The objectives, methods, strategies, content, and resources utilized in this high school course are described in this report. A chronological, topical, interdisciplinary approach is taken toward subject matter ranging from African Antecedents, through The Civil War and Reconstruction, to The Black Revolution. In addition to the general aims of social studies education, such as critical thinking, objectivity, and democratic values, this course is intended to provide an understanding and appreciation of the role of black people in American development. Such strategies as discovery learning, problem solving, active student participation in group and individual projects are employed in achieving these objectives. A typical unit lists reference works, text assignments, suggestions for supplemental reading, audiovisual material, outline of content, and questions for discussion which stress inductive methods and encourage the student to relate generalizations to contemporary social phenomena. AFRO-AMERICAN HISTORY AND CULTURE

(A chronological, topical, interdisciplinary approach)

COURSE OBJECTIVES AND METHODS

The aim of any course in the Social Studies is to foster in young people critical thinking, objective values, and the ideals of democracy. The hoped for end result in this course in Afro-American history and culture is no less than that. Moreover, it is hoped that this course will provide an understanding and appreciation of the role of black people in American development.

The general approach toward these ends will be through student discovery of facts, problem solving through directed discussions, active student participation through field trips, group and individual projects, and the acquisition of authorities who will add their knowledge and experience to those of the students. In short, the total involvement of students in various learning activities with proper guidance and direction will aim toward the above goals.
TABLE OF CONTENTS

Unit I     Introduction
Unit II    African Antecedents
Unit III   Blacks in Colonial Days
Unit IV    The American Revolution
Unit V     The Plantation System and the Quest for Freedom
Unit VI    The Civil War Period
Unit VII   The Reconstruction
Unit VIII  Freedom and Dehumanization
Unit IX    The Early Twentieth Century
Unit X     The Civil Rights Movement
Unit XI    The Black Revolution

STRATEGIES

1. Facts to be assimilated by pupils from text, primary documents and
   other reading are the responsibility of the student.
2. Key questions in class on fact, concept and value levels.
3. Projects - group and individual.
4. Field trips to be decided upon by the student committee.
5. Audio-visual material - tapes, records, song books, movies, filmstrips.
6. Interviews.
7. Role playing and socio-dramas.
8. Class exhibits of primary documents, reference books, artifacts.
   (These people will be scheduled in appropriate places in the
    curriculum when they can be secured.)
THE KEY QUESTIONS

An Interdisciplinary Approach

In order to get an in-depth picture of each important topic, historical facts are necessary but to learn the total behavior of the period the following will also be emphasized in a total cultural approach: 1) values, goals and religion; 2) how did man satisfy the three basic needs of food, clothing, and shelter; 3) language and communication; 4) child rearing and education; 5) aesthetics; 6) social controls and political structure; 7) social organization - the family; 8) time ideas (history); 9) space ideas (geography); and 10) symbols - emotional and status between people and groups. Many of the questions stimulate the inductive approach to learning.

MAJOR CLASS PROJECTS

1. In conjunction with the Social Studies coordinator for the elementary schools, a curriculum is to be devised to teach some alternative values concerning race relations. The curriculum will be jointly planned and executed by the entire high school Afro-American history class under the leadership of Mr. Carey and Mr. Asher. This project will be started early in the school year after Unit I and continued in both semesters.

2. A human relations project is envisaged for the class in conjunction with individual suggested units in the syllabus such as a) Martin Luther King Day, as well as b) a possible student human relations committee. All this will be planned and executed by the class if it so desires.
3. Any student interested in a certain topic is welcome to do independent study, then come back and present the ideas and knowledge gained to the class. This will start after Unit VIII.

4. Field trips are to be decided upon by the entire class with committees established for implementation.

TEXTS

The text for this course is Before the Mayflower by Lerone Bennett, Jr. Supplementary text for Unit I is African Kingdoms by Basil Davidson.

