ABSTRACT

GRADES OR AGES: 9-12. SUBJECT MATTER: Home economics: clothing and related areas. ORGANIZATION AND PHYSICAL APPEARANCE: The guide provides for four semesters with special provision for high school boys and adults. There are six main sections: 1) basic clothing and grooming for the teenager; 2) clothing construction and consumer education for the teenager; 3) clothing for the girl and her family; 4) clothing and family management; 5) adult clothing, clothes for the family; and 6) evaluation. The guide is mimeographed and spiral-bound with a soft cover. OBJECTIVES AND ACTIVITIES: The objectives have been planned to develop a variety of skills and to provide instruction on grooming, personal appearance, and the purchase and care of clothing. Detailed objectives are listed in each section. INSTRUCTIONAL MATERIALS: Lists of materials, including texts and films, are found in each section, with a list of sources on p. 88-09. STUDENT ASSESSMENT: Tests and answer keys are included for each of the first four sections. (MDM)
Participants in the preparation of this supplement - 1966-1967

SPECIAL COMMITTEE

Marguerite Edwards

SECRETARIAL PERSONNEL

Lillian Rey
FOREWORD

This guide for teaching high school clothing includes contributions from the entire clothing staff. During last year at various in-service meetings, the clothing teachers analyzed the program and proposed guidelines for the special summer committee. After evaluation and some experimentation during summer session the guide emerged.

There are four semesters of clothing for the pupils with special provision for high school boys and adults. The young men are enrolled in the regular school day, but the adults attend evening classes.

The objectives have been planned to provide learning experiences to expand and enrich the seventh- and eighth-grade curriculum guide. Units on selection and purchase of garments, construction, care of clothing, and personal appearance have been included in the sequence most meaningful for our communities.

Dr. C. F. Swingley
Acting Superintendent of Schools

CLOTHING I

Basic Clothing and Grooming for the Teenager

INTRODUCTION

This course, "Basic Clothing and Grooming for the Teenager," has been designed to provide meaningful learning experiences for the beginning student, and also for those who have had 7th-and/or 8th-grade clothing.

Because the teacher wants to provide useful activities for all of these students, a variety of skills has been specified for this level. The teacher is expected to use her judgment in determining those appropriate for the individual student.

The course organization relies on developing skills and techniques that are basic to clothing by having the student make a skirt, blouse, skimmer, pajamas or other nightwear, robe, and/or half-lined skirt. The decision on choice of garments will be guided mainly by the teacher. The aim will be to have the students work on the types of garments which provide the opportunity to acquire the suggested skills and techniques. These skills will be strengthened and others added as subsequent projects (also from the above listing) are selected.

Because of individual interest and ability, some students will work faster than others, and may acquire more skills than others. Teachers are not asked to require the same number of projects from all. The emphasis should be on the acquisition of skills; and even this primary objective will have to be influenced by what the student is really able to do. Consideration must be given to motivation, reading ability and comprehension, muscular coordination, and manual dexterity. An indication of competence in these areas can be gained as the student works on the first simple project.

Although suggested in this guide, the order in which the different sections of this course are presented to the class is left to the teacher. However, a certain chronology is implied. Lessons on pattern and fabric selection must precede those on buying patterns and fabrics. Some teachers will find it useful to include lessons on grooming and personal appearance in one "block"; others will intersperse them throughout the semester. Whatever sequence the individual teacher chooses, one idea should be understood. This guide is provided in the hope that all will be convinced that class time must be carefully used in an assortment of activities. The decisions that these students will have to make as consumers demand that they know much more about clothing than simple construction techniques.

Any number of suitable texts covering some, or all, of the various phases of clothing and grooming may be used as aids in organizing the daily lessons. Experiences in Clothing, by L. Belle Pollard, has been adopted as the basic textbook. A good supplementary text and reference is Bishop Method of Clothing Construction, Bishop & Arch. J.B. Lippincott Co. Both of these are highly recommended.

To use the teaching aids suggested to greatest advantage, it is advisable to begin assembling them at least two weeks before anticipated use. Since a scheduling problem is connected with some of the films, ordering a semester in advance is recommended.
CLOTHING I

Basic Clothing and Grooming for the Teenager

Objectives

GAINING CONFIDENCE IN THE CLASSROOM SITUATION

INCREASING PRIDE IN PERSONAL APPEARANCE

PROVIDING OPPORTUNITIES FOR APPLYING ART PRINCIPLES IN THE SELECTION OF FABRICS FOR THE WARDROBE

DEVELOPING COMPETENCE IN PATTERN AND FABRIC SELECTION

PROMOTING UNDERSTANDING OF THE RELATIONSHIP BETWEEN PATTERN DESIGN AND FIGURE TYPES

DEVELOPING AND IMPROVING SKILLS IN THE USE OF THE SEWING MACHINE AND RELATED EQUIPMENT

PERFECTING SKILLS IN CLOTHING CONSTRUCTION TECHNIQUES

GAINING EXPERIENCES IN MINOR PATTERN ALTERATIONS

GAINING KNOWLEDGE OF CARE REQUIRED OF THE FABRICS SELECTED FOR CLASS ACTIVITY

ENCOURAGING UNDERSTANDING AND USE OF CLOTHING TERMINOLOGY

Weeks to Teach

(x means continuous & overlapping)

3 Weeks

1 Week

2 Weeks

1 Week

14 Weeks

1 Week

1 Week

CLOTHING I

Home Economics for Boys

Cost, Construction, and Care

UNDERSTANDING THE IMPORTANCE OF GOOD GROOMING

UNDERSTANDING THE NAMES, COSTS, FABRICS, AND WEARING QUALITIES OF MEN’S READY-MADE CLOTHING

ACQUIRING SKILL IN CARE AND USE OF SEWING MACHINE AND SMALL EQUIPMENT

UNDERSTANDING THE PATTERN AND ITS FUNCTION

DEVELOPING SKILL IN CONSTRUCTING GARMENTS FOR THEMSELVES AND FAMILY MEMBERS
CLOTHING I

SKILLS

Repeat Learnings

1. Buying pattern and fabric
2. Preparation of fabric
3. Fitting patterns
4. Minor pattern alterations
5. Interpretation of pattern markings
6. Using the machine and other equipment:
   - scissors and shears
   - measuring tape
   - seam gauge
   - iron
   - tracing wheel and paper
7. Basic machine stitching techniques:
   - stay-stitching
   - gathering
   - directional stitching
   - top-stitching
8. Basic hand stitching techniques:
   - basting
   - slip-stitching
9. Applying facings:
   - fitted
   - bias
10. Simple pressing
11. Simple fasteners:
    - snaps
    - hooks and eyes

New Learnings

1. Further pattern alterations
2. Figure measurements
3. Attaching collars
4. Set-in sleeves
5. Using seam binding and tape
6. Attaching the waistband
7. Attaching the half-lining
8. Finishing the crotch
9. Inserting the interfacing
10. Simple seam finishes
11. Inserting the zipper

Films:
Charm by Choice (FS) Association Films
Good Looks, Association Films
### Objectives

Providing opportunities for applying art principles in the selection of fabrics for the wardrobe.

### Learning Experiences

Classify the complexion of each member of the class as pale, average, vivid. Suggest several colors that are very becoming to each type of individual.

Study the three or four current fashion color leaders to see how they can be brightened or muted to suit each complexion type.

