A committee of administrators and faculty of the Fort Benton school system, assisted by consultants from Montana State University, developed a social studies curriculum on the theme "the expanding social order." Objectives of the curriculum are to help the student to acquire a dependable body of knowledge in addition to developing cooperative attitudes toward society, values consistent with a democratic creed, and inquiry skills with which he can search for truth. The K-12 curriculum outline interrelates the disciplines of history, geography, political science, anthropology, sociology, economics, and psychology. The theme is expanded from individual adjustment to group situations in kindergarten through studies of family and community in the primary grades; studies of regions, the United States, and Inter-American countries in grades 4-6; studies of the Pacific and Atlantic communities, the State of Montana, and civics in grades 7 and 8; and studies of the student/individual, world civilization, the United States as a world power, constitutional considerations, and current world affairs in grades 9-12. Objectives and resource materials are specified for each grade level. (JH)

PREFACE

Curriculum development in a small school is often touched on very little by administrators and faculties because of the lack of funds, the lack of time and the dependence upon state departments and larger school systems for guides.

We in the Fort Benton system have not accepted this philosophy of dependence for at least the last two years.

The Social Studies Curriculum Outline found within these covers came about as part of an action research for need on the part of all of our students. We, as well as many schools of like size, had the need. Funds to write the outline came from ESEA Title V. The consultants and services for the project came from Montana State University. We are thankful for both.

As administrators, we often deal in what the written form means to a school system. In this study the depth of understanding and the enthusiasm of the people involved will reap benefits for our school for years to come and are not tangible in nature.

Members of this committee from the Fort Benton School System will be available in part or whole for consultant services to any district upon request for information with regard to the outline in part or whole.

William J. Hoppes
Superintendent of Schools
STATEMENT OF PHILOSOPHY

Our primary purpose is to develop a social studies curriculum which will help each student develop into a constructive citizen. In this personal growth the student will develop cooperative attitudes toward society, develop values consistent with a democratic creed, acquire a dependable body of knowledge, and develop inquiry skills with which he can search for truth.

We believe that in order to make our social studies curriculum more meaningful for our students a planned scope and sequence is necessary. In order to accomplish this, the theme "the expanding social order" will be developed through a consideration of the disciplines of history, geography, political science, anthropology, sociology, economics and psychology with the best interest of the students in mind in grades K-12.

Through this curriculum the student will be given the opportunity to develop a favorable self-image. By this we mean the student will become actively involved in the learning process; the student will be given the opportunity for more self-expression; the student will be given the opportunity to acquire some degree of success – thereby he will be developing a real confidence in his own ability.
INTRODUCTION

This social studies curriculum outline was developed primarily by a committee representing the Fort Benton School System. The project was funded through an ESEA Title V grant to the Fort Benton Public Schools.

The project group initially consisted of seven members; however, an agreement was made with Montana State University to offer this program for college credit, so an additional four people representing the schools of Highwood, Chester and Fort Benton became involved. Consultative services were also received from Montana State University.

The writing of this outline was preceded by surveying the Fort Benton Schools' past social studies efforts (Appendix A), by surveying numerous teachers, administrators, professors and State Department directors for current practices in the social studies areas (Appendix B), by making an on-site visitation to five school systems in the state of Washington (Appendix C), and by researching all available material (Appendix D).

Personnel involved in this project were:

James A. Longin -- Project Director

TERMINOLOGY

1. BEHAVIORAL INSTRUCTIONAL OBJECTIVE - refers to those objectives used to measure the terminal behavior of the student which are intended to help develop the behavioral concept and in turn the grade level theme.

2. BEHAVIORAL CONCEPT - refers to those concepts written in behavioral terms which are intended to further develop the grade level theme.

3. COMMUNICATION - the exchange of thought between persons by speech or letter.

4. CONSUMER ATTITUDE - exercising well informed, sound judgment representative of feeling or conviction concerning the use of goods.

5. CULTURE - the total pattern of human behavior and its products embodied in thought, speech, action, and artifacts and dependent upon man's transmission of knowledge through the use of tools, language and systems of abstract thought.

6. DEFINE - to establish or state clearly with authority.

7. DEMONSTRATE - to explain, as in teaching, by use of examples or other illustrative material; to show.

8. DISCIPLINES - these are the seven areas of study considered by this curriculum committee as the means to examine the social order.
   a. History - a record and the memory of the past human events
   b. Geography - the study of the earth as the human habitat
   c. Political Science - the study of the political systems which make the authoritative allocation of values in society
   d. Anthropology - the study of man and his works
   e. Sociology - the study of group life
   f. Economics - the study of the production, distribution and consumption of goods
   g. Psychology - the study of individual behavior

9. DIFFERENTIATE - to recognize and state differences.

10. ETHICS - that branch of philosophy which treats of man's moral duties and obligations.

11. ENVIRONMENT - surroundings; especially the conditions or influences that affect the growth and development of a person, animal or plant.

12. GOALS - refers to those eleven basic goals established by this committee as the over-all concern of this curriculum.
13. GOVERNMENT - control and direction of affairs, as of city, state or nation.

14. GRADE LEVEL THEME - refers to that theme which is being developed at that particular grade level.

15. IDENTIFY - to prove that a thing is the same as that which is already known.

16. INDICATE - to point out or make known.

17. INTERDEPENDENCE - the act of depending on one another; a mutual dependence.

18. LAW - a rule of conduct laid down and enforced by the supreme governing authority in a community, as the legislature of a state or nation, or established by custom; an edict, statute or ordinance.

19. LEISURE TIME - that time which is apart from an individual's work time.

20. INTERPRET - to explain or tell the meaning of.

21. MAJOR THEME - refers to that theme which is being developed throughout the entire curriculum, "the expanding social order."

22. MORALS - concerned with, or relating to, what is right and wrong in human behavior.

23. RACE - tool classification used by anthropologists to classify the features or qualities belonging to a stock or group of people.

