally Handicapped - 15 per teacher
- Trainable Mentally Handicapped - 10 per teacher
- Physically Handicapped - 10 per teacher
- Homebound/Hospitalized
  1. In home or hospital - 7 per teacher
  2. Classes for pregnant girls - 15 per teacher
- Resource Rooms and/or Itinerant Teacher - 15 per teacher
- Multiple Handicapped - Children ages 6-10 - 5 per teacher, ages 11-above - 7 per teacher

The maximum membership limit as stated above applies to both elementary and secondary special education classes and programs. Functionally, this means that a professional person assigned to teach and/or supervise special education classes or programs shall not work with more than the prescribed maximum student membership for a particular category of handicap.

Your attention is called to ARS 15-1017 which is quoted in part below:

"B. The appropriation and apportionment shall be computed with reference to the estimated number of special education students to be taught during the current year in classes and programs having a minimum of two
hundred forty minutes of instruction or work experience as provided for in section 15-1015, subsection A per school day.

The legislative intent of Title 15, Chapter Ten, ARS, was that the instruction provided for handicapped children in special education classes and programs would be under the direction of professional personnel. Specialized training in the education of handicapped children implies that classes and programs shall be limited in membership to afford maximum educational benefit.

Facilities

Classrooms for special education programs shall be equal to, or better than, those used to house regular school programs or in other facilities approved by the Division of Special Education.

Below is a list of facilities that should be available to all classrooms:

1. Proper lighting and ventilation
2. Counter with sink and running water
3. Electrical outlets
4. Cooking facilities
5. A-V equipment
6. Adequate instructional materials and supplies
7. Special equipment as needed (screens, carrels, etc.)
8. Adequate playground facilities
9. Adequate toilet facilities

Work Experience

The work-experience programs shall consist of classroom instruction, evaluation, training, and part-time employment. The evaluation, training, and part-time employment may take place on or off the school campus, in or out of the school district, but must be under supervision of certified school personnel. Students enrolled in the work-experience program shall be at least sixteen years of age.

Teaching and/or supervision by certified school personnel shall be consistent with the special needs of the students, but the number of students assigned to any one certified person shall not exceed the limits established by the Division of Special Education for a particular handicap. (See Maximum Membership in this manual)

Other Special Education Programs

Under the current law it is possible to provide several different types of programs for exceptional children. All plans are subject to review and approval by the Division of Special Education, State Depart-
ment of Education. Any plan must be submitted in writing with sufficient
detail to clearly outline the proposed program. Any child in these
programs must be referred, evaluated and placed in accordance with ARS
15-1011 and 15-1013.

The maximum membership in these programs for reimbursement purposes
would be 15 students per teacher.

A. Cooperative Programs - The child may be enrolled in the special
class but may take part of his academic instruction in the
regular grades.

B. Resource Program - The exceptional child may be enrolled in
a resource room which is his homeroom. He will receive
specialized help either individually or with small groups
of children with similar problems. This child may receive
a major portion of his instruction in the regular classroom.

C. Itinerant Program - Under this program the exceptional child
may receive assistance from an itinerant teacher but attends
the regular classroom for his classwork.

Application for Approval of Special Education Programs

An application for annual approval of all special education programs shall be filed with the Division of Special Education.

Initially an ANNUAL APPLICATION FOR APPROVAL OF SPECIAL EDUCATION PROGRAMS (SE-1) shall be filed on or before August 15, 1970, for the 1970-71 school year. (SE-1 shall be filed by MAY 15, 1971 for the 1971-72 school year.)
After the SE-1 has been approved, PROFESSIONAL PERSONNEL EMPLOYED IN SPECIAL EDUCATION PROGRAMS (SE-2) shall be required at the end of the first register month. SE-2 is also required when any additions or deletions of special education programs/classes are made and at the end of the sixth register month.

REPORT OF STUDENTS RECEIVING SPECIAL EDUCATION WITH TUITION PAID BY SCHOOL DISTRICT OF RESIDENCE (SE-3) shall be filed at the end of the 1st, 4th, 6th, and 10th register months by those school districts contracting with public or private agencies for special education programs.