Choose any color and demonstrate how one of its tints or shades can be selected to complement any complexion, from the very light to the very dark.

Measure your figure by the number of head lengths. Compare this with figures from different fashion magazines. From the result be able to suggest why fashions sometimes look quite different in a picture than when worn by a person.

Show, by the arrangement of articles on your desk or table, that you understand "balance."

Prepare a checklist of the art principles:
- emphasis
- rhythm
- balance
- harmony
- proportion

Evaluate your fabric choices as to the degree to which they follow the principles.

Prepare a bulletin board of fabric samples used by the class to illustrate the difference between art principles and design elements.

Experiment with scraps, belts, and other accessories to show the true effect of art principles on dress.
<table>
<thead>
<tr>
<th>GENERALIZATIONS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Vertical lines add height and make the figure appear more slender; and horizontal lines add width and make the figure appear broader.</td>
</tr>
<tr>
<td>Light, bright colors seem to increase the size of the figure; but dark and subdued colors seem to decrease the size of the figure.</td>
</tr>
<tr>
<td>A costume should have just one center of interest.</td>
</tr>
<tr>
<td>An appropriate costume color depends upon the figure, age, and coloring of the wearer.</td>
</tr>

OBJECTIVES

Developing competence in pattern and fabric selection

LEARNING EXPERIENCES

Collect samples of ten or twelve different kinds of cotton. Learn the correct name of each. How do they compare in appearance, feel, weight, tightness of weave, luster, tendency to ravel, cost? To what use(s) is each best suited?

Discuss and demonstrate how to judge materials (when shopping) by appearance and "feel."

Bring hang tags to class (or write down information found on bolt end). Compare types of information supplied: generic name and percentage of fiber, width, finish, suggested care, name of fabric.

Plan attractive posters using samples of various kinds of fabrics used by the class.

Compare any two of the following patterns:
- subteen  - junior miss  - half-size
- teen    - miss
In what ways are they different?

List three characteristics of a pattern suitable for a first project; three characteristics suitable for the student who had clothing in junior high school.

Look up the history of one of the pattern companies and be able to relate it to the class.

Discuss the information found on the pattern envelop, the primer, the individual pattern pieces.

Demonstrate taking the measurements used to select a blouse pattern, a skirt pattern, a pants pattern.

Classify and discuss various figure types, including how to emphasize or de-emphasize certain figure characteristics through the use of fabric.

Make a list of things which should influence choice of pattern, of fabric.

</tbody>
</table>
### Generalizations

Setting a high standard for the completed garment will make it easier to have high standards of workmanship.

Skill in construction techniques is gained by practice.

Each phase of the construction project, however tedious, is important to the finished project.

</tbody>
</table>
Numerous mistakes, including errors in cutting and fabric waste, are reduced when the pattern is used correctly.

Proper fabric care saves money by keeping materials looking better longer, thereby reducing the need for frequent replacement.

Learning the correct techniques of fabric care requires patience and practice.

Being able to correctly identify procedures and equipment is a necessary part of classroom communication.

Ability to communicate is necessary to learning.

Good grooming is important to achieve cheerfulness, self-assurance, and efficiency; but good grooming is the first requirement of being handsome.

OR

Personal satisfaction and social acceptability are related to good grooming.

A clean body forms the basis for all good grooming.

Proper and well-fitting clothes are essential for a desirable appearance.

Basic styles have greater economic value than do fads.

It is wise to select a good basic style which will last for several seasons.

Making a plan for buying clothes will help to get the most for your money.

Entire wardrobe will be coordinated if the clothes are planned in relationship to one another.

## CLOTHING I

**Home Economics for Boys**

**Cost, Construction, and Care**

### OBJECTIVES

| Acquiring skill in the care and use of sewing machine and small equipment |
| Understanding the pattern and its function |
| Developing skill in constructing clothing garments for themselves and family members |

### LEARNING EXPERIENCES

- Demonstrate threading and operation of the sewing machine. Stitch a hem or make a small project.
- Most of the learning experiences and generalizations noted in Clothing I can be utilized here.
- Teacher demonstrate the use of pattern helps to identify the pattern pieces.
- The choice of garment may be varied; however, most of the students enjoy making sport shirts, vests or pull-overs, nightshirts, robes, pajamas.
- Some of the students may desire to peg or cuff trousers, shorten jacket sleeves, or sew for family members.
The correct use of each piece of equipment contributes to efficiency in sewing.

Clothing Construction and Consumer Education for the Teenager

INTRODUCTION

Before entering Clothing II, the student should have had from one to three semesters of experience in clothing with Clothing I as a prerequisite. The aim of this course is to provide the student with more advanced skills and learning experiences that are built upon the knowledge previously gained. Some examples of these more difficult construction projects are: plaid or napped fabric, tailored cuffs, seam processes and complete linings.

Since a major emphasis will be placed on consumer education, it is suggested that fabric study be undertaken at the first of the semester. This would aid the student in selecting a desirable, well-constructed fabric to suit her pattern.

The unit on buying ready-to-wear garments would work in appropriately after the construction of the first garment. The other unit on the care of clothing might be used between projects to give the slower students time to complete their projects. This would enable all of the students to begin on their next project at the same time.

Although a number of learning experiences have been suggested, it is up to the individual teacher to decide which ones best suit her situation and her particular students.

The suggested text for this course is Belle Pollard's Experiences With Clothing. Oerke's Dress contains a number of helpful suggestions on consumer education and the care of clothing.

SKILLS

Repeat Learnings

1. Repeat learnings from 9th Grade level.
2. New learnings from 9th Grade level.

New Learnings

1. Joining a bodice and skirt
2. Machine buttonholes
3. Separate belt
4. Using a plaid, one-way design, or napped fabric
5. Using other sleeve design, such as kimono, raglan, or tailored cuffs
6. Using other construction process such as tucks, gathers, or pleat
7. Using other seam processes, such as flat-felled, French, or welt seams
8. Repairing wool fabrics
9. Inserting full-lining in a skirt

</tr>
</tbody>
</table>

Divide class into committees having the following suggested problems:

1. Classification of fibers and their characteristics.
2. Identification, use, and durability of yarns and weaves.
3. Fiber finishes and their care.
4. Labels and regulations for fabrics.
5. Care of fabrics by demonstrations

The following activities may be carried out by the class as a whole under the direction of the committee:

Reports on history of fibers.

Classification of fibers and their characteristics.

Compare fibers of cotton, linen, wool, silk, and synthetics by breaking, burning, microscope, and pictures.

Show samples of each type of fabric.

Trace as many fibers as possible from fiber to fabric through discussion and visual aids.

Display actual samples of important textile fibers in the clothing industry.

Run a few simple tests such as the following:
Test acetate fabric with fingernail polish containing acetone...
A knowledge of textile terminology is necessary before fabrics can be carefully selected.

</tr>
</tbody>
</table>
Yarns are made by twisting fibers together in various ways.

The type of yarn contributes to the texture of the fabric.

The warp runs parallel with the selvage and usually has the greater breaking strength.

A fabric is a blend if each yarn is composed of two or more different fibers.

Supplementary Text:

Other Materials:

"A Piece of Cloth" Audio-Visual Section, National Cotton Council
OBJECTIVES

Understanding the relationship between the dyeing, printing, and finishing of a fabric to its use and care

LEARNING EXPERIENCES

Students might use the following tests to determine method of dyeing:

a. Solid-colored fabric
   1. Untwist several yarns in both warp and filling
   2. Note the evenness or unevenness of color penetration.