24. REFLECTIVE THOUGHT - the serious, careful, logical, mental concentration on ideas.

25. RECITE - to tell in detail; to relate, to answer questions about a lesson.

26. TRACE - to study or follow the development or progress of a thing.

27. UNDERSTAND - to develop a knowledge of.

28. SEQUENTIAL ORDER - refers to the arrangement of the curriculum to meet student needs and content demands.

29. APPRECIATION - to see the worth of and to be grateful for.

30. REVOLUTION - a rapid change of events.
BASIC GOALS

This project group identified eleven basic goals in the field of social studies. These goals are stated as follows:

1. Develop an appreciation of social studies.
2. Develop an understanding of self and man's interdependence.
3. Develop an understanding and appreciation of man and his culture.
4. Develop a respect for law and government.
5. Develop an understanding of, appreciation of, respect for, and care for our environment.
6. Develop a knowledge of man's existence on earth and the issues resulting.
7. Develop an attitude toward and acceptance of change.
8. Develop an understanding of morals and ethics.
9. Develop a wise consumer attitude.
10. Develop the ability for reflective thought and communication.
11. Develop wise use of leisure time.
EXPANDING SOCIAL ORDER

As is indicated in our philosophy, the main theme of this social studies curriculum is "the expanding social order." This design was developed to illustrate our major theme and the grade level themes in a scope and sequence format.
THEMES AND THEIR RATIONALE

At each grade level a theme is identified and a rationale is indicated for that theme.

<table>
<thead>
<tr>
<th>Grade Level</th>
<th>Theme</th>
<th>Rationale</th>
</tr>
</thead>
</table>
| K           | Individual-Group Adjustment          | 1. Since kindergarten is probably the child's first exposure to a constant large group situation away from parental guidance, he needs to learn to adjust to a group situation.  
2. We also recognize the need of the student to develop as a complete individual in his group adjustment. |
| 1           | Studies of Families                  | 1. Because our social studies program is designed to expose the child to roles in society, it is natural to begin with the basic unit in our society - the family.  
2. Since learning depends on relating new ideas to what is already familiar, the family is studied to present concepts in all the social science disciplines in situations with which the first grader can relate.  
3. This theme is the first in the sequence in our consideration of the expanding social order. |
| 2           | Studies of Communities               | 1. This study is in sequential order following our adopted theme, the expanding social order.  
2. The second grader is better adjusted to school life and is no longer tied so closely to the family unit in his interests; so he is now moving into the environment away from home. By studying the various aspects of the community, he can develop a better understanding of them. |
| 3           | Studies of the Metropolitan Areas     | 1. This study follows the study of local communities in the sequence of our adopted theme, the expanding social order.  
2. By the third grade the child can better envision places beyond his immediate experiences; so he should be able to compare metropolitan areas with life in our local community. |
<table>
<thead>
<tr>
<th>Grade Level</th>
<th>Theme</th>
<th>Rationale</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td>Studies of Regional Areas</td>
<td>1. This study follows the study of metropolitan areas in the sequence of our adopted theme of the expanding social order.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>2. The student has a need due to the mobility of men to know about regions so he can relate this to his future place in society.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>3. Psychologically a fourth grade student should be able to understand logical and concrete examples; e.g., how the distribution of natural resources, population growth and industries are related to physical factors as climate, land forms and water bodies.</td>
</tr>
<tr>
<td>5</td>
<td>Studies of the United States</td>
<td>1. This study follows the sequence outline under our adopted theme, the expanding social order.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>2. Students on this level are becoming interested in the events of the United States and why they are happening.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>3. Students on this level are becoming interested in their personal heritage.</td>
</tr>
<tr>
<td>6</td>
<td>Studies of Inter-America</td>
<td>1. This study follows the sequential outline of our adopted theme, the expanding social order.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>2. Our shrinking world due to communication and transportation is making it imperative that the student understands our country's interdependence with Inter-America.</td>
</tr>
<tr>
<td>7</td>
<td>Studies of Montana (1st semester)</td>
<td>1. Due to the change of physical environment of the seventh grader from the elementary school to the junior high school, we feel that a study of Montana, a subject that he is familiar with, will help the student's adjustment with a somewhat unfamiliar environment.</td>
</tr>
<tr>
<td></td>
<td>Pacific Community (2nd semester)</td>
<td>1. This follows the sequence of the expanding social order in two ways;</td>
</tr>
<tr>
<td></td>
<td></td>
<td>a. A tie will be made between the Pacific community and how its nations affect Montana.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>b. It also follows the sequential development from the Inter-Americas studies given at the sixth grade level.</td>
</tr>
<tr>
<td>Grade Level</td>
<td>Theme</td>
<td>Rationale</td>
</tr>
<tr>
<td>-------------</td>
<td>-----------------------------------------</td>
<td>------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
</tbody>
</table>
| 8           | Atlantic Community (1st semester)       | 1. This study follows the sequence adopted in the theme, the expanding social order. Also, since Civics is taught the second semester and the Atlantic Community contributed much to our understanding of Civics, we feel it was desirable in this sequence.  
2. Due to the enormity of the global community (Pacific and Atlantic Communities), we feel the summer break between these two courses is desirable. |
|             | Civics (2nd semester)                   | 1. This study follows the sequence mentioned in the rationale of the Atlantic Community.  
2. Civics is a State requirement which fits our sequence at this level. |
| 9           | The Student - The Individual (Self Awareness) | 1. This study is sequential to the Civics course taught previously which emphasized the individual's awareness of government. Now the focus will be on the individual.  
2. From this point on in his education the student must make decisions involving elective courses, job opportunities, the choice of friends, morality, etc. A course that helps the student find himself is particularly appropriate at this age. |
|             | Human Relations (1st Semester)          | 1. After learning about oneself and how he relates to society, we feel an occupational information class will supplement our approach.  
2. The student should have some understanding of where certain cultures developed and how these cultures have influenced modern cultures.  
3. This is a school district requirement.  
4. The sequence of the theme, the expanding social order, culminates in this study. |
| 10          | Man's Civilization                      | 1. A study of early civilizations would be appropriate at this level because the student studies these regions from a geographical point of view, and a historical point of view is needed.  
2. The student should have some understanding of where certain cultures developed and how these cultures have influenced modern cultures.  
3. This is a school district requirement.  
4. The sequence of the theme, the expanding social order, culminates in this study. |
<table>
<thead>
<tr>
<th>Grade Level</th>
<th>Theme</th>
<th>Rationale</th>
</tr>
</thead>
</table>
| 11          | The Emergence of the U. S. as a World Power | 1. The students at this level are concerned with the image the United States has today. This is an excellent time then to take an in-depth view of the elements that made the United States a world power.  
2. The study of the United States is a State requirement.  
3. This study will be sequential with the previous study of the United States on the fifth grade level. |
| 12          | Constitutional Interpretations (1st semester) | 1. This course is a State requirement.  
2. Many of the problems in the United States are an indirect result of constitutional interpretations. Many of these interpretations involve the student directly, such as decisions concerning hair length, segregation, the draft, etc.  
3. This course fits in sequence with the United States studies and with the current world affairs class. |
|             | Current World Affairs (2nd semester) | 1. This course will develop an awareness of current events with which the student may become confronted.  
2. The student should be able to make an in-depth study of current world problems involving the United States. |
GENERAL NOTES