UNIT I INTRODUCTION

Key Questions and Procedures

A. The Approach to the Course

1. Why are you here?
2. Why do you think the classroom is set up this way?
3. What do you want to learn in this course?
4. What do you expect to learn?
5. How and where are you going to learn the facts for this course?
6. What do these signs and pictures mean to you?
7. What do you think the teacher's role to be?
8. Do you think we should have tests?
9. Do you think we should have grades?
10. Do you think it should be pass-fail?
11. Is there such a thing as self discipline possible in order to have you learn the facts as your own responsibility?
12. Why is this a separate course in Ridgewood High School?

B. Value Probe

1. If you were walking down a dark street alone, would you feel safer if you were followed by a White man or a Black man?
   (Respond anonymously - yes or no-- on a piece of paper)
   (The results will be compiled and announced)
2. Do any of the answers indicate prejudice?
3. Why do you think you are not prejudiced?
4. Use New York Times Article of September 15, 1968, entitled "Charlie Doesn't Even Know His Daily Racism is a Joke" by Bob Teague.
5. How do you form your own opinions?
6. Where do you find the facts about contemporary, controversial issues? (Brain storm)

7. Why do you suppose (if you do) that a Black Revolution is going on in this country?

V. The slave trade to the Americas

A. Need of work forces by emerging colonizing nations of Europe

Selected Reading: Wade, pages 9-10

1. Conditions in South and Central America

B. Early slave trade by Portuguese and Spanish

C. The English slave trade

1. Big business and the change in status of African slaves

2. Growth of the institution of slavery in Africa

3. "The Middle Passage" or "Black Gold"

D. In time, United States merchants increase the trade up to 1800, and even thereafter to 1861.

1. The tree cornered trade

2. The cotton gin increases the need

3. The smugglers

This period is also well-explained by the following books for those who wish to research the African background in more detail. The books are on loan in our classroom.

Africa Past and Present by Elizabeth Thompson
A History of West Africa by Basil Davenport
African Beginnings by Olivia Vialios
Africa Yesterday and Today by Moore and Dunbar
Africa and Africans by Paul Bohanen
Africa by Fred Burke
Unit II - African Antecedents (continued)

1. What was your impression of African life and culture before your present readings?

2. After reading about earliest man found by Dr. Leakey in modern Tanzania, what do you think of the Bible story in the Old Testament?

3. Compare what you think was beautiful to a young woman who lived in Timbuctoo in 1400 A. D. and you today?

4. Can anyone in this class compare the art work of the Saharans in the Tassili of 2500 years ago with any you have at home or in our library or any art you've seen?

5. Why are some of the Tassili figures black and some white?

6. What do these pictures of the wild life of the Sahara of 2500 years ago tell of the behavior of man and animal life?

7. The picture on page 24 shows a drawing of what Timbuctoo looked like. What does this reproduction tell us from the buildings and figures: about religion? about family life? about education? about architecture and aesthetics?

8. On the next page what does the picture tell us about how advanced the people of Mali were in economic abundance? in government?

9. Using the drawings as a point of reference would you say that the Saharans were a male or female dominated society? What are we today and why?

10. What were some of the advantages and disadvantages of living in Timbuctoo in 1600?

11. What common denominators have the University of Sankare in Timbuctoo with other universities?

12. What was in the Sahara that induced Basil Davidson to remark that "the Sahara was a nursery for the world's cultures"?
Unit II - African Antecedents (continued)

13. "It would be interesting to know what the Normans might have thought of Ghana." Davidson.

14. What was it about the Mohammedan faith that so attracted the rulers of West Africa and the Sudan? Why not all the people?

15. Suppose your job was to find out why Kush was able to conquer all of Egypt; what would you need to know in order to suggest a solution to this question? List the questions you would have to ask.

16. Compare the work force needed by the Spanish and the English in the New World.

17. Why do you suppose that the Spanish allowed intermarriage between blacks and whites in their colonies?

18. The slave trade as finally conducted by the English was violent. Was this violence the result of simple hereditary factors or the result of complex environmental forces?