   Students determine if fabric sample is piece-dyed or yarn-dyed.

b. Figured cloth
   1. Unravel yarns in both warp and filling
   2. Note color of individual yarns.

   Students determine from discussion if individual yarns are the same color throughout or if more than one color. Determine whether design is printed or woven-in.

c. Printed cloth
   1. Count colors in design
   2. Note shape, regularity, and order of pattern.

   Students determine by what method cloth is printed.

Experiments may also be done to determine the fastness of dye to the following:

a. Light
b. Perspiration

Observe fabrics and garments with design printed off-grain. Discuss how this affects pattern lay-out and quality of ready-made garments.

Panel discussion: Knowledge of designs and finishes helps make you an intelligent shipper.
A fabric is piece-dyed after weaving, knitting or other methods of construction.

A fabric is yarn-dyed if the yarns are dyed before the fabric is constructed.

Color and design are applied to fabrics in various ways.

The method of dyeing or printing affects the quality of the finished product.

### CLOTHING II

#### OBJECTIVES

Understanding the relationship between the dyeing, printing, and finishing of a fabric to its use and care, continued

#### LEARNING EXPERIENCES

Class members bring in samples of different finishes, advertisements, and labels.

Discuss characteristics of various finishes and their desirability to the consumer.
  a. Sanforized, Sanforlan, preshrunk
  b. Drip-dry, wash and wear
  c. Vat-dyed, colorfast
  d. Crease-resistant, wrinkleshed and mercerized.
  e. Permanent press

List finishes which improve appearance but do not affect usefulness. Discuss.

List finishes which both improve appearance and affect usefulness.

Discuss ways in which we can know the fiber content of a fabric.

Examine garment labels for fiber content information.

Discuss provisions of Textile Fiber Identification Act L-22.

Develop a check list for fabric selection.

Role-play a situation in which a student goes out to buy fabric for a clothing project.

<tr>
<td>Understanding the importance of proper care and storage of garments</td>
<td>Students write a short paragraph on how they usually care for their clothing.</td>
</tr>
</tbody>
</table>

Discuss advantages of daily clothing care related to the following items:
1. Airing garments
2. Removing spots and stains
3. Attending to minor repairs
4. Laundering hose and undergarments
5. Polishing shoes

Explain how pre-season care will protect the life of garments.

Discuss between-season care and storage of various fabrics, such as cotton, linen, fur, and woolens.

Use buzz groups to suggest methods of storage for:
1. Out-of-season clothes
2. Shoes
3. Formals
4. Accessories

Determine which clothes should be hung, folded, or wrapped.

Exhibit clothing damaged because of improper care.

Students draw illustrations of their present closet arrangements.

Evaluate arrangements through class discussion and magazine illustrations of proper closet organization.

Exchange ideas with class members concerning space-saving tricks.

Students make a second sketch of their clothing storage and compare with first arrangement.
Well cared for clothing helps to build self-confidence.

Daily care of clothing reduces the family clothing budget.

Clothing will retain optimum serviceability and can be attractive longer if given regular daily, weekly, and seasonal care.

Not all clothing should be stored in the same manner.

Thoughtful planning is needed to arrange closet and drawer space efficiently.

A well-planned closet simplifies clothing care.

The article used most frequently should be stored within easy reach.

Supplementary Texts:
Starr. Management for Better Living. Heath, pp. 130-137
Fitzsimmons and White. Management For You. Lippincott, pp. 206-212
### OBJECTIVES

Developing the ability to properly clean and launder clothing

### LEARNING EXPERIENCES

- **Teacher demonstrate general techniques of proper method of spot removal.**
- **Experiment with a variety of common stain removers on the type of stain for which they are intended.**
- **Students record results for effectiveness and ease in using.**
- **Explain difference between a soap and a detergent.**
- **Illustrate on chalkboard how they clean.**
- **Discuss good wash-day practices, such as:**
  1. Sorting as to color, amount of soil, type of fabric
  2. Pre-treatment
  3. Correct water temperature
  4. Drying place, time, and temperature.
- **Discuss:**
  1. Influence of fabric weave on washability
  2. Use of washer and dryer for synthetics and blends
  3. Time and effort required in hand washing versus machine washing.
- **Students give reports on methods of washing and drying the following fabrics:**
  1. Silk
  2. Rayon
  3. Acetate
  4. Wool
  5. Other man-made fabrics
  6. Cotton
  7. Linen
  8. Wash and wear
- **Students demonstrate proper laundering of:**
  1. sweaters, (2) hose, (3) gloves.
- **Demonstrate proper pressing techniques and use of equipment.**
- **Discuss proper procedures to follow before sending a garment to the cleaners.**
- **Visit a commercial dry cleaner to observe cleaning processes used.**
- **Student demonstrate dyeing a garment.**
- **Discuss care of garments in dressing.**
- **Students demonstrate proper method of putting on: girdle, slip, hosiery, skirts and dresses, gloves.**
- **Discuss tips on the use and care of clothing.**
Each spot should be treated individually to prevent "setting" spots.

The fabric as well as the spot should be considered in stain removal.

A routine of good laundry practices is necessary for effective, efficient care of clothing.

The method used in washing clothing depends upon the article to be washed, the textile fibers from which it is made, and the construction of the fabric.

Proper care of garments determines their length of service.
CLOTHING III

Clothing for the Girl and Her Family

INTRODUCTION

Clothing III is designed to provide opportunities for students to increase their understanding of the suitable wardrobe for themselves and their families, and to develop skills in clothing construction to a higher level of perfection.

Since all students will probably not finish a project at the same time, it will be wise if extra activities are provided for those who do finish early. For example, students who finish their construction project early might make an accessory. Those who finish their remodeling early might repair a garment.

Although many learning experiences are suggested, the teacher should use her discretion in choosing and/or revising the learning experiences that best fit her classroom situation. Those learning experiences should be selected that will encourage students to choose projects offering new learning skills for themselves.

The adopted text for this course shall be Sturm & Greiser. Guide to Modern Clothing. Webster Division, McGraw-Hill Book Company. Clothing I and II are prerequisites to this course. Check Clothing I and II for detailed learnings.

SKILLS

Repeat Learnings

1. Repeat learnings from Clothing I and II

2. New learnings from Clothing I and II

New Learnings

1. Using suitable fasteners
   a. frogs  c. tailored buttonholes
   b. loops  d. self-covered buttons

2. Decorations for child's garment using the zig-zag machine
   a. textile painting
   b. decorative stitches

3. Inserting self-help and growth features
   a. elastic waists
   b. deep hems
   c. long and front openings

4. Applying trims
   a. sashes  c. lace
   b. ribbons  d. rickrack

5. Simple garment remodeling
   a. ripping  c. recutting
   b. re-dyeing  d. reassembling

6. Handling of felt, leather and other difficult fabrics

### CLOTHING III

#### GENERALIZATIONS

Self-confidence adds to the enjoyment and success of classroom activities.

Understanding one's figure type and facial features can aid one in dressing properly.

Used skillfully, line, color and design can improve one's appearance.

Personal satisfaction is achieved through the ability to select colors suitable for the individual.

Styles and colors suitable for an individual depend upon his figure type and facial features.