1. In the curriculum outline itself, the major theme for each grade level has been expressed; the main concepts to be developed in each theme are expressed; more specific behavioral sub-concepts are also expressed; an example of a very specific behavioral instructional objective is indicated for each grade level; and a list of resource material has also been indicated. The format for this is as follows:

   Grade Level:
   Theme:
   Behavioral Concepts: --indicated by Roman numerals
   Behavioral Sub-concepts: --indicated by capital letters
   Example of Behavioral Instructional Objective:
   List of Resources:

2. It is the recommendation of this committee that this curriculum be considered for discussion at least once a month during our in-service periods.

3. It is the recommendation of this committee that a group of not less than six staff members be employed for at least a one-week period during the summer to revise this curriculum.

4. It is suggested by this committee that teachers interested in bringing guest speakers into their discussions refer to the revised Fort Benton Human Resource Guide.
INDIVIDUAL - GROUP
ADJUSTMENT
KINDERGARTEN

INDIVIDUAL-GROUP ADJUSTMENT

I. Develop appropriate social and emotional attitudes

A. The child will demonstrate his ability for self-control; e.g., sharing materials, sharing time, etc.
B. The child will demonstrate his ability to follow rules established in the classroom and in the school.
C. The child will follow habits of cleanliness.
D. The child will demonstrate responsibility for his own materials as well as classroom materials.
E. The child will demonstrate proper habits of courtesy.
F. The child will demonstrate his ability to listen and follow directions.
G. The child will demonstrate pride in his work.

II. Develop self-confidence

A. The child will demonstrate his ability to express himself through oral language.
B. The child will express himself through music, dramatization and the manipulative arts (painting, drawing, clay modeling, etc.).
C. The child will listen to stories and take part in discussions in order to expand his fund of knowledge.
D. The child will demonstrate ability to work independently.

Example of Behavioral Instructional Objective:

The child will place his crayons in the box, take the box to the shelf, and place the box on the shelf daily.

Resources:

(Note: The teacher will find various sets of pictures in the media center that may be used as a basis for discussion of various topics. They are not topics dealing with the social studies, but will help develop discussion skills. The teacher is also encouraged to make her own study prints.)

Books

My Hands - Aliki
Find Out by Touching - Showers, Paul
The Smallest Boy in Class - Beim, Jerrold
Tony and His Friends - Jeff-Chandler, E. W.
Almost Big Enough - Tamburine, Jean
Going to Kindergarten - Jones, William E.

(Note: The teacher will find many other books in the primary section of the library that will help develop concepts for the Kindergarten.)
Film

Beginning Responsibility - 395
(Note: Films may be obtained from the State Film Library.)

Records

Music for Little Folks - 398
London Bridge is Falling Down and Other Songs and Stories - 398
More Mother Goose with Rhythm Bank - 396
Happy Birthday and Songs for Every Holiday - 394
Mother Goose Nursery Songs - 398
Acting Out the ABC's - 411
Learning the ABC's and How to Count - 411
Singing Sounds - 414
Adventures in Resting, Vol. I - 613.7
Adventures in Resting, Vol. II - 613.7
Kiddie Hit Parade - 780

Human Resources

(Note: Refer to Revised Fort Benton Human Resource Guide.)
GRADE ONE

STUDIES OF FAMILIES

I. Develop the understanding that individual needs are met through families.
   A. The student will be able to identify ways that families show love and give security.
   B. The student will be able to identify ways in which family members help each other.
   C. The student will discuss ways in which families enjoy life as a group in contrast to individual living.

II. Develop an understanding of the needs and wants of family units.
   A. The student will be able to identify the need for homes.
   B. The student will compare various types of homes in his community and throughout the world.
   C. The student will be able to identify what rules are, how and why they are established and/or changed, and be able to state orally some rules in their home and school.
   D. The student will be able to differentiate between needs and wants.
   E. The student will be able to discuss how needs and wants are met and will be able to identify the forces that limit the satisfaction of needs and wants.

III. Develop the understanding that some family needs are met outside the home.
   A. The student will show development of patriotism by being able to identify the United States flag, recite the Pledge of Allegiance to the flag, sing the first stanza of America and recognize the tune of the national anthem.
   B. The student will be able to identify some famous Americans.

IV. Develop the understanding that families live in different locations and their cultures vary.
   A. The student will be able to identify the shape of the earth.
   B. The student will be able to locate the cardinal directions on a map.
   C. The student will be able to identify on a map the color symbols on blue for water and other colors for land.
   D. The student will be able to differentiate between a model and the real thing.
   E. The student will be able to locate the United States on a map, identify the shape of the United States, and locate Montana on a map.
   F. The student will be able to locate Mexico on a map.
   G. The student will be able to compare the culture of Mexico to his own culture.
   H. The student will be able to locate the areas of land inhabited by Eskimos.
   I. The student will compare the land and climate of the Far North to his own geographical environment.
   J. The student will compare the culture of the Eskimos to his own culture.
Develop the understanding that families change.

A. The student will demonstrate how he has grown.
B. The student will indicate some of the changes within his family structure.
C. The student will be able to identify some areas of progress from the turn of the century to his family life today.
D. The student will compare family life of earlier American groups with his life today; e.g., Indians and Pilgrims.

