This bibliography lists selected articles, research reports, monographs, books, and reference works related to criterion-referenced measurement. It is limited primarily to material which deals directly with criterion-referenced tests and testing procedures, and includes reports on computer-assisted test construction and the adaptation of criterion-referenced tests to individualizing learning and instruction. References listed cover the period from 1965 to the present and were located through three primary sources: Current Index to Journals in Education, Research in Education, and the library collection at Educational Testing Service. (Author/DLG)
Criterion-Referenced Measurement
A Bibliography
The Clearinghouse operates under contract with the U. S. Department of Health, Education and Welfare, Office of Education. Contractors are encouraged to express freely their judgment in professional and technical matters. INTRODUCTION

This bibliography lists selected articles, research reports, monographs, books, and reference works related to criterion-referenced measurement and was prepared in response to an increasing number of requests for current information.

The bibliography is limited primarily to material which deals directly with criterion-referenced tests and testing procedure; for example, research reports or commentaries. It also includes reports on computer-assisted test construction and the adaptation of criterion-referenced tests to individualizing learning and instruction.

References listed cover the period from 1965 to the present and were located through three primary sources: Current Index to Journals in Education, Research in Education, and the library collection at Educational Testing Service.

This bibliography follows normal practice in listing the citations alphabetically by first author, followed by title and other publication or availability data.
Instruments or documents stated as being available from EDRS can be ordered from:

ERIC Document Reproduction Service
P. O. Drawer O
Bethesda, Maryland 20014

The prices quoted below, which apply at this time, are subject to change. It is always advisable, therefore, to check the most recent issue of Research in Education for current pricing information.

MF (Microfiche) 65 cents per title (no page limit)

HC (Full-size copy) $3.29 1-100 pages
$6.58 101-200 pages
Each additional 1-100 pages, $3.29.

These regulations apply to ordering:
(a) All orders must be in writing.
(b) Title and ED number must be given.
(c) Payment must accompany orders under $10.00.
(d) There is no handling charge.
(e) Book Rate or Library Rate postage is included in the above prices.
(f) The difference between Book Rate or Library Rate and first class or foreign postage (outside the continental United States) rates will be billed at cost.