Each group obtain information on the clothing needs of a specific type of individual. Discuss wardrobe planning in relation to the family clothing budget.</td>
</tr>
</tbody>
</table>
| Developing the ability to evaluate one's wardrobe | }
### GENERALIZATIONS

Color, line and design can change one's appearance and shape.

The lines, colors, and designs should be suitable for the individual.

To determine whether one is properly dressed, the activity should be considered as well as the figure type.

The attire should be appropriate for the activity.

Clothes that are suitable to the person and the activity help to build self-confidence and poise.

To evaluate one's wardrobe, critically, a clothing inventory must be taken.

The basic wardrobe principles should be used as guides to planning a suitable wardrobe.

The clothing needs of an individual will depend upon age, major activities, figure type and personality.

The clothing budget should be considered when planning a wardrobe.

### TEACHING MATERIALS

## OBJECTIVES

Developing the ability to evaluate one's wardrobe, continued

## LEARNING EXPERIENCES

- Students list activities in which they participate.
- Invite a buyer from a good local store to come to talk about selecting a well-coordinated wardrobe.
- Students plan as many outfits as possible from their inventory. List accessories with each outfit.
- Evaluate the wardrobe by comparing the list of activities with the list of outfits.
- List clothing deficiencies.
- Each student make a plan to improve her wardrobe. Show how deficiencies will be met, and how each outfit will emphasize or camouflage certain of her features.
One must recognize his activities in order to plan a suitable wardrobe.

To successfully add to the wardrobe, the individual should recognize outfits already on hand.

Each planned activity should have an appropriate costume.

Clothing deficiencies are guides to the individual's clothing needs.

A well-planned wardrobe is practical and economical.

<td>Collect pictures illustrating the accessories. Make a plan, showing how these accessories will be obtained (made, bought, gift.)</td>
</tr>
</tbody>
</table>
The clothing budget can be stretched by making clothes.

Constructing garments can be an enjoyable and satisfying experience.

Displaying garments an individual has made increases pride in the individual.

A suitable wardrobe contains not only essential garments, but the accessories needed to make complete outfits.

With appropriate accessories, fewer outfits are needed.

Thoughtful selection of accessories adds originality to the outfits.

Accessories should be chosen according to figure type and occasion.

A satisfactory wardrobe will include accessories that may serve many needs.

</table>
Repairing and remodeling clothes make them last longer, look better, and reduce clothing expenditure.

Remodeling a garment should be worth the labor put into it.

Satisfaction is achieved through the ability to restyle and remodel a garment.

Clothes with self-help features will give the child pride in dressing himself.

Children's clothes with growth features are economical.

Styles for children's clothing should offer comfort.

The clothing needs of a child will depend to a great extent upon age, climatic conditions, general health, and activities of the child.

Fabric for a child's garment should be soft, comfortable and easy to care for.

The wardrobe for a child should be chosen with as much care as that of any family member.

CLOTHING IV

Clothing and Family Management

INTRODUCTION

This course has been planned to provide the students with opportunities to improve skills in clothing construction, to acquire knowledge and skills in money management, and to use creativity in the home. By the time students enter Clothing IV, they should have developed most, or all of the skills presented in Clothing I, II, and III. In this course, students should be encouraged to use creativity in constructing garments requiring more detailed construction and consequently improve skills previously practiced.

The basic textbook suggested for use in this course is Sturm & Grieser. Guide to Modern Clothing. Webster Division, McGraw-Hill Book Company.

SKILLS

Repeat Learnings                                      New Learnings
1. Repeat learnings from 11th grade level
2. New learnings from 11th grade level

1. Dressy dress
2. Tailored suit
3. Trench coat
4. Slacks suit
5. Reversible article
6. Knitting or crocheting
7. More difficult patterns
8. Articles for the home
CLOTHING IV

Clothing and Family Management

Supplementary Text: East & Wines. Fashion Your Own.
Houghton Mifflin

OBJECTIVES

Weeks to Teach
(x indicates continuous)

BECOMING ACQUAINTED WITH THE CLASSROOM OBJECTIVES

GAINING KNOWLEDGE OF THE CLOTHING NEEDS OF THE ENTIRE FAMILY

DETERMINING THE AMOUNT OF THE TOTAL INCOME THAT CAN BE USED WISELY FOR CLOTHING NEEDS

DEVELOPING THE ABILITY TO MAKE WISE DECISIONS IN SPENDING THE FAMILY CLOTHING DOLLAR

UTILIZING PERSONAL RESOURCES ALONG WITH CAREFUL MONEY MANAGEMENT IN MEETING THE FAMILY CLOTHING NEEDS

IMPROVING AND INCREASING SKILLS IN MAKING GARMENTS REQUIRING MORE DETAILED CONSTRUCTION

INCREASING INTEREST IN USING CREATIVITY IN CONSTRUCTING ARTICLES FOR THE GIRL AND HER HOME

|                                                 | Students use filmstrips, texts, pamphlets, etc., to develop a list of factors that determine a family's clothing budget. |
## GENERALITIES

A knowledge of one's needs and wants is necessary before setting up classroom objectives.

Knowledge of the family's clothing needs is necessary in order to successfully plan the clothing budget.

A budget is a division of the family monetary allowance according to the needs of the family.

The amount a family spends for clothing depends upon the following family situations:

- a. number of family members
- b. needs of family members
- c. family's standards
- d. amount that can be spent.

CLOTHING IV

<table>
<thead>
<tr>
<th>OBJECTIVES</th>
<th>LEARNING EXPERIENCES</th>
</tr>
</thead>
<tbody>
<tr>
<td>Determining the amount of the total income that can be used wisely for clothing needs</td>
<td>Point out relationship between an individual's clothing allowance and the clothing allowance of the entire family.</td>
</tr>
<tr>
<td></td>
<td>Discuss the use of following guide for apportionment of clothing funds:</td>
</tr>
<tr>
<td></td>
<td>Man - 27%</td>
</tr>
<tr>
<td></td>
<td>Woman - 31%</td>
</tr>
<tr>
<td></td>
<td>12-year-old - 17%</td>
</tr>
<tr>
<td></td>
<td>8-year-old - 15%</td>
</tr>
<tr>
<td></td>
<td>4-year-old - 10%</td>
</tr>
<tr>
<td></td>
<td>100%</td>
</tr>
<tr>
<td></td>
<td>Determine factors that might require one family member to receive more for clothing than others.</td>
</tr>
<tr>
<td></td>
<td>Divide class into groups giving each a typical family situation with a definite amount of income. Then, applying factors for determining family clothing budget, establish amounts to be spent by each family member. Use outline for determining family clothing budget.</td>
</tr>
<tr>
<td></td>
<td>List common reasons for over-spending.</td>
</tr>
<tr>
<td></td>
<td>Discuss need for greater care in planning and managing the clothing dollar on a smaller income.</td>
</tr>
<tr>
<td></td>
<td>Students talk with parents about various family expenses. Estimate amount of total family income that can be spent for clothing.</td>
</tr>
<tr>
<td></td>
<td>Using charts showing needs of family members and estimated costs, students make out a clothing budget to suit needs of their family.</td>
</tr>
</tbody>
</table>
A family must cooperate in keeping needs and desires within the family income.

Around fifteen percent of the average family income is spent for clothing.

The smaller the amount of money available for clothing, the greater the necessity for careful planning and selection of a wardrobe.

