Four appendixes are presented for the evaluation of experiences with the use within Head Start of the "Healthy, That's Me" program. Appendix A deals with methodology for the use of telephone interviewing, including data on associated costs. Appendix B presents letters to respondents selected for telephone interviews and samples of interviews used with teachers and trainers. The third appendix gives a review of memos from the Office of Child Development to regional offices regarding health education curriculum objectives and evaluation. Parent interviews are given in Appendix D, in both English and Spanish. (LH)
This draft is not for general circulation and is not for quotation without permission of the author(s). Opinions expressed are those of the author and do not necessarily represent the views of The Urban Institute or its sponsors.

Evaluation of Experiences with the Use of Healthy, That's Me

by

Richard E. Zamoff
and
Katryna J. Regan

THE URBAN INSTITUTE
WASHINGTON, D.C.
APPENDIX A

THE USE OF TELEPHONE INTERVIEWING: A METHODOLOGICAL NOTE
APPENDIX A

This appendix presents data on the use of telephone interviewing and the associated costs. Since the potential of telephone interviewing as a means of data collection may be greater than many would assume, especially in cases where time and financial constraints make it necessary to complete a substantial number of interviews in a fairly short time at relatively modest cost, these figures should be of some interest to Office of Child Development program and project managers.

In this study, virtually all data were collected by means of telephone interviewing.1/ Telephone interviews were completed with 11 regional office staff, 52 Head Start directors, 99 teacher trainers, and 299 Head Start teachers. Taking our total of 461 interviews as a whole, the "average interview" took 21 minutes to complete. Taking into account such factors as the number of preliminary phone calls made to regional offices and Community Action Agencies, the length of the interviews, and the number of callbacks needed, the total cost for interviewing was $3,788 ($8.22 per interview). While this figure does not take into account personnel costs, it compares very favorably with estimates of the cost of other methods of data collection.2/ Table 31 presents data on direct dialing costs for

---

1/ As indicated earlier in this report, site visits to Lawrence Johnson and Associates training sessions and informal conversations with Head Start parents and staff members served to supplement this approach to data collection.

2/ For example, see Carol H. Weiss and Harry P. Hatry, An Introduction to Sample Surveys for Government Managers, The Urban Institute, March 1971, pp. 41-43 and pp. 46-47.
interviews of various lengths conducted from the Urban Institute to the
ten regional offices.

\( \text{Figures provided by C and P Telephone Company.} \)

Of at least equal importance to cost data is information on our inter-
view completion rates and interviewer impressions of the quality of the
data obtained. Interviews were completed with 11/11 regional office staff
(100.0%), with 52/53 Head Start directors (98.1%), with 99/100 teacher
trainers (99.0%), and with 299/317 Head Start teachers (94.3%). Reasons
for non-completion were most likely to be "left Head Start Program or
center," "hospitalization," etc., and not "refusal to answer."

As far as the quality of the data is concerned, interviewers reported
excellent cooperation on the part of the respondents. Sending letters to
those respondents selected for the telephone interview (see Appendix B).
undoubtedly improved the quality of the data as well as the overall response rate. These letters informed the recipients of their (random) selection, described the purposes of the study, and mentioned that a member of the project staff would be calling in a few days to conduct a telephone interview.

While some respondents were called at inconvenient times, it was quite easy to arrange an alternative callback appointment (sometimes at their home in the evening). Many Head Start directors and teacher trainers reported that they appreciated the chance to talk when it was convenient for them. In addition, members of the project staff were able to monitor a good number of the earlier calls in order to maximize the likelihood of uniform, high quality interviews.

Certainly, there are content areas to which telephone interviewing is not appropriate, and we did encounter a few troublesome situations (e.g., the noise level at some Head Start centers made it a challenge to complete an interview at one sitting, the wide range in the verbal skills of teacher aides made it difficult to conduct some teacher interviews, etc.). But on balance, interviewing proceeded quite smoothly. One of the key advantages was not having to worry about the problem of unlisted numbers or no phones at all (a real concern for some types of household interviewing). In short, the project seems to document the contention that telephone interviews can furnish a very useful and relatively inexpensive data collection tool.
APPENDIX B

LETTERS TO RESPONDENTS SELECTED FOR TELEPHONE INTERVIEWS AND INTERVIEWS USED
Hello, may I please speak to [name].

