This bibliography was compiled by the Programa de Educacion Interamericana for teachers who need ready sources of good information usable in the classroom, and suitable for a given grade level. The major division of entries is by country in Central and South America, with sections for Canada and the United States. Within each section, entries are arranged according to subject matter: art and the crafts, English language arts, music, the social studies, and Spanish. These teaching areas are further subdivided as follows: 1) publications, with separate listings for books, periodicals, leaflets, pamphlets, fact sheets, and special issues; 2) visual aids, including films and filmstrips or slides; and, 3) listening aids, with records and tapes. Complete bibliographic citations and the suggested grade level are listed for each entry. An appendix contains: publishers, and addresses, producers and rental sources of films, and a short list of free materials. Selected readings are included in SO 001 426; SO 001 424 describes the Programa, and lists the other resources in the series. (Author/VLW)

APPENDIX B  Producers and Rental Sources of Film Materials

APPENDIX C  Sources of Inexpensive Latin American Study Materials

APPENDIX D  Bibliographic and Curricular Resources
Introduction

This is a selected, annotated bibliography, designed especially for teachers who need ready sources of good information, usable in the classroom, pertaining to Inter-American topics and suitable for a given grade level. This bibliography also lists audiovisual aids as well as publications.

The major division of entries is by country and the location of each country section is indicated by gray tabs on the right-hand margin of each page. Five countries of Latin America were included in the first edition and also a section called Latin America; more countries will be added with each new supplement.

Within each country section, entries are arranged according to subject matter. Five teaching areas comprise this category: art and the crafts; the English language arts; music; the social studies; and Spanish. The various subjects are identifiable throughout the book by the color of paper.

The teaching area division is sub-divided as follows: (1) publications, with separate listings of books, periodicals, and other publications (leaflets, pamphlets, fact sheets, special issues); (2) visual aids, including films and film-strips (or slides, if indicated); and (3) listening aids: records and tapes.

The recommended educational level is indicated by the letters E, S, and T; this information will always be the last item of the annotation. If marked E or S, the cited material is considered suitable for direct use by the student of elementary or secondary level. When marked E, S, it can generally be assumed that the intermediate grades and junior high classes could profitably use the material, although in many cases it would be acceptable at a lower or higher level; there is so much variation in course content and ability levels that in some cases teachers must make individual decisions. There are several reasons why some entries are marked T: the material may be highly technical and require adaptation by the teacher; it may increase the teacher's general background knowledge of the topic but not apply directly to the classroom; it also designates teachers' aids such as bibliographies, outlines, teaching units, designs, and instructions for making things. T-E or T-S indicates that the material is probably of interest only to the elementary or secondary teacher but not both.

Teachers of Spanish should, of course, check all other subject matter areas as it would be impractical to cross-index all entries. An exception, however, is Spanish literature; if available in English translation, the entry will be listed also under English Language Arts. Social Studies teachers should refer to other subject matter sections as well as the various sections under Latin America.

Because of the loose-leaf design, it will be possible to add pages and even sections; supplements are planned for later publication. Within
each subject matter section, page numbering begins with the arabic
number 1; this means that each new color begins numbering anew from
1. Instead of simply numbering consecutively throughout the book,
pagination will include the name of the subject and the number of the
page within the subject section, and this information will appear at the
bottom of each page where the numeral alone would ordinarily appear
as: Music 1, Social Studies 1.

Throughout this bulletin, the asterisk has been used to indicate that
Programa is the source or can provide the source of materials so marked.

This bibliography was compiled by the staff of Programa de Educa-
ción Interamericana. We are indebted to Mr. Henry L. Alsmeyer, Jr.,
Reference Librarian, Cushing Memorial Library, Texas A&M University,
for his advice and assistance. Staff members include Amy Mann, Pauline
Freed, Rumaldo Juarez, Helen Williamson, Zorayda Ibarbia, Arminda
Ramirez, Carson Watt, Tom Wood, and Scott Schofield, under the super-
vision of Earl Jones, Director, and Frances F. Dean, Associate Director.

FRANCES F. DEAN
Explanation of Bibliography

Publications

Entries follow the specifications of the Library of Congress system except for minor variations. After the entry is a brief annotation and other pertinent information (illustrations, maps). If the publication is available in paperback form, the name of the paperback edition will be given, usually followed by catalog number and price. All abbreviations used are listed below.

Appendix A contains a list of all book publishers and their addresses; trade names of paperback editions are listed here also.

Visual Aids

Citations of films, filmstrips, and slides generally appear in this order: author (if given), title, producer, catalog number (if any). Then follows a series of symbols which describes the technical properties of the film offering.

Listening Aids

Abbreviations and Explanations

1. When the artist(s) is featured, the citation begins with the individual's (or the group's) name.

2. When no artist is featured or several are included, the citation usually begins with the title of the album or record. Otherwise the album title is cited second.

3. The name of the company and the individual record (or tape) number follow.

4. A brief explanation of the content, including the type of music, whether vocal or instrumental, and any other useful information (pop refers to currently popular music; w/a means with accompaniment). Individual songs are seldom listed, only if there is special interest in a particular title or if the entire record is NOT all of the type cited. The name of the composer or author is given when deemed necessary.
5. Playing time is indicated in minutes.

6. An asterisk indicates that a tape of the music is available through Programa or your Regional Education Service Center. Immediately after the asterisk, the number of minutes of playing time is given (e.g. *19 min.). When ordering, send a blank tape and specifically state:
   a. Tape speed desired (3 3/4, 7 1/2; music should not be taped at 1 7/8)
   b. Stereo or mono (the stereos can be taped mono)
   c. Whether to use one side or both
   d. Whether to use track(s) 1, 2, 3, or 4

7. US-pressed records will not be reproduced by Programa; they must be purchased or otherwise obtained. PEI is the code for Programa-produced records.

8. Records are monaural unless stereo is indicated. All Programa tapes of stereo records are taped stereo but may be recorded monaural if your machine is monaural.

Appendix C is also a guide to source materials. Several non-profit organizations offer Latin America materials; Pan American Union, UNESCO, and the embassies of the individual countries are examples of this. Addresses and prices have been given and in some cases order numbers. For a complete listing, write the source and request the current catalog.

Appendix D lists bibliographies of Latin American publications and curricular materials.