Planning for and keeping accounts of monetary expenditures help in securing optimum satisfaction from money spent.

### OBJECTIVES

Increasing interest in using creativity in constructing articles for the girl and her home.

### LEARNING EXPERIENCES

Discuss ways students may use creativity in the home. Some suggested projects are:
- a. oven mitts
- b. pot holders
- c. curtains or draperies
- d. slip covers
- e. place mats
- f. throw pillows
- g. table cloth
- h. bedspread

Collect and display pictures of accessories and household articles that could be made.

With parents' help, students decide on article to make for the home.

Students use their creativity in selecting and/or revising the style of the article they are to make.

Study samples of fabrics suitable for the article chosen. Decide which fabric will be used.

Make final plans for constructing the article.

Construct the article. Demonstrate construction techniques when necessary.

Exhibit articles constructed by students.
**GENERALIZATIONS**

Satisfaction may be gained through the use of creativity in constructing an article for the home.

The type of fabric selected should be determined by the style of the article.

**TEACHING MATERIALS**

Other Materials:

Newspapers, magazines, catalogs, fashion magazines, fabric samples.

MONEY OPINIONNAIRE

The following are some opinion statements for your consideration. Write the answer which best expresses your degree of agreement or disagreement with the statement. Your answers will in no way affect your grade or standing in the class. Please answer as follows: Strongly Agree (SA), Agree (A), Undecided (U), Disagree (D), Strongly Disagree (SD):

1. Money is one of the most important things in life.
2. Some people just do not have enough money to budget.
3. One can take a prepared budget and use it as his own.
4. Parents should decide the amount of their children's allowances.
5. Adolescents should be paid for some of the regular work they do at home.
6. It is better not to have a regular allowance because one can get more money by asking for it as he needs it.
7. Money matters are serious to young people.
8. A good credit rating is important.
9. Buying on credit encourages one to buy things one cannot afford.
10. Parents should let their young people find out what it means to earn by earning some of their own money.
11. A child is a big money problem to his parents; and, therefore, he has an obligation to them.
12. Deciding how to spend the family income should be a family project.
13. Father should have more authority as to how the family income should be spent since he earns the money.
14. Parents should let young people select their own clothing.
15. Mother should control the purse strings, giving father his weekly allowance.
16. How each person chooses to spend his allowance should be an individual decision.
17. The only time most people talk about money is when someone is unhappy.
18. One should pay back money that he borrows from his parents.
19. Each family should make its own individual budget to fit its needs.
20. Money matters should be discussed before marriage in the light of day rather than in the moonlight.
21. Women are not supposed to know anything about business affairs.
22. Newlyweds should be able to start housekeeping on the same economic level as their parents.
23. Working children should pay room and board if they live at home after graduation.
24. A wife adds to the family income when she performs her homemaking duties.
25. When people get old and helpless their children should take the responsibility for caring for them.
26. Life insurance should be taken out only when there are dependents.
27. Young married couples should think of saving for their immediate wants rather than their old age.
28. Social Security is "pennies from heaven" in old age.
29. A good husband and father plans early in life for the protection of his family and his old age.
ADULT CLOTHING

Clothes For The Family

INTRODUCTION

An immediate interest in clothing for oneself and family is a factor in motivating adult students in clothing.

These students have some experience in buymanship, but need guidance. They may have some experience in construction; therefore, the activities offered the class must be flexible enough to maintain interest and enthusiasm while providing appropriate learning experiences.

Suitable projects are: a child's garment; tailored blouse or man's shirt; pajamas, shorts, or other crotch garment; lined or half-lined dress; lined jacket or topper. The teacher and student will evaluate the types of skills associated with each project before jointly deciding on which activities to perform.

Sturm and Grieser's Guide to Modern Clothing is recommended as the basic textbook for this course. The texts adopted for Clothing I through Clothing IV can serve as supplementary texts. For any projects involving men's wear, please refer to teaching materials in the guide "Clothing for Young Men."

CLOTHING I TEST

DIRECTIONS: If the following item is true, place a $\checkmark$ in the blank. If it is false, place a $\bigcirc$ in the blank.

1. The most important element of good grooming is good looks.
2. For cleanliness, a bath or shower is necessary at least once a week.
3. The body gives off about a quart of perspiration each day.
4. Taking a bath or shower every day eliminates the need for a deodorant.
5. A girl's hair style should be suited to her personality and facial features.
7. Deodorants are designed to stop perspiration.
8. A good way to select a fragrance is to notice one you like on a friend and get the same one.
9. Curlers come in pretty colors, so it's all right to wear them in public.
10. If nail enamel becomes chipped, remove it even if you do not have time to replace it.
12. It is expensive to keep clothes neat and clean.
13. To wind the bobbin, loosen the stop-motion screw.
14. The feed dog holds the fabric in place while stitching.
15. The take-up lever should be at its highest point when beginning and ending a seam.
16. To turn a corner when stitching, raise the needle and leave the presser foot down.
17. The smallest number on the stitch regulator makes the smallest stitch.
18. When stitching, the largest part of the fabric should be to the left of the needle.
19. The hand wheel turns toward the operator when stitching forward and when back-stitching.
20. The opening for the machine needle is found in the slide plate.
21. The needle-thread tension tightens and loosens the machine stitch.
22. To back-stitch on the machine, raise the take-up lever to its highest point.
23. To begin stitching, lower the presser foot before lowering the needle.
24. The seam guide lines are found on the throat plate.

The stop-motion screw should be tightened when threading the upper part of the machine.
DIRECTIONS: Select the word (or words) which best completes the statement. Place the letter in the space to the left of the number.

26. Which two elements of design are a part of every costume?
   A. shape and texture  
   B. color and value  
   C. line and color  
   D. line and shape

27. The value of a color is its
   A. name  
   B. lightness or darkness  
   C. brightness or dullness  
   D. warmth or coolness

28. Which lines appear to add the most width?
   A. diagonal  
   B. vertical  
   C. horizontal  
   D. curved

29. Which is the best combination of textures?
   A. wool skirt and taffeta blouse  
   B. corduroy skirt and silk blouse  
   C. velvet skirt and cotton blouse  
   D. wool skirt and cotton blouse

30. In which skirt fabric will a tall, slender girl look her best?
   A. large plaid of bulky wool  
   B. baby check of light weight wool  
   C. vertically striped corduroy  
   D. small printed wool knit

31. Which ensemble best follows the principle of design?
   A. red and black plaid skirt and a red sweater with white trim  
   B. orange and brown striped flared skirt and a beige ruffled blouse  
   C. black and white check skirt and a pink check blouse  
   D. green tweed jumper with white blouse

32. Which type of skirt would be most becoming to a tall, heavy girl?
   A. pleated  
   B. straight  
   C. slightly flared  
   D. full gathered

33. The best color choice for a dress for a heavy person is
   A. aqua  
   B. navy  
   C. red  
   D. yellow

34. Pleasing agreement between all parts of a design is termed
   A. monotony  
   B. harmony  
   C. repetition  
   D. balance

35. Which is the warmest color?
   A. blue  
   B. green  
   C. orange  
   D. pink

36. Dark colors affect the wearer by
   A. increasing apparent width  
   B. adding apparent height  
   C. decreasing apparent size  
   D. increasing apparent size