I'm [name] and I'm with The Urban Institute in Washington, D.C. We are collecting information needed to assist Office of Child Development decisions on the use of health education curricula in Head Start Projects, OCD decisions on future methods of training Head Start teachers in the use of health curricula, and OCD decisions on future expansion of the use of specific health curricula.

Would you mind answering a few questions to help us with our research? What you say will be held in strict confidence and will not be associated with your name in any way. What you say will become part of a general report (in which your name will not be used) which will combine the views of other Regional Office staff, teacher trainers, Head Start teachers, teacher aides, and parents.
1. Are you aware of any Head Start projects in this region that were using any specific health curricula before they received Healthy, That's Me?

   - Yes (1)
   - No (2)

a. If yes, do you know the names of any of these curricula?

b. Which parts of this curriculum guide do you feel have been of most value to Head Start Projects in this region?

c. Which parts of the curriculum guide do you feel have been of least value?

2. In general, what is your attitude about the health education curriculum guide, Healthy, That's Me? Would you say it is very favorable, favorable, unfavorable, or very unfavorable?

   - Very favorable (1)
   - Favorable (2)
   - Unfavorable (3)
   - Very unfavorable (4)

   a. Which parts of this curriculum guide do you feel have been of most value to Head Start Projects in this region?
3. How does the Healthy, That's Me curriculum guide compare to other health education materials that you've used or seen before? Is it:

- Better (1)
- About the same (2)
- Worse (3)

a. What are the three most important reasons you feel this way?

1. 

2. 

3. 

b. What are these other materials?

4. From the information you have, how easily have teachers in your region been able to incorporate the Healthy, That's Me materials into the total Head Start program?

- Very easily (1)
- Fairly easily (2)
- Not easily (3)
- Not at all (4)
The Urban Institute

1. What comments have you heard from Head Start Directors, teacher trainers, or teachers about the Healthy, That's Me curriculum guide?

2. Now we would like you to comment on any parts of the health education curriculum guide, Healthy, That's Me that may be causing problems in this region. Do you know of any changes in form or content that would be helpful in solving any problems you have encountered? How could the curriculum guide be revised or refined to produce greater benefits to Head Start Directors, Head Start teachers, Head Start children, and their parents?

3. Are you familiar with the training sessions in the use of the Healthy, That's Me curriculum guide given by Lawrence Johnson and Associates?

   Yes (1)
   No (2)

   a. Did you attend these training sessions?

      Yes (1)
      No (2)

   b. If yes, how useful do you feel this training has been in helping staff work with Head Start children?

      Very useful (1)
      Somewhat useful (2)
      Not useful (3)
The Urban Institute.

7. How will the Healthy, That's Me curriculum guide be introduced to Head Start projects in this region? Which projects will receive the curriculum guide first? On what basis was this decision made?
8. Have you had any direct experience with the Healthy, That's Me curriculum guide as a teacher or a teacher trainer?

- Yes, teacher (1) 23
- Yes, teacher trainer (2)
- No (3)

  a. In your opinion, how desirable is it to have any specific health curriculum for use with Head Start children and their parents?

- Not desirable at all (1) 24
- Somewhat desirable (2)
- Very desirable (3)

9. Have the Healthy, That's Me materials helped teachers in this region address specific health problems? If yes, which ones?

- 

  a. Are there specific health problems in your region not addressed by the Healthy, That's Me materials? If yes, which ones?

- 

10. In addition to the comments you have made till now, is there any more information or opinions you would want to provide to assist OCD decisions on the use of health education curricula in Head Start projects and related teacher training?