19. What effects on African society would there have been if desalinization had been known and was cheap to operate?

20. Using our readings about Africa, why do you think that this continent did not develop its technology as the European continental peoples did?

21. (Let us read together pages 26 and 27 in our Bennett text) How do you think Bennett reaches the conclusions that African religion and art and music were carried by the slaves to the New World and have been retained as a legacy into American culture? In other words how can Bennett prove these assumptions?

22. What is the meaning of the Franklin quote on page 28?

23. How can the dispute be resolved between property rights vs. human rights?

24. What is meant by the expression "The rape of a continent"?

25. What value do you think a Black student feels about studying Africa's past?

26. A White student?

27. Is there a relevancy of studying so-called ancient history anyway?

I. Black explorers and conquistadores
   Captain Pedro Alonzo Nino with Columbus
   Estavano, discoverer of the Southwest
   Cabeza Da Vaca in New Mexico
   Jean Baptist Pointe Do Sable, founder of Chicago

II. Blacks in British continental America
   A. Indentured and bond servants, black and white
   B. The transition from contract servitude to permanent slavery
   C. Black slave labor - the foundation for Southern economy
   D. The role of blacks in the Northern colonies

III. Black reaction to early slavery
   A. Black men and red men
   B. Early petitions for freedom
   C. Early resistance and revolts

IV. The origins of an Afro-American subculture
   A. African additions to the English language
   B. African additions to Colonial foods.
   C. African additions to Western art forms
Unit III - Blacks in Colonial Days (continued)

KEY QUESTIONS AND PROCEDURES

1. What is the significance of learning about individuals such as Captain Pedro Nino, Cabeza da Vaca, Jean Baptiste de Sable and Estavanico?

2. Why were most Black and White men brought to this country in early colonial days either as indentured servants or bond servants?

3. What in Southern colonial development brought about the transition from contractual servitude to chattel slavery?

4. What would have been the likely outcome to Southern economy if there had not been a plentiful supply of people from Africa?

5. What would you need to know to test the validity of the following statement?

From the very beginnings of the English colonies the African made a poor worker; he couldn't speak the language of the colonists, he prayed to different Gods, he was in unfamiliar terrain, he was subject to European diseases. He had to be forced to become a minimal labor force.

6. If you had been a White (Black for Black students) teenager living in South Carolina in 1650, would you have been thankful for being born with your skin color? In 1750?

7. How about today here in Ridgewood?

8. After reading the primary document concerning the slave revolt in South Carolina around 1740, rewrite this account as if it were from the diary of one of the Negro slaves. (Katz, page 36)

9. The first group to express organized anti-slavery sentiment were the Quakers of Pennsylvania and New Jersey. In Ridgewood today we have a Quaker meeting. Maybe one or two of you belong. Regardless of this, what do you suppose in the Christian religion did the Quakers stress that caused them to become the first abolitionists?

10. How did the other Christian denominations justify slavery?

11. What questions should be asked if you wanted to know how to proceed concerning the extent of African culture being diffused into the English
Unit III - Blacks in Colonial Days (continued)

colonial culture by the African slaves?

12. This question is to be asked after looking at the primary documents.

How would you go about adding to the list of primary documents below, if you wanted to find out more about Black people in Colonial Days?

Primary Documents:

1. Slave Petition for Freedom during the Revolution. (Document 3b)
2. Negroes Protest Against Taxation without Representation. (Document 5)
3. Benjamin Banneker Letter to Thomas Jefferson. (Document 10b)
   (The above are in Documentary History by Aptheker)

Project:

The class is to go to the school library or to work in the classroom library to carry out the results from question 12.