An APPLICATION FOR HOMEBOUND/HOSPITALIZED INSTRUCTION (SE-4) shall be filed for each student for whom special education reimbursement is claimed. SE-4 must be approved by the Division of Special Education before any appropriation and apportionment is allowed by the Division of Business and Financial Services.

APPLICATION FOR INSTRUCTION IN A PHYSICALLY HANDICAPPED PROGRAM (SE-5) shall be filed with the Division of Special Education for each student enrolled in a program for the Physically Handicapped.

Your attention is called to the fact that the Department of Education shall not make any apportionments of funds pursuant to ARS 15-1017 without the approval of the Division of Special Education. Therefore, it behooves school districts to be certain that the forms submitted are accurate and complete.

Attendance Reporting

Attendance of students in special education programs shall be done in the same manner as attendance reporting of students in regular programs. Registers should be assigned to special education teachers and these registers shall be for a particular category of handicapping condition.

NO STUDENT IN SPECIAL EDUCATION PROGRAMS SHALL BE REPORTED IN MORE THAN ONE REGISTER. NO REGISTER SHALL REPORT MORE THAN ONE CATEGORY OF HANDICAPPED STUDENTS.

You will note that register numbers are required on SE-2, SE-3, SE-4, and SE-5. These will be checked by the Division of Special Education through the DATA PROCESSING SECTION, to ascertain that approval has been made for special education programs.

May we suggest to districts contracting for special education programs with public or private agencies, that a register be assigned to the public or private agency for use with a particular category of handicapping condition.
The Division of Special Education will evaluate attendance reports made to the DATA PROCESSING SECTION to determine if Average Daily Membership in special education programs is within the limits specified in these guidelines.

MULTIPLE HANDICAPPED

Definition

A multiple handicapped child (MH-5) is one of lawful school age who, due to physical, mental, or emotional characteristics or a combination thereof, is not afforded the opportunity for all-around adjustment and progress in regular classroom instruction and who needs special instruction, special ancillary services, or both to achieve at levels commensurate with his abilities.

A multiple handicapped child is one who has serious learning and developmental problems resulting from multiple handicapping conditions as determined by evaluation pursuant to ARS 15-1013, and who cannot be provided for adequately in a regular class.

The two paragraphs above are legal definitions taken from ARS 15-1011. A functional definition is as follows: A multiple handicapped child is any school age child who has a combination (two or more) of the handicaps defined in ARS 15-1013 and who is not able to function successfully in a regular program or in a special education program which compensates for a single handicapping condition.

Screening and Referral

A. Screening

A method should be devised to adequately screen potential candidates for the multiple handicapped program. This screening process may reveal a child that is currently enrolled in a special education program who is not achieving success because of multiple handicapping conditions. A multiple handicapped will usually exhibit a combination of physical, mental and/or emotional characteristics that preclude placement in a regular school program or special education program which compensates for a single handicapping condition.

B. Referral

A referral for evaluation is required by ARS 15-1013 for possible placement in a special education program and this referral shall be made after consultation with the parent or guardian of the child to be evaluated.

Refer to page 3 of this manual for general procedures to be followed in the screening and referral process.

Evaluation

ARS 15-1013 requires that an evaluation shall be made by at least one professional specialist in a field relevant to a child's handicap.
Since the child has multiple handicaps, at least two professional specialists in fields relevant to the child's handicaps shall submit written evaluations with recommendations. The evaluation should include a psychological and medical assessment of the child's handicaps.

Refer to page 4 of this manual for the general procedures to be followed in the evaluation process.

Placement

Placement of a candidate in a multiple handicapped program shall not be considered until the referral and evaluation procedures have been completed.

Refer to page 5 of this manual for the general procedures to be followed in the placement process.

Review of Placement

ARS 15-1014 requires that the placement of a child in a multiple handicapped program shall be reviewed once each semester, if requested by the parent or guardian of the child or recommended by the person conducting the multiple handicapped program.

Refer to page 5 of this manual for the general procedures to be followed in the review of placement process.

Documentation

Documents should be prepared to indicate that the provisions of ARS 15-1013 and ARS 15-1014 have been followed regarding referral, evaluation, placement, and review of placement.

Refer to page 6 of this manual for the general procedures to be followed in the documentation process.