- 

THANK YOU VERY MUCH FOR YOUR COOPERATION!
February 22, 1972

Dear Head Start Director,

The Office of Child Development and The Urban Institute are working together to collect information needed to assist OCD decisions on revisions of the health education curriculum guide, Healthy, That's Me, OCD decisions on future methods of training Head Start teachers in the use of the curriculum guide, and OCD decisions on future expansion of the use of the guide.

You have been chosen at random to be a member of the research sample. In a few days someone at The Urban Institute will call you to find out your ideas on health education. You can be sure that your answers will be confidential and will never be associated with you in any way. If you are called for an interview at an inconvenient time, please suggest a more appropriate time when the interviewer can call you back.

This telephone interview will take only about 20 minutes of your time, but will add vital information to revisions of the Head Start health education curriculum guide and related teacher training. May I take this opportunity to thank you in advance for your cooperation.

Sincerely,

Richard B. Zamoff
Project Director
Health Curriculum Project
HEALTH EDUCATION HEAD START DIRECTOR INTERVIEW

Hello, may I please speak to (give name)? I'm with The Urban Institute in Washington, D.C. We are collecting information needed to assist Office of Child Development decisions on the use of health education curricula in Head Start Projects, OCD decisions on future methods of training Head Start teachers in the use of health curricula, and OCD decisions on future expansion of the use of specific health curricula.

HEALTH EDUCATION TEACHER INTERVIEW

Hello, may I please speak to
I'm (give name) and I'm with The Urban Institute in Washington, D.C.
We are collecting information needed to assist Office of Child
Development decisions on the use of health education curricula in
Head Start Projects, OCD decisions on future methods of training
Head Start teachers in the use of health curricula, and OCD decisions
on future expansion of the use of specific health curricula.

Would you mind answering a few questions to help us with our research?
What you say will be held in strict confidence and will not be associated
with your name in any way. What you say will become part of a general
report (in which your name will not be used) which will combine the views
of other Head Start teachers and teacher aides.
The Urban Institute.

Teacher (1)
Teacher aide (2)

---

1. How many years of teaching experience do you have?  
   a. How many years have you been a Head Start teacher?  

2. In terms of your preparation in the area of health education, how would you rate yourself at the start of this school year using scale A? (Read scale)  
   1. Poorly Prepared  
   2. Average Preparation  
   3. Well Prepared  

3. To what extent do you feel most of the children in your Head Start Project have developed an understanding of how to care for their present health needs? Please answer according to scale C. (Read scale)  
   1. To No Appreciable Extent  
   2. To Some Extent  
   3. To a Great Extent  

4. To what extent do you feel most of the children in your Head Start Project have developed an understanding of how to care for their future health needs? (Read scale C)  
   1. To No Appreciable Extent  
   2. To Some Extent  
   3. To a Great Extent  

5. To what extent do you feel most of the parents of the children in your Head Start Project have developed an understanding of how to care for the health of their children? Please answer according to the following scale. (Read scale C)  
   1. To No Appreciable Extent  
   2. To Some Extent  
   3. To a Great Extent  

6. What kind of health education did you have in your Head Start Project before you received Healthy, That's Me?

HEALTH EDUCATION TEACHER INTERVIEW

Hello, may I please speak to
I'm (give name) and I'm with The Urban Institute in Washington, D.C. We are collecting information needed to assist Office of Child Development decisions on the use of health education curricula in Head Start Projects, OCD decisions on future methods of training Head Start teachers in the use of health curricula, and OCD decisions on future expansion of the use of specific health curricula.

Would you mind answering a few questions to help us with our research? What you say will be held in strict confidence and will not be associated with your name in any way. What you say will become part of a general report (in which your name will not be used) which will combine the views of other Head Start teachers and teacher aides.
1. How many years of teaching experience do you have? ______
   a. How many years have you been a Head Start teacher? ______

2. In terms of your preparation in the area of health education, how would you rate yourself at the start of this school year using scale A? (Read scale)

   1. Poorly Prepared
   2. Average Preparation
   3. Well Prepared

3. To what extent do you feel most of the children in your Head Start Project have developed an understanding of how to care for their present health needs? Please answer according to scale C. (Read scale)