Example of Behavioral Instructional Objective:

Given a set of numbered pictures, the student will identify by listing on paper the numbers of the pictures that show basic needs and those showing wants.

Human Resources

(Note: Refer to Revised Fort Benton Human Resource Guide.)
STUDIES OF COMMUNITIES
GRADE TWO

STUDIES OF COMMUNITIES

I. Develop the understanding that communities are groups of people living in designated areas who have common interests and needs.
   A. The student will be able to locate various businesses, churches, civic buildings and recreational areas in his community.
   B. The student will be able to identify the need for various workers in the community.

II. Develop the understanding that when a community exists, certain needs of the people must be met.
   A. The student will be able to list some rules in the community that pertain to him.
   B. The student will be able to identify the mayor and town councilmen as governmental leaders.
   C. The student will be able to indicate some of his responsibilities as a citizen.
   D. The student will be able to indicate some understanding of the taxation system by discussing some uses of taxes.
   E. The student will be able to identify some common interest groups within the community; e.g., scouts, church groups, 2nd grade groups.
   F. The student will be able to identify community resources for leisure time.
   G. The student will be able to identify food as a basic need of all people.

III. Develop an understanding that communities exist because people living together produce goods and services for one another.
   A. The student will be able to differentiate between goods and services.
   B. The student will compare production of goods in early days to production of goods today.
   C. The student will be able to discuss that occupations of people vary so that goods and services can be produced.
   D. The student will be able to identify situations in which workers do not keep the same occupations.

IV. Develop an understanding that communities vary in their natural and man-made features.
   A. The student will be able to identify various land forms and water bodies.
   B. The student will be able to list various aspects of the weather in his community and in other communities.
   C. The student will be able to identify various kinds of plant life within his community and in other communities.
   D. The student will be able to list some man-made features, e.g., roads, bridges, buildings, etc.
   E. The student will be able to identify a continent.
   F. The student will be able to list differences between maps and globes.
   G. The student will interpret a map key on a beginner's map.
   H. The student will identify the directions between the cardinal directions, e.g., Northwest as being the direction between North and West.
V. Develop the understanding that communities change.
   A. The student will indicate how communities change by relating how communities begin and develop.
   B. The student will discuss the changes that occur as the needs of the people change.

VI. Develop an understanding that local communities throughout the world are more similar than different.
   A. The student will be able to identify ways in which the life of people in France is similar to his own.
   B. The student may identify ways in which people of other countries live similar lives to his own.

Example of Behavioral Instructional Objective:

The student will write three rules of the community that pertain to him.

STUDIES OF METROPOLITAN AREAS
GRADE THREE

STUDIES OF METROPOLITAN AREAS

I. Develop an understanding of the sections of a metropolitan area.
   A. The student will be able to identify the different parts of a metropolitan area; e.g., industrial, residential, etc.
   B. The student will discuss the relationship and interdependence between the sections of a metropolitan area.
   C. The student will compare various residential areas within a metropolis; e.g., suburbia, slum, etc.

II. Develop an understanding of where and why cities are established.
   A. The student will be able to identify the roles natural resources and production of goods play in the location of cities.
   B. The student will show the relationship between natural resources and needs and wants of people.
   C. The student will discuss how climate and physical features affect the location of cities.
   D. The student will identify various methods of transportation and explain the cities' needs for them.

III. Develop a further understanding of map skills and begin the study of charts showing various aspects of metropolitan areas.
   A. The student will be able to identify the hemispheres.
   B. The student will be able to locate some metropolitan areas on a world map.
   C. The student will indicate an ability to read charts.
   D. The student will identify various features of a topographical map.

IV. Develop an understanding of some factors involved in governing a metropolitan area.
   A. The student will identify various workers in the structure of a county government.
   B. The student will compare the structure of city and county government.
   C. The student will discuss the responsibilities of citizens in electing governmental workers.
   D. The student will identify needs for taxes and sources of tax monies; e.g., school.

V. Develop an understanding that people of many races and cultures have contributed to the American culture.
   A. The student will identify the nationality of his ancestry and other nationalities that have immigrated to the United States.
   B. The student will indicate how all peoples are alike.
   C. The student will discuss aspects of various cultures that have been brought to the United States.
VI. Develop an understanding of how metropolitan areas grow and change.

A. The student will identify history as the story of how, why and when people and things have changed.
B. The student will trace the development of several metropolitan areas to illustrate change.
C. The student will discuss changes in metropolitan areas that have been beneficial to man and changes which have impaired his progress.
D. The student will discuss anticipated changes for metropolitan areas.

Example of a Behavioral Instructional Objective:

Given a reproduction of a world map and a list of metropolitan areas studied during the course, the student will locate by number five metropolitan areas of the world.

STUDIES OF REGIONAL AREAS
Grade Four

Regional Studies

I. Develop a further understanding of map skills as they relate to regional studies.
   A. The student will review map skills taught at first, second and third grade levels.
   B. The student will be able to discuss graphs, latitude, longitude, and boundaries as they are related to regions.
   C. The student will be able to identify physical features and resources of suggested regions in the United States in spatial relationship to Brazil.

II. Develop an understanding and an appreciation of cultural change within various regions.
   A. The student will be able to identify and discuss languages, religions, needs, ethnic groups and population changes of various suggested regions; e.g., Australia, Mexico, and Appalachia.

III. Develop an understanding of economic regions.
   A. The student will be able to differentiate agricultural regions from industrial regions.
   B. The student will be able to discuss his personal budget and its effect on his economic region.

IV. Develop an understanding of Montana as part of a region.
   A. The student will be able to identify Montana's location, physical features and resources as a part of a region.
   B. The student will be able to identify and discuss languages, religions, needs, ethnic groups and population changes of Montana as a region.
   C. The student will be able to recognize Montana's role in an economic region.

Example of a Behavioral Instructional Objective:

The students will be able to point ten out of ten specific locations on a map or globe, using the map grid.

GRADE FIVE

STUDIES OF THE UNITED STATES

I. Develop an understanding of the Foundations of the United States.
   A. The student will identify and trace the Western Movement from the
      "old world" to the "new world".
   B. The student will differentiate the various cultures that adapted
      to the "new world".
   C. The student will trace the pattern of exploration and settlement
      and compare and contrast this pattern to the American Western
      Movement.
   D. The student will discuss various causes and results of the American
      Revolutionary War.
   E. The student will be able to indicate causes and results of the
      Industrial Revolution in the United States.
   F. The student will be able to indicate major causes and results of the
      Civil War.