   B. Importation of slaves to 1808
   C. The fugitive slave provision

Selected Reading:
Goldstone, page 51
Unit IV - The American Revolution (continued)

V. Prominent Black people of the period

A. Phyllis Wheatley - Benjamin Banneker

This period is well explained by two works:

1. *The Negro in the American Revolution* by Benjamin Quarles
2. *Essays in the History of the American Negro* by Herbert Aptheker

Both of these books are available in our library and in our classroom.

**Socio-Drama**

Socio-Drama of the U. S. Second Continental Congress concerning the Debates around the Declaration of Indipendence

Put yourself in the place of the following delegates to the Second Continental Congress. What would be the considerations you would examine before making up your mind about the Jefferson first draft concerning the abolition of the slave trade? (Each student is to be given one role. The student is given a few days to simulate this person in socio-economic class, geography, et cetera)

**Key Questions**

1. It has been said (I've heard it often) that the celebration of a day in memory of Crispus Attucks is elevating to hero status a man who happened to be the first man killed in the American Revolution, and happened to be Black. Is there any real significance of Crispus Attucks in the American Revolution?

2. How do you feel about a full school holiday in memory of Doctor Martin Luther King?

3. In view of the fact that:

   ...in 1774 the Continental Congress passed an agreement not to import any slaves after December 31, 1775
   ...this was the year of the Intolerable Acts passed by Parliament
   ...this was the year of Jefferson's "a summary view of the rights of British America," in which he said it was increasingly difficult for the Americans because Britain had consistently blocked all colonial efforts to put an end to the slave trade,

why do you suppose there was a growing sentiment against the slave trade
Unit IV - The American Revolution (continued)

and slavery during the American Revolution?

4. What prompted Black men to fight for the American cause at Bunker Hill and with Marion's men in South Carolina, even with the knowledge that Washington and Congress frowned on Black enlistments?

5. Is there any comparison between your answer to the previous question and the number of Blacks in the U. S. armed forces?

6. If you were a slave during the Revolution living in South Jersey, would you have attempted to gain freedom by fleeing behind the British lines or petitioned your master to fight for the "Rebel Cause"? What would have been the immediate conditions that would have made your decision?

7. It was said by Frederick Douglass at a much later date (during the Civil War) that "It is the same old posture of affairs, wherein our rulers do wrong from choice and right from necessity." Does this apply to Washington's decision to accept Black men into the Continental Army?

8. We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain inalienable rights, that among these are Life, Liberty and the Pursuit of Happiness.

Was this a generalized statement by Jefferson that included Blacks as well as Whites? What, if any, people fighting for American liberty would have interpreted this as such? How do you as Americans stand on this subject today?

9. And what say you that George Washington as well as Jefferson owned slaves all his life?

10. The Constitutional Convention delegates made many compromises, one of the outstanding ones concerned the Black people of the U. S. - the 3/5 rule for representation in Congress, the 1808 restriction on the slave trade, and the fugitive slave provision. Looking back on this with hindsight were these a compromise in the eyes of the following: a Connecticut farmer, a New Jersey slave holder, a South Carolina white
Unit IV - The American Revolution (continued)

colonel of the American Continental Army, a Boston shipbuilder, a New Hampshire free Black, a Virginia slave.

11. Some historians have claimed that the founding fathers represented a certain economic class that wanted liberty and democracy for themselves, that the Constitution is a document that protected the interests of a new and growing managerial class.

1. What does liberty mean? Does it mean liberty for all, including those who might take away liberty from those who want liberty for all?

2. What does democracy mean? Does it mean democracy for all, including those who might want to achieve it in a different manner than the one proposed by the Constitution?

3. What concept instead of "liberty" and "democracy" could the framers of the Constitution used that might have influenced the validity of the charge previously mentioned?

4. Is this the main thrust of the Blacks and the students today?

2. Gabriel Prosser 1800
3. Denmark Vesey 1822
4. Nat Turner 1831
5. Joseph Angue and the Armistead 1835
Unit V - The Plantation System - The Quest for Freedom

KEY QUESTIONS AND PROCEDURES

1. "New technology changes the culture of man." What effect did the cotton gin have on the total life of Southerners? Northerners? Englishmen? Africans?

