The document is the second volume of a report providing descriptive data on the reading vocabulary of deaf children ages 8-17 years, which resulted from a study assessing the reading vocabulary knowledge of 13,207 deaf students. Volume 2, continuing the appendix begun in Volume 1, contains an alphabetical list of the 7,300 words used on the 73 forms of the vocabulary test, with their definitions and decoys, for instructors who may wish to test children on particular words. Brief instructions for test administration are given.

To the Teachers:

The tests you are being asked to administer to your children today are part of a study of "The Deaf Child's Knowledge of Words," in which nearly every school for the deaf in the United States is participating.

The words were taken from the Dale-Chall and Dale-Eichholz lists (Dale, E. and Chall, Jeanne S. A Formula for Predicting Readability. Bureau of Educational Research, Ohio State University, 1948. Dale, E. and Eichholz, G. Children's Knowledge of Words. Bureau of Educational Research, Ohio State University, 1960) which were devised to assess the vocabulary of normally hearing children in grades 1-6. The bulk of the words are taken from the first to third grade lists. These lists were prepared to help teachers in their teaching of vocabulary related activities, such as reading.

A similar goal is involved in the present study. Our aim is to provide the teacher of the deaf with a description of the reading vocabulary known by deaf children between 8 and 17 years of age. These lists (which will be accessible in the latter half of 1970) can serve as guides in your activity planning.

Each child in your class will respond to two tests, each of which is 100 words in length. It is very important that no child take 2 of the same test. We have tried to compensate for this. There are 73 tests; each one is differently coded, starting with single letter A-Z, then double letters AA through ZZ, then triple letters AAA through ZZZ. No child should have 2 of the same test. Extra tests are included, should this occur. The children should be told that everyone’s test is different. We acknowledge that the majority of the items will be extremely difficult for your children, but in the interests of providing a good index of the children’s knowledge, we ask that you lend them no assistance other than that provided for in the Instructions for Test Administration sheet which accompanies the tests. Children can often recognize words on the lips or via finger spelling or sign; however, we want to know if the child can recognize them in print. It is therefore extremely important that the child be given no aid in interpreting the items. If some children become unduly concerned at the difficulty of the tests, encourage them, as you normally would, to do the best they can.

The format of the test is very similar to the vocabulary section of a standard reading achievement test, except that the child is to circle the correct answer in the booklet itself. The only information which appears on every test is the sex and age of the child; no names are required.

Feel free to administer the tests at your convenience during the day. It is suggested that the second sitting not be given immediately after the first, but after some intervening activity. A tester from the Research Department of the Lexington School for the Deaf will be available if you have any questions.

Please return all untimed tests at the end of the day. In order to insure a large number of responses to each item, each test form must be given a specified number of times. We therefore have enclosed, for your interest, a Teacher's Sample Test.

Thank you for your cooperation in this investigation.

Very truly yours,

Toby R. Silverman

INSTRUCTIONS FOR TEST ADMINISTRATION

In following the directions given below, please feel free to use any method of communication which will help your children understand the test instructions.

Distribute one test to each child in your class.

The children should be told that everyone's test is different.

Say, READ THE FIRST QUESTION AT THE TOP OF THE PAGE. HOW OLD ARE YOU? 7, 8, 9, 10, 11, 12, 13, 14, 15, 16? CIRCLE HOW OLD YOU ARE. (Allow the children to circle)

Ask, ARE YOU A BOY OR A GIRL? CIRCLE BOY OR GIRL. (Allow the children to circle)

Read the instructions to the children.

Say, READ THE WORD WITH THE LINE UNDER IT. thick
READ THE ANSWERS. 1. not thin
2. a baby
3. rest
4. engine

Ask, WHAT WORD MEANS THE SAME AS thick? (Get responses from children.)

Say, DRAW A CIRCLE AROUND THE WORDS not thin. (Have the children circle not thin, even though it is already circled.)

Do the second example with the children in the same way.

Say, READ THE WORD WITH THE LINE UNDER IT. war
READ THE ANSWERS. 1. trace
2. savings
3. house
4. fight

Ask, WHAT WORD MEANS THE SAME AS war? (Get responses from children.)

Say, DRAW A CIRCLE AROUND THE WORD fight. (Have the children circle fight; even though it is already circled.)

After the second example is completed, say,

NOW DO THE OTHER TWO BY YOURSELF.

Check the children's papers to see that they have circled one and only one answer. If you feel that a child does not understand what to do, go over as many of the sample items with him as you feel necessary.

Please be sure that the children have correctly circled their age and their sex.

Allow all children to take the test regardless of their performance on the samples.

There is no time limit for this test.

At your convenience, distribute the second set of tests and repeat the above procedure.