   1. To No Appreciable Extent
   2. To Some Extent
   3. To a Great Extent

4. To what extent do you feel most of the children in your Head Start Project have developed an understanding of how to care for their future health needs? (Read scale C)

   1. To No Appreciable Extent
   2. To Some Extent
   3. To a Great Extent

5. To what extent do you feel most of the parents of the children in your Head Start Project have developed an understanding of how to care for the health of their children? Please answer according to the following scale. (Read scale C)

   1. To No Appreciable Extent
   2. To Some Extent
   3. To a Great Extent
The Urban Institute-3

6. What kind of health education do you have in your Head Start Project?

<table>
<thead>
<tr>
<th>Col.</th>
<th>Punch</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

a. Are you using specific health education materials in your Head Start Project?

- Yes (1)
- No (2)

b. If yes, what are these materials?

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

c. If yes, are you using these health education materials only with children, only with parents, or with both children and parents?

- Only children (1)
- Only parents (2)
- Children and parents (3)

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>

THANK YOU VERY MUCH FOR YOUR COOPERATION!
March 6, 1972

Dear Teacher Trainer,

The Office of Child Development and The Urban Institute are working together to collect information needed to assist OCD decisions on revisions of the health education curriculum guide, Healthy, That's Me, OCD decisions on future methods of training Head Start teachers in the use of the curriculum guide, and OCD decisions on future expansion of the use of the guide.

You have been chosen at random to be a member of the research sample because of your participation in a curriculum training session at the Regional Office, and because you have first-hand experience in how the curriculum guide is being received in the field. In a few days someone at The Urban Institute will call you to find out your ideas on health education. You can be sure that your answers will be confidential and will never be associated with you in any way. If you are called for an interview at an inconvenient time, please suggest a more appropriate time when the interviewer can call you back.

This telephone interview will take only about 20 minutes of your time, but will add vital information to revisions of the Head Start health education curriculum guide and related teacher training. May I take this opportunity to thank you in advance for your cooperation.

Sincerely,

Richard B. Zamoff
Project Director
Health Curriculum Project
Hello, may I please speak to [name]?

I'm (give name) and I'm with The Urban Institute in Washington, D.C. We are collecting information needed to assist Office of Child Development decisions on the use of health education curricula in Head Start Projects, OCD decisions on future methods of training Head Start teachers in the use of health curricula, and OCD decisions on future expansion of the use of specific health curricula.

Would you mind answering a few questions to help us with our research? What you say will be held in strict confidence and will not be associated with your name in any way. What you say will become part of a general report (in which your name will not be used) which will combine the views of Regional Office staff, teacher trainers, Head Start teachers, teacher aides, and parents.
1. a. Which parts of the Healthy, That's Me curriculum guide do you feel will be of most value to the teachers you have trained?

b. Which parts of the curriculum guide do you feel will be of least value?

c. In general, what is your attitude about the health education curriculum guide, Healthy, That's Me? Would you say it is very favorable, favorable, unfavorable, or very unfavorable?

b. If no, under what conditions would you recommend that the materials be used throughout Head Start?

THANK YOU VERY MUCH FOR YOUR COOPERATION!
APPENDIX C

MEMOS FROM OFFICE OF CHILD DEVELOPMENT TO REGIONAL OFFICES
TO: Assistant Regional Directors  
FROM: Edward Zigler, Director Office of Child Development  
SUBJECT: Introduction of Health Education Curriculum into Head Start Communities

One of OCD's objectives for FY 1972 is the introduction of the recently developed Health Education Curriculum into programs serving as many as 100,000 children. The curriculum, "Healthy, That's Me", is directed toward children, their parents and their teachers. It addresses itself to the total physical and emotional well-being of the child. "Healthy, That's Me" consists of five study units to be taught by a classroom teacher; nine handbooks for parents, and five workbooks for each child.

The curriculum is being introduced initially into 19 Head Start programs. Three copies of each element of the curriculum will be mailed to you by the end of July, so that you and your appropriate staff can become familiar with it.