Program Organization

A. Maximum Membership

Maximum Average Daily Membership in a multiple handicapped class shall be (a) ages 6-10, five (5); and (b) ages 11 and up, seven (7). Enrollment of the classes should vary in proportion to the severity of the handicapping conditions.

B. Student Grouping

The needs of a child enrolled in a program for multiple handicapped varies according to the kinds of severity of handicaps involved. The teacher of the multiple handicapped must, of necessity, formulate an educational program for each of his/her students in keeping with the educational appraisal
Factors to be considered in grouping are:

1. Kinds and severity of handicaps.
2. The different types of handicaps in the same group.
3. Teacher experience
4. Availability of classroom assistance and/or professional ancillary services.

Facilities

Classrooms for the multiple handicapped shall be equal to, or better than, those used to house regular education classes or in other facilities approved by the Division of Special Education.

Equipment and facilities shall be in keeping with those stated on page 7 of this manual.

Work Experience

Work Experience Programs shall conform to ARS 15-1015 and the rules and regulations established by the Division of Special Education. The number of students assigned to any one certified person shall not exceed seven (7) in the Work Experience Program.

Refer to page 7 of this manual for the general procedures to be followed in Work Experience Programs.

Certification

All teachers employed for approved classes for the multiple handicapped shall hold special education certificates issued in accordance with the rules and regulations of the State Board of Education.

Refer to page 8 of this manual for certification requirements.

Application for Approval

SE-1 is required as an application for annual approval of programs for the multiple handicapped. SE-1 shall be substantiated by SE-2.

Refer to page 10 of this manual for general procedures to be followed in applying for approval.

Attendance Reporting

Attendance of pupils in classes for the multiple handicapped shall be reported as indicated on page 11 of this manual.
Reimbursement

Reimbursement of programs for the multiple handicapped shall be made in accordance with ARS 15-1017.

Refer to page 12 of this manual for reimbursement procedures.

Handicapped child includes the following:

   (a) "Edicable mentally handicapped" means a child who because of his intellectual development, as determined by evaluation pursuant to section 15-1013, is incapable of being educated effectively through regular classroom instruction, but who is capable of achieving a degree of proficiency in basic academic skills and as a result of special education may become economically productive and socially adjusted.

   (b) "Emotionally handicapped" means a child who because of social or emotional problems, as determined by evaluation pursuant to section 15-1013, is unable or incapable of meeting the demands of regular classroom programs in the public schools and requires special classes or special services designed to promote his educational and emotional growth and development.

(ii) Is able to communicate to the extent that he can make his wants known and can understand simple directions.

3. "Special education" means the adjustment of the environmental factors, modification of school curricula and adaptation of teaching methods, materials, and techniques to provide educationally for those children who are handicapped to such an extent that they do not profit from the regular school curricula or need special education services in order to profit. Difficulty in writing, speaking or understanding the English language due to an environmental background wherein a language other than English is spoken primarily or exclusively shall not be considered a sufficient handicap to require special education.

B. Before a child is placed in a special education program an evaluation shall be made of the capabilities and limitations of the child. The evaluation shall be made by at least one professional specialist in a field relevant to the child's handicap and under the direction of the chief administrative official of the school district or county or such person designated by him as responsible for special education. If appropriate, the educational implications of the handicapping conditions shall be evaluated by a psychologist.

C. The results of the evaluation shall be submitted in writing and with recommendations to the chief administrative official of the school district or county or to such person designated by him as responsible for special education.

D. In determining placement the following persons shall be consulted by the chief administrative official of the school district or county or such person designated by him as responsible for special education:

3. In cooperation with another district or districts, establish special education programs for handicapped children. When two or more governing bodies determine to carry out by joint agreement the duties in regard to the special education programs for handicapped children, the governing bodies may, in accordance with the rules and regulations of the division of special education, establish a written agreement for the provision of services. In such agreements, one governing body shall administer the program in accordance with the contract agreement between the districts. Tuition students may be included in the agreement.