II. Develop an understanding of the United States in the modern world.
(Emphasis on the historical aspects and development)
   A. The student will be able to differentiate the ideologies of
      isolationism and internationalism.
   B. The student will be able to discuss the major reasons why World
      War I and World War II gave the United States the role as a world
      power.

Example of a Behavioral Instructional Objective

The student will be able to list five causes of the Civil War as
presented in class.

STUDIES OF INTER-AMERICA
GRADE SIX

INTERAMERICAN STUDIES

I. Develop an understanding of our neighbor to the North, Canada.

A. The student will be able to identify Canada's cultural contributions to the United States; e.g., language, customs, government, etc.
B. The student will be able to indicate Canada's economic influence on the United States; e.g., agriculture, manufacturing, natural resources, etc.
C. The student will be able to apply previously taught and new map skills to the study of Canada.
   1. Review skills; e.g., globe, grid, legend, scale of miles, hemisphere
   2. New skills; e.g., zones, wind and water currents

II. Develop an understanding of our neighbors in Latin America (Mexico, Central America and South America)

A. The student will be able to discuss Mexico's cultural influence on the United States; e.g., language, customs, etc.
B. The student will be able to identify Mexico's economic influence on the United States; e.g., trade, resources, agriculture.
C. The student will be able to apply various map skills to the study of Mexico.
D. The student will be able to identify the five Central American countries.
E. The student will be able to indicate Central America's cultural contributions to the United States; e.g., language, immigration, etc.
F. The student will be able to discuss Central America's economic influences on the United States; e.g., exports, transportation, mineral resources, etc.
G. The student will be able to apply various map skills to the study of Central America; e.g., Canal Zone, pictographs, etc.
H. The student will be able to discuss South America's cultural contributions to the United States; e.g., immigration, languages, etc.
I. The student will be able to indicate South America's economic influences on the United States; e.g., trade, resources, etc.
J. The student will be able to apply various map skills to the study of South America; e.g., Mestizo, commercial, subsistence, tropical zones, culture, etc.

Example of Behavioral Instructional Objective:

The student will be able to list four similarities and four differences as presented in class when comparing Mexico to the United States.

STUDIES OF MONTANA
GRADE SEVEN

STUDIES OF MONTANA

I. Develop an understanding and appreciation of the forces that built and are building Montana.

   A. The student will be able to discuss the effects of early exploration in Montana.
   B. The student will be able to trace the routes taken in Montana by early explorers.
   C. The student will be able to identify the effects of fur trade on Montana's growth.
   D. The student will be able to identify the effects that mining had and is having on the growth of Montana.
   E. The student will be able to discuss the role of the Indians in the growth of Montana.
   F. The student will be able to discuss the livestock industry and its role in promoting Montana's growth.
   G. The student will be able to indicate how transportation affected and is affecting the growth of Montana.
   H. The student will be able to discuss the agricultural industry and its role in promoting Montana's growth.
   I. The student will be able to discuss Montana's efforts to promote recreational opportunity.
   J. The student will be able to discuss Montana's involvement in ecology as demonstrated through the action of Legislature.

II. Develop an understanding and appreciation of the political movements of Montana.

   A. The student will be able to trace the important political events establishing Montana as a territory.
   B. The student will be able to trace the important political events establishing statehood for Montana.
   C. The student will be able to discuss current political activities of Montana.

Example of Behavioral Instructional Objective:

The student will be able to list five early explorers and their importance to Montana.

STUDIES
OF THE
PACIFIC
COMMUNITY
GRADE SEVEN

STUDIES OF THE PACIFIC COMMUNITY

I. Develop an understanding of the physical regions of the Pacific Community.
   A. The student will be able to identify the Far East, Australia and New Zealand as the Pacific Community.
   B. The student will be able to discuss the various climates of the Pacific Community.

II. Develop an understanding of the economics of the Pacific Community.
   A. The student will be able to differentiate among the various types of agriculture within the Pacific Community.
   B. The student will be able to identify the major resources and industries of the Pacific Community.
   C. The student will be able to discuss the interdependence of the economy of the Pacific Community.

III. Develop an understanding of the different cultures in the Pacific Community.
   A. The student will be able to differentiate among the cultures of the Far East.
   B. The student will be able to identify the different cultures that make up Australia and New Zealand.

IV. Develop an understanding of the political systems in the Pacific Community.
   A. The student will be able to differentiate among the various political systems in the Pacific Community.
   B. The student will be able to discuss how the growth of the military has affected the different political systems.

Example of Behavioral Instructional Objective:

The student will be able to list ten countries of the Far East as presented in class.

Human Resources

(Note: Refer to Revised Fort Benton Human Resource Guide.)
THE STUDENT - THE INDIVIDUAL
(SELF AWARENESS)
GRADE NINE

THE STUDENT - THE INDIVIDUAL

I. Develop an understanding of self-awareness.
   A. The student will be able to differentiate between needs and drives.
   B. The student will be able to identify attitudes and values.
   C. The student will be able to identify his goals.

II. Develop an understanding of self in relation to others.
   A. The student will be able to indicate his relationship to his primary group; e.g., family, etc.
   B. The student will be able to indicate his relationship to his secondary group; e.g., peers, community, etc.

III. Develop an understanding that job opportunities change.
   A. The student will be able to indicate how economic factors influence occupational opportunities; e.g., war and peace, supply and demand, etc.
   B. The student will be able to indicate how geographic regions influence job opportunities.
   C. The student will be able to indicate how education influences job opportunities.

IV. Develop the ability to use intelligent consumer attitudes.
   A. The student will be able to discuss priorities of consumer goods.
   B. The student will be able to discuss how the law and other agencies aid the consumer.
   (Note: A course on consumer education was taught in Fort Benton in the summer of 1970. This will be the basis for developing this concept.)

Example of Behavioral Instructional Objective:

The student will write a research paper indicating his occupational desires, considering his needs, drives, attitudes, values, and goals.