Accomplishing our objective will be a major task and we will need your help in introducing the curriculum to full year programs. To expedite the process, the following timetable is established:

1. Each ARD should submit to Mrs. Lee Burner, Health Services Specialist, the name of the regional office contact person for this project by July 30, 1971.

2. Each region should confirm and submit names of communities into which the curriculum is to be introduced by August 30.

3. Training will be instituted for appropriate Regional and local program personnel by October 15, 1971. During the coming weeks, we will be working with you to identify people to be trained and to select training dates and locations.

To ensure equitable distribution of the curriculum, the OCD Regional support staff has assigned a proportionate share of children to be reached in each region, as follows:

<table>
<thead>
<tr>
<th>Region</th>
<th>Full Year Children</th>
<th>% of Total</th>
<th>Estimate of No. of Children Reached</th>

<td><strong>99,990</strong></td>
</tr>
</tbody>
</table>

To assist you in reaching your share of children, the Regional support staff compiled a list of programs (attachment) which approximate the number of children to be reached in each region. These are presented only as possibilities and are not intended to dictate your choice of grantees you wish to reach with the Health Education Curriculum. It is important that the curriculum only be introduced to local programs, whose staff and policy council wish to use it. We prefer that the curriculum be introduced into your larger programs, so that management of the project does not become unwieldy.

Without your complete support of this program, we will be unable to meet our objective. Therefore, I urge you to help us implement this curriculum in a manner directed towards improving the present and future health of the children we serve.

MEMORANDUM

Assistant Regional Directors
Office of Child Development

DATE: DEC 17 1971

ROM: Richard E. Orton, Associate Director
Bureau of Head Start and Child Service Program

SUBJECT: Health Education Curriculum Evaluation

The Urban Institute grant for evaluation of Health Start has been augmented to include evaluation of the health education curriculum.

Since the maximum time for exposure of the children or their parents to the curriculum in this Head Start year will be five months, this time can best be used to generate a set of empirical data and administrative experience from which to improve the training and materials, and to design carefully a comprehensive study to be conducted in the next full-year Head Start cycle.

Specifically, the current year evaluation is intended to:

1) Assess the effectiveness of the training of trainers.

2) Compare the different approaches taken by trainers to train teachers to include methodology, cost, and teacher satisfaction.

3) Relate teacher attitudes to acceptance of the materials, training, and use of the curriculum.

4) Determine the ease with which teachers are able to incorporate the health education curriculum materials into the Head Start schema.

5) Determine which parts of the curriculum were effective/ineffective for use by the teachers, were easy/difficult to use by the teachers, were accepted/rejected by the children, etc.

6) Determine the degree to which, and the relative ease with which, parents became involved in the program.
7) Involve a small group of parents in the design of an interview questionnaire for use in subsequent evaluation.

During the next fiscal year a full-scale evaluation based on the experience of the preliminary work described above, review of the literature, and consultation with psychologists, early childhood educators, etc. will be initiated.

Dr. Richard Zamoff will be the principal person, of the Urban Institute, responsible for the present evaluation of the health education curriculum. Mrs. Helen Howerton of OCD is the Project Officer for this grant. Please call on them as necessary and assist them in whatever manner necessary for the success of this study.
APPENDIX D

PARENT INTERVIEW (ENGLISH AND SPANISH)
HEALTH EDUCATION PARENT INTERVIEW

Hello. I'm (give name) and I'm with The Urban Institute in Washington, D.C. We are collecting information needed to improve health education in the Head Start Program. Would you mind talking to me for a few minutes? What you say will not be associated with your name in any way. What you say will become part of a general report (in which your name will not be used) which will combine the views of other Head Start parents on health education.

Number of Parents: 

Head Start Center: 

1. Do you know which health education materials are being used in your children's Head Start Project?
   
   Yes (1)
   No (2)

   a. How did you happen to find out about these materials? When did you see them for the first time?

   b. Have you read these materials?
      Yes (1)
      No (2)

   c. If yes, when?
      At Head Start meetings
      Other (Specify: ________________________)
      Other (Specify: ________________________)

   d. Did you know anything about Healthy, That's Me or about the parent's handbooks before you received them?
      Yes (1)
      No (2)

   e. Has your children's Head Start Project had any meetings about these materials? How often are these meetings? How many of these meetings have you been at?
f. What do you remember most about what went on at these meetings?