4. Establish work-experience programs in accordance with rules and regulations of the division of special education. The work-experience programs shall consist of classroom instruction, evaluation, training, and part-time employment. The evaluation, training, and part-time employment may take place on or off the school campus, in or out of the school district, but must be under supervision of certified school personnel. Students enrolled in the work-experience program shall be at least sixteen years of age. Time in a work-experience program shall be counted as attendance at school to qualify for appropriations provided by section 15-1017. All work-experience programs must have the approval of the state division of special education.

In a school district that does not provide a special program, the governing body may petition the county school superintendent, who may, upon approval of the division of special education, establish special education or special services in accordance with the rules and regulations of the division of special education.

C. The county school superintendent may, upon approval of the division of special education, establish special education programs in the county accommodation schools under his jurisdiction or may cooperate with other school districts by agreement to provide such services for such special programs in accordance with the rules and regulations of the division of special education. At the beginning of each school year the county school superintendent shall present an estimate of the current year's accommodation school handicapped programs tuition cost to each school district that has signed an agreement to use the services of the accommodation school. The tuition shall be the estimated per capita cost based on the number of pupils that each school district has estimated will enroll in the program and the school district shall pay the tuition quarterly in advance on July 1, October 1, January 1, and April 1. Increases in enrollment during the school year over the school district's estimate of July 1 shall cause the tuition charges to be adjusted accordingly.
In the event of overpayment by the district of residence, the necessary adjustment shall be made at the close of the school year.

D. The special education program under this section shall be conducted only in a school facility which houses regular education classes or in other facilities approved by the state division of special education.

E. The school district or county school superintendent may contract with other approved public or private agencies, within or without the district, for the education of handicapped children in accordance with the rules and regulations prescribed by the division of special education.

F. The total enrollment in all special education programs of a school district or county may be increased annually by not to exceed twenty percent of the total average daily attendance in all special education programs of the school district or county during the previous year. Such limitation shall not apply to a school district or county which has a total average daily attendance in its special education programs of one hundred or less pupils.

G. No child may be counted in the computation of average daily attendance in more than one handicapped category for the purpose of the growth limitation provided in this section.

15-1016. Acceptance of gifts for exceptional children; use; unexpended funds

A. The state board of education may accept gifts or monies from public and private organizations, for the division of special education for exceptional children, provided the purpose of the gift specified by the donor is approved by the board and is within the scope of the board's powers and duties. B. Any such monies received by the state board shall be placed in the special education fund and expended for the purpose specified by the donor.

C. If all or part of the funds accepted by the board from a donor are not expended prior to the end of the fiscal year in which the gift was accepted, such remaining balance of the amount donated shall remain in the special education gift fund until needed for the purpose specified by the donor.

15-1017. Appropriation and apportionment; approval of program

A. All students as defined by section 15-1011 shall be included in the appropriation and apportionment made pursuant to sections 15-1211 and 15-1212 and the county levy as provided in section 15-1235. In addition:
1. The legislature shall appropriate the following amounts per unit of average daily attendance per annum for each special education student taught, the appropriation being made on an actual per capita per annum basis as shown by the records of the superintendent of public instruction:

   (b) Ten dollars per unit of average daily attendance of emotionally handicapped pupils.

   (c) Ten dollars per unit of average daily attendance of homebound pupils.

   (d) Ten dollars per unit of average daily attendance of multiple handicapped pupils.

   (e) Ten dollars per unit of average daily attendance of physically handicapped pupils.

   (f) Ten dollars per unit of average daily attendance of trainable mentally handicapped pupils.

B. The appropriations and apportionment shall be computed with reference to the estimated number of special education students to be taught during the current year in classes and programs having a minimum of two hundred forty minutes of instruction or work experience as provided for in section 15-1015, subsection A per school day, except that a child receiving instruction under the homebound teaching program shall be deemed in full
attendance when he attends classes or receives instruction for a period of not less than four hours per week. Any additional cost resulting from the special education program and not provided for under the provisions of this section shall be met by each school district having students receiving special instruction or by the county in the case of a county special education program.

C. The appropriations and apportionment provided under the terms of this section shall not be granted to the governing body of a school district or county school superintendent unless the district or county complies with the provisions of this article and the conditions and standards prescribed by the director of the division of special education. A school district or county program for education of handicapped children, as prescribed by the terms of this article, shall be presented to the state board of education for approval.

D.