Human Resources

(Note: Refer to Revised Fort Benton Human Resource Guide.)
MAN'S CIVILIZATIONS
GRADE TEN

WORLD CIVILIZATION

I. Develop an understanding of the beginnings of civilization
   A. The student will be able to identify civilization.
   B. The student will be able to cite causes for development of early civilizations (why and where).
   C. The student will be able to cite examples of the development of trade among the early civilizations.

II. Develop an understanding of how revolutions changed the world
   A. The student will be able to discuss the changes the American Revolution had on Europe.
   B. The student will be able to indicate the impact of change that the French Revolution and Napoleonic had on the world.
   C. The student will be able to discuss the changes resulting from the Bolshevik Revolution.
   D. The student will be able to discuss non-violent revolution.
   E. The student will be able to discuss how some Latin American nations gained their independence.
   F. The student will be able to discuss how the Industrial Revolution changed the living standards of the world.

III. Develop an understanding of the rise of dominance of the Mediterranean states
   A. The student will be able to cite examples of Greek culture that the modern world has absorbed.
   B. The student will be able to contrast and compare the Greek city states and apply the contrasts and comparisons to modern nation states.
   C. The student will be able to discuss how the Roman Empire rose to power and declined.
   D. The student will be able to compare specific examples of the rise and decline of the Roman Empire to the modern nation states; e.g., Britain and the United States.
   E. The student will be able to identify the emergence of Christianity with the decline of Rome.

IV. Develop an understanding of the world during the Middle Ages
   A. The student will be able to trace the movement and settlement of the Germanic tribes in Europe.
   B. The student will be able to compare how the life during feudal times contrasts to present day life in the United States.
   C. The student will be able to indicate that trade developed with the development of civilization.

V. Develop an understanding of the emergence of modern Europe
   A. The student will be able to indicate how the Renaissance and Reformation changed Europe.
   B. The student will be able to indicate how early exploration and colonization changed Europe.
C. The student will be able to identify important European leaders and indicate their contributions.
D. The student will be able to discuss why some European nations became powerful, while the power of others declined.

VI. Develop an understanding of the imperialistic nature of nations of the 19th Century.
A. The student will be able to discuss motives for imperialism.
B. The student will be able to discuss how imperialism played a part in starting World War I.
C. The student will be able to discuss events of World War I; e.g., the start, the duration, the signing of the peace terms, etc.

VII. Develop an understanding of the rise in dictatorships following World War I.
A. The student will be able to discuss how peace terms of World War I led to the rise to power dictatorships and finally to World War II.
B. The student will be able to discuss the techniques used by dictators to control subjects and to take over other countries.
C. The student will be able to discuss World War II events: how the war began, the events during the war, the effects the war has had on present day affairs.

VIII. Develop an understanding of the world since 1945.
A. The student will be able to discuss problems that have developed in Europe since 1945.
B. The student will be able to discuss events in Africa and the Middle East that threaten world peace.
C. The student will be able to discuss events that have developed and are developing in the Asian nations that threaten world peace.

Example of Behavioral Instructional Objective:
The student will be able to list 4 reasons for early exploration during the 15th century as presented in class.

STUDIES
OF THE
UNITED STATES EMERGING
AS A
WORLD POWER
GRADE ELEVEN

THE UNITED STATES EMERGENCE AS A WORLD POWER

I. Develop an understanding of the United States territorial expansion.
   A. The student will be able to discuss the movement into the Northwestern Territory; e.g., Ohio Valley.
   B. The student will be able to discuss the movement west of the Mississippi.
   C. The student will be able to discuss expansion into the "cotton" territories; e.g., Kentucky, Tennessee, Alabama, Mississippi.
   D. The student will be able to discuss territorial expansion beyond the continental United States.
   E. The student will be able to discuss the role of "Manifest Destiny" in the United States territorial expansion.
   F. The student will be able to discuss the effects of communication and transportation on territorial expansion.
   G. The student will be able to discuss the effect immigration had on territorial expansion.

II. Develop an understanding of industrialism.
   A. The student will be able to discuss the transition from economic self-sufficiency to economic interdependency.
   B. The student will be able to identify the manpower involved with industrialism.
   C. The student will be able to discuss the labor-management relationship in the growth of the corporate structure.
   D. The student will be able to discuss the relationship between urbanism and industrialism.
   E. The student will be able to discuss the inter-relationship between industrialization and communication-transportation.
   F. The student will be able to discuss the inter-relationship of industrialization and education.

III. Develop an understanding and appreciation of United States' nationalism.
   A. The student will be able to discuss the effects ethnic groups have on nationalism.
   B. The student will be able to discuss the role of political parties and pressure groups on nationalism.
   C. The student will be able to discuss inter-relationship of nationalism and education.
   D. The student will be able to discuss the effects of external forces on nationalism.

IV. Develop an understanding of the growth of the military in the United States.
   A. The student will be able to indicate reasons for having a military force.
   B. The student will be able to discuss the establishment of a United States military force.
   C. The student will be able to discuss the changing role of the military.
V. Develop an understanding of United States foreign policies.

A. The student will be able to discuss political isolationism as compared to political involvement.
B. The student will be able to discuss the role of economics in the development of foreign policy.
C. The student will be able to discuss the role of the military in foreign policy.
D. The student will be able to discuss foreign events that affected our foreign policy.
E. The student will be able to discuss the effects of transportation and communication on U.S. foreign policy.

VI. Develop an understanding of the United States internal attitudes and policies.

A. The student will be able to discuss the transition from local autonomy to centralized (Federal) government.
B. The student will be able to discuss the internal attitudes that changed policies; e.g., women suffrage, prohibition, anti-trust, civil rights, etc.
C. The student will be able to discuss how transportation and communication affected and affects internal policies and attitudes.

VII. Develop an understanding and appreciation of the influence of the humanities.

A. The student will be able to identify the humanities.
B. The student will be able to discuss the influence of the language arts on the United States' culture.
C. The student will be able to discuss the influence of the arts on the United States' culture.
D. The student will be able to discuss the influence of religion on the United States' culture.
E. The student will be able to discuss the influence of education on the United States' culture.

