A course in introduction to music emphasizing modes and forms is presented. The approach used is a laboratory one in which pupils will develop skill in playing string instruments, sing, listen to, read and compose music with emphasis on identification of elementary concepts of mode and form. Course objectives include: (1) The pupil will select the title of a familiar melody heard from a list provided; (2) The pupil will identify the performing medium by ear; (3) The pupil will determine by ear if an example contains a complete cadence, an incomplete cadence, or no cadence; (4) The pupil will properly tighten, rosin and loosen bow; (5) The pupil will play rhythmic patterns on the open strings; (6) The pupil will play simple melodies which will utilize several bowing techniques; and (7) The pupil will demonstrate proper left hand position while performing three different finger patterns on each string in both half and first positions. Course content covers: (1) development of performance skills, (2) major scales, major and minor chords, and (3) forms. (Author/CK)

II. COURSE NUMBER

5642.3-4

III. COURSE DESCRIPTION

An introduction to music emphasizing modes and forms. A laboratory approach in which pupils will develop skill in playing string instruments, sing, listen to, read and compose music with emphasis on identification of elementary concepts of mode and form.

IV. COURSE ENROLLMENT GUIDELINES

Pupils may have developed skills needed for specific courses prior to entering a middle, junior or senior high school. If so, they should be placed in courses appropriate to their development. Consideration needs to be given to pupil's knowledge, performance skills, and motivation for study in determining appropriate placement for instruction.

V. COURSE OF STUDY OBJECTIVES

A. Musicianship

1. The pupil will select the title of a familiar melody heard from a list provided.

2. The pupil will identify the performing medium by ear from the following choices: violin, clarinet, piano, trumpet, flute, cello, trombone, recorder, oboe, saxophone, French horn, English horn, and bassoon.

3. The pupil will determine by ear if an example contains a complete cadence, an incomplete cadence or no cadence.

4. The pupil will identify fundamental dynamics markings, symbols and terms.
5. Given a staff containing a clef sign, meter signature, bar lines and the initial note, the pupil will complete the notation for pitch and duration from melodic dictation.

6. Given a staff-notated example, the pupil will indicate any pitch discrepancies in an example heard.

7. Given several samples of staff notation, the pupil will select the one matching an example heard.

8. Given a familiar melody in staff notation without a key signature and aided by hearing a performance of the melody exactly as notated, the student will select the needed key signature from a group provided.

9. After hearing the melody performed, the student will select from a group provided the proper sequence of letters to describe the form of the melody.

10. Given a staff-notated example, the student will select from a group provided the proper sequence of letters to describe the form of the melody.

11. Given a familiar melody in staff notation, the student will select the title from a list provided.

B. Performance

1. The pupil will properly tighten, rosin and loosen bow. He will demonstrate maintenance of the entire instrument including cleaning strings and bow hair. He will properly tune the instrument using the piano as a guide.

2. The pupil will play rhythmic patterns on the open strings which include whole, half, dotted half, quarter and eighth notes and their corresponding rests by both rote and notation. Time signatures will include 4/4, 3/4, and 2/4 meter.

3. The pupil will play simple melodies which will utilize the following bowing techniques: détaché (above middle, below middle, and whole bow), martelé (above middle, below middle, and whole bow), slurs, spiccato and pizzicato (keeping bow in right hand).

4. The pupil will demonstrate proper left hand position while performing three different finger patterns on each string in both half and first positions. These patterns will be performed at a speed of at least one tone per second.

5. The pupil will demonstrate knowledge of key signatures by playing selected melodies in the keys of "C", "G", "D" and "F".