2. What were the reasons why the large chain stores like the A & P, Grand Way, et cetera, put the corner grocery store out of business? Is there any application of your answers about this to the plantation system in the South?

3. How would the course of history have been changed if modern chemistry had been known in Virginia in 1800?

4. Can slavery exist in an industrial society?

5. How does slavery affect technological advance?

6. The provisions of the Kansas-Nebraska Act of 1854 had just been published. This followed the Missouri Compromise, the annexation of Texas, the Mexican War, the Compromise of 1850. Let us pretend a discussion is going on concerning this latest decision of Congress about the extension of slavery.
   First - among a group of Southern white planters.
   Secondly - among a group of slaves.
   Thirdly - among some Northern textile manufacturers.
   Finally - among a group of Northern textile workers.

7. In your experience is it true that brutality affects the doer as well as the receiver?

8. What was your reaction when you read in your text that slave breeding was a large industry in Virginia in the 1850's?

9. Your father is the owner of a grocery store in Athens, Georgia, about 1830. Classify the following in order of preference as customers: doctor, carpenter, small farmer, plantation owner, overseer, freed slave.

10. What were the motives of the planter in establishing all the Jim Crow codes and laws? Were they honest in promulgating these laws? What this a "put on" or did they believe what they promulgated? What about today? Do people who believe in white supremacy, segregation, et cetera believe it or do they just want you to believe it?

11. Was the Black man "invented" by the White man?

12. How is it that the slave revolts were either discovered or suppressed so easily up to 1860?
Unit V - The Plantation System - The Quest for Freedom

13. Are there analogous situations today?

14. Put yourself into the position (as much as possible) of a field slave. You have been told you are lazy, stupid, animal-like in physical needs as well as well as sexually. You are only a piece of property that worked from sunup to sunset. How did these conditions affect your opinion of yourself and of others?

15. What are the alternative defenses you could have used to combat this stereotype?

16. Why do you suppose most historians of American history have not included David Walker' "appeal"? We learn in school about the speeches of Patrick Henry, John C. Calhoun, Daniel Webster, Stephen Douglas, et cetera, yet the following is not well known, and it was written in 1829.

17. Why was colonization or separatism a recurring them in Afro-American history?

18. What other alternatives are there among minority groups in solving socio-economic problems?

19. Toussaint L'Ouverture and the foundation of a Black Republic in Haiti changed American history. Do you know how?

20. What is the specific significance of the Prosser, Vesey and Turner Revolts?

21. What were the objectives of Prosser and Vesey as compared to Nat Turner?

22. Are there any present day analogies in either or both of these types of actions?

For those interested in more details of the Period.

This period is covered extensively by the following books in our library:

1. *The Peculiar Institution* by Kenneth Stampp

2. *Lay My Burden Down* by Benjamin Botkin

3. *North of Slavery* by L. P. Litwack

**PROJECTS**

Using the seven topics under rubric IV in the outline concerning plantation culture, the students are to make their choice about status, role, and daily lives of the people as listed under rubric III of the outline. This can be effected by group or individuals. Complete latitude is to be given on the approach toward class presentation.

After you have affected your person we will conduct dialogues in class between the various people we have improvised.

Unit VI - The Civil War Period (continued)

1. James Beckworth was an Indian fighter and frontiersman yet became chief of the Crow nation. What principle of politics is involved that brought Beckworth as an ally of the Indians?

2. If you were a free teenage black person living in Kansas territory what would you think of the Dred Scott decision? What if you lived in Maine? New Orleans?

3. If you were offspring of mixed parentage, living in New York City, would you attempt to melt into white society in 1850? What if you were a slave in South Carolina? What about today?

4. "Labor in a white skin cannot be free while labor in a black skin is in chains."