37. Which word means the same as color?
   A. shade  
   B. intensity  
   C. value  
   D. hue
38. Which principle of design is based upon the relationship of size, one part to another?
   A. balance
   B. proportion
   C. repetition
   D. harmony

39. Which of the following body measurements is most important in selecting the pattern size for a flared skirt?
   A. bust
   B. waist
   C. hips
   D. back waist length

40. To choose the correct pattern size for a person, it is important to know her
   A. ready-to-wear size
   B. personality
   C. age
   D. body measurements

41. In choosing fabric for hard and long wear, one should
   A. count the threads per inch
   B. try stretching the cloth to its maximum
   C. rub the surfaces together
   D. look for a close weave

42. The hip measurement is most important in determining the pattern size of a skirt which is
   A. gathered
   B. pleated
   C. straight
   D. flared

43. For a good figure to look best, clothing should be
   A. fashionable
   B. brightly colored
   C. elaborately decorated
   D. well-fitted

44. The general becomingness of a dress may be influenced by the
   A. neckline
   B. sleeve length
   C. shape of the skirt
   D. all of the above

45. Alterations of more than one inch should be made before the
   A. pattern is cut out
   B. garment is pinned together
   C. garment is basted for fitting
   D. garment is sewn for fitting

46. Needles called sharps are best to use for
   A. embroidering
   B. sewing on large buttons
   C. general sewing
   D. machine hemming

47. A tape measure should have metal tips on the ends and should be
   A. easy to read
   B. plastic coated
   C. numbered from opposite ends on reverse side
   D. all of the above

48. A metal thimble is better to use than a plastic thimble because it
   A. is more comfortable
   B. comes in more sizes
   C. has sharply cut depressions
   D. can be used on either hand

49. Scissors and shears are different, scissors have
   A. blades of more than 6 inches in length
   B. handles with one small hole and one large hole
   C. a bent handle
   D. blades less than 6 inches in length
50. Which needle is the best for hand sewing on light weight fabrics?
   A. No. 1  
   B. No. 2
   C. No. 6  
   D. No. 9

51. The cutting tool which has one large and one smaller finger hole and is 6 to 8 inches long is called a
   A. dressmaker shears  
   B. embroidery shears
   C. pinking shears  
   D. sawing scissors

52. Pin the pattern on the fabric by placing the pins
   A. on the seamline  
   B. on the cutting line
   C. inside the seamline  
   D. with the grain

53. Darts are sewn
   A. from the point of the widest end  
   B. with the straight of the grain
   C. from the widest end to the point  
   D. on an angle against the grain

54. Notches should be
   A. cut into the seam allowance  
   B. marked with chalk on the seam allowance
   C. extended beyond the seam allowance  
   D. marked with tracing paper on the seam allowance

55. The pattern piece with the double-headed arrow should be placed
   A. on the true bias  
   B. at a slight angle to the fold
   C. parallel to the lengthwise threads  
   D. parallel to the crosswise threads

56. To turn a corner when stitching on the machine, the fabric is turned after
   A. both the needle and the presser foot are lowered  
   B. both the needle and the presser foot are raised
   C. the needle is raised and the presser foot is lowered  
   D. the needle is lowered and the presser foot is raised

57. To keep curved seams flat, they must be
   A. pressed on the edge  
   B. trimmed to one-eighth inch and pressed
   C. clipped and pressed  
   D. under-stitched and pressed

58. Stitching on one thickness of fabric on a curved edge to keep it from stretching is called
   A. under-stitching  
   B. directional stitching
   C. edge-stitching  
   D. stay-stitching

59. Pressing should be done after
   A. the garment is completed  
   B. each unit is completed
   C. each seam is stitched  
   D. each step listed above

60. Seams which should be clipped before pressing are
   A. bias seams  
   B. curved seams
   C. potted seams  
   D. plain seams
61. In hand sewing, a double thread should be used in
   A. basting
   B. hemming
   C. sewing on buttons
   D. all of the above

62. Long temporary stitching by hand or machine is called
   A. slip-stitching
   B. backstitching
   C. hem-stitching
   D. baste-stitching

63. Constructing one section of a garment before going on to another section is called
   A. garment construction
   B. sectional construction
   C. piece construction
   D. unit construction

64. The pressing of a dart is done
   A. before fitting a garment
   B. before it is crossed with a seam
   C. after each unit is completed
   D. before hemming the garment

65. The purpose of stay-stitching is to
   A. keep seams from raveling
   B. keep seams from stretching
   C. serve as a guide for stitching
   D. keep seams from ripping out

66. Interfacing is used in the garment
   A. to finish edges, such as necklines
   B. to give support to areas receiving hard wear
   C. to line the garment
   D. to provide stretch in areas such as the waist band

67. In pressing a fabric blend, choose a dial setting which is
   A. half-way between the settings for the individual fibers
   B. correct for the more heat tolerant fiber
   C. used for steam ironing
   D. correct for the more sensitive fiber

68. Stay-stitches are used on all
   A. selvage edges
   B. straight edges
   C. crosswise edges
   D. curved and bias edges

69. From the seamline, stay-stitches are placed
   A. 1/8 inch
   B. 1/4 inch
   C. 5/8 inch
   D. 1/2 inch

70. A method used to fasten the ends of a line of machine stitches
   A. stay-stitching
   B. backstitching
   C. slip-stitching
   D. edge-stitching

71. Extra fabric is usually required when making a garment from
   A. plain fabric
   B. plaid fabric
   C. an all-over print
   D. small checked fabric
DIRECTIONS: Place the largest measurement in the space in front of the number.

72. 3/8 inch or 1/4 inch
73. 1/2 inch or 3/4 inch
74. 5/8 inch or 3/4 inch
75. 1/4 inch or 1/2 inch
76. 1/8 inch or 1/4 inch
77. 1/4 yard or 1/2 yard
78. 1/8 yard or 1/4 yard
79. 7/8 yard or 3/4 yard
80. 3/8 yard or 3/4 yard
81. 2/3 yard or 3/8 yard

DIRECTIONS: Find the word (or words) in Column B which best completes the statement in Column A. Place the letter in the space at the left of the number.

CLOTHING II TEST

DIRECTIONS: If the following item is true, place a ☑️ in the blank. If it is false, place a ☐ in the blank.

1. ☑️ To avoid cutting both sleeves for the same arm, place either the right or wrong sides of the material together.

2. ☐ The large pieces of the pattern should be placed on the material before placing the smaller pieces.

3. ☐ When placing a pattern on the fold, the most economical plan is to fold the material down the center with the selvages together.

4. ☑️ When cutting a garment, use short stroked with the shears.

5. ☑️ Keep the shears to the right of the pattern when cutting.

6. ☑️ Markings are placed on the right side of the fabric.

7. ☑️ One side of the garment is marked at a time.

8. ☑️ To determine stitching direction, run your finger along the cut edge.

9. ☑️ When pinked seams are to be used, the recommended practice is to cut out the garment with pinking shears.

10. ☑️ Lock-stitch at beginning and end of permanently stitched darts.

11. ☐ When joining shoulder seam, stitch from armseye to neckline.

12. ☐ Small facings and collars need not be placed on the straight grain of the fabric.

13. ☑️ The usual way to shorten a shirt pattern is to cut it off at the waist edge.

14. ☐ As many alterations as possible should be taken care of before cutting out a pattern.

15. ☑️ The underarm seam of a dress should hang straight from the center of the arm pit, perpendicular to the floor.