Example of Behavioral Instructional Objective:

Student will be able to list five reasons for westward expansion during the 19th century as presented in class.

CONSTITUTIONAL INTERPRETATIONS
GRADE TWELVE

CONSTITUTIONAL INTERPRETATIONS

I. Develop an understanding of a background of the Constitution.
   A. The student will be able to indicate how our heritage from English documents influenced the designers of the Constitution.
   B. The student will be able to discuss and indicate ways the Mayflower Compact helped establish the Constitution.
   C. The student will be able to indicate ways in which the Albany Plan of Union laid a format for the writing of the Constitution.
   D. The student will be able to indicate the importance the Declaration of Independence had on the writing of the Constitution.
   E. The student will be able to indicate how the Articles of the Confederation made the Constitution a necessity.

II. Develop an understanding of the problems of developing the Constitution.
   A. The student will be able to indicate that the 13 original states were separate in their political and economic features.
   B. The student will be able to indicate several problems and their solutions confronting the designers of the Constitution.

III. Develop an understanding of the construction of the Constitution.
   A. The student will be able to indicate that the Constitution is divided into articles.
   B. The student will be able to indicate that the Constitution was made with the idea of change.

IV. Develop an understanding of the Court interpretations of the Constitution.
   A. The student will be able to indicate how the Court arrives at its decisions on specific cases.
   B. The student will be able to indicate the possible legislative power of the Courts

Example of Behavioral Instructional Objective:
If given an example that can be found in the Constitution, the student will be able to locate where the article is mentioned or implied in the Constitution.

STUDIES OF CURRENT AFFAIRS ON A GLOBAL SCENE
GRADE TWELVE

CURRENT WORLD AFFAIRS

I. Develop an understanding of current legislation.
   A. The student will be able to discuss the various bills before the legislature at both state and federal levels.

II. Develop an understanding of war and crisis around the world.
    A. The student will be able to indicate what countries are involved and why.
    B. The student will be able to formulate possible results.

III. Develop an understanding of natural disasters around the world.
     A. The student will be able to indicate where such events occur and their effects.

IV. Develop an understanding of economic events around the world.
    A. The student will be able to discuss what countries are involved and who might be affected.

V. Develop an understanding of political affairs happening around the world.
   A. The student will be able to discuss various diplomatic efforts being made throughout the world.

VI. Develop an understanding of various areas of student unrest.
    A. The student will be able to discuss the various causes for student unrest.

VII. Develop an understanding of racial problems.
     A. The student will be able to discuss the current racial problems.

VIII. Develop an understanding and appreciation for advancements in technology.
      A. The student will be able to discuss current technological advancements.

IX. Develop an understanding and appreciation of current cultural developments.
    A. The student will be able to research cultural areas that are of interest to him.

X. Develop an understanding and appreciation for current explorations.
    A. The student will be able to discuss the advancements of new frontiers; e.g., space, oceanography, anthropology, science, etc.
Example of Behavioral Instructional Objective:

The student will list two reasons for current U. S. interests in the country of Burundi.

Filmstrip & Record

- Changing Face of Soviet Union
Our entire effort has been to create a learning process to fit our goals which will be subject to constant revision as the need dictates. As time, teachers, methods, and materials change it is only logical to assume that this curriculum will have to grow with these demands; also that some concepts may have to be deleted. The following instrument is the recommendation of this group for the continual revision of this social studies curriculum outline. This instrument is to be completed by each teacher involved with this curriculum near the end of each semester.

EVALUATIVE INSTRUMENT

At your grade level:

1. Do the concepts listed correspond to the interests of the students? If not, why? If so, how?

2. Are the concepts suited to the maturity level and abilities of the students? If not, what do you suggest?
Are you able to correlate the social studies curriculum with other curriculum areas; e.g., language arts, science, etc. If so, how? If not, why?

Are the behavioral sub-concepts helpful in developing the main concepts? If not, list those that need revision.

Is the content of the theme too great to be covered in the allotted time? If so, what would you delete?

List those resources that you found helpful in developing the concepts.

List those resources that you feel could be omitted from the resource list and tell why.
8. Check those teaching techniques that you are using and list any others that you find useful.

____ Lecture - exposition on the part of the teacher.

____ Pure discovery - teacher poses a problem in such a manner that students must find appropriate raw data and reason out a conclusion.

____ Direct discovery - elements of exposition and discovery are combined.

9. List other suggestions for improving the social studies curriculum.
APPENDIX A

Surveying Fort Benton's Social Studies Efforts

Those staff members responsible for any portion of the K through 12 social studies program were asked to respond to the attached survey instrument. The instrument is short and is composed of three parts. Each teacher was asked to indicate (1) the nature of the social studies offering presently at her grade level; (2) what the teacher considered the strengths of that offering; and (3) what the teacher considered the weaknesses of that offering.

Twenty-three survey forms were distributed; twenty-three survey forms were returned. As a result of this feedback the following was indicated:

1. Fort Benton's past areas of emphasis were:
   K. . . . nothing
   1. . . . Famous Americans and Holidays, map skills, current events
   2. . . . Famous Americans, map skills, community, nations, U.S.
   3. . . . Montana History, map skills, current events
   4. . . . Famous people, nations, Montana, continental studies
   5. . . . Western hemisphere (Canada, U.S., Mexico, Central and South America
   6. . . . Greek and Roman civilizations, medieval period
   7. . . . World Geography (economic-political-physical), U.S.
   8. . . . Survey of the U. S., Civics, Montana History
   9. . . . World History
   10. . . . nothing
   11. . . . U. S. History
   12. . . . U. S. Government
   Electives . Comparative Government
   Current Events

2. Strengths:
   a. Interest of student was considered.
   b. Consideration of other than local.
   c. Develop concept of change.
   d. Develop language skills.
   e. Develop map skills.
   f. Relate man's past to the present.

3. Weaknesses:
   a. Lack of continuity.
   b. No direction.
   c. Poor ethnic studies.
   d. Cover too much in too short of time.
   e. Not enough media or resources.
   f. Understaffed for curriculum established.
SCHOOL SYSTEM SELF SURVEY

This survey is being distributed to those members of our staff responsible for any portion of our Social Studies program. Each teacher is asked to reply to all the statements.