5. How did the concept motivate the Abolitionists?

6. What about you?

7. William Lloyd Garrison published the "Liberator" in his anti-slavery campaign. How did people at that time test how much truth there was in his newspaper? Today, how do you test what you read in the papers?

8. Frederick Douglass published his paper soon thereafter, The North Star. To which paper would you rather subscribe concerning anti-slavery news - the Liberator or the North Star?

9. Are your conclusions to question 8 the same as news about the Black Panthers as published in the New York Times and the Amsterdam News?

10. What is there in this speech that has caused Frederick Douglass to be labelled as the George Washington of Black people in America? (After reading Douglass' famous 4th of July speech in class)

11. What were the differences in strategy between Garrison and Douglass in the abolition of slavery?

12. Are there any parallels concerning tactics and strategies in the Black Power Movement today?
Unit VI The Civil War Period Continued

13. How does one evaluate whether John Brown stumbled into fame as a fanatic or was truly a martyr that sparked the Civil War?

14. Is there any similarity of effect of the deaths of John Brown and Martin Luther King, Jr.?

15. Tom Paine's "Common Sense" sold thousands of copies and had a lot to do with the American Revolution. Harriet Beecher Stowe's *Uncle Tom's Cabin* had a like effect on the Civil War. Patrick Henry's speeches, Sam Adams' actions, Frederick Douglass' talks, and John Brown's raid on Harpers Ferry had a great influence in the late 1850's. It was through the written word in newspapers and pamphlets that people got to know what was news; what position a person would take on the issues. How do minority movements become majority movements in a democracy?

16. What if Garrison or Douglass had access to television in the 1840's? What if the planters had access to the mass media? What if Nelson Rockefeller or John F. Kennedy were poor?

18. There has been a continuous controversy among historians on who caused the War. So - let's go. Who did?

19. Refer back to Unit IV, question 7. How does this apply in 1862? Now?

20. From the draft riots of the 1860's to the riots of the 1960's Black ghettos have gone up in smoke and violence. Riots in Black communities have occurred frequently in this hundred years. Many studies have been made of riots. Let's ask a few questions concerning this problem:
   A. What procedure of inquiry do you think we should take in such a study?
   B. What questions should be asked in these procedures? Let's list them.
   C. What cogent questions must we ask ourselves to test the validity of these procedural questions?

21. What contemporary group of people would classify Lincoln as "The Great
Emancipator", savior of American democracy, next to Washington, our greatest president. Secondly, let's list those who would consider Lincoln as a reluctant conceder to freedom for the slaves, white racist in ideas, and a false prophet the white man has put up to Blacks as a hero. Thirdly, Lincoln as a product of his times, reacting to the needs and pressures of his people. Is there another way history could review Lincoln?

22. How do you evaluate Lincoln's role in history?

23. What is your reaction to the letter in Cuban's book, *The Negro in America*, page 52? Now read the next letter about the Battle of Ft. Pillow. Has this changed your original ideas?

KEY QUESTIONS AND PROCEDURES

1. Let us assume you were a newly freed black teenager in 1867, what would you feel was worth knowing? How would you go about achieving this knowledge?

2. If you were a white teenager in 1870, how might you react to a Black teenager? a) as a white offspring of an ex-Confederate colonel? b) as an offspring of an ex-Confederate private?

3. Let's look at two history books about Reconstruction:
   A. Bragdon and McCutcheon, pages 361-3 in the 1954 edition, and pages 370 and 371 in the 1967 edition and then Bennett, pages 183 to 198.
   B. What would you need to know to evaluate these three history texts?

4. Why were voting rights particularly important to the freedman?

5. What do you think are the requisites for the right to vote?

6. From a political point of view, what was the main strength that kept the Reconstruction governments in power? Does your answer to this have any relevancy today in American politics?

7. I used the expression, "Makers of good laws", which is an expression used in quite a few texts of Afro-American history. Were these laws good for the ex-planter? for the ex-slave? for the Northern white factory worker? for the factory owner? What then does the word good mean?