16. ☐ To get the best results in pressing rayon, use a hot iron.

17. ☑️ To baste-stitch by machine, push the stitch regulator to bottom of indicator.

18. ☑️ When sewing darts, start at the point and sew to the wide part of the dart.

19. ☑️ Press in the opposite direction of stitching.

20. ☑️ The folded edge of dart is pressed toward the center of the garment.

21. ☑️ Stitch skirt seams from top to bottom.

22. ☐ Skirt seams are trimmed to 1/2 inch.
23. __ Stay-stitch the skirt pieces after seams are closed.
24. __ If unsure of the fit, permanently stitch side seams and try on skirt.
25. __ The placket is placed on the right side of the skirt.
26. __ Pressing seams before crossing them with a row of machine stitching is a recommended procedure.
27. __ Darts should usually be slit open and pressed flat.
28. __ A bias strip of material makes a more satisfactory binding for a curved edge than does a strip cut on the crosswise of the material.
29. __ Place pins perpendicular to the edge of the material in preparing to stitch seams.
30. __ Rayon seam binding is used on wool hems.
31. __ Skirt hems may be satisfactorily put in by the machine.

The following statements refer to the preparation of washable fabric for cutting:
32. __ Tear, if possible, or pull a thread so fabric may be cut on crosswise thread.
33. __ Fold fabric with wrong sides together.
34. __ Fold several times and soak in tepid water.
35. __ Press while wet.
36. __ Smooth occasionally while drying to insure grain perfection.
37. __ Clip selvages if they shrink.
38. __ Twist to remove excess water.
39. __ Lengthwise and crosswise threads should be at right angles.
40. __ A preshrunk fabric which is off grain does not need to be dipped in water.

DIRECTIONS: Identify the fabrics on the left with the correct weave on the right. The weaves may be used more than once.

51. How much fabric is needed for View 2, size 12, with 45" fabric?
   A. 2 1/4 yards
   B. 2 yards
   C. 1 3/4 yards
   D. 1 5/8 yards

52. To make View 1 in size 14 with 36" corduroy, how much fabric is needed?
   A. 1 3/4 yards
   B. 2 1/4 yards
   C. 2 3/8 yards
   D. 2 1/2 yards

DIRECTIONS: If the following practice helps in planning or buying a basic wardrobe within a limited budget, place a + in the blank. If it does not help, place a 0 in the blank.

53. Asking the clerk few questions.
54. Buying garments with elaborate trimming.
55. Planning the wardrobe before buying garments.
56. Planning the wardrobe around a basic color scheme.
57. Buying articles which all the girls are wearing.
58. Wearing or taking along the garment with which new garments must harmonize.
59. Shopping first for the article which is to be worn for the greatest length of time.

DIRECTIONS: If the following item tends to increase the cost of a ready-made dress, place a + in the blank. If it has no effect or decreases the cost, place a 0 in the blank.

60. Dress is sold by a chain store.
61. Store offers no extra services such as alterations.
62. Dress was originated by a well-known designer.
63. Store has many dresses of the same model.
64. Customer had the dress sent out on order.
65. Store allows the customers to return a purchase within a reasonable time.
DIRECTIONS: For the following items select the one best answer and write that letter in the blank to the left of the sentence.

66. Which of the following is not true with regard to a regular, basic pattern?
   A. Neckline deeper in front than in back.
   B. Bustline wider across front than across back.
   C. Armhole deeper on the back than on the front.
   D. Hipline wider across back than across front.

67. In taking the hip measurement for patterns, the tape measure should be placed
   A. around the fullest part of the hip.
   B. 5 or 6 inches below the waist.
   C. as tightly as possible.
   D. with 2 or 3 inches of ease.

68. A junior pattern is designed for the girl
   A. who is a junior in school.
   B. who is 11-16 years of age.
   C. with a fully developed figure with a high bust and short waist.
   D. who is about 5' 5" tall with an average figure for her age.

69. In choosing the correct pattern size for a person, it is most important to know her
   A. personality.
   B. ready-made dress size.
   C. age.
   D. body measurements.

70. Such things as zippers, buttons, and trims required for a pattern are listed on
   A. the back of the pattern envelope.
   B. the front of the pattern envelope.
   C. the instruction sheet.
   D. the pattern pieces.

71. Notches to indicate where seams are to be joined should be
   A. cut outward.
   B. cut inward.
   C. marked with colored pencil.
   D. marked with tailors' chalk.

72. When cutting out a garment, use
   A. pinking shears
   B. scissors
   C. shears

73. The Textile Fiber Products Identification Act requires that labels list
   A. the method for care of fiber.
   B. the amount of shrinkage.
   C. fiber content by generic name.
   D. precautions for using fiber.

74. The difference between worsteds and woolens is a result of differences in
   A. type of yarn and finish.
   B. thread count.
   C. type of weaves used.
   D. the blends of fibers.
75. Nylon tricot is an example of a fabric which is made by
   A. weaving
   B. knitting
   C. felting
   D. laminating

76. Which of the following is considered an animal fiber.
   A. dacron
   B. wool
   C. linen
   D. cotton

77. A fabric consisting of two layers held together with an adhesive is called a
   A. double knit fabric
   B. laminated fabric
   C. bonded fabric
   D. reversible fabric

78. Of the following, the one least suitable for interfacing in a garment is
   A. plain percale
   B. the material itself
   C. medium weight Pellon
   D. permanent finish organdy

79. Wool which is re-woven from fibers which have been woven but not used before is called
   A. reprocessed wool
   B. virgin wool
   C. re-used wool
   D. irregular wool

80. Besides shrinking the fabric, dampening the fabric before using it has the advantage of
   A. getting rid of temporary finish
   B. making fabric easier to sew
   C. aiding in straightening the grain
   D. testing washability of cloth

81. The process of making two pieces of a garment fit together even though they are slightly different lengths (such as set-in sleeve) is called
   A. clean finishing
   B. overlapping
   C. fitting
   D. easing

82. The process described above is needed when
   A. pieces have been cut out carelessly
   B. seams vary in width
   C. fullness is allowed in the pattern for good fit
   D. it produces a neater seam than other methods

83. A waistband or belt is usually made of fabric cut on the lengthwise grain because
   A. it will have a selvage edge.
   B. the crosswise grain may shrink.
   C. the lengthwise grain is stronger.
   D. the design will blend.
84. Constructing one section of a garment before going on to another is called
   A. garment construction
   B. sectional construction
   C. unit construction
   D. tailoring

85. The standard hem width for straight skirts and dresses is
   A. 1 1/8 inches
   B. 2 1/2 inches
   C. 1 inch
   D. 3 inches

86. If the following items were arranged in order for putting in a hem, which
   would be the fourth step?
   A. Machine stitch 1/8 inch from the fold
   B. Mark with hem marker
   C. Slipstitch by hand
   D. Trim off to desired hem width and turn edge under 1/8 inch
   E. Place pins perpendicular to folded hem edge to hold in position for stitching

87. After laundering, it is often necessary to block back to the original
   shape, garments made by
   A. weaving
   B. knitting
   C. felting
   D. bonding

88. Before laundering, clothing should be separated according to
   A. fiber
   B. soil
   C. color
   D. all of the above

89. To remove paint spots on white cotton fabric, the best method to use is to
   A. wash thoroughly in hot soapy water
   B. let stain dry and then remove with cold water
   C. sponge stain with turpentine from back of cloth
   D. apply a mixture of lemon juice and salt

90. Select the most logical order for the following steps to be arranged from
   the lists below.
   STEPS
   A. b,d,a,c,e.
   B. b,d,c,a,e.
   C. c,b,d,a,e.
   D. a,c,b,d,e.