Teacher's Name ________________________________

Teacher's Grade Level _________________________

I. What is the nature of the Social Studies offering presently at your grade level? (i.e., What themes, concepts, ideas, etc. do you teach with reference to Social Studies during the course of the year?)

A. Major Themes or Topics

B. Units

C. Concepts

D. Others

Comments:
II. What do you consider to be the strengths of this offering?

III. What do you consider to be the weaknesses of this offering?
Various teachers, administrators, professors and State Department directors were asked to respond to the attached questionnaire. The purpose was to obtain informative data concerning current practices in the social studies curriculum in the State of Montana. The questionnaire was designed to consider five major areas: (1) general information concerning the school district; (2) organization of the program; (3) nature of the offerings; (4) physical facilities available; and (5) the direction of learning.

Seventy-one questionnaires were distributed; twenty-nine were returned. The following information was obtained.

Very little, if anything, new has been attempted concerning a K-12 social studies program in the schools surveyed. It appears as if most of the schools are currently attempting to begin some type of study or reorganization of their social studies curriculum. All schools are primarily using a textbook approach with some supplementary materials. A number of school districts indicated an investigation of the spiral format rather than a vertical and horizontal format for their programs. Some are also reviewing much of what the Taba study had proposed. It appeared that most schools replying are still concerned primarily with history and geography as their primary disciplines. Few indicated a multi-disciplinary approach.
The following questionnaire is being circulated among school administrators, classroom teachers, and college professors. The purpose is to obtain informative data in the social studies curriculum area in order to assist a group of Fort Benton educators to develop an Individualized Vertical Social Studies Curriculum Outline. Your reply to this questionnaire will be greatly appreciated. Results will be sent to you upon request. A self-addressed return envelope has been enclosed for your convenience.

I. General Information

1. Name of School System

2. Superintendent's Name

3. Number of School Buildings in the System No. of Students 

4. Approximately what percent of the instructional budget is spent in the Social Studies area? Dollars $

5. Is there a district supervisor in Social Studies? Yes No

6. Is there a district curriculum guide provided in Social Studies? Yes No

7. How many members are on the total instructional staff?

8. What are the lines of communication between the elementary and secondary Social Studies teachers?

9. Is there a Department Head Yes No

10. Comments

II. Organization

1. Does the Social Studies Department K-12 have a written statement of its objectives? Yes No

2. Is the Social Studies program planned to provide for sequential development from grade to grade? Yes No

(If so, briefly outline plan)
3. Is the program evaluated at regular intervals and revised accordingly?
   Yes______ No______ How?

4. Are community groups and agencies consulted on development of the social studies program?
   Yes______ No______ What have some of their suggestions been?

5. Do teachers from the various grade levels plan together to develop a sequential program in social studies?
   Yes______ No______ How?

6. Comments

III. Nature of Offerings (Social Studies)

1. What is the major theme being exposed at each level?
   1st grade level
   2nd grade level
   3rd grade level
   4th grade level
   5th grade level
   6th grade level
   7th grade level
   8th grade level
   9th grade level
   10th grade level
   11th grade level
   12th grade level

2. What are the sub-unit topics at each grade level?
   1st grade level -
   2nd grade level -
   3rd grade level -
   4th grade level -
   5th grade level -
   6th grade level -
   7th grade level -
8th grade level -
9th grade level -
10th grade level -
11th grade level -
12th grade level -

3. From what sources is the course content derived? (i.e., textbook, study guide, course of study, etc.) Please indicate titles, publisher, and copyright dates.

4. Are specific provisions made for extensive use of a variety of resources outside the classroom? If so, what are they?

5. What are the major social studies areas considered in your K-12 program?

   Sociology
   History
   Political Science
   Geography
   Economics
   Anthropology
   (Others - please indicate)

6. At what point does your consideration of Social Studies become an in-depth study of major problems and concepts rather than a limited survey of many topics?

7. Comments

IV. Physical Facilities

1. The Social Studies instructional space provides for a variety of instructional activities.

   Large lecture room
   Seminar rooms
   Student work rooms
   Conventional classrooms
   Material resource center

2. The following equipment is available:

   bookshelves
   magazine racks
   T. V.
   16 mm projector
   overhead
   Others
3. Is the teaching of Social Studies limited to rooms which are appropriately equipped for serving this function?

4. Comments?

V. Direction of Learning

1. Instructional staff:
   a. Does each staff member have intensive preparation in the subjects they are teaching in the area of Social Studies?

2. Instructional activities:
   a. A variety of instructional techniques are used:
      - Individual and committee reports
      - Panel discussions
      - Lectures
      - Class discussions
      - Simulation
      - Role playing
      - Large group instruction
      - Small group instruction
      - Independent study
      - Team teaching
      - Other (please specify)

3. Is instruction related to contemporary affairs? How?

4. Instructional material
   a. Different types of instructional materials are readily available.
      - Books and periodicals
      - Pamphlets, posters, pictures, clippings, etc.
      - Films, filmstrips and filmloops
      - Tapes and records
      - Transparencies
      - Maps, charts and globes
APPENDIX C

ON-SITE VISITATIONS

A four member team made on-site visitations to five schools in the State of Washington. These schools were: (1) Continuation High School in Spokane; (2) A. C. Davis High School in Yakima; (3) Eisenhower High School in Yakima; (4) Indian Trials Elementary School in Spokane; and (5) Broadway Elementary School in Yakima.

Facts concerning these schools' social studies programs are as follows:

2. Another high school has combined their English and social studies and have called it Humanities. Their effort is to bring more relevance into the program, more reflective of present life situations. Much of their emphasis is on individualization. They have "packaged" many areas of concentration.

3. Another high school, which was quite traditional, was basically following state requirements.

4. An elementary school was in the process of developing a continuous progress program for social studies.

5. The other elementary school is involved with project "PLAN" in all areas of their curriculum. This is basically individualized.
APPENDIX D
Reference Material

The following reference material was research in an attempt to make this effort as dependable as possible. It was found that no one source provided us with the exact formula for our task. However, in searching through this reference material we were able to develop a curriculum outline we feel fits the needs of the students of Fort Benton.