8. The war is over. You've gone home to your plantation in Mississippi to find it burned to the ground, apparently deserted. You are faced with the problem of your future - what to do? You are 21 years old. First, as a Black. Secondly, as a White.

KEY QUESTIONS AND PROCEDURES

1. Does the Hayes - Tilden Agreement affect our present political picture?
2. It is said by many historians that Reconstruction failed because people became disinterested in the Black man. They got sick of the waving of the "bloody shirt". How much do abstractions such as humanitarianism, justice, equality, et cetera, influence people?
3. What are the factors which perpetuate racial, religious, and national prejudice?
4. Can you give an example of racial prejudice that you have observed lately?
5. Is it popular to practice discrimination in the guise of status seeking in R. H. S.?
6. Have you ever done anything about Black equality?
7. True freedom depends upon social, political, and economic equality. What was necessary to have made "The Reconstruction" a lasting success for Black people?
8. Does this reason apply to the status of Black people today?
9. It has been said there is a similarity between the freedman being denied an economic base by getting no free land during Reconstruction and the Black worker in industrial America being denied equal employment, equal pay, and equal union status. Can this statement be denied?
10. The Supreme Court declared the Reconstruction Acts unconstitutional, and in Plessy vs. Ferguson it declared the separate but equal school decision. In 1954 they changed this in Brown vs. the Bd. of Education to integration in schools. How come?
11. What factors produced the philosophy of Booker T. Washington?
12. of W. E. B. DuBois?
13. Why have American students been brought up on Booker T. Washington but few have heard of W. E. B. DuBois?
14. There were 1700 lynchings in the nine years between 1885 and 1894, 2500 between 1884 and 1900. There were many burnings of Black ghettos and race riots in many cities. What were the major causes of these riots?

15. From your observation of the riots of 1967, do you see any similarity between Newark in 1967 and Chicago in 1919?

16. When are there riots in White neighborhoods?

17. Theodore Roosevelt and Woodrow Wilson have been considered by historians as progressive and liberal. In fact, they were elected president as reformers. According to our text, both of their administrations showed a conservative position on race relations. When is a liberal not a liberal? What is a conservative? Do only liberals have good ideas? What's the next step from being a liberal? How far must liberals go? What's a revolutionary? How far does he go?

KEY QUESTIONS AND PROCEDURES

1. Why does your family live in Ridgewood?

2. Why did Harlem come into existence?

3. What were the implications to Black people in the Garvey movement?

4. I have listed a great many names in the outline of this unit in connection with the intellectual upsurge of Black people in the 1920's. In the 1930's, 40's, and 50's came breakthroughs of athletes in sports, in entertainment, in the arts, and in government. There are today Black business men, executives, broadcasters, commercials with Black people. What are the positive and negative results of this change for Black people?

5. Why since the Civil War have there been periods of advancement for equal rights and periods of reaction?

6. What's your opinion of the document on page 441 in Katz concerning sharecroppers in the South?

7. What do you think of the validity of the arguments in the Plessy-Ferguson Case of 1896?

8. Do suburban schools meet the educational, psychological, and social needs of all minority groups?
Unit IX - The Early Twentieth Century Continued

PROJECT SUGGESTIONS

   A. Organize a unit that you could present or share with the class. This could include taking pictures, taping an interview, drawing sketches, listening to records, attending church services, going to a housing project, et cetera.

2. OR Why did the Black community come into existence in Ridgewood? What effect does it have on a Black student in Ridgewood to leave his home and come to school every day? What relationship has the Black community to the White?

3. OR Show Black contributions to the Arts. This can be organized by one individual or a group of students.
   A. Selected Black poetry and/or short stories
   B. Gospel, Blues and Jazz; work songs, folk songs and rock
   C. The Black artist

A question:  
the answer to which can only be  
ascertained by yourself to yourself.  
Has this course changed any of my  
values? Do I want to do anything  
about this one way or the other?