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

2. In general, what is your attitude about the Healthy, That's Me parent materials?

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

a. Have these materials made any difference in the way you care for your children's health? In what way?

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

b. Have you followed any of the suggestions about caring for your children's health?

   Yes (1)
   No (2)
c. If yes, which suggestions have you followed?

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

d. If no, why not?

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

e. Which of these materials are of most help to you? Why?

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

f. Which of these materials are a waste of time? Why?

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________
g. Do you find the Healthy, That's Me materials easy to understand?
   - Yes (1)
   - No (2)

h. If no, what isn't clear to you? What could be done to these materials to help Head Start parents understand them better?

i. Are there health problems in your community that the Healthy, That's Me materials don't help you with? If yes, which ones?

j. Are there health problems in your community that the parent handbooks do a good job with? If yes, which ones?
k. How do the Healthy, That's Me materials compare to other health education materials that you have seen or used before? What are these other materials?

3. How useful have you found the material in the parent's handbook, "Your Part As A Parent in Healthy, That's Me"?

a. What should be done to make this a better handbook?

4. How about the parent's handbook, "Your Family"? How useful is the material in it?

a. What should be done to improve this handbook?
5. How about the parent's handbook, "Americans All"?

   a. What should be done to make this a better handbook?

6. How about the parent's handbook, "Making It Easy to Keep Healthy At Home"?

   a. What should be done to improve this handbook?

7. How about the parent's handbook, "Your Growing Child"?

   a. What should be done to make this a better handbook?
8. How about the parent's handbook, "Dealing With Family Upsets?"

   a. What should be done to improve this handbook?

9. Finally, how about the parent's handbook, "Your Child's Health"?

   a. What should be done to improve this handbook?

10. In what other form could the material in the parent's handbooks be presented so it would be more helpful to you?
11. Do you think your children understand more about how to care for their health since they've been using the Healthy, That's Me materials? How do you know? Are there things they do now that they did not do before they got these materials at their Head Start Project?

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

12. Have you asked your children's Head Start Staff any questions about the material in the parent handbooks?

   Yes (1)  
   No (2)  

   a. If yes, what questions did you ask?

   ________________________________________________________________
   ________________________________________________________________
   ________________________________________________________________
   ________________________________________________________________
   ________________________________________________________________
   ________________________________________________________________

   b. If no, why haven't you asked any questions about this material?

   ________________________________________________________________
   ________________________________________________________________
   ________________________________________________________________
   ________________________________________________________________
   ________________________________________________________________
   ________________________________________________________________
13. Do you think it's a good idea to have a health education program for young children and their parents in your community? Why? Why not?

[space for handwritten response]

a. What are the first things you think such a health education program should work on?

[space for handwritten response]

THANK YOU VERY MUCH FOR YOUR COOPERATION!
ENTREVISTA PARA PADRES DE FAMILIA
ACERCA DE LA EDUCACION
SOBRE LA SALUD

Buenos días (tardes). Mi nombre es (de su nombre) y trabajo con el Urban Institute en Washington, D.C. Estamos tratando de conseguir la información necesaria para poder mejorar nuestro Proyecto Head Start acerca de la educación sobre la salud. Le importaría hablar conmigo por unos minutos? Lo que usted diga no será relacionado de ninguna manera con su nombre. Lo que usted diga entrará a hacer parte de un informe general el cual combinará los puntos de vista de otros padres miembros del Proyecto Head Start acerca de la educación sobre la salud (su nombre no será publicado en este informe).

Number of Parents: ____________________________

Head Start Center: ____________________________
1. Sabe usted que clase de material usa el Proyecto Head Start en el cual participan sus niños?

   ____ Si(1)
   ____ No(2)

a. Como se enteró acerca de este material? Cuando vio usted este material por primera vez?