   DIRECTIONS: Illustrated below are pattern pieces on which the arrows indicate
   direction of stay-stitching. In the blanks below, after each corresponding number, place a +
   if the arrow is in the correct direction and a 0 if it is in the incorrect direction.
TRUE - FALSE  Directions: This part consists of true and false statements. If the statement is correct place a X in the blank at the left; if the statement is incorrect place an O in the blank at the left. (The first statement is done correctly to show you how to proceed.)

1. Baste-stitch waistband to skirt before trying it on for fit.

2. Mark termination points of darts with tracing wheel.

3. Use pinking shears to cut out a garment.

4. A placket is placed on the left side of a skirt.

5. The back shoulder should be eased to the front shoulder.

6. The width of the interfacing is the same as the neck facing.

7. Mark one side of a garment at a time when using tracing paper.

8. Seam binding is used on hems of corduroy skirts.

9. Bodice bust darts are pressed upwards.

10. Skirt darts are pressed toward the side seams.

11. Skirt patterns are easier to alter than blouse patterns.

12. Interfacing for a skirt band is cut on the bias.

13. Black, white, and gray are neutral colors.

14. Garments made of intense warm colors make one appear larger.

15. Colors that repeat the skin tone emphasize one's coloring.

16. A short, stout girl should avoid heavy, rough textures.

17. Shin textures make one appear smaller.

18. Interlock is used in sweaters because it adds bulk without weight.

19. Dacron sweaters do not soil readily.

20. Decorative design refers to the basic cut of a garment.

21. A monochromatic color scheme is a one-hue color scheme.

22. Fashions never repeat themselves.

23. Brocade dresses are suitable for school wear.

24. Clothing should be laundered or dry cleaned before remodeling.

25. Cotton is preferred for baby's clothing.
26. One thick fabric is better than several lightweight fabrics for dress for baby.

27. Babies should never be allowed to wear knit or flannelette nighties except at night.

28. The skirt should be eased at least one inch on the waistband.

29. Straps on shoes make the feet appear smaller.

30. A two and one-half inch hem is preferred for a sheath dress.

31. The primary purpose of stay-stitching is to prevent fraying.

32. A casing is a hem through which elastic, ribbon, or a drawstring may be drawn.

33. The stitch regulator controls the tightness or looseness of threads in the machine stitching.

34. Bonding is the process by which the underlining is sealed to the fabric.

35. Edgings and ruffles look best on figured fabrics.

36. Linen is a natural fiber.

37. Fads always reflect styles of good taste.

38. We usually begin stitching from the pointed end of a dart.

39. The folded edge of a dart should be pressed toward the side seam.

40. The grain arrows of the pattern pieces should follow the crosswise threads.

41. Fabric is off grain if the lengthwise and crosswise threads are at right angles.

42. The dress type of zipper is open at the top end.

43. The centered type of zipper application can be used in either the side or center back seam.

44. The color cannot chip from a nylon zipper.

45. It is easier to alter the side seams of a skirt if the skirt has a side placket.

46. Wearing a jacket that ends at the hipline will make the hips appear to be larger.

47. Vertical lines suggest dignity and give an illusion of height.

48. Black and other dark colors add color to pale skins.

49. Girls with heavy legs should not wear short skirts.

50. Every outfit should have two points of interest.
MATCHING Directions: Below are sets of items to be matched. You are to write in the space before each left-hand item the letter of the best description (definition or identification) found in the right-hand column. None of the descriptions on the right may be used more than once. (The first one is done correctly to show you how to proceed.)

A size **burden** needle is the most commonly used in machine sewing.

51. Number 60 thread is ________ than number 50 thread.  
   A. Presser foot  
   B. Correct  
   C. Stitch regulator  
   D. Wrong

52. The length of the machine stitches is determined by the set of the _________.  
   E. 5/8 inch  
   F. Wrong  
   G. Stitch regulator  
   H. Presser foot

53. ________ shears make a sawtooth edge on seams that would otherwise ravel easily.  
   I. 1/8 inch  
   J. Right  
   K. Stitch regulator  
   L. Wrong

54. You can transfer markings (such as darts) to the cloth by the use of tracing paper and _________.  
   A. Machine basting  
   B. Finer  
   C. Stretching  
   D. Tracing wheel

55. The ________ holds the cloth in place for machine sewing.  
   E. Machine basting  
   F. Tracing wheel  
   G. Stitch regulator  
   H. Presser foot

56. A ________ needle snags and pulls the cloth.  
   I. Machine basting  
   J. Stitch regulator  
   K. Presser foot  
   L. Wrong

57. A ________ carries the lower thread in the sewing machine.  
   M. Stitch regulator  
   N. Correct  
   O. Correct  
   P. Stitch regulator

58. Number 5 needles are ________ than number 8 needles.  
   Q. Correct  
   R. Machine basting  
   S. Stitch regulator  
   T. Correct

59. Junior Miss patterns are sold in ________ numbered sizes.  
   U. Correct  
   V. Stitch regulator  
   W. Stitch regulator  
   X. Correct

60. Set the stitch regulator to make 6-8 stitches per inch when _________.  
   Y. Correct  
   Z. Stitch regulator  
   A. Correct  
   B. Correct

61. Before marking the hem of a bias-cut skirt, allow it to hang overnight to permit normal _________._  
   C. Correct  
   D. Stitch regulator  
   E. Stitch regulator  
   F. Correct

62. When purchased, wool material is folded with the ________ sides together.  
   G. Correct  
   H. Stitch regulator  
   I. Correct  
   J. Correct

63. The usual allowance for seams is _________.  
   K. Stitch regulator  
   L. Correct  
   M. Correct  
   N. Correct

64. Stay-stitching is a row of stitching ________ inside the seam allowance.  
   O. Correct  
   P. Correct  
   Q. Correct  
   R. Correct

65. Printed material is usually folded with the ________ sides together when purchased.  
   S. Stitch regulator  
   T. Correct  
   U. Correct  
   V. Correct

66. To prevent material from stretching, we ________ curved edges.  
   W. Stitch regulator  
   X. Correct  
   Y. Correct  
   Z. Correct

67. A ________ cut is at 45\(^\circ\) angle to the selvage edge and has the most stretch.  
   A. Bias  
   B. Correct  
   C. Correct  
   D. Correct

68. The most common seam is the _________.  
   E. Bias  
   F. Correct  
   G. Correct  
   H. Correct

69. Cutting seams at different widths to avoid bulk is called _________.  
   I. Bias  
   J. Correct  
   K. Correct  
   L. Correct

70. Because children's garments receive hard wear, they need _________.  
   M. Bias  
   N. Correct  
   O. Correct  
   P. Correct
MULTIPLE CHOICE

Directions: This part of the test consists of statements with several completions to each statement. For each statement you are to decide which is the correct completion, then write the letter corresponding to this completion in the space at the left of the statement. (The first statement is done correctly to show you how to proceed.)

1. In cutting out a garment, one should
   a. estimate the placing of all pattern pieces first.
